(c) *Transfer of loans to eligible applicants—(1) Eligibility.* A loan may be transferred to an applicant who meets the eligibility requirements for the kind of loan being assumed or whose situation after the transfer will satisfy such eligibility requirements. Also, an RH Senior Citizen loan may be transferred to anyone eligible for a Section 502 RH loan. An ORE loan may be transferred to an applicant who meets the eligibility requirements for an FO loan, or to an applicant who meets the eligibility requirements for an RH loan if it is a nonfarm tract and was security for an FH loan originally. An RH loan to a person of low or moderate income may be transferred to a person whose income is above moderate and who meets the other requirements of an eligible transferee. However, preference will ------ An above moderate loan may be transferred to an applicant whose income may not be in the above moderate category provided his income is sufficient to meet the terms of the loan. Such a loan, after the transfer, will continue

to be classified as above moderate. Special livestock or other emergency type loans no longer being made may be transferred to an applicant who meets current EM loan requirements. Any other type of loan for which there are no present authorizations or eligibility requirements may be transferred only with the advice of the National Office after considering the recommendation of the State Director and reviewing the case file.

(2) *Repayment and reamortization terms—(i) Form FmHA 460–9.* Except as noted below for RH loans, assumption of any FmHA loan may be approved without any change in the balance owed, interest rate, or other terms. In such cases Form FmHA 460–9 will be used. A loan may be transferred even though it is on schedule, ahead of schedule, or behind schedule. Whenever reasonably possible, any delinquency should be paid at the time of assumption. However, this is not required if the total FmHA debt to be assumed is within the debt paying ability of the transferee.

(A) Rural Housing Disaster (RHD) loans will be transferred at the current rate for section 502 loans unless the transferee is eligible for a RHD loan.

(B) Direct sections 502, 503, and direct Senior Citizen RH loans will be transferred at the current rate for section 502 loans.

(C) Low and moderate RH loans transferred to a person having an above-moderate income will be transferred at the current rate for an above-moderate section 502 loan.

(ii) *Form FmHA 460–5.* If an extension of the existing loan repayment period is necessary to enable the transferee to be successful, Form FmHA 460–5 will be used. The new repayment period will not exceed the repayment period for a new loan of the type involved; for example, FO—40 years, OL—7 years, and RH—33 years. If a new repayment period is used, the current interest rate for a new loan of the type involved will be used and any insurance charge applicable to such a loan will be provided for, except in assumptions by a surviving spouse under § 1872.18(b)(4). In determining the new repayment period and interest rate, (a) an ORE loan will be considered an FO or RH loan, as appropriate, if the applicant and the property meet the requirements of § 1872.18(c)(1), and (b) an SL or other emergency type loan no longer being made will be considered an EM loan.

(d) *Transfer of loans to ineligible transferees.* When a borrower sells or proposes to sell the real estate security to a person(s) who is not eligible to assume the indebtedness in accordance with §1872.18 (c) and the mortgage requires the Government's consent for the transaction, it will be the policy to permit assumption of the account by the ineligible transferee if it is in the best interest of the FmHA. Otherwise, the account will be immediately liquidated. Ineligible transferees may include a farming corporation or a farming partnership but do not include other corporations or partnerships, real estate brokers, or financing institutions. For any type of loan for which there are no existing authorizations or eligibility requirements in FmHA Instructions, the loan may be transferred under the requirements and conditions of this Subpart. If the approval official determines that it is in the best financial interest of the FmHA to transfer the account, he may consent to the transfer by assumption agreement provided:

(1) *Downpayment.* Each transferee is required to make as large a downpayment on the FmHA secured debt as he is financially able to make under the circumstances. However, no transfer to an ineligible applicant may be approved without at least ten (10) percent downpayment.

(2) *Terms—farm.* Except for RH loans on nonfarm tracts, the balance of the FmHA debt assumed is scheduled for repayment in not to exceed ten (10) years with amortized monthly or annual installments, and with interest to the borrower at the rate being charged for section 502 RH loans to moderate-income applicants at that time or at the rate of interest specified in the note being assumed, whichever is greater. When it has been definitely determined that a property cannot be transferred on terms of ten (10) years or less because of conditions in the area, the State Director may authorize a longer repayment term not to exceed fifteen (15) years. When the FmHA debt consists only of OL and EM operating type loans secured by real estate, the balance of the debt assumed will be scheduled for repayment in not more than five (5) years. In case of real estate loan transfers previously made on terms of not more than five (5) years and the borrower, because of crop failure, a natural disaster, or similar conditions beyond his control, is unable to meet the scheduled installments, an extension of the repayment period not to exceed a total of ten (10) years from the date of transfer may be authorized provided the County Committee and the State Director determine that the extended repayment period is necessary to prevent foreclosure action and the Government's interest will not be adversely affected. In such cases, the unpaid balance owed will be reamortized over the remaining period and the borrower will execute a replacement assumption agreement evidencing the debt.

(3) *Terms—nonfarm.* For RH loans secured by a lien on a nonfarm tract, the balance of the RH debt assumed will be scheduled for repayment in not more than five (5) years with amortized annual or monthly installments. Interests on the amount assumed will be charged at the rate currently applicable to above-moderate RH loans, including insurance charges, or at the rate of interest specified in the note being assumed, whichever is greater.

(4) *Payment.* The transferee has ability to pay the FmHA debt in accordance with the assumption agreement and the legal capacity to enter into the contract.

(5) *County Committee.* The County Committee, except for Section 502 and 504 RH loans, finds that the transferee will honestly endeavor to make payments in accordance with the assumption agreements, maintain the security property, and carry out his other obligations in connection with the loan.

(6) *Condition.* The transfer will not adversely affect the FmHA program in the area.

(e) *Consent of FmHA not required to transfer.* When the FmHA mortgage(s) does not require the Government's consent to the sale of the security and the borrower conveys or proposes to convey the security to a person who is ineligible or unwilling to assume the FmHA debt in accordance with § 1872.18 (c) or (d), the Government will not consent to the sale. In such a case, the County Supervisor will advise the State Director of the sale. If the account is delinquent or the loan is otherwise in default, the County Supervisor also will advise the State Director of the nature of the default, and any specific plans that may have been made to correct the default. If the State Director decides to continue with the account, it will be serviced in the name of the borrower and otherwise serviced in the usual manner.

(f) *Release of transferor from liability.* The policy of the FmHA is that the borrower (and any cosigner for an RH loan) will be released from personal liability to the FmHA when all of the real estate security for a loan is transferred under § 1872.18 (c) or (d) and the total outstanding debt or that portion of the debt equal to the present market value of the security is assumed. Borrowers, however, may not be released from personal liability to the FmHA when real estate securing loans, other than section 502 and 504 RH loans, is transferred to an ineligible transferee under § 1872.18(d) unless the debt assumed by the transferee is scheduled for repayment in not to exceed five (5) years from the date of the assumption agreement. Also, when the total outstanding debt is not assumed, the following conditions must be met:

(1) *Required certification—(i) Certification by County Committee.* The County Committee, except for section 502 and 504 RH loans, must execute a memorandum containing the following statement:

(Name of transferor and any cosigner) in our opinion do not have reasonable ability to pay all or a substantial part of the balance of the debt not assumed after considering their assets and income at the time of transfer. Transferors have cooperated in good faith, used due diligence to maintain the security against loss, and otherwise fulfilled the covenants incident to the loan to the best of their ability. Therefore, we recommend that the transferor and any cosigner be released of personal liability upon the transferees' assumption of that portion of the indebtedness equal to the present market value of the security.

(ii) *Certification by loan approval official.* The official approving the transfer

V 40166
APR 4 75

section 502 and 504 RH loans must execute a statement containing the statement provided for in § 1872.18(f)(1)(i) when County Committee action was not required to authorize release of the borrower from personal liability to the FmHA.

(3) *Release.* For an RH loan involving a cosigner, the transferor may be released from personal liability only if the cosigner also can be released.

(j) *Continued liability.* When an ineligible transferee assumes an FmHA loan, other than a section 502 and 504 RH loan, scheduled for repayment in more than five (5) years from the date of the assumption agreement, the transferor must indicate that he will continue to be liable for the debt by signing an agreement as follows:

CONTINUED LIABILITY AGREEMENT OF PRESENT OBLIGOR

The undersigned hereby agree to remain personally liable for the indebtedness owed to the FmHA and assumed by _____ (assuming parties) under assumption agreement dated _____

_____

_____

(Date)

(The original of the signed agreement will be attached to the original assumption agreement, a copy filed in the transferee's County Office case folder, and a copy provided the transferor.)

(g) *Processing transfer by assumption of indebtedness.* When the transfer is not within the County Supervisor's approval authority, the docket with the transferor's case file will be sent to the District Director or State Office, as appropriate, for approval or disapproval.

(1) *Refund of unused funds, loan funds not advanced, transaction record.* Unexpended funds in the supervised bank account will be applied as a refund unless FO, SW, RL, RH, RRH, LH, or EM security is transferred to an eligible applicant and the funds are needed for completing planned development. Any obligation of, or request for loan funds not yet advanced will be cancelled. Form FmHA 451–36, Form FmHA 451–31 or the monthly payment account Status Report will be used to compute the unpaid balances due on the effective date of the transfer.

(2) *Preparation and distribution of transfer docket.*—(i) *Checking docket forms.* When the transfer docket forms shown in § 1872.18(g)(2)(iii) have been completed, the approval official will determine that the proposed transfer conforms to the applicable procedural requirements, each form is prepared correctly in accordance with Forms Manual Insert or other appropriate Subparts, and items such as names, addresses, and the amount of the indebtedness to be assumed are the same on all forms in which such items appear.

(ii) *Information on the availability of other credit.* The County Supervisor will record in the running case record the pertinent information concerning the negotiations made by an eligible transferee and the discussion by FmHA personnel with the applicant's creditors and other lenders. The investigation and availability of other credit for eligible transferees will be documented as required for the kind of loan being assumed. This must be sufficiently clear and adequate to establish that other credit is not available to pay the debt in full and make the transfer unnecessary. Any letters from lenders or other evidence which may have been obtained indicating that the applicant is unable to obtain satisfactory credit elsewhere will be included in the loan docket.

(iii) *Distribution of transfer docket forms.* The following table will be used as a guide in distributing the necessary forms.

FmHA Form No.	Name of form	Total number of copies	Signed by transferee	Transfer docket	Copy for transferee
440–3	Record of Actions	3		1	2
[1] 440–4	Nondiscrimination Agreement	2	1	1	2
440–1	Application for FmHA Services (with attachments)	1	1	1	
[2] 410–4	Application for Rural Housing Loans (Non-Farm Tract)	1		1	
[3] 440–5	Request for Verification of Employment	1		1	
465–5	Transfer of Real Estate Security	2	1	1	1
[4] 440–2	County Committee Certification or Recommendation	1		1	
[4] 465–2	Farm and Home Plan	1	1	1	1
[4] 431–1	Long-Time Farm and Home Plan	2	1	2	1
[4] 431–3	Family Budget	2	1	2	1

451–35	Status of Account	2		[9] 2	

[1] Original.
[2] Copy.
[3] When applicable.
[4] In addition to plan for the first full year, interim plan, if prepared, will be included in the docket.
[5] In record book.
[6] The original form will not be executed until date of closing the transfer.
[7] In right to rescind cases, original and sufficient copies for each person who has right to rescind in accordance with part 1866.
[8] Original and 1 copy to transferee: 2 copies to each other person who has right to rescind in accordance with part 1866. If the person exercises his right to rescind, he will sign one copy of the form and return it to the county office.

NOTE.—When requested prepare an additional copy for delivery to transferor.

(iv) *Other transfer docket items when applicable.* Other transfer docket items may include a mortgage title policy, title evidence, or report of lien search, foreclosure notice agreement, original or certified copy of deed to any property to be taken as additional security, purchase contract, or other instrument of ownership, and information on prior mortgage(s) and cosigner(s). When the County Supervisor is the approval official, he may, in lieu of including the document evidencing ownership, include a statement in the docket indicating that he has seen and reviewed the document. When less than the total amount of the indebtedness is assumed, the transferor's financial statement will be included. When an initial or subsequent loan is involved, include any additional forms required by the appropriate loan making subpart.

(3) *Collections and receipts.* During the period that a transfer is pending in the County Office, payments received by the Finance Office will continue to be applied to the transferor's account and Form FmHA 451–26 or Form FmHA 451–31 will be forwarded to the County Office. This includes any downpayments made in connection with the transfer for reducing the amount of the debt to be assumed. When the County Supervisor has received a payment on the account which is not included in the latest transaction record or monthly payment account status report, he should deduct such amounts from the total amount of principal and interest calculated from the latest information available before completing the assumption agreement and having it signed.

(i) *Transaction record.* When the borrower has made a direct payment to the Finance Office and there is no record of the payment in the County Office, the account will be assumed on the basis of the latest record in the County Office. In such cases, the application of the direct payment will be reversed from the account and the assumption agreement will be processed in the Finance Office. The Director of the Finance Office will contact the County Supervisor to determine the disposition of the proceeds from the direct payment.

(ii) *Identification.* For payments received on the date of transfer, Form FmHA 451–2, "Schedule of Remittances," will be prepared to show "Transfer in process for account owned by (borrower's name and case number) to be transferred to (name of transferee and case number, if known)." If the borrower number portion of the case number has not yet been assigned for a

transferee only the State and County portion of the case number will be shown. A statement for the information of the Finance Office will be attached to the assumption agreement showing the date of Form FmHA 451–2 and the amount paid.

(iii) *Payment.* When a payment is due on the assumption agreement shortly after the transfer is completed, such a payment should, if possible, be collected at the time of transfer and remitted in the name of the transferee.

(4) *Farm and home plans and financial statements.* When the transfer involves an ineligible transferee, Form FmHA 431–3 or Form FmHA 431–2 will be used with Tables A and J being completed in the same manner as for any other borrower but other tables and portions of the form will be completed only to the extent necessary to determine the debt-paying ability of the transferee and to give sufficient information for completing Table J. When a transfer is to be made for less than the amount of the indebtedness and a release of liability is involved, a current financial and income statement of transferor will be obtained on Form FmHA 431–3 or Form FmHA 431–2.

(5) *Appraisal report.* Form FmHA 422–1, FmHA 422–7, "Appraisal Report for Multiunit Housing," or FmHA 422–8 as appropriate will be obtained when (a) the amount to be assumed is less than the full amount of the indebtedness, (b) required in connection with an initial or subsequent FO, RL, SW, RH, RRH, or LH loan to be processed with the transfer, or (c) the loan approval official requests a current appraisal.

(6) *County Committee certification and recommendation.* The complete transfer docket, except for sections 502 and 504 RH loans, will be presented to the County Committee for review.

(i) *Applicants.* The transfer will be contingent upon the County Committee making its appropriate certification on Form FmHA 440–2 for an eligible applicant or when transfer is to an ineligible applicant, executing a memorandum containing the following statement:

In our opinion, the transferee, _____ (name of _____ will honestly endeavor to make transferee) payments in accordance with the assumption agreement, maintain the security, and carry out the other obligations in connection with the loan.

(ii) *Release.* When the County Committee recommends a release of the transferor and any cosigner from liability when real estate security is being transferred under § 1872.18 (c) or (d) with an assumption of less than the total debt, the provisions of § 1872.18(f)(1)(i) will be followed.

(7) *Property insurance.* The transferee will obtain property insurance in accordance with the requirement for the loan(s) involved. If the insurance is required, it may be obtained either by transfer of the existing coverage by the transferor or by acquisition of new coverage by the transferee. The insurance company will be notified by the County Supervisor immediately after completion of the transfer. When the full amount of the FmHA indebtedness is being assumed and an insurance premium has been advanced to the account, the transfer will not be completed until the amount of the premium has been charged to the transferor's account.

(8) *Title clearance and legal services.* Title clearance and legal services for closing transfers will be accomplished in accordance with Part 1807 Subchapter A of this chapter in case of a transfer involving an FO, RL, RH, RRH loan to an individual, LH, or SW loan not coded J or a LCD loan. Where the original repayment terms are altered, it may be necessary to obtain a new mortgage from the transferee to continue FmHA's lien on the transferred real estate. The advice of OGC will be obtained on a State-by-State basis and implemented through State regulations to provide for such new mortgage where required, and to further provide instructions on whether the original mortgage should be released. Title clearance and legal services for the above loans change are not required when a joint borrower conveys his interest in the security to the remaining borrower who assumes the total indebtedness on the same terms provided a subsequent loan or subordination is not involved. For all other kinds of loans being transferred, title clearance and loan closing services will not be required unless the approval official, with the advice of the OGC, determines that such services are needed in order to maintain the FmHA's security position or for other reasons. If other than an FmHA mortgage is involved which requires the mortgagee's consent to the transfer, such consent will be obtained.

(9) *Assumption agreement, release from personal liability, receipts.* When the full amount of the debt is assumed or a release from personal liability is otherwise approved under this Subpart and all of the security is being transferred, Forms FmHA 460–5 or FmHA 460–9, FmHA 451–1, "Acknowledgement of Cash Payment," and FmHA 465–8 will be completed and executed simultaneously with the closing of the transaction. The original (and signed copy for insured loan) Form FmHA 460–5 or Form FmHA 460–9 and, when applicable, Form FmHA 451–1 will be transmitted immediately to the Finance Office.

(10) *Transfer of unused development funds.* Any remaining funds not to be refunded that are in the transferor's supervised bank account will be transferred to the eligible transferee's supervised bank account simultaneously with the closing of the transfer for use in completing planned development.

(11) *Case folder.* The transferor's County Office case folder will be used for the transferee after adjustments have been made.

(12) *Nondiscrimination Agreement.* "When the property transferred will continue to be used for the same or similar purpose for which federal financial assistance was extended, except for property involving only one or more of the following programs: FO and OL loans for farm purposes; RH 502, 504, and 523 Self Help loans; and Economic Opportunity (EO), SW, and EM loans to individuals; the transferee will sign a Form FmHA 400–4.

(h) *Transfer not completed.* If for any reason the transfer is not completed, the Finance Office will be notified to resume servicing of the account in the name of the transferor.

§ 1872.19 Voluntary conveyance of security to FmHA.

When voluntary conveyance of security to the FmHA is determined to be appropriate, the voluntary conveyance docket will be assembled and approved by the County Supervisor or submitted with the borrower's County Office case folder(s) to the State Director or District Director, as appropriate. If voluntary conveyance is approved as being in the best financial interest of the Government by permitting a substantial recovery on the Government's loan, the State Director will send any title information or evidence of ownership of water rights held in the State Office to the County Office. When a prior lien(s) exist, such lien(s) will be paid by Standard Form 1034, only if it is determined that a substantially greater recovery on the Government's investment can be obtained, or the property is suitable for sale to an eligible applicant subject to the terms of the prior lien and the holder of the prior lien(s) will not agree and his concurrence is required for the Government to acquire the property and resell it subject to his lien(s). If the property is acquired subject to a prior lien(s), payment of installments on the prior lien may be made while title to the property is held by the Government. All junior liens on the property except FmHA liens and taxes and assessments which are or will become a lien on the property must be satisfied by the borrower without FmHA assistance, unless the State Director determines that payment of the junior liens by the Government voucher will better protect the Government's interests, considering all pertinent factors including the results of any delay that foreclosure action would involve. If a mortgage has been taken on the property to further secure other FmHA loans, all security not conveyed to the FmHA must be liquidated by the borrower and the sales proceeds applied on the secured debts in the order of their priority before the conveyance is closed. The word "property" as used in this subpart includes the real estate items which are considered real estate, items which customarily pass with the real estate in the change of ownership, and any irrigation equipment and other equipment such as bulk milk tanks, feed storage facilities which are normally considered chattel security if they are necessary for the successful operation of the farm, will enhance the sale of the farm, and are a part of the security for the loan involved in the conveyance.

V 40 166
APR 4 75

(a) *Authority.* The State Director, subject to the policies outlined in this Subpart, is authorized to approve a voluntary conveyance with or without release of personal liability. The State Director is authorized to consent to release of a borrower and any cosigner in connection with a voluntary conveyance as set forth in § 1872.18(f) which is applicable to a transfer. The County Supervisor and District Director are authorized to approve transactions under § 1872.19 on the same basis as the State Director provided the total debts against the security do not exceed $100,000 and $160,000 respectively.

(b) *Preparation, processing and distribution of voluntary conveyance docket.* When a borrower offers to voluntarily convey his property to the FmHA and agrees to carry out all the conditions contained in Form FmHA 465–4, "Offer to Convey Security," the form will be completed and he will signify his agreement by signing the form. A warranty deed on a state approved form or a deed meeting the requirements of § 1807.2(e) will be required and, whenever possible, completed and signed simultaneously with Form FmHA 465–4. However, it will not be recorded until the closing of the transaction. Also, if water rights are not fully conveyed in the dead, any necessary assignments of transfers of water stock, membership certificates, or other water right documents will be obtained simultaneously with the execution of Form FmHA 465–4 whenever possible but not later than the execution of the deed, and will be recorded, if necessary or appropriate, in connection with closing the transaction. When the borrower executes Form FmHA 465–4, a preliminary determination will be made by the County Supervisor as to whether the property constitutes a family farm as defined in Subpart A of Part 1821 of this chapter. Based on the recommendation of the County Supervisor, a decision will be made by the approval official at the time of acquisition of the property as to whether such property is suitable for sale under the terms and conditions of Subpart C, Part 1872, of Subchapter F to eligible applicants or as surplus property. If the voluntary conveyance is approved by the District Director or State Director, the County Supervisor will be notified of the determination and given instructions for selling the property in accordance with Subpart C of Part 1872 of this chapter.

(1) *Acceptance of offer.* Offers made and accepted are subject to the conditions outlined in Form FmHA 465–4.

(i) *Appraisal not required.* When the approval official determines that a borrower who is indebted only for a Section 502 or 504 RH loan has cooperated in good faith, used due diligence to maintain the property against loss, farmed in a workmanlike manner if engaged in a farming operation, and has otherwise fulfilled the covenants of the loan to the best of his ability, the approval official will immediately accept the offer for full satisfaction of the FmHA debt secured by the real estate. In such cases an appraisal of the security property will not be made. The borrower's account will be satisfied in accordance with § 1872.19(b)(10)(i) after the transaction has been closed.

(ii) *Appraisal required.* When a borrower indebted for any type loan other than a section 502 or 504 RH loan or when the approval official is unable to make the determination required by § 1872.19(b)(1)(i) for a section 502 or 504 RH borrower, offers to convey the property securing the loan to the FmHA, the approval official will make or request that an appraisal to be made of the property to be conveyed. The appraisal will reflect the market value of the property in its present condition. If the amount of the outstanding FmHA debts secured by a lien on the property, plus any prior liens exceeds the present market value of the security property, the County Committee, except for section 503 and 504 RH loans, must determine whether the borrower should be released of liability for any balance owed on the indebtedness. In such cases, the recommendation of the County Supervisor and the Committee certification required by § 1872.19(b)(4) will be submitted with the borrower's loan docket and Form FmHA 465–4 to the approval official for his consideration. If, however, the value of the security is equal to or exceeds the FmHA debts and any prior liens against the security property, the case will be handled in accordance with § 1872.19(b)(1)(i).

If, however, the value of the security is less than the FmHA debts and any prior liens against the security property and the approval official is unable to determine that a borrower, who is indebted only for a section 502 or 504 RH loan, meets the conditions of paragraph 1872.19(b)(1)(i) or the County Committee does not recommend that a borrower and any cosigner be released of liability for any balance owed on debts secured by the property being conveyed, the account will be handled in accordance with § 1872.19(b)(10)(ii) after the transaction has been closed.

(2) *Assignment of note to the insurance fund.* When an insured loan not held by the insurance fund is involved and the approval official decides to accept the offer to convey, he will request the Director, Finance Office, to have the insured loan assigned to the insurance fund.

(3) *Taxes.* When Form FmHA 465–4 is submitted to the approval official and it does not obligate the borrower to pay taxes and assessments which are a lien or will become a lien on the property, or water assessments or charges to protect the right to receive water, Standard Form 1034 will be attached thereto for the payment of any taxes and assessments which are due and payable. If Form FmHA 465–4 is accepted, the approval official will forward the voucher to the Finance Office.

(4) *County Committee's certification and recommendation.* When property is to be voluntarily conveyed for a credit on the borrower's account of less than the FmHA indebtedness secured by the property, the County Committee, except for sections 502 and 504 RH loans, will determine whether in its opinion the borrower should be released of liability for any balance owed on such indebtedness. If the County Committee recommends that the borrower and any cosigner be released of liability for such balance, it will make the following certification:

In our opinion

(Name of borrower(s) and any cosigner)

do not have reasonable debt-paying ability to pay all or a substantial part of the balance of the debt owed after the voluntary conveyance, taking into consideration their assets and income at the time of the conveyance. The borrower has cooperated in good faith, used due diligence to maintain the security property against loss, and has otherwise fulfilled the covenants incident to the loan to the best of his ability. Therefore, we recommend that the borrower and any cosigner be released of personal liability for any balance due on the secured indebtedness upon conveyance of the property to the Government.

(5) *Obtaining statement of account and refunding unused loan funds.* Any funds remaining in the supervised bank account will be applied as a refund on the loan prior to accepting the offer to convey. A statement of account will be requested by using Form FmHA 451–10 when a current transaction record or monthly payment account Status Report is not available.

(6) *Checking docket forms.* When the docket forms shown in § 1872.19(b)(7) have been completed, the approval official will determine that (a) each form is prepared correctly in accordance with the Form Manual Insert or other appropriate instructions, and (b) items such as names and addresses are the same on all forms.

(7) *Distribution of voluntary conveyance docket forms.* The following table will be used as a guide in distributing the necessary forms.

FmHA Form No.	Name of form	Total number of copies	Signed by borrower	Voluntary conveyance docket
465–4	Offer to Convey Security	2	[1] 2	[1] 2
[2] 422–1	Appraisal Report (Farm Tract)	1		[1] 1
422–3	Map of Property	1		[1] 1
[2] 422–8	Property Information and Appraisal Report—Rural Housing Nonfarm Tract.	1		[1] 1
[2] 431–2	Farm and Home Plan	1	[1] 1	[1] 1
[2] 431–3	Family Budget	1	[1] 1	[1] 1
451–10	Request for Statement of Account	2		[3] 1 (O to FO)
451–11	Statement of Account	2		[1] 2, [3] 1
[4] 465–6	Release from Personal Liability	2		[1] 2, [1] 1
465–2	Lease of Security Property	3		[1] 2, [3] 1

[1] Original. [2] Copy.
[3] When applicable.
[4] This form will be executed by the county supervisor after approval of the voluntary conveyance and the determination is made to release the borrower from personal liability.

(7) *Other voluntary conveyance docket items.* When a voluntary conveyance involves a release of liability under § 1872.19(b)(1)(ii), a current financial statement, and information relative to the present income of the borrower, and any cosigner, will be obtained. Ordinarily, this information will be recorded on either Form FmHA 431–2 or Form FmHA 431–3, whichever is more appropriate. The borrower's deed for voluntary conveyance of the property will be included in the conveyance docket and for cases handled under § 1872.19(b)(1)(ii), the County Committee's Certification and Recommendation narrative form will be completed in accordance with § 1872.19(b)(4) and included.

(8) *Title examination and closing instructions.* Upon acceptance of the borrower's offer, the County Supervisor will determine whether title clearance and closing of conveyance will be accomplished with the assistance of the designated attorney, title insurance company, or combination thereof, or by other method, as outlined in a State Supplement. The County Supervisor will notify the designated attorney or title insurance company to furnish title services in accordance with Part 1807, Subchapter A of this chapter. All junior liens except FmHA liens, taxes, and assessments to be advanced by the FmHA will be removed by the borrower, unless the State Director determines that payment of the junior liens by Government vouchers will better protect the Government's interests considering all pertinent factors including the results of any delay that foreclosure action would involve. Any additional title defects or encumbrances will be removed by the borrower except those recited in the FmHA mortgage or subsequently approved by the FmHA. When title defects or encumbrances will be removed as required, the title evidence will be submitted to the designated attorney or title insurance company by memorandum with Form FmHA 465–4, the deed of conveyance, any water right documents, the original or a conformed copy of the FmHA mortgage, any assignment instruments, and conformed copies of any remaining encumbrances such as mineral leases, agricultural leases, easements, rights-of-way, and partial releases. The transmittal memorandum will include a request for the preparation of necessary legal instruments, including any necessary separate instruments of assignment (which will become effective when the deed is recorded) pursuant to Form FmHA 465–4, and request a date for closing the conveyance. The designated attorney or title insurance company will determine the manner in which any necessary notices of assignment of leases will be given to the lessees. The assistance of the OGC will be obtained only in unusual or complex cases.

(9) *Closing of conveyance.* The State Director will issue a State Supplement containing general guidelines for closing a voluntary conveyance when it will expedite such closing. The conveyance transaction will be closed by the designated attorney or title insurance company representative. When an insured loan is involved and the note is not held by the insurance fund or in the county office, the Finance Office will be requested to repurchase and assign the borrower promissory note to the appropriate insurance fund. However, the conveyance transactions may be closed and deed recorded pending assignment of the insured note to the insurance fund. Expenses incident to the closing of the transaction, as authorized in the closing instructions, will be paid. After the designated attorney or title insurance company determines that the transaction has been properly closed, he will return all documents submitted to him to the County Supervisor and advise as to the date when title to the property was vested in the Government. The County Supervisor will forward a copy of this memorandum to the State Director and to the Finance Office. The County Supervisor will notify the District Director of completion of any conveyance which the District Director approved. Property insurance will be handled in accordance with Part 1806, Subchapter A of this chapter. The acquired property will be handled in accordance with Subpart C, Part 1872, Subchapter F of this chapter.

(10) *Indebtedness and inventory records.* The credit to be entered on the borrower's loan records will be either: (a) the total amount of the indebtedness owed on the account after all expense items have been charged thereto when the property is accepted in full satisfaction of the debt, or (b) the present market value of the security conveyed when the debt is not released from personal liability for the remaining balance owed on the debt. Immediately after the transaction is closed in accordance with the closing instructions and the amount of the credit to be allowed on the account is determined, Form FmHA 465–6, "Advice of Mortgaged Real Estate Acquired," will be completed and transmitted to the Finance Office by the County Supervisor for processing. Any assigned agricultural, mineral, or other lease on the property will be sent to the Finance Office along with Form FmHA 465–6. If an oral lease of the property or on a portion of the property exists, it will be reduced to writing on Form FmHA 465–2, and if possible its execution by the lessee will be obtained. A copy of the Form 465–2 will be sent to the Finance Office. After the Finance Office assigns an advice number to Form 465–2, and a contract number to the lease, it will advise the County Supervisor by memorandum with a copy to the State Office of such number for proper identification of the inventory property and lease.

(i) *Satisfied account.* The Finance Office or the County Supervisor, as appropriate, will stamp the borrower's note "Satisfied by surrender of security and release from liability" when the account is fully satisfied. The County Supervisor will take appropriate action to release the lien of record on the security property and deliver the satisfied note to the borrower.

(ii) *Unsatisfied account.* When the account is not fully satisfied by surrender of the security, the borrower will be classified as "collection-only" by processing Form FmHA 404–1 and Form FmHA 450–10 and submitting them to the Finance Office with Form 465–6. The remaining amount will be accelerated by written notice if grounds for acceleration exist. The Finance Office will retain the note(s) and send the County Office a current transaction record or Form FmHA 451–11. Upon receipt of the transaction record or Form FmHA 451–11 from the Finance Office, the loan record card will be reconciled with the statement of account and the account will be serviced as a collection-only case in accordance with Subpart A of Part 1861. In such cases, the FmHA mortgage will be released of public record, but not satisfied. The type of release to be used will be as prescribed by State Supplement.

§ 1872.20 Foreclosure by the Government.

Foreclosure action will be recommended when (1) liquidation has been decided upon, (2) a substantial net recovery can be obtained on the FmHA account(s), (3) foreclosure is determined to be the most practicable method of liquidation by which the interest of the FmHA can be protected or (4) failure to foreclose would adversely affect the FmHA program in the area. If these requirements cannot be met under the circumstances existing when foreclosure is first considered, but conditions change so that the requirements can be met at a later date, foreclosure will be instituted at a later date. When there is a prior lien(s) and the State Director has determined that foreclosure is necessary, he will contact the prior lienholder, either directly or through the County Supervisor, and give him an opportunity to institute the foreclosure proceedings, if he is in a position to do so, with the FmHA taking whatever action is necessary to protect the interests of the Government. If the prior lienholder is unable or unwilling to institute the foreclosure, the FmHA will institute foreclosure proceedings, subject to the prior lien if feasible. Whether foreclosure of the FmHA mortgage will be subject to the prior lien will depend upon such factors as the state law, the action or inaction of the prior lienholder, the condition of the prior lien account, the amount of the prior lien debt in relation to the total debt, and other factors. After issuance

V 40166
APR 4 75
XUM

of the acceleration notice, account and security servicing actions other than acceptance of payment in full, voluntary conveyance, or permitting of transfer, including payments of insurance and taxes, will be taken only with the advice of the OGC. Expenses incident to the foreclosure action which are approved by the OGC for payment by the FmHA will be paid. If the OGC advises that a credit on the borrower's account or a Standard Form 1034 will not be acceptable for payment on the FmHA bid, the State Director will obtain a check from the Finance Office for making the payment. Standard Form 1034 will be used for this purpose and it will fully explain why it is necessary to immediately obtain a check for such payment.

(a) *Authority.* The State Director is authorized to approve foreclosures and to execute any necessary documents. After such approval, the County Supervisor will take appropriate action and execute all necessary forms for completion of the transaction, except as otherwise provided herein.

(b) *Processing*—(1) *Form FmHA 465–7 and recommendation for deficiency judgment.* If Form FmHA 465–7 has not been recently submitted to the State Office, and foreclosure is recommended in accordance with § 1872.17, the form will be completed, and if chattle security is involved, Form FmHA 455–1, "Request for Legal Action," and Form FmHA 455–3, "Evidence of Conversion," when appropriate, providing necessary supplementary information, will be attached to Form FmHA 465–7. The completed Form FmHA 465–7 will be forwarded with the County Office case file to the State Office through the District Director so the District Director's recommendation will be included. If it appears that the recovery to the Government from a sale by foreclosure will be insufficient to fully satisfy the indebtedness, the borrower's situation will be reviewed by the County Supervisor to determine if there is a possibility of making a further recovery on the account. The facts revealed by his review should be included in the recommendation made on Form FmHA 465–7. When foreclosure action does not automatically result in a deficiency judgment and there are other assets from which a substantial recovery can be made, the OGC will be requested by the State Director, on Form FmHA 465–7, to obtain such a judgment if legally permissible. No deficiency judgment may be sought if the borrower has received a moratorium on payments as provided for in § 1861.10 when the moratorium has previously been obtained on the section 502 or 504 RH loan being liquidated.

(2) *Appraisal report, additional instructions and withdrawal of funds in supervised bank account.* The State Director will obtain a present market value appraisal report unless there is a current appraisal report that can be relied on for completing Form FmHA 465–7. Any additional instructions and the case folder will be returned to the County Office. Also, when foreclosure is approved, the State Director will include any title information or evidence of ownership of water rights held in the State Office. Any order to the bank will be included for withdrawal of any funds remaining in the supervised bank account.

(3) *Foreclosure not approved.* If foreclosure is not approved, the State Director will instruct the County Supervisor on Form FmHA 465–7 on future servicing of the account. The original of Form FmHA 465–7 will be forwarded to the County Supervisor, a copy retained in the State Office, and a copy sent to the District Director.

(4) *Actions after approval of foreclosure.* When foreclosure action is approved, steps will be taken to consummate the foreclosure as follows:

(i) *Unused loan funds.* Any funds remaining in the supervised bank account will be refunded.

(ii) *Statement of account.* Form FmHA 451–10 will be forwarded to the Finance Office to obtain a statement of account when required for foreclosure action for each account to be included in the foreclosure and to request the Finance Office not to issue any statements of account to the borrower or apply any payments to the account until further notice.

(iii) *Issuance of acceleration notice.* When an FmHA account is in monetary default the State Director will date, sign, and forward the acceleration notice, if he has not already issued one in accordance with § 1872.17(c), to the borrower with two conformed copies to the County Supervisor, and the case folder and any necessary instructions. For all other types of default, the account will not be accelerated until review by the OGC. In such cases a State Supplement will be issued to prescribe the information to be assembled and sent to OGC. When the borrower is in the Armed Forces of the United States the acceleration notice will not be prepared until clearance is obtained from the OGC. A copy of Form FmHA 465–7 will be retained in the State Office and a copy will be forwarded to the District Director. Thereafter, except as otherwise provided in State Supplements, where state law requires acceptances of defaulted installments after acceleration, the County Supervisor will not accept payment of less than the full amount of the indebtedness but will notify the State Director of any such offer and ask for instructions.

(iv) *Cancellation of foreclosure action.* When it has been determined that foreclosure is warranted and circumstances change which, in the opinion of the State Director, makes liquidation of the account unnecessary, he may stop the action or request OGC to stop it. If the action is stopped, the account will be reinstated. The State and County Office records will be properly noted to indicate the situation and the borrower will be informed. The Finance Office will be notified. The OGC also will be informed of the situation if it has been consulted.

(v) *Forwarding docket to the OGC and institution of foreclosure action.* When the period provided by the acceleration notice expires, or, if one is not issued upon the advice of the OGC, the following action will be taken:

(A) If a direct loan is involved, the State Director will request the Finance Office to send the original or conformed copy of the note as required by State Supplement to the County Office. If an insured loan is involved and the note is not held by the insurance fund, or the County Office, the State Director will request the Finance Office to have the note assigned to an insurance fund. The Finance Office will send the original or conformed copy of the assigned note and related documents to the State Director with instructions as to any necessary action in connection with the assignment.

(B) The borrower's case folder, including a conformed copy of each FmHA note and any assumption or cosigner agreements involved and such additional information and copies as appropriate will be forwarded by the State Director to the OGC for instructions to complete the foreclosure action. Also, title evidence required by OGC will be obtained and furnished to it at that time so that an opinion can be issued as to whether the FmHA will obtain a title merchantable in fact if it is the successful bidder.

(C) Ordinarily, no curative action will be taken with respect to title defects before foreclosure sale. However, when for special reasons the State Director, with the advice of the OGC, determines it would be in the best interest of the FmHA to cure certain defects before the foreclosure sale, the State Director may authorize the necessary curative action.

(D) The expiration date of the property insurance will be called to the attention of OGC so that office will be aware of the fact that an additional cost will be incurred if the sale is not completed before the expiration date of insurance. A copy of the acceleration notice will be sent to the Finance Office. When it has been determined that a title merchantable in fact can be obtained, the OGC will advise the County Supervisor who will prepare and submit Standard Form 1034 to the Finance Office for payment of all real estate taxes and assessments including water assessments which are due and payable. The OGC also will request the Finance Office to send it a current statement of account which reflects the amount of vouchers it advised the County Supervisor to process in connection with the foreclosure.

(E) The OGC will, except in judicial foreclosure cases, route the docket through the State Office so any advertising notices and other needed documents may be prepared, or signed by the State Director when necessary if they were prepared by OGC.

(F) If the property is subject to redemption rights under State law, the State Director, in judicial foreclosure cases, will request through OGC that the provisions in the mortgage waiving the right of redemption be enforced.

(G) Title VI of the Civil Rights Act of 1964 applies as long as any real property continues to be used for the same or similar purposes for which the Federal financial assistance was extended. If the property being sold was subject to Title VI,

the advertisement of foreclosure sale should include a statement that the purchaser will be required to sign Form FmHA 400–4, if he intends to use the property for its original or similar purposes.

(vi) *Maximum bid.* The State Director will establish the maximum amount of the FmHA bid. Such bid will be either the present market value of the security or gross investment, whichever is less.

(A) In establishing the present market value, the State Director will consider (a) the effect that any outstanding mineral rights, easements, other interests, or title defects will have on the resale of the property, (b) any prior liens that will remain outstanding after the foreclosure sale, and (c) any other pertinent information affecting or indicating the value including the appraisal report.

(B) Gross investment means the amount of the FmHA secured indebtedness, including all advances made, or to be made, by the FmHA and charged to the mortgage debt before the foreclosure sale, plus the amount of any prior liens or other costs which the OGC advises must be paid from proceeds of the foreclosure sale before payment of the FmHA mortgage debts.

(vii) *Bidding.* The State Director or an employee designated by him is authorized to bid on behalf of the FmHA. In appropriate cases the State Director may request that the U.S. Marshall be designated. The State Director will inform the County Supervisor by memorandum as to the maximum amount to be bid and whether he or some other person is authorized to bid. A copy of this memorandum will be sent to the OGC. Ordinarily, the State Director will designate the County Supervisor to bid on behalf of the FmHA unless circumstances make it necessary or desirable to designate another person. In judicial foreclosures, the OGC will inform the U.S. Attorney of the maximum amount recommended by the FmHA to be bid and in appropriate cases that an FmHA employee will be available at the sale to make the bid. The FmHA employee will make only one bid and that will be for the authorized maximum bid. This bid will be made when no other party makes a bid or when it appears that the bidding has slowed down and likely will stop and result in the property being sold for less than the authorized maximum bid.

(viii) *Final Report on foreclosure sale.* Immediately after a foreclosure sale at which the bidder on behalf of the FmHA is an FmHA employee, the County Supervisor will furnish the OGC with a copy to the State Director, a narrative statement giving complete information relative to the sale, including a copy of Form FmHA 465–6 if sufficient information is available for completion of the form at that time. When the OGC receives a report of a foreclosure sale, whether from FmHA or the U.S. Attorney, he will furnish the County Supervisor any necessary instructions for completing the transactions and advise of any rights of the Government, considering privileges provided by law and any other pertinent information. As soon as practicable, the OGC will also furnish the County Supervisor a final report on any acquired property. The final report will include instructions concerning any additional steps which should be taken to complete the transaction. A copy of this report will be forwarded to the State Director.

(ix) *Completion of Form FmHA 465–6.* If the FmHA is the successful bidder at the foreclosure sale, Form FmHA 465–6 will be completed and forwarded to the Finance Office by the County Supervisor as soon as all information necessary for completion of the form is available, except the date the Government acquired title to the property, without waiting for the final report of the OGC. The form will be dated as of the date of the sale.

(x) *Leases.* If the sale is made subject to an agricultural, mineral, or other lease in which the lessor's interest is acquired by the FmHA through the sale, the original or a copy of the lease will be submitted to the Finance Office with Form FmHA 465–6 for processing in accordance with § 1872.19(b)(10). Any oral lease in effect at the time the Government acquires the property will be reduced to writing using Form FmHA 465–2 and its execution by the lessee will be obtained if possible. The County Supervisor will notify any lessee in writing that the Government has acquired the lessor's rights under the lease and will direct the lessee to remit all payments to the County Office. Payments to FmHA under a lease which by its terms were due and payable prior to the date of the foreclosure sale will be applied first on any delinquency claim resulting from the foreclosure and then on any other FmHA claim against the borrower. Any surplus remaining will be remitted to the borrower. Payments due and payable to the FmHA after the date of foreclosure will be collected and forwarded to the Finance Office as miscellaneous income. Receipts for collections made in accordance with this subpart will be issued to: "Lease proceeds from property formerly owned by (borrower's name and case number) and leased to (name of lessee)." After a foreclosure sale is held, if a redemption period is involved, and the borrower has possession of the property during such period, or a right to lease proceeds during the redemption period, a lease will not be obtained by the Government or be sent to the Finance Office until the redemption period has expired and the Government has a right to such proceeds.

(xi) *Deficiency judgment.* When a deficiency judgment is obtained, the account will be classified as a judgment case and the County Supervisor will send Form FmHA 455–20, "Notice of Judgment," to the Finance Office and the account will be serviced in accordance with Subpart B, Part 1871, Subchapter F of this Chapter. When action to obtain a deficiency judgment is pending at the time Form FmHA 465–6 is sent to the Finance Office, the fact that it is pending will be indicated on Form FmHA 465–6. When a deficiency judgment is not to be obtained the case will be reclassified to collection only if the debt cannot be settled under the provisions of Part 1864, Subchapter E of this Chapter, and the requirements of FmHA regulations concerning case classifications. When a case is to be reclassified to collection only, Forms FmHA 404–1 and FmHA 450–10 will be forwarded to the Finance Office.

(xii) *Property insurance.* Property insurance will be handled in accordance with Subpart B, Part 1806, Subchapter A of this Chapter.

§ 1872.21 Taking liens on real estate as additional security in servicing FmHA loans.

(a) *Liens.* In servicing FmHA loans, the best lien obtainable will be taken on any real estate owned by the borrower, including any real estate which already serves as security for another loan. Normally, the prior concurrence of the District Director will be obtained. Such liens will be taken only when:

(1) *Inadequate security.* Present security for the loan is not adequate to protect the interests of the FmHA, and

(2) *Equity.* The borrower has substantial equity in the real estate to be mortgaged and it is determined that the taking of such a mortgage will not prevent the making of an FmHA real estate loan, which may be needed in the foreseeable future.

(b) *Real estate.* Before taking real estate as additional security for the FmHA loan the following items will be documented in the running record:

(1) *Justification.* The facts justifying the taking of such real estate lien;

(2) *Value.* A conservative estimate of the present market value of the real estate to be mortgaged (It will not be necessary to submit an appraisal of the property to be mortgaged.);

(3) *Description.* A brief description of any existing liens on such property including the repayment terms and the unpaid balance on the debts secured by such existing liens, unless this is accurately reflected on a recent financial statement; and

(4) *Identification.* The name of the title holder and how title of the property is held. (Title evidence need not be required.)

(c) *Security form.* Each real estate lien taken as additional security for both FmHA direct and insured loans will be taken on Form FmHA 427–1(State), "Real Estate Mortgage for ----------," unless a State Supplement requires the use of a form of mortgage comparable to that which secures the existing loan(s) to be additionally secured. The notes evidencing both FmHA direct and insured loans for which the additional security will be taken will be described in the same mortgage.

§ 1872.22 Assignment of promissory notes and security instruments outside the program.

The policy described in Subpart A, Part 1871, Subchapter F of this chapter assigning notes and security instruments to third parties will apply to all loans

secured by real estate and when the State

[Docket No. 75–EA–4; Amdt. 39–2154]

V 40166
APR 4 75
XUM

secured by real estate and when the State Director determines it is to the financial advantage of the Government or when the borrower has failed to refinance after an appropriate request. Payment of the FmHA debt in full will be collected and transmitted to the Finance Office at the time the assigned instruments are delivered. For insured loans, an assignment may be made on a non-insured basis after the note has been assigned to the insurance fund. The assignment will be effected on an assignment form furnished by the OGC which will include provisions (1) releasing the FmHA from liability as insurer, and (2) nullifying the provisions and covenants in the note and security instrument relating to the Government's rights and obligations as insurer and collection agent. The Government's endorsement of the promissory note will be made without recourse. The State Director will execute the assignment instruments unless he delegates authority to the County Supervisor in a State Supplement. At the time the assigned instruments are delivered, the County Supervisor will write "Insurance Contract Cancelled" across the face of the Government's insurance endorsement and will sign and date such cancellation.

§ 1872.23 Cosigners—Rural Housing (RH) loans.

A cosigner, as defined in § 1822.3(e), is personally liable for payment of the RH debt. The cosigner is not entitled to any interest in the security property or the rights of the borrower under the loan agreements or security instruments. However, he may pay the account in full and take any assignment of FmHA's interest.

(a) *Transfer or other servicing action.* In a case of a transfer, a cosigner may be given preference to assume the FmHA indebtedness as either an eligible or ineligible applicant, whichever is appropriate. Otherwise, the cosigner's status does not make inapplicable any conditions or provisions required for transactions authorized in this subpart.

(b) *Substitution or replacement of cosigner.* Any person, as determined by the County Supervisor, with ability to repay the RH loan in accordance with its terms, may be substituted for the other party who is previously obligated as cosigner on the loan. The new cosigner will execute an agreement to pay the balance owed on the RH debt. This agreement will be made in consideration of the release of the existing cosigner from personal liability. The original of the new cosigner's agreement will be attached to the original note and a copy will be attached to each copy of the note. The new agreement will be prepared by OGC.

(c) *Release of liability.* A cosigner of an RH note may be released from personal liability for the debt upon satisfactory substitution of a new cosigner. The release may be accomplished by modifying and using Form FmHA 465-8 with the advice of the OGC or on appropriate form prepared by the OGC.

§ 1872.24 Submission to National Office of certain partial release, subordination, consent, or other transactions.

The State Director may submit to the National Office for determination by the Administrator or his delegate any proposed transaction in which the conditions prescribed in the foregoing subparts for partial release, subordination, or consent by the FmHA cannot be satisfied, or any servicing action, that in the opinion of the State Director, is necessary for the protection of the Government's interest. The State Director must determine that either the FmHA secured indebtedness remaining after the transaction will be adequately secured, or the Government's security interest will not be adversely affected, and that the transaction and use of any proceeds will further the purposes for which the loan was made, improve the borrower's debt-paying ability, and permit necessary payment of reasonable costs and expenses incident to the transaction which the borrower is unable to pay from other sources. This Subpart is primarily intended to be used for those cases in which the use of the proceeds would be necessary for the borrower to retain the farm or rural residence that otherwise usually could not be accomplished. The State Director will submit to the National Office the full facts and justification for his recommendation and the County Office files. If the National Office approves the proposal, the returned material will, when legal assistance is needed, be submitted to OGC by the State Director for legal guidance in accomplishing the proposal.

§ 1872.25 State Supplements and reference to the OGC.

State Supplements will be prepared, with the advice of the OGC, as necessary, to carry out this Supplement, and forwarded to the National Office for prior approval. Whenever, in this Supplement, reference is made to advice or approval of the OGC it is contemplated that to the maximum extent possible the legal advice or approval may be stated in a general way whether included in State Supplements, State Bulletins, or other statements or explanations, rather than by the submission of individual matters to the OGC. It should be possible under such a plan to procure the most efficient legal assistance in handling real estate security servicing transactions.

§ 1872.26 Redelegation of authority.

The State Director is authorized to redelegate in writing any authority delegated to the State Director in this Subpart to one or more of the following State Office employees: Chief, Rural Housing, Chief, Farmer Programs, Chief, Community Programs, Rural Housing Specialist; Farmer Programs Specialist; and Community Programs Specialist. The State Director may also redelegate in writing to the Property Management Specialist the responsibility for carrying out liquidation actions and management of security property for those cases where a determination has been made that liquidation of a loan is necessary to protect the Government's interest.

§ 1872.27 Nondiscrimination.

Each instrument of conveyance for any transfer or foreclosure sale of real property subject to Title VI of the Civil Rights Act of 1964 will contain the following covenant:

The property described herein was obtained or improved through Federal financial assistance. This property is subject to the provisions of Title VI of the Civil Rights Act of 1964 and the regulations issued pursuant thereto for so long as the property continues to be used for the same or similar purposes for which the Federal financial assistance was extended.

EXHIBIT A—MEMORANDUM OF UNDERSTANDING BETWEEN BUREAU OF SPORT FISHERIES AND WILDLIFE AND THE FARMERS HOME ADMINISTRATION

MEMORANDUM OF UNDERSTANDING BETWEEN BUREAU OF SPORT FISHERIES AND WILDLIFE AND THE FARMERS HOME ADMINISTRATION

The purpose of this memorandum is to simplify and facilitate the obtaining by the Bureau of Sport Fisheries and Wildlife (Bureau) of subordination of mortgages held by the Farmers Home Administration (FmHA) on lands with respect to which the Bureau obtains a "Conveyance of Easement for Waterfowl Management Rights" (3-1916 Rev. April 1970). In order to accomplish this purpose it is agreed that:

1. In each case in which the Bureau proposes to take an easement from a landowner whose land is subject to a mortgage held by FmHA and the Bureau's proposal is acceptable to the landowner, the Bureau will notify the local FmHA County Supervisor. The notification will show the amount of consideration to be offered for the easement and the legal description of the land to be affected by the easement. Where there are existing drainage facilities on the land, the affected wetland areas that are to be excluded from coverage by the easement will be outlined on a map and furnished to FmHA and the landowner.

2. Where a subordination agreement is required, the FmHA County Supervisor will advise the designated local official of the Bureau as to whether the consideration is adequate from the standpoint of FmHA as mortgagee.

3. Where a subordination is required and the County Supervisor advises that the consideration is adequate, said easement form will be amended by: inserting at the end of the instrument the following: "In consideration of payment which is determined to be adequate from the standpoint of the FmHA as mortgagee, for the foregoing easement as provided in paragraph 5 thereof, the United States of America acting through FmHA hereby subordinates it mortgage dated ----------, recorded in Book ----, page ----, of the real estate records in ---------- County, State of ---------- to said easement.

Date

UNITED STATES OF AMERICA
By ----------
FmHA County Supervisor

4. Where a subordination is not required of FmHA, because of a waiver of the need for a subordination by the United States Attorney General, the Bureau nevertheless will send a copy of the agreement and the check for the easement consideration, which will include FmHA as a co-payee, to the FmHA County Supervisor.

5. In all cases where an FmHA mortgage is involved, the easement form will be amended by: inserting at the end of paragraph 5 an additional sentence as follows: "The check for the easement consideration will be made payable to the Farmers Home Administration (FmHA) and the landowners, as co-payees, and will be mailed to the FmHA to be applied to its mortgage unless applied on a prior mortgage debt or released for other use as permitted by FmHA regulations."

6. The Bureau and FmHA will issue such procedures or directives to their respective field offices as may be necessary to effectuate this memorandum of understanding.

Date: September 14, 1967.

A. V. TUNISON,
Acting Director, Bureau of Sport Fisheries and Wildlife.

Date: August 29, 1967.

HOWARD BERTSCH,
Administrator, Farmers Home Administration.

[FR Doc.75-8829 Filed 4-3-75;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75-NW-10-AD; Amdt. 39-2159]

PART 39—AIRWORTHINESS DIRECTIVE

Boeing Model 737-100 and -200 Series Airplanes

Recently Boeing conducted laboratory tests of the 737 ground spoiler actuators using Type IV Stauffer Aero Safe ER hydraulic fluid. The results from these tests show that with this hydraulic fluid and a loss of the system "A" hydraulic pressure, the ground spoiler actuator friction locking mechanism may release permitting the ground spoiler to float. This would result in an undesirable roll and/or excessive sink rate if occurring during a critical regime of flight. This is an initial action pending the completion of (1) the manufacturer's investigation, (2) the availability of modified ground spoiler actuators, and (3) FAA evaluation of the redesign of the actuators. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require the installation of warning placards prohibiting the use of Stauffer Aero Safe ER hydraulic fluid. The placards will be installed adjacent to the hydraulic pressure filling installation, the "A" hydraulic system reservoir and the ground service hydraulic module. The FAA will consider amending the AD to prescribe additional requirements when it is determined that such required actions will provide ground spoiler actuators with internal locking mechanisms that are not sensitive to hydraulic fluid friction characteristics.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BOEING: Applies to Model 737-100/-200 series airplanes certificated in all categories. Compliance required as indicated.

To prevent an inadvertent deployment of ground spoilers in flight after the loss of system "A" hydraulic pressure, accomplish the following:

Within the next 100 hours time in service after the effective date of this AD, unless already accomplished, remove the existing placards, part numbers BACM10H6CY and BAC27DHY195, and install warning placards, part numbers BAC27DHY220 and BAC27-DHY221, or equivalent placards approved by the FAA assigned maintenance inspector, in accordance with the instructions contained in Boeing Service Bulletin 737-29-1029 dated December 20, 1974, or later revisions approved by the Chief, Engineering and Manufacturing Branch, Northwest Region, near the hydraulic pressure filling installation, on the hydraulic system "A" reservoir, and at the ground service hydraulic module. These placards warn that servicing the 737 airplane with Stauffer Aero Safe ER hydraulic fluid is prohibited. The improved lubricity characteristics of the ER fluid may permit the unlocking of the ground spoiler actuators in flight if/when hydraulic system "A" fails.

A subsequent amendment to this AD will include a type design change which incorporates ground spoiler actuators with internal locking mechanisms that are not sensitive to hydraulic fluid friction characteristics.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. The documents may also be examined at FAA Northwest Region, 9010 East Marginal Way, Seattle, Washington 98108.

This amendment becomes effective April 25, 1975.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

NOTE.—The incorporation by reference provisions in the document were approved by the Director of the Federal Register on June 19, 1967.

Issued in Seattle, Washington on March 27, 1975.

C. B. WALK, JR.,
Director, Northwest Region.

[Docket No. 75-EA-4; Amdt. 39-2154]

PART 39—AIRWORTHINESS DIRECTIVE

Piper Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to amend AD 74-17-04. The AD prescribes the application of a Piper kit to certain aircraft in the vicinity of the windshield and over the fabric. Experience has indicated that applicability to cotton or linen fabric only is intended. The AD is being amended to reflect such restriction.

Since this amendment is less restrictive in nature, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697) § 39.13 of Part 39 of the Federal Aviation Regulations is amended by amending AD 74-17-04 as follows:

Amend the applicability paragraph of AD 74-17-04, Amendment 39-1919, to read as follows:

PIPER. Applies to the following Models which are covered with cotton or linen at the critical area on top of the windshield where the fabric attaches to the channel: PA-12, Serial Numbers 12-2904 and higher, except 12-2907, 12-2911, 12-2914, 12-2915, 12-2917, 12-2925, 12-2950, 12-3028-S and 12-3901 through 12-3903; PA-14; PA-15; PA-16; PA-17, PA-20; and PA-22 airplanes, Serial Numbers 22-1 through 22-7999, certificated in all categories.

This amendment is effective April 9, 1975.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Jamaica, New York, on March 26, 1975.

LOUIS J. CARDINALI,
Acting Director, Eastern Region.

[FR Doc.75-8776 Filed 4-3-75;8:45 am]

[Airworthiness Docket No. 75-SW-20; Amdt. 39-2160]

PART 39—AIRWORTHINESS DIRECTIVES

Rockwell International Corp., General Aviation Division; Model 690A Airplanes

On one Model 690A aircraft an in-flight fire resulted from a leaking bleed air line which generated excessive heat, causing failure of the wire bundle insulation and a hydraulic line. Since this condition is likely to occur on other aircraft of the same type design, an Airworthiness Directive is being issued to require modification of the bleed air system on Rockwell International, General Aviation Division, Model 690A aircraft.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

V 40166
APR 4 75
XUM

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

ROCKWELL INTERNATIONAL CORPORATION, General Aviation Division. Applies to Model 690A airplanes, Serial Numbers 11100 through 11200.

Compliance required within 25 hours' time in service after the effective date of this AD, unless otherwise accomplished.

To minimize the possibility of bleed air loss failure and resultant leakage, accomplish the following:

Modify Model 690A airplanes in accordance with Rockwell International, General Aviation Division, Service Bulletin Number 147 dated November 27, 1974, except that the requirements of Paragraphs "c" and "e" may be ignored and the first item under "SUPPLY DATA" may be deleted, or later approved revision, or in accordance with an equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, Federal Aviation Administration.

This amendment becomes effective on April 10, 1975.

(Secs. 313(a), 601 and 603; Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Fort Worth, Texas on March 27, 1975.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.75-8773 Filed 4-3-75;8:45 am]

[Airworthiness Docket No. 75-SW-15; Amdt. 39-2156]

PART 39—AIRWORTHINESS DIRECTIVES

Rockwell International Corp., General Aviation Division; Model 690A Airplanes

As a result of inspecting numerous Model 690A aircraft, the manufacturer found that the battery select switch disconnected the opposite battery from the one indicated on the switch. Therefore, if an overtemperature should occur in one battery and the pilot attempted to disconnect that battery from the line, the possibility exists that the good battery could be removed from operation and a battery fire would result from continued operation of the overheated battery, resulting in catastrophic loss of the aircraft. Since this condition is likely to exist in other airplanes of the same type design, an Airworthiness Directive is being issued to require inspection and correction of defective battery switching circuitry on Rockwell International Corporation, General Aviation Division Model 690A aircraft.

Since a situation exists that requires immediate adoption of this regulation it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

ROCKWELL INTERNATIONAL CORPORATION, General Aviation Division. Applies to Model 690A airplanes, Serial Numbers 11100 through 11200, 11202 through 11215, 11219 through 11237, and 11281 through 11283.

Compliance required within the next 25 hours time in service after the effective date of this AD, unless already accomplished.

To assure correct battery disconnect, accomplish the following:

(a) Check operation of the battery select switch in accordance with Rockwell International, General Aviation Division, Service Bulletin No. 149, dated February 20, 1975, or later approved revision or in accordance with an equivalent operational check approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, Federal Aviation Administration.

(b) If the check indicates incorrect connection, interchange Wires P42B22 and P38B22.

This amendment becomes effective on April 5, 1975.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Fort Worth, Texas on March 26, 1975.

A. M. THURBURN,
Acting Director, Southwest Region.

[FR Doc.75-8777 Filed 4-3-75;8:45 am]

[Docket No. 75-EA-12; Amdt. 39-2156]

PART 39—AIRWORTHINESS DIRECTIVES

Vertol Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to amend AD 64-21-6 applicable to Vertol 107-II type helicopters.

There has been additional data submitted to the agency which permits a relaxation of the retirement life of the affected pitch housings.

Since this amendment is relaxatory in nature, notice and public procedure hereon are unnecessary and cause exists to make the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by amending AD 64-21-6 as follows:

Delete the figures "2500" in paragraph (g) and insert in lieu thereof "4000".

This amendment is effective April 9, 1975.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Jamaica, New York, on March 26, 1975.

JAMES BISPO,
Acting Director, Eastern Region.

[FR Doc.75-8774 Filed 4-3-75;8:45 am]

[Airspace Docket No. 75-RM-5]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Transition Area

On February 24, 1975, a notice of proposed rule making was published in the FEDERAL REGISTER (40 FR 7944) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the transition area of Wolf Point, Montana.

Interested persons were given 30 days in which to submit written comments, suggestions or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., June 19, 1975.

(Sec. 307(a), Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Aurora, Colorado, on April 7, 1975.

M. M. MARTIN,
Director, Rocky Mountain Region.

In § 71.181 (40 FR 441) the description of the Wolf Point, Mont. transition area is revised to read:

WOLF POINT, MONT.

That airspace extending upward from 700' above the surface within an 8.5-mile radius of the Wolf Point, Mont. NDB (latitude 48°06'16" N., longitude 105°36'05" W.); and that airspace extending upward from 1200' above the surface within a 12-mile radius of the Wolf Point NDB; and within 4.5 miles north and 9.5 miles south of the 264° bearing from the Wolf Point NDB extending from the 12-mile radius area to 18.5 miles northwest of the NDB, excluding that portion that overlies the Glasgow, Mont. transition area.

[FR Doc.75-8772 Filed 4-3-75;8:45 am]

Title 17—Commodity and Securities Exchanges

CHAPTER I—COMMODITY EXCHANGE AUTHORITY (INCLUDING COMMODITY EXCHANGE COMMISSION), DEPARTMENT OF AGRICULTURE

PART 150—ORDERS OF THE COMMODITY EXCHANGE COMMISSION

Conforming Amendments to Orders Prescribing Limits on Positions and Daily Trading in Certain Commodities

On November 11, 1974 notice was published in the FEDERAL REGISTER (39 FR 39731) that the Secretary of Agriculture was considering an amendment to the general regulations under the Commodity Exchange Act relating to "bona fide hedging transactions and positions," pursuant to section 404 of PL 93-463, enacted October 23, 1974.

Such a definition was issued, effective immediately in the FEDERAL REGISTER of March 12, 1975 (40 FR 11560).

Accordingly, pursuant to section 404 of PL 93-463, the definition of "bona fide hedging transactions and positions" as used in section 4a(3) of the Commodity Exchange Act, is no longer found in the Act, but now appears in the general regulations which are issued under the Act.

Sections 150.1(c), 150.2(c), 150.3(c), 150.4(c), 150.5(c), 150.10(c), and 150.11 (c) of the Orders of the Commodity Exchange Commission, presently contain references to "bona fide hedging transactions and positions as defined in section 4a(3) of the Commodity Exchange Act." This Commission is revising such references to make them conform to the said regulation issued by the Secretary of Agriculture.

In addition, this Commission is deleting from §§ 150.1 and 150.11 the special exemptions from limits on daily trading and positions for producers of livestock and poultry. Such trading and positions are exempted from such limits by the new amendment by the Secretary relating to "bona fide hedging transactions and positions."

Inasmuch as these amendments are only to conform certain references to the new regulations of the Secretary and to remove language which is redundant under the new regulation, it is found upon good cause that notice and public procedure thereon are unnecessary, and that the amendments should become effective less than 30 days after publication in the FEDERAL REGISTER.

Effective date. This amendment shall become effective April 4, 1975. As so revised, §§ 150.1(c), 150.2(c), 150.3(c), 150.4(c), 150.5(c), 150.10(c), and 150.11 (c) of the Orders of the Commodity Exchange Commission will read:

§ 150.1 Limits on position and daily trading in grain for future delivery.

* * * * *

(c) *Bona fide hedging.* The foregoing limits upon position and upon daily trading shall not be construed to apply to bona fide hedging transactions or positions, as provided in regulations issued pursuant to section 4a(3) of the Commodity Exchange Act (7 U.S.C. 6a (3)) and section 404 of Pub. L. 93-463.

* * * * *

§ 150.2 Limits on position and daily trading in cotton for future delivery.

* * * * *

(c) *Bona fide hedging; straddles.* The foregoing limits upon position and upon daily trading shall not be construed to apply to bona fide hedging transactions or positions, as provided in regulations issued pursuant to section 4a(3) of the Commodity Exchange Act (7 U.S.C. 6a (3)), and section 404 of Pub. L. 93-463, nor, except during the delivery month, to (1) net positions in any one future to the extent that they are shown to represent straddles between cotton futures or markets, or (2) purchases and sales of cotton which are shown to represent straddles or the closing of straddles between futures or markets.

* * * * *

§ 150.3 Limits on position and daily trading in rye for future delivery.

* * * * *

(c) *Bona fide hedging.* The foregoing limits upon position and upon daily trading shall not be construed to apply to bona fide hedging transactions or positions, as provided in regulations issued pursuant to section 4a(3) of the Commodity Exchange Act (7 U.S.C. 6a(3)) and section 404 of Pub. L. 93-463.

* * * * *

§ 150.4 Limits on position and daily trading in soybeans for future delivery.

* * * * *

(c) *Bona fide hedging.* The foregoing limits upon position and upon daily trading shall not be construed to apply to bona fide hedging transactions or positions, as provided in regulations issued pursuant to section 4a(3) of the Commodity Exchange Act (7 U.S.C. 6a(3)) and section 404 of Pub. L. 93-463.

* * * * *

§ 150.5 Limits on position and daily trading in eggs for future delivery.

* * * * *

(c) *Bona fide hedging.* The foregoing limits upon position and upon daily trading shall not be construed to apply to bona fide hedging transactions or positions, as provided in regulations issued pursuant to section 4a(3) of the Commodity Exchange Act (7 U.S.C. 6a(3)) and section 404 of Pub. L. 93-463.

* * * * *

§ 150.10 Limits on position and daily trading in potatoes for future delivery.

* * * * *

(c) *Bona fide hedging.* The foregoing limits upon position and upon daily trading shall not be construed to apply to bona fide hedging transactions or positions, as provided in regulations issued pursuant to section 4a(3) of the Commodity Exchange Act (7 U.S.C. 6a(3)) and section 404 of Pub. L. 93-463.

* * * * *

§ 150.11 Limits on position and daily trading in corn for future delivery.

* * * * *

(c) *Bona fide hedging.* The foregoing limits upon position and upon daily trading shall not be construed to apply to bona fide hedging transactions or positions, as provided in regulations issued pursuant to section 4a(3) of the Commodity Exchange Act (7 U.S.C. 6a(3)) and section 404 of Pub. L. 93-463.

* * * * *

(Section 4a as added by section 5, 49 Stat. 1492, and amended by section 1, 70 Stat. 630, and sections 2-4, 82 Stat. 26, 27)

Issued April 1, 1975.

COMMODITY EXCHANGE COMMISSION,
E. L. PETERSON,
Chairman designee for the Secretary of Agriculture.

JOSEPH J. SAUNDERS,
Member designee for the Attorney General.

SAMUEL B. SHERWIN,
Member designee for the Secretary of Commerce.

[FR Doc.75-8809 Filed 4-3-75;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

PART 8—COLOR ADDITIVES

FD&C Red No. 40; Confirmation of Effective Date

An order was published in the FEDERAL REGISTER of December 23, 1974 (39 FR 44198) amending § 8.7201 to provide for safe use of the color additive FD&C Red No. 40 in cosmetics generally subject to certification (21 CFR 8.7201). The order also deleted from § 8.7201 the specific use of the additive in coloring dentifrices, since such use would be included under use in cosmetics generally.

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 706 (b), (c), and (d), 74 Stat. 399-403; 21 U.S.C. 376 (b), (c), and (d)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), notice is given that no objections or requests for hearing were filed in response to the subject order. Accordingly, the amendment promulgated thereby became effective February 21, 1975.

Dated: March 14, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.75-8761 Filed 4-3-75;8:45 am]

PART 8—COLOR ADDITIVES

Subpart—Provisional Regulations

Postponement of Closing Dates and Deletion of Certain Color Additives from Provisional Listing

The Commissioner of Food and Drugs is postponing the closing date of December 31, 1974 for certain provisionally listed color additives upon request for such action and is deleting 13 color additives from the provisional list, effective January 1, 1975.

Pursuant to the provisions of Title II of the Color Additive Amendments of 1960 (sec. 203(a)(2), Pub. L. 86-618, 74 Stat. 404 (21 U.S.C. 376 note)) and under authority delegated to him (21 CFR 2.120), the Commissioner is authorized to postpone the closing date of a provisional listing of a color additive on his own initiative or upon the application of an interested person. Section 203(d)(1) of Title II requires promulgation, insofar as practical, of a current listing of color additives and the particular uses thereof deemed provisionally listed.

The Commissioner finds that, except for thirteen color additives—namely, aluminum hydroxide, barium sulfate, calcium carbonate, calcium sulfate, cornstarch, magnesium carbonate, magnesium oxide, magnesium trisilicate, silicic acid, silicon dioxide, talc, tin oxide, and zinc carbonate—postponement of the closing date for the currently provisionally listed color additives is consistent with the protection of the public health and with the objective of carrying to completion the scientific investigations

V 40-166
APR 4 75
XUM

necessary for making a determination as to the listing of such color additives, or specified uses thereof, under section 706 (b) of the Federal Food, Drug, and Cosmetic Act.

A notice was published in the FEDERAL REGISTER of October 8, 1974 (39 FR 36126) announcing that the provisional listing, with respect to 21 color additives on the so-called "Harvey list," would be retained only for those color additives for which color additive petitions or progress reports as provided for under § 8.501 (21 CFR 8.501), were submitted by December 31, 1974. Included in the "Harvey list" were the above-identified 13 color additives. However, the provisional listings of these 13 color additives are being terminated by this order, on the basis that no color additive petition or progress report has been submitted for any of these color additives; and the Food and Drug Administration is not aware of any studies in progress, or of any current interest, with respect to pursuing the listing of these 13 color additives under section 706(b) of the Federal Food, Drug, and Cosmetic Act.

Therefore, pursuant to the transitional provisions accompanying the Color Additive Amendments of 1960 to the Federal Food, Drug, and Cosmetic Act (sec. 203(a)(2), (d)(1), Title II, Pub. L. 86-618; 74 Stat. 404-405 (21 U.S.C. 376 note)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 8 is amended as follows:

§ 8.501 [Amended]

Section 8.501 is amended by:

1. Changing the closing dates for the color additives listed in paragraphs (a), (b), (c), (e), (f), and (g) to read, "December 31, 1975, or until a new closing date is established".

2. Deleting the items, "Aluminum hydroxide", "Barium sulfate (blanc fixe)", "Calcium carbonate", "Calcium sulfate", "Cornstarch", "Magnesium carbonate", "Magnesium oxide", "Magnesium trisilicate", "Silicic acid", "Silicon dioxide (silica)", "Talc", "Tin oxide", and "Zinc carbonate" from the list of color additives in paragraph (g).

Notice and public procedure and delayed effective date are not prerequisites to the promulgation of this order, since § 203(a)(2) of Pub. L. 86-618 provides for this issuance.

Effective date. This order is effective as of January 1, 1975.

(Sec. 203(a)(2), (d)(1), Title II, Pub. L. 86-618; 74 Stat. 404-405; 21 U.S.C. 376 note.)

Dated: March 17, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.75-8760 Filed 4-3-75;8:45 am]

PEPTIDE ANTIBIOTIC DRUGS

Zinc Bacitracin; Change in Method for Determining Zinc Content

In a notice published in the FEDERAL REGISTER of September 26, 1974 (39 FR 34561), the Commissioner of Food and Drugs proposed to amend 21 CFR Parts 431, 436, and 448 by providing a new official method for determining the zinc content of zinc bacitracin. This proposed method is more sensitive and more specific, and it can be performed in a shorter period of time than the method set out currently in the regulations. Interested persons were invited to submit their comments in response to the notice of proposed rule making on or before June 3, 1975. No comments were received. Accordingly, the Commissioner of Food and Drugs concludes that the antibiotic drug regulations should be amended as set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Subchapter D is amended as follows:

PART 431—CERTIFICATION OF ANTIBIOTIC DRUGS

1. In Part 431 by amending § 431.53 (b)(1), by revising the last item in the table to read as follows:

§ 431.53 Fees.

. . . . . .

(b) . . .

(1) . . .

Test:	*Chargeable fee per test*
. . . . .	
Zinc content	36
. . . . .	

PART 436—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

2. In part 436 by establishing new § 436.312, to read as follows:

§ 436.312 Atomic absorption method for determining the zinc content of zinc bacitracin.

(a) *Equipment.* An atomic absorbance spectrophotometer equipped with a zinc hollow-cathode discharge lamp, an air-acetylene flame, a nebulizer-burner system for introducing the sample solution into the flame, an optical dispersing device (such as a monochromator) for isolating a resonance line of zinc from others produced by the emission source, and a suitable radiation detector and recorder.

(b) *Preparation of working standard and sample solutions*—(1) *Working standard solutions.* Prepare a standard stock solution containing 10 milligrams of zinc per milliliter as follows: Weigh 3.11 grams of zinc oxide into a 250-milliliter volumetric flask, add 80 milliliters of 1*N* HCl, warm to dissolve, cool to room temperature, and dilute to volume with water. Dilute aliquots of this standard stock solution with 0.001*N* HCl to obtain three working standard solutions containing respectively 0.5, 1.5, and 2.5 micrograms of zinc per milliliter.

(2) *Sample solution.* Accurately weigh approximately 200 milligrams of the sample into a 100-milliliter volumetric flask. Dissolve and dilute to volume with 0.01*N* HCl. Transfer a 2.0-milliliter aliquot of this solution to a 200-milliliter volumetric flask and dilute to volume with 0.001*N* HCl.

(c) *Procedure.* Using 0.001*N* HCl as the blank, adjust the absorbance of the instrument to zero at a detection wavelength of 213.8 nanometers. Determine the absorbance of each standard solution and the sample solution at 213.8 nanometers.

(d) *Calculations.* Plot the absorbance versus the concentration of each of the working standard solutions. Draw a straight response line of best fit through these points. Read the concentration of zinc in micrograms per milliliter corresponding to the absorbance of the sample solution. Calculate the percent zinc in the sample as follows:

$$\text{Percent zinc} = \frac{C \times 100{,}000}{\text{Milligrams of sample} \times (100-m)}$$

where:

C = Concentration of zinc in the sample solution in micrograms per milliliter;

m = Percent moisture in the sample.

PART 448—PEPTIDE ANTIBIOTIC DRUGS

3. In Part 448:

a. Section 448.13(b)(5) is revised to read as follows:

§ 448.13 Zinc bacitracin.

. . . . . .

(b) . . .

(5) *Zinc content.* Proceed as directed in § 436.312 of this chapter.

b. Section 448.13a(b)(6) is revised to read as follows:

§ 448.13a Sterile zinc bacitracin.

. . . . . .

(b) . . .

(6) *Zinc content.* Proceed as directed in § 436.32 of this chapter.

Effective date. This order shall become effective May 5, 1975.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357.)

MARY A. MCENIRY,
Assistant to the Director for Regulatory Affairs, Bureau of Drugs.

SUBCHAPTER D—DRUGS FOR HUMAN USE

PART 440—PENICILLIN ANTIBIOTIC DRUGS

Revision of Pyrogens Test for Methicillin

In a notice of proposed rule making published in the FEDERAL REGISTER of September 26, 1974 (39 FR 34562), the Commissioner of Food and Drugs proposed to amend 21 CFR Part 440 by increasing the methicillin content of the pyrogens test dose solution as necessary to provide adequate assurance for detection of pyrogen contamination. Interested persons were invited to submit their comments in response to the notice of

proposed rule making on or before June 3, 1975. No comments were received. Accordingly, the Commissioner of Food and Drugs concludes that the antibiotic drug regulations should be amended as set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Part 440 is amended as follows:

1. In Subpart A by revising § 440.36a (b)(3) to read as follows:

§ 440.36a Sterile sodium methicillin.

. . . . . .

(b) . . .

(3) *Pyrogens.* Proceed as directed in § 436.32(a) of this chapter, using a solution containing 60 milligrams of methicillin per milliliter.

. . . . . .

2. In Subpart C by revising § 440.236 (b)(3) to read as follows:

§ 440.236 Sodium methicillin for injection.

. . . . . .

(b) . . .

(3) *Pyrogens.* Proceed as directed in § 436.32(a) of this chapter, using a solution containing 60 milligrams of methicillin per milliliter.

. . . . . .

Effective date. This order shall become effective May 5, 1975.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357.)

Dated: March 20, 1975.

MARY A. MCENIRY,
Assistant to the Director for Regulatory Affairs, Bureau of Drugs.

[FR Doc.75-8759 Filed 4-3-75;8:45 am]

PART 449—ANTIFUNGAL ANTIBIOTIC DRUGS

Candicidin; Change in Potency Assay Method

A notice was published in the FEDERAL REGISTER of November 1, 1972 (37 FR 23278), proposing to amend §§ 148v.3 and 148v.4 (now §§ 449.610a and 449.610c (21 CFR 449.610a and 449.610c) pursuant to recodification published in the FEDERAL REGISTER of May 30, 1974 (39 FR 18922)) of the antibiotic drug regulations by revising the potency assay method for candicidin vaginal ointment and candicidin vaginal capsules. The proposal provided for the addition of 0.1 percent butylated hydroxyanisole to both the *n*-hexane and the dimethylsulfoxide used in the extraction of candicidin. The notice afforded interested person an opportunity to submit written comments on the proposal. Comments were received from two antibiotic drug manufacturers.

1. One manufacturer was in agreement with the proposed method and provided data to demonstrate the improved assay results obtained with that method.

2. The second manufacturer objected to the proposed revisions primarily for technical reasons. In order to fully consider these comments, collaborative laboratory studies involving the Food and Drug Administration and the manufacturer were undertaken. As a result of these laboratory studies, the manufacturer notified the Hearing Clerk, Food and Drug Administration by letter of January 23, 1975, that they are withdrawing their earlier objections.

The Commissioner concludes that there are no objections to the proposal and that it should be adopted, with a minor technical change, as set forth below. This change provides for washing out the candicidin vaginal capsules with warm *n*-hexane after the ointment has been expressed and adding the washes to the separatory funnel.

Therefore, under provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under the authority delegated to the Commissioner (21 CFR 2.120), Part 449 (which includes the former Part 148v) is amended as follows:

1. By revising § 449.610a(b)(1) to read as follows:

§ 449.610a Candicidin vaginal ointment.

. . . . . .

(b) . . .

(1) *Potency.* Proceed as directed in § 436.106 of this chapter, preparing the sample for assay as follows: Place an accurately weighed representative portion of the sample into a separatory funnel containing approximately 50 milliliters of *n*-hexane (containing 0.1 percent butylated hydroxyanisole). Shake the sample and *n*-hexane until homogeneous. Add 15 milliliters of dimethylsulfoxide (containing 0.1 percent butylated hydroxyanisole) and shake well. Allow the layers to separate. Remove the bottom layer and repeat the extraction procedure with a second 15-milliliter portion of dimethylsulfoxide (containing 0.1 percent butylated hydroxyanisole). Combine the extractives in a suitable volumetric flask and fill to volume with sterile distilled water. Further dilute an aliquot with sterile distilled water to the reference concentration of 0.06 microgram of candicidin per milliliter (estimated).

. . . . . .

2. By revising § 449.610c(b)(1) to read as follows:

§ 449.610c Candicidin vaginal capsules.

. . . . . .

(b) . . .

(1) *Potency.* Proceed as directed in § 436.106 of this chapter, preparing the sample for assay as follows: Remove the tips from two capsules and express the ointment from each capsule into a separatory funnel containing approximately 50 milliliters of *n*-hexane (containing 0.1 percent butylated hydroxyanisole). Wash out the capsules at least two times with 2- to 3-milliliter portions of warm (approximately 50° C) *n*-hexane (containing 0.1 percent butylated hydroxyanisole). Add the washes to the separatory funnel. Shake the sample and *n*-hexane until homogeneous. Add 15 milliliters of dimethylsulfoxide (containing 0.1 percent butylated hydroxyanisole) and shake well. Allow the layers to separate. Remove the bottom layer and repeat the extraction procedure with a second 15-milliliter portion of dimethylsulfoxide (containing 0.1 percent butylated hydroxyanisole). Combine the extractives in a suitable volumetric flask and fill to volume with sterile distilled water. Further dilute an aliquot with sterile distilled water to the reference concentration of 0.06 microgram of candicidin per milliliter (estimated).

. . . . . .

Effective date. This order shall become effective May 5, 1975.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357.)

Dated: March 26, 1975.

MARY A. MCENIRY,
Assistant to the Director for Regulatory Affairs, Bureau of Drugs.

Title 24—Housing and Urban Development

CHAPTER V—OFFICE OF ASSISTANT SECRETARY FOR COMMUNITY PLANNING AND DEVELOPMENT

[Docket No. R-75-292]

PART 570—COMMUNITY DEVELOPMENT BLOCK GRANTS

Extension of Application Deadline

On February 5, 1975, in 40 FR 5356, the Department amended § 570.300(a) of Title 24 of the Code of Federal Regulations which governs the deadlines for submission of applications for community development block grants under title I of the Housing and Community Development Act of 1974, Pub. Law 93-383. The part 570 regulation was published November 13, 1974 (39 FR 40136). The purpose of the first amendment was to allow the Secretary discretion to extend the deadline for particular cases in certain narrow circumstances. Subsequently, the need for additional deadline extensions has arisen because of changes in the scheduling and review of eligibility determinations affecting urban counties as entitlement applicants under Part 570. It was anticipated by HUD that such determinations could be accomplished in time to permit the urban counties to apply by April 15, 1975, the same time as other eligible applicants. The process of obtaining local certifications with respect to the authority of urban counties to undertake essential community development and housing assistance activities has necessitated an extension of the timetable orignally established by HUD for the acceptance and review of applications from urban counties. In addition, the form and content of cooperation agreements, where required, varied among urban counties, thereby delaying further the estimated schedules for urban county qualification. Therefore, § 570.300(a) is hereby revised to extend

V 40166 APR 4 75 XUM

the deadline for application submissions by urban counties. It is necessary that this amendment take effect at the earliest possible date so that those urban counties unable to meet the previously established deadlines can plan the completion of their work within the time remaining under the extended dates. Accordingly, the Assistant Secretary for Community Planning and Development finds good cause for foregoing usual public comment and notice procedure, and he finds further good cause that this amendment to the regulations should take effect on the date of publication. In connection with the environmental review of this technical change to the final Regulations, a Finding of Inapplicability has been made under HUD Handbook 1390.1, 38 FR 19182.

The section is amended as follows:

In Subpart D of Part 570, § 570.300 is revised to read as follows:

§ 570.300 Pre-submissions.

(a) *Timing of submission of applications.* The Secretary will establish from time to time the earliest and latest dates for submission of an application for each fiscal year. Applications, or draft materials relating to applications, received before the earliest date will be returned to the applicant without review. For fiscal year 1975, the earliest date for submission of an application shall be December 1, 1974; the latest date shall be April 15, 1975: *Provided, however,* That the Secretary may extend the April 15, 1975, deadline for submission of an application in particular cases in which, in his judgment, procedures mandated by state statute or regulation render submission of the application by April 15, 1975, impracticable, but in no event will submission of an application be accepted after May 30, 1975. Applicants wishing to request an extension of the April 15, 1975, deadline pursuant to this paragraph shall inform the appropriate HUD Area Office by March 1, 1975, giving the basis for the applicant's inability to file an application by April 15, 1975. No extension will be granted if the request for extension and the reasons therefor have not been received by HUD by March 1, 1975. *Provided, further,* That all counties which have been advised by HUD of either final qualification or preliminary recognition for qualification as urban counties under § 570.105 may have their deadline for submission of their applications extended to May 15, 1975; provided, however, that the request for such an extension has been received by the HUD Area Office by April 15, 1975. Cooperation agreements, where required for urban counties, shall be submitted not later than fifteen days after the date an application from an urban county has been received for processing in HUD. Prior to the earliest date for submission of an application for each fiscal year, HUD will provide all applicants with forms and instructions, including the actual or estimated entitlement amount. Entitlement applicants wishing to apply for discretionary grants shall follow the procedures described in Subpart E, Applications and Criteria for Discretionary Grants.

• • • • •

(Sec. 7(d) Department of HUD Act (42 U.S.C. 3535(d)).

Effective date. This amendment shall be effective on April 4, 1975.

DAVID O. MEEKER, Jr.,
Assistant Secretary for Community Planning and Development.

[FR Doc.75-8784 Filed 4-3-75;8:45 am]

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER F—PROCEDURE AND ADMINISTRATION

[T.D. 7350]

[Regs. on procedure and administration]

PART 301—PROCEDURE AND ADMINISTRATION

Inspection and Copying of Documents

This document adopts an amendment to the Procedure and Administration Regulations (26 CFR Part 301) under section 6104 of the Internal Revenue Code of 1954, relating to copying of documents, in order to liberalize the manner in which copies may be made of material that is otherwise available to the public for inspection, and to reflect the change in title of the Public Information Division and the Director, Public Affairs Division.

Currently, § 301.6104–1(e)(3) provides that copies of applications for exemption and supporting documents may be made manually but not photographically. Similarly, § 301.6104–2(c)(4) provides that, with the exception of copies made in the National Office and the Mid-Atlantic Regional Service Center, copies of information returns and annual reports of certain organizations and certain trusts may be made manually but not photographically. Under the amendment, photographic copies of such applications, information returns, and annual reports may be made at the place of inspection by a person who provides the equipment with which such copies are made. In addition, reference is currently made in paragraphs (d), (e), and (f) of § 301.6104–1 and paragraph (b) of § 301.6104–2 to the Public Information Division. Similarly, § 301.6104–2(c) refers to the Director, Public Affairs Division. The Public Information Division is now the Public Affairs Division, and the Director of the Public Affairs Division is now the Assistant to the Commissioner (Public Affairs). The above provisions in the regulations are amended to conform with such changes.

Adoption of amendment to the regulations. In order to liberalize the manner in which copies may be made and to revise the references to the Public Information Division or its Director, the following amendment to the Procedure and Administration Regulations (26 CFR Part 301) under section 6104 of the Internal Revenue Code of 1954 is hereby adopted:

PARAGRAPH 1. Section 301.6104–1 is amended by revising the first sentence of paragraph (d), the second sentence of paragraph (e)(1), the first sentence of paragraph (e)(3), and the last sentence of paragraph (f). The revised provisions read as follows:

§ 301.6104–1 Public inspection of applications for tax exemption.

• • • • •

(d) *Place of inspection.* Applications for exemption, together with any supporting documents, which are open to public inspection under section 6104(a)(1) shall be available for inspection on or after November 3, 1958, in the Public Affairs Division, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, regardless of when or where such applications were filed except for such applications as have been destroyed pursuant to Congressional authority. • • •

(e) *Procedure for public inspection of applications for exemption*—(1) *Request for inspection.* • • • If inspection at the National Office is desired, the request shall be made in writing to the Commissioner of Internal Revenue, Attention: Assistant to the Commissioner (Public Affairs), 1111 Constitution Avenue NW., Washington, D.C. 20224. • • •

• • • • •

(3) *Copies.* Notes may be taken of the material opened for inspection under this section, and copies may be made manually or, if a person provides the equipment, photographically at the place of inspection, subject to reasonable supervision with regard to the facilities and equipment to be employed. • • •

• • • • •

(f) *Statement of exempt status.* • • • Request for such information may be made in writing to the Commissioner of Internal Revenue, Attention: Assistant to the Commissioner (Public Affairs), 1111 Constitution Avenue NW., Washington, D.C. 20224, or to the district director with whom the organization's application for exemption was required to be filed.

PAR. 2. Section 301.6104–2 is amended by revising paragraph (b), the second sentence of paragraph (c)(1) and the second sentence of paragraph (c)(4). The revised provisions read as follows:

§ 301.6104–2 *Publicity of information on certain information returns and annual reports.*

• • • • •

(b) *Place of inspection.* Information furnished on the public portion of returns and annual reports (as described in paragraph (a) of this section) shall be available to any person in the National Office, Public Affairs Division, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, in the Office of the Director, Mid-Atlantic Regional Service Center, Philadelphia, Pa., and in the office of the district director of the district serving the principal place of business of the organization.

(c) *Procedure for public inspection*—(1) *Requests for inspection.* • • • If inspection at the National Office is desired, the request shall be made in writing to the Commissioner of Internal Revenue, Attention: Assistant to the Commissioner (Public Affairs), Washington, D.C. 20224. • • •

• • • • •

(4) *Copies.* • • • Copies may be made manually or, if a person provides the equipment, photographically at the place of inspection, subject to reasonable supervision with regard to the facilities and equipment to be employed. • • •

Because this Treasury decision constitutes a liberalization of policy with respect to rules of Departmental practice and procedure, it is found that it is unnecessary to issue this Treasury decision with notice and public proceure thereon under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; (26 U.S.C. 7805))

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: March 25, 1975.

ERNEST S. CHRISTIAN, Jr.,
Deputy Assistant Secretary of the Treasury.

[FR Doc.75-8847 Filed 4-3-75;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 14—DEPARTMENT OF THE INTERIOR

PART 14–3—PROCUREMENT BY NEGOTIATION

Determinations and Findings

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301, Part 14–3 of Chapter 14 of Title 41 of the Code of Federal Regulations is hereby amended as stated herein.

It is the general policy of the Department of the Interior to allow time for interested parties to participate in the rulemaking process. However, the amendments herein are revisions in administrative procedures. Paragraph (i) of § 14–3.305–51 of 41 CFR is revised to provide that determinations and finding required to waive the audit of proposals will be signed by the contracting officer. Paragraph (m) of § 14–3.305–51 of 41 CFR is revised to provide that the determination, findings and authorization to make advance payments and the contract provisions relating to advance payments will be approved by the Assistant Director for Procurement, Office of Management Services. Because the amendments are entirely administrative in nature, the public rulemaking process is waived in this instance. Subpart 14–3.3 of 41 CFR, as published in the FEDERAL REGISTER of December 30, 1974 (39 FR 44982), is amended as stated below effective immediately.

Dated: March 27, 1975.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

Subpart 14–3.3—Determinations, Findings, and Authorities

1. Subpart 14–3.3 of 41 CFR is amended by revising §§ 14–3.305–51(i) and 14–3.305–51(m)(1) to read as follows:

§ 14–3.305–51 Summary of required determinations and findings.

• • • • • •

(i) Waiver of audit of proposals. The determination and findings required to waive the audit of proposals which exceed $100,000 pursuant to § 1–3.809(b) of this title will be signed by the contracting officer.

• • • • • •

(m) Advance payments. (1) The determination, findings, and authorization required to make advance payments pursuant to § 1–30.405 of this title will be signed by the contracting officer after the determination, findings, and authorization and the contract provisions relating to advance payments are approved by the Assistant Director for Procurement, Office of Management Services, as set forth in § 14–30.406 of this chapter. (See also §§ 1–30.410 and 1–30.414–2 of this title.)

• • • • • •

[FR Doc.75-8801 Filed 4-3-75;8:45 am]

CHAPTER 109—ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

PART 109–1—INTRODUCTION

Miscellaneous Amendments

The Energy Research and Development Administration (ERDA) was established by the Energy Reorganization Act of 1974 (P.L. 93–438), and the creation of ERDA was made effective on January 19, 1975, by Executive Order 11834, dated January 15, 1975, published on January 17, 1975, at 40 F.R. 2971.

All rules and regulations in 41 CFR Chapter 109 were adopted by ERDA for all ERDA activities under the Energy Reorganization Act of 1974, the Federal Nonnuclear Energy Research and Development Act of 1974 (P.L. 93–577), and other applicable law and were redesignated as the Energy Research and Development Administration Property Management Regulations (ERDA–PMR) with changes as published on February 5, 1975, at 40 F.R. 5364.

Revisions to 41 CFR Chapter 109 are necessary to provide the proper authority for prescribing ERDA–PMR's, correct the procedure for obtaining copies of the ERDA–PMR's, and to establish authority for exemptions to the Federal Property and Administrative Services Act of 1949, as amended.

1. § 109–1.102 is revised to read as follows:

§ 109–1.102 Authority for prescribing ERDA–PMR.

The ERDA Property Management Regulations are prescribed by the Administrator or his designee and the head of any ERDA division or office having functional responsibility for the Regulations being prescribed, pursuant to the authority of the Energy Reorganization Act of 1974, and the Federal Property and Administrative Services Act of 1949, as amended.

2. § 109–1.104–2(a) is revised to read as follows:

§ 109–1.104–2 Copies.

(a) Copies of the FEDERAL REGISTER in which ERDA Property Management Regulations are published and the Code of Federal Regulations may be purchased by Federal Agencies and the public, at nominal cost, from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

• • • • • •

3. § 109–1.151 (a) is revised to read as follows:

§ 109–1.151 Exemptions.

(a) Section 602(d)(13) of the Federal Property and Administrative Services Act of 1949, as amended, provides that nothing in that Act shall impair or affect any authority of the Atomic Energy Commission. This includes the authority of AEC under the Atomic Energy Act of 1954, as amended, Public Law 85–804, and any other law. All authorities of the Atomic Energy Commission, except as noted in the Energy Reorganization Act of 1974, were transferred by that Act to the Energy Research and Development Administration.

• • • • • •

(Sec. 105, Energy Reorganization Act of 1974, Pub. L. 93–438)

Questions or comments concerning this notice may be directed to the Director of Procurement, ERDA.

Effective date. This notice is effective immediately.

Dated at Germantown, Maryland, this 28th day of March, 1975.

JOSEPH L. SMITH,
Director of Procurement.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

[8 CFR Part 214]

NONIMMIGRANT STUDENTS

Full Course of Study and Off-Campus Employment

Pursuant to section 553 of title 5 of the United States Code (80 Stat. 383), notice is hereby given of the proposed amendment of 8 CFR 214.2(f) pertaining to nonimmigrant students, their pursuit of a full course of study, and their off-campus employment.

It is proposed to amend § 214.2(f) to incorporate into the regulations a definition of the term "full course of study" within the meaning of section 101(a)(15)(F)(i) of the Immigration and Nationality Act, as amended, and as used in 8 CFR Chapter I. It is proposed to further amend § 214.2(f) to make it clear that a nonimmigrant student may not engage in gainful off-campus employment in the United States without the prior approval of this Service. Corollary amendments are proposed in §§ 214.3(g) and 214.4(a).

In accordance with the provisions of section 553 of Title 5 of the United States Code (80 Stat. 383), interested persons may submit to the Commissioner of Immigration and Naturalization, Room 7100–C, 425 Eye Street NW., Washington, D.C. 20536, written data, views, or arguments, in duplicate, with respect to the proposed rules. Such representations may not be presented orally in any manner whatsoever. All relevant material received by the close of business on May 1, 1975, will be considered.

In the light of the foregoing, it is proposed to amend Part 214 of 8 CFR Chapter I as follows:

1. It is proposed to amend § 214.2(f) by adding between the existing subparagraphs (1) and (2) a new subparagraph (1a), and by inserting between the heading and the existing first sentence of subparagraph (6), a new sentence, to read as follows:

§ 214.2 Special requirements for admission, extension, and maintenance of status.

• • • • • •

(f) *Students.* • • •

(1a) *Full course of study.* A "full course of study" as required by section 101(a)(15)(F)(i) of the Act means (i) post graduate study at a college or university, or undergraduate or post graduate study at a religious seminary, certified by an authorized official of the institution as a full course of study; (ii) undergraduate study at a college or university certified by an authorized official of the institution to consist of at least 12 hours of instruction per week, or its equivalent or (iii) study at a vocational, business, or language school, certified by an authorized official of the institution to consist of at least 20 clock hours of attendance per week if classroom instructions comprises the dominant part of the course of studies, or at least 25 hours per week if shop or laboratory work comprises the dominant part of the course of studies, or (iv) study at a secondary or primary school certified by an authorized official of the institution to consist of class attendance for not less than the minimum number of hours per week prescribed by such school for normal progress towards graduation. Also, to be deemed a full course of study the authorized school official must certify that the course of study will lead to the attainment of a specific educational objective. Except for post graduate study at a college or university, or undergraduate or post graduate study at a religious seminary, any class scheduled to commence at or after 6 p.m. shall not be counted in determining whether a student will pursue a full course of study unless a specific subject taught in such class is not offered or available in classes scheduled before 6 p.m. A school shall not issue Form I–20 to any student who will not be pursuing a full course of study as defined in this subparagraph. For purposes of this subparagraph, a college or university is an institution of learning which awards recognized degrees in educational programs above the level of a secondary school, and includes a community or junior college which awards such degrees. A college or university does not include a vocational, business or language school. A nonimmigrant admitted to the United States prior to July 1, 1975 under section 101(a)(15)(F)(i) of the Act or granted a change to that classification prior to that date, notwithstanding that he may not be taking a full course of study as defined in this subparagraph, may continue in that nonimmigrant classification until he completes the course of study at the school he was authorized to attend prior to that date, provided he continues to carry not less than what the school had considered to be a full course of study and he otherwise continues to maintain student status.

• • • • • •

(6) *Employment.* A nonimmigrant student is not permitted to engage in gainful off-campus employment in the United States, either for an employer or independently, unless his application to do so has first been approved by the Service. • • •

• • • • • •

2. In § 214.3, it is proposed to amend the second sentence of paragraph (g) to read as follows:

§ 214.3 Petitions for approval of schools.

• • • • • •

(g) *Reporting requirements.* Each approved school, upon receiving Service notification of arrival in the United States of a nonimmigrant student destined to that school, or Service notification of permission to attend the school, shall submit immediately to the office of the Service having jurisdiction over the area in which the institution is located a report, in writing, if the student fails to register personally at the school within 60 days of the time he was expected to do so. An immediate report shall also be made in the case of each nonimmigrant student who fails to carry a full course of study as defined in § 214.2(f)(1a), fails to attend classes to the extent normally required, or terminates his attendance at the institution. The report shall be made on Form I–20B.

• • • • • •

3. In § 214.4, it is proposed to amend paragraph (a) by adding a new subparagraph (3) and by redesignating existing subparagraphs (3) through (6) as (4) through (7), respectively, to read as follows:

§ 214.4 Withdrawal of school approval.

(a) *General.* The approval by the Service, pursuant to section 101(a)(15)(F) of the Act and this part, of a petition by a school or school system for the attendance of nonimmigrant students shall be withdrawn if the school or school system is no longer entitled to such approval for any reason including, but not limited to, the following: (1) Failure to submit reports required by § 214.3(g); (2) issuance of Certificates of Eligibility, Forms I–20, to students lacking scholastic, financial, or language requirements; (3) issuance of Certificates of Eligibility, Forms I–20, to students who will not be enrolled in or carry a full course of study as defined in § 214.2(f)(1a); (4) failure to operate as a bona fide institution of learning; (5) failure to employ qualified professional personnel; (6) failure to maintain proper facilities for instruction; or (7) failure to limit its advertising in the manner prescribed in § 214.3(f).

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social and Rehabilitation Service

[45 CFR Part 250]

MEDICAL ASSISTANCE PROGRAM

Fraud in the Medical Assistance Program

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulations revise 45 CFR 250.80(a)(4) published in the FEDERAL REGISTER of March 1, 1974 (39 FR 7930), which relate to procedures for detecting and acting on cases of suspected fraud in the medical assistance program under title XIX, Social Security Act.

At present State agencies must report to the Social and Rehabilitation Service each case of suspected fraud by a provider which has been referred by the State or local agency to law enforcement officials for appropriate action. Such reports must use a numbering system which does not disclose identity of the provider (unless SRS specifically requests such disclosure).

In order to facilitate the exchange of information between the Bureau of Health Insurance, Social Security Administration and the Medical Services Administration, SRS, about providers suspected of fraud in the Medicaid and Medicare (title XVIII) programs, the proposed change would require States to report to SRS by name and provider number providers suspected of fraud.

Prior to the adoption of the proposed revision in the regulations, consideration will be given to any comments, suggestions, or objections thereto which are received in writing by the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, P.O. Box 2366, Washington, D.C. 20013, on or before May 5, 1975. Comments will be available for public inspection in Room 5326 of the Department's offices at 330 C Street SW., Washington, D.C. on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202–245–0950).

(Catalog of Federal Domestic Assistance Program No. 13.714, Medical Assistance Program)

Dated: January 24, 1975.

JAMES S. DWIGHT, JR.,
Administrator, Social and Rehabilitation Service.

Approved: March 26, 1975.

CASPAR W. WEINBERGER,
Secretary.

Section 250.80(a)(4) of 45 CFR Part 250 is revised to read as follows:

§ 250.80 Fraud in the medical assistance program.

(a) *State plan requirements.* • • •

• • • • • •

(4) Provide that the State agency will establish and maintain procedures for reporting

(i) to the Regional Office, SRS, at the time an investigation is initiated, the name and provider number of each case of suspected fraud by a provider;

(ii) to the Central Office, SRS, on a quarterly basis both (A) the name and provider number of each case of suspected fraud by a provider which has been referred by the State or local agency to law enforcement officials for appropriate action and (B) the disposition thereof by such law enforcement officials.

• • • • • •

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302))

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 75–052]

DRAWBRIDGE OPERATION REGULATIONS PASSAIC RIVER, N.J.

Notice of Proposed Rule Making

At the request of the Board of Chosen Freeholders of Bergen and Passaic Counties, the Coast Guard is considering amending the regulations for the Gregory Avenue drawbridge across the Passaic River, mile 14.0, to permit the draw to be maintained in a permanently closed position. There have been no passages through the draw since May 5, 1972, and no potential water commerce is contemplated. The draws of the 2nd Street and 8th Street drawbridges immediately upstream of this bridge have been permitted to be maintained in the permanently closed position. Also, "Market Street" has been renamed "Second Street", and this change is made accordingly.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Third Coast Guard District, Governors Island, New York, N.Y. 10004. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Third Coast Guard District.

The Commander, Third Coast Guard District, will forward any comments received before May 6, 1975, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that 33 CFR Part 117 be amended by revising paragraph (f)(2) of § 117.225 to read as follows:

§ 117.225 Navigable waters in the State of New Jersey; bridges where constant attendance of draw tenders is not required.

• • • • • •

(f) • • •

(2) Passaic River, Passaic and Bergen Counties highway bridges at Gregory Avenue, Second Street and West Eighth Street, Passaic. The draws need not open for the passage of vessels, and paragraphs (b) through (e) of this section shall not apply to these bridges.

• • • • • •

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4)).

Dated: March 27, 1975.

W. E. CALDWELL,
Captain, U.S. Coast Guard, Acting Chief, Offe of Marine Environment and Systems.

Federal Aviation Administration

[14 CFR Part 25]

[Docket No. 14230; Notice No. 74–38A]

COMPARTMENT INTERIOR MATERIALS TOXIC GAS EMISSION

Extension of Comment Period

By an Advance Notice of Proposed Rulemaking (ANPRM), Notice 74–38, published in the FEDERAL REGISTER on December 30, 1974 (39 FR 45044), the Federal Aviation Administration stated that it is considering rule making to establish standards governing the toxic gas emission characteristics of compartment interior materials used in transport category airplanes when subjected to fire conditions. In that Notice, the FAA stated that information presently available does not provide an adequate data base for development of toxicity standards and solicited the views of all interested persons with reference to a number of questions propounded in the notice.

By letter dated March 24, 1975, the Monsanto Fire Safety Center of the Monsanto Company, a manufacturer of chemicals and other products used in various aircraft applications, requested an extension of the comment period for Notice 74–38 for a reasonable time beyond March 31, 1975, so that it could obtain and evaluate information referred to in that Notice. In view of the complexity of the subject matter of the Notice, the FAA believes that the requested extension of time should be granted in order to permit receipt of all relevant data that can be provided.

V 40 166 APR 4 75 XUM

I find that the petitioner has shown a substantive interest in the proposed rule, that good cause exists for the extension, and that the extension is consistent with the public interest.

Therefore, pursuant to the authority delegated to me by the Administrator (14 CFR 11.45), the time within which comments on Notice 75-38 will be received is extended to June 2, 1975.

Issued in Washington, D.C., on March 31, 1975.

R. P. SKULLY,
Director,
Flight Standards Service.

[14 CFR Part 71]

[Airspace Docket No. 75-NW-06]

ALTERATION OF TRANSITION AREA

Notice of Proposed Rule Making

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Seattle, Washington, Transition Area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Operations Procedures and Airspace Branch, Northwest Region, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Washington, 98108. All communications received on or before May 5, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangement for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Northwest Region, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Washington, 98108.

A review of the controlled airspace around Seattle, Washington, disclosed that the existing Transition Areas are restrictive to efficient radar vectoring services. This amendment will incorporate many of the Transition Areas into standard 700' AGL and 1200' AGL Transition Areas, thereby affording more efficient use of the controlled airspace. This will permit better sequencing of aircraft and improved service to the users.

In consideration of the foregoing the FAA proposes the following airspace action:

In § 71.181 (40 FR 441) the description of the Seattle, Washington, Transition Area is amended to read as follows:

SEATTLE, WASHINGTON

That airspace extending upward from 700 feet above the surface bounded on the east by a line beginning at Latitude 49°00' N.; Longitude 122°21' W., to Latitude 48°40' N., Longitude 122°21' W., to Latitude 48°40' N., Longitude 122°05' W., Latitude 47°30' N., Longitude 121°48' W., to Latitude 47°10' N., Longitude 121°48' W., to Latitude 46°48' N., Longitude 122°15' W., on the south by a line extending to Latitude 46°42' N., Longitude 123°17' W., on the west by a line extending to Latitude 47°10' N., Longitude 123°17' W., to Latitude 47°10' N., Longitude 120°00' W., to Latitude 47°30' N., Longitude 120°00' W., to Latitude 48°17' N., Longitude 123°15' W., thence via the Canada/United States boundary to the point of beginning; that airspace extending upward from 1200' above the surface bounded on the north by a line beginning at Latitude 48°05' N., Longitude 123°40' W., to Latitude 48°05' N., Longitude 121°35' W., on the east by a line extending to the south via Longitude 121°35' W., to the south edge of V-204, on the south by the south edge V-204 and Latitude 46°30' to the east edge of V-27, on the west by east edge of V-27 to Longitude 123°40' W., to the point of beginning; that airspace east of Seattle extending upward from 9500' MSL bounded on the north by a line beginning at Latitude 48°00' N., Longitude 121°35' W., to Latitude 48°00' N., Longitude 121°00' W., thence south to Latitude 47°42' N., Longitude 121°00' W., thence east to Latitude 47°42' N., Longitude 119°43' W., on the east by a line extending south via Longitude 119°43' W., to the north edge of V-2N, on the south by the north edge of V-2N to Longitude 121°35' W., and on the west by Longitude 121°35' W., to the point of beginning.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Seattle, Washington, on March 27, 1975.

C. B. WALK, Jr.,
Director, Northwest Region.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[355-3]

NEW YORK

Implementation Plan for Control of Indirect Sources of Air Contamination; Proposed Revision

On June 18, 1973 (38 FR 15834), the Administrator of the Environmental Protection Agency (EPA) promulgated under section 110 of the Clean Air Act, as amended, amendments to 40 CFR Part 51, Requirements for Preparation, Adoption, and Submittal of State Implementation Plans. Those amendments were designed primarily to provide for long-term maintenance of the national ambient air quality standards. Among other requirements, states were directed to expand their present procedures for review of buildings or other facilities prior to construction or modification in order to include consideration of the air quality impact not only of pollutants emitted directly from stationary sources, but also of pollution arising from mobile source activity associated with such buildings or facilities (termed indirect sources).

Pursuant to an order of the U.S. Court of Appeals for the District of Columbia Circuit in the case of Natural Resources Defense Council, Inc. et al v. EPA, States were required to submit by August 15, 1973 plan revisions to comply with these new requirements involving indirect source review (38 FR 12920).

The Commissioner of the New York State Department of Environmental Conservation (NYSDEC), on August 15, 1973, proposed a revision to the State's plan which provided for a preconstruction review of indirect sources which commenced construction after November 3, 1973. On February 25, 1974 (39 FR 7283), EPA disapproved this proposed revision request because the requirements of 40 CFR 51.18(h) were not met and State procedures allowed the issuance of a provisional permit to construct if the owner or operator of the indirect source experienced undue hardships or delay in complying with normal State procedures. To correct these deficiencies on February 25, 1974 (39 FR 7270) and as amended on July 9, 1974 (39 FR 25272), EPA promulgated a regulation applicable in New York State which provided for preconstruction review of indirect sources of air pollution. This regulation is scheduled to become effective sometime after July 1, 1975 (39 FR 45014).

To correct the deficiencies in the plan revision request of August 15, 1973, the Commissioner of NYSDEC, on January 27, 1975, submitted a new request which consists of a newly adopted Part 203 of New York's Codes, Rules and Regulations entitled "Indirect Sources of Air Pollution". Public hearings were held by New York State on this regulation on October 15 and 17, 1974 and the regulation became effective on January 13, 1975.

The regulation provides for preconstruction review in the following instances:

(1) The construction or modification of any parking facility or any associated parking area in New York County;

(2) The construction or modification of any airport which results or may result in the following activity within ten years after completion of the construction or modification:

(i) In the case of a new airport, 50,000 or more aircraft operations per year by regularly scheduled air carriers, or use by 1,600,000 or more passengers per year;

(ii) In the case of a modified airport, an increase of 50,000 or more aircraft operations per year by regularly scheduled air carriers over the existing annual volume of aircraft operations, or an increase of 1,600,000 or more passengers per year;

(3) Within an urban area:

(i) The construction of any new parking facility, or other new indirect source with an associated parking area, which adds new parking capacity of 1,000 vehicles or more;

(ii) The modification of any parking facility or any associated parking area which, by itself or when added together with all parking capacity constructed subsequent to November 4, 1973 or the date the latest permit to construct has been issued for such facility or area, will produce parking capacity of 500 vehicles or more, unless such modification is permitted under the latest permit to construct;

(iii) The construction of any road or highway section on which the annual average of daily traffic volume within ten years of completion of construction exceeds or may exceed 20,000 vehicles;

(iv) The modification of any existing section of road or highway which increases or may increase the annual average of daily traffic volume within ten years of completion of modification by more than 10,000 vehicles;

(4) Outside an urban area:

(i) The construction of any new parking facility, or other new indirect source with an associated parking area, which adds new parking capacity of 2,000 vehicles or more;

(ii) The modification of any parking facility or of any associated parking area which, by itself or when added together with all parking capacity constructed subsequent to November 4, 1973 or the date the latest permit to construct has been issued for such facility or area, will produce parking capacity of 1,000 vehicles or more, unless such modification is permitted under the latest permit to construct;

(5) Whenever an indirect source or associated parking area is to be constructed or modified in planned incremental phases, the Commissioner may approve any or all such phases prior to the initiation of any such phase.

Urban areas are defined as those which may have a potential for violating any national ambient air quality standard in the 10-year period following standard attainment. A listing of these "urban areas" is given in § 203.2(e) of the regulation.

Procedurally, the regulation requires that all affected indirect sources be subject to a detailed analysis to show that operation of the source will not cause contravention of applicable national ambient air quality standards. The applicable national standards for a parking facility are the national standards for carbon monoxide. With regard to construction and modification of highway sections and airports the applicable ambient air quality standards are the national standards for carbon monoxide, photochemical oxidants and nitrogen dioxide.

Section 203.9 of the regulation describes the criteria by which the State will determine whether to issue indirect source permit to construct. This section requires prior to the issuance of the permit that it be shown that the operation of the indirect source will not: (1) Cause a violation of any applicable ambient air quality standard or, where a violation of such standard exists, increase the ambient concentration of the applicable pollutant or interfere with attainment or maintenance of such standard; (2) cause a violation of applicable portions of any control strategy of an applicable implementation plan approved or promulgated under the Clean Air Act and in effect at the time of the issuance of the permit; and (3) result in a violation of any of the provisions of New York's Codes, Rules and Regulations.

Preliminary analysis by the Regional Office indicates that the State regulation is more stringent than the EPA promulgation in the following ways:

(1) For highway sections and airports, the preconstruction review includes, in addition to a carbon monoxide and photochemical oxidant determination, a determination that the national standard for nitrogen dioxide will not be violated. The EPA review is limited to a showing that the national standards for carbon monoxide and photochemical oxidants will not be exceeded.

(2) In New York County, the preconstruction review for parking facilities will be required for all new or modified facilities, regardless of size. The EPA review is limited to new facilities having greater than 1,000 spaces and to modifications of facilities of 500 or more spaces.

This notice is issued as required by section 110 of the Clean Air Act to advise the public that comments may be submitted on whether the proposed implementation plan revision should be approved or disapproved. Only comments received within the 30-day public comment period will be considered. The Administrator's decision to approve or disapprove the proposed plan revision is based on whether it meets the requirements of § 110(a)(2)(A)–(H) and EPA regulations in 40 CFR Part 51.

Copies of the plan revision submission are available for public inspection during normal business hours at the Air Branch, EPA, Region II, 26 Federal Plaza, New York, New York 10007, Room 907 and at the New York State Department of Environmental Conservation, 50 Wolf Road, Albany, New York 12233. Copies are also available at the Freedom of Information Center, EPA, 401 M Street, S.W., Washington, D.C. 20460. All comments should be addressed to the Regional Administrator, Environmental Protection Agency, Region II, 26 Federal Plaza, New York, New York 10007 (42 U.S.C. 1857c-5).

Dated: March 28, 1975.

GERALD M. HANSLER,
Regional Administrator.

[FR Doc.75-9042 Filed 4-3-75;8:45 am]

[40 CFR Part 52]

[FRL 355-4]

PENNSYLVANIA

Approval of Compliance Schedules

Section 110 of the Clean Air Act, as amended, 42 U.S.C. section 1857c-5, and the implementing regulations of 40 CFR Part 51, require each State to submit a plan which provides for the attainment and maintenance of the national ambient air quality standards throughout the State. Each such plan is to contain legally enforceable compliance schedules setting forth the dates by which all stationary and mobile sources must be in compliance with any applicable requirement of the plan.

On May 31, 1972, pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator of the Environmental Protection Agency ("EPA") approved portions of the Pennsylvania State Implementation Plan (37 FR 10842).

Pursuant to 40 CFR 51.6, the Commonwealth of Pennsylvania submitted for EPA's approval revisions to the compliance schedule portion of its plan. This publication proposes that one of these revisions be approved. Other revisions were previously published in the FEDERAL REGISTER on August 22, 1974, (39 FR 30349), October 10, 1974 (39 FR 36481), and November 27, 1974 (39 FR 41363). The proposed revision establishes a date by which the air pollution source must attain compliance with the emission limitation of the State Implementation Plan. This date is indicated in the approval table below under the heading "Final Compliance Date." While the table below contains only the date of final compliance, the schedule itself includes interim dates which denote increments of progress toward final compliance in accordance with 40 CFR 51.15(c). Both the final and interim dates are federally enforceable by EPA pursuant to the Clean Air Act, as amended.

The "Effective Date" column in the table below refers to the date the compliance schedule becomes effective for purposes of Federal enforcement.

The complete text of the compliance schedule listed below is available for public inspection at the following locations:

Environmental Protection Agency
Region III
Curtis Building
Sixth and Walnut Streets
Philadelphia, Pa. 19106

Bureau of Air Quality & Noise Control
Pennsylvania Department of Environmental Resources
Box 2063
Fulton National Building, 18th Floor
Harrisburg, Pa. 17105

Freedom of Information Center
Environmental Protection Agency
401 M Street, SW
Washington, D.C. 20460

An Evaluation Report for the compliance schedule may be examined at the EPA Region III office indicated above.

The compliance schedule has been adopted by the Pennsylvania Department of Environmental Resources and submitted to EPA after notice and public hearing in accordance with procedural requirements of 40 CFR 51.4.

Interested parties may participate in the final rule making by submitting comments on whether the proposed revision to the Pennsylvania State Implementation Plan should be approved or disapproved as required by Section 110 of the

CANNED AND PRESERVED SEAFOOD PROCESSING

Point Source Category Effluent Limitations Guidelines and Standards; Notice of Availability

On January 30, 1975, the Agency published a notice of interim final rule making establishing effluent limitations and guidelines (40 FR 4582) and a notice of proposed rules for standards of performance for new sources and pretreatment standards for existing and new sources. (40 FR 4608) for the canned and preserved seafood processing point source category. Reference was made in the preambles to these notices of a technical report and an economic report prepared by the Agency in connection with the development of these regulations.

The report entitled "Development Document for Interim Final Effluent Limitations Guidelines and Proposed New Source Performance Standards for the Fish Meal, Salmon, Bottom Fish, Clam, Oyster, Sardine, Scallop, Herring and Abalone Segment of the Canned and Preserved Seafood Processing Point Source Category" details the analysis undertaken in support of the regulations and is available for inspection in the EPA Freedom of Information Center, Room 204, West Tower, Waterside Mall, Washington, D.C., at all EPA regional offices, and at State water pollution control offices. A supplementary analysis entitled "Economic Analysis of Interim Final Effluent Guidelines, Seafood Processing Industry" which discusses the possible economic effects of the regulation is also available for inspection at these locations. Copies of both of these documents have been sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 24202, August 6, 1973). An additional limited number of copies of both reports are available. Persons wishing to obtain a copy may write the EPA Freedom of Information Center, Environmental Protection Agency, Washington, D.C. 20460, Attention: Ms. Ruth Brown.

All comments received on or before May 5, 1975 will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202).

Dated: March 26, 1975.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Parts 541 and 545]

[No. 75–206]

FEDERAL SAVINGS AND LOAN SYSTEM

Loans on Cooperative Housing Projects

MARCH 5, 1975.

Summary. The following summary of the amendments proposed by this Resolution is provided for the reader's convenience and is subject to the full description in the preamble as well as the specific provisions in the regulations.

I. *Present situation.* Conventional loans by Federal associations to housing cooperatives are governed by § 545.6–1(b) and limited thereby to a loan-to-value ratio no greater than 80 percent.

II. *Proposed amendment.* Would authorize under certain conditions conventional loans to cooperative housing projects up to 95 percent of value.

The Federal Home Loan Bank Board considers it desirable to propose to amend Parts 541 and 545 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR Parts 541 and 545) to add thereto provisions which would, respectively, define the term "cooperative housing project" and liberalize under certain conditions the loan-to-value ratios of conventional loans on cooperatives. Federal associations are currently authorized to make conventional cooperative housing loans with loan-to-value ratios of up to 80 percent under § 545.6–1(b); the purpose of the new provisions would be to authorize conventional loans of up to 95 percent loan-to-value ratios on certain cooperatives, defined as "cooperative housing projects", on a basis analogous to loans which Federal associations are authorized to make on condominiums.

The proposed amendments would comprise three parts: a new "cooperative housing project" definition to be added as § 541.10–4, a new specific provision for cooperative loans to be added to a revised § 545.6–1(b), loans on "other dwelling units", and a conforming amendment to § 545.6–7(b), loan percentage-limitations categories.

The new § 541.10–4 would define "cooperative housing project" as being owned by a non-profit corporation whose stock is held by the residents and whose sponsor is a non-profit organization having no identity of interest with the builder of the project.

The proposed revision of § 545.6–1(b) would divide it into three parts, for (i) regular 80 percent multi-unit loans, (ii) insured or guaranteed loans, and (iii) the new cooperative housing loans. The latter provision would authorize 90 and 95 percent loan-to-value ratios, provided that the requirements of §§ 545.6–1(a)(4) and (5) for 90 and 95 percent loans on single-family dwellings are met. These requirements include completed construction, limits on loan amounts, prepaid monthly charges, owner-occupancy certifications, percentage-of-assets limitations (all high-ratio loans, including cooperative housing project loans, share the same percentage limitation categories), and, in the case of 95 percent loans, private mortgage insurance or specific reserves. In addition, the proposed § 545.6–1(b)(1)(iii) would require maintenance of reserves as are required for comparable housing project loans insured by the Federal Housing Administration.

A cooperative housing project loan, like any other loan under § 545.6–1(b)(1), could be combined with a construction loan into a single loan, but under § 545.6–1(a)(4) and (5), as incorporated into § 545.6–1(b)(1), no disbursement of the permanent financing funds over 80 percent could be made until completion of construction and presale to the cooperative.

The maximum amount which could be invested in a cooperative loan under the proposal would be computed by locating the appropriate regulatory provision for a single-family dwelling loan in § 545.6–1(a), and then multiplying the limit provided for therein by the number of units in the cooperative. For example, a 95 percent loan on a 50-unit co-op could not exceed 50 times $42,000 ($50,000 in Alaska, Guam, or Hawaii) which is the loan limit for 95 percent single-family-dwelling loans under § 545.6–1(a)(5)(i)(a). A further proposed limitation on the maximum amount of the loan is a "per unit" ceiling for allocation of loan proceeds, which provides that the amount of the loan to be applied to any individual unit may not exceed the regulatory dollar limit.

Cooperative housing loans under the proposed § 545.6–1(b) would be treated as multi-family dwelling loans for percentage-of-asset-limitation purposes under the proposed revision to § 545.6–7(b); such loans would be released from the percentage limitations categories of §§ 545.6–1(a)(4) and (5) when the balances were reduced to 80 percent of value, but would continue to be included in the appropriate categories under § 545.6–7(c).

Accordingly, the Federal Home Loan Bank Board hereby proposes to amend Part 541 by adding thereto a new § 541.10–4 as set forth below and to amend Part 545 by revising §§ 545.6–1(b)(1) and 545.6–7(b) to read as set forth below.

Interested persons are invited to submit written data, views and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street NW., Washington, D.C. 20552, by May 5, 1975, as to whether this proposal should be adopted, rejected or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.5 of the General Regulations of the Federal Home Loan Bank Board (12 CFR 505.5).

1. A new § 541.10–4 would be added to read as follows:

§ 541.10–4 Cooperative housing project.

The term "cooperative housing project" means real estate comprising dwelling units for more than four families in the aggregate, designed primarily for residential use, which is owned by a nonprofit corporation whose stock is owned by the residents of the project and whose sponsor is a nonprofit organization which has no identity of interest with the builder of the project.

2. Section 545.6–1(b)(1) would be revised to read as follows:

§ 545.6–1 Lending powers.

• • • • • •

(b) *Other dwelling units; combination of dwelling units, including homes, and business property involving only minor or incidental business use;—(1) Monthly installment loans.* Subject to the limitations of § 545.6–7, monthly installment loans may be made on other dwelling units or combinations of dwelling units, including homes, and business property involving only minor or incidental business use, or cooperative housing projects, for amounts not in excess of:

(i) 80 percent (or if authorized by the members of such an association, not in excess of 90 percent) of the value thereof, repayable within 30 years;

(ii) the maximum percentage of value acceptable to the insuring or guaranteeing agency, in the case of an insured or guaranteed loan, and a repayment period acceptable to such agency; or

(iii) the amounts authorized in paragraphs (a)(4) and (5) of this section, and the repayment periods authorized in those paragraphs, in the case of cooperative housing project loans: *Provided*, That all the requirements of such paragraphs are met; and *Provided further*, That such cooperative housing projects shall be required to maintain at least such reserves as are required for comparable cooperative housing projects insured by the Federal Housing Administration. For purposes of compliance with this paragraph (b)(1)(iii), the term "single-family dwelling" in paragraph (a)(4)(i) of this section shall read "cooperative housing project"; the words "borrower is", in paragraph (a)(4)(iv)(b) of this section, shall read "stockholders of the cooperative housing project are"; and the loan limits of $55,000, or $68,750 in Alaska, Guam and Hawaii, in paragraph (a)(4)(ii)(a) of this section, and $42,000, or $50,000 in Alaska, Guam and Hawaii, in paragraph (a)(5)(i)(a) of this section, shall read "$55,000, or $68,750 with respect to dwelling units in Alaska, Guam and Hawaii, multiplied by the number of dwelling units" and "$42,000, or $50,000 with respect to dwelling units in Alaska, Guam and Hawaii, multiplied by the number of dwelling units", respectively: *Provided*, That the amount of the loan to be applied to any one dwelling unit may not exceed the applicable limitation per dwelling unit.

• • • • • •

3. Section 545.6–7(b) would be revised to read as follows:

§ 545.6–7 Percentage limitations on real estate loan investments.

• • • • • •

(b) *Percentage limitations for specific types of loans.* Real estate loan investments made under the authority of § 545.6–14 (land acquisition and development loans), § 545.6–16 (loans for housing for the aging), § 545.6–18 (urban renewal loans), § 545.6–20 (Foreign Assistance Act loans), § 545.6–3(c) (developed building lot loans), § 545.6–1(a)(4) and (5) (loans on single-family dwellings in excess of 80 percent of value), or § 545.6–1(a)(3)(iii) (loans to facilitate trade-in or exchange of homes) shall be subject to the respective percentage limitations contained in such sections. However, whenever the terms of a loan investment under §§ 545.6–16 or 545.6–18 would meet the requirements for a loan under § 545.6–1, it may be released from the percentage-limitation category in §§ 545.6–16 or 545.6–18 and, unless it is a loan specified in paragraph (a) of this section as not subject to any percentage limitation, allocated within an applicable percentage-limitation category in paragraph (c) of this section. A loan investment under § 545.6–1(a)(4) or (5) on a single-family dwelling within the association's regular lending area may be released from any percentage-limitation category when the loan balance has been reduced to not more than 80 percent of value. A loan investment under § 545.6–1(b)(1)(iii) on a cooperative housing project may be released from the percentage-limitation categories of § 545.6–1(a)(4) or (5) when the loan balance has been reduced to not more than 80 percent of value, but shall at all times be included in an appropriate percentage-limitation category of paragraph (c) of this section.

• • • • • •

(Sec. 5, 48 Stat., 132, as amended; 12 U.S.C. § 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071).

By the Federal Home Loan Bank Board,

[SEAL] GRENVILLE L. MILLARD JR.,
Assistant Secretary.

FEDERAL MARITIME COMMISSION

[46 CFR Part 502]

[Docket No. 75–7]

INFORMAL PROCEDURE FOR ADJUDICATION OF SMALL CLAIMS

Notice of Proposed Rulemaking

In 1967 (Docket 65–33) the Commission instituted procedures under Subparts S and T, Part 502, 46 CFR whereby claims for reparations of $1,000 or less against carriers subject to the Shipping Act of 1916 could be adjudicated informally.

Following review and analysis of the claims settled during the period June, 1972 to January, 1975, the Commission has concluded that an increase in the ceiling from $1,000 to $5,000 is timely and proper. Analysis revealed that the $1,000 limit set in 1967 has been eroded by general economic pressures to the point that a new limit would be required to reestablish the relationship between the original ceiling and the costs of doing business. Further, it is felt that by offering informal proceedings to a larger number of claimants the Commission would advance the cause of expeditious regulatory action.

Therefore, pursuant to section 4 of the Administrative Procedure Act (5 USC 553) and sections 22 and 43 of the Shipping Act of 1916 (46 USC 820, 841(a)) § 502.301 *Policy* of Title 46 CFR is proposed to be amended by changing the $1,000 limitation in the first sentence thereof to read "$5,000".

Interested persons may participate in this rulemaking proceeding by filing with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before May 4, 1975, an original and 15

V 40 166 APR 4 75 XUM

copies of their views and arguments pertaining to the proposed rules.

By the Commission.

[SEAL] FRANCIS C. HURNEY, *Secretary.*

[FR Doc.75-8820 Filed 4-3-75;8:45 am]

NUCLEAR REGULATORY COMMISSION

[10 CFR Part 73]

PHYSICAL PROTECTION OF PLANTS AND MATERIALS

Advance Notice of Certain Shipments of Special Nuclear Material

On November 6, 1973, the Atomic Energy Commission published amendments to 10 CFR Part 73 which strengthened the security requirements for special nuclear material in transit. These amendments became effective on March 6, 1974. In order to assure that these requirements are fulfilled, the Commission needs advance notice of shipments involving certain quantities of special nuclear material, and notification of arrival of such shipments at their final destinations.

Accordingly, the Nuclear Regulatory Commission has under consideration amendments to its regulations in 10 CFR Part 73 to require that the Commission be informed seven days in advance of a shipment of quantities of special nuclear material specified in § 73.1(b)(2) of 10 CFR Part 73, and that it be notified upon arrival of such shipments.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, and section 553 of title 5 of the United States Code, notice is hereby given that adoption of the following amendments to 10 CFR Part 73 is contemplated. Interested persons who desire to submit written comments or suggestions for consideration in connection with the proposed amendments should send them to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section by May 5, 1975.

1. Paragraphs (c)(3) and (e) of § 73.36 are revised to read as follows:

§ 73.36 Miscellaneous requirements.

• • • • •

(c)(3) Each licensee who delivers special nuclear material to a carrier for transport or releases special nuclear material f.o.b. at the point where it is delivered to a carrier for transport shall also make arrangements with the consignee to be notified immediately by telephone, telegraph, or teletype, of the arrival of the shipment at its destination.

• • • • •

(e) Each licensee who receives a shipment of special nuclear material shall immediately notify by telephone and telegraph, or teletype, the person who delivered the material to a carrier for transport and the Director of the appropriate Nuclear Regulatory Commission Regional Office listed in Appendix A of the arrival of the shipment at its destination. When an Energy Research and Development Administration (ERDA) license-exempt contractor is the consignee, the licensee who is the consignor shall notify by telephone and telegraph, or teletype, the Director of the appropriate Nuclear Regulatory Commission Regional Office listed in Appendix A of the arrival of the shipment at its destination immediately upon being notified of the receipt of the shipment by the license-exempt contractor as arranged pursuant to paragraph (c)(3) of this section. In the event such a shipment fails to arrive at its destination at the estimated time, the consignee, if a licensee, or in the case of an export shipment, the licensee who exported the shipment, shall immediately notify by telephone and telegraph, or teletype, the Director of the appropriate Nuclear Regulatory Commission Regional Office listed in Appendix A of this part, and the licensee or other person who delivered the material to a carrier for transport. The licensee who made the physical protection arrangements shall also immediately notify by telephone and telegraph, or teletype, the Director of the appropriate Nuclear Regulatory Commission Regional Office listed in Appendix A of the action being taken to trace the shipment.

2. A new § 73.72 is added to read as follows:

§ 73.72 Requirement for advance notice of shipment of special nuclear material.

Each licensee who plans to import, export, transport, deliver to a carrier for transport in a single shipment, or take delivery of a single shipment free on board at the point where it is delivered to a carrier quantities of special nuclear material as specified in § 73.1(b)(2) shall notify the Director of the appropriate Nuclear Regulatory Commission Regional Office listed in Appendix A by U.S. Mail, postmarked at least seven days in advance of the shipping date. The information to be furnished in the advance notice prior to a shipment is specified in § 73.70(g).

(Sec. 161, Pub. Law 83-703, 68 Stat. 948 (42 U.S.C. 2201))

Dated at Washington, D.C., this 31st day of March, 1975.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK, *Secretary of the Commission.*

[FR Doc.75-8749 Filed 4-3-75;8:45 am]

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 120]

LOAN POLICY

Fees

The Small Business Administration (SBA) is considering amending its Business Loan Policy Regulations to authorize a lender to charge a small business concern applying for a loan to be made in participation with SBA a reasonable fee to be negotiated between applicant and lender, but not in excess of $200. The purpose of this fee is to reimburse the lender for the expense incurred in processing the loan application. Another amendment under consideration would provide an incentive to a lender to make longer term loans by allowing the lender to charge a borrower a fee, to be negotiable between borrower and lender, for providing such longer term loans. The fees to be authorized by these proposed amendments may be charged in addition to other fees permitted by §120.3(b)(5).

Inquiries with respect to these proposed amendments may be sent to the Associate Administrator for Finance and Investment, SBA, 1441 L Street, NW., Washington, D.C., 20416. All material received on or before May 5, 1975, will be considered.

Pursuant to the authority of section 5 of the Small Business Act, 72 Stat. 385, U.S.C. 634 and section 7 of the said Act, as amended, 72 Stat. 387, 15 U.S.C. 636 it is proposed to amend Part 120 in the manner set forth below:

Section 120.3(b)(5) is amended by revising the introductory paragraph and paragraph (i); paragraph (ii) is redesignated as paragraph (iv); and paragraphs (ii) and (iii) are added to read as follows:

§ 120.3 Terms and conditions of business loans and guarantees.

• • • • •

(b) *Charges and interest rates.* • • •

(5) *Applicants' and borrowers' fees.* Subject to the limitations of § 120.5(a)(2), a lender or associate may charge an applicant or borrower reasonable fees for necessary services actually performed at the request of the applicant or borrower; *provided, however,* that no applicant or borrower shall be required as a condition or requirement for obtaining a loan to pay any fees or charges to the lender, associate, or designee of either, or to purchase any goods or services (including insurance) from the lender, associate, or designee of either, except as hereinafter specified: *and further provided,* that a lending institution may not impose upon an applicant or borrower fees or charges any part of which defrays the lender's overhead costs, except as specifically authorized in paragraphs (b)(5)(i), (ii) and (iii) of this section.

(i) *Application preparation fees.* Notwithstanding the provisions of paragraph (b)(5) of this section, a lender or associate may charge an applicant reasonable fees for necessary services actually performed at the request of the applicant in the preparation of the loan application. If additional, supplemental, or revised financial statements, income projections, appraisals, abstracts of title, or other records are required for the processing of a loan, or as a condition of the disbursement thereof, a lender or an associate (with the consent of the applicant in either case) may prepare such documentation for a reasonable fee: *Provided, however,* That legible copies of any such documents shall be made available to the applicant, together with supporting work papers that the applicant may request. A lender shall also be entitled to reimbursement from the borrower for any expenses incurred for filing or recordation necessary to perfect a security interest in the assets of the borrower, including title insurance. The fees authorized hereunder may be charged whether or not the requested loan is actually approved by the Lender or SBA.

(ii) *Application processing fees.* Notwithstanding the provisions of paragraph (b)(5) of this section, a lending institution may charge a fee to cover the cost of processing an application for a loan which is proposed to be guaranteed by, or made in participation with, SBA: *Provided, however,* that the amount of any such fee shall be negotiable between applicant and lender, but shall not exceed $200. The fees authorized hereunder may be charged whether or not the requested loan is actually approved by the Lender or SBA.

(iii) *Maturity fees.* Notwithstanding the provisions of paragraph (b)(5) of this section, a lender may charge a borrower a fee on any loan made by lender which has a maturity of five years or more. Such fee may be charged in addition to interest charged and other fees authorized hereunder. The fee authorized hereunder shall be negotiable between lender and borrower but shall not exceed the percentages set forth in the following table:

Term of loan:	*Permitted fee (percent)*
Five years or more, but less than 7 years	2
7 years or more, but less than 9 years	3
9 years or more	4

The amount of the maturity fee shall be based on the actual amount of the loan to be disbursed to the borrower after reduction for all other fees and insurance charges under § 120.3(b)(5). The maturity fee is a one time fee only, to be charged at the time of actual loan disbursement(s). In the case of phased disbursements, the maturity fee charges shall be phased in accordance with actual loan disbursements. The maturity fee may be deducted from the amount to be disbursed to the borrower.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

FIREARMS

Granting of Relief

Notice is hereby given that pursuant to 18 U.S.C., section 925(c), the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's record and reputation are such that the applicants will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Arpen, Frank T., Jr., 8990 Diamond C Lane, Jacksonville, Florida, convicted on January 13, 1961, in the United States District Court, Southern District of Florida.

Baxter, Robert L., 14747 El Cariso Road, Victorville, California, convicted on September 7, 1945, in a General Court Martial, Camp Joseph T. Robinson, Arkansas; and on December 5, 1946, in the United States District Court, Eastern District of Arkansas.

Bostain, Rudie G., 414 Rosewood Street, Kelso, Washington, convicted on April 30, 1965, in the Circuit Court of the State of Oregon, Multnomah County; on December 26, 1968, and October 29, 1970, in the Superior Court, Cowlitz County, Washington.

Broadway, John E., 431 Arcade Boulevard, Sacramento, California, convicted on October 9, 1962, and on May 9, 1966, in the Superior Court of the State of California, In and For the County of Sacramento.

Coker, Robert B., 1305 Metro Drive, Apt. #165, Carrollton, Texas, convicted on April 8, 1959, in the Jackson County Circuit Court, Medford, Oregon.

Cook, Cecil N., Box 155, Lovelock, Nevada, convicted on January 31, 1969, in the District Court of the Eleventh Judicial District of the State of Montana, in and for the County of Lincoln.

Cowan, Cornelius, 5608 Springfield, Detroit, Michigan, convicted on October 8, 1957, in the Recorder's Court of the City of Detroit, Michigan.

Dearinger, Robert L., 911 Central, Kansas City, Kansas, convicted on April 9, 1965, in the First Judicial District Court of the State of Nevada, in and for Carson City; on December 16, 1966, in the Twenty-Ninth Judicial District Court, for the County of Wyandotte, Kansas; and on October 30, 1969, in the Leavenworth County Circuit Court, Leavenworth, Kansas.

Hand, Howard Jerome, Jr., Route 9, 426½ Old Mill Road, Clarksville, Tennessee, convicted on February 1, 1974, in the United States District Court, Middle District of Tennessee.

Harrell, Carlton Lee, P.O. Box 119, Jarratt, Virginia, convicted on July 8, 1971, Hustings Court, Richmond, Virginia.

Harris, Norman V., Jr., 107 Carrolls Avenue, Carrolls, Washington, convicted on August 12, 1971, in the Superior Court, Cowlitz County, Washington.

Heichel, John W., Sr., P.O. Box 262, New Buffalo, Michigan, convicted on October 31, 1947, in the Circuit Court, Porter County, Indiana; and on November 16, 1948, in the United States District Court for the Northern District of Indiana.

McBroom, Joseph E., 662 N.W. 7th, Apt. 8, Camas, Washington, convicted on February 10, 1966, in the Superior Court, Yakima County, Washington.

Matthews, Ray E., 6308 Butte, Boise, Idaho, convicted on May 9, 1973, in the District Court, Ada County, Idaho.

Maze, Robert P., Star Route B, Box 533, Palmer, Alaska, convicted on April 18, 1960, in the Superior Court, Fairbanks, Alaska; on April 21, 1966, and on January 27, 1967, in the Superior Court for the State of Alaska, Third Judicial District.

Minucie, Mike Thurman, Route 1, Ferrum, Virginia, convicted on December 16, 1928, on November 13, 1930, and on June 11, 1940, in the Franklin County Circuit Court, Virginia; on July 5, 1944, January 9, 1946, and on May 7, 1951, in the United States District Court for the Western District of Virginia.

Montano, Ricardo, 1232 Sanford, Muskegon Michigan, convicted on or about March 8, 1972; State of Michigan Circuit Court for the County of Wayne.

Montgomery, Rick C., 1729 Christina, Stockton, California, convicted on March 9, 1973, in the Municipal Court of California, County of San Joaquin.

Pelliccia, Emanuele, Jr., 153 So. Avenue 57, Apt. 10, Los Angeles, California, convicted on November 2, 1961, in the Superior Court, Los Angeles County, California.

Rajewich, William John, 1830 S. Street, Gering, Nebraska, convicted on or about November 6, 1969, and on May 3, 1972, in the United States District Court, District of Nebraska.

Richardson, Charles G., Highway 80, Hazel Green, Wisconsin, convicted on April 27, 1972, in the United States District Court, Western District, Wisconsin.

Risinger, Edmund L., Rt. 1, Box 108, Natalia, Texas, convicted on July 22, 1971, in the United States District Court, Western District of Texas.

Roup, Ronald V., Route 4, Box 675, Sequim, Washington, convicted on April 26, 1972, in the Superior Court, Clallam County, Washington.

Rumfelt, Veri Adaz, 705 Davidson Avenue, Lexington, North Carolina, convicted on November 28, 1959, in the Superior Court, Davidson County, North Carolina; and on November 18, 1971, in the United States District Court, Middle District of North Carolina, Salisbury Division.

Schrock, Nola, Box 165, Empire, Michigan, convicted on or about October 10, 1950, in the Court of Common Pleas, Ross County, Ohio.

Smith, Theodore C., 1739 El Codo Way, San Jose, California, convicted on November 13, 1968, in the Superior Court, Santa Clara County, California.

Spradlin, Charles L., 221 Park Hill Drive, La Grange, Georgia, convicted on or about September 15, 1970, in the United States District Court, Middle District of Georgia.

Vance, James Junior, Rt. 2, Box 13, Mimosa Trailer Park, Princeton, West Virginia, convicted on July 9, 1937, in the Mercer County Circuit Court, Princeton, West Virginia.

Wheeler, Thomas G., 848 So. Cowley, Spokane, Washington, convicted on or about May 8, 1970, in the Superior Court of the State of Washington for Whitman County.

Wilhite, Kenneth D., 2020 W. Irving Boulevard, #101, Irving, Texas, convicted on April 3, 1953, in the United States District Court for the Southern District of California.

Signed at Washington, D.C. this 19th day of March 1975.

7⅛ PERCENT TREASURY NOTES OF SERIES N-1976

Dated March 26, 1975

APRIL 2, 1975.

The Secretary of the Treasury announced on April 1, 1975, that the interest rate on the notes described in Department Circular—Public Debt Series—No. 11-75, dated March 26, 1975, will be 7⅛ percent per annum. Accordingly, the notes are hereby redesignated 7⅛ percent Treasury Notes of Series N-1976. Interest on the notes will be payable at the rate of 7⅛ percent per annum.

DEPARTMENT OF DEFENSE

Office of the Secretary of Defense

DEFENSE SCIENCE BOARD TASK FORCE ON "EXPORT OF U.S. TECHNOLOGY; IMPLICATIONS TO U.S. DEFENSE"

Meeting

A task force of the Defense Science Board on "Export of U.S. Technology; Implications to U.S. Defense" will meet in closed session on 23 April 1975 in the Pentagon, Washington, D.C.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense. The task force will provide an assessment of the implications to U.S. defense of current and impending exports of U.S. technology to serve as a basis for determination of Defense policy.

In accordance with sec. 10(d) of appendix I, title 5, United States Code, it has been determined that this Defense Science Board task force meeting concerns matters listed in 5 U.S.C. 552(b), and specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

PARKER-DAVIS AND COLORADO RIVER STORAGE PROJECTS

Notice of Proposed Reallocation of Power

Pursuant to Public Law 83-373, May 28, 1954 (68 Stat. 143), and Public Law 84-485, April 11, 1956 (70 Stat. 105), and by virtue of authority under the Reclamation Project Act of 1939, August 4, 1939 (53 Stat. 1187, 1194, 1198), the Secretary of the Interior proposes to reallocate power from the Parker-Davis Project and the Southern Division of the Colorado River Storage Project (CRSP).

There are 254,000 kW of Parker-Davis Project power to be reserved or reallocated and 26,650 kW of CRSP power to be reallocated.

Public comments on the proposed reallocation to be made this year should be submitted in writing on or before June 3, 1975 to one of the following offices:

Chief, Division of Power
Bureau of Reclamation, Room 7612
Department of the Interior
Washington, D.C. 20240
Telephone: (202) 343-5337

Regional Supervisor of Power
Bureau of Reclamation, Room A-35
Department of the Interior
Lower Colorado Region
Boulder City, Nevada 89005
Telephone: (702) 293-8421

A detailed analysis of the proposed reallocation and the principles involved is reproduced below and also is available for public inspection at any of the above offices.

Dated: March 27, 1975.

JOHN C. WHITAKER,
Acting Secretary of the Interior.

PROPOSED ALLOCATION OF POWER FROM PARKER-DAVIS PROJECT AND SOUTHERN DIVISION OF COLORADO RIVER STORAGE PROJECT

I. POWER MARKETING AREA

The area in which power is marketed includes the State of Arizona, southern Nevada, and southeastern California.

II. BACKGROUND

A. *Parker-Davis Project.* Parker-Davis Project power was last allocated in 1962. At that time, it was estimated that 248,000 kW of capacity and associated energy were available to serve load after consideration was given to losses, reserves, and diversity. Of this amount, it was estimated that 32,475 kW of capacity would be utilized in connection with the Gila and Yuma Federal Reclamation projects. An additional 20,000 kW was reserved for these projects' uses in the future but was allocated and contracted out on the basis that it could be withdrawn as required for project use on 2 years' notice. (This quantity was later reduced to 19,500 kW when the Yuma Irrigation District, which had received a 500 kW withdrawable allocation, sold part of its distribution system to the Arizona Publice Service Company in 1968, and the 500 kW was withdrawn for project use.) Of the remaining capacity, 21,000 kW was under contract to two nonpreference customers, the Citizens Utilities Company and the California-Pacific Utilities Company, as part of the settlement of a claim adjudicated in the companies' favor based on the failure of the Department of the Interior to renew its contracts for power from Hoover Dam as provided in the Boulder Canyon Project Act of 1928. These contracts expire at midnight, December 31, 1977.

The remaining 174,525 kW of available capacity was allocated to and contracted for by preference customers on a permanent, nonwithdrawable basis for a 10-year period through December 31, 1972.

B. *Colorado River Storage Project (CRSP).* In March 1962 the Southern Division (SD) CRSP preference customers were allocated a total of 240,000 kW of power on a nonwithdrawable basis. Of this amount, 213,350 kW were placed under contract. The remaining allottees, for various reasons, never contracted for CRSP power and 26,650 kW of CRSP-SD remains available for reallocation to the Southern Division. In addition to the above, over 141,000 kW is under contract to the existing CRSP-SD customers on a withdrawable basis subject to recapture on April 1, 1976. The latter amount will revert to the Northern Division preference customers to meet 1976-77 contract commitments in accordance with the CRSP "General Power Marketing Criteria," approved December 4, 1962.

C. *Original Proposal.* In 1972 the Bureau of Reclamation proposed that the allocations of Parker-Davis power, both permanent and withdrawable, be renewed for another 10 years through December 31, 1982, and that the contracts for the sale of power be extended on that basis. In the same year, the Bureau also proposed to reallocate the remaining 26,650 kW of CRSP-SD power proportionately among the existing CRSP-SD preference customers. The Parker-Davis proposal was objected to by the Commissioner of Indian Affairs who argued that the existing allocation to the Colorado River Indian Reservation (CRIR) was neither fair nor in accordance with the law. This assertion and other considerations led to the decision by the Department of the Interior to renew the existing Parker-Davis contracts through March 31, 1976, and to postpone placing the additional CRSP power under contract to allow ample time to review the entire subject.

III. PROPOSED REALLOCATION OF SUMMER SEASON POWER

The proposed reallocation of Parker-Davis and CRSP-SD power is based on the principles set forth below:

A. *Power Available—1. Parker-Davis Project.* After reexamining plant capability and reevaluating requirements for regulation, reserves, plant use, losses, and load diversity, it has been determined

V 40-66
APR 4 75

that 254,000 kW are available to serve Parker-Davis loads.

2. *Colorado River Storage Project.* As stated previously, the total CRSP–SD summer season allocation is 240,000 kW, of which 213,350 kW are presently committed.

B. *Priority Uses (Parker-Davis).*—1. *Project Use.* In 1962 it was estimated that 32,475 kW were required for operation of irrigation, drainage, and relift pumps on reclamation projects, and this was increased by 500 kW in 1968. In 1972 the project use requirements were 38,975 kW. The larger amount was supplied without using any of the 19,500 kW of withdrawable allocations because of the diversity of the project loads.

The 39 MW was made up as follows:

	Load (megawatt)
Wellton-Mohawk irrigation and drainage district, plant No. 1	8
Wellton-Mohawk irrigation and drainage district plant No. 2	12
Wellton-Mohawk irrigation and drainage district plant No. 3	6
Project relift and drainage pumps	3
Construction camp site	1
Yuma-Mesa irrigation and drainage district	4
Gila project drainage pumps	1
Colorado River front work and levee system (CRFWLS)	7
	39

2. *Colorado River Indian Irrigation Project (CRIIP).* The CRIIP was authorized in the same Act of August 30, 1935, (49 Stat. 1028, 1039) that ratified construction of the Parker Dam Project following the Supreme Court decision in *United States* v. *Arizona* (295 U.S. 174 (1953)) that construction had been commenced without proper congressional authorization. One of the purposes of the Parker Dam Project, as stated in the authorizing act, is "the reclamation of * * * Indian reservations." It is logical to conclude, therefore, that CRIIP, as part of the Colorado River Indian Agency is included within this stated purpose and, therefore, has a priority claim to power from Parker Dam. The Office of the Solicitor has so held in 1973 and again in 1974, thus hopefully putting to rest 40 years of controversy on this point. It appears that the present summer irrigation pumping power requirement for this project is about 2,100 kw, which should be added to the present capacity used by the Federal projects (project use). Any additional power required for full irrigation development should be included as reserved power from Parker-Davis and sold as withdrawable power at this time.

3. *Future Uses.* A reasonable quantity of power should be reserved at this time for possible future uses by Federal projects, by CRIIP, and by other Indian irrigation projects bordering the Colorado River in the lower basin.

The Indian tribes on the Lower Colorado River have Winter Doctrine water rights in the mainstem with the expectation of future irrigation development. A reservation of a relatively small amount of power for this purpose may be found to be in keeping with the congressional purpose implied by the quoted reference to the reclamation of lands on Indian reservations in the 1935 Act, even though no further specific projects were in the planning stages at that time. By including such power in the reserved status, it will be recapturable on 2 years' notice to facilitate efficient planning for such developments.

It is estimated that a reservation of 18,300 kW will be adequate for future use by Federal reclamation projects, such as Yuma, Gila, and Colorado River Front Work and Levee System and/or Indian irrigation projects bordering the mainstem of the Lower Colorado River. This power would be allocated subject to withdrawal on 2 years' notice for any of the indicated purposes.

C. *Net Available for Allocation (Parker-Davis).* The following table summarizes the amounts available for allocation:

Load (megawatt)

	Existing	Proposed
Private utilities	[1] 21.0	
Future priority uses (withdrawable)	19.5	18.3
Permanent allocation	174.5	194.6
Total allocation	215.0	212.9
Current priority uses	30.0	41.1
Power available	254.0	254.0

[1] The existing contracts with the private utilities do not expire until Dec. 31, 1977; however, it has been determined that the 21.0 MW can be allocated to preference customers now by utilizing some interim power from other sources that contractually has been committed but is temporarily not required for load.

D. *Colorado River Indian Agency (CRIA).* The Colorado River Indian Agency should have a permanent allocation as a preference customer in addition to the power supply for the irrigation project discussed under III(B) above.

In view of the system's proximity to Parker Dam, the allocation would appropriately come from the Parker-Davis Project rather than CRSP–SD; however, since 750 kW of CRSP–SD summer season power is already under contract and cannot be unilaterally terminated, the CRSP–SD contract will continue, and the rest of CRIA requirements will come from Parker-Davis.

As to amounts, the Bureau of Indian Affairs (BIA) suggests that the summer season allocation should be 19,900 kW based on the estimated on-reservation loads in 1986. BIA relies heavily on statements in the 1933 contract with the Metropolitan Water District that the United States would use Parker Dam power for CRIA and the Gila or Parker-Gila Project. The Indians were not a party to this contract, and it created no enforceable rights in them. The then Reclamation District counsel stated in a 1938 memorandum that the provision was included to "avoid incurring the opposition of the Salt River Valley Water Users' Association to construction of the dam."

When Congress ratified the Parker Dam contracts in 1935, it had in mind the contracts for the construction of the dam, not this provision. The specific operative contract reference to the use of power on the reservation and the downstream projects was removed when the contract was amended in 1939, and Congress never dissented.

To set an allocation based on the foregoing would place CRIA in a far more advantageous position than any other preference customer, including other Indian tribes, and is not considered appropriate.

The 1973 load of CRIA was about 14,600 kW. Of this amount, 2,100 kW represents the on-reservation irrigation pumping requirements, leaving 12,500 kW. About one-half of this amount represents the remaining on-reservation requirements. It is proposed that the allocation of summer season power to CRIA be based on the current on-reservation nonirrigation load of about 6,250 kW (5,500 kW from Parker-Davis and 750 kW from CRSP). The allocation should be permanent rather than withdrawable, since it would not make much sense to withdraw from CRIA to serve its own irrigation loads.

E. *Ak-Chin Indian Community (Ak-Chins).* The Ak-Chin Indian Community should be given a fixed allocation of CRSP–SD power to cover its irrigation pumping load. The Ak-Chins did receive, for some summer seasons, about 5,000 kW of CRSP–SD power indirectly from Electrical District No. 3 (ED–3) as part of ED–3's withdrawable allocation. Under existing conditions, the Ak-Chins have no Federal power supply. This Indian community is entirely agricultural, and its economic well-being is tied to the success of this agricultural enterprise. The community, by its industrious efforts, has shown that an Indian reservation can operate a farming enterprise without substantial financial aid from the Federal Government. In fact, the Ak-Chins have frequently been cited as an example of unparalleled productivity and self-sufficiency. For these reasons, special consideration should be given the Ak-Chins, and it is proposed that they be given a permanent allocation of CRSP–SD summer season power of 5,500 kW.

F. *Queen Creek and San Tan Irrigation Districts.* These two irrigation districts should be given permanent allocations of CRSP–SD power. These two customers are the only ones in the CRSP power marketing area which have a withdrawable CRSP–SD allocation but no permanent allocation of any Federal power.

This should not bar them from receiving consideration for sharing in the additional power now available. Assigning them an allocation of approximately one-half of their current loads will place them roughly on parity with other preference customers.

G. *Existing Customers.* Each existing preference customer should be allocated power at least equal to, if not more than, its present Parker-Davis allocation (permanent and withdrawable), plus its present CRSP–SD permanent allocation.

There is a greater demand by preference customers for power than there is power available. In such a situation, dependability of supply and timing are important factors in enabling the Federal power to be put to use more effectively. Since the leadtime in planning for power supply is quite long, a customer should know whether or not it can rely on Federal power as early as possible in the planning process. Thus it can make plans for alternative sources of supply, if necessary. When the allocations were made in 1962 for both projects, consideration was given to the legal, policy, and equity aspects, and the allocations were made fairly and equitably. Consideration was given to requests from entities not now receiving power, and it was decided that it would not be in the public interest to make major alterations in the allocation scheme at this time. Therefore, it is proposed to allocate the remaining available power among existing preference customers.

IV. ALLOCATION

A. *Parker-Davis and CRSP Totals.* Since one-third of the preference customers with existing allocations utilize power from both projects simultaneously in amounts totalling about 70 percent of all power available for customer use, the total amount available from both projects should be allocated as a package. After deducting the amounts for each entity described above and the current priority uses, the remainder should be allocated in proportion to present allocations (permanent and withdrawable).

The following table illustrates the mechanical procedure used to determine the summer season reallocation (final quantities are shown in Table I):

	Present	Proposed
	kW	kW
Parker-Davis	254,000	254,000
CRSP–SD	213,350	240,000
Less:		
Ak-Chins		5,500
CRIA (nonirrigation)	4,070	6,250
Queen Creek Irrigation District		2,700
San Tan Irrigation District		1,300
Priority uses	38,975	41,100
Private utilities	21,000	
Total	64,045	56,850
Balance to be allocated	403,305	437,150

$$Y=\frac{437{,}150\ X}{403{,}305}$$

X=present customer allocation
Y=proposed customer reallocation

The total amounts thus reallocated are listed in column 10 of table I. The original allocations are listed in column 5 of are listed in table I.

B. *CRSP–SD Allocation.* The allocation to those customers which receive all of their power from CRSP–SD will be equal to the amounts calculated under IV(A) above. These amounts, along with the CRIA allocation, are then subtracted from the total CRSP power available and the remainder distributed proportionately.

The calculations shown below were used to determine the CRSP–SD summer season reallocations and the quantities are listed in Table I.

	Present	Proposed
	kilowatt	kilowatt
Total allocated	213,350	240,000
Less:		
Ak-Chins		5,500
CRIA	750	750
Queen Creek Irrigation District		2,700
San Tan Irrigation District		1,300
Customers with no Parker-Davis power	61,700	66,000
Total	62,450	77,150
Balance to be allocated	150,900	162,850

$$Y=\frac{162{,}850}{150{,}900}X$$

X=present customer allocation
Y=proposed customer reallocation

The X quantities are listed in column 4, and the Y quantities in column 9 of Table I.

C. *Parker-Davis Total Allocation.* 1. For those customers which have no CRSP–SD allocations, the Parker-Davis total allocation must be the amounts calculated under IV(A) above. The summer season amounts are tabulated in column 8 of Table I and the existing amounts in column 3 of Table I.

2. For those customers having allocations from both projects, the total Parker-Davis allocations will be the difference between the amounts calculated under IV(A) above and those under IV (B) above.

D. *Parker-Davis Permanent Allocation.* 1. For those customers having no withdrawable allocation, the permanent allocations will be those calculated under IV(C) above. The summer season quantities are listed in columns 1 and 6 of Table I.

2. After deducting from the total permanent allocations, amounts under IV (D)(1) above, the remainder should be distributed in proportion to existing allocations among the remaining customers, as shown below:

	Present	Proposed
	kilowatt	kilowatt
Total available (permanent)	234,500	225,700
Less:		
Arizona Electric Power Coop.	19,425	21,100
CRIA (nonirrigation)	2,005	5,500
Imperial Irrigation District	30,055	32,550
Mesa	9,590	10,450
Mohave Electric Coop.	2,515	2,700
Salt River project	30,000	33,000
Thatcher	310	350
Yuma Irrigation District	1,500	1,600
Private utilities	21,000	
Priority uses	38,975	41,100
Total	155,375	148,350
Balance to be allocated	79,125	87,350

$$Y=\frac{87{,}350\ X}{79{,}125}$$

X=present customer allocation
Y=proposed customer reallocation

E. *Parker-Davis Withdrawable Allocation.* The withdrawable allocation should now be the difference between the total Parker-Davis allocation under IV (C) above and the permanent allocation

V 40 166
APR 4 75
XUM

under IV(D) above. The summer amounts are listed in columns 2 and 7 of Table I.

V. WINTER SEASON ALLOCATIONS

The winter season allocations were calculated in a similar manner as under IV above and are listed in Table II.

VI. CONTRACTUAL ARRANGEMENTS

A. *Term of Contracts*—1. *Parker-Davis Project.* All Parker-Davis power will be placed under contract for a 10-year period through March 31, 1986.

2. *CRSP.* For those customers having existing long-term contracts, CRSP power will be for the term of the existing contract. For those without existing long-term contracts, the term will be through March 31, 1986.

B. *Deadline.* Each allottee must place its allocated amount(s) under contract by the end of the 1975–75 winter season or the allocation(s) will be rescinded.

TABLE I. *Summer Season Allocations*

Customer or load	Present allocation					Proposed allocation				
	Parker-Davis project		Total	CRSP	Total	Parker-Davis project		Total	CRSP	Total
	Permanent	Withdrawable				Permanent	Withdrawable			
	1	2	3	4	5	6	7	8	9	10

National Park Service

SOUTHEAST REGIONAL ADVISORY COMMITTEE

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Southeast Regional Advisory Committee will be held at 8:30 a.m., e.d.t., on April 24 and 3 p.m. on April 25 at the Holiday Inn, Airport & I–95, Jacksonville, Florida.

The purpose of the Southeast Regional Advisory Committee is to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on problems and programs pertinent to the Southeast Region of the National Park Service.

The members of the Advisory Committee are as follows:

Mrs. Ann Smith Bedsole (chairman), Mobile, Alabama
Mr. Tutt S. Bradford, Maryville, Tennessee
Mr. Robert Gable, Frankfort, Kentucky
The Very Reverend Monsignor Michael V. Gannon, Gainesville, Florida
Mr. Alfredo Heres Gonzalez, Santurce, Puerto Rico
Honorable Donald Kincaid, Lenoir, North Carolina
Dr. John King, Jackson, Mississippi
Mr. Charles Edward Lee, Columbia, South Carolina
Mrs. Jane Hurt Yarn, Atlanta, Georgia

The matters to be discussed at this meeting are: (1) Cumberland Island National Seashore planning and operations, (2) Wilderness Program status and (3) Establishment of Canaveral National Seashore and Tuskegee Institute National Historic Site.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited and it is expected that not more than 25 persons will be able to attend. Any member of the public may file with the committee a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting or who wish to submit written statements, may contact Paul C. Swartz, Chief, Cooperative Activities Division, Southeast Regional Office, at 404/526–7560. Minutes of the meeting will be available for public inspection 4 weeks after the meeting at the office of the Southeast Region, 3401 Whipple Avenue, Atlanta, Georgia.

Dated: March 14, 1975.

PAUL C. SWARTZ,
Chief, Cooperative Activities Division, Southeast Region, National Park Service.

[Docket No. M 75–95]

AFFINITY MINING CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Affinity Mining Company has filed a petition to modify the application of 30 CFR 75.200 to its Keystone No. 5 Mine, Midway, Raleigh County, West Virginia.

30 CFR 75.200 provides in pertinent part:

Each operator shall undertake to carry out on a continuing basis a program to improve the roof control system of each coal mine and the means and measures to accomplish such system. The roof and ribs of all active underground roadways, travelways, and working places shall be supported or otherwise controlled adequately to protect persons from falls of the roof or ribs. A roof control plan and revisions thereof suitable to the roof conditions and mining system of each coal mine and approved by the Secretary shall be adopted and set out in printed form on or before May 29, 1970. The plan shall show the type of support and spacing approved by the Secretary. * * *

1. In January 1975, Petitioner submitted its proposed roof control plan which included a "Special Plan" (a copy is attached hereto as Exhibit A)[1] for use in those areas of the mine which had a solid sandstone roof.

2. The aforesaid "Special Plan" was contained in prior Keystone No. 5 mine roof control plans submitted by Petitioner and approved by MESA.

3. The provisions of the Special Plan include:

a. Line posts are to be installed as space permits to within 5 feet of the face during the loading cycle. Supports near the face may be repositioned to facilitate operation of the equipment provided at least a double row of supports is installed on the side opposite the row being removed.

b. No person is to advance in by roof supports.

c. The intersection may be fully bolted.

d. Temporary supports and the sequence of installation of roof bolts shall conform to schematic diagrams submitted by Petitioner and approved by MESA.

e. When loose, broken, or drummy roof is encountered, the roof shall be supported by installing crossbars or according to the spot bolting permit.

f. When mining with conventional equipment, temporary supports shall be installed as shown upon completion of the loading cycle.

4. On February 14, 1975, MESA approved Petitioner's proposed roof control plan, but only after it had deleted the "Special Plan" for said sandstone roof from the proposed plan for the reason that Petitioner is not presently mining in the sandstone roof area.

5. Petitioner is not now mining in an area of sandstone roof, but engineering studies from core drillings indicate that Petitioner will be mining in areas of solid sandstone roof within the next three (3) to six (6) months (see areas indicated on Exhibit B attached).[2]

6. Petitioner's "Special Plan" is proposed and intended only for use in the solid sandstone roof areas.

7. Petitioner requests that its roof control plan approved under 30 CFR 75.200 be modified to include the "Special Plan" for use only in areas of solid sandstone roof for the reason that use of said "Special Plan" in areas of solid sandstone roof would provide at least the same degree of safety to the miners in said mine than if the roof control plan approved on February 14, 1975, by MESA under 30 CFR 75.200 were strictly complied with.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before May 5, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

MARCH 27, 1975.

[FR Doc.75–8795 Filed 4–3–75;8:45 am]

[Docket No. M 75–95]

EASTERN ASSOCIATED COAL CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861 (c) (1970), Eastern Associated Coal Corp. has filed a petition to modify the application of 30 CFR 75.305 to its Joanne Mine, Rachel, West Virginia.

30 CFR 75.305 provides in pertinent part:

In addition to the preshift and daily examinations required by this Subpart D, examinations for hazardous conditions, including tests for methane, and for compliance with the mandatory health or safety standards, shall be made at least once each week by a certified person designated by the operator in the return of each split of air where it enters the main return, on pillar falls, at seals, in the main return, at least one entry of each intake and return aircourse in its entirety, idle workings, and, insofar as safety considerations permit, abandoned areas.

In support of its petition, Petitioner states:

1. The Joanne Mine was originally opened in 1917, and since that time it has changed ownership numerous times during which there were several lengthy idle periods due to extended work stoppages, bankruptcies and several fires.

2. Petitioner purchased the mine in 1969 and operated it until a mine fire occurred in January 1974, at which time the mine was temporarily sealed. The mine was reopened in June 1974 for recovery work followed by the resumption of operations.

3. On January 27, 1975, Petitioner was issued Notice No. 1 RLA for an alleged

[1] Exhibit A will be available for inspection at the address contained in the last paragraph of the notice.

[2] Exhibit B will be available for inspection at the address contained in the last paragraph of the notice.

V 40166 APR 4 75 XUM

violation of 30 CFR 75.305 as a result of Petitioner's failure to conduct weekly examinations of at least one entry in its entirety on either of the two main return air courses between the East Run Shaft and No. 1 shaft bottom, and Old 1 West and the No. 4 shaft bottom. Said notice also states "hazardous roof conditions causes said areas to be unsafe for travel."

4. The Old 1 West area was developed between 1949 and 1965; it passes through very bad fault areas; the return airways were not roof bolted or adequately supported by the developing operator; and the draw slate top in the returns has deteriorated causing massive falls throughout the area making safe travel impossible.

5. The airways between the East Run Shaft and the No. 1 shaft bottom were developed between 1949 and 1953; these return airways are in the same condition as those of the Old 1 West area described in paragraph 4 *supra*.

6. Because of ventilation problems and the hazards involved with rehabilitating these two sets of return airways, Petitioner added two new airshafts in the west side of the mine to provide adequate ventilation of the active workings.

7. It is impossible to use mechanical equipment to rehabilitate either of the said two return airways. To handle the material by hand would require years of work, and it would involve unnecessary risks to the miners involved.

8. In the alternative to specific compliance with 30 CFR 75.305, Petitioner proposes to establish and maintain five special ventilation check points which would be examined weekly by a qualified person. Petitioner proposes to establish said check points at the following locations (see attached map)[1]:

(1) outby end of 2 North Mains, i.e., the inby end of Old 1 West near survey station 9999;

(2) one block outby old 2 right overcasts on left side return;

(3) one block outby old 2 Right overcasts on right side return;

(4) all approaches of East Run Air Shaft; and

(5) All approaches of No. 1 air shaft.

9. Weekly methane and air quantity readings will be made at each check point by a qualified person; the readings will be recorded as required by 30 CFR 75.305; access to and from the five check points will be kept properly supported and in a condition which is safe for travel; and a date board will be located at each station for the purpose of recording the initials, date and time of each examination.

10. Petitioner respectfully requests that its petition for modification, as set forth hereinabove, be granted for the reason that it will provide no less than the same degree of safety to the miners at the Joanne Mine than if 30 CFR 75.305 were strictly complied with, and in fact, Petitioner asserts that the proposed alternate system would provide a greater degree of safety to the miners at said mine.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before May 5, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director,
Office of Hearings and Appeals.

[FR Doc.75-8796 Filed 4-3-75;8:45 am]

[1] The map attached to the petition is available for inspection at the address contained in the last paragraph of the notice.

[Docket No. M 75-99]

KAISER STEEL CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Kaiser Steel Corporation has filed a petition to modify the application of 30 CFR 75.1704-1(a) to its York Canyon No. 1 Mine, Colfax County, New Mexico.

30 CFR 75.1704-1(a) provides:

Except in situations where the height of the coalbed is less than 5 feet, escapeways should be maintained at a height of at least 5 feet (excluding necessary roof support) and the travelway in such escapeway should be maintained at a width of at least 6 feet. In those situations where the height of the coalbed is less than 5 feet, the escapeway should be maintained to the height of the coalbed (excluding any necessary roof support) and the travelway in such escapeways should be maintained at a width of at least 5 feet.

Petitioner seeks to modify that part of said standard which requires that a six (6) foot wide travelway be maintained to the working face.

(1) Petitioner proposes to drive two entries on fifty (50) foot centers, with the "intake" being eight (8) feet wide and the "return" (with conveyor belt) being twelve (12) feet wide, with crosscuts on five hundred (500) foot centers. The conveyor belt tailpiece would then be installed as close to the outby rib line of the last open crosscut as feasible. An extensible belt conveyor system would then be used to transport coal from the face to the last open crosscut where the coal would be transferred to the section conveyor belt. Roof bolts would then be installed as the miner progresses using hand held hydraulic drills. Ventilation would be by auxiliary fans and vent tubing.

(2) Petitioner seeks said modification to allow for the development of an eight (8) foot wide intake entry inby the last open crosscut. The extensible belt conveyor system is five (5) feet wide; thus allowing three (3) feet for an escapeway. It is Petitioner's belief that the twelve (12) foot wide entry and the eight (8) foot wide entry outby the last open crosscut will satisfy the requirements prescribed in Standard 30 CFR 75.1704-1(a).

(3) Petitioner believes the alternate method will at all times guarantee no less than the same measure of protection afforded the miners at the affected mine by Standard 30 CFR 75.1704-1(a), and further believes the application of the standard results in diminution of safety to miners in the affected mines.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before May 5, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection that address.

JAMES R. RICHARDS,
Director,
Office of Hearings and Appeals.

[FR Doc.75-8797 Filed 4-3-75;8:45 am]

[Docket No. M 75-97]

McCRACKEN COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), McCracken Coal Company has filed a petition to modify the application of 30 CFR 75.523-1(a)(2) to its McCracken Mine, West Lebanon, Pennsylvania.

30 CFR 75.523-1(a)(2) provides:

—(a) Except as provided in paragraphs (b) and (c) of this section, all self-propelled electric face equipment which is used in the active workings of each underground coal mine on and after March 1, 1973, shall, in accordance with the schedule of time specified in paragraph (a) (1) and (2) of this section, be provided with a device that will quickly deenergize the tramming motors of the equipment in the event of an emergency. The requirements of this paragraph (a) shall be met as follows:

(2) On and after March 31, 1974, for all other types of self-propelled electric face equipment.

In support of its petition to secure a waiver of the foregoing mandatory standard, Petitioner states:

(1) Petitioner's short wall cutting machine is equipped with a Jeffrey drum-type controller. This sealed machine has been approved as gas-proof by the Bureau of Mines.

(2) A hazard would be created if a "panic bar" (deenergizing device) were installed on the cutting machine.

(3) Since only two men (the owner and a workman) work in the subject mine, the application of Petitioner's alternate method will not result in a diminution of safety in the mine.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before May 5, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director,
Office of Hearings and Appeals.

MARCH 27, 1975.

[FR Doc.75-8798 Filed 4-3-75;8:45 am]

[Docket No. M 75-96]

NORTH AMERICAN COAL CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), the North American Coal Corporation has filed a petition to modify the application of 30 CFR 75.1405 to its Jensie Mine, Powhatan Point, Ohio.

30 CFR 75.1405 provides:

All haulage equipment acquired by an operator of a coal mine on or after March 30, 1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970.

In support of its petition, Petitioner states:

(1) This petition pertains only to supply cars at the subject mine. These supply cars are flat bed cars similar to mine cars in use at this mine. The supply cars are loaded outside in the mine yard and dropped into the mine via a 1,700 ft. slope with a 17° pitch. Supplies are then pulled on rail by locomotive to areas of the mine as needed.

(2) Petitioner's alternate coupling method will provide much greater protection for the miners than automatic couplers required by 30 CFR 75.1405 by eliminating the possibility of the cars uncoupling when they are dropped down the slope into the mine.

(3) Schematic diagrams[1] accompanying the petition show two slightly different methods of raising and lowering the coupling pin. Both systems have been tried and work successfully. These systems consist of a lever attached to the coupling pin which is enclosed in a slotted cylinder allowing the pin to be raised and lowered without personnel going between the cars. Where necessary a specially designed hook will be used to remotely align the link.

(4) A training and retraining program will be initiated in which all personnel required to work in and around these cars will be properly trained in the operation of the foregoing coupling device. A record will be kept of this training.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before May 5, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director,
Office of Hearings and Appeals.

MARCH 27, 1975.

[FR Doc.75-8799 Filed 4-3-75;8:45 am]

[1] The diagrams will be available for inspection at the address contained in the last paragraph of the notice.

[Docket No. M 75-94]

REPUBLIC STEEL CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Republic Steel Corporation has filed a petition to modify the application of 30 CFR 75.305 to its Clyde Mine, Uniontown, Pennsylvania.

30 CFR 75.305 provides in pertinent part:

In addition to the preshift and daily examinations required by this subpart D, examinations for hazardous conditions, including tests for methane, and for compliance with the mandatory health or safety standards, shall be made at least once each week by a certified person designated by the operator in the return of each split of air where it enters the main return, on pillar falls, at seals, in the main return, at least one entry of each intake and return aircourse in its entirety, idle workings, and, insofar as safety considerations permit, abandoned areas.

(1) Modification of this mandatory safety standard is sought in light of the fact that Petitioner's Clyde Mine is an old mine with many worked out areas. Many of the return air courses were developed 40 years ago prior to the use of roof bolting for roof control. The Commonwealth of Pennsylvania has issued orders on air course inspection which conflict with the orders issued by the Federal Mining Enforcement and Safety Administration.

To require restoration of the aforementioned return air courses to travelable condition would be an almost impossible task, necessitating exorbitant expenditures and years of work to complete.

(2) *Alternate Method.* Petitioner asserts that only one alternate method is both practicable and feasible and would at all times guarantee the personnel at Clyde Mine no less than the same measure of protection afforded by the mandatory standard. This alternate method requires the construction of two methane monitoring stations, one in each of the Ross shaft returns. Total intake air from the Ross shaft fan will be monitored at four strategic locations. A continuous methane monitor I-500 Module analyzer is in operation at Ross Shaft Portal Service Building. If at any time the methane concentration exceeds .5 percent in the return upcast an audible alarm sounds; a telephone is automatically dialed at the mine office and in a private home occupied by an employee of Petitioner; a recording plays a message warning of the concentration. The alarm and telephones must be manually shut off at the monitoring station.

The aforementioned detecting, recording, and warning system, in combination with the monitoring stations in the return air courses, would assure satisfaction with the standard set forth in 30 CFR 75.305. Further, the return air from the return air courses in question would at no time have any effect on the present active workings at Clyde Mine.

Additional guidelines would be as follows:

A. The monitoring stations and continuous methane monitor analyzer will, at all times, be maintained in proper working condition.

B. A date board or book will be located at each measuring station and air and methane readings will be taken and recorded.

C. Examinations will be made daily at each monitoring station by a properly qualified person.

D. The number of employees who work in this area is minimal. Each man is able to reach a separate split of air in a reasonable period of time. Each man working in this area is required to carry a one-hour, self-rescuing device on his person at all times.

E. A diagram showing the air flow direction in this area will be posted at the measuring stations and at other strategic locations.

(3) *Measure of Protection.* The detecting, recording and warning method working in combination with the monitoring stations hereinabove described will assure that the criteria in 30 CFR 75.305 will be satisfied. The net effect will be that the mandatory safety standard will be met as though the return air courses were capable of being traveled. The alternate method at all times guarantees no less than the same measure of protection afforded the miners at Clyde Mine as provided by the mandatory standard.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before May 5, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES C. RICHARDS,
Director,
Office of Hearings and Appeals.

DEPARTMENT OF AGRICULTURE

[Notice of Designation No. A180]

Farmers Home Administration

LOUISIANA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following parishes in Louisiana as a result of natural disasters consisting of:

V 40166 APR 4 75 XUM

Franklin—Drought June 10 to August 20, 1974. Excessive rainfall August 21 to October 15, 1974.
Morehouse—Excessive rainfall August 15 to September 1 and October 1 to December 31, 1974. Hailstorm May 26, 1974.
Ouachita—Excessive rainfall May 1 to 31 and September 1 to October 31, 1974.
Richland—Excessive rainfall September 1 to December 14, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Edwin Edwards that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 19, 1975, for physical losses and December 19, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 28th day of March, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[Notice of Designation No. A184]

LOUISIANA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following parishes in Louisiana as a result of a natural disaster consisting of:

Caldwell—Excessive rainfall March 1 to December 12, 1974.
DeSoto—Excessive rainfall January 1 to May 31 and August 16 to November 20, 1974. (Hurricane Carmen occurred September 8, 9, and 10, 1974.) Drought July 1 to August 15, 1974. Cool weather September 1-7, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Edwin Edwards that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 27, 1975, for physical losses and December 26, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 28th day of March, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-8826 Filed 4-3-75;8:45 am]

[Notice of Designation No. A179]

WISCONSIN

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Wisconsin:

Ashland — Iron
Bayfield

The Secretary has found that this need exists as a result of a natural disaster consisting of drought July 1 through 31 and early frosts and/or freezes from August 31 through September 3, 1974, in all three counties and hailstorms July 17 and 18, 1974, in Bayfield County.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Patrick J. Lucey that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 19, 1975, for physical losses and December 19, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 28th day of March, 1975.

KY-113 Farmers Livestock Market of Glasgow, Inc., Glasgow, Ky., December 11, 1959.
KY-122 Lebanon Stockyard, Inc., Lebanon, Ky., December 19, 1959.
MI-105 Thumb Auction Markets, Inc., Caro, Mich., April 24, 1959.
MI-116 Escanaba Livestock Auction, Escanaba, Mich., March 5, 1969.
MN-132 Montevideo Sales Company, Montevideo, Minn., April 19, 1960.
OK-168 Shawnee-Tecumseh Livestock Auction, Shawnee, Okla., August 11, 1970.
SD-154 Webster Livestock Exchange, Webster, S. Dak., May 20, 1959.
TN-101 Athens Livestock Auction Co., Athens, Tenn., May 15, 1959.
TX-213 Lubbock Livestock Auction Company, Lubbock, Tex., November 14, 1958.

Notice or other public procedure has not preceded promulgation of the foregoing rule. There is no legal justification for not promptly depositing a stockyard which is no longer within the definition of that term contained in the Act.

The foregoing is in the nature of a rule relieving a restriction and may be made effective in less than 30 days after publication in the FEDERAL REGISTER. This notice shall become effective April 4, 1975.

(42 Stat. 159, as amended and supplemented; 7 U.S.C. 181 et seq.).

Done at Washington, D.C. this 31st day of March, 1975.

EDWARD L. THOMPSON,
Chief, Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

[FR Doc.75-8831 Filed 4-3-75;8:45 am]

TOBESOFKEE LIVESTOCK, MACON, GEORGIA, ET AL.

Proposed Posting of Stockyards

The Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, United States Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 202), and should be made subject to the provisions of the Act.

GA-179 Tobesofkee Livestock, Macon, Ga.
KY-113 Farmers Livestock Market of Glasgow, Inc., Glasgow, Ky.
MN-166 Perham Livestock Auction, Perham, Minn.
MN-167 Simon Horse Co., Rosemount, Minn.
MO-239 South Central Livestock Market, Inc., Vienna, Mo.
MT-118 Falls Livestock Exchange, Great Falls, Mont.
OK-194 Tonkawa Auction Center, Tonkawa, Okla.
TN-173 Athens Livestock Auction Company, Inc., Athens, Tenn.
TX-311 Lone Star Livestock Commission Co., San Antonio, Tex.
VA-148 Southampton Livestock Sales, Inc., Courtland, Va.

Notice is hereby given, therefore, that the said Chief, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the Act as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule, may do so by filing them with the Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, United States Department of Agriculture, Washington, D.C. 20250, by April 21, 1975.

All written submissions made pursuant to this notice shall be made available for public inspection at such times and places in a manner convenient to the public business (7 U.S.C. 1.27(b)).

Done at Washington, D.C., this 31st day of March, 1975.

EDWARD L. THOMPSON,
Chief, Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

LOYOLA UNIVERSITY OF CHICAGO ET AL.

Consolidated Decision on Applications for Duty-Free Entry of Scientific Articles

The following is a consolidated decision on applications for duty-free entry of EMI Scanner Systems pursuant to sec. 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00253-33-90000. Applicant: Loyola University of Chicago, Foster G. McGaw Hospital, 2160 South First Avenue, Maywood, Illinois 60513. Article: EMI Scanner System, with Magnetic Tape Storage Unit. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for research to improve the detection of intracranial and intraorbital lesions with Computerized Tomography with the adjunct of different contrast media to enhance the absorption coefficient. These studies are being carried out with patients, as well as with animals. Also studies for improving the resolution and detail by way of different computer programs applied to the basic principle will be done. The article will also be used in an intensive training program in Neuroradiology in affiliation with other Neurological disciplines (Neurology, Neurosurgery, Ophthalmology and Neuropathology). Application received by Commissioner of Customs: December 6, 1974. Advice submitted by the Department of Health, Education, and Welfare on: March 14, 1975. Article ordered: November 30, 1973.

Docket number: 75-00256-33-90000. Applicant: Hahnemann Medical College and Hospital, Diagnostic Radiology, 230 N. Broad Street, Philadelphia, Pa. 19102. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for research of diseases of the brain and neurological diseases which include the following:

(1) Evaluation of cerebral underdevelopment of children with malnutrition and the changes during the phenomenon of catch up brain growth which accompanies proper nutrition,

(2) Research to clarify the relationships that exist between cerebral changes occurring in aging as measured by computerized transaxial tomography, measure psychological behavior attained by both current observation studies and past psychiatric history, and sociocultural evaluations,

(3) Evaluation of the etiology and physical and behavioral changes in retarded and handicapped children. Application received by Commissioner of Customs: December 10, 1974. Advice submitted by the Department of Health, Education, and Welfare on: March 14, 1975. Article ordered: November 16, 1973.

Docket number: 75-00258-33-90000. Applicant: Northwestern Memorial Hospital, Superior Street and Fairbanks Court, Chicago, Illinois 60611. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for comparative studies between the results of the computerized tomogram and other neuroradiologic investigative methods of patients with suspected intracranial disease. Application received by Commissioner of Customs: December 10, 1974. Advice submitted by the Department of Health, Education, and Welfare on: March 14, 1975. Article ordered: January 23, 1974.

Docket number: 75-00262-33-90000. Applicant: William Beaumont Hospital, 3601 West 13 Mile Road, Royal Oak, Michigan 48072. Article: EMI Scanner System with Magnetic Tape System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for studies of human subjects whose symptoms strongly suggest the presence of neurological disease, including patients with suspected tumors, congenital malformations of the skull and brain, and patients who have suffered traumatic injuries to the cranium. The patients will be studied to determine the feasibility of diagnosing brain disease with the article. The article will also be used to train radiologists and radiologic technologists on its operating principles and applications.

Application received by Commissioner of Customs: December 10, 1974. Advice submitted by the Department of Health, Education, and Welfare on: March 14, 1975. Article ordered: September 11, 1974.

Docket number: 75-00263-33-90000. Applicant: St. Anthony Hospital, 601 N.W. 9th Street, Oklahoma City, Oklahoma 73102. Article: EMI Scanner System with Magnetic Tape System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for studies of the human brain in vivo. Studies will be made comparing the accuracy of computerized axial tomography with conventional neurologic examination which includes Arteriography, Pneumography and Nuclear Scans. The article will also be used to familiarize neurosurgical and

V 40166
APR 4 75
XUM

radiology residents with the operations of the article as well as the results that can be expected. In addition, it will be used to train the attending and the housestaff of the hospital. Application received by Commissioner of Customs: December 10, 1974. Advice submitted by the Department of Health, Education, and Welfare on: March 14, 1975. Article ordered: April 4, 1974.

Docket number: 75-00266-33-90000. Applicant: University of Chicago Hospitals and Clinics, 950 East 59th Street, Chicago, Illinois 60637. Article: EMI Scanner System with Magnetic Tape System. Manufacturer: EMI, Limited, United Kingdom. Intended use of article: The article will be used to study a variety of tumors and diseases of the human brain. Scans of patients with brain disease established and diagnosed by standard, approved means, such as angiography and surgical biopsy will be compared with the scans of apparently normal subjects. The article will also be used in teaching and training resident physicians in Radiology, Neurosurgery, Neurology and Ophthalmology, as well as medical students, in the diagnosis of brain diseases by computerized axial tomography. Application received by Commissioner of Customs: December 10, 1974. Advice submitted by the Department of Health, Education, and Welfare on: March 14, 1975. Article ordered: December 12, 1973.

Docket number: 75-00268-33-90000. Applicant: St. John's Hospital, 14 Bartlett Street, Lowell, Mass. 01852. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in research projects to develop new techniques of neuroradiologic diagnosis and optimum patterns of study for patients with symptoms referable to the central nervous system. Application received by Commissioner of Customs: December 10, 1974. Advice submitted by the Department of Health, Education, and Welfare on: March 14, 1975. Article ordered: October 11, 1974.

Docket number: 75-00278-33-90000. Applicant: Sutter Community Hospitals, 2820 L Street, Sacramento, CA 95816. Article: EMI Scanning System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The effectiveness of the article will be compared with current methods for evaluation of neurological disorders. The article is also intended to be used in a teaching program to assist residents in neurology and neurosurgery in better understanding of the gross pathology, growth patterns and areas of involvement of central nervous system neoplasm, brain contusions and hemorrhage and degenerative conditions such as hydrocephalus and atrophy. Application received by Commissioner of Customs: December 17, 1974. Advice submitted by the Department of Health, Education, and Welfare on: March 14, 1975. Article ordered: February 19, 1974.

Docket number: 75-00299-99-90000. Applicant: University of Mississippi Medical Center, 2500 North State Street, Jackson, Mississippi 39216. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used to demonstrate and analyze certain physical properties of normal cerebral tissues and a wide variety of pathological lesions involving the brain and related structures without patient hazard or even discomfort. The article will also be used to teach technologists and physicians how to make the computerized radiological images now possible. It will be used to teach Radiologists, Neurologists, Neurosurgery (SIC) and other physicians, how to make the computerized radiological images now possible. It will be used to teach these professionals how to integrate the knowledge gained into current medical practice with the object of decreasing patient morbidity and mortality, and to increase the quality of medical care. Application received by Commissioner of Customs: December 31, 1974. Advice submitted by the Department of Health, Education, and Welfare on: March 14, 1975. Article ordered: August 13, 1974.

Comments: No comments have been recieved with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purpose as these articles are intended to be used, was being manufactured in the United States at the time the articles were ordered. Reasons: Each foreign article is a newly developed system which is designed to provide precise transverse axial X-ray tomography. The Department of Health, Education, and Welfare (HEW) advised in its respectively cited memoranda that the sensitivity and the non-invasive methodology of each article are pertinent to the purposes for which each foreign article is intended to be used. HEW also advised that it knows of no domestic instrument of equivalent scientific value to any of the articles to which the foregoing applications relate for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which was being manufactured in the United States at the time the articles were ordered.

A. H. STUART,
Director, Special Import Programs Division.

[FR Doc.75-8763 Filed 4-3-75;8:45 am]

MEHARRY MED. COLLEGE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to sec. 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00245-33-46040. Applicant: Meharry Medical College, 1005 18th Avenue North, Nashville, Tennessee 37208. Article: Electron Microscope, Model EM 301 and accessories. Manufacturer: Philip Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used in part to carry out research programs in developmental immunology and keloid formation. The article will also be used in the training of pre- and postdoctoral students in the techniques of ultrastructural research.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (October 25, 1974). Reasons: The foreign article has a specified resolving power of 3 Angstroms (Å) point to point and is equipped with a eucentric goniometer stage with ±60° tilt and more than 360° rotation in the specimen phase while providing a guaranteed point to point resolution of 8Å. The most closely comparable domestic instrument available at the time the article was ordered was the Model EMU-4C electron miscroscope supplied by the Adam David Company. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated March 3, 1975 that the characteristics of the foreign article described above are pertinent to the applicant's research studies. HEW further advises that the EMU-4C did not have a scientifically equivalent goniometer stage nor resolution when the article was ordered. We, therefore, find that the EMU-4C was not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

UNIVERSITY OF NEBRASKA

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to sec. 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00209-33-43780. Applicant: University of Nebraska, College of Pharmacy, 42nd and Dewey Avenue, Omaha, Nebraska 68105. Article: Dianorm Equilibrium Dialysing System. Manufacturer: Innovativ-Medizin AG, Switzerland. Intended use of article: The article is intended to be used to study the interactions between low molecular weight compounds (less than 1000) to relatively higher molecular weight biopolymers (greater than 40,000 to 50,000). Specifically, the interactions of drugs to plasma and/or tissue proteins will be investigated. The direct application of the article will include experiments designed to elucidate and characterize the interactions of drugs to tissue proteins and various protein constitutents of the plasma, e.g., albumin and the globulin fraction. The following parameters will be studied: The affinity and strength of drug binding to these proteins, the number of sites to which the drug is bound to the biopolymer, and the nature of these binding sites. The article will also be used in the following courses: Pharmaceutics 687 (Bachelor's Thesis in Pharmacy), Pharmaceutics 899 (Master's Thesis in Pharmacy) and Pharmaceutics 999 (Doctoral Dissertation in Pharmacy).

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article is capable of handling samples less than one millimeter in volume. It is also capable of processing 20 samples simultaneously and it provides a high membrane area to cell volume ratio. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated March 14, 1975 that the features described above are pertinent to the applicant's intended use. HEW also advises that it knows of no domestic instrument of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

United States Travel Service

TRAVEL ADVISORY BOARD

Meeting and Agenda

As noted in the FEDERAL REGISTER dated March 7, 1975, Volume 40, page 10703, a meeting of the Travel Advisory Board of the U.S. Department of Commerce will be held on April 8, 1975, at 9:30 a.m., in Room 4830, of the Main Commerce Building, 14th Street and Constitution Avenue NW., Washington, D.C. 20230.

Established in July, 1968, the Travel Advisory Board consists of senior representatives of 15 U.S. travel industry segments who are appointed by the Secretary of Commerce to serve two year terms.

Members advise the Secretary of Commerce and Assistant Secretary of Commerce for Tourism on policies and programs designed to accomplish the purposes of the International Travel Act of 1961, as amended.

Agenda items are as follows:

1. Report on USTS legislation
   a. Domestic tourism development
   b. Extension of the International Travel Act
2. Bicentennial—how should USTS support the Bicentennial?
3. International report on the Pacific Area Travel Association (PATA)
4. Status of the World Tourism Organization (WTO)
5. Fly U.S. Flag Program
6. Adjournment

A limited number of seats—approximately 14—will be available to observers from the public and the press. The public will be permitted to file written statements with the Committee before or after the meeting. To the extent time is available, the presentation of oral statements will be allowed.

Robert Jackson, Director of Information Services, of the United States Travel Service, Room 1525, U.S. Department of Commerce, Washington, D.C. (telephone 202/967-4987) will respond to public requests for information about the meeting.

C. LANGHORNE WASHBURN,
Assistant Secretary for Tourism,
U.S. Department of Commerce.

Food and Drug Administration

MEDICAL RADIATION ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776; 5 U.S.C. App. I), the Food and Drug Administration announces the following public advisory committee meeting and other required information in accordance with provisions set forth in § 10(a) (1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
Medical Radiation Advisory Committee.	April 18, 8 p.m., Holiday Inn, Delaware Room, 8120 Wisconsin Ave., Bethesda, Md.; April 19, 9 a.m., Room T-400, Bldg. 4, 12720 Twinbrook Pkwy., Rockville, Md.	Open—William S. Cole, M.D. (HFX-4), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-6220.

Purpose. Advises and consults with the Bureau of Radiological Health in the formulation of policy and the development of a coordinated program related to application of ionizing radiation in the healing arts.

Agenda. Review of the recommendations of the Subcommittee on the Division of Training and Medical Applications.

Agenda items are subject to change as priorities dictate.

Dated: March 31, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

[FDA-225-75-4041]

ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Georgia Department of Agriculture

Pursuant to a notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Georgia Dept. of Agriculture on February 19, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE GEORGIA DEPARTMENT OF AGRICULTURE AND THE FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance and protection of FDA-rented ARTX Telecommunication Equipment located in Room 314, Agriculture Building, Capitol Square, Atlanta, Georgia.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and

V 40166 APR 475 XUM V

the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of Agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addresses other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used *only* for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* Georgia Department of Agriculture, Agricultural Building, Capitol Square, Atlanta, Georgia.

V. *Liaison Officers.* For Georgia Dept. of Agriculture: Clifton Ward, Assistant Commissioner, Consumer Protection.

Address: Georgia Department of Agriculture, Agricultural Building, Capitol Square, Atlanta, Georgia. Telephone No.: (404) 656-3600.

For FDA: George B. White, Director, Atlanta District. Address: 880 W. Peachtree St., NW. Atlanta, GA 30309. Telephone No.: (404) 526-3216.

VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Georgia Department of Agriculture:

CLIFTON A. WARD,
Assistant Commissioner, Consumer Protection.

Date: February 19, 1975.

Approved and accepted for the Food and Drug Administration:

M. D. KINSLOW,
Regional Food and Drug Director, Region IV.

Date: February 19, 1975.

Effective date. This memorandum of understanding became effective February 19, 1975.

Dated: March 31, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

[FDA-225-75-4023]

ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Florida Department of Health and Rehabilitative Services

Pursuant to a notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Florida Department of Health and Rehabilitative Services (Division of Health) on January 31, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING

BETWEEN THE

FLORIDA DEPARTMENT OF HEALTH AND REHABILITATIVE SERVICES (DIVISION OF HEALTH)

AND THE

FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance and protection of FDA-rented ARTX Telecommunication Equipment located in Room 247 of the Division of Health, 1217 Pearl Street, Jacksonville, Florida 32201.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities. (NOTE: *There will be no need for your agency to share the terminal with any other agency in Florida at the present time. A terminal is also being placed in the Florida Department of Agriculture in Tallahassee.* It is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.)

III. *Substance of Agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished. (*This is not necessary for your agency since your department will be the sole user to the terminal.*)

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state. (*Not necessary for your agency.*)

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user. (*Not necessary with your agency*)

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addresses other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies. (*Not necessary*)

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used *only* for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* Florida Department of Health and Rehabilitative Services, Division of Health, 1217 Pearl Street, Jacksonville, Florida 32201.

V. *Liaison Officers.* For Florida Department of Health and Rehabilitative Services: Dr. E. Charlton Prather, Director, Division of Health Address: 1217 Pearl Street, Jacksonville, FL 32201. Telephone No.: (904) 354-3961.

For FDA: Adam J. Trujillo, Director, Orlando District, Address: 7200 Lake Ellenor Drive, Orlando, FL 32809. Telephone No.: (305) 855-0900.

VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Florida Dept. of Health and Rehabilitative Services: *s/ E. C. Prather, M.D.*, Director, Florida Division of Health. Date: *January 29, 1975*

Approved and accepted for the Food and Drug Administration: *s/ M. D. Kinslow*, Regional Food and Drug Director, Atlanta Field Office. Date: *January 31, 1975*

Effective date: This Memorandum of Understanding became effective January 31, 1975.

Dated: March 25, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Iowa Department of Agriculture

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Iowa Department of Agriculture on February 4, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING

BETWEEN THE

IOWA DEPARTMENT OF AGRICULTURE

AND THE

FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance and protection of FDA-rented ARTX Telecommunication Equipment located in the State Chemical Laboratory, Iowa Department of Agriculture, East 7th & Court, Des Moines, Iowa 50319.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of Agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addresses other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used *only* for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* Iowa Department of Agriculture, State Capitol, Des Moines, Iowa 50319.

V. *Liaison Officers.* For Iowa Dept. of Agriculture: J. D. Hook, Admin., State Chemical Lab. Address: E. 7th & Court., Des Moines, Iowa 50319. Telephone No.: (515) 281-5861.

For FDA: Dwight P. Ringhausen, Asst. to Director for Federal, State & Industry Affairs. Address: 1009 Cherry Street, Kansas City, Missouri 64106. Telephone No.: (816) 374-3817.

VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Iowa Dept. of Agriculture: *s/R. H. Lounsberry*, Iowa Secretary of Agriculture. Date: *February 4, 1975.*

Approved and accepted for the Food and Drug Administration: *s/ Lloyd E. Claiborne*, Regional Food and Drug Director, Region VII. Date: *January 29, 1975.*

Effective date: This Memorandum of Understanding became effective February 4, 1975.

Dated: March 25, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the South Carolina Department of Agriculture

Pursuant to a notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the South Carolina Department of Agriculture on February 19, 1974. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING

BETWEEN THE

SOUTH CAROLINA DEPARTMENT OF AGRICULTURE

AND THE

FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance and protection of FDA-rented ARTX Telecommunication Equipment located in Room 212, Laboratory Building, 1101 Williams Street, Columbia, South Carolina 29211.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of Agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used *only* for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* South Carolina Department of Agriculture, Wade Hampton Office Building, P.O. Box 11280, Columbia, South Carolina 29211.

V. *Liaison Officers.* For South Carolina Dept. of Agriculture: Truluck Kelly, Director, Laboratory Division. Address: Wade Hampton Office Building, P.O. Box 11280, Columbia, South Carolina 29211. Telephone No.: (803) 758-7470.

For FDA: George R. White, Director, Atlanta District. Address: 880 W. Peachtree St., NW., Atlanta, GA 30309. Telephone No.: (404) 526-3218.

VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the South Carolina Dept. of Agriculture: *s/ Truluck Kelly,* Director of the Laboratory. Date: *February 10, 1975.*

Approved and accepted for the Food and Drug Administration: *s/ M. D. Kinslow,* Regional Food and Drug Director, Region IV. Date: *February 19, 1975.*

Effective date: This Memorandum of Understanding became effective February 19, 1975.

ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Washington State Department of Agriculture

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Washington State Department of Agriculture on January 24, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING

BETWEEN THE

WASHINGTON STATE DEPARTMENT OF AGRICULTURE

AND THE

FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance and protection of FDA-rented ARTX Telecommunication Equipment located in the Dairy and Food Division, of the State Department of Agriculture.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of Agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used *only* for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* Washington State Department of Agriculture, 406 General Administration Bldg., Olympia, Washington.

V. *Liaison Officers.* For Washington State Dept. of Agriculture: *Clarence Gehrman, Supr. Dairy & Food Division.* Address: 406 General Administration Bldg., Olympia, Washington. Telephone No. (206) 753-5042.

For FDA: *J. Kenneth Kinney, Federal-State Liaison Officer.* Address: 5003 Federal Office Bldg., Seattle, WA 98174. Telephone No.: (206) 442-5304.

VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Washington State Dept. of Agriculture: *s/Clarence Gehrman,* Supervisor, Dairy Food Div. Date: *January 24, 1975.*

Approved and accepted for the Food and Drug Administration: *s/James W. Swanson,* Regional Food & Drug Director, Seattle Field Office, Region X. Date: *January 23, 1975.*

Effective date. This Memorandum of Understanding became effective January 24, 1975.

Dated: March 25, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

Office of Education

NATIONALLY RECOGNIZED ACCREDITING AGENCIES AND ASSOCIATIONS

List

For the purposes of determining eligibility for Federal assistance, pursuant to Pub. L. 82-550 and subsequent legislation, the U.S. Commissioner of Education hereby publishes a list of nationally recognized accrediting agencies and associations which he determines to be reliable authorities as to the quality of training offered by educational institutions either in a geographical area or in a specialized field, and the general scope of recognition granted to the accrediting bodies.

This list supersedes the list previously promulgated by the Commissioner of Education on February 14, 1973, 38 FR 4428-4430.

AGENCIES AND ASSOCIATIONS RECOGNIZED FOR THEIR GENERAL ACCREDITATION OF COLLEGES AND UNIVERSITIES.

Commission on Higher Education, Middle States Association of Colleges and Secondary Schools.

Commission on Independent Secondary Schools, Commission on Institutions of Higher Education, Commission on Public Secondary Schools, Commission on Vocational Technical Institutions, New England Association of Schools and Colleges.

Commission on Institutions of Higher Education, Commission on Secondary Schools, North Central Association of Colleges and Secondary Schools.

Commission on Higher Schools, Northwest Association of Schools and Colleges.

Commission on Colleges, Commission on Occupational Education Institutions, Southern Association of Colleges and Schools.

Accrediting Commission for Junior Colleges, Accrediting Commission for Secondary Schools, Accrediting Commission for Senior Colleges and Universities, Western Association of Schools and Colleges.

Board of Regents, The University of the State of New York (for institutions within New York State registered by the Office of Higher Education, the State Education Department).

AGENCIES AND ASSOCIATIONS RECOGNIZED FOR THEIR SPECIALIZED ACCREDITATION OF SCHOOLS OR PROGRAMS.

ARCHITECTURE

National Architectural Accrediting Board, Inc. (5-year programs leading to a professional degree).

ART

Commission on Accrediting, National Association of Schools of Art (professional schools and programs).

V 40166 APR 4 75 XUM

ASSISTANT TO THE PRIMARY CARE PHYSICIAN

Council on Medical Education, American Medical Association, in cooperation with the Joint Review Committee on Educational Programs for the Assistant to the Primary Care Physician, which is sponsored by the American Academy of Family Physicians, American Academy of Pediatrics, American College of Physicians and American Society of Internal Medicine (programs for the assistant to the primary care physician).

BIBLE COLLEGE EDUCATION

American Association of Bible Colleges (3-year institutes and 4- and 5-year colleges).

BLIND AND VISUALLY HANDICAPPED EDUCATION

National Accreditation Council for Agencies Serving the Blind and Visually Handicapped (residential schools for the blind).

BLOOD BANK TECHNOLOGY

Council on Medical Education, American Medical Association, in cooperation with the National Accrediting Agency for Clinical Laboratory Sciences, which is sponsored by the American Society for Medical Technology and the American Society of Clinical Pathologists, and in collaboration with the American Association of Blood Banks (programs for the specialist in blood bank technology).

BUSINESS

American Assembly of Collegiate Schools of Business (baccalaureate and master's degree programs).

Accrediting Commission, Association of Independent Colleges and Schools (private junior and senior colleges of business, and private business schools).

CERTIFIED LABORATORY ASSISTANT EDUCATION

Council on Medical Education, American Medical Association, in cooperation with the National Accrediting Agency for Clinical Laboratory Sciences, which is sponsored by the American Society for Medical Technology and the American Society of Clinical Pathologists (educational programs for the certified laboratory assistant).

CHIROPRACTIC

Commission on Accreditation, Council on Chiropractic Education (programs leading to the D.C. degree).

CLINICAL PASTORAL EDUCATION

Association for Clinical Pastoral Education, Inc. (professional training centers).

COSMETOLOGY

Cosmetology Accrediting Commission (cosmetology schools and programs).

CYTOTECHNOLOGY

Council on Medical Education, American Medical Association, in cooperation with the National Accrediting Agency for Clinical Laboratory Sciences, which is sponsored by the American Society for Medical Technology and the American Society of Clinical Pathologists (educational programs for the cytotechnologist).

DENTISTRY

Council on Dental Education, American Dental Association (programs leading to D.D.S. or D.M.D. degrees, advanced dental specialty programs, rotating and mixed internship and general practice residency programs and programs in dental hygiene, dental assisting and dental technology).

DIETETICS

Dietetic Internship Board, American Dietetic Association (coordinated undergraduate programs in dietetics and dietetic internships).

ENGINEERING

Engineers' Council for Professional Development (first professional degree programs in engineering, graduate programs leading to advanced entry into the engineering profession and associate and baccalaureate degree programs in engineering technology).

FORESTRY

Society of American Foresters (professional schools).

FUNERAL SERVICE EDUCATION

Commission of Schools, American Board of Funeral Service Education (independent schools and collegiate departments).

HISTOLOGIC TECHNOLOGY

Council on Medical Education, American Medical Association, in cooperation with the National Accrediting Agency for Clinical Laboratory Sciences, which is sponsored by the American Society for Medical Technology and the American Society of Clinical Pathologists (programs for the histologic technician).

HOME STUDY EDUCATION

Accrediting Commission, National Home Study Council (private correspondence schools).

HOSPITAL ADMINISTRATION

Accrediting Commission on Graduate Education for Hospital Administration (graduate programs).

JOURNALISM

Accrediting Committee, American Council on Education for Journalism (baccalaureate professional programs).

LANDSCAPE ARCHITECTURE

Board of Landscape Architectural Accreditation, American Society of Landscape Architects (first professional degree programs).

LAW

Section of Legal Education and Admissions to the Bar, American Bar Association (professional schools).

LIBRARIANSHIP

Committee on Accreditation, American Library Association (5-year programs leading to the master's degree).

MEDICAL ASSISTANT

Accrediting Bureau of Medical Laboratory Schools (private medical assistant educational institutions and programs).

Council on Medical Education, American Medical Association, in cooperation with the Curriculum Review Board, American Association of Medical Assistants (1- and 2-year medical assistant programs).

MEDICAL LABORATORY TECHNICIAN EDUCATION

Accrediting Bureau of Medical Laboratory Schools (technical schools and programs).

Council on Medical Education, American Medical Association, in cooperation with the National Accrediting Agency for Clinical Laboratory Sciences, which is sponsored by the American Society for Medical Technology and the American Society of Clinical Pathologists (technical programs).

MEDICAL RECORD EDUCATION

Council on Medical Education, American Medical Association, in cooperation with the Education and Registration Committee, American Medical Record Association (programs for medical record administrators and medical record technicians).

MEDICAL TECHNOLOGY

Council on Medical Education, American Medical Association, in cooperation with the National Accrediting Agency for Clinical Laboratory Sciences, which is sponsored by the American Society for Medical Technology and the American Society of Clinical Pathologists (professional programs).

MEDICINE

Liaison Committee on Medical Education, representing the Council on Medical Education, American Medical Association, and the Executive Council, Association of American Medical Colleges (programs leading to the M.D. degree).

MUSIC

National Association of Schools of Music (baccalaureate and graduate degree programs).

NUCLEAR MEDICINE TECHNOLOGY

Council on Medical Education, American Medical Association, in cooperation with the Joint Review Committee on Educational Programs in Nuclear Medicine Technology, which is sponsored by the American College of Radiology, American Society of Clinical Pathologists, American Society for Medical Technology, American Society of Radiologic Technologists, Society of Nuclear Medicine Technologists and Society of Nuclear Medicine (programs for the nuclear medicine technologist and nuclear medicine technician).

NURSING

Approval of Schools Committee, American Association of Nurse Anesthetists (professional schools of nurse anesthesia).

Accrediting Review Board, National Association for Practical Nurse Education and Service, Inc. (practical nurse programs).

Board of Review for Diploma Programs, Board of Review for Associate Degree Programs, Board of Review for Baccalaureate and Higher Degree Programs, Board of Review for Practical Nursing Programs, National League for Nursing (professional, technical and practical nurse programs).

OCCUPATIONAL THERAPY

Council on Medical Education, American Medical Association, in cooperation with the Accreditation Committee, American Occupational Therapy Association (professional programs).

OCCUPATIONAL, TRADE AND TECHNICAL EDUCATION

Accrediting Commission, National Association of Trade and Technical Schools (private trade and technical schools).

OPTOMETRY

Council on Optometric Education, American Optometric Association (professional programs).

OSTEOPATHIC MEDICINE

American Osteopathic Association (programs leading to the D.O. degree).

PHARMACY

American Council on Pharmaceutical Education (professional schools).

PHYSICAL THERAPY

Council on Medical Education, American Medical Association, in cooperation with the Committee on Accreditation in Education, American Physical Therapy Association (professional programs).

PODIATRY

Council on Podiatry Education, American Podiatry Association (baccalaureate and graduate degree programs).

PSYCHOLOGY

Committee on Accreditation, American Psychological Association (doctoral and internship programs in clinical and counseling psychology and doctoral programs in school psychology).

PUBLIC HEALTH

Council on Education for Public Health (graduate professional schools of public health).

RABBINICAL AND TALMUDIC EDUCATION

Accreditation Commission, Association of Advanced Rabbinical and Talmudic Schools (rabbinical and Talmudic schools).

RADIOLOGIC TECHNOLOGY

Council on Medical Education, American Medical Association, in cooperation with the Joint Review Committee on Education in Radiologic Technology, which is sponsored by the American College of Radiology and the American Society of Radiologic Technologists (2-year programs for radiologic technologists and radiation therapy technologists).

RESPIRATORY THERAPY

Council on Medical Education, American Medical Association, in cooperation with the Joint Review Committee for Respiratory Therapy Education, which is sponsored by the American Association for Respiratory Therapy, American College of Chest Physicians, American Society of Anesthesiologists and American Thoracic Society (programs for respiratory therapists and respiratory therapy technicians).

SOCIAL WORK

Commission on Accreditation, Council on Social Work Education (master's and baccalaureate degree programs).

SPEECH PATHOLOGY AND AUDIOLOGY

American Boards of Examiners in Speech Pathology and Audiology, American Speech and Hearing Association (master's degree programs).

TEACHER EDUCATION

National Council for Accreditation of Teacher Education (baccalaureate and graduate degree programs).

THEOLOGY

Commission on Accrediting, Association of Theological Schools in the United States and Canada (graduate professional schools).

VETERINARY MEDICINE

Council on Education, American Veterinary Medical Association (programs leading to D.V.M. or V.M.D. degrees).

AGENCIES AND ASSOCIATIONS RECOGNIZED FOR THEIR GENERAL PREACCREDITATION OF COLLEGES AND UNIVERSITIES

Middle States Association of Colleges and Secondary Schools, Commission on Higher Education ("Candidate for Accreditation").

DESEGREGATION OF PUBLIC EDUCATION

Notice of Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in Title IV of the Civil Rights Act of 1964, 78 Stat. 246, as amended (42 U.S.C. 2000c–2000c–9), applications for awards are being accepted from State educational agencies, institutions of higher education, and school boards under §§ 403 (technical assistance), 404 (training institutes), and 405 (grants to school boards), respectively, of the Act.

Applications must be submitted to the Regional Office of the Office of Education serving the area in which the applicant is located and must be received by that Regional Office on or before May 16, 1975.

The addresses are as follows:

REGIONAL OFFICES OF EDUCATION

REGION I

(Boston)—Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont:
U.S. Office of Education, Equal Educational Opportunity, John Fitzgerald Kennedy Federal Bldg., Government Center, Boston, Massachusetts 02203.

REGION II

(New York City)—New York, New Jersey, Puerto Rico and Virgin Islands:
U.S. Office of Education, Equal Educational Opportunity, Federal Bldg., 26 Federal Plaza, New York, New York 10007.

REGION III

(Philadelphia)—Delaware, District of Columbia, Maryland, Pennsylvania, Virginia and West Virginia:
U.S. Office of Education, Equal Educational Opportunity, P.O. Box 13716, Philadelphia, Pennsylvania 19101.

REGION IV

(Atlanta)—Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina and Tennessee:
U.S. Office of Education, Equal Educational Opportunity, 50 7th Street NE., Atlanta, Georgia 30323.

REGION V

(Chicago)—Illinois, Indiana, Minnesota, Michigan, Ohio and Wisconsin:
U.S. Office of Education, Equal Educational Opportunity, 300 South Wacker Drive, Chicago, Illinois 60606.

REGION VI

(Dallas)—Arkansas, Louisiana, New Mexico, Oklahoma and Texas:
U.S. Office of Education, Equal Educational Opportunity, 1114 Commerce Street, Dallas, Texas 75202.

REGION VII

(Kansas City)—Iowa, Kansas, Missouri and Nebraska:
U.S. Office of Education, Equal Educational Opportunity, New Federal Office Bldg., 601 East 12th Street, Kansas City, Missouri 64106.

REGION VIII

(Denver)—Colorado, Montana, North Dakota, South Dakota, Utah and Wyoming:
U.S. Office of Education, Equal Educational Opportunity, 1961 Stout Street, Denver, Colorado 80202.

REGION IX

(San Francisco)—Arizona, California, Hawaii, Nevada, American Samoa, Guam and the Trust Territory of the Pacific Islands:
U.S. Office of Education, Equal Educational Opportunity, 50 Fulton Street, Room 359, San Francisco, California 94102.

REGION X

(Seattle)—Alaska, Idaho, Oregon and Washington:
U.S. Office of Education, Equal Educational Opportunity, Arcade Plaza Bldg.—M/S 628, 1321 Second Avenue, Seattle, Washington 98101.

A. *Applications sent by mail.* An application sent by mail will be considered to have been received on time by the Regional Office if:

(1) The application was sent by registered or certified mail not later than May 12, 1975, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by the appropriate Regional Office mail room. (In establishing the date of receipt, the Commissioner will reply on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, the U.S. Office of Education or the Regional Offices.)

B. *Hand delivered applications.* An application to be hand delivered must be taken to the appropriate U.S. Office of Education Regional Office at the address listed above in this notice. No application will be accepted after the normal close of business time by a U.S. Office of Education Regional Office on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the appropriate Regional Office.

D. *Applicable regulations.* Awards under this program are subject to the Office of Education General Provisions Regulations (45 CFR Parts 100 and 100a) and Subparts A, B, D, and E of the proposed regulations for this program published as a notice of proposed rule making on March 17, 1975, at 40 FR 12243–50.

ADVISORY COUNCIL ON BILINGUAL EDUCATION

Public Meeting

Notice is hereby given pursuant to section 10 (a) (2) of the Federal Advisory Committee Act (Public Law 92-463), that a meeting of the Advisory Committee on the Education of Bilingual Children will be held from 9 a.m. to 5 p.m. on Monday, April 28, and on Tuesday, April 29, 1975 from 9 a.m. to 5 p.m. The Council will meet in the Office of Civil Rights Conference Room on the 5th Floor of the RKO Building located at the Government Center, Bulfinch Place, Boston, Massachusetts.

The Advisory Council on Bilingual Education is established pursuant to section 732 of the Bilingual Education Act (20 U.S.C. 880b-11) to advise the Secretary of Health, Education, and Welfare and the Commissioner of Education concerning matters arising in administration of the Bilingual Education Act.

The meeting shall be opened to the public. The proposed agenda for the Committee meeting is:

1. Council report on position paper and draft.
2. Annual Report to the Commissioner
3. New Business

Records shall be kept of all proceedings, and shall be available for public inspection at Room 3600, Regional Office Building #3, 7th and D Streets SW., Washington, D.C. 20202.

Signed at Washington, D.C. on March 27, 1975.

JOHN C. MOLINA,
Director, Division of Bilingual Education.

Public Health Service

ADMINISTRATOR, HEALTH SERVICES ADMINISTRATION

Delegation of Authority

Notice is hereby given that on March 19, 1975, the Assistant Secretary for Health made the following delegation to the Administrator, Health Services Administration. This delegation supersedes the delegation made to the Administrator, Health Services Administration, on July 29, 1974.

I hereby redelegate to the Administrator, Health Services Administration, the following authorities under the Health Maintenance Organization Act of 1973 (Pub. L. 93-222) which were delegated to me by the Secretary. Unless otherwise noted, the citations below refer to sections of the Public Health Service Act, as amended by Pub. L. 93-222:

1. Authority under section 1303 to authorize grants and contracts for feasibility surveys;
2. Authority under section 1304 to authorize grants, contracts, and to make loan guarantees for planning and for initial development costs;
3. Authority under section 1305 to make loans and loan guarantees for initial operation costs;
4. Authority under section 6 of Pub. L. 93-222 for provision of Health Services for Indians and domestic agricultural migratory and seasonal workers;
5. Authority under section 1308.

The above authorities may be redelegated, except for those subsections specifically referred to below.

6. Authority under section 1308(a)2A, (b)3, (c), (d), and (e) relating to loan guarantees and loans. This authorization may not be redelegated.

Dated: March 19, 1975.

R. MOURE,
Executive Officer.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

CONCORDE SUPERSONIC TRANSPORT AIRCRAFT

Draft Environmental Impact Statement Public Hearing

The Federal Aviation Administration will hold a public hearing in Sterling Park, Virginia on April 21, 1975 on the draft environmental impact statement prepared in connection with a proposal by British Airways and Air France to amend their operations specifications to permit those carriers to conduct limited commercial air service to and from the United States with the Concorde airplane under Part 129 of the Federal Aviation Regulations (14 CFR Part 129). This hearing is for the purpose of assisting the FAA in making a determination on the proposal and will afford interested persons the opportunity to present views, data and arguments regarding the substance and issues associated with this proposal and identified in the draft environmental impact statement.

The hearing will be conducted in Sterling Middle School, West Holley Avenue, Sterling Park, Virginia, convening at 6 p.m. This hearing is in addition to the hearings announced by the notice appearing in 40 FR 11933, published March 14, 1975.

The hearing will be informal in nature and will be conducted by a designated representative of the Administrator. The hearing will not be evidentiary or judicial in nature. There will be no cross-examination or other adjudicatory procedure applied to the presentations. However, interested persons wishing to make rebuttal statements will be given an opportunity to do so at the conclusion of the presentations in the same order in which the initial statements are made.

Interested persons are invited to attend the hearing and to participate by making oral or written statements. Written statements should be submitted in duplicate and will be made a part of the record. Persons wishing to make oral statements at the hearing must notify the FAA and indicate the amount of time required for their initial statements. Presentations will be scheduled on a first-come-first-served basis, as time may permit. Requests to be heard should be addressed:

Director, Flight Standards Service (AFS–1)
Attention: Concorde EIS
Federal Aviation Administration
800 Independence Avenue, S.W.
Washington, D.C. 20591

In addition, persons not participating in the hearing are invited to submit relevant written comments to the same address.

The closing date for submitting comments is May 6, 1975.

A transcript of the hearing will be made and anyone may purchase a copy of it from the reporter.

A limited number of copies of the draft environmental impact statements will be available at the hearing. Also, the draft environmental impact statement can be reviewed at the Council on Environmental Quality, 722 Jackson Place, N.W., Washington, D.C., at the Sterling Public Library, 304 Sterling Boulevard, Sterling Park, Virginia, and at the FAA Regional Office, Federal Building, JFK International Airport, Jamaica, New York. Copies may be obtained by writing to the Federal Aviation Administration, Attention: AFS–1 (Concorde EIS), 800 Independence Avenue, S.W., Washington, D.C. 20591.

Issued in Washington, D.C., on April 2, 1975.

F. A. MEISTER,
Associate Administrator for Policy Development and Review (Acting).

CIVIL AERONAUTICS BOARD

[Docket No. 27451; Order 75-3-127]

FLYING TIGER LINE INC.

Certificate Amendment; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 31st day of March, 1975.

Application of The Flying Tiger Line Inc. for an amendment of its certificate of public convenience and necessity for route 100.

By application filed January 28, 1975, The Flying Tiger Line Inc. (FTL) requests that condition (4) of its certificate for route 100 be amended so as to authorize the carrier to transport, at the expense of the shipper, one or more attendants in connection with any shipment provided that such attendant may be transported only when actually accompanying the shipment and may not be transported from the destination of the shipment to its origin or otherwise.[1] Contemporaneously, FTL filed a petition seeking the issuance of an order to show cause why its certificate should not be amended as requested.

Under the pertinent terms of condition (4) of its certificate, FTL may now transport one or more attendants with each shipment of live animals, live birds, and live reptiles where necessary to protect such animals, other cargo, the aircraft, or its crew.[2] The grant of the carrier's certificate amendment application would eliminate the present limitations on categories of shipments and permit FTL to transport attendants in connection with any shipment, irrespective of the nature of the commodity transported or of the identity of the shipper involved.

In support of its application, the carrier states that, unlike FTL, Airlift International, Inc. (Airlift), the other domestic all-cargo carrier, has been authorized to permit attendants with any shipment provided only that the attendant actually accompany the shipment and travel at the shipper's expense,[3] and that both FTL's and Seaboard's international certificates allow the carriage of attendants in accordance with applicable IATA Resolutions.[4] The carrier also states that on six occasions in the past 10 months it has been requested to carry cargo attendants with nonanimate traffic and in each instance it has had to seek *ad hoc* emergency exemption authority in order to carry these attendants; and that the requirement of obtaining an exemption (1) is cumbersome and involves unnecessary expenses in the form of legal and Board filing fees,[5] (2) creates uncertainty on the shipper's part as to whether FTL's services will be available in situations where there may be no alternative air freight service due to the hazardous nature of the shipment, and (3) may raise serious security problems, where shipments of nuclear material are concerned and reference is made to the specific movement of such material on specific dates. FTL states further that, in some instances, cargo attendants are required to accompany shipments pursuant to the regulations of other government agencies; and that the recently enacted Transportation

[1] FTL formerly held authority such as that now requested in the form of a temporary exemption (see 42 C.A.B. 901 (1965)). However, this exemption authority was granted for a period to terminate 60 days after final decision on FTL's application for certificate amendment in docket 16072. When the latter application was dismissed as stale by order 73–1–56 on Jan. 18, 1973, FTL's exemption authority automatically expired 60 days thereafter.

[2] See order 71–11–33.

[3] See orders 73–3–56/59.

[4] See orders E–23230 and 69–4–90.

[5] FTL alleges that the Board's filing fee of $300 significantly dilutes FTL's revenues and in some cases may result in a nonprofitable operation.

V 40 166 APR 4 75 XUM

Safety Act of 1974 (which will prohibit the carriage of radioactive material on any passenger-carrying aircraft unless those materials are intended for use in, or incident to, research, or medical diagnosis or treatment), together with the Atomic Energy Commission's (AEC) recent proposal[6] to require two armed guards with all air shipments of certain quantities of nuclear material, will require operators of all-cargo equipment to carry armed attendants in an increased number of situations. In order to meet the growing demand for cargo attendant requests that is likely to accompany the newly proposed AEC regulations as well as recently enacted legislation in this field, FTL requests that the Board act on this matter with expedition.

Northwest Airlines, Inc. (Northwest), filed an answer to FTL's request stating that it does not oppose grant of the authority requested by FTL provided such authority is limited to those cases in which such attendants are required by Federal regulations and a reporting requirement outlining the use made of the authority is imposed.

Subsequently, FTL filed a reply together with a motion for leave to file an unauthorized document.[7]

Upon consideration of the pleadings and all the relevant facts, we have decided to issue an order to show cause why the Board should not allow FTL to transport attendants, at the shipper's expense, in connection with any shipment provided that such attendant may be transported only when actually accompanying the shipment and may not be transported from the destination of the shipment to its origin or otherwise.[8]

The facts and circumstances which we have tentatively found to support our ultimate conclusion are as follows. We tentatively find that the shipping public will receive certain advantages from the improved services, and that there will be little if any adverse impact on other carriers. To require the carrier to resort to individual exemption applications each time it needs attendants to comply with Federal regulations or as required for the safety or security or proper handling of the shipment creates an undue burden on the carrier in order to provide a service which can be provided without limitations by its principal competitors. There is also advantage to the Board in being relieved of the necessity of processing a number of individual applications. Furthermore, we tentatively find that requiring FTL to submit quarterly reports, as suggested by Northwest, would be unduly burdensome. In this connection, we note that FTL is not now required to file such reports for carrying cargo attendants accompanying shipments of live animals, live birds, and live reptiles. Finally, the lack of any real opposition to FTL's application lends support to our decision that the show-cause procedure is appropriate. Northwest offers no reason why FTL should be required to operate under different conditions and reporting requirements from its competitors. To impose such a discriminatory burden on FTL without good cause would be unfair and not in the public interest.[9]

Interested persons will be given 30 days following the date of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If any evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, and amending condition (4) of the certificate of public convenience and necessity of The Flying Tiger Line Inc. for route 100 so as to read as follows:

4. The holder may transport, at the expense of the shipper, one or more attendants with any shipment provided that such attendant may be transported only when actually accompanying the shipment and may not be transported from the destination of the shipment to its origin or otherwise;

2. Any interested person having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within 30 days after the date of adoption of this order, file with the Board and serve upon all persons listed in paragraph 6 a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections; [10]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein;

5. The motion of The Flying Tiger Line Inc. to file an otherwise unauthorized document in docket 27451 be and it hereby is granted; and

6. A copy of this order shall be served upon Airlift International, Inc.; Alaska Airlines, Inc.; Allegheny Airlines, Inc.; American Airlines, Inc.; Braniff Airways, Inc.; Continental Air Lines, Inc.; Delta Air Lines, Inc.; Eastern Air Lines, Inc.; The Flying Tiger Line Inc.; Frontier Airlines, Inc.; Hughes Airwest; National Airlines, Inc.; North Central Airlines, Inc.; Northwest Airlines, Inc.; Ozark Air Lines, Inc.; Pan American World Airways, Inc.; Piedmont Aviation, Inc.; Southern Airways, Inc.; Texas International Airlines, Inc.; Trans World Airlines, Inc.; United Air Lines, Inc.; Department of Army; Department of Navy; Department of Air Force; Department of Transportation; Atomic Energy Commission; National Aeronautics and Space Administration; and the U.S. Postal Service.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

ALASKA AIRLINES, INC., ET AL.

Order Denying Stay

Correction

In FR Doc. 75-7716 appearing at page 13237 in the issue for Tuesday, March 25, 1975, make the following changes:

1. On page 13238, the first column, the fifth line, the word "reuse" should read "refuse".

2. On page 13238, the first column, the asterisks preceding footnote 3 should be removed and footnote 3 should be placed at the bottom of the column.

COMMISSION ON CIVIL RIGHTS

TEXAS STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Texas State Advisory Committee (SAC) to this Commission will convene at 6 p.m. on April 22, 1975 at the Holiday Inn, 801 Calhoun, Houston, Texas 77001.

Persons wishing to attend this meeting should contact the Committee Chairman, or the Southwestern Regional Office of the Commission, Room 231, New Moore

[6] See 39 FR 40067 (Nov. 13, 1974).

[7] We will grant the motion.

[8] Our action herein will not result in a major Federal action significantly affecting the quality of the environment within the meaning of the National Environmental Policy Act of 1969. In most instances, if not in all, the cargo attendants will be transported on FTL's regularly scheduled flights.

[9] We further find that FTL is a citizen of the United States within the meaning of the Act and is fit, willing, and able properly to perform the transportation proposed herein and to conform to the Board's rules, regulations, and requirements thereunder.

[10] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections, and no further such motions, requests, or petitions for reconsideration of this order will be entertained.

Building, 106 Broadway, San Antonio, Texas 78205.

The purpose of this meeting is to discuss the status of school finance Texas Legislature will be reviewed. Other parts of the Conference will consider the overall problems in school finance reform in Texas.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., April 1, 1975.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE SOCIALIST FEDERAL REPUBLIC OF YUGOSLAVIA

Entry or Withdrawal from Warehouse for Consumption

APRIL 1, 1975.

On March 11, 1965, there was published in the FEDERAL REGISTER (30 FR 3336) a letter of March 8, 1965 from the Chairman of the Interagency Textile Administrative Committee to the Commissioner of Customs, prohibiting entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products, produced or manufactured in Yugoslavia and exported from Yugoslavia for which that Government had not issued a visa. One of the requirements is that each visa must include the signature of an official authorized to issue visas. The Government of the Socialist Federal Republic of Yugoslavia has requested that Anka Lomic and Nebojsa Krnjajic be authorized to issue visas in place of Nikola Agic, Dusan Maric, Anoka Stritar, and Nedeljok Carman.

Accordingly, there is published below a letter of April 1, 1975 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs amending the directive of March 8, 1965, effective on April 4, 1975. Facsimiles of the signatures of the two newly-designated officials are filed as part of the original document with the Office of the Federal Register. A complete list of officials currently authorized to issue visas for cotton textiles and cotton textile products exported to the United States from Yugoslavia is enclosed with the letter to the Commissioner of Customs.

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

APRIL 1, 1975.

Commissioner of Customs,
Department of the Treasury,
Washington, D.C. 20229.

DEAR MR. COMMISSIONER: This directive amends, but does not cancel, the directive of March 8, 1965 from the Chairman, Interagency Textile Administrative Committee, that directed you to prohibit, under certain specified conditions, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1 through 64, produced or manufactured in Yugoslavia, for which the Government of the Socialist Federal Republic of Yugoslavia had not issued an appropriate visa. One of the requirements is that each visa include the signature of an official authorized to issue visas.

Under the provisions of the Bilateral Cotton Textile Agreement of December 31, 1970, as amended, between the Governments of the United States and the Socialist Federal Republic of Yugoslavia, and in accordance with Executive Order 11651 of March 3, 1972, the directive of March 8, 1965 is amended, effective on April 4, 1975, to authorize Anka Lomic and Nebojsa Krnjajic to issue visas in place of Nikola Agic, Dusan Marc, Anoka Stritar, and Nedeljok Carman. A complete list of officials currently authorized to issue visas is enclosed.

The actions taken with respect to the Government of the Socalist Federal Republic of Yugoslavia and with respect to imports of cotton textiles and cotton textile products from Yugoslavia have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

Officials of the Government of the Socialist Federal Republic of Yugoslavia Authorized to Issue Visas for Exports of Cotton Textiles and Cotton Textile Products to the United States

STEVAN M. ZEC,
ANKA LOMIC,
NEBOJSA KRNJAJIC.

Draft

Veterinary Biologics Laboratory, Ames, Iowa, March 24: The statement concerns the construction of the Veterinary Biologics Laboratory on a new site to replace and upgrade the present facilities in Ames, Iowa. Adverse impacts include air and noise pollution and odor due to solid waste disposal, land use change, and the presence of microorganisms causing diseases in animals (49 pages). (ELR Order No. 50398.)

Final

1975 Addendum to 1974 Gypsy Moth EIS, March 28: The statement, a 1975 draft addendum to the USDA 1974 Gypsy Moth EIS, refers to the continued suppression and/or regulation of the gypsy moth. In 1975 action is proposed in Connecticut, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, and Virginia. Carbaryl, trichlorfon, and Bacillus thuringiensis will be used on approximately 116,200 acres. Comments made by: EPA, USDA, DOC, HEW, DOI, and agencies of several States, and concerned citizens and organizations. (ELR Order No. 50443.)

FOREST SERVICE

Draft

Shafer Butte Planning Unit, Boise National Forest, Ada County, Boise, Idaho, March 24: The statement refers to the land use plan for the 98,500-acre Shafer Butte Planning Unit of Boise National Forest. Balanced resources use is given emphasis in the plan. Watershed, visual quality, and recreation as noncommodity items or nonconsumptive resource activities are complemented. Wildlife habitat improvement or maintenance is stressed. Consumptive demands are mixed to the extent the land base can meet and support. (ELR Order No. 50400.)

Central Nevada Unit, Toiyabe National Forest, Nev., March 28: Several. (ELR Order No. 50442.)

Malheur, Umatilla, and Wallow-Whitman National Forest's Herbicide, Oregon and Washington, March 24: The statement concerns the use of the herbicides 2,4-D, 2,4,5-T, Dicamba, and Picloram on the three National Forests located in Northeast Oregon and Southeast Washington. Adverse impacts include harmful effects on non-target species and the alteration of wildlife habitat. (ELR Order No. 50403.)

Mount Butler—Dry Creek Planning Unit, Siskiyou National Forest, Curry County, Oreg., March 27: The proposed action consists of a land use plan for management of a largely roadless, 22,100 acre Planning Unit on the Siskiyou National Forest. The plan recommends land allocations to sustain a high level of timber harvest, develop the Unit's recreation potential, and protect resources. The opportunity for future statutory wilderness designation for the roadless areas in the Unit will eventually be pre-empted by implementation of the plan, and suitable

V 40166
APR 4 75
XUM

habitat for the northern spotted owl, a bird on the state threatened list, will be reduced by approximately 60% (135 pages). (ELR Order No. 50429.)

Chelan Planning Unit, Snoqualmie and Wenatchee National Forests, Kings, Snohomish, and Chelan Counties, Wash., March 24: The statement concerns a proposed allocation to remove the moratorium on commodity production placed on portions of Chelan Planning Unit by the Roadless Area Review and Evaluation in 1971–72. New Study Areas will remain under the management activity moratorium until intensive wilderness studies can be conducted (108 pages). (ELR Order No. 50396.)

Final

Fall Cankerworm Spraying, Va., Prince William County, Va., March 26: Proposed is the suppression of fall cankerworm infestations on 514 acres of wooded residential area in Prince William County, Virginia. The eis discusses the aerial application of bacterial insecticide Bacillus thuringiensis. Adverse impacts discussed in the eis include the noise effects from project aircraft and the temporary displacement of wildlife. Comments made by: USDA, DOD, HEW, EPA, DOI, TVA, and State agencies. (ELR Order No. 50418.)

Soleduck Planning Unit, Olympic National Forest, Wash., March 27: Proposed is the implementation of a land use plan for the 133,299 acre Soleduck Planning Unit of the Olympic National Forest. Under the proposal two undeveloped roadless areas Elk Reade and Rugged Ridge, would be allocated to full multiple use management. The Mt. Baldy area would also be subject to full multiple use, but will remain roadless, with timber harvested by operations which do not require roads. The primary impacts will be those which result from the development of undeveloped areas. Comments made by: DOI, COE, HUD, DOT, USDA, EPA, and State and local agencies and organizations. (ELR Order No. 50432.)

Eagle Lake Recreation, Monongahela National Forest, Pocahontas County, W. Va., March 25: The statement refers to the proposed construction of a 47 acre lake on Hills Creek, in order to provide fishing, minor flood control, and day use recreation. Also proposed is a 50 unit campground, to be constructed 3 miles east of the lake. Impacts of the action will include the loss of 1.5 miles of native trout stream and 106 acres of wildlife habitat; and those resulting from increased visitor use (137 pages). Comments made by: AHP, COE, USDA, State agencies, and organizations. (ELR Order No. 50412.)

Draft

Texas, March 25: Elm Creek Watershed Project. (ELR Order No. 50414.)

DEPARTMENT OF COMMERCE

Contact: Dr. Sidney R. Galler, Deputy Assistant Secretary for Environmental Affairs, Department of Commerce, Washington, D.C. 20230, (202) 967–4335.

ECONOMIC DEVELOPMENT ADMINISTRATION

Final

Yamhill County Bridge, Yamhill County, Oreg., March 27: Proposed is the construction of a bridge and connecting approaches across the Willamette River at Mile 62.8. Approximately 84 acres of land will be committed to the project. Comments made by: USDA, USCG, COE, EPA, DOI, State, and local agencies. (ELR Order No. 50440.)

Draft

Estuarine Sanctuary Grant Award, Duplin River, McIntosh County, Ga., March 28: (ELR Order No. 50475.)

DEPARTMENT OF DEFENSE

Final

Alaska, March 24: Parachute Drop Zone and Assault Landing Strip, Fort Richardson. (ELR Order No. 50401.)

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN–PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314. (202) 693–6861.

Draft

Ponce Harbor, Puerto Rico (2), March 27: The statement is a revised draft concerning the construction of a main channel 36 feet deep from the Caribbean Sea up to the authorized Federal project at Ponce Harbor and modifying and deepening the channel and turning basin. Virtually all of the benthic organisms in the proposed channel will be destroyed. There will be a temporary increase in turbidity and siltation in the construction area and some temporary turbidity in the disposal area. (Jacksonville District.) (ELR Order No. 50426.)

Hoonah Small Boat Harbor, Supplement, Alaska, March 24: The statement is a supplement to a final EIS filed with CEQ 13 November 1970. The proposed project consists of constructing rubblemound breakwaters aggregating 2,790 feet, dredging an entrance channel 1,200 feet long, and constructing a diversion dike 2,125 feet long. The project will result in the alteration of 56 acres of natural marine habitat and 24 acres of natural intertidal habitat for disposal of dredge material and a partial or total elimination of a salmon run to Gartina Creek. (Anchorage District.) (ELR Order No. 50404.)

Moline, Illinois, Local Flood Protection, Rock Island County, Ill., March 25: The proposed plan would provide flood protection for 362 acres of the City of Moline from the Mississippi River through construction of levees and floodwalls. The project would require commitment of 14 acres of land, including a marsh between 16th and 20th Streets. (Rock Island District.) (ELR Order No. 50417.)

Chelsea Flood Protection, Iowa River, Tama County, Iowa, March 24: Proposed is the construction of 3.8 miles of earth levees, nine feet high, and 60 feet of 3-foot, precast I-wall at Chelsea, Iowa to protect 300 acres from Iowa River floods with 100-year frequency occurrences. Seventy-six acres of agricultural land and six acres of creek-bottom land will be committed to the project (Rock Island District) (33 pages). (ELR Order No. 50406.)

West Des Moines-Des Moines Flood Protection, Polk County, Iowa, March 25: Proposed is the refurbishing of existing levees and the construction of new levees along the north bank of Raccoon River, the west bank of Walnut Creek, and the north bank of Jordan Creek to protect West Des Moines and Des Moines, Iowa from 200-year floods. Levee construction will result in the loss of 20 acres of vegetation, not including the vegetation loss resulting from construction on the newly-protected low-lying land. The levees will also alter the aesthetic quality of trails and nature areas coinciding with levee alignment (Rock Island District). (ELR Order No. 50416.)

Union Township Drainage District, Lewis County, Mo., March 24: Proposed is the improvement of 7 miles of earthen levee, pumping station outlet modifications, railroad closure structures, and road ramp raises for purposes of flood control. Adverse impacts include the loss of productivity of the 25 acres of cropland needed for borrow, the loss and disruption of the benthic organisms, the clearing of one acre of bottomland woods, and construction disruption (Rock Island District) (25 pages). (ELR Order No. 50409.)

Deep Creek Flood Control Project, Edgecombe County, N.C., March 24: Proposed is a project for flood control consisting of the construction of a dike and drainage appurtenances on the north and south sides of Speed, N.C., relocation and channel excavation of 3,300 feet of Knight Swamp, snagging and clearing 8.3 miles of Deep Creek, and enlarging 2,800 feet of Deep Creek to approximately 80-ft bottom width. Adverse impacts include loss of two acres of swamp habitat, loss of stream habitat, loss of 0.9 mile of natural stream section, and the conversion of 31 acres of pine and hardwood to grass habitat. (Wilmington District). (ELR Order No. 50405.)

Chetco, Coquille and Roque River Estuaries and Por, Oreg., March 24: The statement concerns the maintenance dredging of Chetco, Coquile, and Rogue River Estuaries and Port Orford, Oregon. Adverse impacts include disruption and removal of river bottom habitat and organisms, resuspension of bottom sediments, smothering of aquatic and terrestrial habitat and organisms during disposal, the possible shoaling of Battle Rock Historical site, and augmented housing shortages (Portland District). (ELR Order No. 50402.)

Saw Mill Run, Pittsburgh (2), Allegheny County, Pa., March 25: Proposed is the widening and deepening and minor realignment of 5,600 feet of Saw Mill Run through the West End Section of the City of Pittsburgh for purposes of flood control. The project would result in temporary increases in traffic, noise dust, exhaust emissions, erosion, stream turbidity, and sedimentation. Eight families would be displaced by the project (Pittsburgh District). (ELR Order No. 50413.)

Chippewa River Eau Claire, Flood Control, Eau Claire County, Wis., March 25: Proposed is the construction of a series of floodwalls, levees, and road raises through flood prone areas along the Chippewa and Eau Claire Rivers, Wisconsin. The project would result in a reduction and alteration of streambank vegetation and aesthetics. About 200 trees and other streambank vegetation which have value as wildlife habitat would be removed (St. Paul District). (ELR Order No. 50415.)

Final

Newburgh Bank Revetment, Ohio River, Ind., March 24: The project proposes a riverbank revetment needed for bank stabilization on the Ohio River in the Newburgh area. The revetment procedure will include stabilizing the bank with stone protection. The project is 1.1 miles in length. Increases in water turbidity will occur with loss of aquatic life (69 pages). Comments made by: DOI, EPA, DOC, USDA, USCG, AHP, State, and local agencies and citizen groups. (ELR Order No. 50408.)

Hunting Island Beach, Beaufort County, S.C., March 26: The statement refers to the proposed renourishment of Hunting Island Beach. The project involves the renourishment of the 10,000-foot feeder beach to help stabilize the shore with material taken from the mouth of Fripp Inlet. Adverse impacts include a temporary reduction of recreational activity, mechanical disturbance and smothering of the benthic community along the beach and in the borrow area, and a temporary increase in water turbidity (Charleston District) (27 pages). Comments made by: USDA, EPA, HEW, DOI, DOT, AHP, one State agency, and one private organization. (ELR Order No. 50419.)

R.D. Bailey Lake, Guyandotte River, Wyoming and Mingo Counties, W. Va., March 26: The statement refers to the construction and operation of a multiple purpose lake on the Guyandotte River near the Mingo-Wyoming County line. Project purposes are flood control, water quality control, area redevelopment, general recreation and fish and wildlife recreation. Adverse impacts include the relocation of 33 businesses, 530 residential units, 11 churches, 3 schools, and 2 post offices, the inundation of about 7 miles of the Guyandotte River and 510 acres of land at seasonal pool, and construction problems with soil erosion, stream sedimentation, stream turbidity, dust, and noise (Huntington District). Comments made by: USDA, FPC, EPA, DOI, USCG, AHP, and State agencies. (ELR Order No. 50425.)

Pleasants Power Stations, Units No. 1 and 2, Pleasants County, W. Va., March 27: The statement refers to the construction, operation and maintenance of a new power generation facility on the Ohio River, Pleasants County, West Virginia. The new facilities will consist of a proposed coal-fired plant consisting of two steam operated electric generator units. Adverse impacts are increased noise pollution, use of land for plant operation, increased river traffic, discharge of station waste into the Ohio River, and use of chemical additives to waste used in station systems (Huntington Distict) (607 pages). Comments made by: EPA, DOI, USDA, DOC, FPC, USCG, DOT, AHP, State, and local agencies and concerned citizens. (ELR Order No. 50434.)

Port Washington Small Boat Harbor, Wis., March 24: The statement refers to the proposed construction of rubble mound breakwaters in order to form a 13.5 acre small boat harbor. Construction activities and the dredging of 80,000 cu. yds. of material will adversely affect aquatic life. The project will increase the recreational-navigation potential of the Harbor. Comments made by: EPA, DOI, HUD, and State agencies. (ELR Order No. 50397.)

NAVY

Contact: Mr. Peter M. McDavitt, Special Assistant to the Assistant Secretary of the Navy (Installations and Logistics), Washington, D.C. 20350. (202) 692–3227.

Final

Outlying Helicopter Fields, Whiting Field, Santa Rosa County, Fla., March 26: Proposed is the acquisition in fee of two tracts of land totaling 780.5 acres, and the construction of two helicopter outlying fields. Site 1 is 10 miles west of NAS Whiting Field; Site 2 is 8 miles east of the Field. The fields will be used for training operations. Adverse impact will include the removal of 207 acres from soybean production and 433 acres from timber production. Comments made by: DOD, EPA, DOI, and one State agency. (ELR Order No. 50422.)

Navy Family Housing, Charleston, S.C., March 26: Proposed is the construction of 526 units of Navy family housing at the Naval Weapons Station, Charleston, South Carolina. The project would include recreational and play areas, sidewalk, streets, storm drainage, landscaping and utilities. Eighty acres of wildlife habitat and timber land will be committed to the project. Comments made by: EPA, AHP, DOI, HEW, USDA, and one State agency. (ELR Order No. 50427.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630 Waterside Mall, Washington, D.C. 20460, (202) 755–0940.

Draft

New Shoreham Treatment Facilities, R.I., March 27: Proposed is a municipal collection system and an extended aeration system as the method of wastewater treatment for Rock Island. The preferred plan is to sewer the old harbor area and to develop subsurface disposal systems in New Harbor. Adverse impacts include temporary construction disruption, noises and odors from the plant, and the visual impact of the concrete outfall. (ELR Order No. 50439.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Acting Director, Office of Environmental Quality, Room 7206, 451 7th Street SW., Washington, D.C. 20410, (202) 755–6295.

Draft

Modular Integrated Utility Systems, March 25: The statement assesses the environmental impact from installation and operation of the Modular Integrated Utility Systems in a generic sense. The impacts were evaluated by use of a hypothetical housing development and were found to be less harmful to the environment than conventional utility systems. (ELR Order No. 50410.)

Santa Rosa Urban Renewal, Sonoma County, Calif., March 27: The Santa Rosa Center Urban Renewal Project entails the development of a major regional shopping center covering 12 blocks (30 acres) in the business center of downtown Santa Rosa. The project is being developed in three phases, with land use being for government, institutional, commercial, and retail purposes. In addition to temporary construction disruption, the project will have adverse impacts on air quality, noise levels, and circulation patterns, due to increases in traffic. The project is also subject to possible seismic hazards. (ELR Order No. 50437.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, (202) 343–3891.

Draft

Ute Mountain Ute Tribal Lands Mineral Lease, Montezuma County, Colo., March 27: The statement concerns the approval of a lease of Ute Mountain Ute Tribal Lands to Mobil Oil Corporation for the purpose of exploration and possible mining of uranium and related minerals. The plan consists of a four-year exploration phase, a four-year development phase and approximately twelve years of mining and processing. The biological community and aesthetics of the area will be noticeably and adversely impacted (73 pages). (ELR Order No. 50431.)

BONNEVILLE POWER ADMINISTRATION

Draft

Southwestern Power Administration, Construction and Maintenance, March 27: Proposed is the maintenance and construction of additions to Southwestern Power Administration's electric transmission system including transmission lines, substations, and related structures in Oklahoma, Arkansas, Missouri, and parts of Texas, Kansas and Louisiana. The land occupied by structures will be unavailable for other uses during the life of the facility, and homes and other buildings will be displaced. The project will also be detrimental to wildlife habitat (55 pages). (ELR Order No. 50427.)

BUREAU OF SPORTS FISHERIES AND WILDLIFE

Final

Proposed Santee National Wilderness Area, Clarendon County, S.C., March 26: The statement refers to the proposed legislative designation of 13 islands in Lake Marion, which encompass 163 acres which are presently part of the Santee National Wildlife Refuge, as wilderness within the National Wilderness Preservation System. Some future management options would thereby be removed (47 pages). Comments made by: DOI and one State agency. (ELR Order No. 50420.)

GEOLOGICAL SURVEY

Draft

Bell Ayr South Mine, Amax Coal Co., Campbell County, Wyo., March 25: Proposed is the approval of a strip mining and reclamation plan fo Belle Ayr South Mine, Amax Coal Company. The plan poposes expansion of the existing operation from 3.1 million to 15 million tons per year. The land surface, vegetation, and coal bed aquifers will be destroyed in the area mined, and there will be a permanent reduction in productivity on the 3,018 acres. (ELR Order No. 50411.)

NATIONAL PARK SERVICE

Draft

Pecos National Monument, Proposed Master Plan, San Miguel County, N. Mex., March 27: The statement concerns the proposed master plan and development concept plan for Pecos National Monument. The plan includes introduction of a major visitor facility structure, employee housing, archeological workshop housing, materials and equipment yard, water and sewerage systems and attendant roads and parking. Legislation is proposed to authorize addition of two adjoining parcels of land to be donated, totaling 23.5 acres and to increase the ceiling of development (63 pages). (ELR Order No. 50430.)

BUREAU OF LAND MANAGEMENT

Final

OCS Offshore Central Gulf, March 27: (ELR Order No. 50435.)

INTERNATIONAL BOUNDARY AND WATER COMM.

Contact: Mr. T. R. Martin, ARA/Mex., State Department, Room 3906 A, Washington, D.C. 20520, (202) 632–1317.

Draft

Rio Grande Canal Project Improvements, Texas and New Mexico, March 27: (ELR Order No. 50441.)

NUCLEAR REGULATORY COMMISSION

Contract: Mr. A. Giambusso, Director of Division of Reactor Licensing, P–722, NRC, Washington, D.C. 20545, (301) 973–7373.

Draft

Cherokee Nuclear Stations, Units 1, 2, and 3, Cherokee County, S.C., March 27: The proposed action is the issuance of a construction permit to the Duke Power Company for the construction of the Cherokee Nuclear Station Units 1, 2 and 3. The stations will employ three identical pressurized water reactors to produce up to approximately 3817 MWt each. A steam turbine generator will use this heat to provide 1260 MWe of electrical power capacity per unit. Water for cooling will be obtained from and discharged to the Broad River. A total of 2263 acres will be utilized for the site, displacing about 17 families. The cooling tower blowdown and chemical effluents from the station will increase the dissolved solids concentration in the Broad River. (ELR Order No. 50436.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, 400 7th Street SW., Washington, D.C. 20590, (202) 426–4357.

FEDERAL HIGHWAY ADMINISTRATION

Draft

Overpass of I–95, Blythe Island, Glynn County, Ga., March 27: The proposed project is located on Blythe Island, Glynn County, Georgia, and affects an area located between

V 40 166
APR 4 75
XUM

the Turtle River on the northeast to approximately 6,000 feet to the southwest along I-95. The overpass will be a grade separation structure with or without an interchange and access roads. Two or three residences may be displaced. (ELR Order No. 50428.)

Nebraska 370, Bellevue, Sarpy County, Nebr., March 24: Proposed is the improvement of two segments of approximately 1.25 miles of Nebraska 370 within the City of Bellevue from two to four lanes. The additional right-of-way for construction will require acquisition of two residences, two businesses, and the relocation of three mobile homes. Since a motel, one church, 73 homes and a number of businesses exceed the design noise levels, a full detailed study of all noise abatement measures will be made. (ELR Order No. 50407.)

Gaines County Airport, Tex., Gaines County, Tex., March 27: Proposed is the acquisition of 400 acres of land for the construction of an airport 2 miles south of the city limits of Seminole. The plan includes construction of two runways, connecting taxiways, and apron and lighting. Increased air pollution will result. (ELR Order No. 50438.)

STH 35 (Lang Drive), La Crosse, La Crosse County, Wis., March 26: Proposed is the reconstruction of 1.13 miles of STH 35 (Lang Drive) from La Crosse Street to St. Andrews Street, along the existing alignment. The roadway will be widened from two to four lanes and raised above 100-year flood levels in an effort to keep this traffic corridor open during future floods from both the La Crosse and Mississippi Rivers. The roadway embankment material will be obtained by constructing a lake in the La Crosse River floodplain. The project will displace nine acres of marsh (90 pages). (ELR Order No. 50424.)

Final

U.S. 95, Between Coeur d' Alene and Bellgrove, Kootenai County, Idaho, March 24: The project involves the improvement of a section of U.S. 95 between Coeur d' Alene and Bellgrove. The improvement would involve construction of approximately 12.5 miles of roadway. Adverse impacts include the loss of some forest land, wildlife habitat and wetlands, the displacement of families and businesses, and temporary construction inconveniences. The project will be constructed in three stages and will cost approximately seven million dollars (142 pages). Comments made by: USDA, COE, EPA, and State and local agencies. (ELR Order No. 50395.)

U.S. 641, Murray, Calloway County, Ky., March 24: The statement refers to the proposed construction of US 641 from Sycamore St. to Utterback Rd. The 4-lane facility will have a length of 2.1 miles. Adverse impacts are increased noise pollution, and the displacement of 10 families and 3 businesses. Comments made by: HEW, EPA, DOI, TVA, and one State and one local agency. (ELR Order No. 50399.)

US 277-82, Spur 447, Wichita Falls, Wichita County, Tex., March 27: The statement concerns the construction of an 8.95 mile 4-lane divided highway, providing a controlled access facility for U.S. 277-82 and Spur 447. The highway would connect Edison Street, a recently completed 4-lane arterial, on the east end and U.S. 277-82 on the west end. The project will displace 160 families, 27 businesses, and 2 non-profit organizations (126 pages). Comments made by: DOT, HEW, HUD, USDA, DOI, and State and local agencies. (ELR Order No. 50433.)

U.S. COAST GUARD

Final

Arcata Airport, McKinleyville, Humboldt County, Calif., March 26: The proposed action provides for the establishment of a new Search and Rescue (SAR) air station in McKinleyville, California. Included in the project are hangar, utility buildings, bachelor enlisted quarters, site paving and walkways, jet refueling system, communications antenae, and taxiway lighting. There will be some visual impact and the possibility of hydrological impact because of the facility. There will be secondary impacts involving the scarce housing supply and future sewage tie-in requests for the McKinleyville system. Comments made by: EPA, DOI, and State and local agencies. (ELR Order No. 50423.)

GARY L. WIDMAN,
General Counsel.

Science Advisory Board

[FRL 355-2]

ECOLOGY ADVISORY COMMITTEE

Notice of Meeting

Pursuant to Pub. L. 92-463, notice is hereby given that a meeting of the Ecology Advisory Committee of the Science Advisory Board will be held beginning at 9:00 a.m., April 22, 1975, in the Conference Building, Building 38, Gulf Breeze Environmental Research Laboratory, Sabine Island, Gulf Breeze, Florida.

This is the second meeting of the Committee. The agenda includes review of the Laboratory's research program, pesticides—effects associated with the estuarine and marine environments; progress reports on the Committee's study on the health of the environment; and member items of interest.

The meeting is open to the public. Any member of the public wishing to attend, participate, or obtain additional information, should contact Dr. J. Frances Allen, Executive Secretary, Ecology Advisory Committee, (703) 557-7720.

JOHN BUCKLEY,
Acting Assistant Administrator for Research and Development.

MARCH 28, 1975.

[FR Doc.75-8848 Filed 4-3-75;8:45 am]

[(FRL 354-8) OPP-32000/220]

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of Section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW., Washington D.C. 20460.

On or before June 3, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after June 3, 1975.

Dated: March 27, 1975.

JOHN B. RITCH, JR.,
Director, Registration Division.

TEXAS A & M UNIVERSITY

Experimental Use Permit To Use Sodium Cyanide To Investigate Effectiveness of SCSLEM for Predator Control

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), the Environmental Protection Agency (EPA) announces that it has issued an experimental use permit to the Department of Wildlife and Fisheries Sciences of the Texas A & M University. This permit (No. 35899–EXP–1G) was issued in conjunction with an EPA contract also awarded to the Applicant; this contract (No. 68–01–2835) will conduct certain tests using sodium cyanide in the sodium cyanide spring-loaded ejector mechanism (SCSLEM) to determine its effectiveness as a tool to curtail sheep losses due to predation. The permit is in accordance with 40 CFR 162.19 as promulgated in the FEDERAL REGISTER on January 31, 1974 (39 FR 3939).

This program began on FEBRUARY 24, 1975, and will expire on AUGUST 31, 1975. However, it may be revoked at any time for violation of the terms thereof, or to avoid deleterious effects on the environment.

Interested persons may submit written comments with reference to this notice to the FEDERAL REGISTER Section, Technical Services Division (WH–569), Office of Pesticide Programs, EPA, 401 M St. SW., Room E–421, Washington, D.C. 20460. Three copies of the comments must be submitted to facilitate the work of EPA and others interested in reviewing them. The comments must bear the identifying notation OPP–50011. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday. Persons wishing to review the contract and the permit issued in relation to it may do so from 8:30 a.m. to 4 p.m. Monday through Friday. However, it is requested that appointments be made in advance by contacting the Registration Division (WH–567), Office of Pesticide Programs, EPA, prior to visiting EPA Headquarters; the telephone number to be used in arranging appointments is 202/755–4851.

PROGRAM FOR EXPERIMENTAL USE OF SODIUM CYANIDE SPRING-LOADED EJECTOR MECHANISM (SCSLEM) FOR PREDATOR CONTROL

I. PURPOSE

Sodium cyanide will be used in the spring-loaded ejector mechanism (SCSLEM) in an experimental program which will be located on a 22,000 acre ranch in Pecos County, Texas. Data from this program and from the other EPA-approved experimental use programs will be evaluated by EPA in order to make a decision regarding the possible registration of sodium cyanide in the spring-loaded ejector mechanism.

II. OBJECTIVES

A. To determine the efficacy of the SCSLEM as a predator control tool in a sheep ranching operation;

B. To determine if a correlation exists between numbers of coyotes and losses of sheep to predation;

C. To determine the selectiveness of the SCSLEM for target animals; and

D. To determine the level of coyote control achieved by sheep producers in Pecos County using various control techniques and relate this to sheep losses.

III. BRIEF DESCRIPTION OF PROGRAM

A. The program will involve two flocks of sheep, each containing 100 pregnant ewes. One flock will be established in an experimental area treated with SCSLEM's. The other flock will be placed in an untreated area where no predator control techniques will be employed.

B. Daily counts will be made of both flocks and records kept indicating the cause of death (when discernable) of all sheep, their age, sex, and condition.

C. The total number of devices and capsules for the entire program will not exceed 200 devices and 1,000 capsules.

D. Devices will be placed in the experimental area and in the eight (8) square mile buffer zone immediately surrounding it. These will be inspected daily throughout the study period. The SCSLEM's will be placed along ravines, trails, and other coyote travel lanes. At the conclusion of the study, all devices will be collected and stored in a safe place.

E. Reports will be made on a monthly basis. There will also be a final report to be submitted to EPA for review and comment within a month of the completion of field operations. The final report is to be submitted to EPA by September 30, 1975.

Dated: March 28, 1975.

JAMES L. AGEE,
Assistant Administrator for Water and Hazardous Materials.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 747]

COMMON CARRIER SERVICES INFORMATION[1]

Domestic Public Radio Services Applications Accepted for Filing[2]

MARCH 31, 1975.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's Rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to §§ 21.27 of the Commission's Rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's Rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the Rules).

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

20216–CD–P–75, General Telephone Company of the Northwest, Inc. (KUC860), C.P. to add Loc. #2 to operate on 152.78 MHz to be located 5.5 miles NE. of East Wenatchee, Washington at the intersection of Badger Mountain and Clark Roads.

21297–CD–P–75, Radio fone of Georgia, Inc., C.P. for a new 1-way station to operate on 152.24 MHz located 600 North Lee Street, Valdosta, Georgia.

21298–CD–P–75, Meriden Telephone Company (New), C.P. for a new station to operate on 152.51 MHz to be located 1.7 miles Northeast of Meriden.

21299–CD–P–75, General Communications Company (KUC849), C.P. to replace transmitter operating on 35.22 MHz located on Route 50, 2 miles east of Clarksburg, West Virginia.

21300–CD–P–75, The Ohio Bell Telephone Company (KUO560), C.P. to change antenna system at Loc. #2 operating on 152.84 MHz located ¾ miles North of the intersection of Route 23 and Eckel Road, Perrysburg, Ohio.

21304–CD–P–75, Radio Telephone, Inc. (KRM948), C.P. to add Loc. #2 to operate on 158.70 MHz to be located 6 miles NW. of Serat Mountain, Hapeville, Georgia.

21305–CD–P–75, Northwest Mutual Aid Telephone Corporation (KAI928), C.P. to change antenna system and replace transmitter operating on 152.69 MHz located 2 miles North and 0.25 mile east of Epping, North Dakota.

21306–CD–P–75, Penasco Valley Telephone Cooperative, Inc. (KEK282), C.P. to change antenna system, replace transmitter operating on 152.54 MHz and add facilities to operate on 152.75 MHz to be located Aprox. 4 miles North of Artesia off Highway #285, Artesia, New Mexico.

21307–CD–P–75, South Central Bell Telephone Company (KIA960), C.P. to change antenna system and add facilities to operate on 454.375 MHz. at Loc. #2: 1500 Beacon Parkway, east, Birmingham, Alabama.

21308–CD–TC–75, Mountain Home Telephone Co., Inc., Consent to Transfer of Control from Calvin Ozeschin, et al, Transferor to Century Telephone Enterprises, Inc., Transferee. Station: KLB773, Mountain Home, Arkansas.

21309–CD–AL–75, M. O. Bobes d/b/a Mobile Telephone Service of Wheeling, West Virginia Consent to Assignment of License from M. O. Bobes d/b/a Mobile Telephone Service of Wheeling, West Virginia, Assignor to Mobile Telephone Service of Wheeling, West Virginia, Inc., Assignee. Station: KQK775 & KSV893, Wheeling, West Virginia.

21309–CD–AL–(5)–75, Empire Paging Corporation, consent to assignment of license from Empire Paging Corporation, assignor to Tri-State Radio Corporation, assignee, Stations, KUO631 and KEC744, Atlantic City, New Jersey, KEC746, Cape May, New Jersey, KUO615, Marshalltown, Delaware and KGA800, Wilmington, Delaware.

Major Amendment

20617–CD–P–75, Island Telepage Systems, Oak Harbor, Washington, (New), Amend to change base frequency 454.250 MHz. to read 454.300 MHz and to add second transmitting site at Lummi Island, Washington to operate on same frequency; change the antenna system at the proposed Blyn Mountain, Washington site. All other particulars are to remain the same as reported on PN #726, dated November 4, 1974.

Correction

21258–CD–P–(4)–75, New Dawn Communications, Inc. (KCB892), correct to read: 21258–CD–P–(6)–75, New Dawn Communications, Inc. (KCB892), C.P. for additional base facilities to operate on 152.18 and 152.21 MHz and repeater facilities to operate on 459.275 and 459.300 MHz located at 35 Hardy Road, Falmouth, Maine and Control facilities to operate on 454.275 and 454.300 MHz located at 32 Cook Street, Auburn, Maine.

21260–CD–P–(2)–75, Santa Cruz Telephone Answer and Radio Service, correct entry to include the addition of frequency 454.325 MHz at Loc. #1. All other particulars to remain as previously reported on PN #745, dated March 17, 1975.

21268–CD–AL–75 (KLF531), correct station location to read Groton, Connecticut. All other particulars to remain as previously reported on PN #745, dated March 17, 1975.

Island Telepage Systems (New), Delete Major amendment to 20618–CD–P–75 previously reported on PN #746 March 24, 1975, due to Applicant inadvertent reference to File number 20618–CD–P–75 in Major amendment.

Informatives

It appears that the following applications may be mutually exclusive and subject to the Commission's Rules regarding Ex Parte presentations by reason of potential electrical interference.

C & C Communications Co., Vancouver, Washington, 21541–C2–P–74; Maron O. Scott, Chehalis, Washington, 20262–CD–P–75; Gulf Central Communications & Electronics, Inc., Nr. Kaplan, Louisiana, 21543–C2–P–74; Jennings Mobilfone, Nr. Jennings, Louisiana, 20002–CD–P–75; Gulf Central Communications & Electronics, Inc., Lafayette, Louisiana, 20252–CD–P–75.

RURAL RADIO

60297–CR–P–75, The Mountain States Telephone and Telegraph Company (New), C.P. for a new rural subscriber station to operate on 158.01 MHz to be located 5.3 Miles SSW. of Scofield, Utah.

POINT-TO-POINT MICROWAVE RADIO SERVICE

3080–CF–P–75, MCI Telecommunications Corporation (WPY77), 9.3 Miles NW. of Greer, Arizona. Lat. 34°06'33" N., Long. 109°34'27" W. C.P. to add frequency 6380.7H towards Pinal Peak, Arizona on azimuth 231°55'.

3081–CF–P–75, Same (New), 8.0 Miles South of Miami, Arizona. Lat. 33°16'56" N., Long. 110°49'14" W. C.P. for a new station on 6167.6H MHz towards Greer, Arizona on azimuth 51°13'.

3052–CF–P–75, American Telephone and Telegraph Company (KGN87), 0.5 mile SW. of Faulkner, Maryland. Lat. 38°26'02" N., Long. 76°58'58" W. C.P. to add 3910V MHz towards Westwood, Maryland on azimuth 44°19'.

3053–CF–P–75, Same (KGN78), 1.4 miles SW. of Westwood, Maryland. Lat. 38°38'47" N., Long. 76°43'04" W. C.P. to add 3870V MHz towards Faulkner, Maryland; on azimuth 224°29'; add 3870H MHz towards Prince Frederick, Maryland on azimuth 141°35'.

3054–CF–P–75, Same (KGN95), 4.0 miles South of Prince Frederick, Maryland, Lat. 38°26'46" N., Long. 76°32'58" W. C.P. to add 3910H MHz towards Westwood, Maryland on azimuth 321°41'; 3910V MHz towards Trappe, Maryland on azimuth 97°04'.

3055–CF–P–75, Same (KGO60), 0.7 mile South of Trappe, Maryland. Lat 38°38'29" N., Long. 76°03'30" W. C.P. to add 3870V MHz towards Prince Frederick, Maryland on azimuth 247°22'; 3870H MHz towards Denton, Maryland on azimuth 38°28'.

3056–CF–P–75, Same (KGP39), 2 Miles NE. of Denton, Maryland. Lat. 38°54'19" N., Long. 75°47'23" W. C.P. to add 3910H MHz towards Trappe, Maryland on azimuth 218°38'; 3910V MHz towards Blackiston, Delaware on azimuth 14°37'.

FEDERAL MARITIME COMMISSION

[FMC-142(a)]

AMERICAN PRESIDENT LINES, LTD. AND OYAMA SHIPPING COMPANY, LTD.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763 (46 U.S.C. 814)).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before April 24, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

American President Lines, Ltd. and Oyama Shipping Co., Ltd.

Notice of agreement filed by:

Mr. D. J. Morris
Assistant Director of Pricing
American President Lines, Ltd.
601 California Street
San Francisco, California 94108

Agreement No. 10157 is a transshipment agreement between American President Lines, Ltd. and Oyama Shipping Co., Ltd. applying to the transportation of containerized cargo moving under through bills of lading from Philippine Islands ports of call of Oyama to ports of call of APL on the Pacific Coast of the United States with transshipment at Hong Kong or ports in Japan.

By order of the Federal Maritime Commission.

Dated: April 1, 1975.

FRANCIS C. HURNEY,
Secretary.

[Docket No. 75-8]

PUERTO RICAN FORWARDING CO., INC. ET AL.

Possible Violations of the Shipping Act, 1916, and the Intercoastal Shipping Act, 1933; Investigation and Hearing

Puerto Rican Forwarding Company, Inc. (PRF) had been operating as a tariffed Non-Vessel Operating Common Carrier (NVOCC) in the Puerto Rican trades since the early 1960's and as a licensed independent ocean freight forwarder since May 17, 1966. European Container Service (ECS), a division of PRF was also a tariffed NVOCC in the European Trades but was not a freight forwarder.

PRF surrendered its freight forwarder's license on June 16, 1972 and cancelled its NVOCC tariff on September 1, 1972. ECS also cancelled its NVOCC tariff on September 1, 1972. Contemporaneously, Seatrain Lines, Inc. (Seatrain), entered into an agreement with Transmodal Associates, Inc. (Transmodal), a newly created company owned by the owners of PRF and ECS, whereby Transmodal would be a sales agent of Seatrain for less than trailerload freight (LTL) in both the New York/Puerto Rico and New York/United Kingdom and Continent trades. Furthermore, Seatrain and PRF agreed that PRF was to be the agent for Seatrain to receive cargo, consolidate and strip containers, and perform certain LTL services exclusively for Seatrain. Seatrain maintained that these agreements were not subject to section 15 of the Shipping Act, 1916, because Transmodal and PRF were not persons subject to the Act as would be required to establish jurisdiction.

On or about October 1, 1974 the Puerto Rico Maritime Shipping Authority (PRMSA) initiated service in the Puerto Rico/East and Gulf Coast trades, and Sea-Land Service, Inc. (Sea-Land), Seatrain Lines, Inc., and Transamerican Trailer Transport, Inc. (TTT) withdrew.

From about October 9, 1974 until on or about December 9, 1974, PRF continued to perform the above described services in the Puerto Rican trade, ostensibly as agent for Seatrain. During this period of time PRF shipped containers and trailers via PRMSA's respective services at Port Elizabeth and Staten Island.

On the basis of bills of lading and other information it appears that PRF, as shipper and consignee, may have shipped containers and trailers at freight all kinds (FAK) rates, when in fact their shipments did not qualify for such rates under the terms of PRMSA's tariff because of failure to meet cargo mix requirements.

The Commission has determined that a proceeding should be instituted pursuant to sections 18(a) and 22 of the Shipping Act, 1916, and section 2 of the Intercoastal Shipping Act, 1933, to determine whether PRF was operating as an NVOCC in the Puerto Rican Trade without a tariff on file and/or whether any of PRF's shipments were in violation of rules or regulations related to FAK shipments as set forth in Item 15940 of PRMSA's Tariff, FMC-F No. 1, Second Revised Page 419, Note 1.

It also appears that PRMSA and PRF may be further violating the express terms of PRMSA's tariff pertaining to freight of all kinds. This rule requires, among other things, that the shipper must furnish the carrier a complete manifest of the contents of each trailer, showing the number of packages, description of goods and gross weight of each article. PRMSA was unable to produce these documents when so requested by Commission investigators.

Therefore, it is the determination of the Commission that the proceeding hereby instituted further investigate, pursuant to section 2 of the Intercoastal Shipping Act, 1933, and section 16, of the Shipping Act, 1916, whether PRF and PRMSA did violate provisions of PRMSAs tariff, and if so, whether by these violations PRMSA allowed PRF to obtain transportation at less than the regular rates or charges then established.

During December 1974, PRF filed an NVOCC tariff in the Puerto Rican trade to become effective January 20, 1975. Because of Seatrain's continued relationship with ECS, a corporate affiliate of PRF, the Commission is of the opinion that the proceeding should also determine, pursuant to section 15 of the Shipping Act, 1916, whether the agreement(s) between Seatrain on the one hand, and Transmodal, PRF, or ECS on the other is subject to that section, and if so, whether such agreement(s) should be approved, disapproved, or modified after public investigation and hearing.

It is therefore ordered, That pursuant to section 22 of the Shipping Act, 1916, a proceeding is hereby instituted to determine whether PRF, Transmodal, ECS, PRMSA, and/or Seatrain, have violated and/or are continuing to violate various provisions of the Shipping Act, 1916, and/or the Intercoastal Shipping Act, 1933, as set forth below.

It is further ordered, That pursuant to section 18(a) of the Shipping Act, 1916, a determination shall be made as to whether PRF was operating as an NVOCC without a tariff on file with this Commission.

It is further ordered, That pursuant to section 2 of the Intercoastal Shipping Act, 1933, a determination shall be made as to whether PRF, its principal, Seatrain, and/or PRMSA violated any of the rules or regulations set forth in or, related to Item 15940 of PRMSA's tariff FMC-F No. 1.

It is further ordered, That pursuant to section 16 of the Shipping Act, 1916, a determination shall be made as to whether PRF obtained or is obtaining transportation by water for property at less than the rates or charges which would otherwise be applicable at any time since October 1, 1974.

It is further ordered, That a determination shall be made as to whether any agreement or agreements between Seatrain on the one hand, and Transmodal, PRF, and/or ECS on the other, are subject to section 15 of the Shipping Act, 1916, and if so, whether they should be approved, disapproved or modified.

It is further ordered, That pursuant to section 16 Second of the Shipping Act, 1916, a determination shall be made as to whether PRMSA allowed any person to obtain transportation for property at less than the regular rates or charges which would otherwise be applicable.

It is further ordered, That Puerto Rico Forwarding Company, Inc., Transmodal Associates, Inc., including its division European Container Service, the Puerto Rico Maritime Shipping Authority and Seatrain Lines, Inc. are hereby made respondents to this proceeding.

It is further ordered, That this matter be assigned for public hearing and decision by an Administrative Law Judge of the Commission's Office of Administrative Law Judges, and that the hearing commence on or before October 1, 1975.

It is further ordered, That (1) a copy of this order be forthwith served upon

V 40 166 APR 4 75 XUM

the respondents named herein and upon the Commission's Bureau of Hearing Counsel, and published in the FEDERAL REGISTER; and (2) the respondents and Hearing Counsel be duly served with notice of time and place of the hearing.

It is further ordered, That any person other than respondents and Hearing Counsel having an interest and desiring to participate in this proceeding shall file a petition for leave in accordance with Rule 5(1) (46 CFR § 502.72) of the Commission's rules of practice and procedure.

By the Commission.

[SEAL] FRANCIS C. HURNEY, *Secretary.*

FEDERAL POWER COMMISSION

[Docket No. CP75-269]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Application

MARCH 27, 1975.

Take notice that on March 13, 1975, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP75-269 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to sell and deliver an additional 147,368 Mcf of natural gas per day to certain of its existing customers under Rate Schedules WS-1 and WS-2 and to construct related facilities, all as set out more fully in the application, which is on file with the Commission and open to public inspection.

Applicant states that the application further implements arrangements for the funding of exploration and development by Shell Oil Company (Shell) of gas reserves underlying offshore Louisiana. Applicant indicates it made an advance payment to Shell of $40 million in return for the right to purchase natural gas produced from these reserves. Applicant states that its customers, in turn, reimbursed Applicant for $36,362,667 of the $40 million, in consideration for the right to purchase during the winter season the customers' proportionate shares of deliverability from the Shell reserves, in accordance with agreements between Applicant and participating customers.

The application states that Applicant has subsequently made available winter service to those customers not originally participating in the Shell funding arrangement from that portion of deliverability from the Shell reserves attributable to the funds advanced by Applicant to Shell and not reimbursed by funding customers. Applicant states further that customers who participate in funding the Shell advances will receive service under Rate Schedule WS-1 while non-funding customers will receive service under Rate Schedule WS-2, bearing a rate consisting of the WS-1 rate plus a surcharge reflecting the financing costs associated with the unreimbursed Shell advances.

Applicant indicates that it is presently seeking authorization to offer 52,632 Mcf per day of winter service by an application filed March 29, 1974, in Docket No. CP74-260, as subsequently amended. Applicant states this service is being implemented during the 1974-75 winter under temporary authorization granted by Commission order on November 27, 1974.

The application states it is now anticipated that deliverability from the Shell reserves will attain 200,000 Mcf per day during the winter season of 1975-76. Accordingly, commencing with the 1975-76 winter season, Applicant seeks authorization to sell and deliver an additional 147,368 Mcf per day to winter service customers. Applicant indicates 100 days of winter service at 200,000 Mcf per day will be available to winter service customers, but service can be scheduled by the customers over a 120-day period starting December 1. Applicant projects that this service will commence December 1, 1975; however, the service would not be implemented until, in Applicant's judgment, deliveries from the Shell reserves can be maintained at the level of 200,000 Mcf per day or above. Such proposed sales and deliveries are requested to be in the daily quantities shown on the following table:

Share of 200,000 M ft³ per day winter service for 1975-76

Applicant states that winter service gas will be utilized primarily to serve residential and small commercial customers. The application indicates this is primarily winter space heating load to meet residential growth and to alleviate existing waiting lists for new service.

Applicant proposes to make these sales pursuant to the terms of its Rate Schedules WS-1 and WS-2; however, Applicant proposes to revise the rate provision of these rate schedules to provide for billing and payment under a monthly demand charge applied uniformly throughout the year, and discontinue the carrying charge component of the presently effective rates. Applicant states it will continue to apply its present rate-making procedure of offsetting the Winter Service revenues against the costs used in the development of basic DMQ-1 sales rates.

Applicant indicates that the sales rates for the proposed service are derived by classifying such cost of service to demand and commodity cost components utilizing an unmodified Seaboard[1] cost classification. Applicant states that in its development of the cost of service data, a 10.34 percent overall rate of return which produces a 15.25 percent return on equity and a 5 percent depreciation rate is used.

Applicant proposes to construct approximately 12.14 miles of 36 inch pipeline and 11.94 miles of 30-inch pipeline in Effingham, Grundy, Cook and Lake Counties, Illinois, partially looping its Gulf Coast pipeline. Applicant asserts the additional facilities are necessary to accommodate the increased quantities of pipeline flow gas from the Shell reserves and, in addition, maintain current flows of storage gas between Applicant's storage fields and the terminus of its system during the winter heating season. Applicant estimates that the additional mainline facilities will cost $9,953,000.

Applicant states that as of December 31, 1974, no exact plan for financing facilities proposed in this application had been finally determined and no firm financing commitments had been made. Applicant sets forth in the application a detailed description of cash funds from outside sources required in the current period to finance these facilities, other facilities certificated but which have not been permanently financed, requirements for normal construction and other corporate obligations and advances which total approximately $135,000,000. Applicant states that financing these requirements will be done on an interim basis with a combination of funds obtained under lines of credit entered into with several banks, with short-term borrowings from Peoples Gas Company (Applicant's parent) and through the issuance of commercial paper.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 16, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

[1] Atlantic Seaboard Corporation, et al. Docket No. G-1384, et al., 11 FPC 43.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by secs. 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

GENERAL SERVICES ADMINISTRATION

REGIONAL PUBLIC ADVISORY PANEL ON ARCHITECTURAL AND ENGINEERING SERVICES

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Regional Public Advisory Panel on Architectural and Engineering Services, Region 8, April 21, 1975, from 8:30 a.m. to 3 p.m., Room 2225, Building 41, Denver Federal Center, Denver, Colorado. The meeting will be devoted to the initial step of the procedures for screening and evaluating the qualifications of architect-engineers under consideration for selection to furnish professional services for the proposed year term fixed price contract for selected projects in the State of Colorado.

Frank and open discussion of the professional qualifications of the firms being considered is essential to insure selection of the best qualified firms. Accordingly, pursuant to a determination that it will be concerned with a matter listed in 5 U.S.C. 552(b)(5), the meeting will not be open to the public."

MICHAEL J. NORTON, *Regional Administrator.*

[FR Doc.75-8782 Filed 4-3-75;8:45 am]

[FPMR Temp. Reg. E-38]

AUTOMATIC DATA PROCESSING EQUIPMENT AND DATA COMMUNICATIONS SYSTEMS

Privacy and Budgetary Certifications Needed for Agency Procurement Requests

1. *Purpose.* This regulation continues the certification requirements previously stated in FPMR Temporary Regulation E-34. These certifications are in addition to the information required by FPMR 101-32.203, 101-32.404, and 101-35.203. This regulation also includes information and requirements related to the Privacy Act of 1974 (Pub. L. 93-579), pending the issuance of guidelines and regulations by the Office of Management and Budget (OMB) pursuant to the provisions of the Act.

2. *Effective date.* This regulation is effective April 4, 1975.

3. *Expiration date.* This regulation expires September 30, 1975, unless sooner revised or superseded.

4. *Applicability.* The provisions of this regulation apply to all Federal agencies.

5. *Background.* GSA issued FPMR Temporary Regulation E-34 on October 1, 1974, which required, for an interim period, agency certifications of privacy safeguards and budgetary approval. Subsequently, the Privacy Act of 1974 was passed by the Congress and signed by the President December 31, 1974. Sections 3 and 4 of this Act become effective September 27, 1975. The remaining sections were effective upon enactment.

6. *Procedures.* If a proposed Agency Procurement Request (APR), a request for a data communications system or service, or a request for ADP services involve a procurement action meeting either or both of the criteria in a and b, below, the certifications indicated in paragraph 7, below, must be provided to GSA with the APR, the data communications request, and/or the request for ADP services before GSA can act on the request. When neither of the criteria in a nor b is met, the APR and/or the data communications request should so indicate.

a. An ADP system, a teleprocessing system, a data communications system, or any augmentation thereto, which will be used for the storage, retrieval, processing, or transfer of "personal information" other than routine employment-related information on agency employees; e.g., payroll or accounting.

b. An ADP, teleprocessing, or data communications system which constitutes all or part of a contemplated procurement of any system in excess of $25 million in "system's life cost."

NOTE.—The term "personal information" means any system of records pertaining to identifiable individuals which are indexed or from which information can be retrieved by the name assigned to each individual or some identifying number or symbol. The term "system's life cost" in this instance means the total dollar value of the hardware, vendor-supplied software, and maintenance over the life of the system.

7. *Certifications.* Each APR, request for a data communications system or service, or request for ADP services meeting the criteria in paragraph 6, above, shall include a certification by the head of the agency or his authorized designee that:

a. The procurement has been included in the agency's budget program plan submitted to the Office of Management and Budget (OMB) and was not disallowed either by OMB or the Congress for the fiscal year in which the award is anticipated and/or was included in the budget to be submitted to the Congress. A statement should be included indicating whether the object of the procurement was explicitly or implicitly described in the documentation provided to OMB and/or the Congress with sufficient detail to the relevant portion of the document including, if applicable, a cross-reference to submissions made pursuant to OMB Circular A-11 and Federal Management Circular 74-2. If the budgetary amendment or budget request was outside the normal budget cycle, an indication of this fact and the date of its submission to OMB shall be provided. (Procurements of less than $50,000 do not require a budget certification.);

b. Adequate measures to safeguard "personal information" have been incorporated into the system's design;

c. The provisions of section 7 of the Privacy Act of 1974 will be complied within the design, development, operation, or maintenance of the system; and

d. All provisions of the Privacy Act of 1974 have been considered with respect to ADP systems and/or data communications systems or services being acquired which are to be operational on or after September 27, 1975.

8. *Documentation, retention, and review.* Each agency shall retain documentation supporting the information provided with the APR and/or data communications request. Agencies should be aware that in certain instances review of these files may be required.

9. *Privacy Act of 1974.* In addition to the criteria outlined in this regulation and the specific certifications required, agencies should ensure that the Act is considered with respect to any new ADP and/or data communications systems to be procured.

10. *Effect on other issuances.* This regulation cancels FPMR Temporary Regulation E-34 and Supplement 1 thereto. It also supplements requirements expressed in FPMR 101-32.203, 101-32.404, and 101-35.203.

11. *Agency comments.* Agency comments shall be submitted to the General Services Administration (CP), Washington, D.C. 20405, no later than April 30, 1975.

ARTHUR F. SAMPSON, *Administrator of General Services.*

MARCH 31, 1975.

[GSA Order Adm 1095.1]

ENVIRONMENTAL IMPACT STATEMENTS

Preparation Procedures

Notice is hereby given that the General Services Administration in accordance with the National Environmental Policy Act of 1969 (Pub. L. 91-190) has adopted uniform procedures for preparing environmental impact statements. This procedure was published as a proposed order in the FEDERAL REGISTER on April 16, 1974 (39 FR 13722). Interested persons were given 45 calendar days to submit written data, views, or objections.

V 40166 APR 475

No written objections were received and the proposed procedures were adopted with minor modifications.

Dated: March 26, 1975.

ARTHUR F. SAMPSON,
Administrator of General Services.

ENVIRONMENTAL CONSIDERATIONS IN DECISIONMAKING

1. *Purpose.* a. This order prescribes the uniform procedures to be followed in implementing the laws, Executive orders, and directives with respect to all major GSA actions which significantly affect the quality of the human environment. These laws, Executive orders, and directives include the National Environmental Policy Act of 1969 (42 U.S.C. 4321, et. seq.), hereinafter referred to as NEPA; Executive Order 11514 of March 5, 1970, entitled "Protection and Enhancement of Environmental Quality"; section 106 of the National Historic Preservation Act of 1966 (16 U.S.C. 470f); Executive Order 11593 of May 13, 1971, entitled "Protection and Enhancement of the Cultural Environment"; Executive Order 11752 of December 17, 1973, entitled "Prevention, Control, and Abatement of Environmental Pollution at Federal Facilities"; and the Guidelines issued by the Council on Environmental Quality (CEQ) for preparing environmental impact statements, hereinafter referred to as the Guidelines, published in the FEDERAL REGISTER August 1, 1973, 38 FR 20550, and amended in the FEDERAL REGISTER on August 7, 1973, 38 FR 21265.

b. This order provides a basis for the publication, when required, of service and staff office orders and instructions explicitly directed toward the particular activities and personnel of each organization. Publication by the Public Buildings Service of its orders and instructions will complete GSA's primary implementation of § 1500.3 of the Guidelines.

2. *Background.* Section 102 of NEPA directed all Federal agencies (a) to utilize a systematic, interdisciplinary approach which will ensure the integrated use of the natural and social sciences and the environmental design arts in planning and in decisionmaking which may have an impact on man's environment; (b) to develop methods and procedures which will ensure that environmental concerns, effects, and values are given appropriate consideration with economic and technical issues in decisionmaking; and (c) to prepare detailed statements on recommendations or reports for legislative proposals and other major Federal actions that may significantly affect the quality of the human environment. Executive Order 11514 effectuates the purpose of NEPA, and the revised Guidelines for implementing NEPA have been issued by CEQ.

3. *Role of the environmental impact statement process.* The environmental impact statement process is a means of coordinating active consideration of environmental concerns throughout the GSA planning, action development, and review processes. Environmental enhancement, protection, and restoration shall be regarded as primary responsibilities. Through serious consideration of alternatives, adverse environmental effects must be avoided or minimized. The process shall be used to reassess ongoing actions as NEPA applies to those actions approved prior to January 1, 1970, and to assess future actions to avoid or minimize adverse effects.

4. *Responsibilities.*—a. *External to GSA.* (1) *Council on Environmental Quality.* Under section 202 of NEPA, CEQ is responsible for reviewing and appraising the environmental programs and activities of the Federal Government. CEQ will determine the extent to which these programs and activities are contributing to the achievement of NEPA's policy and make recommendations to the President with respect thereto.

(2) *Environmental Protection Agency (EPA).* Pursuant to section 309 of the Clean Air Act, as amended, EPA is responsible for the review of agency activities and proposed legislation and regulations if these would result in environmental impact on any activities under the authority of the EPA Administrator.

(3) *Advisory Council on Historic Preservation.* The Council is charged in section 202 of the National Historic Preservation Act of 1966 with advising the President and the Congress in the field of historic preservation and with commenting on Federal, federally assisted, and federally licensed undertakings which affect properties listed in the National Register of Historic Places.

b. *Internal GSA.* (1) *Deputy Administrator for Special Projects.* The Deputy Administrator for Special Projects acts for the Administrator on environmental matters. However, the distribution of environmental materials may be made by the Commissioner of the Public Buildings Service.

(2) *Director of Environmental Affairs.* The Director is responsible for the initiation and direction of GSA's nationwide environmental programs. He has review responsibility on all phases of the environmental impact statement process and represents GSA on environmental policy matters in dealings with entities outside the agency.

(3) *General Counsel.* The General Counsel has responsibility for interpreting statutes, Executive orders, guidelines, and regulations, and for reviewing impact statements to ensure compliance with the above authorities.

(4) *Other.* Responsibilities within the services and staff offices are to be delineated in their corresponding orders where required.

5. *Preparation of the environmental assessment.* Any major GSA action which may significantly affect environmental quality shall be carefully evaluated, and an environmental assessment of the action shall be prepared. From this assessment a determination can be made to develop an environmental impact statement or a negative declaration. Those GSA actions and activities which are covered by NEPA include, but are not limited to:

a. Major actions which would result from recommendations or favorable reports on legislation, including requests for appropriations, originating both within and outside the agency when GSA has primary responsibility for implementing the legislation;

b. Major actions which would result from establishment or modification of rules, regulations, procedures, and policies;

c. New and continuing actions by GSA, including grants, loans, and other funding assistance, new construction, real property actions, leases, permits, easements, and licenses; and

d. Major actions which would result from new technology, research, and development, based on the size of GSA's investment, likelihood of widespread application, potential environmental impacts, and degree that continued investment will foreclose alternatives.

6. *Decision to prepare an environmental impact statement.* Subsequent to an environmental assessment, if there is doubt whether a statement should be prepared, or if the proposed action is likely to be environmentally controversial, a statement shall be prepared. It must be recognized that many Federal decisions seem of limited environmental consequence when viewed individually but are of significant consequence when viewed collectively. When GSA is responsible for all such decisions, a GSA statement will be filed covering the entire complex of decisions and actions.

7. *Specific criteria.* As required by § 1500.6(c) of the Guidelines, the services and staff offices must review the typical classes of actions that they undertake and develop specific criteria and methods for identifying those actions likely to require environmental statements and those actions likely not to require environmental statements. The specific criteria, if applicable to existing actions and activities, shall be transmitted by the Heads of Services and Staff Offices to the Director of Environmental Affairs (PWA) upon request or as new agency activities arise which could qualify under the Guidelines.

ATTACHMENT

CHAPTER 1. DEFINITIONS

1. *Environment.* The whole complex of physical, social, cultural, and aesthetic factors which affect individuals and communities and ultimately determine their form, character, relationship, and survival.

2. *Resources.* All actions and ideas, as well as living and nonliving materials devoted to the action.

3. *Public entities.* Any Federal, State, or local offices and legislatures, and any public or semipublic agencies.

4. *Relevant A–95 clearinghouse.* Clearinghouse(s) listed in OMB Circular No. A–95 (Revised) clearinghouse directory for the geographical area in which the GSA action is to take place. (OMB through its Circular No. A–95 (Revised) established this system of clearinghouses to facilitate intergovernmental and intragovernmental communication.)

5. *Corresponding service and staff office orders and instructions.* Service and staff office orders and instructions which provide

guidelines, delineate procedures, and assign responsibilities relevant to the personnel and activities of the appropriate organization.

6. *Environmental assessment.* An evaluation occurring early in the approval process of the potential environmental impact of a project or activity. (The assessment begins when the planning on the project or activity is first initiated and ends with a decision to prepare either a full environmental impact statement or a negative declaration.)

7. *Environmental impact statement.* A detailed statement which, pursuant to section 102(2)(C) of NEPA, identifies and analyzes, among other things, the anticipated environmental impact of a proposed GSA action and discusses how the adverse effects will be mitigated.

8. *Negative declaration.* An official administrative decision stating that an analysis of the environmental assessment has been made and that the proposed action is not considered a major GSA action having a significant impact on the environment, and, therefore, will not require the preparation of an environmental impact statement. (The declaration must also include a summary of any known environmental impacts.)

9. *Significant environmental effects.* Socioeconomic and physical effects which may be beneficial and/or detrimental to the environment, even if the net effect is believed to be beneficial. (These effects may be influenced by the geographical location of the subject project or action. Significant detrimental effects include those that degrade the environment, curtail its range of uses, or sacrifice its long term productivity to serve only man's short term needs.)

10. *Comments.* All formal reactions by public and private entities to the proposed action and to the environmental impact statement.

11. *Areas of jurisdiction by law or special expertise.* Specific Federal agencies identified by appendix II of the Guidelines as competent to comment on environmental impact statements which have bearing on particular environmental concerns. (GSA's areas of jurisdiction by law or special expertise include energy and natural resources conservation (design and operation of buildings); property management; redevelopment and construction in built-up areas; historic, architectural, and archeological preservation; and any other areas designated by the Council on Environmental Quality.)

12. *Lead agency.* The Federal agency which has primary authority for committing the Federal Government to a course of action with significant environmental impact.

CHAPTER 2. ENVIRONMENTAL IMPACT STATEMENT PROCESS, CONTENT, AND FORMAT

1. *Environmental assessment.* The preparation of an environmental assessment shall begin within the service or staff office in the early stages of planning an action. (See figure 2–1.)[1] As the action develops, the assessment shall be prepared by all involved, using interdisciplinary expertise to ensure complete assessment and full consideration of the range of environmental factors in the development of the action to make certain that:

a. Commitments are not made to courses of action that will unnecessarily complicate reconciliation with environmental factors;

b. Environmentally desirable alternatives are not inadvertently foreclosed; and

c. Negative environmental impacts are minimized.

2. *Lead agency.* a. If there is a question concerning the primary responsibility for statement preparation, the matter shall be referred to the Director of Environmental Affairs (PWA) for resolution by CEQ. However, it is possible for a statement to be submitted jointly by all agencies concerned, with the comments being returned to a single designated official.

b. If GSA is the "lead agency" and one or more other agencies have partial responsibility for the action, the other agencies shall be requested to provide to the responsible GSA official such information as may be necessary to prepare a suitable and complete environmental impact statement. If another agency is designated to be the "lead agency," the criteria for statement preparation for that agency shall apply. Thus, GSA should consider its planned action in relation to those of other agencies in the area, as well as those actions jointly undertaken by GSA and other Federal agencies.

3. *Clearinghouse consultation.* The relevant A–95 clearinghouse (as defined in chap. 1–4) shall be notified of plans for the project or action at the earliest practicable point. Thus, any comments germane to the decision to prepare an environmental impact statement or to the early planning of the action may be promptly received and incorporated.

4. *Decision to prepare an environmental impact statement or negative declaration.* a. As soon as it is determined that an environmental impact statement will be necessary, the service or staff office developing the action shall begin preparation of the statement.

b. If, however, after completion of a full environmental assessment it is concluded that the action will have no significant adverse environmental impact, the service or staff office shall:

(1) Prepare a negative declaration which will have the environmental assessment as an attachment, obtain concurrence on the negative declaration from the Director of Environmental Affairs (PWA) and the Office of General Counsel (L), and forward the negative declaration to the Commissioner, PBS (P).

(2) Continue development of the action, and in the spirit of environmental enhancement, monitor the action for any subsequent development which may necessitate the preparation of an environmental impact statement.

(3) Maintain a copy of its negative declaration in a file available for public inspection. The original declaration shall be maintained in the Environmental Affairs office.

c. The Deputy Administrator for Special Projects shall reconcile any differences concerning the decision to prepare an environmental impact statement that may arise between the Director of Environmental Affairs and the services or staff offices.

5. *Environmental impact statement format.* a. Draft and final environmental impact statements shall be prepared in clear black type.

b. A cover page containing all essential information to facilitate subsequent identification and retrieval shall be prepared for each statement. Figure 2–5[2] is a suggested format.

c. The format of the summary sheet accompanying each statement is specified in appendix I of the Guidelines.

6. *Draft environmental impact statement preparation and content.* a. The draft shall describe in detail the environmental implications of a proposed GSA action and satisfy the substantive requirements of the final statement to the fullest extent possible. The minimum content requirements for an environmental impact statement are set out in section 1500.8 of the Guidelines. They require discussion of the following points:

(1) The action itself;

(2) The purpose of the action;

(3) The environmental setting;

(4) The relation, when appropriate, to other Federal actions in this area;

(5) The cumulative effects of the action;

(6) The probable impact of the action, including the national and international impact, when appropriate;

(7) The alternatives, including those outside of the agency's authority and the alternative of taking no action;

(8) Adverse effects, including a discussion of how they will be mitigated;

(9) Short and long term use of the environment; and

(10) The irreversible and irretrievable commitments.

b. Preparation of the draft environmental impact statement shall include input from all relevant disciplinary areas. Specialists to be consulted may include urban planners, land use planners, space planners, landscape architects, transportation experts, interior designers, design architects, engineers, sociologists, economists, psychologists, demographers, or any other experts, public or private, deemed necessary for full consideration of all relevant environmental factors. The solicitation of expert assistance from any public or private entity during the preparation of a GSA environmental impact statement does not detract from GSA responsibility for scope and content of the statement and the judgment relevant to GSA actions on the project.

c. Each statement shall show that the particular economic and technical benefits of the proposed action have been assessed against the environmental effects.

d. When the Head of Service or Staff Office or the Regional Administrator deems it appropriate, public meetings shall be held during the course of development of the action, either before the draft statement is prepared or at least 15 days following issuance of the draft statement. The agency's decision to hold a public meeting shall be based on the magnitude of the action, the complexity of the issue, and the extent of previous public involvement and interest. The Head of Service or Staff Office or Regional Administrator shall determine the best method of notifying the public that a public meeting is to be held.

e. When the service or staff office or regional office has completed the preliminary draft statement, it shall be transmitted to the Office of General Counsel (L) and to the Director of Environmental Affairs (PWA) for review and comment. The statement shall be revised as indicated in their comments and resubmitted to the same offices for concurrence. The Head of the appropriate Service or Staff Office or Regional Administrator shall then forward the statement to the Deputy Administrator for Special Projects (P) for distribution as indicated in par. 7.

f. The Head of Service or Staff Office or Regional Administrator shall determine the extent of newspaper coverage and select the newspaper(s) which would most adequately inform the reading public in the area of the action that a GSA draft environmental impact statement has been prepared. Notice should be published at least once and should include how and where copies of the Statement may be obtained. The paper(s) may be a weekly and very local in nature. If the action is not local in character, the Head of Service or Staff Office or Regional Administrator shall determine the best method of publicizing the availability for review of the environmental impact statement. The Director of Information in the Central Office and the Regional Administrators in the regions must clear notices regarding any GSA activity under their jurisdiction as provided in the GSA Administrative Manual, 6–2 (OAD P 5410.1).

[1] Filed as part of the original document.

[2] Filed as part of the original document.

V 40 166 APR 4 75 XUM

7. *Distribution of draft environmental impact statements.* The service or staff office or regional office responsible for the preparation of an environmental impact statement shall be responsible for compiling a list for its distribution. (See appendix II of the Guidelines.)

a. Included in this list shall be:

(1) The Council on Environmental Quality (5 copies);

(2) The relevant A–95 clearinghouse, appropriate elected officials, all State and local agencies that would be interested in the action;

(3) Federal agencies directly related to the specific action;

(4) EPA (7 copies);

(5) All other Federal agencies competent to comment owing to legal jurisdiction or special expertise (for reference, see appendix II of Guidelines);

(6) Any group or individual that requests a copy of the environmental statement; and

(7) Any entity, group, or individual that the Director of Environmental Affairs decides should be included.

b. The Deputy Administrator for Special Projects shall transmit copies of the statement to CEQ, the Governor and Senators from the affected State, the Congressman from the affected district, and any other appropriate officials. The service or staff office planning the action shall distribute copies to the remaining groups and individuals.

8. *Commenting period.* The service or staff office or regional office preparing the statement shall, in consultation with the Director of Environmental Affairs, establish a time limit of not less than 45 calendar days for comments on each draft. In establishing this time limit, the service or staff office or regional office should keep in mind the magnitude and complexity of the statement and the extent of citizen interest in the proposed action. For the purpose of establishing the minimum review period, the impact statement received by CEQ during a given week (Monday through Friday) will be recorded as filed with CEQ on the Friday of the following week. Upon request, GSA may extend the commenting period for up to 15 calendar days, whenever practicable. It may be assumed that entities that have not responded by the close of the commenting period do not wish to comment.

9. *Consideration of comments.* The service or staff office or regional office shall carefully reconsider its action in relation to the relevant and substantive comments received on the draft environmental impact statement, and shall make every attempt to reconcile its action with respect to any divergent recommendations by:

a. Altering its current plan of action;

b. Working with the commenting entities to develop mutually acceptable plans or workable compromises; and

c. Working with any additional entities or private groups to initiate additional projects or programs designed to mitigate environmental impacts.

If in the opinion of the Deputy Administrator for Special Projects (P) a substantial environmental consideration was not adequately dealt with in the draft statement, the draft shall be considered incomplete, and consideration shall be given to issuing a supplementary statement as provided in par. 13 or to issuing a new draft statement.

10. *Final environmental impact statement preparation and content.* a. The final statement shall consist of all the information in the draft statement and information on any developments that arise subsequent to the filing of the draft. All substantive comments made on the draft statement shall be attached to the final statement, insofar as feasible, and the substantive comments must be addressed in the text through revisions and additions or by direct reference. Additionally, wherever a conflict exists, efforts to reconcile differences shall be described, including the activities listed in par. 9.

b. When completed, the preliminary final statement shall be transmitted to the Office of General Counsel (L) and to the Director of Environmental Affairs (PWA) for review and comment. The statement shall be revised in accordance with their comments and resubmitted to them for concurrence. The Head of the appropriate Service or Staff Office or Regional Administrator who prepared the statement shall then forward the statement to the Deputy Administrator for Special Projects (P) for distribution as indicated in par. 11.

11. *Distribution of the final environmental impact statement.* a. Copies of the final statement shall be sent simultaneously and free of charge to:

(1) All entities that offered substantive comments on the draft;

(2) The Environmental Protection Agency;

(3) The relevant A–95 clearinghouse;

(4) The principal whose project is the subject of the statement; and

(5) The Council on Environmental Quality (5 copies).

b. The Deputy Administrator for Special Projects shall transmit copies of the statement to CEQ and other appropriate officials. The service or staff office which is planning the action shall make the remainder of the distribution.

c. All members of the public who request a copy shall receive one if feasible. When it is not feasible to comply with requests for copies, the Director of Environmental Affairs shall consult with CEQ in devising alternative arrangements. Under no circumstances shall a charge be affixed greater than the cost of reproduction.

12. *Moratorium period.* The services and staff offices and regional offices shall take no administrative action in prosecution of any phase of the subject action within 90 calendar days of the commencement of the review period on the draft (see par. 8) or within 30 calendar days of CEQ's receipt of the final statement. The above 90- and 30-day periods may run concurrently to the extent that they overlap. The Deputy Administrator for Special projects shall receive all requests for reducing the minimum time requirements. If after weighing all considerations he deems the request justied, he shall instruct the Director of Environmental Affairs to consult with the Council on Environmental Quality in arriving at alternative arrangements. Each organization shall be responsible for defining in its orders what action will not constitute "an administrative action in prosecution of the action" for each of its typical classes of action for which environmental impact statements are often prepared.

13. *Supplementary statements.* The service or staff office or regional office shall supplement or amend draft and final statements when substantial changes are made in the proposed action (unless these changes are made to decrease the environmental impact), when changes are made which significantly increase the adverse environmental impact, or when significant new information becomes available concerning the environmental impact of the action. The service or staff office or regional office shall distribute these supplements or amendments pursuant to par. 11, and the Director of Environmental Affairs (PWA) shall consult with CEQ regarding the necessity of reestablishing appropriate commenting or review periods.

14. *Recommendations or favorable reports on proposals for legislation.* a. If GSA makes a recommendation or favorable report on a legislative proposal the subject of which is the primary responsibility of GSA, then GSA must determine the environmental impact of that proposal. If in the opinion of the Head of a Service or Staff Office, the Director of Environmental Affairs (PWA), or the Deputy Administrator for Special Projects (P), the proposal may have significant environmental impact, an environmental impact statement shall be prepared on the proposal consistent with the provisions of § 1500.12(b) of the Guidelines.

b. Where possible, the final statement shall be available to the Congress, CEQ, EPA, and the public at the time the legislation is submitted to the Congress. If time is a constraint, the draft statement may be used.

15. *Early notice system.* a. Each service and staff office and regional office shall keep available for public inspection a current list of its contemplated actions for which environmental impact statements are being prepared. A copy of the current list shall be transmitted to the Director of Environmental Affairs (PWA) on the last workday prior to March 9, June 9, September 9, and December 9 of each year.

b. Each service and staff office and regional office shall also maintain for public inspection a current list of its actions for which negative declarations have been made and shall transmit them pursuant to a, above.

c. The Director of Environmental Affairs shall compile the aforementioned lists and transmit composite agency lists for the previous quarter to the CEQ by March 15, June 15, September 15, and December 15 of each year.

d. The Director of Environmental Affairs shall promptly notify CEQ if an action is listed as one for which an environmental impact statement is being prepared and at a later date a decision is made that only a negative declaration is needed.

16. *Commenting on environmental impact statements prepared by other agencies.* Upon receipt in GSA of a draft statement prepared by another agency, the Director of Environmental Affairs shall forward the statement to those GSA offices competent to comment on it. Those offices shall then provide input for the Director of Environmental Affairs' official reply. Comments shall be specific, substantive, and factual, following the format of the draft statement. Within GSA's areas of jurisdiction by law or special expertise, GSA shall assess the degree of environmental impact and the acceptability of that impact. GSA may recommend modifications or alternatives to a project. (See section 1500.9e of the Guidelines.)

17. *Supplementary guidelines.* The CEQ Guidelines, upon which this order is based, may be supplemented as required by CEQ. The Guidelines became effective on January 28, 1974, and are effective for all draft and final impact statements filed with the Council after that date.

INTERNATIONAL TRADE COMMISSION

[337–37]

GOLF GLOVES

Denial of Request for Rehearing, and of Transmission of Final Findings and Report to the President

On April 1, 1975, the United States International Trade Commission denied the request for rehearing in investigation No. 337–37 filed with it on March 26, 1975, by complainants Anthony J. Antonious and the Ajac Glove Corp. The request stated no good cause for rehearing.

The Commission hereby gives notice of the transmission to the President of its final findings and report with respect to investigation No. 337–37.

By order of the Commission.

Issued: April 1, 1975.

KENNETH R. MASON,
Secretary.

[FR Doc.75–8812 Filed 4–3–75;8:45 am]

WATCHES AND WATCH MOVEMENTS FROM INSULAR POSSESSIONS

Determination of Apparent United States Consumption and of Quotas for Duty-Free Entry

In accordance with headnote 6(c) of schedule 7, part 2, subpart E, of the Tariff Schedules of the United States (TSUS), the International Trade Commission has determined that the apparent United States consumption of watch movements for the calendar year 1974 was 51,019 thousand units, and that the number of watches and watch movements, the product of the Virgin Islands, Guam, and American Samoa, which may be entered free of duty during the calendar year 1975 under headnote 6(b) of said subpart E of the TSUS is as follows:

	Thousand units
Virgin Islands	4,960
Guam	472
American Samoa	237

By order of the Commission.

KENNETH R. MASON,
Secretary.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (75–25)]

SPACE PROCESSING AD HOC ADVISORY SUBCOMMITTEE

Meeting

The NASA Space Processing Ad Hoc Advisory Subcommittee of the Applications Steering Committee will meet at NASA Headquarters, 600 Independence Avenue SW, Washington, DC, on April 21–23, 1975. The meetings will be held in Room 226B of FOB 10B from 8:30 a.m. to 4:30 p.m. on each day.

The subcommittee will discuss, evaluate, and categorize the proposals submitted to NASA in response to the Space Processing Rocket Experiment Project Announcement of Opportunity (OA–74–1).

The professional qualifications of the proposers, will be candidly discussed and appraised throughout the subcommittee meetings. Discussion of these matters in a public session would invade the privacy of the proposers as well as inhibit a free exchange of ideas between subcommittee members.

Since the subcommittee sessions will be concerned throughout with matters listed in 5 U.S.C. 552(b)(6), as described above, it is hereby determined that the sessions should be closed to the public.

For further information, please contact Dr. James H. Bredt at Area Code 202, 755–3848.

DUWARD L. CROW,
Assistant Administrator for DOD and Interagency Affairs.

MARCH 27, 1975.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–255]

CONSUMERS POWER CO.

Issuance of Amendment To Provisional Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 13 to Provisional Operating License No. DPR–20 issued to Consumers Power Company which revised Technical Specifications for operation of the Palisades Plant, located in Covert Township, Van Buren County, Michigan. The amendment is effective as of its date of issuance.

This amendment requires the next steam generator tube inspection to be conducted at the end of not more than 90 effective full power days or more than nine calendar months from the date of initial criticality after February 1975, whichever occurs first. The amendment also imposes limits on reactor power level and reactor coolant minimum flow for various reactor coolant pump combinations, with an overall power limitation of 2100 MWt. In addition, the amendment revises section 4.14 of the technical specifications by deleting paragraphs 4.14.1 and 4.14.4, two one-time requirements which have been satisfied. The remaining paragraphs of specification 4.14 are renumbered.

The amendment relates to two prior FEDERAL REGISTER notices. On February 3, 1975, 40 FR 4968, the Commission published in the FEDERAL REGISTER a notice of consideration of a license amendment proposed by the license which would have eliminated the requirement, in the license at that time, for a steam generator tube inspection within six months from the date of initial criticality after the August 1974 shutdown. The proposed amendment would have preserved, however, the alternative requirement, also in the license at that time, for such an inspection at the end of no more than 90 effective full power days following the August 1974 shutdown. No request for hearing or petition for leave to intervene was filed in response to the February 3, 1975 notice.

On February 6, 1975, the Commission issued an Order for Modification of License which was published in the FEDERAL REGISTER on February 10, 1975, 40 FR 6241. This Order required Consumers Power Company to follow certain specified tube inspection and plugging procedures prior to further reactor operation, and to submit the results thereof together with a proposal for the conduct of future operations, including a recommended schedule for the next steam generator tube inspection. No request for a hearing or petition for leave to intervene was filed in response to the February 6, 1975 Order.

As discussed in the Commission's Safety Evaluation related to this action, the licensee has complied with the provisions of the February 6 Order. Extensive steam generator tube inspections have been conducted and approximately 280 additional tubes have been plugged. The additional tube plugging is expected to result in a reduction of reactor coolant flow of approximately 1%. The new limits on reactor power level and reactor coolant minimum flow have been specified in order to take into account the anticipated reduction of coolant flow.

The amendment will allow a maximum interval of nine months prior to the next steam generator tube inspection. This is about the same interval effectively allowed between the last two inspections, which occurred in May–June 1974 and February–March 1975, respectively.

The Commission has found that the amendment involves no significant hazards consideration not described or implicit in the FEDERAL REGISTER notice of February 3, 1975, the Order published in the FEDERAL REGISTER on February 10, 1975, or both.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated March 10, 1975, (2) Amendment No. 13 to License No. DPR–20, with Change No. 17, (3) the Commission's related Safety Evaluation, and (4) the February 3 and February 10, 1975 FEDERAL REGISTER notices and documents referenced therein. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Kalamazoo Public Library, 315 South Rose Street, Kalamazoo, Michigan.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 28th day of March 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch No. 1, Division of Reactor Licensing.

V 40 66 APR 4 75 XUM

[Dockets Nos. 50-458 and 50-459]

GULF STATES UTILITIES COMPANY (RIVER BEND STATION, UNITS 1 & 2)

Additional Hearing Session

Please take notice that an additional session of the public evidentiary hearing in this construction permit proceeding will be held before the Atomic Safety and Licensing Board at 9:30 a.m. e.d.t., on April 17, 1975 at the following location:

Room 1202, 12th Floor
Landow Building
7910 Woodmont Avenue
Bethesda, Maryland 20014

This session will be a continuation of the four days of hearings conducted in Baton Rouge and St. Francisville, Louisiana, March 24-27, 1975, and will concern only a limited number of subject matters remaining to be covered in areas that first arose during the Louisiana sessions.

As set forth in this Board's February 28 Notice of Hearing, the issues being considered are those environmental and site suitability issues prescribed in the Commission's regulations concerning construction permits and pre-construction permit activities (10 CFR § 50.10 (e)(1), (e)(2)(ii)). The radiological health and safety issues will be considered at a separate public hearing session to be scheduled later.

It is so ordered.

For the Atomic Safety and Licensing Board.

THOMAS W. REILLY,
Chairman.

Issued at Bethesda, Maryland this 31st day of March, 1975.

[FR Doc.75-8750 Filed 4-3-75;8:45 am]

REGULATORY GUIDE

Notice of Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 5.49, "Internal Transfers of Special Nuclear Material," describes acceptable methods for controlling and documenting transfers of special nuclear material within a plant site in order to meet the requirements of the Commission's regulations.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 5.49 will, however, be particularly useful in evaluating the need for an early revision if received by June 5, 1975.

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director, Office of Standards Development, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 5 Regulatory Guides currently being developed include the following:

Mass Calibration Techniques for Nuclear Material Control
Calibration and Error Estimation Methods for Nondestructive Assay
Management Review of Materials and Plant Protection Programs and Activities
Protection of Nuclear Power Plants Against Industrial Sabotage
Measurement Control Program for Special Nuclear Material Control and Accounting
Monitoring Transfers of Special Nuclear Material
Considerations for Determining the Systematic Error of Special Nuclear Material Accounting Measurement
Interior Intrusion Alarm Systems
Preparation of Uranyl Nitrate Solution as a Working Standard
Shipping and Receiving Control of Special Nuclear Materials
Barrier Design and Placement
Nondestructive Assay of U-235 Content of Unpoisoned Low-Enrichment Uranium Fuel Rods
Methods for the Accountability of Uranium Dioxide
Internal Security Audit Procedures
Standard Format and Content for the Physical Protection Section of a License Application (For Facilities Other Than Nuclear Power Plants)
Nondestructive Assay of Plutonium-Bearing Fuel Rods
Training and Qualifying Personnel for Performing Measurement Associated with the Control and Accounting of Special Nuclear Material
Auditing of Measurement Control Program
Reconciliation of Statistically Significant Shipper-Receiver Differences
Prior Measurement Verification
Verification of Prior Measurements by NDA
Nondestructive Assay of High-Enrichment Uranium Scrap by Active Neutron Interrogation
Control and Accounting for Highly Enriched Uranium in Waste
Considerations for Determining the Random Error of Special Nuclear Material Accounting Measurement
Use of Closed Circuit TV for Area Surveillance
Preparation of Working Calibration and Test Materials for Analytical Laboratory Measurement Control Programs—Part 1: Plutonium Nitrate Solution.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland this 26th day of March 1975.

For the Nuclear Regulatory Commission.

ROBERT B. MINOGUE,
Acting Director,
Office of Standards Development.

[FR Doc.75-8746 Filed 4-3-75;8:45 am]

[Docket Nos. 50-327 and 50-328]

TENNESSEE VALLEY AUTHORITY, SEQUOYAH NUCLEAR PLANTS, UNITS 1 AND 2

Notice of Issuance of Amendments To Provisional Construction Permits and Availability of Atomic Safety and Licensing Appeal Board Decision

Notice is hereby given that pursuant to a Decision issued by the Atomic Safety and Licensing Appeal Board on February 27, 1975, the Nuclear Regulatory Commission has issued Amendment No. 3 to Provisional Construction Permit No. CPPR-72 and Amendment No. 3 to Provisional Construction Permit No. CPPR-73 issued to the Tennessee Valley Authority for construction of the Sequoyah Nuclear Plant, Units 1 and 2, located in Hamilton County, Tennessee. The Decision modifies the construction permits to require compliance with the applicable federal and Tennessee water quality standards. Any decisions or actions taken by the Atomic Safety and Licensing Appeal Board in connection with this Decision may be reviewed by the Commission.

A copy of the Decision dated February 27, 1975, Amendment No. 3 to Provisional Construction Permit No. CPPR-72, Amendment No. 3 to Provisional Construction Permit No. CPPR-73, and the Tennessee Valley Authority's Final Environmental Statement are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., and in the Chattanooga Public Library, 601 McCalley Street, Chattanooga, Tennessee 37403.

The above noted documents are also available at the Office of Urban and Federal Affairs, Suite 1025, Andrew Jackson State Office Building, Nashville, Tennessee 39219; the Chattanooga Area Regional Council of Governments, 423 James Building, 735 Broad Street, Chattanooga, Tennessee 37402; and the Southeast Tennessee Development District, 423 James Building, 731 Broad Street, Chattanooga, Tennessee 37402.

The Nuclear Regulatory Commission has found that the provisions of these amendments comply with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations published in 10 CFR Chapter I and has concluded that the issuance of these amendments will not be inimical to the common defense and security or to the health and safety of the public.

The record developed in the public hearing in the above captioned matter modified in certain respects the contents of the Final Environmental Statement relating to the construction of the Sequoyah Nuclear Plant, Units 1 and 2, prepared by the Tennessee Valley Authority. Pursuant to the provisions of § 51.52(b)(3) of 10 CFR Part 51, the Final Environmental Statement is deemed modified to the extent that the conditions relating to environmental matters contained in the Decision are different from those contained in the Final Environmental Statement issued February 1974. As required by § 51.52(b)(3) of 10 CFR Part 51, a copy of the Decision which modified the Final Environmental Statement has been transmitted to the Council on Environmental Quality and distributed to the Environmental Protection Agency and other interested agencies and persons in accordance with § 51.26(c) of 10 CFR Part 51.

Single copies of the Decision, Amendment No. 3 to Provisional Construction Permit No. CPPR-72, Amendment No. 3 to Provisional Construction Permit No. CPPR-73, and the Final Environmental Statement may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 27th day of March 1975.

For the Nuclear Regulatory Commission.

KARL KNIEL,
Chief, Light Water Reactors Branch 2-2, Division of Reactor Licensing.

[FR Doc.75-8744 Filed 4-3-75;8:45 am]

[Docket Nos. 50-280 and 50-281]

VIRGINIA ELECTRIC & POWER CO.

Issuance of Amendments to Facility Operating Licenses

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments No. 5 to Facility Operating Licenses No. DPR-32 and DPR-37 issued to Virginia Electric & Power Company (licensee) which revised Technical Specifications for operation of the Surry Power Station, Units 1 and 2, located in Surry County, Virginia. The amendments are effective as of the date of issuance.

The amendments revise the provisions in the Technical Specifications for the fuel residence time for Unit 1, Cycles 1 and 2 from 15,500 to 26,000 EFPH and Unit 2, Cycle 1 core from 10,000 to 17,000 EFPH, pursuant to licensee's application for amendment dated October 17, 1974, supplemented by his application dated February 25, 1975.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. A prenotice was issued on November 20, 1974, (39 FR 40810) for the licensee's request of October 17, 1974. No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

For further details with respect to this action, see (1) the application for amendment dated October 17, 1974, as supplemented February 25, 1975, (2) Amendments No. 5 to Licenses No. DPR-32 and DPR-37, with Changes No. 20 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Swem Library, College of William & Mary, Williamsburg, Virginia 23185.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 27th day of March 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch No. 1, Division of Reactor Licensing.

[FR Doc.75-8745 Filed 4-3-75;8:45 am]

[Docket No. 50-219]

JERSEY CENTRAL POWER & LIGHT CO.

Proposed Issuance of Amendment To Provisional Operating License

The Nuclear Regulatory Commission (the Commission) is considering the issuance of an amendment to Provisional Operating License No. DPR-16 issued to Jersey Central Power & Light Co. (the licensee) for operation of Oyster Creek Nuclear Generating Station, a boiling water reactor located in Ocean County, New Jersey, and currently authorized for operation at power levels up to 1930 MWt.

The amendment would revise provisions in the Technical Specifications in accordance with the licensee's applications for license amendments dated March 25, 1975, and March 29, 1975. The amendment would modify operating limits in the Technical Specifications based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model that conforms to the requirements of the Commission's regulations in 10 CFR Part 50, § 50.46. The amendment would modify various limits established in accordance with the Commission's Interim Acceptance Criteria, and would, with respect to Oyster Creek Nuclear Generating Station, terminate the further restrictions imposed by the Commission's December 27, 1974, Order for Modification of License, and would impose instead, limitations established in accordance with the Commission's Acceptance Criteria for Emergency Core Cooling Systems for Light Water Nuclear Power Reactors, 10 CFR Part 50, § 50.46.

The proposed license amendment would also modify the Technical Specifications to account for changes in: (1) Limiting safety system settings for the neutron flux scram and for the neutron flux control rod block, (2) the operability requirements for the local power range monitors, and (3) the fuel cladding integrity safety limit.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

By May 5, 1975, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to G. F. Trowbridge, Esquire, Shaw, Pittman, Potts, Trowbridge & Madden, Barr Building, 910 17th Street NW., Washington, D.C. 20006, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct

V 40166
APR 4 75
XUM

of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see (1) the applications for amendments dated March 25, 1975 and March 29, 1975, (2) the Commission's Order of Modification of License and the Documents referred to in the Order dated December 27, 1974 (published in the FEDERAL REGISTER on January 9, 1975 (40 FR 1764)), (3) NRC Report Regarding the EXXON Nuclear Company ECCS Model, dated March 6, 1975, which are available for public inspection at the Commission's Public Document Room 1717 H Street NW., Washington, D.C. 20555, and at the Ocean County Library, 15 Hooper Avenue, Toms River, New Jersey 08753. The license amendment and the Safety Evaluation, when issued, may be inspected at the above locations and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland this April 1, 1975.

FOR THE NUCLEAR REGULATORY COMMISSION,

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Reactor Licensing.

DUKE POWER CO.

Availability of NRC Draft Environmental Statement for Cherokee Nuclear Station, Units 1, 2, and 3

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that a Draft Environmental Statement prepared by the Commission's Division of Reactor Licensing related to the proposed Cherokee Nuclear Station, Units 1, 2, and 3 to be constructed by the Duke Power Company in Cherokee County, South Carolina is available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. and in the Cherokee County Library, Gaffney, South Carolina 29340. The Draft Statement is also being made available at the State Clearinghouse, Office of the Governor, Division of Administration, Edgar A. Brown State Office Building, Columbia, South Carolina 29201 and at the South Carolina Appalachian Council of Governments, Drawer 6668, 211 Century Drive, Greenville, South Carolina 29606. Copies of the Commission's Draft Environmental Statement (NUREG-75/017) may be obtained by request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

The Applicant's Environmental Report, as supplemented, submitted by the Duke Power Company is also available for public inspection at the above-designated locations. Notice of availability of the Applicant's Environmental Report was published in the FEDERAL REGISTER on July 9, 1974 (39 FR 26472).

Pursuant to 10 CFR Part 51, interested persons may submit comments on the Applicant's Environmental Report, as supplemented, and the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Applicant's Environmental Report and the Draft Environmental Statement (local agencies may obtain these documents upon request). Comments are due by June 6, 1975. Comments by Federal, State, and local officials, or other persons received by the Commission will be made available for public inspection at the Commission's Public Document Room in Washington, D.C. and the Cherokee County Library, Gaffney, South Carolina 29340. Upon consideration of comments submitted with respect to the draft environmental statement, the Staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested persons of the public should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Rockville, Maryland, this 26th day of March, 1975.

For the Nuclear Regulatory Commission.

WM. H. REGAN, JR.,
Chief, Environmental Projects Branch 4, Division of Reactor Licensing.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 18895; 70-5338]

APPALACHIAN POWER CO., ET AL.

Proposed Issuance and Sale of Common Stock by Subsidiary to Holding Company and Capital Contributions to Subsidiary

MARCH 28, 1975.

In the Matter of Appalachian Power Co., 40 Franklin Road, Roanoke, Virginia 24009, Indiana & Michigan Electric Co., 2101 Spy Run Avenue, Fort Wayne, Indiana 46801, and American Electric Power Co., Inc., 2 Broadway, New York, New York 10004.

Notice is hereby given that American Electric Power Company, Inc. ("AEP"), a registered holding company, and Appalachian Power Company ("Appalachian") and Indiana & Michigan Electric Company ("I&M"), its subsidiary electric utility companies, have filed with this Commission a post-effective amendment to the application-declaration in this proceeding pursuant to sections 6(b), 9(a), 10, 12(b) and 12(f) of the Public Utility Holding Company Act of 1935 ("Act") and rules 43 and 50(a)(3) promulgated thereunder regarding the following proposed transactions. All interested persons are referred to the post-effective amendment to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

By orders dated June 29, 1973 and October 8, 1974 (Holding Company Act Release Nos. 18013 and 18597), this Commission, among other things, authorized AEP to make cash capital contributions from time to time prior to June 30, 1975, to I&M up to $100,000,000. It is now proposed that AEP be permitted to increase contributions to I&M to a total amount of $125,000,000.

It is also proposed that AEP make additional investment in the equity of Appalachian in the form of the purchase from time to time prior to June 30, 1975 of a total of 750,000 shares of common stock, no par value, of Appalachian for a consideration of $40 a share, or a total consideration of $30,000,000. As of March 7, 1975, Appalachian had 30,000,000 shares of its common stock authorized of which there were outstanding 9,937,000 shares.

The proceeds from the capital contributions and the sale of common stock are to be used by I&M and Appalachian to finance their construction programs and for the payment of short-term notes issued in connection therewith. I&M and Appalachian estimate construction expenditures for 1975 at $80,000,000 and $140,000,000 respectively. The State Corporation Commission of Virginia, the Public Service Commission of West Virginia and the Public Service Commission of Tennessee have jurisdiction over the proposed issue and sale by Appalachian of its common stock to AEP. No other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than April 21, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personnally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as now amended, or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations

promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[FR Doc.75-8786 Filed 4-3-75;8:45 am]

[File No. 500-1]

INTERNATIONAL CHEMALLOY CORP.

Suspension of Trading

MARCH 18, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of International Chemalloy Corporation being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from 2:1g P.M. (e.d.t.) on March 18, 1975 through midnight (e.d.t.) on March 27, 1975.

By the Commission.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

DEPARTMENT OF LABOR

Manpower Administration

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Notice of Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 USC 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75, published January 29, 1975 (40 FR 4393). In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.

2. Employment trends in the same industry in the local area.

3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing on or before April 18, 1975 to: Deputy Assistant Secretary for Manpower, 601 D Street NW., Washington, D.C. 20213.

Signed at Washington, D.C. this 31st day of March, 1975.

BEN BURDETSKY,
Deputy Assistant Secretary for Manpower.

Applications received during the week ending March 28, 1975

Name of applicant	Location of enterprise	Principal product or activity
Cianbro Corp.	Pittsfield, Maine	General construction and production of transit concrete and bituminous concrete.
C. N. Brown Co.	South Paris, Maine	Retail gasoline stations and heating oil distribution.
Round Hill Foods, Inc. (Tenant of New Oxford municipal authority).	Adams County, Pa.	Turkey processing.
Miller-Picking of Mississippi, Inc.	Hattiesburg, Miss.	Industrial, institutional and commercial air conditioning equipment.
Aeroquip Corp. (Tenant of Jackson County).	Gainesboro, Tenn.	Production of hydraulic couplings.
Dalwal Tool Co., Inc.	Whittington, Ill.	Rebuilding of rotary drill bits used in coal mining.
Tom W. Kaufman Co.	Carrollton, Ohio	Manufacture of deep drawn tanks and panels, and fabrication of stainless pipe and liquid containers.
Huffman Farm Supply	Minier, Ill.	Sale and construction of grain storage, drying, and handling facilities and related products.
Dearco, Inc.	Shawano, Wis.	Retail and wholesale paint, glass and related products and services.
Stanley G. Booker	Kalamazoo, Mich.	Restaurant.
I-69 Industrial Park, Inc.	Marion, Ind.	Distribution for glass bottle manufacturers.
Lazy Days Campground	West Bend, Wis.	Campground.
Goers Brothers, Inc.	Shawano, Wis.	Auto sales and services.
Ecological Research Associates, Inc.	Hereford, Tex.	Manufacture of hymeth gas and residue for cattle feed supplement or fertilizer.
Rice County Metal Casting Co. (Tenant of city of Lyons).	Lyons, Kans.	Production of gray iron castings.
Ridgeview Manor Nursing Home	Walden, Mo.	Nursing home.
Tract Handcraft, Inc. (Tenant of city of Webster).	Webster, S. Dak.	Manufacture of bedspreads, draperies, tablecloths, pillows.
Bocals, Inc.	Martin, N. Dak.	Manufacture of grain trailers, pickup tow hitches and line bottom trailers.

Occupational Safety and Health Administration

[V-73-31; V-74-30]

MARATHON STEEL COMPANY, ET AL.

Grant of Variance

I. *Background.* The following companies have made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a variance, and for an interim order pending a decision on the application for a variance, from the safety standards prescribed in 29 CFR 1926.451(a)(4), (5), and (10). The standards set general requirements for scaffolding. Companies affected by this application are:

Marathon Steel Co.
(formerly Allison Steel Manufacturing Co.)
P.O. Box 6598
Phoenix, Arizona 85005

Chattanooga Boiler & Tank Co.
1011 East Main Street
Chattanooga, Tennessee 37401

Fisher Tank & Welding Co.
Third and Booth Streets
Chester, Pennsylvania 19013

Nooter Corp.
1400 South Third Street
St. Louis, Missouri 63166

V 4 0 1 6 6
APR 4 75
XUM

Wyatt Division
U.S. Industries
P.O. Box 3052
Houston, Texas 77001

Brown Minneapolis Tank & Fabricating Co.
P.O. Box 3670
St. Paul, Minnesota 55165

Chicago Bridge & Iron Co.
901 West 22nd Street
Oak Brook, Illinois 60521

Graver Tank & Mfg. Co.
4809 Tod Avenue
East Chicago, Indiana 46312

Universal Tank & Iron Works
11221 W. Rockville Road
Indianapolis, Indiana 46231

Pittsburgh-Des Moines Steel Co.
Neville Island
Pittsburgh, Pennsylvania 15225

Caldwell Tanks, Inc.
P.O. Box 19108
4000 Tower Road
Louisville, Kentucky 40219

Western Petro-Chem Services, Inc.
1947 East 223rd Street
Carson, California 90810

The Bishopric Products Co.
4413 Kings Run Drive
Cincinnati, Ohio 45232.

The places of employment affected by these applications are all construction projects where the applicants are engaged in construction operations.

Notice of applications submitted by the first 10 applicants, and of the granting of interim orders, was published in the FEDERAL REGISTER on October 26, 1973 (38 FR 29658). Notice of applications submitted by the remaining three applicants, and of the granting of interim orders, was published in the FEDERAL REGISTER on June 3, 1974 (39 FR 19541). The notices invited interested persons, including employers and employees who believe they would be affected by the grant or denial of the applications for variance, to submit written data, views, and arguments regarding the applications. In addition, affected employers and employees were notified of their right to request a hearing on a particular application for variance. No written comments or requests for a hearing have been received.

II. *Facts.* The applicants' business, which is part of the tank building industry, involves the erection of relatively large steel plate segments of circumferential rings. Due to the unique nature of the construction involved, special procedures, including special scaffolding, have been developed. For example, as opposed to more conventional scaffolds, tank scaffolds must be highly portable and have a relatively low density of occupancy by workmen. These scaffolds are raised up the shell of the tank as new rings of steel are added and work is completed at the level below.

Most plate structures are fabricated from standard length plates obtained from steel mills. These plates, each approximately 31.416 feet long, normally have brackets welded to them while they are on the ground prior to being placed into position on the tank wall. Scaffolding and guardrail supports are then attached to these brackets. If the applicants were to comply with § 1926.451(a)(5) which requires that guardrail supports be at intervals not to exceed 8 feet, and Table L–3 in § 1926.451(a)(10) which sets the maximum permissible span (distance between planking supports) for 2 x 10 inch full thickness undressed lumber at 10 feet, they assert it would be necessary to lay out each steel plate into sections with the brackets located approximately 7.854 feet apart. Instead, the applicants wish to lay out the plate into three equal sections with brackets located approximately 10′ 6″ apart.

The planks used on the scaffolds by the applicants are rough full-dimensioned 2″ x 12″ x 12′ planks of Douglas Fir or Southern Yellow Pine of Select Structural Grade. The Douglas Fir has a fiber stress of 1,900 and a modulus of elasticity of 1,900,000, while the Southern Yellow Pine has a 2,500 fiber stress and a modulus of elasticity of 2,000,000. These characteristics of both types of planking meet the requirements of Scaffold Grade in § 1926.451(a)(10).

The tank scaffolds do not have toeboards as required by § 1926.451(a)(4) and (5). Instead, applicants have stated that most tools are placed in well-designed "loose tool" containers provided for that purpose. The area directly below and far enough away from the base of the scaffold to contain anything that falls from above is roped off. Because the contour of the steel plates of the tank face is curved and the adjacent edge of the scaffold platform is straight, there is an open space between them. As a result, applicants have installed taut wire rope on the scaffold brackets that extends midway between the innermost edge of the scaffold platform and the curved plate structure of the tank face to serve as a safety line in lieu of an inner guardrail assembly.

According to the applicants, less than 10 percent of the plank surface on the scaffold serves as a work location at any one time, and is normally occupied by approximately one person per 30 feet of scaffold length. About one-third of the employees work alone on the scaffolds, and the others work in groups of 2 or 3 with only one group located within a 10′6″ bracket span. The employees carry their tools and equipment from one location to the next as work progresses.

III. *Decision.* Section 1926.451(a)(4) and (5) requires toeboards with a minimum height of 4″ on all open sides and ends of platforms more than 10 feet above the ground or floor. This is intended to keep tools and equipment from falling off the scaffold injuring people below. The applicants' system of keeping most tools in containers and roping off the area under and in close proximity to the scaffold accomplishes this purpose and thus provides a place of employment as safe as that required by the toeboard requirements of § 1926.451(a)(4) and (5).

Table L–3 in § 1926.451(a)(10) sets the maximum permissible span between planking supports at 10 feet for 2 x 10 inch or wider planks of full thickness undressed lumber. The applicants have proposed to use 2″ x 12″ x 12′ full thickness Douglas Fir or Southern Yellow Pine of Select Structural Grade on 10′ 6″ spans. The 12″ width provides a modulus for nominal section of 5.06 and a collapse point of 900 lbs as compared to a modulus of 4.8 and collapse point of 700 lbs for a 10″ width of the planking. This approximately 25 percent greater strength in span, together with the limited number of employees on a plank at one time provides planking at least as strong and safe as that which would be obtained by complying with the span requirements contained in Table L–3 of § 1926.451(a)(10).

Section 1926.451(a)(5) also requires that guardrail supports be placed at no more than 8 foot intervals. While applicants could comply with this requirement by attaching guardrail supports to the scaffolds, the applicants normally attach the guardrail supports, as well as the scaffolding supports to the brackets which are welded to the steel plates at 10′ 6″ intervals. This practice affords considerably more stable attachments for the guardrail assembly than would exist with wooden 2 x 4s attached to the scaffold at 8 foot intervals. Moreover, the wire rope cables used for guardrails and the angle irons used for supports are at least as strong as the wooden 2 x 4s permitted by § 1926.451(a)(5). Therefore, it is determined that the guardrail assemblies supported by the brackets at 10′ 6″ intervals are as safe as those required by § 1926.451(a)(5).

IV. *Order.* Pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970, section 107 of the Contract Work Hours and Safety Standards Act, as amended (83 Stat. 96; 40 U.S.C. 333), 29 CFR Part 1905, 29 CFR 1926.2, and Secretary of Labor's Order No. 12–71 (36 FR 8754), it is ordered that the above listed applicants be, and they are hereby, authorized to use the scaffolds described in their applications in their tank-building process at all construction projects where the applicants are engaged in construction operations, provided that:

(a) The applicants' loose tools and equipment shall be kept in well-designed tool containers. This does not include fit-up bar, key plates, key channels, or long handled maul which may be placed on the scaffold plank during the time they are required for work. The loose tool containers shall be secured to prevent their upset or dislodgment from the scaffold area.

(b) Areas beneath and far enough away from the base of the scaffold to contain anything that falls from above shall be roped off and posted with clearly visible signs stating: "Danger Overhead Work."

(c) A taut wire rope supported on the scaffold brackets shall be installed at the scaffold plank level between the innermost edge of the scaffold platform and the curved plate structure of the tank shell to serve as a safety line in lieu of an inner guardrail assembly. In the event the open space on either side of the rope exceeds 12″, a second wire rope appropriately placed, or guarding in accordance with 29 CFR 1926.451(a)(5), shall be installed.

(d) Not more than 3 employees shall be working on a 10′6″ span of scaffold planking at any time.

(e) The maximum distance between brackets to which scaffolding and guardrail supports are attached shall be 10′6″. These brackets shall be welded to the steel plates.

(f) Scaffold planks of rough full-dimensioned 2″ x 12″ x 12′ Douglas Fir or Southern Yellow Pine of Select Structural Grade shall be used. The Douglas Fir shall have at least a 1,900 fiber stress and 1,900,000 modulus of elasticity, while the Yellow Pine shall have at least 2,500 fiber stress and 2,000,000 modulus of elasticity.

(g) All planking shall be secured from movement or overlapped in accordance with § 1926.451(a)(12).

(h) Guardrails shall be constructed of taut wire rope, and shall be supported by angle irons attached to brackets welded to the steel plates. These guardrails shall be at least of equivalent strength, stability and height as those required for the 8 foot span of 2″ x 4″ wood rails by 29 CFR 1926.451(a)(5). Guardrail supports shall be located at no greater than 10′6″ intervals.

(i) As soon as possible, the applicants shall give notice to affected employees of the terms of this order by the same means used to inform them of the application for variance.

Effective date. This order shall become effective on April 4, 1975, and shall remain in effect until modified or revoked in accordance with section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970.

Signed at Washington, D.C. this 28th day of March, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[Notice No, 7351]

ASSIGNMENT OF HEARINGS

APRIL 1, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 129631, Sub 44, Pack Transport, Inc., now being assigned June 18, 1975 (3 days), at Denver, Colorado, in a hearing room to be designated later.

MC 111812, Sub 509, Midwest Coast Transport, Inc., MC 112822, Sub 343, Bray Lines Incorporated, and MC 117119, Sub 516, Willis Shaw Frozen Express, Inc., now assigned April 10, 1975, at Salt Lake City, Utah, will be held at Salt Palace, 100 South Temple West.

MC 134370, Sub 12, Osborne Trucking Co., Inc., now assigned April 14, 1975, at Denver, Colo., will be held at the Holiday Inn, Bryant Street & West 20th.

MC–F–11787, O. N. C. Freight System—Purchase William Louis Damon, d.b.a. Damon Freight Lines, now assigned April 21, 1975, at Albuquerque, N. Mex., will be held at The Holiday Inn East, 12901 Central NE.

MC 107304, Sub 10, Transway, Inc., now being assigned July 8, 1975 (9 days), at New Orleans, Louisiana, in a hearing room to be designated later.

MC 139649, Station Wagon Service, Inc., now being assigned July 8, 1975 (4 days), at Newark, New Jersey, in a hearing room to be designated later.

MC 134501, Sub 14, UFT Transport Company, now assigned June 19, 1975, at St. Louis, Missouri, is cancelled and the application is dismissed.

MC 139193, Sub 19, Roberts & Oake, Inc., now being assigned June 19, 1975 (2 days), at St. Louis, Missouri, in a hearing room to be designated later.

MC 107295, Sub 751, Pre-Fab Transit Co., application dismissed.

EX PARTE No. 277 (Sub-No. 3), Adequacy of Intercity Rail Passenger Service, Continued to April 16, 1975, at Boston, Mass., May 7, 1975, at San Francisco, Ca., May 12, 1975, at Los Angeles, Ca., and May 15, 1975, at Fort Worth, Texas, in hearing rooms to be later designated, June 9, 1975, at The Offices of The Interstate Commerce Commission, Washington, D.C.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75–8835 Filed 4–3–75;8:45 am]

FOURTH SECTION APPLICATIONS FOR RELIEF

APRIL 1, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before April 21, 1975.

FSA No. 42966—*Iron or Steel Plate or Sheet from East St. Louis, Illinois.* Filed by Southwestern Freight Bureau, Agent, (No. B–525), for and on behalf of Missouri-Kansas-Texas Railroad Company. Rates on iron or steel plate or sheet, in carloads, as described in the application, from East St. Louis, Illinois, to Houston, Texas. Grounds for relief—Market competition. Tariff—Supplement 111 to Southwestern Freight Bureau, Agent, tariff 301–F, I.C.C. No. 5098. Rates are published to become effective on April 28, 1975.

FSA No. 42967—*Joint Water-Rail Container Rates—A. P. Moller-Maersk Line.* Filed by A. P. Moller-Maersk Line (No. 1), for itself and interested rail carriers. Rates on general commodities, between rail carriers terminals on the U.S. Atlantic and Gulf Coasts, and ports in the Philippines, Hong Kong, Taiwan, Thailand, Singapore, Malaya, Japan, Korea, and Indonesia. Grounds for relief—Water competition.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 5]

MOTOR CARRIER APPLICATIONS FOR TACKING AND GATEWAY ELIMINATION IN FINANCE PROCEEDINGS

APRIL 2, 1975.

The following notices are supplemental materials to the Section 5(2) finance applications listed below wherein each applicant requests (1) to tack certain authorities in its respective pending finance application, and (2) to concurrently eliminate the gateway in order to provide the described direct service.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

Protests to the granting of the requested authority must be filed with the Commission on or before May 5, 1975. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in this noticed portion of the finance proceeding.

A protest should comply with section 247(d) of the Commission's General Rules of Practice. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative or applicant if no representative is named.

MC–F–11961—Brada Miller Freight System, Inc.—Purchase (Portion)—Sims Motor Transport Lines, Inc.

MC–F–12327—Byrnes Long Island Motor Cargo, Inc.—Purchase (Portion)—All Island Delivery Service, Inc.

MC–F–12331—Aero Trucking, Inc.—Purchase (Portion)—Miller's Motor Freight, Inc.

MC–F–12391—Ace Doran Hauling & Rigging Co.—Purchase (Portion)—Fred Carpenter, Inc.

No. MC 29079 (Sub-No. 82), filed March 17, 1975. Applicant: BRADA MILLER FREIGHT SYSTEM, INC., 1210 South Union Street, Kokomo, Ind. 46901. Applicant's representative: Edward K. Wheeler, 704 Southern Building, 15th and H Streets NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, (1) between points in Illinois on the one hand, and, on the other, points in New York on and west of U.S.

V 40 166
APR 4 75
XUM

Highway 62, those in Pennsylvania on and west of U.S. Highway 219 and those in West Virginia on and north of U.S. Highway 40; (2) between Holland, Grand Rapids, and Lansing, Mich. and points in Michigan on a line beginning at Holland, Mich., and extending along Michigan Highway 21 to Grand Rapids, thence along U.S. Highway 16 to Lansing, thence southerly along U.S. Highway 27 to the Michigan-Indiana State Boundary line, including points within said territory, on the one hand, and, on the other, points in New York on and west of U.S. Highway 62, those in Pennsylvania on and west of U.S. Highway 219 and those in that part of West Virginia on and north of U.S. Highway 40; and (3) between Louisville, Ky. on the one hand, and, on the other, points in New York on and west of U.S. Highway 62, those in Pennsylvania on and west of U.S. Highway 219, and those in that part of West Virginia on and north of U.S. Highway 40. The purpose of this filing is to eliminate a gateway at Columbiana, Ohio. This application is a gateway elimination request filed pursuant to the Commission's Policy Statement in Ex Parte No. 55 (Sub-No. 6) noticed in the FEDERAL REGISTER issue of December 9, 1974; and is directly related to MC-F-11961 pending on petition.

MC 99369 (Sub-No. 3) (Correction), filed January 31, 1975, published in the FEDERAL REGISTER issue of March 4, 1975, and republished as corrected, this issue. Applicant: BYRNES L.I. MOTOR CARGO, INC., 136 Allen Boulevard, Farmingdale, N.Y. 11735. Applicant's representative: Robert R. Redmon, 5530 Wisconsin Avenue, Suite 1145, Chevy Chase, Md. 20015. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, automobiles, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in Nassau and Suffolk Counties, N.Y., on the one hand, and, on the other, points in New Jersey within 15 miles of Columbus Circle, N.Y. The purpose of this filing is to eliminate the gateway at New York, N.Y. This application is a gateway elimination requests filed pursuant to the Commission's Policy Statement in Ex Parte No. 55, Sub-No. 8, noticed in the FEDERAL REGISTER issue of December 9, 1974; and directly related to MC-F-12327 published in the FEDERAL REGISTER of October 10, 1974.

NOTE.—The purpose of this republication is to indicate the correct docket number assigned to this proceeding as MC 99369 (Sub-No. 3), in lieu of MC 99396 (Sub-No. 3), as previously published.

No. MC 60014 (Sub-No. 38), filed January 20, 1975. Applicant: AERO TRUCKING, INC., Box 308, Monroeville, Pa. 15146. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which, by reason of their size or weight require the use of special equipment, (a) from points in Maryland, Delaware, Pennsylvania, New Jersey, New York, Virginia, West Virginia, and the District of Columbia, to points in the United States (except Alaska, Hawaii, Connecticut, Delaware, Maryland, New Jersey, Ohio, Pennsylvania, Virginia, West Virginia, and the District of Columbia). The purpose of this filing is to eliminate the gateway of York, Pa. and points within 10 miles thereof. (b) From points in Connecticut, Rhode Island and New Hampshire, to points in the United States (except Alaska, Hawaii, Connecticut, Delaware, Maryland, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, and the District of Columbia). The purpose of this filing is to eliminate the gateway of York, Pa. and points within 10 miles thereof. (c) From points in Indiana, Illinois, Michigan, Ohio, and Wisconsin, to points in the United States (except Alaska, Hawaii, Connecticut, Delaware, Maryland, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia and the District of Columbia). The purpose of this filing is to eliminate the gateway of York, Pa. and points within 10 miles thereof.

(2) *Commodities*, the transportation of which, by reason of their size or weight, require the use of special equipment, and which are included in the "twilight zone" as defined in *National Automobile Transporters Association* v. *Rowe Transfer*, 64 M.C.C. 229, from points in Maine, to points in the United States (except Alaska, Hawaii, Connecticut, Delaware, Maryland, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, and the District of Columbia). The purpose of this filing is to eliminate the gateway of York, Pa. and points within 10 miles thereof. This application is a gateway elimination request filed pursuant to the Commission's Policy Statement in Ex Parte No. 55 (Sub-No. 8), noticed in the FEDERAL REGISTER issue of December 9, 1974, and is directly related to MC-F-12331 published in the FEDERAL REGISTER of October 17, 1974. *HEARING:* On the 28th day of April, 1975, at 9:30 a.m. Local Time, at the Offices of the Interstate Commerce Commission, Washington, D.C.

No. MC 112304 (Sub-No. 87) (Amendment), filed December 16, 1974, published in the FEDERAL REGISTER issue of March 6, 1975, and republished, in part, as amended, this issue. Applicant: ACE DORAN HAULING & RIGGING CO., a corporation, 1601 Blue Rock Street, Cincinnati, Ohio 45223. Applicant's representative: John P. McMahon, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which because of size or weight require the use of special equipment, between points in Vermont, New Hampshire, Massachusetts, Connecticut, and Rhode Island, on the one hand, and, on the other, points in Indiana, Kentucky, Michigan, Ohio, West Virginia, and those in Pennsylvania west of U.S. Highway 15. The purpose of this filing is to eliminate the gateways of points in New York within 75 miles of Syracuse and any point in Ohio. (3A) *Iron and steel articles* which because of size or weight require the use of special equipment, from the plantsites of the Jones & Laughlin Steel Corporation located in Putnam County, Ill., to points in Vermont, New Hampshire, Massachusetts, Connecticut, and Rhode Island. The purpose of this filing is to eliminate the gateways of points in Ohio and points in New York within 75 miles of Syracuse. This application is a gateway elimination request filed pursuant to the Commission's Policy Statement in Ex Parte No. 55 (Sub-No. 8), noticed in the FEDERAL REGISTER issue of December 9, 1974, and is directly related to MC-F-12391 published in the FEDERAL REGISTER of March 5, 1975.

NOTE.—The purpose of this partial republication is to indicate in (1) above, applicant seeks authority to points in Pennsylvania west of U.S. Highway 15 in lieu of east as previously published; and add part (3A). The rest of the notice remains as originally published.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-8836 Filed 4-3-75;8:45 am]

[Notice No. 34]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MARCH 31, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC 67 (49 CFR 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 22139 (Sub-No. 14TA), filed March 20, 1975. Applicant: ROBERT ZAPORA, doing business as R. F. ZAPORA MOTOR TRANS., 22 Auburn Road, Hooksett, N.H. 03106. Applicant's representative: Arthur J. No. MC 139134 (Sub-No. 3TA), filed March 21, 1975. Applicant: KENNEDY MOTORS, INC., 1305 S. Mountain Avenue, Monrovia, Calif. 91016. Applicant's representative: Frederick J. Coffman, 521 South 14th St., P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from Long Beach and Wilmington, Calif., and their respective commercial zones, to points in Idaho, Montana, Oregon, and Washington, for 180 days. Supporting shippers: There are approximately 9 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Walter W. Strakosch, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 1312, Federal Bldg., 300 North Los Angeles Street, Los Angeles, Calif. 90012.

No. MC 140585 (Sub-No. 1TA), filed March 20, 1975. Applicant: MID-PENN TRANSPORTATION, INC., 1100 Lafayette Street, York, Pa. 17405. Applicant's representative: S. Harrison Kahn, Suite 733 Investment Bldg., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum, petroleum products, vehicle body sealer and sound deadening compounds*, from points in McKees Rocks and New Kensington, Pa., to points in Delaware, Maryland, New Jersey, New York, North Carolina, South Carolina, and Virginia, for 180 days. Supporting shipper: Quaker State Oil Refining Corporation, P.O. Box 989, Oil City, Pa. 16301. Send protests to: Robert P. Amerine, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 278 Federal Bldg., P.O. Box 869, Harrisburg, Pa. 17108.

No. MC 140709 (Sub-No. 1TA), filed March 18, 1975. Applicant: FANKHAUSER BROTHERS, INC., 139 Hillside, El Dorado, Kans. 67042. Applicant's representative: Clyde Christey, 641 Harrison, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid feed and liquid feed supplements*, from the plantsite and/or storage facilities of Farmland Industries, Inc., at or near Muncle, Kans., to points in Missouri and Oklahoma, for 180 days. Supporting shipper: Farmland Industries, Inc., P.O. Box 7305, Kansas City, Mo. 64116. Send protests to: M. E. Taylor, District Supervisor, Interstate Commerce Commission, 501 Petroleum Bldg., Wichita, Kans. 67202.

No. MC 140733 TA (Correction), filed March 12, 1975, published in the FEDERAL REGISTER issue of March 26, 1975, and republished as corrected this issue. Applicant: DWANE L. FORD, doing business as D & G TRUCKING, 424 Canyon, Nampa, Idaho 83651. Applicant's representative: F. L. Sigloh, P.O. Box 7651, Boise, Idaho 83707. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Insulation and insulation materials made of styrofoam, urethane, rock wool, fiberglass, cellulose and minerals;* (2) *Materials and supplies used in the manufacture and installation of insulation*, from Kansas City, Kans., and Kansas City, Mo., Tacoma, Wash., Portland, Oreg., Chilton, Tex., Santa Clara, Compton, Torrance, and Fontana, Calif., to points in Ada, Canyon, Gem, Payette,

Washington, Adams, Boise, Owyhee, Elmore, Buster, Camas, Blaine, Gooding, Jerome, and Twin Falls, Counties, Idaho, and Malheur County, Oreg., for 180 days. Supporting shippers: Tempco Contracting & Supply Corp., 5023 Gage St., Boise, Idaho 83704. Action Insulation, 1177 W. Wright St., Boise, Idaho. Broadway Insulation, 1175 Wright St., Boise, Idaho 83706. Send protests to: C. W. Campbell, District Supervisor, Interstate Commerce Commission, 550 West Fort St., Box 07, Boise, Idaho 83724. The purpose of this republication is to clarify the territorial description.

No. MC 140774 (Sub-No. 1TA), filed March 19, 1975. Applicant: HERMAN J. ROBINSON AND JAMES H. ROBINSON, doing business as HERMAN'S & SONS ARCO, Route 50, Salisbury, Md. 21801. Applicant's representative: Charles E. Creager, Esq., 1329 Pennsylvania Ave., P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked, disabled, inoperative, stolen, abandoned, repossessed and replacement vehicles and parts therefor, and mobile cranes*, in truckaway service, between points in Wicomico, Worchester, Somerset, Caroline, Talbot, Dorchester, Queen Annes, and Kent Counties, Md., and Kent and Sussex Counties, Del., on the one hand, and, on the other, Maine, New Hampshire, Vermont, Connecticut, Rhode Island, Massachusetts, New York, New Jersey, Delaware, Maryland, Pennsylvania, District of Columbia, Virginia, West Virginia, Ohio, North Carolina, South Carolina, Georgia, Alabama, Florida, and Mississippi, for 180 days. Supporting shippers: There are approximately 12 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: W. C. Hersman, District Supervisor, Interstate Commerce Commission, Room 317, 12 & Constitution Ave. NW., Washington, D.C. 20423.

No. MC 140772 (Sub-No. 1TA), filed March 20, 1975. Applicant: JOHN H. THOMASON, doing business as DIXIE AIR FREIGHT, P.O. Box 823, August, Ga. 30903. Applicant's representative: Virgil H. Smith, 1587 Phoenix Blvd., Suite 12, Atlanta, Ga. 30349. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, Classes A and B explosives, household goods as defined by the Commission, and those requiring special equipment), between points in Bush Field, Richmond County, Ga., on the one hand, and, on the other, points in Richmond, Columbia, McDuffie, Lincoln Wilkes, Oglethorpe, Elbert, Green, Taliaferro, Hancock, Warren, Glascock, Washington, Jefferson, Burke, Jenkins, Emanuel, Johnson, Bullock, Chandler, and Screven Counties, Ga., and points in Aiken, Barnwell, Allendale, Bamberg, Hampton, Orangeburg, Edgefield, Saluda, McCormick, Greenwood, Newberry, and Abbeville Counties, S.C. Restriction: Restricted to traffic having an immediate prior or subsequent movement by air, over irregular routes, for 180 days. Supporting shippers: There are approximately 8 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: William L. Scroggs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 1252 West Peachtree Street NW., Room 546, Atlanta, Ga. 30309.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*.

PART II

FEDERAL TRADE COMMISSION

■

PROCEDURES AND RULES OF PRACTICE

V 40-66

APR 4 75

XUM

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

SUBCHAPTER A—PROCEDURES AND RULES OF PRACTICE

PART 1—GENERAL PROCEDURES

Miscellaneous Amendments

The Commission announces the following rules, which are effective April 4, 1975, to implement the initial stages of trade regulation rule proceedings pursuant to the authority of Pub. L. 93–637. Under separate announcement these rules are supplemented by proposed rules further implementing that authority. Subpart B is redesignated as Subpart C and a new Subpart B is added. The amendments to redesignated Subpart C, Rules and Rulemaking, are made to eliminate references to the Flammable Fabrics Act and to reflect the promulgation of the new Subpart B for trade regulation rules.

Part 1 of Title 16 is amended as set forth below.

1. Subpart B is redesignated as Subpart C and a new Subpart B is added to read as follows:

Subpart B—Rules and Rulemaking Under Section 18(a)(1)(B) of the FTC Act As Amended by Public Law 93–637

Sec.

1.7 Scope of rules in this subpart.
1.8 Nature, authority and use of trade regulation rules.
1.9 Initiation of a trade regulation rule proceeding.
1.10 Investigations and conferences.
1.11 Initial notice.
1.13 Rulemaking proceeding.
1.15 Petition for amendment to or repeal of a rule.
1.16 Petition for exemption from trade regulation rule.

AUTHORITY: Pub. L. 93–637.

§ 1.7 Scope of rules in this subpart.

The rules in this subpart apply to and govern proceedings for the promulgation of rules as provided in section 18(a)(1)(B) of the Federal Trade Commission Act as amended by Pub. L. 93–637 only. Such rules shall be known as trade regulation rules. All other rulemaking proceedings shall be governed by the rules in the remainder of this part.

§ 1.8 Nature, authority and use of trade regulation rules.

For the purpose of carrying out the provisions of the Federal Trade Commission Act, the Commission is empowered to promulgate trade regulation rules which define with specificity acts or practices which are unfair or deceptive acts or practices in or affecting commerce. Such rules may include requirements prescribed for the purpose of preventing such acts or practices. A violation of a rule shall constitute an unfair or deceptive act or practice in violation of section 5(a)(1) of that Act, unless the Commission otherwise expressly provides in its rule. However, the respondent in an adjudicative proceeding may show that his conduct does not violate the rule, or assert any other defense to which he is legally entitled.

§ 1.9 Initiation of a trade regulation rule proceeding.

Trade regulation rule proceedings may be commenced by the Commission upon its own initiative or pursuant to written petition filed with the Secretary by any interested person stating reasonable grounds therefor. If the Commission determines to commence a trade regulation rule proceeding pursuant to the petition, the petitioner shall be mailed a copy of the public notices issued under §§ 1.11 and 1.12. Any person whose petition is not deemed by the Commission sufficient to warrant commencement of a rulemaking proceeding shall be notified of that determination and may be given an opportunity to submit additional data.

§ 1.10 Investigations and conferences.

The Commission at any time may conduct such investigations, make such studies and hold such conferences as it may deem necessary. All or any part of any such investigation may be conducted under the provisions of Subpart A of Part 2 of this Chapter.

§ 1.11 Initial notice.

A trade regulation rule proceeding shall commence with an initial notice of proposed rulemaking. Such notice shall be published in the Federal Register and, to the extent practicable, otherwise made available to interested persons. The initial notice shall include: (a) the terms or substance of the proposed rule or a description of the subjects and issues involved; (b) reference to the legal authority under which the rule is proposed; (c) a statement describing with particularity the reason for the rule; (d) an invitation to all interested persons to propose disputed issues of specific fact, in contrast to legislative fact, that are material and necessary to resolve; and (e) an invitation to all interested persons to comment on the proposed rule.

§ 1.13 Rulemaking proceeding.

(a) *Written comments.* After commencement of a trade regulation rule proceeding, the Commission shall accept written submissions of data, views, and arguments on all issues of fact, law, and policy. Written comments other than under subsection (b) of this section shall be accepted until ten (10) days before commencement of the informal hearing.

(b) *Comments proposing disputed issues of specific fact, in contrast to legislative fact, that are material and necessary to resolve.* Written comments which propose disputed issues of specific fact, in contrast to legislative fact, that are material and necessary to resolve shall be accepted for a period of sixty (60) days after publication of the initial notice.

§ 1.15 Petition for amendment to or repeal of a rule.

(a) *Petition for substantive amendment to or repeal of a rule.* The procedures for petitions for substantive amendments to or repeal of a rule shall be the same as for the issuance thereof.

(b) *Petition for nonsubstantive amendment of a rule.* When the Commission, for good cause, finds that notice and public procedure relating to a petition for nonsubstantive amendment of a rule or such an amendment proposed by the Commission itself are impractical, unnecessary, or contrary to the public interest, it may dispense with the procedures of this subpart and publish the nonsubstantive amendment of the rule along with the above finding and a brief statement of the reasons therefor.

§ 1.16 Petition for exemption from trade regulation rule.

Any person to whom a rule would otherwise apply may petition the Commission for an exemption from such rule. The procedures for determining such a petition shall be those of Subpart C of these rules.

Subpart C—Rules and Rulemaking

2. Subpart C is redesignated as Subpart I, and a new Subpart C is redesignated from Subpart B; §§ 1.11 through 1.16 are redesignated as §§ 1.21 through 1.26, and §§ 1.21, 1.22 and 1.24 are revised to read as follows:

§ 1.21 Scope of the rules in this subpart.

The rules in this subpart apply to and govern procedures for the promulgation of rules, including quantity limit rules, rules authorized under the Wool Products Labeling Act of 1939, the Fur Products Labeling Act, and the Textile Fiber Products Identification Act, and rules under the Fair Packaging and Labeling Act except to the extent that objections to orders relating to the issuance, amendment, or repeal of rules under the latter Act are required by statute to be determined on the record after opportunity for an agency hearing. The rules in this subpart do not apply to the promulgation of industry guides, general statements of policy, or rules of agency organization, procedure, or practice, or rules governed by the procedures of Subpart B of this part.

§ 1.22 Rulemaking.

(a) *Nature and authority.*—For the purpose of carrying out the provisions of the statutes administered by it, the Commission is empowered to promulgate rules and regulations applicable to unlawful trade practices. Such rules and regulations express the experience and judgment of the Commission, based on facts of which it has knowledge derived from studies, reports, investigations, hearings, and other proceedings, or within official notice, concerning the substantive requirements of the statutes which it administers.

(b) *Scope.*—Rules may cover all applications of a particular statutory provision and may be nationwide in effect, or they may be limited to particular areas or industries or to particular product or geographic markets, as may be appropriate.

(c) *Use of rules in adjudicative proceedings.*—Where a rule is relevant to any issue involved in an adjudicative proceeding thereafter instituted, the Commission may rely upon the rule to resolve such issue, provided that the respondent shall have been given a fair hearing on the applicability of the rule to the particular case.

§ 1.24 Rules applicable to wool, fur, and textile fiber products and rules promulgated under the Fair Packaging and Labeling Act.

Rules having the force and effect of law are authorized under section 6 of the Wool Products Labeling Act of 1939, section 8 of the Fur Products Labeling Act, section 7 of the Textile Fiber Products Identification Act, and sections 4, 5, and 6 of the Fair Packaging and Labeling Act.

Subpart J—Economic Surveys, Investigations and Reports

3. Subpart J is redesignated from Subpart C and § 1.21 is redesignated as § 1.91 of this subpart.

(Sec. 6, 38 Stat. 721 (15 U.S.C. 46), Pub. L. No. 93–637, Sec. 202 (Jan. 4, 1975).)

By direction of the Commission, dated March 11, 1975.

[SEAL] VIRGINIA M. HARDING,
Acting Secretary.

[FR Doc.75–8489 Filed 4–2–75;8:45 am]

PROCEDURES AND RULES OF PRACTICE

Miscellaneous Amendments

The Commission announces the following amendments to 16 CFR Chapter I. The amendments are effective April 4, 1975.

PART 1—GENERAL PROCEDURES

Subpart A—Industry Guidance

1. Section 1.4(b) is revised to provide for confidential treatment in appropriate circumstances of information contained in formal written objections or comments on requests for advice concerning proposed mergers. Section 1.4(b) is revised to read as follows:

Section 1.4 Public disclosure.

* * * * *

(b) All requests for advice submitted under § 1.2 concerning proposed mergers, together with supporting materials, will be placed on the public record as soon after they are received as circumstances permit, except for information for which confidential classification has been requested, with a showing of justification therefor, and which the Commission, with due regard to statutory restrictions, its rules, and the public interest, has determined should not be made public. Within thirty (30) days after such requests and materials are placed on the public record, any person may file formal written objections or comments with the Secretary of the Commission. Such objections or comments shall be placed on the public record except for information for which confidentiality has been requested, with a showing of justification therefor, and which the Commission with due regard to statutory restrictions, its rules, and the public interest, has determined should not be made public. Additionally, any communications, written or oral, concerning such proposed mergers, received by any individual member of the Commission, or by an employee involved in the decisional process, will be placed on the public record immediately after their receipt. In the case of an oral communication, the member or employee shall immediately furnish the Commission with a memorandum setting forth the full contents of such communication and the circumstances thereof, and such memorandum will immediately be placed on the public record. Any advice given under § 1.3 concerning proposed mergers, together with a statement of supporting reasons, will be published when given.

Subpart G—Injunctive and Condemnation Proceedings

3. Section 1.61 is revised to take into account the Commission's expanded injunctive authority granted under the Trans-Alaska Pipeline Authorization Act, Pub. L. 93–153 section 408(f).

Section 1.61 is revised to read as follows:

§ 1.61 Injunctions.

In those cases where the Commission has reason to believe that it would be to the interest of the public, the Commission will apply to the courts for injunctive relief, pursuant to the authority granted in section 13 of the Federal Trade Commission Act.

Subpart I—Procedures for Implementation of the National Environmental Policy Act of 1969

Sections 1.81–1.86 are revisions (1) to accord with the National Council on Environmental Quality's revised Guidelines on "Preparation of Environmental Impact Statements", (2) to integrate provisions relating to rules and guides and those relating to legislative matters, and (3) to expand §§ 1.83–1.84 into three sections, each ot deal with a discrete segment of the Environmental Act chronology and duties. A proposed revision of §§ 1.81–1.86 was published December 6, 1973, 38 FR 33618. The differences in the proposed rules and the rules adopted appear in § 1.82(c) with the substitution of "emergency action makes * * *" for peditious action is in the public interest," and in § 1.84(c) with the substitution of "emergency action makes * * *" for "emergencies make * * *".

4. Section 1.81 (a) and (b) are revised to read as follows:

§ 1.81 Authority and definition.

(a) This subpart is issued pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Pub. L. 91–190 (NEPA), as implemented by Executive Order 11514 and by "Preparation of Environmental Impact Statements: Guidelines," issued by the Council on Environmental Quality (CEQ), 40 CFR 1500.1, et seq. (1973) (CEQ Guidelines).

(b) As used in this subpart, "environmental impact statement" means a detailed statement, as provided for in NEPA, Executive Order 11514, and CEQ Guidelines, on:

(1) The environmental impact of a proposed action;

(2) Any adverse environmental effects which cannot be avoided should the proposal be implemented;

(3) Alternatives to the proposed action;

(4) The relationship between local short-term uses of man's environment and enhancement of long-term productivity; and

(5) Any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.

* * * * * *

5. Section 1.82 is revised to read as follows:

§ 1.82 Declaration of policy.

(a) No Commission rule or guide which is a major action significantly affecting the environment will be promulgated unless an environmental impact statement has been prepared for consideration in the decisionmaking, and

(b) No Commission legislative proposal or Commission legislative report on a proposal in an area in which the Commission has primary responsibility, concerning a matter significantly affecting the environment, will be submitted to Congress without an accompanying environmental impact statement, except that

(c) An environmental impact statement will not be prepared when the Commission finds that emergency action is necessary. In such instance, the Commission will consult with CEQ and develop a statement promptly after the action, in accordance with CEQ Guidelines, 40 CFR 1500.11(e).

(d) Nothing in this procedure shall be construed as stating or implying that section 102(2)(C) of NEPA applies to: any investigation made by the Commission for law enforcement purposes; any process or order issued by the Commission in connection with any type of investigation; any agreement of voluntary compliance or consent decree entered into by the Commission; or any adjudicatory proceedings commenced by the Commission.

6. Section 1.83 (a) and (b) are revised and new paragraphs (c) and (d) are added to read as follows:

§ 1.83 Draft environmental impact statements: availability and comment.

(a) Staff proposals recommending the initiation of a rule or guide proceeding, as well as staff evaluations of legislative proposals and legislative reports in an area in which the Commission has primary responsibility, shall include an assessment of the anticipated environmental impact, based on CEQ Guidelines, 40 CFR 1500.6 (a), (b).

(b) Upon the determination of the Commission that a matter subject to paragraph (a) of this section is a major action having a significant effect on the quality of the human environment, it

V 40 166 APR 4 75 XUM

shall prepare a draft environmental impact statement. In legislative matters, a copy of the draft environmental impact statement, together with the legislative proposal, shall be submitted to the Office of Management and Budget (OMB), in accordance with applicable provisions of OMB Circular No. A–19. In rule or guide proceedings, and in legislative matters not subject to OMB Circular No. A–19, the draft environmental impact statement shall be

(1) Transmitted to CEQ for listing in the weekly FEDERAL REGISTER notice of draft environmental impact statements;

(2) In rule or guide proceedings, placed in the public record to which it pertains; in legislative matters, placed in a public record to be established, containing the legislation or legislative report to which it pertains; these will be available to the public through the Office of the Assistant Secretary for Legal and Public Records, Federal Trade Commission, Washington, D.C. 20580;

(3) Published in full with the appropriate proposed rule, guide, legislation, or legislative report in the FEDERAL REGISTER;

(4) Forwarded to the Environmental Protection Agency's Office of Federal Activities (EPA) and to the National Technical Information Service of the Department of Commerce, Springfield, Virginia 22151 (NTIS);

(5) Circulated to appropriate Federal, State, and local agencies with jurisdiction by law or special expertise, by means, where appropriate, of Office of Management and Budget (OMB) Clearinghouse Mechanism No. A-95 (revised);

(6) Circulated to appropriate private organizations and individuals;

(7) In the case of legislation, transmitted to Congress together with the proposed legislation or report to which it pertains.

(c) Forty-five (45) days will be allowed for comment on the draft environmental impact statement, calculated from the date of inclusion in CEQ's weekly Federal Register list of draft environmental impact statements. Comments on draft environmental impact statements may be in any reasonable form, addressed to the Office of the Secretary, Federal Trade Commission, Washington, D.C. 20580, with copies to CEQ as it shall direct. Upon request by a commenting party, the Commission may in its discretion grant an extension of up to fifteen (15) days, or such longer period as the complexity of the issues may warrant.

(d) A public list will be maintained in the Office of the Secretary of all draft and all final environmental impact statements, and will be forwarded quarterly to CEQ.

7. Sections 1.84 (a) and (b) are revised and new paragraph (c) is added to read as follows:

§ 1.84 Final environmental impact statements.

(a) After the close of the comment period, the Commission will consider the comments received on the draft environmental impact statement and will put the draft environmental impact statement into final form, attaching the comments received (or summaries if response was exceptionally voluminous).

(b) Upon Commission approval of the final environmental impact statement and the matter for which it was prepared, the final environmental impact statement will be

(1) Forwarded to all parties which commented on the draft environmental impact statement and to other interested parties, if practicable;

(2) Placed in the public record of the rule or guide proceeding or legislative matter to which it pertains;

(3) Forwarded to EPA, NTIS, and CEQ;

(4) Distributed in any other way which the Commission, in consultation with CEQ, deems appropriate;

(5) Published in the FEDERAL REGISTER, together with the final rule or guide, or legislative proposal or report;

(6) In legislative matters, transmitted to Congress.

(c) In rule and guide proceedings, thirty (30) days will be allowed for comment on the final environmental impact statement, calculated from the date of inclusion in CEQ's weekly FEDERAL REGISTER list of final environmental impact statements. In no event will a final rule or guide be promulgated prior to ninety (90) days after notice of the draft environmental impact statement, except where emergency action makes such time periods impossible.

8. Section 1.85 is revised to read as follows:

§ 1.85 Implementing procedures.

(a) The General Counsel is designated the official responsible for the Commission's environmental impact statements and for otherwise coordinating the Commission's efforts to improve environmental quality. He will provide assistance to the staff in determining when an environmental impact statement is needed and in its preparation, and after review he will refer environmental impact statements to the Commission with recommendations.

(b) The Commission will determine finally whether an action complies with NEPA.

(c) The Directors of the Bureaus of Consumer Protection and Competition will establish procedures for their bureaus to assure that every proposed rule and guide is reviewed to assess the need for an environmental impact statement and that, where need exists, an environmental impact statement is developed.

(d) The General Counsel will establish procedures to assure that every legislative proposal and legislative report on a matter for which the Commission has primary responsibility is reviewed to assess the need for an environmental impact statement and that, where need exists, an environmental impact statement is developed.

9. Section 1.86 is added to read as follows:

§ 1.86 Effect on prior actions.

With respect to proceedings already in progress, the Commission recognizes that it will not be possible to comply fully with the procedures here outlined and, in particular, that it will not be possible in every instance to include within the record all of the material relating to the environmental impact of the contemplated action which might otherwise be developed. Nonetheless, it is the policy of the Commission to apply these procedures to the fullest extent possible to proceedings which are already in progress.

PART 3—RULES OF PRACTICE FOR ADJUDICATIVE PROCEEDINGS

Subpart C—Prehearing Procedures; Motions; Interlocutory Appeals; Summary Decisions

Section 3.21 is amended to expand public access to prehearing conferences and clarify the provision relating to stenographic reporting.

10. Section 3.21(c) is revised to read as follows:

§ 3.21 Prehearing conferences.

* * * * *

(c) *Public access and reporting.* Prehearing conferences shall be public unless the Administrative Law Judge determines in his discretion that the conference (or any part thereof) shall be closed to the public. The Administrative Law Judge shall have discretion to determine whether a prehearing conference shall be stenographically reported.

Subpart G—Reports of Compliance

11. Section 3.61(f) is revised to provide for confidential treatment in appropriate circumstances of information contained in formal written objections or comments on applications for approval of proposed divestitures, acquisitions or similar transactions subject to Commission review under outstanding orders.

Section 3.61(f) is revised to read as follows:

§ 3.61 Reports of compliance.

* * * * *

(f) All applications for approval of proposed divestitures, acquisitions, or similar transactions subject to Commission review under outstanding orders, together with supporting materials, will be placed on the public record as soon after they are received as circumstances permit, except for information for which confidential classification has been requested, with a showing of justification therefor, and which the Commission, with due regard to statutory restrictions, its rules, and the public interest, has determined should not be made public. Within thirty (30) days after such requests and materials are placed on the public record, any person may file formal written objections or comments with the Secretary of the Commission. Such objections or comments shall be placed on the public record except for information for which confidentiality has been requested, with a showing of justification therefor, and which the Commission with due regard to statutory restrictions, its rules, and the public interest, has determined should not be made public. Additionally, any communications, written or oral, concerning such proposed transactions, received by any individual member of the Commission, or by any employee involved in the decisional process, will be placed on the public record immediately after their receipt. In the case of an oral communication, the member or employee shall immediately furnish the Commission with a memorandum setting forth the full contents of such communication and the circumstances thereof, and such memorandum will immediately be placed on the public record. All responses to applications for approval of proposed divestitures, acquisitions, or similar transactions subject to Commission review under outstanding orders, together with a statement of supporting reasons, will be published when made.

PART 4—MISCELLANEOUS RULES

12. Section 4.1(b)(4) is revised to eliminate the requirement for filing affidavits in a case in which a former Commission member or employee is prohibited under § 4.1(b) from appearing or participating in a Commission proceeding or investigation, and his partner(s) or associate(s) desire to appear or participate therein without utilizing his services. The amendment also dispenses with the need for special assurances that the disqualified former employee will not share in the revenues from such representation.

Section 4.1(b)(4) is revised to read as follows:

§ 4.1 Appearances.

* * * * *

(b) * * *

(4) In any case in which a former member or employee of the Commission is prohibited under this section from appearing or participating in a Commission proceeding or investigation, his services shall not be utilized in any respect in such matter nor shall the matter be discussed with him in any manner by any partner or legal or business associate.

* * * * *

13. Section 4.2(a) is revised to make clear that documents addressed to the Administrative Law Judge are to be filed with the Secretary; paragraph (c) is revised to reduce the number of documents required to be filed, and paragraph (d)(1) is revised to require specific identifying information on motions or other papers filed in adjudicative proceedings.

Section 4.2 (a), (c), and (d)(1) are revised to read as follows:

§ 4.2 Requirements as to form and filing of documents other than correspondence.

(a) ***Filing.*** Except as otherwise provided, all documents submitted to the Commission including those addressed to the Administrative Law Judge shall be filed with the Secretary of the Commission: provided, however, that in any instance informal applications or requests may be submitted directly to the official in charge of any office of the Commission or to the Director, Deputy Director, or Assistant Director of the appropriate bureau or office or to the Administrative Law Judge.

* * * * *

(c) *Copies.* Twenty (20) copies of a notice of intention to appeal and of all briefs before the Commission shall be filed; ten (10) copies of all other documents shall be filed, with the exception of notices of appearances and reports of compliance, as to which only two (2) copies of each need be filed. As to admissions and answers thereto, only one copy need be filed.

(d) *Form.* (1) Documents filed with the Secretary of the Commission, other than briefs in support of appeals from initial decisions, shall be printed, typewritten, or otherwise processed in permanent form and on good unglazed paper. A motion or other paper filed in an adjudicative proceeding shall contain a caption setting forth the title of the case, the docket number, and a brief descriptive title indicating the purpose of the paper.

Acting Secretary.

[FR Doc.75–8488 Filed 4–2–75;8:45 am]

PROCEDURES AND RULES OF PRACTICE

Miscellaneous Amendments

The Commission hereby announces its determination to abolish Part 2 proposed complaint and consent order procedures. Under these procedures a proposed complaint was served upon a respondent with a notice that he had 30 days to settle the matter by consent agreement. The primary purpose of the procedures was to encourage a proposed respondent to enter into a settlement containing effective relief and thereby avoid expensive and time consuming litigation. The Commission has concluded, however, that the procedures have too often proven to be a source of unnecessary delay and has therefore determined to eliminate them.

This decision does not affect the Commission's policy of encouraging settlements and discouraging litigation where a consent agreement is in the public interest. Opportunity to negotiate such agreements will continue to be available during the investigative stage, and, in appropriate circumstances, after complaint has issued.

To effectuate the Commission's determination, the following amendments, revisions, and additions to Parts 2, 3, and 4 of the Commission's rules of practice are adopted and made effective April 4, 1975.

PART 2—NONADJUDICATIVE PROCEDURES

Subpart A—Investigations

1. Section 2.14(a) is revised to read as follows:

§ 2.14 Disposition.

(a) When the facts disclosed by an investigation indicate that corrective action is warranted, and the matter is not subject to informal nonadjudicative disposition pursuant to § 2.21 or to a consent settlement pursuant to Subpart C of this part, further proceedings may be instituted pursuant to the provisions of Part 3 of this chapter.

* * * * *

Subpart C—Consent Order Procedure

2. Sections 2.31 through 2.35 are revised to read as follows:

§ 2.31 Opportunity to submit a proposed consent order.

(a) Where time, the nature of the proceeding, and the public interest permit, any individual, partnership, or corporation being investigated shall be afforded the opportunity to submit thrugh the operating Bureau or Regional Office having responsibility in the matter a proposal for disposition of the matter in the form of a consent order agreement executed by the party being investigated and complying with the requirements of § 2.32, for consideration by the Commission in connection with a proposed complaint submitted by the Commission's staff.

(b) After a complaint has been issued, the consent order procedure described in this part will not be available except as provided in § 3.25(b).

§ 2.32 Agreement.

Every agreement shall contain, in addition to an appropriate order, either an admission of the proposed findings of fact and conclusions of law submitted simultaneously by the Commission's staff or an admission of all jurisdictional facts and an express waiver of the requirement that the Commission's decision contain a statement of findings of fact and conclusions of law. In addition, every agreement shall contain waivers of further procedural steps and of all rights to seek judicial review or otherwise to challenge or contest the validity of the order. The agreement shall also contain provisions that the complaint may be used in construing the terms of the order, and that no agreement, understanding, representation, or interpretation not contained in the order or the aforementioned agreement may be used to vary or to contradict the terms of the order; that the order shall have the same force and effect and may be altered, modified, or set aside in the same manner provided by statute for other orders; that the order shall become final upon service; that the agreement shall not become a part of the public record unless

V 40 166
APR 4 75
XUM

and until it is accepted by the Commission; and that the Commission may withdraw its acceptance of the agreement if comments or views submitted to the Commission within sixty (60) days after such acceptance disclosure facts or considerations which indicate that the order contained in the agreement is inappropriate, improper, or inadequate. In addition, in appropriate circumstances the agreement may contain a statement that the signing thereof is for settlement purposes only and does not constitute an admission by any party that the law has been violated as alleged in the complaint.

§ 2.33 Compliance procedure.

The Commission may in its discretion require that a proposed agreement containing an order to cease and desist be accompanied by an initial report signed by the respondent setting forth in precise detail the manner in which the respondent will comply with the order when and if entered. Such report will not become part of the public record unless and until the accompanying agreement and order are accepted by the Commission. At the time any such report is submitted a respondent may request confidentiality for any portion thereof with a precise showing of justification therefor, and the Commission with due regard to statutory restrictions, its rules, and the public interest will act upon such request.

§ 2.34 Disposition.

Upon receiving an executed agreement conforming with the requirements of § 2.32, the Commission may: (1) Accept it; (2) reject it and issue its complaint; or (3) take such other action as it may deem appropriate. If an agreement is accepted, the Commission will place the order contained therein and any initial report of compliance submitted pursuant to § 2.33 on the public record, and at the same time, will make available an explanation of the provisions of the order and the relief to be obtained thereby and any other information which it deems helpful in assisting interested persons to understand the terms of the order. The Commission will publish the agreement, order and explanation in the Federal Register. For a period of sixty (60) days after placement of the order on the public record and issuance of the statement, the Commission will receive and consider any comments or views concerning the order that may be filed by any interested persons. Thereafter, within thirty (30) days, the Commission may either withdraw its acceptance of the agreement and so notify the other party, in which event it will take such other action as it may consider appropriate, or issue and serve its complaint (in such form as the circumstances may require), and decision, in disposition of the proceeding.

§ 2.35 Confidentiality.

All negotiations and communications under this subpart will constitute a part of the confidential records of the Commission, except to the extent otherwise specifically provided therein.

PART 3—RULES OF PRACTICE FOR ADJUDICATIVE PROCEEDINGS

Subpart C—Prehearing Procedures; Motions; Interlocutory Appeals; Summary Decisions

3. Section 3.25 is added to read as follows:

§ 3.25 Consent agreement settlements.

(a) The Administrative Law Judge may, in his discretion and without suspension of prehearing procedures, hold conferences for the purpose of supervising negotiations for settlement of the case by way of consent agreement.

(b) A proposal to settle a matter in adjudication by consent agreement shall be submitted by way of a motion by a respondent or jointly by a respondent and counsel representing the Commission to withdraw the matter from adjudication for the purpose of considering the proposed consent agreement. Such motion shall be accompanied by the consent agreement executed by the respondent and conforming to the requirements of § 2.32; the consent agreement itself, however, shall not be placed on the public record unless and until it is accepted by the Commission as provided herein. If the motion is not opposed, the Administrative Law Judge shall within fifteen (15) days after service of such motion certify the matter to the Commission, with any recommendation he may make. If the motion is opposed, the Administrative Law Judge may certify the matter to the Commission together with his recommendation if it appears that there is a likehood of settlement. The filing of a motion to withdraw a matter from adjudication and certification thereof to the Commission shall not stay proceedings before the Administrative Law Judge unless the Administrative Law Judge or the Commission shall so order.

(c) Upon certification of a motion to withdraw a matter from adjudication pursuant to subsection (b), the Commission may, if it is satisfied that there is a likelihood of settlement, issue an order withdrawing the matter from adjudication for the purpose of considering the proposed consent agreement. In such event, the Commission will treat the matter as being in a nonadjudicative status and may consult with and receive advice without regard to the requirements of § 4.7.

(d) After the matter has been withdrawn from adjudication, the Commission may (1) accept the agreement; (2) reject it and return the matter to adjudication for further proceedings; or (3) take such other action as it may deem appropriate. If an agreement is accepted, the Commission will place it on the public record, together with any initial report of compliance submitted pursuant to § 2.33, and at the same time, will make available an explanation of the provisions of the order and the relief to be obtained thereby and any other information which it deems helpful in assisting interested persons to understand the terms of the order. For a period of sixty (60) days after placement of the order on the public record and issuance of the statement, the Commission will receive and consider any comments or views concerning the order that may be filed by any interested persons. Thereafter, within thirty (30) days, the Commission may either withdraw its acceptance of the agreement and so notify the other party, in which event it will return the matter to adjudication for further proceedings or take such other action as it may consider appropriate, or issue and serve its decision in disposition of the proceeding.

(e) This rule will not preclude the settlement of the case by regular adjudicatory process through the filing of an admission answer or submission of the case to the Administrative Law Judge on a stipulation of facts and an agreed order.

PART 4—MISCELLANEOUS RULES

4. Section 4.9(b) (10), (12), and (14) are revised to read as follows:

§ 4.9 Public records.

* * * * *

(b) The public records of the Commission which are routinely available for inspection and copying include:

* * * * *

(10) Agreements containing orders after acceptance by the Commission pursuant to §§ 2.34 and 3.25(d), and assurances of voluntary compliance which are accepted under § 2.21 of this chapter (excluding matters disposed of under § 1.34 of this chapter);

* * * * *

(12) Reports of compliance and supplemental materials in connection therewith filed pursuant to the rules in this chapter or to a provision in an order of the Commission, and reports of compliance filed pursuant to assurances of voluntary compliance which are accepted under § 2.21 of this chapter (excluding matters disposed of under § 1.34 of this chapter), except as provided in § 2.33 and in § 4.9(b)(13), shall be available at the principal office of the Commission for inspection and copying by the public when received, unless at such time of filing the filing party requests confidentiality in whole or in part and submits satisfactory reasons therefor, and the Commission, with due regard for statutory restrictions, its rules and the public interest, grants the request; and

* * * * *

(14) Comments filed under §§ 2.34 and 3.25(d) of this chapter concerning proposed consent agreements;

* * * * *

(Sec. 6, 38 Stat. 721 (15 U.S.C. 46), 80 Stat. 383, as amended, 81 Stat. 54 (5 U.S.C. 552))

By direction of the Commission dated March 11, 1975.

FEDERAL TRADE COMMISSION

[16 CFR Part 1]

TRADE REGULATIONS RULEMAKING PROCEDURES

Notice of Proposed Rulemaking

The Commission proposes the following rules to implement its trade regulation rulemaking authority under Pub. L. 93-637. These rules supplement rules published under separate announcement which are effective on publication. Comments on these proposed rules shall be received by the Commission through May 5, 1975. Such comments should be addressed to the Secretary, Federal Trade Commission, Washington, D.C. 20580.

The following rules would replace the existing Subpart B and establish procedures for the promulgation of trade regulation rules pursuant to Pub. L. 93-637.

Accordingly, it is proposed to amend Part 1 of Title 16 as set forth below:

Subpart B—Rules and Rulemaking Under Section 18(a)(1)(B) of the FTC Act as Amended by Public Law 93-637

1. Section 1.12 is added to read as follows:

§ 1.12 Final notice.

A final notice of proposed rulemaking shall be published in the FEDERAL REGISTER, and to the extent practicable, otherwise made available to interested persons. The final notice may include: (a) Designated issues which are to be considered in accordance with § 1.13(d)(5) and (6); (b) the time and place of an informal hearing; (c) instructions to interested persons seeking to make oral presentations; (d) a requirement that interested persons who desire to avail themselves of the procedures of § 1.13(d)(5) and (6) with respect to any issue designated in paragraph (a) of this section must identify their interests with respect to those issues in such manner as may be established by the presiding officer; and (e) an incorporation by reference of the contents of the initial notice.

2. Section 1.13 is amended by adding paragraphs (c) through (h) as follows:

§ 1.13 Rulemaking proceeding.

* * * * *

(c) *Presiding officer.* Upon commencement of a proposed trade regulation rule proceeding, the Commission shall appoint a presiding officer who shall be responsible for the orderly conduct of the rulemaking proceeding. He shall have all powers necessary to that end including the following: (1) To publish a final notice in accordance with § 1.12 or issue any other public notice that may be necessary for the orderly conduct of the rulemaking proceeding; (2) to designate, modify, or delete issues for consideration in accordance with § 1.13(d)(5) and (6); (3) to set the time and place of the informal hearing and to change any time periods prescribed in this subpart; (4) to prescribe rules or issue rulings to avoid unnecessary costs or delay. Such rulings may include, but are not limited to, the imposition of reasonable time limits on each person's oral presentation and requirements that any examination, including cross-examination, which a person may be entitled to conduct or have conducted under this subpart be conducted in such a manner as the presiding officer shall determine to be appropriate and to be required for a full and true disclosure with respect to any issue designated for consideration in accordance with § 1.13(d)(5) and (6); (5) to make rules and rulings limiting the representation of interested persons for the purpose of examination, including cross-examination, and governing the manner in which such examination is limited, including the selection of a representative from among a group of persons with the same or similar interests; (6) to compel the attendance of persons or the production of documents or to obtain responses to written questions; (7) to require testimony at the informal hearing to be under oath; (8) to require that oral presentations at the informal hearing be submitted in writing in advance of presentation; and (9) to certify questions to the Commission for its determination. Applications for review of a ruling will not be entertained by the Commission prior to its review of the record pursuant to § 1.14, unless the presiding officer certifies in writing to the Commission that a ruling involves a controlling question of law or policy as to which there is substantial ground for difference of opinion and that an immediate review of the ruling may materially advance the ultimate termination of the proceeding or subsequent review will be an inadequate remedy and the Commission permits review. Certification of such rulings shall not stay the rulemaking proceeding unless the presiding officer or the Commission shall so order.

(d) *Informal hearings.* An informal hearing with the opportunity for oral presentations on all issues shall be conducted by the presiding officer. In addition, if an issue is designated pursuant to these rules for consideration in accordance with § 1.13(d)(5) and (6), the informal hearing on such issues shall be conducted in accordance with those subsections. For all other issues the presiding officer may in his discretion employ, in whole or in part, the procedures of those subparagraphs.

(1) *Designation of issues for consideration in accordance with § 1.13(d)(5) and (6).* The presiding officer may at any time on his own motion or pursuant to a written petition by interested persons, modify the issues designated pursuant to § 1.12(a). No such petition shall be considered unless good cause is shown why any such proposed issue could not have been proposed pursuant to § 1.13(b).

(2) *Nature of issues for consideration in accordance with § 1.13(d)(5) and (6).*—(i) *Issues that must be considered in accordance with § 1.13(d)(5) and (6).* The only issues that must be designated for consideration in accordance with paragraphs (d)(5) and (6) of this section are disputed issues of specific fact, in contrast to legislative fact, that are determined by the Commission or the presiding officer to be material and necessary to resolve.

(ii) *Issues that may be considered in accordance with § 1.13(d)(5) and (6).* The Commission and the presiding officer retain the power to designate any other issues for consideration in accordance with paragraphs (d)(5) and (6) of this section.

(3) *Identification of interests.* Not later than twenty (20) days after publication of the final notice each interested person who desires to avail himself of the procedures of paragraphs (d)(5) and (6) of this section shall notify the presiding officer in writing of his particular interest with respect to each issue designated for consideration in accordance with those subsections. In the event that new issues are designated, each interested person shall promptly notify the presiding officer of his particular interest with respect to each such issue.

(4) *Examination and cross-examination by the staff of the Commission.* The staff of the Commission may examine, including cross-examine, persons making oral presentations subject only to the discretion of the presiding officer.

(5) *Examination and cross-examination by interested persons.*—(i) *In general.* The presiding officer shall conduct or allow to be conducted examination, including cross-examination of oral presentations and the presentation of rebuttal submissions relevant to the issues designated for consideration in accordance with paragraphs (d)(5) and (6) of this section. Examination, including cross-examination, shall be allowed to the extent to which it is appropriate and is required for a full and true disclosure with respect to those issues. Requests for an opportunity to examine, including cross-examine, shall be accompanied by a specific justification therefor. In determining whether or not to grant such requests the presiding officer shall take into account the following considerations:

(A) The extent to which a full and true disclosure with respect to any designated issue can be achieved through rebuttal submissions or the presentation of additional oral submissions;

(B) The extent to which there are circumstantial guarantees of the trustworthiness of the presentations;

(C) Whether a particular person's presentation is required for the resolution of the designated issues; and

(D) Whether a dispute concerns facts in contrast to the inferences and conclusions to be drawn from facts.

(ii) *Selection of representatives for cross-examination.* After consideration of the information supplied in response to the final notice, the presiding officer shall identify groups of persons with the same or similar interests in the proceeding. Such groups may be required to select a single representative for the purpose of examination, including cross-examination. If a group is unable to select a representative then the presiding

V 40-166 APR 4 75 XUM

officer shall select a representative of each such group.

(iii) *Inability to select representative for examination, including cross-examination.* No person shall be denied the opportunity to conduct, or have conducted, examination, including cross-examination, under paragraph (d) (5) (i) of this section if he is a member of a group as described in paragraph (d) (5) (ii) of this section and is unable to agree upon group representation with other group members after a good faith effort to do so and seeks to present substantial and relevant issues which will not be adequately presented by the group representative. In that event he shall be allowed to conduct or have conducted any examination, including cross-examination, to which he is entitled on issues designated for consideration in accordance with paragraphs (d) (5) and (6) of this section and which affect his particular interest.

(iv) *Conduct of examination and cross-examination by presiding officer.* The presiding officer may conduct any examination, including cross-examination, to which a person may be entitled. For that purpose he may require submissions of written requests for presentation of questions to any person making oral presentations and shall determine whether to ask such questions or any other questions. All requests for presentation of questions shall be placed in the rulemaking record.

(6) *Requests to compel the attendance of persons or the production of documents or to obtain responses to written questions.* During the course of the rulemaking proceeding the presiding officer shall entertain requests from interested persons to compel the attendance of persons or the production of documents or to obtain responses to written questions on behalf of the Commission's staff or any interested person. The presiding officer may require the payment of a fee to any person to whom such requests are directed in accordance with § 4.5 of this chapter. Requests to compel the attendance of persons or the production of documents or to obtain responses to written questions shall contain a statement showing the general relevancy of the material, information or presentation, and the reasonableness of the scope of the request, together with a showing that such material, information or presentation is not available by voluntary methods and cannot be obtained through examination, including cross-examination, of oral presentations or the presentation of rebuttal submissions, and is appropriate and required for a full and true disclosure with respect to the issues designated for consideration in accordance with paragraphs (d) (5) and (6) of this section.

(e) *Written transcript.* A verbatim transcript shall be made of the informal hearing which transcript shall be placed in the rulemaking record.

(f) *Summary and findings.* After the close of the informal hearing, the presiding officer shall prepare a summary of the record, both written and oral, relating to the issues designated for consideration in accordance with paragraphs (d) (5) and (6) of this section and make initial factual findings and conclusions as to these issues and other findings and conclusions as he sees fit.

(g) *Staff recommendations.* The staff shall make recommendations to the Commission in a report based on the rulemaking record and taking into account the presiding officer's findings of fact. Such report shall contain its analysis of the record and its recommendations as to the form of the final rule.

(h) *Post record comment.* The findings and conclusions of the presiding officer as well as the staff report shall be the subject of public comment for a period of sixty (60) days after the staff recommendations are placed in the rulemaking record. Such comments shall be confined to information already in the record and may include requests for review by the Commission of determinations made by the presiding officer.

3. Section 1.14 is added to read as follows:

§ 1.14 Promulgation.

(a) The Commission shall review the rulemaking record including the summary, findings, and conclusions of the presiding officer as to the issues designated for consideration in accordance with § 1.13(d) (5) and (6), the verbatim transcript of the informal hearing, the report and recommendations of the staff and any public comments thereon, to determine what form of rule, if any, it should promulgate. The Commission may issue, modify, or decline to issue any rule. Where it believes that it should have further information or additional views of interested persons as to the form and content of the rule, it may withhold final action pending the receipt of such additional information or views. If it determines to issue a rule, it shall adopt a Statement of Basis and Purpose to accompany the rule. If it determines not to issue a rule, it may adopt and publish an explanation for not doing so. The Statement of Basis and Purpose to accompany a rule promulgated under this subpart shall include (1) a statement as to the prevalence of the acts or practices treated by the rule, (2) a statement as to the manner and context in which such acts or practices are unfair or deceptive, and (3) a statement as to the economic effect of the rule, taking into account the effect on small businesses and consumers.

(b) The final rule and Statement of Basis and Purpose shall be published in the FEDERAL REGISTER not less than thirty (30) days prior to the effective date of the rule except where the Commission for good cause found and published with the rule sets an earlier effective date.

Sections 1.17 through 1.20 are added as follows:

§ 1.17 Compensation for representation in rulemaking proceedings.

(a) *Purpose of compensation.* The Commission may provide compensation to any person who has or represents an interest which would not otherwise be adequately represented in a rulemaking proceeding, and representation of which is necessary for a fair determination of the rulemaking proceeding taken as a whole, and who is unable effectively to participate in such proceeding because such person cannot afford to pay costs of making oral presentations, conducting cross-examination, and making rebuttal submissions in such proceeding.

(b) *Level of funding.* At or after the time of the initial notice of proposed rulemaking, the Commission may announce a tentative total level of funding for compensation for participation in that proceeding.

(c) *Applications.* An application for compensation for participation in a rulemaking proceeding may be filed at any time after the publication of the initial notice of proposed rulemaking. An application for compensation shall be filed prior to the time when the costs for which compensation is sought are incurred. Such application shall contain the following:

(1) A description of the interest the applicant has or represents in the rulemaking proceeding;

(2) A statement of the reasons representation of such interest is necessary for a fair determination of the proceeding taken as a whole taking into account the number and complexity of the issues involved, and the importance of a fair, balanced representation of all interests;

(3) The reasons why such interest would not otherwise be adequately represented in the proceeding;

(4) A statement of the reasons the applicant is unable effectively to participate in the rulemaking proceeding without financial assistance including information relating to:

(i) The economic stake of the interest involved as compared with the costs of participation;

(ii) The feasibility of contributions to the costs of participation by individual representatives of the interests;

(iii) The resources of the applicant, or of the interest represented by the applicant;

(5) Insofar as possible, a specific statement of the expenses to be incurred for which compensation is sought, including an estimate of the total anticipated expenses; and

(6) A statement of the applicant's organizational and financial status in such form as the Commission may prescribe.

(d) *Determination of applications.*—(1) *By the presiding officer.* The presiding officer shall consider applications for compensation filed under this section and forward initial findings to the Director of the Bureau of Consumer Protection as to whether the applicant meets the criteria of paragraph (a) of this section. In connection with his determination the presiding officer may conduct such inquiry of the applicant or require the production of such documents as he deems necessary.

(2) *By the Director of the Bureau of Consumer Protection.* The Director of the Bureau of Consumer Protection shall review applications and the initial findings of the presiding officer and determine, in his discretion, to what extent compensation shall be authorized under this section.

(e) *Payment of compensation.*—(1) *In general.* The Commission will compensate the applicant only for those authorized expenses actually incurred. Appropriate proof of actual expenditures may be required by the Commission. The Commission may make any payments under this section in advance where necessary to permit effective participation in the rulemaking proceeding. Payment will be conditioned upon the execution by the applicant of an appropriate agreement setting forth the terms and conditions of the compensation.

(2) *Attorneys' Fees; Expert Witness Fees.* Attorneys' fees at a rate in excess of $50 per hour will be considered presumptively unreasonable and compensation will not be provided for such excess in the absence of sufficient justification. Experts and consultants will be compensated a rate not to exceed the highest rate at which experts and consultants to the Commission are compensated.

§ 1.18 Public availability of rulemaking record.

(a) *Rulemaking record.* For the purposes of these rules the term "rulemaking record" includes the rule, its Statement of Basis and Purpose, the verbatim transcript of the informal hearing, written submissions, and any other information which the Commission considers relevant to the rule.

(b) *Public availability of written submissions.* Written submissions commenting on the proposed rule as well as the verbatim transcript of the informal hearing, shall be made publicly available except when the presiding officer, for good cause shown, determines that it is in the public interest to allow any such submissions to be received in camera subject to the provisions of § 4.11 of this chapter.

§ 1.19 Modification of a rule by the Commission at the time of judicial review.

In the event that a reviewing court determines under section 18(e) (2) of the Federal Trade Commission Act, as amended by Pub. L. 93-637, to allow further submissions and presentations on the rule, the Commission may modify or set aside its rule or make a new rule by reason of the additional submissions and presentations. Such modified or new rule shall then be filed with the court together with an appropriate Statement of Basis and Purpose and the return of such submissions and presentations.

§ 1.20 Expeditious procedure.

Any or all of the procedures established in this subpart may be dispensed with by the Commission, to the extent that they are not otherwise required by law, when it finds, for good cause, that such procedures are impractical, unnecessary, or contrary to the public interest. In that case the Commission shall publish with the rule or amendment a brief statement of its reasons for dispensing with any such procedures.

By direction of the Commission dated March 11, 1975.

[SEAL] VIRGINIA M. HARDING,
Acting Secretary.

[16 CFR Part 3]

RULES GOVERNING DISCOVERY AND COMPULSORY PROCESS IN ADJUDICATIVE PROCEEDINGS

Proposed Rule Changes

The Federal Trade Commission is considering a general revision of its rules governing discovery and compulsory process in adjudicative proceedings to adopt a system modeled on the Federal Rules of Civil Procedure, with modifications adapted to the Commission's structure.

The proposed rules would, among other changes, allow discovery to be initiated in most instances by the parties to the proceeding, without the requirement of obtaining the permission of the presiding administrative law judge. They would add to the list of available methods of discovery between parties written interrogatories and requests for production of documents.

Under the proposed rules, discovery from Commission counsel supporting an administrative complaint is treated as discovery from a party, and discovery from the remainder of the Commission is classified as discovery from a nonparty. Particularly in the context of the proposed liberalized discovery between parties, this approach reflects the distinct functions which various segments of the Commission perform in an adjudicative proceeding.

The proposed rules are promulgated under the authority granted by the Federal Trade Commission Act, 15 U.S.C. section 41 et seq.

Written comments on the proposed rules will be received by the Commission on or before May 5, 1975. Comments should be filed in duplicate and addressed to the Secretary, Federal Trade Commission, Pennsylvania Avenue and Sixth Street NW., Washington, D.C. 20580.

Comments from the Commission's administrative law judges, operating bureaus, and regional offices will be received in the same manner as comments from members of the public.

All comments, including those received from the Commission's staff, will be available for public inspection during normal business hours at the Division of Legal and Public Records, Room 130, Federal Trade Commission Building, Pennsylvania Avenue and Sixth Street NW., Washington, D.C.

The proposed changes are set forth below.

Subpart D—Discovery; Compulsory Process

1. Sections 3.33 through 3.38 are revised and incorporated into proposed §§ 3.31-9, 3.31-11, and 3.31-12 as set forth below.

§ 3.31-10 [Redesignated]

2. The present § 3.31 is proposed to be redesignated as § 3.31-10.

3. Sections 3.31-1 through 3.31-9 and 3.31-11 and 3.31-12 are proposed to read as follows:

§ 3.31-1 Definitions governing discovery.

(a) The following definitions shall apply to the rules of discovery for Commission adjudicative proceedings, infra, §§ 3.31-2 through 3.31-13:

(1) "Party" means each respondent named in the complaint, Commission complaint counsel, and any intervenor under the provisions of § 3.14.

(2) "Person" means any natural person, corporation (including a corporation as defined in section 4 of the Federal Trade Commission Act), partnership, or unincorporated association not a party to the proceeding or an officer, director, partner, or employee of a party; and any government agency, or officer or employee thereof.

(3) "Government agency" means any unit of government, Federal or State, including, unless otherwise indicated, the Commission itself with the exception of complaint counsel.

(4) "Complaint counsel" means, for purposes of a particular adjudicative proceeding, all Commission counsel responsible for supporting the allegations of the complaint in the adjudicative proceeding, in their capacity as complaint counsel in that proceeding.

(b) Discovery which may be sought from a party by any of the means provided by §§ 3.31-2 through 3.31-12 shall, as to discovery sought from complaint counsel, extend to all documents which are within the possession, custody, and control of the Commission, and all information within the knowledge of complaint counsel, which relate to the allegations of the complaint at issue. It shall not extend to documents or information relating to proceedings against other respondents whether or not similar as to their legal bases, to other proceedings against the same respondent or respondents, or to other Commission investigations or non-adjudicative activities; and all such documents or information shall be sought only in accordance with the procedures provided for discovery from persons not parties. For purposes of seeking discovery from the Commission other than complaint counsel, the Secretary of the Commission shall be deemed to have possession, custody, and control of all documents in the possession, custody, and control of the Commission and shall also be the Commission's agent for the service of all motions under §§ 3.31-5 and 3.31-6 for the taking of depositions of Commission officers or employees other than complaint counsel.

(c) Nothing contained herein or in §§ 3.31-2 through 3.31-12 shall in any way alter or affect any restriction upon discovery of documents within the possession and control of, or information within the knowledge of, the Commission (including complaint counsel) or any

other government agency, or alter or affect any privilege or other exemption from discovery of such documents or information, heretofore or hereafter established by statute, rule, regulation or precedent of judicial or administrative body, except insofar as such restriction, privilege, or exemption is solely dependent upon a Commission rule abolished by the promulgation of these discovery rules.

(d) Nothing contained herein shall prevent the Administrative Law Judge presiding over an adjudicative proceeding, on motion or sua sponte, from placing such limits upon the kind or amount of discovery to be had, or the period of time during which discovery may be carried out, as shall be consistent with justice and the public interest in an expeditious resolution of the proceeding.

(e) These amended discovery rules, including this section and §§ 3.31–2 through 3.31–12, shall take effect on ----------, 1975. They govern all discovery in Commission adjudicative proceedings initiated after they take effect and also all further discovery in such proceedings then pending except to the extent that in the opinion of the Administrative Law Judge or the Commission their application in a particular proceeding would not be feasible or would work injustice, in which event the former discovery rules apply.

§ 3.31–2 General provisions governing discovery.

(a) *Discovery methods.* Parties may obtain discovery by one or more of the following methods: depositions upon oral examination or written questions; written interrogatories; production of documents or things for inspection and other purposes; and requests for admission. Unless the Administrative Law Judge orders otherwise under paragraph (c) of this section or § 3.31–1, the frequency of use of these methods is not limited.

(b) *Scope of discovery.* Unless otherwise limited by order of the Administrative Law Judge in accordance with these rules, the scope of discovery is as follows:

(1) *In general.* Parties may obtain discovery regarding any matter, not privileged, which is relevant to the subject matter involved in the pending proceeding, whether it relates to the allegations of the complaint or to the defense of any respondent, including the existence, description, nature, custody, condition and location of any books, documents, or other tangible things and the identity and location of persons having knowledge of any discoverable matter. It is not ground for objection that the information sought will be inadmissible at hearing if the information sought appears reasonably calculated to lead to the discovery of admissible evidence.

(2) *Trial preparation: Materials.* (i) Subject to the provisions of paragraph (b)(3) of this section, a party may obtain discovery of documents and tangible things otherwise discoverable under paragraph (b)(1) of this section and prepared in anticipation of litigation or for hearing by or for another party or by or for that other party's representative (including his attorney, consultant, or agent) only upon a showing that the party seeking discovery has substantial need of the materials in the preparation of his case and that he is unable without undue hardship to obtain the substantial equivalent of the materials by other means. In ordering discovery of such materials when the required showing has been made, the Administrative Law Judge shall protect against disclosure of the mental impressions, conclusions, opinions, or legal theories of an attorney or other representative of a party concerning the litigation.

(ii) A party may obtain without the required showing a statement concerning the action or its subject matter previously made by that party. Upon request, a person not a party may obtain without the required showing a statement concerning the action or its subject matter previously made by that person. If the request is refused, the person may move the Administrative Law Judge for an order. For purposes of this paragraph, a statement previously made is (A) a written statement signed or otherwise adopted or approved by the person making it, or (B) a stenographic, mechanical, electrical, or other recording, or a transcription thereof, which is a substantially verbatim recital of an oral statement by the person making it and contemporaneously recorded.

(3) *Hearing preparation: Experts.* Discovery of facts known and opinions held by experts, otherwise discoverable under the provisions of paragraph (b)(1) of this section and required or developed in anticipation of litigation or for hearing, may be obtained only as follows:

(i) (A) A party may through interrogatories require any other party to identify each person whom the other party expects to call as an expert witness at hearing, to state the subject matter on which the expert is expected to testify, and to state the substance of the facts and opinions to which the expert is expected to testify and a summary of the grounds for each opinion. (B) Upon motion, the Administrative Law Judge may order further discovery by other means, subject to such restrictions as to scope as the Administrative Law Judge may deem appropriate.

(ii) A party may discover facts known or opinions held by an expert who has been retained or specially employed by another party in anticipation of litigation or preparation for hearing and who is not expected to be called as a witness at hearing, only upon a showing of exceptional circumstances under which it is impracticable for the party seeking discovery to obtain facts or opinions on the same subject by other means.

(iii) The Administrative Law Judge may require as a condition of discovery that the party seeking discovery pay the expert a reasonable fee for time spent in responding to discovery under paragraphs (b)(3)(i)(B) and (b)(3)(ii) of this section.

(c) *Protective orders.* Upon motion by a party or by the person from whom discovery is sought, and for good cause shown, the Administrative Law Judge may make any order which may appear necessary and appropriate for the protection of the public interest or which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, including one or more of the following: (1) That the discovery not be had; (2) that the discovery may be had only on specified terms and conditions, including a designation of the time or place; (3) that the discovery may be had only by a method of discovery other than that selected by the party seeking discovery; (4) that certain matters not be inquired into, or that the scope of the discovery be limited to certain matters; (5) that discovery be conducted with no one present except persons designated by the Administrative Law Judge; (6) that a deposition after being sealed be opened only by order of the Administrative Law Judge; (7) that a trade secret or other confidential research, development, or commercial information not be disclosed or be disclosed only in a designated way; (8) that the parties simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the Administrative Law Judge.

If the motion for a protective order is denied in whole or in part, the Administrative Law Judge may, on such terms and conditions as are just, order that any party or person provide or permit discovery.

(d) *Sequence and timing of discovery.* Unless the Administrative Law Judge upon motion, for the convenience of parties and witnesses and in the interests of justice, orders otherwise, methods of discovery may be used in any sequence and the fact that a party is conducting discovery, whether by deposition or otherwise, shall not operate to delay any other party's discovery.

(e) *Supplementation of responses.* A party who has responded to a request for discovery with a response that was complete when made is under no duty to supplement his response to include information thereafter acquired, except as follows:

(1) A party is under a duty seasonably to supplement his response with respect to any question directly addressed to (i) the identity and location of persons having knowledge of discoverable matters, and (ii) the identity of each person expected to be called as an expert witness at hearing, the subject matter on which he is expected to testify, and the substance of his testimony.

(2) A party is under a duty seasonably to amend a prior response if he obtains information upon the basis of which (i) he knows that the response was incorrect when made, or (ii) he knows that the response though correct when made is no longer true and the circumstances are such that a failure to amend the response is in substance a knowing concealment.

(3) A duty to supplement responses may be imposed by order of the Administrative Law Judge, agreement of the parties, or at any time prior to hearing through new requests for supplementation of prior responses.

§ 3.31–3 Persons before whom deposition may be taken.

(a) *Within the United States.* Within the United States or within a territory or insular possession subject to the dominion of the United States, depositions shall be taken before an officer authorized to administer oaths by the laws of the United States or of the place where the examination is held, or before such person as the parties may stipulate under § 3.31–4.

(b) *In foreign countries.* In a foreign country, depositions may be taken (1) on notice before a person authorized to administer oaths in the place in which the examination is held, either by the law thereof or by the law of the United States, or (2) before a person commissioned by the Administrative Law Judge, and a person so commissioned shall have the power by virtue of his commission to administer any necessary oath and take testimony, or (3) before such person as the parties may stipulate under § 3.31–4, or (4) pursuant to a letter rogatory. A commission or a letter rogatory shall be issued on application and notice and on terms that are just and appropriate. It is not requisite to the issuance of a commission or a letter rogatory that the taking of the deposition in any other manner is impracticable or inconvenient; and both a commission and a letter rogatory may be issued in proper cases. A notice or commission may designate the person before whom the deposition is to be taken either my name or descriptive title. A letter rogatory may be addressed "To the Appropriate Authority in [here name the country]." Evidence obtained in response to a letter rogatory need not be excluded merely for the reason that it is not a verbatim transcript or that the testimony was not taken under oath or for any similar departure from the requirements for depositions taken within the United States under these rules.

§ 3.31–4 Stipulations regarding discovery procedure.

Unless the Administrative Law Judge orders otherwise, the parties may by written stipulation (a) provide that depositions may be taken before any person, at any time or place, upon any notice, and in any manner and when so taken may be used like other depositions, and (b) modify the procedures provided by these rules for other methods of discovery, except that stipulations extending the time provided in §§ 3.31–8, –9, and –10 for responses to discovery may be made only with the approval of the Administrative Law Judge.

§ 3.31–5 Depositions upon oral examination.

(a) *When depositions may be taken.* After service of the complaint, any party may take the testimony of any person, including a party, by deposition upon oral examination. Leave of the Administrative Law Judge, granted with or without notice, must be obtained only if the plaintiff seeks to take a deposition prior to the expiration of 30 days after service of the complaint upon any respondent, except that leave is not required (1) if a respondent has served a notice of taking deposition or otherwise sought discovery, or (2) if special notice is given as provided in paragraph (b)(2) of this section. The attendance of witnesses may be compelled by subpoena as provided in § 3.31–12.

(b) *Notice of examination: General requirements; special notice; Non-stenographic recording; production of documents and things; depositions of organization.*

(1) A party desiring to take the deposition of any person other than a person described in paragraph (b)(2) of this section upon oral examination shall give reasonable notice in writing to every other party to the action. Reasonable notice is defined to be not less than 10 days, but the Administrative Law Judge may designate a shorter or longer time. The notice shall state the time and place for taking the deposition and the name and address of each person to be examined, if known, and, if the name is not known, a general description sufficient to identify him or the particular class or group to which he belongs. If a subpoena duces tecum is to be served on the person to be examined, the designation of the materials to be produced as set forth in the subpoena shall be attached to or included in the notice.

(2) A party desiring to take the deposition of an officer or employee of the Commission other than complaint counsel, or of an officer or employee of another government agency, or to obtain documents, or other physical exhibits in the custody, control and possession of such officer or employee, shall proceed by written motion to the Administrative Law Judge, filed in accordance with the provisions of § 3.22(a), for leave to apply for a subpoena under § 3.31–12. Such a motion shall be granted only upon a showing that the information expected to be obtained thereby is within the scope of discovery permitted by § 3.31–2(b) and cannot be obtained without undue hardship by alternative means. No motion for an order or subpoena for production of documents grounded upon § 4.11 of this chapter or upon the Freedom of Information Act shall be entertained by the Administrative Law Judge.

(3) The Administrative Law Judge may upon motion order that the testimony at a deposition be recorded by other than stenographic means, in which event the order shall designate the manner of recording, preserving, and filing the deposition, and may include other provisions to assure that the recorded testimony will be accurate and trustworthy.

(4) The notice to a party deponent may be accompanied by a request made in compliance with § 3.31–9 for the production of documents and tangible things at the taking of the deposition. The procedure of § 3.31–9 shall apply to the request.

(5) A party may in his notice and in a subpoena name as the deponent a public or private corporation or a partnership or association or governmental agency and describe with reasonable particularity the matters on which examination is requested. In that event, the organization so named shall designate one or more officers, directors, or managing agents, or other persons who consent to testify on its behalf, and may set forth, for each person designated, the matters on which he will testify. A subpoena shall advise a nonparty organization of its duty to make such a designation. The persons so designated shall testify as to matters known or reasonably available to the organization. This paragraph (b)(5) does not preclude taking a deposition by any other procedure authorized in these rules.

(c) *Examination and cross-examination; record of examination; oath; objections.* (1) Examination and cross-examination of witnesses may proceed as permitted at the hearing under the provisions of § 3.43. The officer before whom the deposition is to be taken shall put the witness on oath and shall personally, or by someone acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically or recorded by any other means ordered in accordance with paragraph (b)(4) of this section. If requested by one of the parties, the testimony shall be transcribed.

(2) All objections made at time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections. In lieu of participating in the oral examination, parties may serve written questions in a sealed envelope on the party taking the deposition and he shall transmit them to the officer, who shall propound them to the witness and record the answers verbatim.

(d) *Motion to terminate or limit examination.* At any time during the taking of the deposition, on motion of a party or of the deponent and upon a showing that the examination is being conducted in bad faith or in such manner as unreasonably to annoy, embarrass, or oppress the deponent or party, the Administrative Law Judge may order the officer conducting the examination to cease forthwith from taking the deposition, or may limit the scope and man-

V 40166
APR 4 75
XUM

ner of the taking of the deposition as provided in § 3.31-2(c). If the order made terminates the examination, it shall be resumed thereafter only upon the order of the Administrative Law Judge. Upon demand of the objecting party or deponent, the taking of the deposition shall be suspended for the time necessary to make a motion for an order.

(e) *Submission to witness; changes; signing.* When the testimony is fully transcribed the deposition shall be submitted to the witness for examination and shall be read to or by him, unless such examination and reading are waived by the witness and by the parties. Any changes in form or substance which the witness desires to make shall be entered upon the deposition by the officer with a statement of the reasons given by the witness for making them. The deposition shall then be signed by the witness, unless the parties by stipulation waive the signing or the witness is ill or cannot be found or refuses to sign. If the deposition is not signed by the witness within 30 days of its submission to him, the officer shall sign it and state on the record the fact of the waiver or of the illness or absence of the witness or the fact of the refusal to sign together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed unless on a motion to suppress under § 3.31-7(d)(4) the Administrative Law Judge holds that the reasons given for the refusal to sign require rejection of the deposition in whole or in part.

(f) *Certification and filing by officer; exhibits; copies; notice of filing.* (1) (i) The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness. He shall then securely seal the deposition in an envelope indorsed with the title of the action and marked "Deposition of [here insert name of witness]" and shall promptly file it with the Secretary of the Commission.

(ii) Documents and things produced for inspection during the examination of the witness, shall, upon the request of a party, be marked for identification and annexed to and returned with the deposition, and may be inspected and copied by any party, except that (A) the person producing the materials may substitute copies to be marked for identification, if he affords to all parties fair opportunity to verify the copies by comparison with the originals, and (B) if the person producing the materials requests their return, the officer shall mark them, give each party an opportunity to inspect and copy them, and return them to the person producing them, and the materials may then be used in the same manner as if annexed to and returned with the deposition. Any party may move for an order that the original be annexed to and returned with the deposition to the Secretary of the Commission, pending final disposition of the case.

(2) Upon payment of reasonable charges therefor, the officer shall furnish a copy of the deposition to any party or to the deponent.

(3) The party taking the deposition shall give prompt notice of its filing to all other parties.

§ 3.31-6 Depositions upon written questions.

(a) *Serving questions; notice.* (1) After service of the complaint, any party may take the testimony of any person, including a party, by deposition upon written questions, except that the deposition by written questions of an officer or employee of the Commission other than complaint counsel, or the deposition of an officer or employee of another government agency, may be taken only with leave of the Administrative Law Judge given in response to a motion and upon a showing as specified by § 3.31-5(b)(2). The attendance of witnesses may be compelled by the use of subpoena as provided in § 3.31-12.

(2) A party desiring to take a deposition upon written questions shall serve them upon every other party with a notice stating (i) the name and address of the person who is to answer them, if known, and if the name is not known, a general description sufficient to identify him or the particular class or group to which he belongs, and (ii) the name or descriptive title and address of the officer before whom the deposition is to be taken. A deposition upon written questions may be taken of a public or private corporation or a partnership or association or governmental agency in accordance with the provisions of § 3.31-5(b)(5).

(3) Within 30 days after the notice and written questions are served, a party may serve cross questions upon all other parties. Within 10 days after being served with cross questions, a party may serve redirect questions upon all other parties. Within 10 days after being served with redirect questions, a party may serve recross questions upon all other parties. The Administrative Law Judge may for cause shown enlarge or shorten the time.

(b) *Officer to take responses and prepare record.* A copy of the notice and copies of all questions served shall be delivered by the party taking the deposition to the officer designated in the notice, who shall proceed promptly, in the manner provided by § 3.31-5 (c), (e), and (f), to take the testimony of the witness in response to the questions and to prepare, certify, and file or mail the deposition, attaching thereto the copy of the notice and the questions received by him.

(c) *Notice of filing.* When the deposition is filed the party taking it shall promptly give notice thereof to all other parties.

§ 3.31-7 Use of depositions in adjudicative proceedings.

(a) *Use of depositions.* At hearing or upon the hearing of a motion or an interlocutory proceeding, any part or all of a deposition, so far as admissible under the rules of evidence applied as though the witness were then present and testifying, may be used against any party who was present or represented at the taking of the deposition or who had reasonable notice thereof, in accordance with any of the following provisions:

(1) Any deposition may be used by any party for the purpose of contradicting or impeaching the testimony of deponent as a witness.

(2) The deposition of a party or of anyone who at the time of taking the deposition was an officer, director, or managing agent, or a person designated under §§ 3.31-5(b)(5) or 3.31-6(a) to testify on behalf of a public or private corporation, or partnership or association or governmental agency which is a party or on behalf of complaint counsel may be used by an adverse party for any purpose.

(3) The deposition of a witness, whether or not a party, may be used by any party for any purpose if the Administrative Law Judge finds: (i) that the witness is dead; or (ii) that the witness is out of the United States, unless it appears that the absence of the witness was procured by the party offering the deposition; or (iii) that the witness is unable to attend or testify because of age, illness, infirmity, or imprisonment; or (iv) that the party offering the deposition has been unable to procure the attendance of the witness by subpoena; or (v) upon application and notice, that such exceptional circumstances exist as to make it desirable, in the interest of justice and with due regard to the importance of presenting the testimony of witnesses orally at hearing, to allow the deposition to be used.

(4) If only part of a deposition is offered in evidence by a party, an adverse party may require him to introduce any other part which ought in fairness to be considered with the part introduced, and any party may introduce any other parts.

Substitution of parties does not affect the right to use depositions previously taken; and, when a complaint has been dismissed and another complaint involving the same subject matter is afterward brought against the same parties or their representatives or successors in interest, all depositions lawfully taken and duly filed in the former proceeding may be used in the latter as if originally taken therefor.

(b) *Objections to admissibility.* Subject to the provisions of § 3.31-3(b) and paragraph (d)(3) of this section, objection may be made at the hearing to receiving in evidence any deposition or part thereof for any reason which would require the exclusion of the evidence if the witness were then present and testifying.

(c) *Effect of taking or using depositions.* A party does not make a person his own witness for any purpose by taking his deposition. The introduction in evidence of the deposition or any part thereof for any purpose other than that of contradicting or impeaching the deponent makes the deponent the witness of the party introducing the deposition,

but this shall not apply to the use by any adverse party of a deposition under paragraph (a)(2) of this section: At the hearing any party may rebut any relevant evidence contained in a deposition whether introduced by him or by any other party.

(d) *Effect of Errors and Irregularities in Depositions.* (1) *As to notice.* All errors and irregularities in the notice for taking a deposition are waived unless written objection is promptly served upon the party giving the notice.

(2) *As to disqualification of officer.* Objection to taking a deposition because of disqualification of the officer before whom it is to be taken is waived unless made before the taking of the deposition begins or as soon thereafter as the disqualification becomes known or could be discovered with reasonable diligence.

(3) *As to taking of deposition.* (i) Objections to the competency of a witness or to the competency, relevancy, or materiality of testimony are not waived by failure to make them before or during the taking of the deposition, unless the ground of the objection is one which might have been obviated or removed if presented at that time.

(ii) Errors and irregularities occurring at the oral examination in the manner of taking the deposition, in the form of the questions or answers, in the oath or affirmation, or in the conduct of parties, and errors of any kind which might be obviated, removed, or cured if promptly presented, are waived unless reasonable objection thereto is made at the taking of the deposition.

(iii) Objections to the form of written questions submitted under § 3.31-6 are waived unless served in writing upon the party propounding them within the time allowed for serving the succeeding cross or other questions and within 5 days after service of the last questions authorized.

(4) *As to completion and return of deposition.* Errors and irregularities in the manner in which the testimony is transcribed or the deposition is prepared, signed, certified, sealed, indorsed, transmitted, filed, or otherwise dealt with by the officer under §§ 3.31-5 and -6 are waived unless a motion to suppress the deposition or some part thereof is made with reasonable promptness after such defect is, or with due diligence might have been, ascertained.

§ 3.31-8 Interrogatories to parties.

(a) *Availability; procedures for use.* (1) Any party may serve upon any other party written interrogatories to be answered by the party served or, if the party served is a corporation or a partnership or association, by any officer or agent or if complaint counsel, by any one of complaint counsel, who shall furnish such information as is available to the party. Interrogatories may, without leave of the Administrative Law Judge, be served upon complaint counsel after service of the complaint and upon the respondent or respondents with or after service of the complaint upon that party.

(2) Each interrogatory shall be answered separately and fully in writing under oath, unless it is objected to, in which event the reasons for objection shall be stated in lieu of an answer. The answers are to be signed by the person making them, and the objections signed by the attorney making them. The party upon whom the interrogatories have been served shall serve a copy of the answers, and objections if any, within 30 days after the service of the interrogatories, except that a respondent may serve answers or objections within 45 days after service of the complaint upon that respondent. The Administrative Law Judge may allow a shorter or longer time. The party submitting the interrogatories may move for an order under § 3.31-11(a) with respect to any objection to or other failure to answer an interrogatory.

(b) *Scope; use at hearing.* (1) Interrogatories may relate to any matters which can be inquired into under § 3.31-2(b), and the answers may be used to the extent permitted by the rules of evidence.

(2) An interrogatory otherwise proper is not necessarily objectionable merely because an answer to the interrogatory involves an opinion or contention that relates to fact or the application of law to fact, but the Administrative Law Judge may order that such an interrogatory need not be answered until after designated discovery has been completed or until a pretrial conference or other later time.

(c) *Option to Produce Records.* Where the answer to an interrogatory may be derived or ascertained from the records of the party upon whom the interrogatory has been served or from an examination, audit or inspection of such records, or from a compilation, abstract or summary based thereon, and the burden of deriving or ascertaining the answer is substantially the same for the party serving the interrogatory as for the party served, it is a sufficient answer to such interrogatory to specify the records from which the answer may be derived or ascertained and to afford to the party serving the interrogatory reasonable opportunity to examine, audit or inspect such records and to make copies, compilations, abstracts or summaries.

§ 3.31-9 Production of documents and things for inspection and other purposes.

(a) *Scope.* Any party may serve on any other party a request (1) to produce and permit the party making the request, or someone acting on his behalf, to inspect and copy, any designated documents (including writings, drawings, graphs, charts, photographs, phono-records, and other data compilations from which information can be obtained, translated, if necessary, by the party upon whom the request is served through detection devices into reasonably usable form), or to inspect and copy, test, or sample any tangible things which constitute or contain matters within the scope of § 3.31-2(b) and which are in the possession, custody or control of the party upon whom the request is served.

(b) *Procedure.* (1) The request may, without leave of the Administrative Law Judge, be served upon complaint counsel after service of the complaint and upon the respondent or respondents with or after service of the complaint upon that respondent. The request shall set forth the items to be inspected either by individual item or by category, and describe each item and category with reasonable particularity. The request shall specify a reasonable time, place, and manner of making the inspection and performing the related acts.

(2) The party upon whom the request is served shall serve a written response within 30 days after the service of the request, except that a respondent may serve a response within 45 days after service of the complaint upon that respondent. The Administrative Law Judge may allow a shorter or longer time. The response shall state, with respect to each item or category, that inspection and related activities will be permitted as requested, unless the request is objected to, in which event the reasons for objection shall be stated. If objection is made to part of an item or category, the part shall be specified. The party submitting the request may move for an order under Section 3.31-11 with respect to any objection to or other failure to respond to the request or any part thereof, or any failure to permit inspection as requested.

§ 3.31-11 Failure to make discovery: sanctions.

(a) *Motion for order compelling discovery.* A party, upon reasonable notice to other parties and all persons affected thereby, may apply to the Administrative Law Judge for an order compelling discovery as follows:

(1) *Motion.* (i) If a deponent fails to answer a question propounded or submitted under § 3.31-5 or § 3.31-6, or a corporation or other entity fails to make a designation under § 3.31-5(b)(5) or § 3.31-6(a), or a party fails to answer an interrogatory submitted under § 3.31-8, or if a party, in response to a request for inspection submitted under Section 3.31-9, fails to respond that inspection will be permitted as requested or fails to permit inspection as requested, the discovering party may move for an order compelling an answer, or a designation, or an order compelling inspection in accordance with the request. When taking a deposition on oral examination, the proponent of the question may complete or adjourn the examination before he applies for an order.

(ii) If the Administrative Law Judge denies the motion in whole or in part, he may make such protective order as he would have been empowered to make on a motion made pursuant to § 3.31-2(c).

(2) *Evasive or incomplete answer.* For purposes of this subdivision an evasive or incomplete answer is to be treated as a failure to answer.

(b) *Failure to comply with order.* If a party or an officer or agent of a party or

V 40-66 APR 4 75 XUM

a person designated under § 3.31–5(b)(5) or § 3.31–6(a) to testify on behalf of a party fails to obey an order to provide or permit discovery, including an order made under paragraph (a) of this section, the Administrative Law Judge may make such orders in regard to the failure as are just, and among others the following:

(1) Infer that the admission, testimony, documents or other evidence would have been adverse to the party;

(2) Rule that for the purposes of the proceeding the matter or matters concerning which the order or subpoena was issued be taken as established adversely to the party;

(3) Rule that the party may not introduce into evidence or otherwise rely, in support of any claim or defense, upon testimony by such party, officer, or agent, or the documents or other evidence;

(4) Rule that the party may not be heard to object to introduction and use of secondary evidence to show what the withheld admission, testimony, documents, or other evidence would have shown;

(5) Rule that a pleading, or part of a pleading, or a motion or other submission by the party, concerning which the order or subpoena was issued, be stricken, or that a decision of the proceeding be rendered against the party, or both.

(c) (i) Action under paragraph (b) of this section may be taken by written or oral order issued in the course of the proceeding or by inclusion in an initial decision of the Administrative Law Judge or an order or opinion of the Commission. It shall be the duty of parties to seek and the Administrative Law Judge to grant such of the means of relief listed in paragraph (b) of this section or other appropriate relief as may be sufficient to compensate for the lack of testimony, documents, or other evidence withheld by a party. If in the Administrative Law Judge's opinion such relief would not be sufficient, or in the case of a subpoena or other discovery order against a person, not a party, would be inappropriate, and if the party who obtained the subpoena or other discovery order so requests, he shall certify to the Commission a request that court enforcement of the subpoena or other discovery order be sought.

(ii) Any request for enforcement of a subpoena or other discovery order against a party certified by an Administrative Law Judge to the Commission shall contain a statement that the party who obtained the subpoena or other discovery order has sought relief of the type listed in paragraph (b) hereof and that the Administrative Law Judge finds that such relief would be insufficient under the circumstances.

§ 3.31–12 Subpoenas.

(a) *Issuance of subpoenas ad testificandum and duces tecum.* Subpoenas requiring a person to appear and depose or testify and subpoenas requiring a person to depose or testify and to produce specified documents or other tangible things, at the taking of a deposition or at a hearing, shall be issued by the Administrative Law Judge, signed and sealed but otherwise in blank, to a party requesting it, who shall fill each subpoena in before service.

(b) *Form of subpoenas duces tecum.* Subpoenas duces tecum shall specify as exactly as possible the documents or physical exhibits to be produced. When the subpoena is sought for discovery purposes, the documents or physical exhibits sought shall constitute or contain matters within the scope of examination permitted by § 3.31–2(b), and the subpoena shall be subject to the provisions of § 3.31–2(c) and of paragraph (c) of this section.

(c) *Objections to subpoenas duces tecum.* The person to whom a subpoena duces tecum is directed may, within 10 days after the service thereof, or such other time as the Administrative Law Judge shall allow, serve upon the attorney designated in the subpoena and file with the Secretary of the Commission written objection to inspection or copying of any or all of the material sought. If objection is made, the party serving the subpoena shall not be entitled to inspect and copy the materials except pursuant to an order of the Administrative Law Judge. The party serving the subpoena may, if objection has been made, move upon notice to the person to whom the subpoena is directed, within 20 days or such other time as the Administrative Law Judge shall allow after service of the objections, for an order directing compliance with the subpoena or any part thereof. The party upon whom the subpoena is served may move within the time allowed for service of objections or within 20 days after service of a motion for an order directing compliance, or such other time as the Administrative Law Judge shall allow, for an order quashing or modifying the subpoena upon any ground contained in § 3.31–2 (b) or (c).

(d) *Objections to subpoenas for non-party Commission records or for records or personnel of other government agencies.* (1) Subpoenas duces tecum served upon the Commission or Commission officials or employees other than complaint counsel or upon other government agencies or their officials or employees shall be subject to objection and motion to quash or modify as provided in paragraph (c) of this section and upon the further ground, if applicable, that the information contained in these materials or their substantial equivalent as evidence could be obtained without undue hardship by alternative means.

(2) Subpoenas ad testificandum served upon the Commission or Commission officials or employees other than complaint counsel or upon other government agencies or their officials or employees shall include a statement of the subject matter of the testimony sought, and shall be subject to objection and motion to quash or limit as provided in paragraph (c) of this section, and upon the further grounds, if applicable, that such testimony would be contrary to the public interest, or that the information or evidence sought could be obtained without undue hardship by alternative means.

Subpart C—Prehearing Procedures; Motions; Interlocutory Appeals; Summary Decisions

4. Sections 3.21(b) and 3.23(a) are revised to conform with the proposed substantive and formal changes in §§ 3.31–3.38.

§ 3.21 Prehearing conferences.

* * * * *

(b) *Subpoenas.* Prehearing conferences may be convened for the purpose of accepting returns on *subpoenas duces tecum* issued pursuant to the provisions of § 3.31–12.

§ 3.23 Interlocutory appeals.

* * * * *

(a) *Appeals without a determination by the Administrative Law Judge.* The Commission may, in its discretion, entertain interlocutory appeals where a ruling of the Administrative Law Judge: (1) Requires the disclosure of documents within the possession, custody and control of the Secretary of the Commission or information within the knowledge of Commission personnel other than complaint counsel; (2) requires the appearance of other government officials or the disclosure of the records of another government agency; (3) suspends an attorney from participation in a particular proceeding pursuant to § 3.42(d); or (4) grants or denies an application for intervention pursuant to the provisions of § 3.14. Appeal from such a ruling may be sought by filing with the Commission an application for review, not to exceed fifteen (15) pages, within five (5) days after notice of the Administrative Law Judge's ruling. Answer thereto may be filed within five (5) days after service of the application for review. The application for review should specify the person or party taking the appeal; should designate the ruling or part thereof from which appeal is being taken; and should specify under which provisions hereof review is being sought. The Commission upon its own motion may enter an order staying the return date of an order for discovery pursuant to §§ 3.31–1 through 3.31–12 of these rules which will require the disclosure of documents within the possession, custody and control of the Secretary of the Commission or information within the knowledge of Commission personnel other than complaint counsel, or the appearance of other government officials or the disclosure of the records of another government agency, and such order may place the matter on the Commission's docket for review. Any order placing the matter on the Commission's docket for review will set forth the scope of the review and the issues which will be considered and will make provision for the filing of briefs if deemed appropriate by the Commission.

§ 3.32 [Redesignated]

5. Section 3.39 is proposed to be redesignated as § 3.32.

Subpart E—Hearings

6. Section 3.41(f) is revised to conform with the redesignation of § 3.39 as proposed § 3.32.

§ 3.41 General rules.

* * * * *

(f) Requests for an order requiring a witness to testify or provide other information and granting immunity under Title 18, Section 6002, of the United States Code, shall be disposed of in accordance with § 3.32.

By direction of the Commission dated March 11, 1975.

[SEAL] VIRGINIA M. HARDING,
Acting Secretary.

[FR Doc.75–8492 Filed 4–3–75;8:45 am]

[16 CFR Part 4]

RULES OF PRACTICE AND PROCEDURE

Separation of Functions and Ex Parte Communications

Notice is hereby given that the Federal Trade Commission, pursuant to section 6 of the Federal Trade Commission Act, 38 Stat. 721 (15 U.S.C. 46) (1970) and 5 U.S.C. 552 (1970), 80 Stat. 383, as amended, 81 Stat. 54 (formerly section 3 of the Administrative Procedure Act) is proposing a revision of § 4.7 of its rules of practice and procedure, 16 CFR 4.7.

Under the proposal, present § 4.7 would be revised to separate and distinguish restrictions on ex parte communications between, on the one hand, Commission decisionmakers and staff investigators and prosecutors of an adjudicative proceeding or a factually related adjudicative proceeding, and between, on the other hand, Commission decisionmakers and persons outside the Commission. Proposed § 4.7(a) would concern the first type of communications and would incorporate language which conforms to the "separation of functions" provision of 5 U.S.C. 554(d) (formerly section 5 (c) of the Administrative Procedure Act). Proposed § 4.7(b) would focus exclusively on the second type of communications, would expand the prohibition to include any communication "about" an adjudicative proceeding, as distinguished from "the merits" of the proceeding, except for an ex parte communication authorized by law or the Commission's Rules or a request for information about the status of a proceeding, and would substitute the phrase "a member of a Commissioner's personal staff" for the present phrase "any employee involved in the decisional process in such a proceeding". Proposed § 4.7(c) would eliminate the requirement of present § 4.7 (c) that the Commission be informed of the substance of a prohibited ex parte communication, would provide that any such communication be placed on the public records of the Commission, but not considered as part of the record in the proceeding for purposes of decision unless introduced into evidence and would retain a discretionary right of the Commission to take such further action for a violation of the section as it may deem appropriate.

Section 4.7 would be revised to read as follows:

§ 4.7 Separation of functions and ex parte communications.

(a) No Commission employee or agent who has performed an investigative or prosecuting function for the Commission in connection with an adjudicative proceeding shall, in that or a factually related adjudicative proceeding, participate or advise in any decision therein of the Administrative Law Judge or of the Commission except as a witness or as counsel in public proceedings.

(b) No person not employed by the Commission shall communicate about an adjudicative proceeding to the Administrative Law Judge presiding therein, to a Commissioner or to a member of a Commissioner's personal staff except to the extent required for the disposition of ex parte matters as authorized by law or as authorized by the Commission's Rules to be disposed of on an ex parte basis. A request for information with respect to the status of an adjudicative proceeding shall not be deemed to be a communication prohibited by this subsection.

(c) If a communication is made in violation of paragraphs (a) or (b) of this section, the recipient thereof shall file a copy of the pertinent part of such communication, if written, or a summary of such communication, if oral, with the Secretary for inclusion in the docket binder of the case to which it pertains and it shall be made part of the public records of the Commission. However, such communications will not be considered by the Commission as part of the record for purposes of decision unless introduced into evidence. The Commission may take such further action as it may deem appropriate for violation of this section.

Written comments on the foregoing proposed revision of § 4.7 may be sent to the Secretary, Federal Trade Commission, Pennsylvania Avenue and 6th Street NW., Washington, D.C. 20580 on or before May 5, 1975. Such comments will be entered on the public records of the Commission and will be available for inspection in Room 130 at the above address during normal business hours.

By direction of the Commission dated March 11, 1975.

[SEAL] VIRGINIA M. HARDING,
Acting Secretary.

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 190—BASIC EDUCATIONAL OPPORTUNITY GRANT PROGRAM

Expected Family Contribution for Academic Year 1975–1976

A notice of proposed rule making was published in the FEDERAL REGISTER on July 2, 1974 (39 FR 24481), to amend Subparts C and D of Part 190 of Title 45 of the Code of Federal Regulations dealing with the Family Contribution Schedules for the Basic Educational Opportunity Grant Program. Such amendments were to apply for academic year 1975–1976. The key provisions of these amendments were essentially as follows:

1. Subpart C set forth the method to be used in determining the expected family contribution for dependent students which is used to determine a student's grant under the Basic Educational Opportunity Grant Program. It established procedures for determining the expected family contribution from parental income and assets, including the allowances to be made against income and assets and the rates of contribution against income and assets after such allowances have been made, and the expected contribution from the effective income of the dependent student and from the dependent student's assets.

2. Subpart D set forth the methods to be used in determining the expected family contribution for independent students. It established the definition of the independent student and further set forth procedures for determining the expected family contribution from the effective income of the independent student, the contribution from the income of the independent student including allowances against such income and the rates of contribution to be used in determining the contribution from the income after the allowances have been made, and the rates to be used in determining the contribution from the assets of the independent student.

Interested parties were invited to submit written comments, suggestions, or objections with regard to the proposed Family Contribution Schedules. In addition, as required by section 411(a)(3)(A)(ii) of the Higher Education Act of 1965, as amended (20 U.S.C. 1070a(a)(3)(A)(ii)), the schedules were submitted to the President of the Senate and the Speaker of the House and hearings on these Schedules were held by the Senate Subcommittee on Education on October 3, 1974, and by the House Special Subcommittee on Education on September 30, 1974.

Comments from the public, as well as Congressional comments, centered around four main issues in the Schedules: the treatment of assets; the treatment of "effective income of the student;" the level of the family size offsets; and the treatment of independent students who leave their jobs to pursue postsecondary education.

During the first two years of Program operations, the treatment of assets in the family contribution schedules has raised considerable Congressional and public concern. During the first year of program operation, the 1973–1974 academic year, the amount of assets which were considered in the formula was that amount which remained after deductions for any debts against the assets and an asset reserve of $7,500. This treatment was revised in 1974–75 to provide for an offset against the contribution from assets in those cases where allowable deductions from income exceeded the family's income. This revised treatment reduced the problems for families with a relatively high asset position and low annual incomes, such as farmers and small business owners.

Despite those changes however, concern was still expressed regarding those families who have the bulk of their assets in home equity. This is particularly true for many families with low and lower-middle incomes who by reason of a substantial home equity may not qualify for assistance under this program. To alleviate this situation, the asset reserve has been raised from the current $7,500 to a $10,000 level. Because the median home equity of all dependent applicants according to the latest program statistics on the 1974–75 Basic Grant applicants is $10,535, raising the asset reserve to $10,000 will, we believe, bring it more into line with general experience and expectations.

A second major concern was expressed regarding the treatment of effective income of the student which is defined by law to be any amount paid to or on behalf of the student under the Social Security Act which would not be paid if he were not a student and one-half of any amount of educational benefits paid through the Veterans Administration. While few objections were raised to the treatment of V.A. benefits, the treatment of social security benefits is of major concern, in that many families receiving social security benefits are dependent on these funds for family maintenance. For the lowest income families, social security benefits often represent their sole financial support.

In response to the concern expressed with regard to the treatment of effective income of the student, the Schedules were changed during the 1974–75 academic year to provide, in those cases where the allowable offsets against the total family income exceeded the amount of that income, a deduction from the effective income of the student to offset this negative amount. Although this changed treatment partially alleviated the problems affecting social security recipients, it did not remove all of the inequities for many student recipients. Consequently, for the 1975–76 academic year, the treatment of the effective income of the student is changed to include such income as regular family income for purposes of computing the family contribution. As such, the effective income of the student is subject to the same treatment and assessment rates as the regular family income. In this context, it should be noted that the effective income of the student as specified in the legislation includes both social security benefits and benefits from the Veterans Administration. Therefore, any modification proposed to alleviate the problems affecting social security recipients must necessarily have the same impact on recipients of Veterans educational assistance.

In making adjustments in the treatment of the student's effective income, the social security income will be collected for the base year rather than the year subsequent to the base year, which has been the case in the past. This change has been made because under the new treatment of social security income it is not essential that the educational benefits for social security recipients be separately collected. Further, the social security payments for the total family rarely differ from one year to the next, regardless of whether a student is enrolled in school. In addition, this change will contribute to a simplification of instructions for the completion of the application form, as well as the reduction of the complexity of the form itself.

The comments on the family size offsets dealt with the proper rate of increase to be applied to current offsets in order to reflect rising costs. In order to establish a standard for determining the amount of subsistence expenses, the Basic Grant Program adopted during the initial year of operation the "Weighted Average Thresholds at the Low Income Level" published by the Bureau of Census as a reasonable approximation of family expenses. These expenses are based on the food cost of families of a given size and make certain assumptions about the additional expenses of shelter and other family needs. These base line data have been up-dated annually to accommodate the increases in the Consumer Price Index as published by the Department of Labor. For the 1975–76 academic year, the family size offsets used during the 1974–75 academic year have been increased by 11.9 percent to reflect the rise in cost of living expenses from November 1973 to October 1974. The percentage increase is taken from the published Department of Labor Consumer Price Index Statistics.

A fourth major concern dealt with the treatment of the independent student who was employed on a full-time basis in the base year but who left his job in order to pursue postsecondary education. For the 1974–75 academic year, the independent student's eligibility is calculated based on base year 1973 income data. The only provisions which would allow the independent student to file a Basic Grant application using estimated current year (1974) income data are: (1) The inability of the applicant to pursue normal income producing activities due to disability or natural disaster, (2) the separation or divorce of the applicant since the time the Basic Grant application was filed, and, (3) the death of a spouse whose income was included in the calculation of the family contribution. Therefore, the independent applicant who was employed on a full-time basis and earned income in the base year has often been determined to be ineligible for Basic Grant assistance, even though the income earned during that time was no longer available.

In response to this concern, the regulations have been amended to include a provision which would permit independent student applicants who were not students in the base year, who were employed for at least 35 hours per week for a minimum of 30 weeks during the base year and who will not be comparably employed during the current year to file a Basic Grant application using estimated current year income data.

In order to improve the organization of the regulations, the criteria under which an applicant may use the estimated income of the tax year subsequent to the base year has been incorporated as part of the regulations governing the family contribution schedules. Specifically, that portion of § 190.16 dealing with dependent students has been incorporated into Subpart C as § 190.39, and that portion of § 190.16 dealing with independent students has been incorporated into Subpart D as § 190.48. Section 190.16 has been revised to cross reference this change.

It should further be noted that, in view of the pressing need to incorporate the provisions dealing with the use of estimated income for the independent student as part of the student application process for the 1975–76 academic year, and in view of the fact that the change for the independent student has already received Congressional review, it has been determined in accordance with 5 U.S.C. 553(b) that resort to proposed rule making procedures with respect to this provision would be impracticable and contrary to the public interest. Since the family contribution schedules are required to be submitted annually for Congressional approval and public comment, there will be additional opportunity to make further modifications if subsequent program experience and public comments warrant additional modifications.

The Family Contribution Schedules, as published, also contained some technical inaccuracies and omissions. These inaccuracies and omissions have been corrected in this publication of the regulations.

In light of the foregoing, Part 190 of Title 45 of the Code of Federal Regulations is amended by the revision of § 190.16 and of Subparts C and D as set forth below.

Effective date. Pursuant to section 431(d) of the General Education Provisions Act, as amended, (20 U.S.C. 1232(d)) these regulations have been transmitted to the Congress concurrently with the publication of this document in the FEDERAL REGISTER. That section further provides that regulations subject thereto shall become effective on the forty-fifth day following the date of such transmission, subject to the provisions therein concerning Congressional action and adjournment.

(Catalog of Federal Domestic Assistance No. 13.539, Basic Educational Opportunity Grant Program)

Dated: February 26, 1975.

T. H. BELL,
Commissioner of Education.

Approved: March 31, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

1. Section 190.16 of Title 45 of the Code of Federal Regulation is revised to read as follows:

§ 190.16 Extraordinary circumstances affecting the expected family contribution determination—cross reference.

The Commissioner will make adjustments to a student's expected family contribution because of extraordinary circumstances in accordance with § 190.39 for dependent students and § 190.48 for independent students.

(20 U.S.C. 1070a)

2. Subparts C and D of Part 190 of Title 45 of the Code of Federal Regulations are revised to read as follows:

Subpart C—Expected Family Contribution for Dependent Students

§ 190.31 Indicators of financial strength.

"Expected family contribution" with respect to each dependent student means the amount which the family of that student may reasonably be expected to contribute toward the cost of his education for an academic year. Each of the following elements of financial strength will be considered in determining the family contribution for dependent students:

(a) The amount of the effective income of the student.

(b) The amount of the effective income of the student's parent(s).

(c) The number of dependents of the student's parent(s).

(d) The number of dependents of the student's parent(s) who are in attendance, on at least a half-time basis, in a program of postsecondary education.

(e) The amount of assets of the student.

(f) The amount of assets of the student's parent(s).

(g) Unusual expenses of the student and the unusual expenses of the student's parent(s). Such unusual expenses shall be limited to medical and dental expenses and expenses arising from catastrophe.

(h) The additional expenses incurred in providing an income when two parents are employed or when a family is headed by a single parent.

(20 U.S.C. 1070a(a)(3)(B)(ii)).

§ 190.32 Special definitions.

For purposes of this subpart:

(a)(1) "Annual adjusted family income" for any base year means the sum of the following: Adjusted gross income as defined in section 62 of the Internal Revenue Code of the student's parents, whether or not the parents file an income tax return, investment income of the student's parents upon which no Federal income tax is required to be paid such as interest on municipal and State bonds, other income of the parents upon which no Federal income tax is required to be paid such as child support payments, income of the parents received under income maintenance programs including welfare benefits, social security benefits paid to the student's parents except those educational benefits paid on account of the student or other members of the student's family, and Veteran's benefits paid to the student's parents except those educational benefits paid on account of the student or other members of the student's family under Chapter 35 of Title 38 of the United States Code.

(2) In the case of the student whose parents are divorced, or separated, only the income as described in subparagraph (1) of paragraph (a) of this section of the parent who provides more than one-half of the student's support for the base year shall be considered in determining the annual adjusted family income. If no parent provides more than one-half of the support of the student, only the income as described in subparagraph (1) of paragraph (a) of this section of the parent who provides the greater amount of that student's financial support in the base year shall be considered in determining the annual adjusted family income.

(3) In the case of the student whose parents are married, and not separated and file separate returns for Federal income tax purposes, the income as described in subparagraph (1) of paragraph (a) of this section of both parents shall be combined to determine the annual adjusted family income for that student.

(b) "Assets" means cash on hand including amounts in checking accounts, savings accounts and trusts, the current market value at the time of application of stocks, bonds, any other securities, real estate, home (if owned), income producing property, business equipment and business inventory which are held by the student's parents and by the student.

(c) "Base year" means the tax year for which information is requested by the Commissioner for the purpose of determining family income.

(d) "Dependent student" means any student who does not qualify as an independent student as defined in § 190.42(a).

(e) "Effective income of the student" means any amount paid to, or on account of, the student for the base year under the Social Security Act which would not be paid if he were not a student, (i.e., under section 202(d) of title II of the Social Security Act, 42 U.S.C. 402(d)), and one-half of any amount to be paid the student for the academic year for which Basic Grant Assistance is re-

V 40 166

quested under chapter 34 of title 38, United States Code (Veterans Educational Assistance—38 U.S.C. 1651 et seq.) and chapter 35 of title 38, United States Code, War Orphans' and Widows' Education Assistance—38 U.S.C. 1700 et seq.).

(20 U.S.C. 1070a(a)(3)(B)(iv))

(f) "Effective family income" of a student's parents means the annual adjusted family income received for the base year minus the Federal income tax paid or payable with respect to such income during the base year.

(20 U.S.C. 1070a(a)(3)(B)(iii))

(g) "Employment expenses offset" means an allowance to meet expenses relating to employment where both parents are employed or where one parent qualifies as a surviving spouse or as head of a household under section 2 of the Internal Revenue Code.

(h) "Expenses arising from catastrophe" means those types and amounts of casualty losses which may be deducted under section 165(c)(3) of the Internal Revenue Code which were incurred during the base year by the student, the parents of the student and the parents' dependents.

(20 U.S.C. 1070a(a)(3)(B)(ii)(V))

(i) "Family size offset" means an allowance to meet subsistence expenses, including food, shelter, clothing, and other basic needs of a family. For purposes of this part the "Weighted Average Threshold at the Low Income Level," as developed by the Social Security Administration shall be used as a basis to determine the amount for the family size offset.

(j) "Federal income tax" means the tax on income paid to the U.S. Government under chapter 2 of the Internal Revenue Code and the tax on income paid to the Governments of Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands under the laws applicable to those jurisdictions.

(20 U.S.C. 1070a(a)(3)(B)(iii))

(k) "Medical expenses" means those types of medical and dental expenses, except premiums for medical insurance, that may be deducted under section 213 of the Internal Revenue Code which were incurred during the base year by the student, the parents of the student and the parents' dependents.

(l) "Net assets" means the current market value of the assets included in paragraph (b) of this section, minus the outstanding liabilities (indebtedness) against such assets at the time of application.

(m) "Parent" means the mother or father of the student, unless any other person, except the student's spouse, provides more than one-half of the student's support and claims or is eligible to claim the student as an exemption for Federal income tax purposes for the base year, in which case such person shall be considered the parent.

(n) "Student's parents' dependents" means any of the following persons for whom the parents provide or will provide during the calendar year in which the student applies to have his expected family contribution determined more than one-half of support: (1) Any other children of the student's parents; (2) any other persons related to the student's parents by blood or marriage; or (3) any person living with the parents.

(20 U.S.C. 1070a(a)(3)(B) unless otherwise noted)

§ 190.33 The expected family contribution for dependent students from parents' and student's effective income.

The expected family contribution for dependent students from parents' and student's effective income for each grant shall be an amount determined in the following manner:

(a) Determine the effective family income of the student's parents.

(b) Add to the amount determined in paragraph (a) of this section the effective income of the student as defined in § 190.32(e).

(c) Determine discretionary income by deducting from the amount calculated in paragraph (b) of this section the following:

(1) *Family size offset.* A family size offset is the amount specified in the following table. Family size includes the student, the student's parents and the student's parents' dependents. If the parents are divorced or separated, family size shall include the student and any parent whose income is taken into account for the purpose of computing the annual adjusted family income and that parent's dependents.

FAMILY SIZE OFFSET

Family size	*Dollar amount*
2	3400
3	4100
4	5200
5	6150
6	6950
7	7700
8	8500
9	9300
10	10100
11	10850
12	11650

(2) *Unusual expenses.* The amount by which the sum of medical and dental expenses and losses resulting from catastrophes incurred in the base year and not compensated by insurance exceeds 20 percent of effective family income. Unusual expenses may be deducted if they were incurred by the student, the student's parents and/or the student's parents' dependents.

(3) *Employment expense offset.* An employment expense offset in an amount equal to 50 percent of the adjusted gross income earned in the base year by the parent earning the lesser income if both parents are employed, or 50 percent of the adjusted gross income earned in the base year of a parent qualifying as surviving spouse or as head of household as defined in section 2 of the Internal Revenue Code, but in no case shall such an offset exceed $1,500. The expense may be claimed only if the income of both parents or the income of the surviving spouse or head of household is taken into account for the purposes of computing the annual adjusted family income.

(d) To determine the expected family contribution from parental income the following rates shall be applied to discretionary income:

$0	(No contribution expected.)
$1 to 4,999	20 percent of Discretionary Income.
$5,000 or more	$1,000 plus 30 percent of Discretionary Income in excess of 5,000.

(20 U.S.C. 1070a(a)(3)(B).)

§ 190.34 [Reserved]

§ 190.35 Computation of standard expected contribution from parents' assets.

(a) Except as provided for in paragraph (b) of this section, the expected contribution from parental assets shall be an amount determined in the following manner:

(1) Determine the net assets owned by the parents.

(2) Deduct an asset reserve of $10,000 from net assets as determined in subparagraph (1) of paragraph (a) of this section.

(3) The contribution from parental assets shall be an amount equal to 5 percent of the remainder obtained in subparagraph (2) of paragraph (a) of this section.

(b)(1) Where the calculations required by § 190.33(c) produce an amount of negative discretionary income as defined in subparagraph (2) of this paragraph, the expected contribution from parents' assets, calculated in subparagraph (3) of paragraph (a) of this section, shall be reduced by the amount of such negative discretionary income.

(2) The amount of negative discretionary income is the amount by which the sum of deductions for offsets and expenses set forth in § 190.33(c)(1) through § 190.33(c)(3) exceeds the amount of income determined in § 190.33(b).

(c) If the student's parents are divorced or separated only the assets of the parent whose income is taken into account for the purpose of computing annual adjusted family income shall be considered.

(20 U.S.C. 1070a(a)(3)(B).)

§ 190.36 Computation for expected contribution from parents' income, student's effective income, and parents' assets, adjusted for number of family members attending institutions of postsecondary education.

(a) For each grant the amount expected from parents' income and student's effective income as determined in § 190.33 shall be added to the amount expected from parents' assets as determined in § 190.35.

(b) For each grant the combined expectation calculated on the basis of the above formula shall be further adjusted in the following manner to take into consideration the number of family members who will be in attendance, on at least a half-time basis, in programs of

postsecondary education during the academic year for which basic grant assistance is required:

Number of family members attending institutions of postsecondary education	*Expected contribution from combined contribution per student*
1	100 percent of contribution from the amount determined in paragraph (a) of this section.
2	70 percent of contribution from the amount determined in paragraph (a) of this section.
3	50 percent of contribution from the amount determined in paragraph (a) of this section.
4 or more	40 percent of contribution from the amount determined in paragraph (a) of this section.

Family members include the student, the student's parents and the student's parents' dependents. When the student's parents are divorced or separated and are filing separate returns for Federal income tax purposes, family members shall include the student and any parent whose income is taken into account for the purpose of computing annual adjusted family income and that parents' dependents.

(20 U.S.C. 1070a(a)(3)(B))

§ 190.37 Computation of expected contribution from student's assets.

For each grant the contribution from the student's assets shall be an amount equal to 33 per centum of his net assets as defined in § 190.32(l).

(20 U.S.C. 1070a(a)(3)(B).)

§ 190.38 Computation of the total expected family contribution.

For each grant the total expected family contribution shall be the sum of:

(a) The expected contribution from discretionary income and parents' assets as determined in § 190.36, and

(b) The expected contribution from the student's assets as determined in § 190.37.

(20 U.S.C. 1070a).

§ 190.39 Extraordinary circumstances affecting the expected family contribution determination for dependent students.

(a) An applicant may submit an application to the Commissioner, for determination of the applicant's expected family contribution, (or, if such an application has previously been submitted, may submit a new application) which shall use as the base year for this purpose the tax year subsequent to the base year established by the Commissioner if:

(1) A parent whose income was included in the calculation of expected family contribution as determined in § 190.33 has died in the base year or the tax year subsequent to the base year, or

(2) A parent whose income was included in the calculation of the expected family contribution as determined in § 190.33 has experienced loss of employment of at least ten (10) weeks during the tax year subsequent to the base year, or

(3) A parent whose income was included in the calculation of the expected family contribution as determined in § 190.33 has been unable to pursue normal income-producing activities for a period of at least ten (10) weeks during the tax year by reason of: (i) disability or, (ii) loss or damage to income-producing property as a result of natural disaster, or

(4) The parents of a dependent student applicant have become separated or divorced since the time the student submitted his application.

(b) An application submitted pursuant to paragraph (a) of this section shall include the annual adjusted family income and effective student income received for the newly established base year, i.e., the tax year subsequent to the original base year. If necessary, an estimate of the annual adjusted family income and the effective student income shall be provided for the remainder of such year.

(20 U.S.C. 1070a(a)(3)(B)(i)(V))

Subpart D—Expected Family Contribution for Independent Students

§ 190.41 Indicators of financial strength.

"Expected Family Contribution" with respect to each independent student means the amount which that student, and his or her spouse, if any, may reasonably be expected to contribute toward the cost of his or her education for an academic year. Each of the following elements of financial strength will be considered in determining the family contribution for independent students:

(a) The amount of effective income of the independent student.

(b) The amount of annual adjusted family income of the independent student and the independent student's spouse.

(c) The number of persons whom the independent student can claim as an exemption.

(d) The number of dependents of the independent student who in addition to the student will be in attendance, on at least a half-time basis, in a program of postsecondary education.

(e) The amount of the assets of the independent student and his or her spouse.

(f) The unusual expenses of the independent student, and his or their dependents. Such unusual expenses shall be limited to medical and dental expenses and expenses arising from catastrophic

(g) The additional expenses incurred in providing an income where both the independent student and his spouse are employed or where the independent student qualifies as a surviving spouse or as head of a household under section 2 of the Internal Revenue Code.

(20 U.S.C. 1070a(a)(3)(C).)

§ 190.42 Special definitions.

For the purposes of this subpart:

(a) "Independent Student" means a student who:

(1) Has not and will not be claimed as an exemption for Federal income tax purposes by any person except his or her spouse for the calendar year(s) in which aid is received and the calendar year prior to the academic year for which aid is requested,

(2) Has not received and will not receive financial assistance of more than $600 from his or her parent(s) in the calendar year(s) in which aid is received and the calendar year prior to the academic year for which aid is requested, and

(3) Has not lived or will not live for more than 2 consecutive weeks in the home of a parent during the calendar year in which aid is received and the calendar year prior to the academic year for which aid is requested.

(b) (1) "Annual Adjusted Family Income" for any base year means the sum of the following: Adjusted gross income as defined in section 62 of the Internal Revenue Code of the student and the student's spouse, whether or not the student or the student's spouse files an income tax return, investment income upon which no Federal income tax is required to be paid such as interest on municipal and State bonds, other income of the student and the student's spouse upon which no Federal income tax is required to be paid such as child support payments, income of the student and the student's spouse received under income maintenance programs including welfare benefits, social security benefits except those benefits paid to or on account of the student included in paragraph (f) of this section, and veteran's benefits except those veteran's benefits paid to the independent student under chapters 34 and 35 of title 38 of the United States Code.

(2) In the case of the student who is divorced, or is separated only the student's own income shall be considered in determining the annual adjusted family income.

(3) In the case where the student and his spouse are married and not separated but file separate returns for Federal income tax purposes, the income as described in paragraph (b)(1) of this section of both the applicant and spouse shall be combined to determine the annual adjusted family income for that student.

(c) "Assets" means cash on hand including amounts in checking accounts, savings accounts and trusts, the current market value at the time of application of stocks, bonds, and other securities, real estate, home (if owned), income producing property, business equipment and business inventory which are held by the independent student and/or his spouse.

(d) "Base year" means the tax year for which information is requested by the Commissioner for the purpose of determining family income.

(e) "Dependent" means the independent student's spouse and any of the following persons for whom the student or his spouse provides or will provide during the calendar year in which the student applies to have his expected family contribution determined more than one-half of support:

V 40166
APR 4 75
XUM

19. Subtract line 18 from line 17

(1) Any children of the student or his spouse; (2) any other persons related to the student or his spouse by blood or marriage; or (3) any person living with the student and his spouse.

(f) The "effective income of the student" means any amount paid to, or on account of, the student for the base year under the Social Security Act which would not be paid if he were not a student; (i.e., under section 202(d) of title II of the Social Security Act, 42 U.S.C. 402(d)) and one-half of any amount to be paid the student for the academic year for which Basic Grant assistance is requested under chapter 34 of title 38, United States Code (Veterans Educational Assistance—38 U.S.C. 1651 et seq.) and chapter 35 of title 38, United States Code (War Orphans' and Widows' Education Assistance—38 U.S.C. 1700 et seq.). The amount of the effective income of the student is the amount to be received during the academic year for which basic grant assistance is requested.

(g) "Effective family income" means the annual adjusted family income received during the base year minus the Federal income tax paid or payable with respect to such income.

(h) "Employment expense offset" means an allowance to meet expenses relating to employment where both the independent student and his or her spouse are employed or where the independent student qualifies as a surviving spouse or as head of a household under section 2 of the Internal Revenue Code.

(i) "Expenses arising from catastrophe" means those types and amounts of casualty losses which may be deducted under section 165(c)(3) of the Internal Revenue Code which were incurred by the independent student and his dependents during the base year.

(j) "Family size offset" means an allowance to meet subsistence expenses, including food, shelter, clothing, and other basic needs of the independent student and his dependents. For purposes of this part the "Weighted Average Thresholds at the Low Income Level," as developed by the Social Security Administration, shall be used as a basis to determine the amount fof the family size offset except in the case of a single independent student, where an amount estimated to be equal to living expenses during periods of nonenrollment shall be utilized.

(k) "Federal income tax" means the tax on income paid to the U.S. Government under chapter 2 of the Internal Revenue Code and the tax on income paid to the Governments of Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands under the laws applicable to those jurisdictions.

(20 U.S.C. 1070a(a)(3)(B)(iii))

(l) "Medical expenses" means those types of medical and dental expenses, except premiums for medical insurance, that may be deducted under section 213 of the Internal Revenue Code, which were incurred by the independent student and his dependents during the base year.

(m) "Net assets" means the current market value at the time of application of the assets included in paragraph (c) of this section minus the outstanding liabilities (indebtedness) against such assets.

(20 U.S.C. 1070a(a)(3)(C))

§ 190.43 The expected family contribution for independent students from annual adjusted family income.

The expected family contribution of the independent student from annual adjusted family income shall be an amount determined in the following manner:

(a) Determine effective family income by subtracting from the annual adjusted family income the amount of Federal income tax paid or payable with respect to such income.

(b) Add to the amount determined in paragraph (a) of this section the effective income of the student as defined in § 190.42(f).

(c) Determine discretionary income by deducting from the amount calculated in paragraph (b) of this section the following:

(1) *Family size offset.* A family size offset is the amount specified in the following table. Family size includes the student and his dependents. If the student is divorced or separated, family size shall include any person whose income is taken into account for the purpose of computing the annual adjusted family income and his or her dependents.

FAMILY SIZE OFFSET

Family size	*Dollar amount*
2	3400
3	4100
4	5200
5	6150
6	6950
7	7700
8	8500
9	9300
10	10100
11	10850
12	11650

An offset of $950 shall be made for the single independent student.

(2) *Unusual expenses.* The amount by which the sum of medical and dental expenses, and losses resulting from catastrophes incurred in the base year and not compensated by insurance, exceeds 20 percent of effective family income. Unusual expenses may be deducted if they were incurred by the independent student and his dependents during the base year.

(3) *Employment expense offset.* An employment expense offset in an amount equal to 50 percent of the adjusted gross income earned in the base year by either a married independent student or the student's spouse, whoever earns the lesser, or 50 percent of the adjusted gross income earned during the base year by an independent student qualifying as a surviving spouse or as head of household as defined in section 2 of the Internal Revenue Code, but in no case shall such an offset exceed $1,500.

(d) Determine the expected family contribution from the family income of the independent student and his or her spouse by applying the following rates to discretionary income:

(1) 75 percent of discretionary income for the single independent student with no dependents;

(2) 50 percent of discretionary income for the married independent student with no dependents other than spouse; and

(3) 40 percent of discretionary income for the independent student who has dependents other than spouse.

(20 U.S.C. 1070a(a)(3)(C))

§ 190.44 [Reserved]

§ 190.45 Computation of expected contribution from the assets of the independent student and his or her spouse.

(a) Except as provided for in paragraph (b) of this section, the expected contribution from the assets of the independent student and his or her spouse shall be determined in the following manner:

(1) Determine the total amount of net assets owned by the student and the student's spouse.

(2) The contribution from assets shall be an arount equal to 33 percent of the amount determined in subparagraph (1) of paragraph (a) of this section.

(b) (1) If the calculations required by § 190.43(c) produce an amount of negative discretionary income as defined in subparagraph (2) of this paragraph the expected contribution from the assets of the student and his spouse calculated in paragraph (a) of this section shall be reduced by the amount of such negative discretionary income.

(2) The amount of negative discretionary income is the amount by which the sum of deductions for offsets and expenses set forth in § 190.43(c) exceeds the amount of income determined in § 190.43(b).

§ 190.46 Computation for expected contribution from annual adjusted family income and assets adjusted for number of family members attending institutions of postsecondary education.

(a) For each grant the amount expected from family income as determined in § 190.43 shall be added to the amount expected from assets as determined in § 190.45.

(b) For each grant the combined expectation calculated on the basis of the above formula shall be further adjusted in the following manner to take into consideration the number of family members who will be in attendance, on at least a half-time basis, in programs of postsecondary education during the academic year for which basic grant assistance is requested:

Number of family members attending institutions of postsecondary education	*Expected contribution from combined contribution per student*
1	100 percent of contribution from the amount determined in paragraph (a) of this section.
2	70 percent of contribution from the amount determined in paragraph (a) of this section.
3	50 percent of contribution from the amount determined in paragraph (a) of this section.
4 or more	40 percent of contribution from the amount determined in paragraph (a) of this section.

Family members shall include any person whose income is taken into account for the purpose of computing the annual adjusted family income and his or her dependents.

§ 190.47 Computation of the total expected family contribution.

For each grant the total expected family contribution shall be the expected contribution from discretionary income and assets, as determined in § 190.46.

§ 190.48 Extraordinary circumstances affecting the expected family contribution determination for the independent student.

(a) An applicant may submit an application to the Commissioner, for determination of the applicant's expected family contribution, (or, if such an application has previously been submitted, may submit a new application) which shall use as the base year for this purpose the tax year subsequent to the base year established by the Commissioner if:

(1) A spouse whose income was included in the calculation of expected family contribution as determined in § 190.43 has died in the base year or the tax year subsequent to the base year, or

(2) A spouse whose income was included in the calculation of the expected family contribution as determined in § 190.43 has experienced loss of employment of at least ten (10) weeks during the tax year subsequent to the base year, or

(3) An applicant or spouse whose income was included in the calculation of the expected family contribution as determined in § 190.43 has been unable to pursue normal income-producing activities for a period of at least 10 weeks during the tax year subsequent to the base year by reason of: (i) Disability or (ii) loss or damage to income-producing property as a result of natural disaster, or

(4) The applicant has become separated or divorced since the time he submitted his application, or

(5) The applicant was employed for at least 35 hours per week for a minimum of 30 weeks during the base year and will not be comparably employed during the tax year subsequent to the base year.

(b) An application submitted pursuant to paragraph (a) of this section shall include the annual adjusted family income and effective student income received for the newly established base year, i.e., the tax year subsequent to the original base year. If necessary, an estimate of the annual adjusted family income and the effective student income shall be provided for the remainder of such year.

(20 U.S.C. 1070a(a)(3)(B)(i)(V))

APPENDIX

The following discussion is intended to provide additional explanation of the procedures for calculating the expected family contribution for dependent and independent students.

Also included is further explanation of §§ 190.39 and 190.48, extraordinary circumstances affecting the expected family contribution determination for dependent and independent students, which have been incorporated into the family contribution schedules to establish specific conditions under which an applicant may file an application using estimated income rather than base year income information.

EXPECTED FAMILY CONTRIBUTION FOR DEPENDENT STUDENTS, ACADEMIC YEAR 1975–76, SUMMARY OF CALCULATIONS

1.	Parents' adjusted gross income in 1974	
	a. Amount earned by father	
	b. Amount earned by mother	
2.	Total other family income in 1974	+
3.	One-half of Veterans Educational Benefits (to be received between July 1, 1975 and June 30, 1976)	+
4.	Annual Adjusted Income (lines 1+2+3)	=
5.	Parents' Federal Income Tax paid for 1974	
6.	Effective family income in 1974	=
7.	Family size offset	+
8.	Unusual expenses	+
9.	Employment expense offset	+
10.	Total offsets against income (lines 7+8+9)	
11.	Discretionary income (line 6 minus line 10)	
12.	If line 11 is a positive amount, multiply discretionary income by applicable rate ($1—$4,999@20%; $5,000 or more, $1,000+30% of amount in excess of $5,000) to obtain standard contribution from income. If line 11 is a negative amount, enter 0	
13.	Determine net assets of parents)	
14.	Subtract asset reserve	−$10,000
15.	Available parental assets (line 13 minus line 14)	
16.	Multiply available parental assets by 0.05	
17.	Enter line 16 as standard contribution from available parental assets. If line 16 is negative, enter 0	
18.	If line 11 is a negative amount, enter that amount as a positive number; otherwise enter 0	
19.	Subtract line 18 from line 17 to obtain contribution from parental assets. If negative number enter 0	
20.	Add lines 12 and 19 to obtain contribution from family income and parental assets	
21.	Multiply line 20 by multiple student rate to determine expected family contribution for each member in postsecondary education	
22.	Determine net assets of student	
23.	Multiply student's net assets by 0.33	
24.	Student Eligibility Index equals sums of lines 21 and 23	

EXPLANATION OF CALCULATION [1]

1. *Parents' adjusted gross income in 1974 (line 1).* All income which is available to the parents should be considered in the evaluation of parental ability to support the cost of postsecondary education. The most valid reference for parental income subject to Federal income tax is the adjusted gross income item in the family's Federal income tax return. This information is readily available to most families, and the information can be verified by referring to the IRS forms actually filed by the parents.

If it may be assumed that family income will be measured on an annual basis, which year of family income shall be used? Parents provide from their current income for the education of their children. However, if we attempted to use current year information, a parent would have to estimate the amount of income which he will receive during a year in which a child is a student since application for aid is made before the student enrolls for a particular year of study. A study by Orwig and Jones shows that income received during the tax year prior to the year in which the student is applying for aid is the best practical indicator of the income from which a student's actual expenses will be paid.[2] If estimates of the income received during the actual year of attendance are provided by parents, middle income families systematically underestimate their earnings, and lower income families systematically overestimate their earnings. The amount to be entered here, therefore, is from the previous year's Federal income tax form. In addition, item one requests that the income earned through employment by the father and mother be reported separately. This information is used to determine whether or not the family is eligible for the employment expense offset.

2. *Total other family income in 1974 (line 2).* Information on other family income must also be collected since this income does clearly contribute to family financial strength and may represent a considerable portion of the parental income of many Basic Grant recipients. Elements of other family income are: Income from tax exempt bonds, that portion of pensions on which no Federal income tax is required, welfare benefits, social security benefits (including those benefits paid to or on account of the student or other educational benefits paid to other members of the family), child support payments which are received for all children for whom the parents provide more than one-half support,

[1] Reference numbers are keyed to the line numbers in preceding summary.

[2] Orwig and Jones, "Can Financial Need Analysis Be Simplified?" The American College Testing Program, Iowa City, Iowa, 1970—p. 11.

V 40-166
APR 4 75
XUM

income of families which didn't file income tax returns, that portion of capital gains on which no Federal income tax is required, etc.

3. *One-half of Veterans educational benefits (line 3).* One-half of that amount of veterans readjustment benefits, and/or war orphan's benefits paid to or on behalf of the applicant because he is a student, to be received between July 1, 1975 and June 30, 1976. The amount to be entered on line 3 is calculated as follows: Multiply the monthly amount of benefits times the number of months for which these payments are expected to be received between July 1, 1975 and June 30, 1976, and divide the results by two (2).

4. *Annual adjusted income in 1974 (line 4).* Annual adjusted income is the sum of parents' adjusted gross income (line 1) plus other family income (line 2) and one-half of Veterans educational benefits (line 3).

5. *Parents' Federal income tax paid for 1974 (line 5).* The legislation requires that a deduction be made, from annual adjusted income, for the amount of Federal income tax paid on income received during the base year.

6. *Effective family income in 1974 (line 6).* The result of subtracting Federal income tax paid (line 5) from the annual adjusted income (line 4) is effective family income and is the base for calculating expected contribution from parental income.

7. *Family size offset (line 7).* In addition to taxes, a family has basic subsistence expenses which must be met before any contribution from income can be expected. These expenses will vary depending on size of the family involved. For purposes of the basic grant program the "Weighted Average Thresholds At the Low Income Level," developed by the Social Security Administration and published by the Bureau of the Census, have been used as a reasonable approximation of basic family expenses.[2] These expenses are based on the food costs of a family of a given size, and make certain assumptions about the additional expenses of shelter and other family needs. The amounts determined in this manner are called "Family Size Offsets."

These base line data have been updated annually to accommodate the increase in the Consumer Price Index as published by the Department of Labor. For the 1975–76 academic year, the family size offsets used during the 1974–75 academic year have been increased by 11.9 percent to reflect the rise in cost of living expenses from November 1973 to October 1974, and then rounded to facilitate calculation. The percentage increase is taken from the latest published Department of Labor Consumer Price Index statistics.

FAMILY SIZE OFFSETS

Family size	DOLLAR AMOUNT
2	8400
3	4100
4	5200
5	6150
6	6950
7	7700
8	8500
9	9300
10	10100
11	10850
12	11650

8. *Unusual expenses (line 8).* The Basic Grant program is required by law to take into consideration two kinds of unusual expenses, those arising from a "catastrophe" and "unusual medical expenses." It is proposed to use the Internal Revenue Service definitions of medical and dental expenses and casualty loss in determining "unusual expenses" for the Basic Grant program. The use of Internal Revenue Service definitions avoid the need for creating a new definition of expenses which would be used only by the Basic Grants program. However, some distinction must be made between expenses which may be itemized for income tax purposes, and those itemized expenses which are "unusual" as used for the Basic Grant legislation.

For purposes of the Basic Grant program, those items which may be included as unusual expenses are:

1. Those medical and dental expenses (not compensated by insurance or otherwise) which may be listed as "medicine and drugs" on line 2 of Schedule A, Form 1040 of the Internal Revenue Service and those expenses which may be listed as "Other Medical and Dental Expenses" on line 6 of Schedule A, Form 1040. The gross amount of all such medical, dental and drug expenses is to be used in the Basic Grant calculation.

2. Those casualty or theft loss(es) permitted by the Internal Revenue Service (Form 1040, Schedule A, line 29).

The amount of unusual expenses which may be deducted from effective family income (line 6 of this illustration) is that amount of unusual expenses (as defined above) in excess of 20 percent of effective family income. This exclusion is designed to confine claims for such expenses to those which are genuinely unusual.

9. *Employment expense of offset (line 9).* constructing budgets which recognize expenses for families, due provision must be made for the expenses of the breadwinner which occur as a result of employment itself. Some expenses for clothing, transportation, and other items are attributable to occupational needs. When both parents work, additional employment expenses are incurred. Also, if a household is headed by a single parent, the costs associated with that employment are greater than for a comparable worker who has the economic advantage of a nonemployed spouse. Therefore in the determination of family contribution an "Employment Expense Offset" has been constructed to treat more equitably the income of the two parent family where both parents work, or the single parent household. It is recognized that both of these types of families will occur frequently in the lower income families where Basic Grant eligibility is greatest. The offset provides that 50 percent of the earnings of that parent with the lesser earnings, or 50 percent of the earnings of the single parent, will be protected from any contribution toward education. The maximum offset is $1,500 and would thus assure that up to $30 a week would be available for the additional expenses which these parents face.

10. *Total offsets against income (line 10).* The sum of line 7 (family size offset) plus line 8 (unusual expenses) plus line 9 (employment expense offset) is the total amount which can be deducted from effective family income (line 6) in order to determine discretionary parental income.

11. *Discretionary income (line 11).* The income which remains after allowance has been made for family living expenses, Federal income taxes, unusual expenses and the employment expense offset may be identified as discretionary income. This income is available for the purchases of goods and services which enhance the standard of living of the family including the cost of postsecondary education. This income may be a positive or negative amount. If the discretionary income is a positive amount, some contribution will be expected in accordance with step 12. If the discretionary income is a negative amount, no contribution from income will be expected.

12. *Standard income contribution (line 12).* If line 11 is a positive amount a standard contribution from income can be determined. A contribution of 20 percent is expected from the first $5000 of discretionary income. When discretionary income exceeds $5000, the expected income contribution is $1000 plus 30 percent of the amount in excess of $5000. The contribution rates will generally be at the 20 percent level for most of the income range where Basic Grant eligibility will occur.

These contribution rates appear reasonable in terms of the several demands made on family income, especially in light of the fact that the cost of supporting the student for the academic year is included in the cost of education and does not have to be met from the general budget resources.

13. *Net assets of parents* (line 13).—For purposes of Basic Grants, the following types of assets will be considered: Equity in farm, business, home, other real estate, stocks, bonds, other investments, savings accounts, etc. Since equity is being measured, debts against the stated assets will be deducted in evaluating the net worth of these assets.

14. *Asset reserve (line 14).* In order to determine the amount of parental assets which can be considered in determining a contribution for educational purposes, an asset reserve of $10,000 is subtracted from the net assets of the parents. Since families accumulate assets for several purposes including retirement, future consumption, and the postsecondary education of their children, a portion of assets should be reserved from any contribution toward postsecondary education, and remaining assets be assessed at some rate less than 100 percent. This $10,000 asset reserve would also allow for emergencies and retirement needs.

15. *Available parental assets (line 15).* Subtracting line 14 (asset reserve) from line 13 (net assets of parents) results in available parental assets. If this is a negative amount, enter zero since there is no provision in the formula for a treatment of negative assets.

16. *Asset assessment rate (line 16).*—Once the available parental assets have been determined, a contribution rate of 5 percent will be assessed on the parents' net worth in excess of $10,000. Because the value of assets grows, this rate of asset assessment will generally leave the family's asset position largely unimpaired.

A 5% rate is equal to or below current real estate and savings account appreciation rates, and therefore seems reasonable.

17. *Parental contribution from assets (line 17).* The result of multiplying the amount of net assets times the asset assessment rate represents the parental contribution from assets.

18. *Adjustment for negative discretionary income of the family (line 18).* In the event that the family has negative income, that is if the family's income is less than the sum of the various offsets against income, the support of basic family needs must be given priority over the support of post-secondary education. Therefore, the amount of the negative discretionary income of the family (as computed in line 11) is preserved to be subtracted from any contribution from parental assets as calculated above.

19. *Offset from parental assets contribution for negative discretionary income (line 19).* The total measure of available family resources in a particular year is the assessment of both income and assets of the family. This procedure takes into consideration the interdependent relationship between assets and income. In the event that there is a negative assessment of income (e.g. offsets allowed

[2] From "Weighted Average Thresholds At the Low Income Level" in 1972 by size of family and sex of head, by farm-nonfarm residence; current population reports, consumer income, characteristics of the low-income population; 1972 series p. 60, No. 91; December 1973.

(line 10) exceed total effective income (line 6)), the amount of negative assessment should be taken into account when determining the total measure of available family resources. This can be accomplished by offsetting the negative income component (line 18) against the expected parental contribution from assets (line 17). The resulting amount (if positive) represents the expected parental contribution from assets for educational purposes.

20. (*line 20*). Adding line 12 (family income component) to line 19 (parental asset component) provides the parental income and asset components of the eligibility index.

21. *Multiple student adjustment (line 21).* Adding the family income contribution to the parental asset contribution and the other parental asset contribution results in the expected contribution from parents with one family member in postsecondary education. Some adjustments must then be made for those families in which more than one family member will be enrolled in postsecondary education for the academic year 1975–76.)

Since each student has an allowance for costs of attendance, the family's discretionary income is effectively increased when there is more than one family member in postsecondary education. In order to determine the appropriate percentages, the contributions expected from different family sizes were compared. These investigations indicated that 140 percent of the contribution for one student would be a reasonable assessment against the family with two students. Thus, each student would receive 70 percent of the contribution which the family would make if there were only one student in the family. Similarly, 150 percent of the single student contribution seemed adequate for the family with three children in postsecondary education; each student could expect 50 percent of the single student contribution. For families with four or more students, each family will be assessed 40 percent of the single student contribution for each child in postsecondary education.

The following table summarizes the treatment of families with different numbers of family members in postsecondary education:

Number of students	Contribution per student as a percent of standard contribution	Family contribution for all students as a percent of standard contribution
	Percent	*Percent*
1	100	100
2	70	140
3	50	150
4 or more	40	160+

22. *Net assets of the student (line 22).* The applicant's net assets would be defined in the same fashion as the assets of the parents. Debts against these assets would be deducted. Trust funds in the student's name would be included if the student is not legally restricted from having access to these funds.

23. *Student asset assessment rate (line 23).* In determining a fair treatment of student assets the theory of the major need analysis systems has been followed; i.e., that because the student himself is the direct beneficiary of postsecondary education, he should be expected to invest a greater portion of his resources in meeting his educational costs than should be expected from his parents.

For the Basic Grants program, one-third of the student's assets (recalculated each year) would be expected. This method is simple and provides a modest reserve for the student.

The result of multiplying the student's net assets (line 22) by the student asset assessment rate (.33) is that amount expected from student assets for educational purposes.

24. *Total family contribution* (line 24).—The total expected family contribution for a dependent student is determined by adding line 21 plus 23. A resulting Student Eligibility Index of 1200 or less means a student is eligible for a Basic Grant on the basis of financial need. Of course, before a student can receive a grant, he or she must be enrolled in an eligible program of study offered by an eligible institution of postsecondary education.

EXPECTED FAMILY CONTRIBUTION FOR INDEPENDENT STUDENTS, ACADEMIC YEAR 1975–76 SUMMARY OF CALCULATIONS

1.	Adjusted gross income of applicant (and spouse) in 1974	
	a. Amount earned by applicant	
	b. Amount earned by spouse	
2.	Total other family income in 1974	+
3.	One-half of Veterans Educational Benefits (to be received between July 1, 1975 and June 30, 1976)	+
4.	Annual adjusted income (lines 1+2+3)	=
5.	Federal Income Tax Paid for 1974	
6.	Effective family income	=
7.	Family size offset	+
8.	Unusual Expenses	+
9.	Employment expense offset	+
10.	Total offsets against income (lines 7+8+9)	
11.	Discretionary income (line 6 minus line 10)	
12.	If line 11 is a positive amount, multiply discretionary income by applicable rate to obtain standard contribution from income. If line 11 is a negative amount enter 0	
13.	Determine net assets of applicant (and spouse)	
14.	Multiply amount of assets of applicant (and spouse) entered in line 13 by 0.33 to obtain standard contribution from assets	
15.	If line 11 is a negative number, enter as a positive number; otherwise enter 0	
16.	Subtract line 15 from line 14 to obtain standard contribution from student assets. If negative number, enter 0	
17.	Add lines 12 and 16 to obtain standard contribution from income and assets	
18.	Multiply standard contribution by multiple student rate to determine expected family contribution for each member in postsecondary education	
19.	Student Eligibility Index equals line 18	

EXPECTED FAMILY CONTRIBUTION FOR INDEPENDENT STUDENTS ACADEMIC YEAR 1975–76

Explanation of calculations.[1] For the purposes of the Basic Grants program, independent (self-supporting) student status may be claimed if the applicant:

(1) Has not been and will not be claimed as an exemption for Federal income tax purposes by any person except his or her spouse for the calendar year(s) 1974, 1975, 1976, and

[1] Reference numbers are keyed to line items of preceding summary.

(2) Has not received and will not receive financial assistance of more than $600 (in cash or kind) from his or her parent(s) in the calendar year(s) 1974, 1975, and 1976, and

(3) Has not lived or will not live for more than two consecutive weeks in the home of a parent during the calendar year(s) 1974, 1975, and 1976.

Once a student has been determined to meet all of these criteria and is defined as an independent student, his expected family contribution is calculated according to the process outlined below.

1. *Adjusted gross income of applicant (and spouse) (line 1).* All income which is available to the applicant (and spouse) should be considered in the evaluation of ability to support the cost of postsecondary education. The most valid reference for taxable income is the adjusted gross income item as reported on the Federal income return. This information is readily available and can be verified by referring to the IRS forms actually filed.

The decision as to which year's income is to be considered is a difficult one for independent students. Traditionally, a student's income may vary considerably from year to year. While it may be preferable to ask the student to estimate his earnings for the current year, recent studies have shown that estimated income is not a reliable base for determining student financial need. Since the Basic Grant system requires essentially no verification or intervention from financial aid officers, serious reservations exist to the categoric use of estimated income for all independent applicants. Therefore, it has been determined that the adjusted gross income to be considered is that amount entered on the previous year's Federal Income Tax Return. This also has the advantage of being consistent with the data collected for dependent students and assures that the eligibility index for all students is determined from the same base.

However, as a result of lengthy discussions and the experience gained during the first two years of program operation, the independent student may be permitted to report estimated income under special circumstances. Specifically, the independent student who applies for a Basic Grant for the 1975–76 academic year will be permitted to file using estimated 1975 income (rather than actual 1974 information) if that applicant was employed on a *full-time* basis during the base year and left that employment to enroll in postsecondary education.

In addition, item one requests that the income earned through employment by the applicant and his or her spouse be reported separately. This information is used to determine whether or not the family is eligible for the employment expense offset.

2. *Total other income of applicant (and spouse) in 1974 (line 2).* Information on other income (that income which is *not* included in 1974 Adjusted Gross Income) of the independent student must also be collected since this income does clearly contribute to financial strength and may represent a considerable portion of the income of many Basic Grant recipients. Elements of other income are: Income from tax exempt bonds, that portion of pensions on which no Federal income tax is required, that portion of capital gains on which no Federal income tax is required, welfare benefits, social security benefits, child support payments, veteran's disability, income of persons who did not file income tax returns, etc.

3. *One-half of Veterans Educational Benefits (line 3).* One-half of that amount of veterans readjustment benefits and/or Widow's War Orphan's benefits, paid to or on behalf of the applicant because he is a student, to be received between July 1, 1975 and June 30, 1976. The amount to be entered on line 3 is calculated as follows:

V 40166 APR 4 75 XUM

Multiply the monthly amount of these benefits times the number of months for which these payments are expected to be received between July 1, 1975 and June 30, 1976, and divide the result by two (2).

4. *Annual adjusted income of applicant (and spouse) (line 4).*—Annual adjusted income is the sum of adjusted gross income (line 1), and other family income (line 2) and one-half of veterans educational benefits (line 3).

5. *Federal income tax paid by applicant (and spouse) (line 5).* The legislation requires that a deduction be made, from annual adjusted income, for the amount of Federal income tax paid on income received during 1974.

6. *Effective family income (line 6).* The result of subtracting Federal income tax paid (line 5) from the annual adjusted family income (line 4) is effective family income.

7. *Family size offset (line 7).* In addition to taxes, there are basic subsistence expenses which must be met before any contribution from income can be expected. These expenses will vary depending on the size of the family involved. For the single independent student, this offset is $3950 which covers the student's summer living expenses. Using the same base for deriving family size offsets as is used for multiple member families (weighted average thresholds at the low-income level) and adjusting for an 11.9 percent increase in the cost of living, the family size offset for a single member family is $2649 per year. Generally, a student is in school for approximately 65 percent of the year (two 16-week semesters plus a 2-week break between semesters). Since his expenses during this 34-week academic year are covered in his cost of attendance, the $950 offset provides for his expenses during that period of time when he is not in school.

For married independent students and those with additional dependents, the family size offset is the same as that for the parent's of dependent students:

FAMILY SIZE OFFSETS

Family size	*Dollar amount*
2	3400
3	4100
4	5200
5	6150
6	6950
7	7700
8	8500
9	9300
10	10100
11	10850
12	11650

8. *Unusual expense (line 8).* The Basic Grants program is required by law to take into consideration at least two kinds of unusual expenses, those arising from a "catastrophe" and "unusual medical expenses." It is proposed to use the Internal Revenue Service definitions for medical and dental expenses and casualty loss(es) to constitute "unusual expenses" for the Basic Grants program. The use of Internal Revenue Service definitions avoids the need for creating a new definition of expenses which would be used only by the Basic Grants program. However, some distinction must be made between expenses which may be itemized for income tax purposes, and those itemized expenses which are "unusual" for Basic Grants.

For purposes of the Basic Grants program those items which may be included as unusual expenses are:

1. Those medical and dental expenses incurred during the base year (not compensated by insurance or otherwise) which may be listed as "medicine and drugs" on line 2 of Schedule A, Form 1040 of the Internal Revenue Service and those expenses which may be listed as "Other Medical and Dental Expenses" on line 6 of Schedule A, Form 1040. The gross amount of all medical, dental and drug expenses may be listed.

2. In addition, those casualty or theft loss(es) incurred during the base year permitted by the Internal Revenue Service (Form 1040, Schedule A, line 29).

The amount of unusual expenses which may be deducted is that amount of unusual expenses (as defined above) in excess of 20 percent of the effective family income. This exclusion is designed to confine claims for such expenses to those which are genuinely unusual.

9. *Employment expense offset (line 9).* In constructing budgets which recognize minimum expenses for families, provision must be made for the expenses of the breadwinner which occur as a result of employment itself. Some expenses for clothing, transportation, food, and other items are attributable to occupational needs. When two persons work, additional employment expenses are incurred. Also, if a household is headed by a single person, the costs associated with that employment are greater than for a comparable worker who has the economic advantage of a nonemployed spouse. Therefore, in the determination of family contribution an "Employment Expense Offset" has been constructed to treat more equitably the income of the two-person family where both persons work during the base year, or the single person who heads a household during the base year. It is recognized that both of these types of families will occur frequently in the lower income families where Basic Grants eligibility is greatest. The offset provides that 50 percent of the earnings of that person with the lesser earnings, or 50 percent of the earnings of the single head of household, will be protected from any contribution toward education. The maximum offset would be $1,500 and would thus assure that up to $30 a week would be available for the additional expenses which these persons face.

10. *Total offsets from income (line 10).* The sum of line 7 (family size offset) plus line 8 (unusual expenses) plus line 9 (employment expense offset) is the total amount which can be deducted from effective family income (line 6) in order to determine discretionary income.

11. *Discretionary income (line 11).* The income which remains after adjustment has been made for family living expenses, Federal income taxes, unusual expenses and the employment expense offset may be identified as discretionary income. This income is available for the purchase of goods and services which enhance the standard of living of the family, including postsecondary education. This income may be a positive or negative amount. If the discretionary income is a positive amount, a contribution from income will be expected in accordance with step 12. If the discretionary income is a negative amount, no contribution from income will be expected.

12. *Standard income contribution (line 12).* If line 11 is a positive amount a standard contribution from income can be determined. Because of the direct benefits of postsecondary education received by the independent student, the expected contribution rate for such students from income has traditionally been much greater than the rate applied to the discretionary income of the parents of dependent students. In fact, the independent student has usually been expected to use all of his discretionary income for educational purposes.

In developing a system for the Basic Grants program, it was felt that a 100 percent contribution rate was excessive, especially for independent students with family responsibilities.

The following income contribution schedule was developed to accommodate these responsibilities:

(a) 75 percent of discretionary income for the single independent student with no dependents;

(b) 50 percent of discretionary income for the married independent student with no dependents other than spouse;

(c) 40 percent of discretionary income for the married independent student who has dependents other than spouse.

13. *Net assets of applicant (and spouse) (line 13).* For purposes of Basic Grants, the following types of assets will be considered: Equity in farm, business, home, other real estate, stocks, bonds, other investments, savings accounts, etc. Since equity is being measured, debts against the stated assets will be deducted in evaluating the net worth of these assets.

14. *Asset contribution rate (line 14).* In determining a fair treatment of student assets, it has been assumed that since a student is the direct beneficiary of postsecondary education, he should be expected to invest a portion of his resources in meeting his educational costs. Therefore, one-third of the student's assets (recalculated each year) would be expected. This method is simple and provides a modest reserve for the student. The result of multiplying the student's net assets (line 13) by the student assets assessment rate is that amount expected from student assets for educational purposes.

15. *Adjustment for negative discretionary income of the applicant (and spouse) (line 15).* In the event that the family has negative income, that is if the family's income is less than the sum of the various offsets against income, the support of basic family needs must be given priority over the support of postsecondary education. Therefore, the amount of the negative discretionary income of the applicant (and spouse) (as computed in line 11) is preserved to be subtracted from any contribution from the student's assets as calculated above.

16. *Offset from applicant's (and spouse's) asset contribution for negative discretionary income (line 16).* The total measure of available family resources in a particular year is the assessment of both the income and assets of the applicant (and spouse). This procedure takes into consideration the interdependent relationship between assets and income. In the event that there is a negative assessment of income (e.g. offsets allowed (line 10) exceed total effective income (line 6)), the amount of negative assessment should be taken into account when determining the total measure of available family resources. This can be accomplished by offsetting the negative income component (line 15) against the independent student's assets (line 14). The resulting amount if positive, represents the applicant's (and spouse's) contribution from assets for educational purposes.

17. *Standard contribution from income and assets (line 17).* The amount of standard contribution from the applicant's and spouse's income (line 12) and the amount of contribution from the assets of the applicant and spouse (line 16) are added here to determine the amount of expected family contribution from income and assets for Basic Grants purposes.

18. *Multiple student adjustment (line 18).*—Adding the contribution from annual adjusted family income to the asset contribution results in the expected contribution for one family member in postsecondary education from family income and assets. Some adjustment must then be made for those families in which more than one family member will be enrolled in postsecondary education for the academic year 1975–76.

The adjustments used for the dependent student may also be used for the independent student. The use of the same adjustments for both groups of students assures consistency of treatment, and implements the general principle that a family with more than one person in postsecondary education should contribute less per person than a family with only one member engaged in such study.

19. *Total family contribution (line 19).*—The total expected family contribution for an independent student equals the amount calculated on line 18. A resulting Student Eligibility Index of 1200 or less means a student is eligible for a Basic Grant on the basis of financial need. Of course, before a student can receive a grant, he or she must be enrolled in an eligible program of study offered by an eligible institution of postsecondary education.

(Subpart 1 of Part A of title IV of the Higher Education Act of 1965, as amended (20 U.S.C. 1070a))

Extraordinary circumstances affecting the expected family contribution determination for dependent and independent students §§ 190.39 and 190.48. For purposes of determining expected family contribution for the Basic Grant Program, it was determined that the most accurate indicator of annual adjusted family income is the amount reported on the Federal Income Tax Return for the year preceding the year for which aid is requested. However, it was recognized that extraordinary circumstances could occur which would substantially affect the expected family contribution which was calculated on the basis of the preceding year's income. Therefore, this regulation establishes the conditions under which an applicant may request a determination of expected family contribution which uses the current tax year as the base year and reflects these extraordinary circumstances. These conditions are listed below.

In the event of the death of the applicant's parent(s) or spouse, whose income was included in the determination of expected family contribution, the applicant may immediately request that his expected family contribution be calculated using the current tax year as the base year.

A different situation exists in those cases where the parent or spouse of the applicant whose income was included in the determination of his expected family contribution suffers a loss of employment.

A similar situation occurs when the applicant's parent or spouse whose income was included in the determination of expected family contribution is unable to pursue normal income-producing activities due to disability or loss or damage to income-producing property due to natural disaster.

For applicants who experience such situations as described above, there will be a requirement of a 10-week waiting period before the applicant can request a calculation of expected family contribution using the current tax year as the base year. This loss of employment or inability to pursue normal income-producing activities must be of at least 10 weeks in duration and must occur during the tax year subsequent to the base year.

Another situation occurs when the parents of an applicant, or the applicant himself, have become separated or divorced since the time the application was submitted. In such cases an applicant may request a determination of his expected family contribution using the current tax year as the base year.

An independent applicant may also file an application using estimated current year income data if he was employed on a full-time basis during the base year and is unable to pursue comparable employment during the tax year. Such employment must have been of at least 35 hours per week for a minimum of 30 weeks during the base year. This change is intended to alleviate problems of the independent student who by reason of his earnings during the base year has often been determined ineligible for Basic Grant assistance.

In all cases where a request is made to vary from the standard base year, the applicant will be required to submit a regular application providing all necessary information, indicating the amount of income received to the date of the request and an estimate of the amount of the income to be received for the remainder of that year as well as any other pertinent information the Commissioner may require. Along with this application, the student will be required to submit a Supplemental Form which indicates the conditions under which such recomputation of family contribution is requested.

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective April 4, 1975, without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

NEW GENERAL WAGE DETERMINATION DECISIONS

New General Wage Determination Decision Nos. IL75–2052 and IL75–2055 for the State of Illinois.

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Thanksgiving Day; E-Christmas Day

FOOTNOTES:

a. Paid Holidays: D and Good Friday

b. Paid Holidays: C and D

c. Paid Holidays: A through F, plus Good Friday

d. Paid Holidays: C, D and E

e. Paid Holidays: B through D, plus Good Friday, provided the employee has been employed 14 consecutive days immediately prior to the holiday.

f. Paid Holidays: B through E

g. The last 4 regular working hours prior to Christmas shall be a paid holiday

h. Employer contributes 4% basic hourly rate for 5 years or more of serivce or 2% basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit

j. Paid Holidays: A through F

k. Last 4 hours on Christmas Eve is a paid holiday, if employee has worked 5 consecutive days prior to Christmas Eve

l. Paid Holidays: A through F, Washington's Birthday, Good Friday and Christmas Eve, provided the employee has worked 45 full days during the 120 calendar days prior to the Holiday, and the regular scheduled work days immediately preceding and following the Holiday

m. Nine (9) Paid Holidays: A through F, Washington's Birthday and Good Friday, plus one (1) floating holiday per year, provided the employee has been employed for a period of 10 working days prior to the holiday and works the scheduled work days immediately preceding and following the holiday

n. Paid Holidays: B through E providing the employee works the day before and the day after the holiday

o. Paid Holidays: C and D providing the employee works the day before and the day after the holiday

p. Paid Holidays: Last working day before Christmas Day; last working day before New Year's Day and Labor day and Thanksgiving

q. Paid Holidays: B and D and ½ day paid holiday the Friday after Thanksgiving and the last working day before Christmas.

r. Paid Holiday: Labor Day

s. 2 Paid Holidays: C and D and ½ day paid holiday the Friday after Thanksgiving

CLASSIFICATION DEFINITIONS

POWER EQUIPMENT OPERATORS (ZONE 1)

Group 1 - Backhoe, cableway, crane, crawler or truck, crane, hydraulic-truck or cruiser mounted-16 tons & over, crane, locomotive, derrick, steam, derrick car & derrick boat, dragline, dredge, gradall, crawler or tire mounted, locomotive, gas, steam & other powers, piledriver, land or floating, scoop, skimmer, shovel, power (steam, gas, electric or other powers), switch boat, whirley, air tugger w/air compressor, anchor placing barge, asphalt spreader, athey force feed loader (self-propelled), backfilling machine, boat operator-push boat or tow boat (job site), boiler, high pressure breaking in period, boom truck placing or erecting, boring machine footing foundation, bullfloat, cherry picker, combination concrete hoist & mixer such as mixermobile, compressors, two, not more than 20 ft. apart, com-pressors, not more than five ft. apart, compressor-welder combination, concrete breaker (truck or tractor mounted), concrete pump, such as a pumpcrete machine, concrete spreader, conveyor, large (not self-propelled) hoisting or moving brick and concrete into, or into and on floor level, one or both, crane, hydraulic-rough terrain, self-propelled, crane hydraulic-truck or cruiser mounted-under 16 tons, drilling machines, self-powered, used for earth or rock drilling or boring (wagon drills and any hand drills obtaining power from other sources including concrete breakers, jackhammers and barco equipment-no engineer re-quired), elevating grader, engine man, dredge, excavator or powerbelt machine, finishing machine, self-propelled oscillating screed, forklift, grader, road with power blade, highlift, hoist, concrete and brick (brick cages on concrete skips operating in or on tower, tower-mobile, or similar equipment), hoist stack, hydro-hammer, lad-a-vator, hoisting brick or concrete, loading machine (such as barber-greene), mechanic, on job site, mixer, paving, mixermobile, mucking machine, pipe cleaning machine, pipe wrapping machine, plant asphalt, plant, concrete producing or ready-mix job site, plant, heating-job site, plant mixing-job site, plant, power, generating-job site, pump, self-powered, over 2" (one operator will operate two), pumps, electric submersible, one through three, over 4", quad-track, roller, asphalt, top or subgrade, scoop tractor drawn, spreader box, sub-grader, tie tamper, tractor-crawler, or wheel type with or without power unit, power take-offs, and attachments regardless of size, trenching machine, tunnel boring machine, vibrating machine, automatic propelled, welding machines (gasoline or diesel) more than one but not over four (regardless of size), well drilling machine.

POWER EQUIPMENT OPERATORS CONTD:

Group 2 - Air tugger w/plant air, boiler, for power or heating on construction projects, boiler, temporary, compressor, air-one, compressor, air (mounted on truck), concrete saw, self-propelled, conveyor, large (not self-propelled) moving brick and concrete (distributing) on floor level, curb finishing machine, ditch paving machine, elevator (building construction or alteration) endless chain hoist, fireman, form gradar, generator, one over 30 KW or any number developing over 30 KW; greaser, hoist, one drum regardless of size (except brick or concrete), lad-a-vator, other hoisting, manlift, mixer, asphalt, over 8 cu. ft. capacity, mixer, if two or more mixers of one bag capacity or less are used by one employer on job, an operator is required, mixer, with outside loader, 2 bag capacity or more, mixer, with side loader, regardless of size, not psver, oiler on dredge, oiler on truck crane, pug mill operator, pump, sump-self-powered, automatic controlled over 2" during use in connection with construction work, sweeper, street, welding machine, one over 400 amp.; winch operating from truck.

Group 3 - Boat operator-outboard motor (job site), conveyor (such as con-vay-it) regardless of how used, oiler, sweeper, floor

Group 4 - (a)Air pressure, oiler engineer, operating under ten pounds. (b)Air pressure, oiler engineer operating over ten pounds. (c)Air pressure engineer operating under ten pounds. (d)Air pressure engineer operating over ten pounds. (e)Crane-pile driving with leads, crane using rock socket tool, dragline-7 cu. yds. & over, shovel, power-7 cu. yds. and over, crane, climbing (such as linden), derrick, diesel, gas, electric hoisting material and erecting steel-150' or more above ground, hoist, three or more drums, scoop, tandem, tractor, tandem crawler. (f)Heater. (g)Mud jack(where mud jack is used in conjunction with an air compressor, operator).

Crane, with boom (including jib) over 100' from pin to pin (add 1c per foot to maximum of 75c) above basic rate for crane.

Work in tunnel or tunnel shaft, .25c above base rate.

LABORERS

Class 1: Construction Laborer (including tenders handling Salamanders, L.P. gas heaters or similar, etc.), Air or electric Impactor Wrench, Air Tamper Operator, Asphalt Tampers, Batchorman (weigh), Blaster's Helper, Blower Man (bulk cement), Brakeman, Coffer Dam, Concrete Pitman, Puddler (including Vibrator Operator. Drill Runner's Helper (includes drill mounted on truck, track or similar and Dewey drills (spots - clean-up and helps to maintain), Fence Construction, Form Stripper and Mover, Hydro-jet Blaster Nozzlemen, Manually moved Emulsion Sprayer, Radio actusted traffic control operator (non-automatic), Rip Rap work, Scaffolds and runways (as per agreement of record), Sheeters and Shorers, Structural Concrete Top Surfacer, Walk Behind Street Sweeper, Welder's Helper (pipeline), Wood Chipper

Class 2: Asphalt, Batch and Concrete Plant Operator (manually operated), Asphalt Rakers, Burner, Caisson Men (open air), Carryable Pumps, Chain Saw Operator, Chipping Hammer or similar (air or otherwise), Combination Tamper and Vibrator, Concrete Buster (paving breaker), Cribbing (concrete or steel), Curb Machine Operator (asphalt and concrete)(walk behind), Earth Drill, Fork Lift (walk behind), Form Setter (road forms line man), Handyman, Highway Slab Reinforcement Placers (including joint and basket setter), Hydraulic Pipe Pusher, Jack Hammer Operator, Liner Plates (tile or vitrified clay), Manually operated Diamond Head Core Drill, Mechanical Joint Sealer, Dope Pot, and Tar Kettle, Mortar Mixer (hand or machine), Pin Drivers or Puller (power-highway), Pipe layers, Plant set-up, Maintenance Man, Portable single unit Conveyor, Post Hole Auger (2 or 4 cycle)(hand operated), Power Fence Operator, Power Wheelbarrows and Buggies, Rail Porter, or similar, Screed Operator, Signal Man, Whacker, All Railroad Track Work: Adzing Machine, Ballast Router, Bolting Machine, Power Jacks, Rail Drills, Railroad Brakemen, Rail Saws, Spike Drivers, Spike Pullers, Tamping Machine

Class 3: Cement Mortar Lining Car Pusher, Cement Mortar Mixer (pipe relining), Cement Saw Operator (walk behind), Form Setter (road forms-lead man), Grout Machine Operator, Gunnite (nozzle and machine man), Paving Block Rammers, Wagon Drill (air track or similar) Operators, Walk Behind Power Rollers (1 or 2 barrel), Walk Behind Roller and Tamper, Walk Behind Ditching Machine (trencher or similar)

Class 4: Blacksmith, Blaster, Brick and Block Pavers (wood, belgain and asphalt), Curb Cuttera and Setters, Manhole or Catch Basin Builder (brick, block, concrete or any prefabrication)

Class 5: Multi-plate Pipe (aligning and securing) Placing Wire Mesh on Gunite projects, Reinforcing steel placers (bending, aligning and securing), Welder, elevated roadway drainage

Class 6: Welder (pipeline)

Class 7: Tunnel and Shaft Work (Inside); Change House Attendent

Class 8: Muckers, Brakemen and all other labor (includes installation of utility lines), Signal Man, Drill Runner Helper

Class 9: Miners and Drillers (including lining, supporting and form workmen, setting of shields, miscellaneous equipment and jumbos)

Class 10: Caisson and Tunnel Men under pressure (0-18 pounds)

Class 11: Reinforcing steel placers (bending, aligning and securing)

TRUCK DRIVERS

Class 1: Truck under 33,000 lbs. gross load category (including all types of trucks such as fuel, dump, flat bottom, pickup and similar equipment, parts man and warehousemen)

Class 2: Trucks over 33,000 lbs. gross load catergory (including all types of trucks such as fuel, dump (tandem), flat bottom, scissors, and combination fuel and grease), Ready-mix Concrete trucks with towed or built-in attachments (10c per hour additional to respective size truck, Tar and asphalt distributing trucks (all liquid tank trucks, straight and semi, including water, sprinkler, oil trucks, etc.) Tandem-axle Ready-mixed Concrete trucks (such as agitators, barrel, redi-mix concrate trucks, etc.)

Class 3: Tri-axle trucks, Heavy equipment whose capacity exceeds that for which state licenses are issued - specifically refers to units in excess of 8 feet width (such as euclids; end or belly dump, single twin-engined or tandem: Athey wagon: Pay loader, Tournewagons, and similer equipment when not self-loaded rated under forty-five tons), (Tri-axle Ready-Mixed Concrete trucks (such as agitators, barrel, redi-mix concrete trucks, etc.). Tar and asphalt trailer trucks

Class 4: Heavy off-the-road equipment (rated at forty-five tons or over), bottom or belly-dump trucks

Class 5: Heavy duty trailer, such as low boy, Hi-boy, Pole trailer, A-Frames (when used for transporting materials), Dumpsters, Ross Carriers, Form trucks, Dual-purpose trucks (when load has been loaded or unloaded with truck, winch, loading, hauling and unloading), Mechanical tailgate trucks, Bucket self-loading trucks, Farm tractors (when pulling and hauling), Pork lift trucks (in storage areas and warehouses)

Class 6: Single-axle Ready-mixed Concrete trucks (such as agitators, barrel, redi-mix Concrete trucks, etc.)

Class 7: Trucks with dolly or trailer

LABORERS

Class 1: Construction Laborer (including tenders handling Salamanders, L.P. gas heaters or similar, etc.), Air or electric Impactor Wrench, Air Tamper Operator, Asphalt Tampers, Batchman (weigh), Blaster's Helper, Blower Man (bulk cement), Brakeman, Coffer Dam, Concrete Pitman, Puddler including Vibrator Operator, Drill Runner's Helper (includes drill mounted on truck, track or similar and Davey drills (spots - clean-up and helps to maintain), Fence Construction, Form Stripper and Mover, Hydro-jet Blaster Nozzlemen, Manually moved Emulsion Sprayer, Radio activated traffic control operator (non-automatic), Rip Rap work, Scaffolds and runways (as per agreement of record), Sheeters and Shorers, Structural Concrete Top Surfacer, Walk Behind Street Sweeper, Welder's Helper (pipeline), Wood Chipper

Class 2: Asphalt, Batch and Concrete Plant Operator (manually operated), Asphalt Rakers, Burner, Caisson Men (open air), Carryable Pumps, Chain Saw Operator, Chipping Hammer or similar (air or otherwise), Combination Tamper and Vibrator, Concrete Buster (paving breaker), Cribbing (concrete or steel), Curb Machine Operator (asphalt and concrete)(walk behind), Earth Drill, Fork Lift (walk behind), Form Setter (road forms line man), Handyman, Highway Slab Reinforcement Placers (including joint and basket setter), Hydraulic Pipe Pusher, Jack Hammer Operator, Liner Plates (tile or vitrified clay), Manually operated Diamond Head Core Drill, Mechanical Joint Sealer, Dope Pot, and Tar Kettle, Mortar Mixer (hand or machine), Pin Drivers or Puller (power-highway), Pipe Layers, Plant set-up, Maintenance Men, Portable single unit Conveyor, Post Hole Auger (2 or 4 cycle)(hand operated), Power Fence Operator, Power Wheelbarrows and Buggies, Rail Porter, or similar, Screed Operator, Signal Man, Whacker, All Railroad Track Work: Adzing Machine, Ballast Router, Bolting Machine, Power Jacks, Rail Drills, Railroad Brakemen, Rail Saws, Spike Drivers, Spike Pullers, Tamping Machine

Class 3: Cement Mortar Lining Car Pusher, Cement Mortar Mixer (pipe relining), Cement Saw Operator (walk behind), Form Setter (road forms-lead man), Grout Machine Operator, Gunnite (nozzle and machine man), Paving Block Rammers, Wagon Drill (air track or similar) Operators, Walk Behind Power Rollers (1 or 2 barrel), Walk Behind Roller and Tamper, Walk Behind Ditching Machine (trencher or similar)

Class 4: Blacksmith, Blaster, Brick and Block Pavers (wood, belgain and asphalt), Curb Cutters and Setters, Manhole or Catch Basin Builder (brick, block, concrete or any prefabrication)

Class 5: Multi-plate Pipe (aligning and securing) Placing Wire Mesh on Gunite projects, Reinforcing steel placers (bending, aligning and securing), Welder, elevated roadway drainage

Class 6: Welder (pipeline)

Class 7: Tunnel and Shaft Work (Inside): Change House Attendent

Class 8: Muckers, Brakemen and all other labor (includes installation of utility lines), Signal Man, Drill Runner Helper

Class 9: Miners and Drillers (including lining, supporting and form workmen, setting of shields, miscellaneous equipment and jumbos)

Class 10: Caisson and Tunnel Men under pressure (0-18 pounds)

Class 11: Reinforcing steel placers (bending, aligning and securing)

INDEX TO GENERAL WAGE DETERMINATION DECISIONS AND MODIFICATIONS AS OF MARCH 7, 1975

There is set forth below an index to general wage determination decisions and modifications as published in the FEDERAL REGISTER pursuant to the Davis-Bacon and related Acts. The index lists general wage determination decisions and modifications by State and county. An updated index is published on the first Friday of each month.

The index is published for the convenience of the public and the Department of Labor will endeavor to keep it accurate and up to date. In the event the data in the index and published general decisions do not coincide, the published general decisions shall control.

an invaluable reference tool

1974–75 Edition

This official guidebook provides useful information about U.S. Government agencies, including:

- Major programs and functions
- Listings of key officials
- Organization charts for many agencies

Most agency descriptions include a "Sources of Information" section that gives addresses and telephone numbers for obtaining specifics on employment, government contracts, environmental programs, small business opportunities, publications, speakers and films available to civic and educational groups, and other topics of public interest.

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

$5.75
per copy. Paperbound, with charts

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

FEDERAL REGISTER, VOL. 40, NO. 67—MONDAY, APRIL 7, 1975

Title 3—The President

MEMORANDUM OF MARCH 24, 1975

Determination Under Section 502(b) of the Trade Act of 1974

[Presidential Determination No. 75–11]

Memorandum for the Secretary of State

THE WHITE HOUSE,
Washington, March 24, 1975.

Pursuant to the authority vested in me under the Trade Act of 1974 (hereinafter "the Act"), I hereby determine on the basis of a review conducted by interested agencies of the Executive Branch of each of the relevant investment disputes that, in the case of each country listed below, good faith negotiations to provide prompt, adequate, and effective compensation under the applicable provisions of international law are in progress, or such country is otherwise taking steps to discharge its obligations under international law, as prescribed in Section 502(b)(4)(D)(ii) of the Act:

Afghanistan
Argentina
Bangladesh
Bolivia
Central African Republic
Congo (Brazzaville)
Dahomey
Egypt
El Salvador
Ethiopia
India
Morocco
Pakistan
Sri Lanka
Sudan
Syria
Tanzania
Zaire

In accordance with Section 502(b)(4) of the Act I am furnishing a copy of this determination to the Senate and House of Representatives.

This Determination shall be published in the FEDERAL REGISTER.

Gerald R. Ford

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Defense

Section 213.3306 is amended to show that the position of Special Assistant for Congressional Relations, Office of the Principal Deputy, Office of the Assistant Secretary of Defense (International Security Affairs) is revoked, and that the position of Special Assistant to the Assistant Secretary of Defense (International Security Affairs), Department of Defense, Office of the Secretary is excepted under Schedule C.

Effective April 7, 1975, § 213.3306(a) (22) is added and § 213.3306(a) (42) is revoked as set out below.

§ 213.3306 Department of Defense.

(a) *Office of the Secretary.* • • •

(22) Special Assistant to the Assistant Secretary of Defense (International Security Affairs).

• • • • • •

(42) [Revoked].

• • • • • •

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75–8969 Filed 4–4–75;8:45 am]

PART 213—EXCEPTED SERVICE

Department of Agriculture

Section 213.3313 is amended to show that one additional position of Confidential Assistant to the Assistant Secretary for Marketing and Consumer Services and one position of Confidential Assistant to the Administrator, Foreign Agricultural Service, are excepted under Schedule C.

Effective April 7, 1975, § 213.3313(a)–(9) is amended and (e)(3) is added as set out below.

§ 213.3313 Department of Agriculture.

(a) *Office of the Secretary.* • • •

(9) Two Confidential Assistants to the Assistant Secretary for Marketing and Consumer Services.

• • • • • •

(e) *Foreign Agricultural Service.* • • •

(3) One Confidential Assistant to the Administrator.

• • • • • •

(5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954–58, Comp. p. 218)

[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75–8968 Filed 4–4–75;8:45 am]

PART 213—EXCEPTED SERVICE

International Trade Commission

Section 213.3339 is amended to show that one position of Staff Assistant to a Commissioner is excepted under Schedule C.

Effective April 7, 1975, § 213.3339(f) is amended as set out below.

§ 213.3339 U.S. International Trade Commission.

• • • • • •

(f) One position of Staff Assistant to each of four Commissioners.

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58; Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75–8971 Filed 4–4–75;8:45 am]

PART 213—EXCEPTED SERVICE

Department of Transportation

Section 213.3394 is amended to show that one additional position of Special Assistant to the Secretary is excepted under Schedule C.

Effective April 7, 1975, § 213.3394(a)(2) is amended as set out below.

§ 213.3394 Department of Transportation.

(a) *Office of the Secretary.* • • •

(2) Two Special Assistants to the Secretary.

• • • • • •

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75–8970 Filed 4–4–75;8:45 am]

CIVIL SERVICE EMPLOYMENT

Age Discrimination

Under authority of Pub. L. 93–259, Fair Labor Standards Amendments of 1974, which amended the Age Discrimination in Employment Act of 1967, Parts 300, 302 and 315 of title 5 of the Code of Federal Regulations are amended to prohibit Federal personnel actions which discriminate on the basis of age, and provide for the acceptance and processing of discrimination complaints.

Effective April 7, 1975, §§ 300.102 through 104, 302.202 and 315.806 are amended as set out below:

PART 300—EMPLOYMENT (GENERAL)

Subpart A—Employment Practices

1. Section 300.102 is revised to read as follows:

§ 300.102 Policy.

This Subpart is directed to implementation of the policy that competitive employment practices:

(a) Be practical in character and as far as possible relate to matters that fairly test the relative capacity and fitness of candidates for the jobs to be filled;

(b) Result in selection from among the best qualified candidates;

(c) Be developed and used without discrimination because of race, color, religion, sex, age, national origin, partisan political affiliation or other nonmerit grounds; and

(d) Insure to the candidate opportunity for appeal or administrative review, as appropriate.

2. Section 300.103 is revised to read as follows:

V 40 67 APR 7 75 XUM

§ 300.103 Basic requirements.

(a) *Job analysis.* Each employment practice of the Federal Government generally, and of individual agencies, shall be based on a job analysis to identify:

(1) The basic duties and responsibilities;

(2) The knowledges, skills, and abilities required to perform the duties and responsibilities; and

(3) The factors that are important in evaluating candidates. The job analysis may cover a single position or group of positions, or an occupation or group of occupations, having common characteristics.

(b) *Relevance.* (1) There shall be a rational relationship between performance in the position to be filled (or in the target position in the case of an entry position) and the employment practice used. The demonstration of rational relationship shall include a showing that the employment practice was professionally developed. A minimum educational requirement may not be established except as authorized under section 3308 of title 5, United States Code.

(2) In the case of an entry position the required relevance may be based upon the target position when—

(i) The entry position is a training position or the first of a progressive series of established training and development positions leading to a target position at a higher level; and

(ii) New employees, within a reasonable period of time and in the great majority of cases, can expect to progress to a target position at a higher level.

(c) *Equal employment opportunity.* An employment practice shall not discriminate on the basis of race, color, religion, sex, age, national origin, partisan political affiliation, or other nonmerit factor. This requirement is generally met when an employment practice is relevant to performance in the position to be filled (or in the target position in the case of an entry position).

3. Section 300.104 is revised to read as follows:

§ 300.104 Appeals, grievances and complaints.

(a) *Employment practices.* (1) A candidate who believes that an employment practice which was applied to him and which is administered or required by the Commission violates a basic requirement in section 330.103 is entitled to appeal to the Commission.

(2) An appeal shall be in writing, shall set forth the basis for the candidate's belief that a violation occurred, and shall be filed with the Board of Appeals and Review, U.S. Civil Service Commission, Washington, D.C. 20415, no later than 15 days from the date the employment practice was applied to the candidate or the date he became aware of the results of the application of the employment practice. The board may extend the time limit in this subparagraph for good cause shown by the candidate.

(3) An appeal shall be processed in accordance with Subpart D of Part 772 of this chapter.

(b) *Examination ratings.* A candidate may file an appeal with the Commission from his examination rating or the rejection of his application. The appeal shall be filed and processed in accordance with instructions in chapter 337 of the Federal Personnel Manual.

(c) *Complaints and grievances to an agency.* (1) a candidate may file a complaint with an agency when he believes that an employment practice which was applied to him and which is administered or required by the agency discriminates against him on the basis of race, color, religion, sex or national origin; or age, provided that at the time of the alleged discriminatory action the candidate was at least 40 years of age but less than 65 years of age. The complaint shall be filed and processed in accordance with Subparts B and E of Part 713 of this chapter.

(2) Except as provided in subparagraph (1) of this paragraph, an employee may file a grievance with an agency when he believes that an employment practice which was applied to him and which is administered or required by the agency violates a basic requirement in section 300.103. The grievance shall be filed and processed under the agency grievance system, or a negotiated grievance system, established in accordance with Subpart C of Part 771 of this chapter.

(5 U.S.C. secs. 3301, 3302, 7151, 7154, E.O. 10577; E.O. 11478; 3 CFR 1954–1958 Comp., p. 218, 3 CFR 1969 Comp.)

PART 302—EMPLOYMENT IN THE EXCEPTED SERVICE

Subpart B—Eligibility Standards

4. Section 302.202 is revised to read as follows:

§ 302.202 Qualification requirements.

Before making an appointment to a position covered by this Part, each agency shall establish qualification standards such as those relating to experience and training, citizenship, minimum age, physical condition, etc., which shall relate to the duties to be performed. An agency may delegate the establishment of standards relating to a group of positions or a specific position to the appropriate administrative level or subdivision of the agency and that level or subdivision may amend or modify the standards in accordance with the needs of the locality in which the position is located, but the agency shall determine that each standard established is in conformity with this Part. Each agency shall make its standards a matter of record in the appropriate office of the agency, and shall furnish information concerning the standards for a position to an applicant on his request. Each agency shall apply the standards for a position uniformly to all applicants, except for such waivers as are provided in this Part for a preference eligible. An agency shall not include a minimum educational requirement in qualification standards, except for a scientific, technical, or professional position the duties of which the agency decides cannot be performed by a person who does not have a prescribed minimum education. An agency shall not establish a maximum age requirement for any position. Each agency shall make a part of its records the reasons for its decision under this section, and shall furnish those reasons to an applicant on his request. The qualification standards shall include:

(a) A provision for waiver by the agency of requirements as to age, height, and weight for each preference eligible when the requirements are not essential to the performance of the duties of the position; and

(b) A provision for waiver by the agency of physical requirements for each preference eligible when the agency, after giving due consideration to the recommendation of an accredited physician, finds that the applicant is physically able to discharge the duties of the position.

(5 U.S.C. 1302, 3301, 3302; E.O. 10577; 3 CFR, 1954–1958 Comp., p. 218.)

PART 315—CAREER AND CAREER CONDITIONAL EMPLOYMENT

Subpart H—Probation

5. In § 315.806, paragraphs (a) and (b)(1) are revised as follows:

§ 315.806 Appeal rights to the Commission.

(a) *Right of appeal.* An employee may appeal to the Commission in writing an agency's decision to terminate him under § 315.804 or § 315.805 only as provided in paragraphs (b) and (c) of this section. The Commission's review is confined to the issues stated in paragraphs (b) and (c) of this section.

(b) *On discrimination.* (1) An employee may appeal under this subparagraph a termination which he alleges was based on discrimination because of race, color, religion, sex, or national origin; or age, *Provided,* That at the time of the alleged discriminatory action the employee was at least 40 years of age but less than 65 years of age. The Commission refers the issue of discrimination to the agency for investigation of that issue and a report thereon to the Commission.

• • • • •

(5 U.S.C. 1302, 3301, 3302; E.O. 10577; 3 CFR, 1954–1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION AND STANDARDS)

United States Standards for Grades of Mechanically Harvested American (Eastern Type) Grapes for Processing and Freezing[1]

On June 25, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 22958) regarding the issuance of United States Standards for Grades of Mechanically Harvested American (Eastern Type) Grapes for Processing. These grade standards are issued under authority of the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621–1627), which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers and consumers. Official grading services are also provided under this act upon request of any financially interested party and upon payment of a fee to cover the cost of such services.

Statement of considerations leading to the issuance of the grade standards. The United States Standards for American (Eastern Type) Bunch Grapes for Processing and Freezing were issued July 5, 1943. Since that time there have been many changes in the grape industry. In the 1960's mechanical harvesters were introduced to the vineyards. Since machine harvesting results in shattered berries, berries completely removed from the bunch, the application of these standards would result in the entire crop failing to meet any grade. This prompted the industry to request that the USDA develop new standards for mechanically harvested grapes for processing and freezing.

In 1969 and subsequent harvest seasons studies were conducted in the States of Pennsylvania, New York, Michigan, Arkansas and Washington. From data collected in these studies standards were developed that would be applicable to machine harvested grapes. These standards were published in the FEDERAL REGISTER under notice of proposed rulemaking on June 25, 1974. Copies of the proposed standards were distributed to individuals and to groups and organizations of grape growers and processors. In order to provide the industry ample time to study and apply these proposed standards a full harvest season was allowed for comments which ended December 30, 1974.

Only one written comment was received from a processor in response to the proposal. Most of the views expressed in the letter were considered favorable, however, there was unfavorable response concerning the maturity requirements for the U.S. No. 1 and U.S. No. 2 grades, as in their opinion, the proposal excludes all varieties classified as American (Eastern Type) Grapes, except for one variety. In addition, they indicated that if unattached petioles were to be considered as foreign material, the tolerance for foreign material would not be realistic. USDA standardization specialists met with National Grape Cooperative Association Inc. (Welch Foods Inc.) representatives to discuss the proposal and review the findings of studies conducted. National Grape used the proposal as the basis of grower-processor contracts during the 1974 season.

The following changes from the published proposal should result in standards, with reasonable requirements, that are compatible with industry practices.

1. Within the tolerance for total defects a restrictive tolerance of one-half of one percent for dissimilar varieties is added to each grade, which would prevent the mixing of varieties with high soluble solids with varieties that normally have low solids.

2. A definition for unattached petioles is added to the standards. This is needed to establish a uniform interpretation as to what constitutes an unattached petiole since they are not considered as foreign material.

3. The phrase "unless otherwise specified" is incorporated in the definitions for "mature" and "fairly well matured." By including this phrase it will enable the standards to be applied to all varieties classified as American (Eastern Type) Grapes which would permit wider use of these standards.

4. The damage requirement for pulp discoloration is deleted. The degree of discoloration described in the definition of damage is considered not to have any significant effect on the processing quality of the grapes.

5. The word freezing is added to the title of the standards at the request of a processor.

After consideration of all relevant matters presented by interested persons, including the proposal set forth in the aforesaid notice, the following U.S. Standards for Grades of Mechanically Harvested American (Eastern Type) Grapes for Processing and Freezing are hereby promulgated pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended, 7 U.S.C. 1621–1627).

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug and Cosmetic Act or with applicable State laws and regulations.

Subpart—United States Standards for Grades of Mechanically Harvested American (Eastern Type) Grapes for Processing and Freezing

GENERAL

Sec.
51.2150 General.

GRADES

51.2151 U.S. No. 1.
51.2152 U.S. No. 2.

TOLERANCES

51.2153 Tolerances.

DEFINITIONS

51.2154 Mature.
51.2155 Fairly well matured.
51.2156 Foreign material.
51.2157 Similar varietal characteristics.
51.2158 Unattached petioles.
51.2159 Damage.
51.2160 Serious damage.
51.2161 Classification of defects.

AUTHORITY: Secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624.

Subpart—United States Standards for Grades of Mechanically Harvested American (Eastern Type) Grapes for Processing and Freezing

GENERAL

§ 51.2150 General.

(a) These standards apply to American (Eastern Type) Grapes which have been mechanically harvested and are to be processed.

(b) The grade of a lot of mechanically harvested grapes shall be determined on the basis of a composite sample.

GRADES

§ 51.2151 U.S. No. 1.

"U.S. No. 1" consists of grapes and juice which meet the following requirements:

(a) Basic requirements:
(1) Mature; and,
(2) Similar varietal characteristics.

(b) Free from:
(1) Decay;
(2) Visible mold;
(3) Immature berries;
(4) Sunburn;
(5) Freezing;
(6) Attached insects or insect injury; and,
(7) Foreign material.

(c) Free from damage by any cause. (See § 51.2159)

(d) For tolerances. (See § 51.2153)

§ 51.2152 U.S. No. 2.

"U.S. No. 2" consists of grapes and juice which meet the requirements of the U.S. No. 1 grade except:

(a) Berries shall be at least fairly well matured; and,

(b) Increased tolerances for defects and foreign material. (See § 51.2153)

TOLERANCES

§ 51.2153 Tolerances.

(a) No tolerance is provided in these standards for grapes which fail to meet the maturity requirement.

(b) In order to allow for variations incident to proper culture, harvesting and handling in each of the foregoing grades, tolerances, by weight, other than for maturity, are set forth in Table I.

V 4067 APR 75 XUM

TABLE I

	U.S. No. 1 (percent by weight)	U.S. No. 2 (percent by weight)
A. Total defects	10	10.
1. Serious damage (included in "A").	6	6.
(a) Berries affected by mold or decay (included in "1").	3	3.
(b) Dissimilar varieties (included in "1").	½ of 1	½ of 1.
(c) Berry moth, attached insects or other insect injury (included in "1").	½ of 1	1.
B. Foreign material	3	4.
(a) Leaves, petioles, or other plant parts, except for unattached petioles (included in "B").	3	4.
(b) All other foreign material (included in "B").	½ of 1	½ of 1.

DEFINITIONS

§ 51.2154 Mature.

"Mature" means that representative samples of grapes and juice from containers in a lot shall test, unless otherwise specified, not less than 15.5 percent soluble solids, as determined by an approved refractometer.

§ 51.2155 Fairly well matured.

"Fairly well matured" means that representative samples of grapes and juice from containers in a lot shall test, unless otherwise specified, not less than 14.5 percent soluble solids, as determined by an approved refractometer.

§ 51.2156 Foreign material.

"Foreign material" means sticks, stones, leaves, petioles or other plant parts or other extraneous material.

§ 51.2157 Similar varietal characteristics.

"Similar varietal characteristics" means grapes having same characteristic skin and pulp color.

§ 51.2158 Unattached petioles.

"Unattached petioles" means petioles that are completely devoid of their leaf.

§ 51.2159 Damage.

"Damage" means any specific defect described in § 51.2161, Table II; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which materially detracts from the processing quality of the grapes.

§ 51.2160 Serious damage.

"Serious damage" means any specific defect described in § 51.2161, Table II; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which seriously detracts from the processing quality of the grapes.

§ 51.2161 Classification of defects.

TABLE II

Defects	Damage	Serious damage
Dried berries.	When berries are dry and shriveled to the extent that practically no moisture is present within the berries.	
Discoloration.	See serious damage.	When darker than plate 7.5 RP ¾ in the Munsell Book of Color[1]
Sunburn	do	When sunken, discolored, and dried area caused by sunburn affects the skin or flesh of the grape.
Decay or mold.	do	Any visible decay or mold on the grape skin or penetrating the flesh.
Insects or insect injury.	do	Any insect injury penetrating the flesh or any insect attached to the grape.
Immature berries.	do	When berries are hard and green and generally small.

[1] This color plate may be purchased from the Munsell Color Co., 2441 North Calvert St., Baltimore, Md. 21218.

The United States Standards for Grades of Mechanically Harvested American (Eastern Type) Grapes for Processing and Freezing contained in the subpart shall become effective May 15, 1975.

Dated: April 1, 1975.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 75-232]

PART 545—OPERATIONS

Service Corporation Debt and Investment Limitations

Summary. The following summary of the amendments adopted by this Resolution is provided for the reader's convenience and is subject to the full provisions of this Resolution, including the provisions in the preamble thereof and in the amended regulations set forth below.

I. *Debt Limitations.*—A. Present regulation—Unsecured debt from parent savings and loan associations to their "b–2 type" service corporations is not included in the net worth base for determining maximum debt limitations.

B. Amended regulation—Unsecured debt from a 25 percent-or-more stockholder in a "b–2 type" service corporation is added to the net worth base for determining maximum debt limitations; such unsecured debt continues to count as part of the unsecured and total debt computations.

II. *Debt Treatment of Entities Within a Consolidation.*—A. Clarification—No service corporation or subsidiary may separately exceed the debt limit imposed on the consolidated net worth.

III. *Investment Limitations.*—A. Present regulation—Permits a Federal association to make "conforming loans" to service corporations and joint ventures if the Federal association's net worth is at least 5 percent of savings and scheduled items do not exceed 2.5 percent of specified assets.

B. Amended regulation—Permits Federal associations having scheduled items in excess of 2.5 percent but having net worth of at least 5 percent to apply for approval to make such "conforming loans"; approvals are delegated to Principal Supervisory Agents.

The Federal Home Loan Bank Board considers it advisable to amend § 545.9–1 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.9–1) in order to effect certain revisions and clarifications with respect to the Board's service corporation debt and investment limitations.

On June 5, 1974, the Board, in part, amended the debt limitations for b–2 type service corporations, which are corporations owned by fewer than 5 associations or in which one association owns more than 40 percent of the stock (Board Resolution No. 74–518; 39 FR 20678). Before the June 5 amendments, the limitation on type b–2 service corporation unsecured debt was computed as an amount equal to the lesser of (1) 1 percent of the assets of the service corporation's stockholders or (2) the total of stock and unsecured debt invested by stockholders; unsecured debt owed to a stockholder was not counted within the unsecured debt limitations. The June 5 amendments liberalized the unsecured debt limitation by adding retained earnings to the computation base and by raising the allowable maximum unsecured debt to 2 times the base, but at the same time it removed unsecured debt owed to stockholders from the base and included unsecured debt owed to stockholders within the unsecured debt limitations. Similar revisions were made in the June 5 amendments to the secured and unsecured debt limitations for b–2 type service corporations.

Upon further consideration, the Board considers it desirable to include unsecured debt owed to stockholders in the bases for computing both the permissible secured and unsecured debt in order to provide more flexibility in capitalizing service corporations. This new inclusion of such debt in the unsecured and secured debt bases is limited to unsecured debt owed to a holder of at least 25 percent of the service corporation's stock. However, unsecured and secured debt owed to any stockholders would continue to be included within the limitations on such debt.

The service corporation debt limitations are applicable to the consolidated statement of a service corporation and its subsidiaries under § 545.9–1(b)(3)(i). In order to clarify the application of these limitations on separate entities within the consolidation, and thus to forestall a possible interpretation of the regulations which would allow for selective over-leveraging by certain of such entities, the Board considers it desirable to add a new § 545.9–1(b)(3)(i)(e) to require that the debt of each entity shall not exceed the applicable debt limitations. For purposes of new § 545.9–1(b)(3)(i)(e), the internal debt from a service corporation to its subsidiary is excluded from the subsidiary's debt computation because such internal debt is cancelled out in the consolidated statement.

Paragraph 545.9–1(c), the service corporation investment provision, is amended by adding thereto a new paragraph (c)(4) to provide for an exception from the scheduled items limitation on investment set forth in paragraph (c)(2) of § 545.9–1. The latter paragraph provides, in part, that a Federal association's ratio of scheduled items to specified assets may not exceed 2.5 percent in order for the association to be authorized to make additional service corporation investment in the form of conforming loans. New § 545.9–1(c)(4) authorizes an association with scheduled items exceeding such ratio but with net worth of at least 5 percent of withdrawable accounts to apply for an exception to the limitation if it can document good management policies and operating results. The Board believes that in this way associations which have suffered substantial increases in scheduled items as a result of local economic problems will not be penalized for conditions that are not related to their particular management policies.

Applications for exceptions under new § 545.9–1(c)(4) shall be filed with the Principal Supervisory Agent of the district in which the principal office of the applicant is located, with a copy to the Director, Office of Examinations and Supervision. The Principal Supervisory Agent has 30 days to notify the applicant that approval has been withheld, after which the application would be deemed approved. Cases in which approval is withheld shall be processed to the Board for its decision.

Accordingly, the Federal Home Loan Bank Board hereby amends § 545.9–1 by revising paragraphs (b)(3)(i) (*a*), (b) and (c) and (c)(2) thereof, and by adding new paragraphs (b)(3)(i)(*e*) and (c)(4) thereto to read as set forth below, effective April 7, 1975.

Since the above amendments relieve restrictions, the Board hereby finds that notice and public procedure with respect to said amendments are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b).

§ 545.9–1 Service corporations.

• • • • • •

(b) *Other service corporations.* In addition to investment in a service corporation which meets the requirements of paragraph (a) of this section, a Federal association which has a charter in the form of Charter N or Charter K (rev.) may invest in the capital stock, obligations, or other securities of any service corporation organized under the laws of the State, District, Commonwealth, territory, or possession in which the home office of the association is located if:

• • • • • •

(3) The following limitations are complied with:

(i) If less than 5 savings and loan associations (including any Federal association) hold capital stock in such corporation or one such association holds more than 40 percent of such stock, such corporation, including any subsidiary, does not incur or have outstanding at any time debt in excess of the following limitations:

(*a*) In the case of all unsecured debt (to holders of its capital stock and to others), an amount equal to 2 times the total of its consolidated net worth plus unsecured debt to holders of at least 25 percent of its capital stock;

(*b*) In the case of all secured and unsecured debt (to holders of its capital stock and to others), except as permitted by paragraph (b)(3)(i)(c) of this section, an amount equal to 10 times the total of its consolidated net worth plus unsecured debt to holders of at least 25 percent of its capital stock; and

(*c*) In the case of all secured and unsecured debt (to holders of its capital stock and to others), if such corporation, including any subsidiary thereof, is engaged solely in the activities specified in paragraph (a)(4)(i)(*a*) of this section, an amount of debt equal to 20 times the total of its consolidated net worth plus unsecured debt to holders of at least 25 percent of its capital stock;

• • • • • •

(*e*) In computing "consolidated net worth" for purposes of paragraph (b)(3)(i) of this section, the debt of each separate entity (the net worth of which is to be consolidated) shall not exceed the applicable debt limitation: *Provided*, That, for purposes of this paragraph (b)(3)(i)(*e*), a service corporation's loans to its subsidiary need not be computed as debt.

• • • • • •

(c) *Amount of investment.* • • •

(2) In addition to amounts which may be invested within the limitation set forth in paragraph (c)(1) of this section, a Federal association which has a net worth of at least 5 percent of withdrawable accounts and which has a ratio of scheduled items (other than assets acquired in a merger instituted for supervisory reasons) to specified assets of not more than 2.5 percent (except as provided in paragraph (c)(4) of this section) may loan additional amounts to service corporations, or any subsidiaries thereof, and to joint ventures of such service corporations or subsidiaries, as follows:

• • • • • •

(4) A Federal association which has a net worth of at least 5 percent of withdrawable accounts may apply to the Board for an exception from the scheduled items limitation in paragraph (c)(2) of this section. The application shall be supported by appropriate information evidencing the association's sound investment, lending, appraisal, and underwriting policies and favorable operating results. Such application shall be filed with the Principal Supervisory Agent of the district in which the home office of the applicant is located, with a copy to the Director, Office of Examinations and Supervision, 320 First Street, NW., Washington, D.C. 20552. Such application will be deemed to be approved if, by the close of 30 calendar days after the date of its receipt by the Principal

V 40167 APR 75 XUM

Supervisory Agent, such Principal Supervisory Agent has not notified the applicant that approval has been withheld. If approval by the Principal Supervisory Agent is withheld, the Principal Supervisory Agent shall promptly cause the application to be submitted to the Board for its decision. The Principal Supervisory Agent may request additional information after receipt of the application, but need not consider such additional information from the applicant which is received by the Principal Supervisory Agent less than 5 calendar days before the end of the 30 calendar day period. As used in this paragraph (c)(4), the term "Principal Supervisory Agent" has the same meaning as in § 545.14(a)(3)(i).

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75-EA-6; Amdt. 39-2156]

PART 39—AIRWORTHINESS DIRECTIVES

Lycoming Aircraft Engines

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Lycoming aircraft engines.

There have been reports of failures of the Woodruff keys located in the oil pump impellers as a result of certain prior alterations involving the installation of hardened drive impellers, including steel impellers. It appears the excessive wear contributed to such failures.

Since this deficiency can exist or develop in aircraft engines of similar type design, an airworthiness directive is being issued which will require an inspection within the oil pump assembly and replacement where necessary of the oil pump drive shaft and drive impeller.

In view of the foregoing and because the deficiency is one which affects air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by issuing a new Airworthiness Directive as follows:

LYCOMING. Applies to O-360, HO-360, HIO-360, VO-360-A1A, VO-360-A1B, VO-360-B1A, IVO-360-A1A, O-540 and IO-540 series Lycoming engines (listed in Lycoming Service Bulletin No. 381A) and the same series engines overhauled/remanufactured by Lycoming between December 18, 1972 and December 10, 1974 and the same series engines overhauled after December 18, 1972 at facilities other than the manufacturer, in which the provisions of Lycoming Service Instruction No. 1272 have been incorporated.

Applicable models	Applicable serial Nos.			Excepted serial Nos.
O-360-C2D, HO-360-B1A, -B1B	L-15550-36A 19846-36A.	through	L-	L-19817-36A, L-19818-36A.
HIO-360-A1A, -B1A	L-10179-51A 13551-51A.	through	L-	L-12257-51A, L-12727-51A, L-12853-51A, L-12890-51A, L-12902-51A through L-12904-51A, L-12919-51A, L-12965-51A through L-13005-51A, L-13079-51A, L-13084-51A through L-13040-51A, L-13124-51A through L-13128-51A, L-13170-51A through L-13174-51A, L-13257-51A through L-13262-51A, L-13280-51A through L-13283-51A.

HIO-360-C1A	L-10179-51A 13372-51A.	through	L-	L-11378-51A, L-12193-51A, L-12445-51A, L-12763-51A, L-12845-51A, L-12847-51A through L-12849-51A, L-12895-51A, L-12897-51A, L-12898-51A, L-12901-51A, L-12912-51A, L-12914-51A through L-12916-51A, L-12918-51A, L-13080-51A through L-13079-51A, L-13041-51A, L-13042-51A, L-13119-51A through L-13122-51A, L-13149-51A through L-13148-51A, L-13271-51A through L-13275-51A.
HIO-360-C1B	L-10179-51A 13551-51A.	through	L-	
O-540-B4C5	L-14527-40 17105-40A.	through	L-	
IO-540-K1B5	L-10536-48 13725-48.	through	L-	

For the Lycoming O-360, HO-360, HIO-360, VO-360-A1A, VO-360-A1B, VO-360-B1A and IVO-360-A1A series engines listed above, compliance is required within the next 10 hours in service after the effective date of this AD or before the engines have accumulated 400 hours in service, whichever occurs later, unless already accomplished. For the Lycoming O-540 and IO-540 series engines listed above, compliance is required within the next 50 hours in service after the effective date of this AD or before the engines have accumulated 400 hours in service, whichever occurs later, unless already accomplished.

To prevent oil pump failures inspect and replace when necessary the oil pump drive shaft and drive impeller in accordance with Lycoming Service Bulletin No. 381A or later revision approved by Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

The manufacturer's inspections and replacement procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received this document from the manufacturer, may obtain copies upon request to Avco Lycoming Division Service Department, Williamsport, Pennsylvania 17701. These documents may also be examined at the Engineering and Manufacturing Branch, Federal Aviation Administration, Eastern Region, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its Eastern Region Headquarters.

This amendment is effective April 9, 1975.

(Sec. 313(a), 601 and 603 of the Federal Aviation Act of 1958 [49 U.S.C. 1354(a), 1421 and 1423], and sec. 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].)

Issued in Jamaica, N.Y., on March 26, 1975.

LOUIS J. CARDINALI,
Acting Director, Eastern Region.

[FR Doc.75-8775 Filed 4-4-75;8:45 am]

[Docket No. 74-SW-38; Amdt. 39-2163]

PART 39—AIRWORTHINESS DIRECTIVES

Sikorsky S-61L, S-61N, S-61NM, and S-61R Helicopters Certificated in All Categories

Amendment 39-1971 (39 FR 33791), AD 74-20-7, as amended by Amendment 39-1989 (39 FR 36856), established replacement times for modified and original main rotor blades to prevent operation with fatigue cracks in the spars of blades of S-61 series helicopters certificated in all categories, and provided for the extension of the service life limits for certain rotor blades which had been altered, inspected, and maintained in accordance with Sikorsky Service Bulletin No. 61B15-6G. After Amendment 39-1989 was issued, the manufacturer issued a revised Service Bulletin No. 61B-15-6H which incorporated a change in the inspection criteria.

The agency has determined that the inspection criteria set forth in Sikorsky Service Bulletin No. 61B15-6H rather than No. 61B15-6G, should be used if service life limits are extended. Therefore, the AD is being revised to change the references from Sikorsky Service Bulletin No. 61B15-6G to Sikorsky Service Bulletin No. 61B15-6H.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than thirty (30) days after the date of publication in the FEDERAL REGISTER.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1971 (39 FR 33791), AD 74-20-7, as amended by

Amendment 39-1989 (39 FR 36856) is further amended as follows:

Wherever the AD refers to the Sikorsky Service Bulletin, delete "No. 61B15-6G" and insert in its place:

No. 61B15-6H

This amendment becomes effective April 16, 1975.

(Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Massachusetts, on March 25, 1975.

WILLIAM E. CROSBY,
Acting Director,
New England Region.

[FR Doc.75-8850 Filed 4-4-75;8:45 am]

[Airspace Docket No. 75-GL-16]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Transition Area; Correction

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to correct the geographic coordinates of the Truax Airport as cited for the Madison, Wisconsin transition area.

The coordinates for the Truax Airport, as currently stated in the description of the Madison, Wisconsin transition area are incorrect. They are corrected herein.

Since this correction is minor in nature and imposes no new burden on the public, compliance with the notice and public procedure provisions of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective immediately as hereinafter set forth:

In § 71.181 (40 FR 533, Jan. 2, 1975) the transition area is amended by correcting the coordinates for the Truax Airport, Madison, Wisconsin to read as latitude 43°08'15" N., longitude 89°20'-10" W.

(Sec. 307(a) of the Federal Aviation Act of 1958 [49 U.S.C. 1348]; sec. 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)]).

Issued in Des Plaines, Illinois on March 17, 1975.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In the Matter of Bagatelle International Ltd., a Corporation and Sidney Weinstein, Individually and as an Officer of Said Corporation, and Irving Weinstein, Individually and as an Officer of Said Corporation

Consent order requiring a New York City importer of wool blend fabrics and clothing manufacturer, among other things, to cease misbranding its wool products and importing wool products into the United States without filing bond with the Secretary of the Treasury in a sum double the value of said wool products and any duty on them.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

ORDER

It is ordered, That respondent Bagatelle International Ltd., a corporation, its successors and assigns, and its officers, and Sidney Weinstein, individually and as an officer of said corporation, and Irving Weinstein, individually and as an officer of said corporation, and respondents' representatives, agents, and employees, directly or through a corporation, subsidiary, division or any other device, in connection with the introduction, delivery for introduction, manufacture for introduction, sale, advertising or offering for sale in commerce, or the transportation or causing to be transported in Commerce, or the importation into the United States of any wool product; or in connection with the sale, offering for sale, advertising, delivery, transportation or causing to be transported, of any wool product, which has been advertised or offered for sale in commerce; and in connection with the sale, offering for sale, advertising, delivery, transportation or causing to be transported, after shipment in commerce of wool products, as the terms "commerce" and "wool products" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely and deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

2. Failing to securely affix to, or place on, each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner each element of information required to be disclosed by Section 4(a)(2) of the Wool Products Labeling Act of 1939.

It is further ordered, That respondents Bagatelle International Ltd., a corporation, its successors and assigns, and its officers, and Sidney Weinstein, individually and as an officer of Bagatelle International Ltd., and Irving Weinstein, individually and as an officer of Bagatelle International Ltd., and respondents' representatives, agents and employees, directly or through any corporation, subsidiary, division, or other device, do forthwith cease and desist from:

1. Importing or participating in the importation of wool products into the United States except upon filing bond with the Secretary of the Treasury in a sum double the value of said wool products and any duty thereon, conditioned upon compliance with the provisions of the Wool Products Labeling Act of 1939.

It is further ordered, That respondents notify, by registered mail, each of their customers that purchased the wool products which gave rise to this complaint of the fact that such products were misbranded.

It is further ordered, That each individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and his affiliation with a new business or employment. Such notice shall include each individual respondent's current business address and a statement as to the nature of the business or employment in which he is engaged, as well as a description of his duties and responsibilities.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the

[1] Copies of the Complaint, Decision and Order, filed with the original document.

Hydro-Air Engineering, Inc.

Subpart—Corrective actions and/or requirements: § 13.533 Corrective actions and/or requirements: § 13.533–20 Disclosures. Subpart—Dealing on exclusive and tying basis: § 13.670 Dealing on exclusive and tying basis: § 13.670–10 Clayton Act, Sec. 3; § 13.670–20 Federal Trade Commission Act. Subpart—Enforcing dealings or payments wrongfully: § 13.1045 Enforcing dealings or payments wrongfully.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 3, 38 Stat. 731; 15 U.S.C. 14)

In the Matter of Hydro-Air Engineering, Inc., a Corporation

Consent order requiring a St. Louis, Mo., manufacturer and distributor of truss fabricating equipment and truss connecting plates, among other things to cease tying the sale of wood roof truss connecting plates and/or engineering services to the sale, lease or license of fabricating equipment.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

I. For purposes of this Order, the following definitions shall apply:

A. The term "respondent" refers to Hydro-Air Engineering, Inc., a corporation, and its subsidiaries, affiliates, successors, assigns, officers, agents, representatives and employees.

B. The term "truss fabricating equipment" refers to all machinery and equipment sold, leased, or licensed by respondent to be used in the assembly, production and construction of wood roof trusses used in the construction of residences, multiple dwellings, commercial or industrial buildings and farm structures.

C. The term "truss connecting plates" refers to all metal plates bearing any number of nails or other sharp devices used to permanently connect the joints of wood roof trusses used in the construction of residences, multiple dwellings, commercial or industrial buildings and farm structures.

D. The term "engineering services" refers to design specification services provided by respondent in connection with the assembly, production and construction of wood roof trusses, and the selection and designation of truss connecting plates deemed necessary for the proper support of said trusses.

[1] Copies of the Complaint, Decision and Order, filed with the original document.

II. *It is ordered*, That respondent, directly or indirectly through any corporate or other device, in connection with the sale, lease or license of truss fabricating equipment, truss connecting plates and/or engineering services in the United States shall, within thirty (30) days after entry of this Order, cease and desist from:

1. Offering, entering into or enforcing any agreement or provision of any agreement, express or implied, which in any way requires or obligates any purchaser, lessee or licensee of respondent's truss fabricating equipment, as a condition to the execution or continuation of a purchase, lease or license agreement with respect to such equipment, to purchase or agree to purchase all or any part of such purchaser's, lessee's or licensee's requirements of truss connecting plates and/or engineering services from respondent or from any source designated by respondent.

2. Offering, allowing or granting a price discount, rental or royalty reduction, rebate, or other valuable consideration on or with respect to the sale, lease or license of respondent's truss fabricating equipment which is in any way based upon purchases of truss connecting plates and/or engineering services from respondent or from any source designated by respondent.

3. Requiring any of its purchasers, lessees or licensees of truss fabricating equipment to purchase truss connecting plates and any other products from respondent or from any source designated by respondent.

III. *It is further ordered*, That respondent shall:

1. Within thirty (30) days after entry of this Order, mail a letter on its stationery, signed by the officers of the respondent and enclosing a copy of this Order, to all of its purchasers, lessees, and/or licensees of truss fabricating equipment who have purchased truss connecting plates from it during the twenty-four (24) months preceding entry of this Order which informs each such purchaser, lessee or licensee of the prohibitive terms of this Order.

2. Notify, during the five (5) year period after entry of this Order, each new prospective purchaser, lessee or licensee of its truss fabricating equipment (excluding replacement parts) of the prohibitive terms of this Order on its first written proposal to each such new prospective purchaser, lessee or licensee.

3. Within ten (10) days after entry of this Order, provide a copy of this Order to each of its salesmen, sales agents and sales representatives.

4. Within thirty (30) days after entry of this Order, and continuing thereafter, make available its manuals concerning its standard wood roof truss designs, including updated standard wood roof truss designs, to any truss fabricator desiring such manuals; nothing contained in this Order shall prohibit respondent from charging a reasonable fee for such manuals.

5. Within sixty (60) days after entry of this Order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this Order.

6. Notify the Commission at least thirty (30) days prior to any proposed corporate change such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the Order.

The Decision and Order was issued by the Commission February 13, 1975.

VIRGINIA M. HARDING,
Acting Secretary.

[FR Doc.75-8962 Filed 4-4-75;8:45 am]

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 75-86]

PART 6—AIR COMMERCE REGULATIONS

Entry and Clearance of Aircraft in the Virgin Islands

On November 20, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 40772) which proposed to amend Part 6 of the Customs Regulations (19 CFR Part 6) by adding a new section, § 6.14, and by amending § 6.1(a) to make applicable to aircraft in the Virgin Islands of the United States the navigation laws of the United States extended to the Virgin Islands by Executive Order No. 9170, dated May 21, 1942, and the regulations issued under such laws which are applicable to aircraft in the United States. It was further proposed to amend Part 6, Customs Regulations, by amending paragraphs (1) and (3)(ii) of § 6.2(d) to provide that Customs Form 7507, General Declaration, shall be used as the permit to proceed in lieu of Customs Form 4449, Permit to Proceed, which has been abolished.

Interested persons were given 30 days from the date of publication of the notice to submit relevant written data, views, or arguments regarding the proposal. No comments were received.

It has been determined that the proposed amendments should be adopted as set forth in the notice of proposed rulemaking except for a change in the numerical designation of the new section from § 6.14 to § 6.25. Section 6.14 is being reserved for possible later use in setting forth landing or entry and clearance requirements of more widespread application.

Accordingly, with this one change, the proposed amendments to Part 6, Customs Regulations (19 CFR Part 6), are adopted as set forth below.

Effective date. This amendment shall become effective May 7, 1975.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: March 27, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

1. Paragraph (a) of § 6.1 is amended to read as follows:

§ 6.1 Scope and definitions.

(a) The regulations in this part shall not be applicable in the islands of Guam, Midway, American Samoa, Wake, Kingman Reef, and Johnson Island and other insular possessions not specified herein. The regulations shall be applicable to aircraft flying to and from the Virgin Islands of the United States in accordance with § 6.25.

• • • • •

§ 6.2 [Amended]

2. Subparagraphs (1) and (3)(ii) of § 6.2(d) are amended by substituting the words "a permit to proceed on Customs Form 7507" for the words "a permit on Customs Form 4449".

3. Part 6 is also amended by adding a new § 6.25 to read as follows:

§ 6.25 Flights to and from the Virgin Islands; provisions applicable.

(a) *Flights between the Virgin Islands and a place other than a State, the District of Columbia, or Puerto Rico.* Aircraft arriving in the Virgin Islands from a place other than a State, the District of Columbia, or Puerto Rico are subject to the provisions of this part which are applicable to aircraft arriving in a State from a place other than a State, the District of Columbia, or Puerto Rico. Aircraft departing from the Virgin Islands for a place other than a State, the District of Columbia, or Puerto Rico are subject to the provisions of this part which are applicable to aircraft departing from a State for a place other than a State, the District of Columbia, or Puerto Rico.

(b) *Flights from a State, the District of Columbia, or Puerto Rico to the Virgin Islands.* Aircraft on flights from a State, the District of Columbia, or Puerto Rico to the Virgin Islands are subject to the provisions of this part which are applicable to aircraft on a flight between two States except that aircraft transporting merchandise to the Virgin Islands subject to Bureau of the Census regulations requiring shipper's export declarations (15 CFR Part 30) must obtain permission to depart from the district director of Customs. Permission to depart shall not be granted until a complete manifest and required shipper's export declarations are filed unless the aircraft departs under bond pursuant to the incomplete manifest procedure (15 CFR 30.34) which requires the filing of a complete manifest and shipper's export declarations not later than the seventh business day after departure.

(c) *Flights from the Virgin Islands to a State, the District of Columbia, or Puerto Rico.* (1) Aircraft which are not inspected by Customs officers in the Virgin Islands are subject upon departure from the Virgin Islands for a State, the District of Columbia, or Puerto Rico to the provisions of this part which are applicable to aircraft departing from a State for a place outside the United States.

(2) Upon arrival in a State, the District of Columbia, or Puerto Rico from the Virgin Islands, aircraft which were not inspected by Customs officers in the Virgin Islands are subject to the provisions of this part which are applicable to aircraft arriving in a State from a place outside the United States.

(3) Aircraft on a flight from the Virgin Islands to a State, the District of Columbia, or Puerto Rico which were inspected by Customs officers in the Virgin Islands are subject upon departure from the Virgin Islands and upon arrival in the State, the District of Columbia, or Puerto Rico only to the provisions of this part which are applicable respectively to aircraft departing for or arriving in a State from another State.

(4) For the purpose of this section, the term "inspected by Customs officers in the Virgin Islands" means whatever supervision of the aircraft is deemed necessary by the district director of Customs to protect the revenue and enforce the laws administered by the United States Customs Service, including the collection of duty and taxes on articles purchased in the Virgin Islands.

(5) In the case of aircraft arriving in a State, the District of Columbia, or Puerto Rico from the Virgin Islands which were inspected there by Customs officers, the aircraft commander shall be prepared to present evidence of such inspection to Customs officers upon request. The evidence of inspection in the Virgin Islands shall be as follows:

(i) For aircraft registered in the United States of domestic origin or of foreign origin if duty paid and proceeding in ballast or solely with cargo or passengers or both from the Virgin Islands, a certificate on Customs Form 7507, General Declaration, endorsed by the Customs officers who inspected the aircraft in the Virgin Islands. The commander shall present the certificate in duplicate to the inspecting officers in the Virgin Islands, who will endorse the port of inspection thereon, date and sign the certificate and return the original to the commander. The commander or his representative shall retain the certificate for a reasonable time after termination of the flight to a State, the District of Columbia, or Puerto Rico, for presentation to Customs officers upon request, and then it may be destroyed or otherwise disposed of at the discretion of the commander or his representative.

(ii) For aircraft registered in the United States but of foreign origin and not duty paid and proceeding in ballast, the permit to proceed on Customs Form 7507, required by § 6.2(d)(3)(ii), endorsed with the port and date of inspection by the inspecting officers in the Virgin Islands. For aircraft registered in a foreign country and proceeding in ballast, the permit to proceed on Customs Form 7507, required by § 6.2(d)(1), endorsed with the port and date of inspection by the inspecting officers in the Virgin Islands.

(iii) For aircraft proceeding with residue cargo or residue passengers or both, the permit to proceed required by § 6.9 or any other Customs form used to cover the transportation of the residue cargo or passengers, endorsed with the port and date of inspection and signed by the inspecting officers in the Virgin Islands.

(Sec. 36, 49 Stat. 1616 (48 U.S.C. 1406i))

(R.S. 251, as amended, sec. 624, 46 Stat. 759, sec. 1109 72 Stat. 799, as amended (19 U.S.C. 66, 1624, 49 U.S.C. 1509))

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 356-4; PP4F1541/R18]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCE FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Cycloheximide

On September 27, 1974, notice was given (39 FR 34706) that The Upjohn Co., Kalamazoo, MI 49001, had filed a petition (PP 4F1541) for a pesticide tolerance with the Environmental Protection Agency (EPA). This petition proposed extension of the existing tolerance for residues of the plant regulator cycloheximide (3-[2-(3,5-dimethyl-2-oxocyclohexyl)-2-hydroxyethyl] glutarimide) in or on the raw agricultural commodity oranges at 0.1 part per million to include all citrus fruits.

The data submitted in the petition and other relevant material have been evaluated. The plant regulator is considered useful for the purpose for which the tolerance is sought. Residues of cycloheximide are not likely to result in eggs, meat, milk, and poultry, and § 180.6(a)(3) applies. The proposed amendment to the regulation will protect the public health.

Any person adversely affected by this regulation may on or before May 7, 1975, file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M Street, SW, East Tower, Room 1019, Washington DC 20460. Such objections should be submitted in quintuplicate and specify the provisions of the regulation deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on April 7, 1975, Part 180, Subpart C, is amended by revising § 180.336 to read as follows:

Dated: April 1, 1975.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

(Sec. 408(d)(2) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(d)(2)))

§ 180.336 Cycloheximide; tolerances for residues.

A tolerance of 0.1 part per million is established for residues of the plant regulator cycloheximide (3-[2-(3,5-dimethyl-2-oxocyclohexyl)-2-hy-

Correction

In FR Doc. 75-8397, in the issue of Tuesday, April 1, 1975, appearing at page 14598, the roman numeral "XVII" in the eighth line of § 250.30(b)(3)(iii) in the third column on page 14598, should be changed to read "XVIII".

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER C—ACCOUNTS, RECORDS AND REPORTS

[No. 32130 (Sub-No. 6)]

PART 1201—UNIFORM SYSTEM OF ACCOUNTS FOR RAILROAD COMPANIES

Elimination of Mail and Express Revenue Accounts

By notice of proposed rulemaking dated November 27, 1974, and published in the FEDERAL REGISTER on December 3, 1974 (39 FR 41867), this Commission made public that it had under consideration the elimination of the separate mail and express revenue accounts from the Uniform System of Accounts for Railroad Companies and the incorporation of those revenues into the freight revenue account. All interested parties were given the opportunity to submit their views and comments in writing by January 10, 1975.

Our present accounting system requires separate account disclosure for mail and express revenues. However, conditions which led to the separate account disclosure of these revenues no longer exist. The amount of mail and express traffic and revenues has diminished to the extent that separate account disclosure for these revenues is no longer warranted. Mail and express revenues are minor in comparison to other categories of freight.

This Commission believes mail and express revenues should be incorporated under the freight revenue account as prescribed in the uniform system of accounts for other modes of transportation.

The public notification of the proposed rulemaking in the FEDERAL REGISTER provided that any person desiring to participate could do so by filing, within a prescribed time, written statements of facts, views or arguments. Comments were received from three respondents, and they are summarized below:

Association of American Railroads and The Family Lines System[1] unequivocally support the Commission's proposed revision.

Penn Central Transportation Company supports the proposed revisions on the condition that arrangements are established to continue reporting mail and express revenues via freight commodity statistics. In addition, the carrier suggests that the effective date be postponed until January 1, 1976, due to difficulties in accounting and reporting.

Reporting Freight Commodity Statistics: Presently, the Commission publishes statistics for freight commodities handled at tariff rates. Freight commodities handled at contract rates have been excluded from the freight commodity statistics. Revenues currently accounted for in mail and express revenue accounts Nos. 106 and 107 represent revenues based on contract rates. Elimination of these revenue accounts will result in contract rate revenues being included with tariff rate revenues in the freight revenue account. Since contract rate revenues have been excluded from the freight commodity statistics in the past, the Commission believes a consistent application should be maintained and such revenues will continue to be excluded from the freight commodity statistics. Further, mail and express revenues are minor in comparison to other categories of freight revenue and represent an insignificant portion of total freight service revenues.

The capability for accumulating and publishing statistical information regarding mail and express revenues already exists. When the Commission determines that publication of such information will provide meaningful and relevant statistics, the Freight Commodity Statistics will be amended accordingly.

Effective date. Our proposal contemplates an effective date of January 1, 1975, due to the minimal accounting and reporting changes required. Any carrier which can demonstrate that an undue hardship will be sustained as a result of adopting the proposed revisions may request an extension from the Bureau of Accounts of the Commission.

We find that the revision to the Commission's accounting regulations reflected below should be approved and adopted effective January 1, 1975.

We further find that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

At a general session of the Interstate Commerce Commission held at its office in Washington, D.C., on the 19th day of March.

Consideration having been given to the matters involved in this proceeding, and the said Commission, on the date hereof, having made and filed a report herein containing its findings and conclusions, which report is hereby made a part hereof:

It is ordered, That Part 1201 of Title 49 of The Code of Federal Regulations be, and it is hereby revised to read as shown below to the above mentioned report.

It is further ordered, That the prescribed amendments shall be effective January 1, 1975.

And it is further ordered, That service of this order shall be made on all railroads; and to the Governor of every State and to the Public Utilities Commission or Boards of each State having jurisdiction over transportation; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

(49 U.S.C. 20)

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

LIST OF INSTRUCTIONS AND ACCOUNTS

Under "Railway Operating Revenue Accounts—Transportation Revenue Accounts", after line item "105 Parlor and chair car" delete:

106 Mail.
107 Express.

RAILWAY OPERATING REVENUE ACCOUNTS

The text of account "101 Freight" is amended by adding paragraphs (D) and (E) and Note (H). As amended the text reads:

101 Freight.

* * * * *

(d) This account shall include the revenue from the transportation of mail at established rates for specified routes; from the use of railway post-office cars when in carrier's service transporting mails; from the use of special mail facities; and from bonuses for special mail transportation. To this account shall be charged fines and penalties imposed by the Government when not collected from agents or employees.

(e) This account shall include the revenue from transportation of express matters and from use of facilities on trains and at stations incident to such transportation. When a railway company transacts an express business through its regular railway organization, the revenue therefrom shall be credited to this account.

* * * * *

NOTE H: When contracts for express privileges provide specific amounts for the rent of facilities at stations, such amounts shall be included in revenue account 142, "Rents of buildings and other property."

106, 107 [Deleted]

The title and text of account "106 Mail" is deleted.

The title and text of account "107 Express" is deleted.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Customs Service

[19 CFR Part 112]

CARRIERS, CARTMEN, AND LIGHTERMEN

Proposed Amendment Regarding Expansion of Authority Granted to Private Carriers in Transportation in Bond of Their Own Merchandise

Notice is hereby given that under the authority of R.S. 251, as amended (19 U.S.C. 66), and sections 551, 565, and 624, 46 Stat. 742, as amended, 747, as amended, and 759 (19 U.S.C. 1551, 1565, 1624), it is proposed to amend § 112.11(a)(4)(iii) of the Customs regulations (19 CFR 112.11(a)(4)(iii)) to expand the authority granted to private carriers in the transportation of their own bonded merchandise.

Presently, § 112.11(a)(4)(iii) of the Customs regulations (19 CFR 112.11(a)(4)(iii)) only permits a private carrier to carry his own bonded merchandise from the port of importation or port of entry for warehouse to his own bonded warehouse for physical deposit. Private carriers have advised the United States Customs Service that this limitation has resulted in an extravagant consumption of fuel and use of vehicles by prohibiting possible "two-way" hauling operations that could be instituted if this limitation was removed.

In order to conserve fuel and to better utilize the vehicles and equipment of private carriers, it is proposed to amend § 112.11(a)(4)(iii) of the Customs regulations by also permitting a private carrier to transport his own merchandise under bond from his Customs bonded warehouse to another Customs bonded warehouse for physical deposit or, if for exportation, to transport his own merchandise under bond from his Customs bonded warehouse to a Customs bonded warehouse at the port of exportation.

Accordingly, it is proposed to amend § 112.11(a)(4)(iii) of the Customs Regulations (19 CFR 112.11(a)(4)(iii)) to read as follows:

§ 112.11 Carriers which may be authorized.

(a) * * *
(4) * * *

(iii) The merchandise is to be transported from the port of importation or port of entry for warehouse to the private carrier's Customs bonded warehouse for physical deposit, or from the private carrier's Customs bonded warehouse to another Customs bonded warehouse for physical deposit, or, if for exportation, from a Customs bonded warehouse of which the private carrier is the proprietor to a Customs bonded warehouse at the port of exportation.

* * * * *

Prior to the adoption of the foregoing proposal, consideration will be given to any relevant data, views, or arguments which are submitted to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229, and received on or before May 7, 1975.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)) at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: March 27, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[FR Doc.75-8981 Filed 4-4-75;8:45 am]

[19 CFR Parts 112, 113]

CARRIERS, CARTMEN, AND LIGHTERMEN, CUSTOMS BONDS

Termination of a Customs Cartman's or Lighterman's Bond and the Duration of a License

Notice is hereby given that under the authority of R.S. 251, as amended (19 U.S.C. 66), and sections 551, 565, 623, and 624, 46 Stat. 742, as amended, 747, as amended, 759, as amended (19 U.S.C. 1551, 1565, 1623, 1624), it is proposed to amend § 112.26 of the Customs Regulations (19 CFR 112.26), relating to the duration of the license of a customhouse cartman or lighterman, and to add a new provision, § 113.56 (19 CFR 113.56), relating to the termination of the bond required as a condition of the customhouse cartage or lighterage license, the Bond of Customs Cartman or Lighterman, Customs Form 3855.

The purpose of the proposed changes is to provide a procedure by which the Bond of Customs Cartman or Lighterman, Customs Form 3855, may be terminated, to provide for the notification of the cartman or lighterman when the termination is requested by the surety without the consent of the principal (the cartman or lighterman), and to provide the cartman or lighterman with an opportunity to achieve compliance with the lawful bonding requirements by furnishing a new bond. The changes emphasize that the Bond of Customs Cartman or Lighterman, Customs Form 3855, is a requirement for maintaining a customhouse cartman's or lighterman's license.

Accordingly, it is proposed to amend Parts 112 and 113 of the Customs Regulations (19 CFR Parts 112, 113) as set forth below:

PART 112—CARRIERS, CARTMEN, AND LIGHTERMEN

It is proposed to amend § 112.26 to read as follows:

§ 112.26 Duration of license.

A license issued in accordance with this subpart shall remain in force and effect until the license is suspended, revoked, or terminated pursuant to § 112.30 or until the required bond is terminated pursuant to § 113.56 of this chapter.

PART 113—CUSTOMS BONDS

It is proposed to amend Part 113 by amending the centerheading which appears before § 113.51 and by adding a new section, § 113.56, to read as follows:

Subpart F—Assessment of Damages and Cancellation or Termination of Bond

* * * * *

§ 113.56 Termination of Bond of Customs Cartman or Lighterman.

(a) *Termination by cartman or lighterman.* A customhouse cartman or lighterman may terminate the Bond of Customs Cartman or Lighterman, Customs Form 3855, by filing with the district director by whose office the bond was approved a request for termination. The termination shall take effect on the date requested if the date is subsequent to the date of receipt of the request. If no termination date is requested or the termination date requested is prior to the date of receipt of the request, the termination shall take effect on the date of receipt of the request by the district director.

(b) *Termination by surety.* A surety may, with or without the consent of the principal, terminate the Bond of Customs Cartman or Lighterman, Customs Form 3855, on which it is obligated by filing with the district director by whose office the bond was approved a request for termination. The termination shall take effect on the 60th day after approval by the district director. The district director will notify both the surety and

V 40 67
APR 7 75
XUM

principal that the request for termination has been approved. If a new bond with good and sufficient sureties is not furnished by the cartman or lighterman prior to the effective date of the termination of the bond, the customhouse cartman's or lighterman's license will terminate concurrently with the bond.

Data, views, or arguments with respect to the foregoing proposals may be addressed to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20226. To insure consideration of such communications, they must be received on or before May 7, 1975.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)) at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: March 27, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

Decision on Proposed Amendment to Marketing Agreements and to Order

Correction

In FR Doc. 75-8029 appearing at page 14701 as the Part II in the issue of Tuesday, April 1, 1975, the following changes should be made:

1. In the fourth complete paragraph in the middle column on page 14720, delete the third line and insert in lieu of the following:
"order to continue the pooling of re".

2. On page 14725, in the sixth line of § 1004.11, "§ 1004.7(c) (6)" should read "§ 1004.7(c) (5)".

Commodity Credit Corporation

[7 CFR Part 1421]

LOAN AND PURCHASE PROGRAM FOR 1975-CROP RICE

Loan Maturity Date

Notice is hereby given that the Executive Vice President, Commodity Credit Corporation, United States Department of Agriculture, proposes to make a determination and issue regulations on the loan maturity date for 1975-crop rice.

Recommendations, views and comments are requested as to whether all loans should mature on April 30, 1976, or on demand, as in past years, or whether a longer period should be adopted wherein loans would mature on demand, but not later than twelve months beginning with the month of disbursement. In either case, the final date for making loans will be March 31, 1976.

Prior to making the determination and issuing related regulations, consideration will be given to any recommendations, views and comments received not later than May 7, 1975. Recommendations, views and comments should be submitted in writing to the Director, Cotton, Rice and Oilseeds Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, Washington, D.C. 20250.

All written submissions made pursuant to this notice will be made available for public inspection from 8:15 a.m. to 4:45 p.m. Monday through Friday, in Room 5725 South Building, 14th and Independence Avenue SW., Washington, D.C.

Signed at Washington, D.C. on April 1, 1975.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Parts 1910, 1926]

[Docket No. S-102]

GROUND-FAULT CIRCUIT PROTECTION

Revocation of Standard

Pursuant to section 6(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593, (29 U.S.C. 655)) (hereinafter called the Act), section 107 of the Contract Work Hours and Safety Standards Act (83 Stat. 96, (40 U.S.C. 333)), Secretary of Labor's Order No. 12-71 (36 FR 8754), and 29 CFR Part 1911, it is proposed to amend 29 CFR 1910.309 and 29 CFR 1926.400 by revoking the requirement of ground fault circuit protection for personnel on construction sites.

I. *Background.* In accordance with section 6(a) of the Act (84 Stat. 1593, (29 U.S.C. 655(a))), the 1971 National Electrical Code (hereinafter called NEC) (NFPA 70-1971, ANSI C1-1971) has been adopted as a national consensus standard in §§ 1910.309 and 1926.400. Section 210-7 of the NEC contains the following provision:

> All 15- and 20-ampere receptacle outlets on single-phase circuits for construction sites shall have approved ground-fault circuit protection for personnel. This requirement shall become effective on January 1, 1974.

On November 8, 1973, the Advisory Committee on Construction Safety and Health recommended to the Assistant Secretary of Labor for Occupational Safety and Health the suspension of the January 1, 1974, effective date of section 210-7 of the NEC pending further study. Additionally, on November 12, 1973, the National Constructors Association petitioned the Assistant Secretary to postpone the effective date of the regulation. On December 4, 1973, notice was published in the FEDERAL REGISTER (38 FR 33397) amending §§ 1910.309 and 1926.400, by adding paragraph (c) to § 1910.309 and paragraph (h) to § 1926.400, to suspend the January 1, 1974, effective date pending reconsideration of the requirement.

In order to obtain the information necessary for a reconsideration of the requirement, a notice of public hearing was published in the FEDERAL REGISTER on December 10, 1973 (38 FR 33983), and the issues subject to comment were listed on December 26, 1973 (38 FR 35235). A public hearing was held on February 26, 1974.

After evaluating the comments received in response to the FEDERAL REGISTER notices and the evidence submitted at the hearing, an advance notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 20499). This action was taken on the assumption that there was a need for ground-fault circuit interrupters (GFCI's) when an employee used electricity in any wet, damp, or conductive location.

After evaluating all the comments and evidence received in response to the FEDERAL REGISTER notices, a first draft of a proposed ground-fault circuit protection standard was prepared and submitted to the Advisory Committee on Construction Safety and Health at its October 30, 1974, meeting. This draft would have required ground-fault circuit interrupters for all 120-volt receptacle outlets on the temporary wiring of construction sites, which were used by employees. Additional evidence was submitted at this meeting, and a motion was passed to continue to hold the ground-fault circuit protection standard in abeyance, until an unbiased, independent study was conducted on the need and efficacy of GFCI's.

II. *Issues.* The entire record submitted has raised a number of issues relating to the standard. The major issues are discussed separately as follows:

(a) *Nuisance tripping.* One issue about the requirement for ground-fault circuit interrupters was that these devices were subject to nuisance tripping. Nuisance tripping occurred, it was claimed, when the GFCI's would often trip to open the circuit. Some commenters claimed that there were instances of tripping where no cause could be found. Other commenters claimed that GFCI's tripped constantly. However, some commenters submitted reports of studies of sites where GFCI's were used with few problems. The Atomic Energy Commission and the Army Corps of Engineers, who require GFCI's on the construction sites of their contractors, report that the GFCI's were operating with only minor problems. For example, the Corps of Engineers states, " * * * this survey shows that 294 contractors performing various types of construction work are using ground-fault circuit protection. All units were reported to be operating to the satisfaction of the contractors." Some municipalities adopted the ground-fault circuit protection standard before January 1, 1974, and other municipalities have accumulated experience through currently enforcing this standard. Those municipalities that reported results of this experience claimed that initially there were problems, but after learning how to use and apply the GFCI's, the contractors have been using them successfully.

Commenters who claimed that GFCI's tripped excessively defined nuisance tripping as "an unwanted interruption from an unknown or nonhazardous situation." The commenters gave examples of situations which caused tripping, such as wet cord connectors and equipment, broken light bulbs, capacitive leakage of long cords, and the use of too many tools on one GFCI. They further claimed that these conditions were nonhazardous. However, other commenters pointed out that the GFCI's tripped only when performing their intended purpose. They stated that any leakage to ground sufficient to cause a GFCI to trip was potentially hazardous. Some of the accidents submitted into the record were cases in which the victim contacted a wet cord connector, a wet grounded tool, or a broken light bulb. Furthermore, it was shown that the capacitive leakage of cords several hundred feet in length would not be sufficient to cause a GFCI to trip, unless the cord were completely immersed in water. Some recommended that portable GFCI's be used, as this would provide protection with interruption to only the immediate user of the portable GFCI.

(b) *Trip level.* Another issue raised by the commenters, which was closely related to "nuisance tripping" was that of the trip level of the GFCI unit. Many commenters claimed that a nominal level of 5 mA was too low and contributed to the "nuisance tripping." Two commenters conducted a test program on existing jobsites in the State of Washington. Based on that study, they concluded that a level of 20–25 mA was needed to keep the GFCI's operating. However, as the pictures and slides of the test sites showed, and as other commenters pointed out, each GFCI protected a duplex receptacle, which served a multitude of cords and connected equipment. As many as eight tools could have been powered by each GFCI. The combined leakage of that many tools could easily trip a 5 mA GFCI. It was claimed by the Washington State study that plugging in a single cord and/or tool caused some GFCI's to trip. However, it was also shown that leakage currents of cords in good condition was much less than that required to trip a 5 mA device—typically 0.1 mA for 100 feet of cord in air, and less than 0.5 mA for 100 feet of cord totally immersed in water. But leakage measurements of submerged dry-type (e.g., molded case) cord connectors were of sufficient value to trip any recommended GFCI and to be very hazardous. Insulating boots on the connectors or sealing connectors yielded leakage values less than 0.1 mA.

Other commenters stated that the trip level could be raised to 20 mA or more with no danger to personnel, claiming that this level is below the electrocution threshold. However, other commenters claimed that a 5 mA trip level is necessary for the safety of personnel. They gave examples of cases in which the leakage current could be limited to 17 or 18 mA by the fault impedance. This 17 or 18 mA level is above the let-go current level for the average man and could possibly stop his breathing. They, therefore, concluded that a 20 mA device in this case would not trip to protect the employee. These commenters claimed that the nominal trip level should be below the let-go current threshold, which is 9 mA for men and 6 mA for women, for maximum safety.

Some commenters expressed concern that many GFCI's tripped well under 5 mA (i.e., 2.5 mA or less). It was also stated that some defective devices had to be returned to the manufacturer due to unreliable performance. Other comments suggested a minor change in the trip level tolerance to 5 mA±1 mA. They claimed that this requirement could minimize "nuisance tripping."

(c) *Alternate methods.* Many commenters claimed that there were alternate methods of protecting employees from the hazards associated with portable electric tools. They claimed that grounding and double insulation of tools provided adequate protection, and some suggested that regularly testing tools would insure that these other methods were operational. A few commenters claimed that as long as the tool was grounded no shock would be felt in the event of a fault to its frame. However, commenters supporting the use of GFCI's claimed that an adequate system of equipment grounding was very difficult to maintain especially on construction sites, and that GFCI's were meant to backup the grounding conductor. Evidence submitted showed that often equipment is used ungrounded or with the equipment ground defeated. Some of the reports of accidents submitted were cases of electrocution in which the tool was grounded. One accident occurred when a tool that had been carefully tested before use developed a fault to its frame during actual use. In this case, the grounding conductor broke and contacted the hot conductor. Some commenters stated that neither grounding nor double insulation protects against all possible faults. They claimed that these methods cannot provide protection against contact with energized parts due to damage to the cords or their connectors, nor against electric shock from wet attachment caps or receptacles.

(d) *Accident data.* Some commenters claimed that there was no need for a GFCI standard because there were only a few accidents occurring which would be prevented by GFCI's. Others claimed that the accidents that have occurred happened because existing standards were not followed. Several commenters claimed that their strict adherence to standards has prevented many accidents and has contributed to their safety record. One association reported over one billion man-hours with only one fatality which could have been prevented by the use of a GFCI.

A total of 52 fatal accidents which could have been prevented by the use of GFCI's on construction sites was found by studying all the data submitted. This data covered the period from January 1970 to September 1974; however, these figures do not represent all of this type of electrocution occurring during this period. The details given in these reports were often very sketchy, and it was not always reported whether the equipment grounding conductor was present. Included with this data was a survey conducted by OSHA which yielded usable data from 18 states. A total of 31 fatal accidents on construction sites, which could have been prevented by the use of a GFCI, was accumulated from reports submitted directly from these states.

(e) *Economic impact.* Many commenters claimed that this standard would have a severe economic impact. Some

V 40167 APR 7 75 XUM

commenters claimed it would cost hundreds of thousands of dollars for large companies to comply. They claimed that these costs would not be offset by any substantial gain in safety. Others claimed that the costs were not unrealistic and that protection could be provided at a cost of $25 for each man that used portable electrical tools. However, no commenter gave a supported figure.

III. *Conclusions.* An analysis of the entire record on the subject of ground-fault circuit interrupters for use on the temporary wiring on construction sites raises many questions as to the necessity for GFCI's and the need for further research. For example, the question of what the ground-fault current trip level should be has yielded various values. Some authorities recommend 5 mA ±1, others suggest values as high as 20 or 30 mA and another commenter would allow the level to be established by a testing authority. Each of these arguments has merit, yet the wide range of recommendations would suggest that further data, study, and analysis is needed on this parameter of GFCI's.

The question as to whether or not the equipment grounding technique presently required on construction sites would adequately protect employees from hazardous electrical shock, and therefore render the use of GFCI's as redundant, was not resolved. Here a comparison of the effectiveness of both equipment grounding and GFCI systems indicates that when a person's body resistance is at a low value (approximately 500 ohms) and the equipment grounding resistance is assumed to be one ohm, the equipment grounding system may not be totally effective. Yet this is the extreme case and perhaps not a very frequent one. However, when the body resistance is higher, the GFCI might be considered as a redundant and therefore unnecessary protective system.

Of the several comments received which addressed the subject of cost to implement GFCI's on the temporary wiring at construction sites, none provided substantiating data. Most commenters indicated that the cost would be high. Acceptance of this data would have to be based on various assumptions. One such assumption is that an existing temporary wiring system be completely reworked, including all new wire and electrical components such as switchgear, conduit, panel boxes, receptacles, etc. Those commenters which indicated low cost, also failed to substantiate their claims. No estimate of actual cost which could be considered valid was presented. Without this data the economic impact on the affected parties is difficult to gauge and the cost/benefit relationship of GFCI's cannot be ascertained. If in fact the high cost (31 million dollars) is correct, then perhaps this money might be expended on some other consideration which would yield greater safety at construction sites.

The number of fatalities which could have been prevented by using GFCI's on construction was submitted in data which was incomplete, inconclusive or possibly irrelevant. The data submitted varied from one fatality in over one billion man-hours of construction to as many as 31 fatalities over a 4½-year period of construction work. Again, the cost/benefit relationship is difficult to gauge without accurate data to support it.

Serious questions were raised as to the reliability of GFCI's. Some commenters reported that their units would cause numerous "nuisance trips" without apparent cause. Such nuisance tripping would result in "downtime" which is understandably objectionable; and until a determination is made as to the cause of these nuisance trips, the question of the reliability of GFCI's will be difficult to answer.

Therefore, based on an analysis of the record developed up to this point, OSHA proposes to revoke the requirement that GFCI's be used on construction sites, in view of the issues discussed above and because such a requirement has not been shown to be necessary to the safety and health of employees. Such a revocation could be changed if there is a later determination that complete and accurate information is available which warrants mandatory utilization of GFCI's on construction sites.

IV. *Public participation.* Interested persons are invited to submit written data, views, and arguments concerning the proposed revocation. Comments must be postmarked before May 7, 1975, and submitted to: Docket Officer, Docket No. S-102, OSHA, Department of Labor, Room 220, 1726 M Street, NW., Washington, D.C. 20210. All written comments will be available for public inspection and copying at the above address.

Specifically, written data, views, and arguments are requested with respect to:

(1) The necessity for GFCI's in addition to existing protective measures;

(2) The experience with GFCI's required under State regulations and/or municipal codes;

(3) Injury and/or fatality statistics specifically related to the lack of GFCI's;

(4) Cost of utilizing GFCI's on temporary wiring on construction sites; and

(5) Reliability of GFCI's in terms of tripping levels.

Additionally, interested persons may file with the Docket Officer by June 6, 1975, written objections to the proposed revocation and request an informal hearing on the objections. These objections shall comply with the following:

(1) The objections must include the name and address of the objector;

(2) The objections must be postmarked by June 6, 1975;

(3) The objections must state the grounds therefor;

(4) Each objection must be separately stated and numbered; and

(5) The objections must be accompanied by a summary of the evidence proposed to be adduced at the requested hearing.

V. *Proposal.* Accordingly, pursuant to section 6(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593, (29 U.S.C. 655)), section 107 of the Contract Work Hours and Safety Standards Act (83 Stat. 96; (40 U.S.C. 333)), Secretary of Labor's Order No. 12-71 (36 FR 8754), and 29 CFR Part 1911, it is proposed to amend Parts 1910 and 1926 of Title 29 of the Code of Federal Regulations as follows:

1. In 29 CFR Part 1910, § 1910.309(c) would be amended to read as follows:

§ 1910.309 National Electrical Code.

* * * * *

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, the requirement in section 210-7 of the National Electrical Code that all 15- and 20-ampere receptacle outlets on single-phase circuits for construction sites have approved ground-fault circuit protection for personnel shall not be applicable.

2. In 29 CFR Part 1926, § 1926.400(h) would be amended to read as follows:

§ 1926.400 General Requirements.

* * * * *

(h) Notwithstanding any other provision of this part, the requirement in section 210-7 of the National Electrical Code that all 15- and 20-ampere receptacle outlets on single-phase circuits for construction sites have approved ground-fault circuit protection for personnel shall not be applicable.

(Sec. 6(b), Pub. L. 91-596, 84 Stat. 1593 (29 U.S.C. 655); sec. 107, Pub. L. 91-54, 83 Stat. 96 (40 U.S.C. 333); Secretary of Labor's Order No. 12-71, 36 FR 8754).)

Signed at Washington, D.C. this 1st day of April, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-8067 Filed 4-4-75;8:45 am]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Parts 1, 3]

LABELING FOR PRESCRIPTION DRUGS USED IN MAN

Proposed Format for Prescription-Drug Advertisements

The primary objective of prescription drug labeling is to provide the essential information the practitioner needs to use the drug safely and effectively in the care of patients. After reviewing whether this objective is being met, the Commissioner of Food and Drugs has determined that significant improvements can and should be made in drug labeling. Improvement can be accomplished by revising the format now contained in § 3.74 (21 CFR 3.74), by providing standards with regard to the kind of information that must be included under each of the specific section headings, by eliminating extraneous information which can best be obtained from the published literature, by providing explicit information on indications of use, and by replacing generalities with specifics. To improve prescription drug labeling, the Commissioner of Food and Drugs is proposing regulations designating a required format and the kinds of information that shall appear under each section heading.

In proposing these regulations, the Commissioner emphasizes that the principles enunciated in this document are based on past experience and precedent. The purpose of these labeling guidelines is not to establish new regulatory requirements, but to provide standards so that all package inserts can be brought up to the level of the best ones written in the past.

In this proposal, the section heading "Actions" for prescription drug labeling set forth in § 3.74, which the Commissioner proposes to revoke, has been replaced by a new section entitled "Clinical Pharmacology" under proposed new § 1.112 (21 CFR 1.112). This heading more accurately describes the information required. Likewise, the "Indications" section of the labeling has been changed to "Indications and Usage," and specific instructions have been provided for describing the indications, the optimal usage of the drug, and the limitations of use. The "Adverse Reactions" section of the labeling in proposed § 1.112(c)(7) requires that pertinent information derived from experience with the class of drugs, e.g., thiazide diuretics, phenothiazines, be included as well as information on the specific drug. In addition, the Commissioner is proposing that the frequency of adverse reactions be enumerated as approximate estimates; precise percent figures will not be permitted unless there is scientific evidence from well-controlled trials substantiating such figures and when the inclusion of percent figures does not falsely imply a greater degree of accuracy than actually exists. The Food and Drug Administration will continue to require the use of prominently displayed box warnings for special problems that clearly warrant such a warning.

Information relating to possible hazards of use in pregnant women and in children has been moved from the "Warnings" section of the prescription drug labeling to the "Precautions" section. The proposed regulations on pregnancy precautions in § 1.112(c)(6) go into considerable detail, including proposed specific phraseology. This detail is believed necessary in view of past experience with confusing and inconsistent labeling relating to use in pregnancy. Pregnancy precautions are the one section in the package insert where statements on clinical usage are almost routinely based on animal data, and it is believed that such statements will be most helpful to the physician if the language is consistent in all package inserts.

Physicians need accurate information on the differences in action, mode of administration, therapeutic usefulness, and frequency and character of adverse effects among drugs used for the same indication. However, to avoid giving physicians possibly erroneous and incomplete information, the Commissioner proposes to limit such comparative statements to situations where they are based upon substantial evidence derived from adequate and well-controlled studies designed for that specific purpose. Exceptions may be made by waiver where there is significant evidence in the scientific literature substantiating such claims.

The "Clinical Studies" and "References" sections set out in § 3.74(b) have been eliminated from the package insert in proposed new § 1.112. Except in unusual situations specifically approved by the Food and Drug Administration, this type of information is properly included in other types of labeling such as brochures. No clinical studies or references cited in such labeling may refer to indications or uses not stated in the package insert.

To assure that the reader of the labeling, package insert or other information brochure is aware of the date of the latest revision, the Commissioner is proposing a revision of § 1.106(b)(5) (21 CFR 1.106(b)(5)) to require that the date be placed prominently in the top right hand corner of the first page of such text material.

The Commissioner is also proposing that a new paragraph (b)(7) be added to § 1.106 to require that the name and place of business of the manufacturer, packer or distributor appear in the package insert or other informational brochure.

A proposal was published in the FEDERAL REGISTER of August 22, 1972 (37 FR 16877) to revise the advertising regulations pertaining to the use of comparative safety and effectiveness claims by amending § 1.106(e)(6)(ii) and (vii). The proposal stated that such claims may properly be used in advertising for a new drug or a certified antibiotic only where they have been approved by the Food and Drug Administration on the basis of data contained in an application, and that for other prescription drugs such claims must be supported by substantial evidence or substantial clinical experience. The Commissioner has given further consideration to this proposal and concludes that it should be revised and reproposed herein to state that comparative safety and effectiveness claims may properly be used in advertising for a new drug, certified antibiotic or licensed biologic only when such representations have been approved as part of the labeling in a new drug or antibiotic application or biologic license on the basis of data contained in the application. For all other prescription drugs, such claims may be made only when the claims are proved by substantial evidence derived from adequate and well-controlled studies as defined in § 314.111(a)(5)(ii) (21 CFR 314.111(a)(5)(ii)) and are included in the labeling. Exceptions may be made by waiver when there is other scientific evidence substantiating such claims which can be accepted as adequate. This revision will make the advertising proposal consistent with the labeling proposal.

The labeling requirements proposed will eventually be applicable to the labeling of all prescription drugs, including biologics, except for any prescription drugs that are subject to the specific labeling requirements for in vitro diagnostic products in Part 328 (21 CFR 328). After the effective date of the final order on this proposed regulation, the labeling requirements would apply to all drugs as they are initially approved through the new drug application procedures or antibiotic procedures, and to biologic products as they are licensed. For prescription drugs that are currently being marketed, except for biologics and antibiotics, labeling would be revised either through old drug monographs or through procedures published pursuant to a notice in the FEDERAL REGISTER. For biologics and antibiotics, labeling would be revised upon specific notice by the Food and Drug Administration. Ample time will be allowed for effecting such changes. Recalls of old labeling will not ordinarily be required.

The package insert is a document having significant scientific, medical, legal, and administrative importance. It directly affects what may lawfully be included in advertising. Because of the significance of this proposal, the Commissioner invites comment from all persons having an interest in this subject.

In order to develop a format and standards for the content of each labeling section that are as meaningful and helpful to practitioners as possible, a draft of this proposal was circulated to pharmaceutical associations and to a wide segment of the medical community through a number of medical associations and interested individual physicians. A copy of the draft was placed on public display in the office of the Hearing Clerk, Food and Drug Administration, and notice of its availability was published in the FEDERAL REGISTER of March 7, 1974 (39 FR 8946). The draft was sent to all who requested it.

Fifty-nine comments on the draft were received from physicians, professional societies, drug manufacturers, trade associations, and individual consumers. The comments have all been reviewed and a number of the suggested changes are included in these proposed regulations. All comments are on file in the office of the Hearing Clerk, and will be reviewed again when additional comments are received on the proposal. Those comments not previously addressed or not satisfactorily addressed, as indicated by additional comments, will be answered at the time the final order is published. The major issues addressed in the comments, other than those dealing with scientific and medical problems, were of a legal nature. The Commissioner has concluded that it is advisable to address the following such comments at this time:

1. Several comments raised the question of the legal status of the package insert and the precise role that the insert is intended to play in the practice of medicine. The comments contended that court decisions have shown that use of a drug for an indication not in the package insert may expose the physician to some form of legal jeopardy. The comments stated that to maintain the Food and Drug Administration's credibility in its professed concern with the legal impact of the package insert on the practice of medicine, the Food and Drug Administration must recognize that this is the case and act to protect physicians and

V 40167 APR 7 75 XUM

their patients in this area. The comments recommended that the proposed regulations be revised to require an appropriate statement in package inserts that, in addition to the conditions of use which the manufacturer may recommend to physicians in compliance with the law and Food and Drug Administration regulations, there are other conditions of use for which the drug may be regarded as safe and effective on the basis of the experience of critical physicians using the drug in the practice of medicine over a period of years.

The Commissioner stated in a separate notice of proposed rule making published in the FEDERAL REGISTER of August 15, 1972 (37 FR 16503), concerning the use of a drug for conditions not included in its labeling, that the labeling is not intended either to preclude the physician's use of his best judgment in the interest of the patient or to impose liability if he does not follow the package insert. The Commissioner clearly recognizes that the labeling of a marketed drug does not always contain all the most current information available to physicians relating to the proper use of the drug in good medical practice. Advances in medical knowledge and practice inevitably precede labeling revision by the manufacturer and formal labeling approval by the Food and Drug Administration. Good medical practice and patient interests thus require that physicians be free to use drugs according to their best knowledge and judgment. Certainly, where a physician uses a drug for a use not in the approved labeling, he has the responsibility to be well informed about the drug and to base such use on a firm scientific rationale or on sound medical evidence, and to maintain adequate medical records of the drug's use and effects, but such usage in the practice of medicine is not in violation of the Federal Food, Drug, and Cosmetic Act. This position will be restated in the final order on the August 15, 1972 proposal which will be published in the near future. The liability of a physician in his use of a drug depends upon all of the facts surrounding that use, and not upon whether or not the indication is in the package insert.

The Commissioner concludes, however, that it is neither lawful nor in the interest of good patient care for the package insert to contain references to indications or usages for which substantial evidence of safety and effectiveness is not available. Physicians clearly have access to new information on drugs through the medical literature, scientific meetings, postgraduate courses, and professional contacts with colleagues. The package insert is not intended under the law to serve as a totally current repository of all such information. It is intended instead to be an authoritative document which contains only those indications and usages based upon substantial evidence of safety and effectiveness. Before a new indication can be included in the package insert, the law requires that substantial evidence based on adequate and well-controlled clinical trials supporting the safety and effectiveness of the new indication be developed by the manufacturer and be submitted to, and approved by, the Food and Drug Administration. Until the standard of substantial evidence is met, there is no legal basis for including in the package insert any suggestion of other uses for which the drug may be regarded as safe and effective.

2. One comment raised the question of what effect the proposed regulations would have on the Drug Efficacy Study Implementation program which permits possibly effective and probably effective indications to be used pending submission of additional evidence of effectiveness and further action. The proposed labeling regulations make no provision for the continued use of any indications for use rated as less than "effective".

The Commissioner advises that the requirement in § 3.81 (21 CFR 3.81) that labeling of drugs reviewed in the Drug Efficacy Study and containing indications with less-than-effective ratings include an appropriate qualification is not affected by this proposed regulation. The qualifying statements will continue to be required until the indication either has been removed or has been approved on the basis of data submitted to the Food and Drug Administration. These regulations are not incompatible.

3. Several comments objected to the statement in the "Adverse Reactions" section of the prescription drug labeling in proposed § 1.112(c)(7)(i) which requires the listing of adverse reactions that occur with the subject drug and with drugs of the same chemical or pharmacological class, if applicable. The comments described this as an objectionable attempt to require class labeling.

The Commissioner concludes that it is essential to the safe use of a drug for the physician to know all adverse effects that are likely to occur with a drug. Where drugs are closely related chemically or parmacologically, the inclusion of all adverse reaction information, whether or not all such reactions have been reported with the specific drug, is medically sound. There are many times when the labeling of such drugs should be essentially identical and may be called class labeling. Without this provision, new drugs in a class may enter the market with the appearance of increased safety over already marketed products merely because of insufficient marketing experience with the new drug. Class labeling is currently in effect for a number of drugs and will become more commonplace in the future.

4. Several objections were received on proposed § 1.112(c)(6)(ii), which provides for patient brochures or printed instructions for the patient. The comments contended that section 503(b)(2) of the act (21 U.S.C. 353(b)(2)) exempts a drug dispensed by filling or refilling a prescription of a practitioner from certain labeling requirements under stated conditions, including the condition, as stated in the act, that "* * * the drug bears a label containing * * * and, if stated in the prescription, the name of the patient, and the directions for use and cautionary statements, if any, contained in such prescription. * * *" and if these conditions, among others, are met, the drug as dispensed on prescription is exempt from the requirements of the act that its labeling bear adequate directions for use and adequate warnings. The comments question the authority of the Food and Drug Administration to establish labeling requirements from which a drug is exempt by the act.

The Commissioner disagrees with this contention. Section 505 of the act (21 U.S.C. 355) provides that a new drug application (NDA) may be approved only if it is shown to be safe and effective in use under the conditions set out in its labeling, and section 201(p) (21 U.S.C. 321(p)) similarly provides an exemption from the requirement of an NDA only if the drug is generally recognized as safe and effective under the conditions of use set out in its labeling. Moreover, both sections 502(a) (21 U.S.C. 352(a)) and 505(d) prohibit prescription drug labeling that is false or misleading in any particular, and section 201(n) explicitly provides that the failure to reveal material facts can be misleading. Accordingly, the act requires the Commissioner to make a determination that the information contained in the labeling for a prescription drug is sufficient to assure the safe and effective use of that drug by consumers. The Commissioner concludes that such a determination may well require specific information to be provided to consumers about the drug, as has already been required for the oral contraceptives in § 310.501 (21 CFR 310.501).

The primary purpose of the provision in section 503(b)(2) of the act exempting a prescription drug from adequate directions for use and warnings was to avoid self-diagnosis and self-administration of drugs that require professional supervision for safe use. The requirement of printed patient information does not contradict this purpose. The purpose of such information is to ensure safe and effective use of a prescription drug by consumers after it has been prescribed by the physician. Nothing in the legislative history of section 503(b) or in the act itself suggests that Congress intended to preclude a requirement of labeling directed to the patient to promote safe and effective use of the drug.

5. A comment questioned the legal authority for withdrawing approval of drugs that are safe, effective, and not misbranded for failure to comply with the various ambiguous requirements embodied in the proposal.

The Commissioner anticipates that the need to withdraw approval of new drug applications for failure to comply with the labeling requirements will not often occur, and will in any event be undertaken only in compliance with the statute. As revised labeling is submitted to the Food and Drug Administration for review, where deficiencies are encountered they will be brought to the attention of applicants, and the labeling will not be approved until all problems are resolved. Only where the labeling under which a drug is marketed continues to violate section 505(e) of the act will withdrawal of approval be instituted.

6. Several comments objected to the proposed revisions of § 1.105 (21 CFR 1.105), contending that it proposes to establish "on the basis of a waiver" a requirement for prior approval of the content of an advertisement. The comments state that this requirement appears to be directly contrary to the provision in section 502(n) of the act that, except in extraordinary circumstances, prior approval by the Secretary of the content of any advertisement shall not be required.

The Commissioner advises that the purpose of this proposal is to set forth definitively to the industry the requirements for making comparative safety or effectiveness claims in drug advertisements. The purpose of the waiver of the requirement for drugs for which new drug or antibiotic application approvals are not required is to provide a procedure for the rare circumstances in which it may be appropriate to permit a comparative claim without substantial evidence of effectiveness. These exceptions cannot be addressed broadly and must be reviewed on an individual basis. This does not establish a procedure for preclearance of the content of an advertisement, but rather a mechanism for determining whether information is available to support a comparative claim. The alternative to this approach would be to prohibit all comparative claims where there is a lack of substantial evidence of effectiveness.

7. Objection was raised to the proposed revisions of § 1.105 on the grounds that "substantial evidence" applies only to new drugs and antibiotics and that the provisions of the act conferring jurisdiction over prescription drug advertisements does not include any requirement for "substantial evidence."

The Commissioner notes that the Supreme Court in the recent decisions in "Weinberger v. Hynson, Westcott and Dunning, Inc.," 412 U.S. 609 (1973) and "Weinberger v. Bentex Pharmaceuticals, Inc., 412 U.S. 645 (1973), made it clear that the requirement of substantial evidence applies to the definition of a "new drug" in section 201(p) of the act. Thus, a drug is generally recognized as safe and effective only if there is a body of evidence equivalent to that required for approval of new drugs and antibiotics, supporting all claims made for that drug in labeling and advertising. Accordingly, all effectiveness claims for any drug are subject to the substantial evidence standard.

8. Several objections were raised to the provision in the "How Supplied" section in the draft proposal that would permit the optional listing of other dosage forms and potencies of the drug available on the market. The basis for the objections were that this practice could be misleading to the prescriber in that it would imply equivalency to other firms' products when such was not necessarily the case. It was also contended that the practice could be confusing to the prescriber in regard to how the product was supplied by the firm whose package insert contains the information. The Commissioner agrees that this section could cause confusion and has therefore deleted the provision from § 1.112(c)(10) that would allow the optional listing of other commercially available dosage forms.

9. Objections were raised to the proposed inclusion of the requirement for the new labeling format in § 1.106(b)(4) which pertains to all labeling including promotional labeling, rather than in § 1.106(b)(3) which pertains only to labeling on or within the package, on the grounds that, if all promotional labeling had to comply with proposed new § 1.112, the net effect would be a requirement for premarketing clearance of the form and content of all labeling.

The Commissioner rejects this comment. Proposed § 1.112 properly applies to all labeling (except reminder-piece labeling) and therefore should be referenced in § 1.106(b)(4). This does not alter existing Food and Drug Administration policy in this area. The application of the requirements of the proposed § 1.112 to all labeling (except reminder-piece labeling) does not in any way impose a new requirement for premarketing clearance of the form or content of labeling. The current regulations do not require preclearance of all labeling if the parts of the labeling furnishing directions, warnings, and information for use of the drug are the same in language and emphasis as labeling approved or permitted, and if any other parts of the labeling are consistent with and not contrary to such approved or permitted labeling.

These regulations shall be effective 6 months after the date of the final order, except that § 1.106(b)(5) and (7) shall not be effective until printing plates are revised in the normal course of business or until 12 months after the date of the final order, whichever occurs first. After the effective date of the final regulations, all new or pending applications for new drugs or antibiotics and license applications for biologics shall be in the format and shall contain the information specified in § 1.112. For prescription drugs that are being marketed, except for biologics and drugs subject to section 507 of the Federal Food, Drug, and Cosmetic Act, the labeling shall be revised in accordance with § 1.112 at the time old drug monographs are promulgated or upon specific notification by the Food and Drug Administration published in the FEDERAL REGISTER. For prescription drugs which are biologics or subject to section 507 of the Federal Food, Drug, and Cosmetic Act, the labeling shall be revised upon specific notice by the Food and Drug Administration published in the FEDERAL REGISTER. Ample time will be allowed for effecting such changes. Recalls of old labeling will not ordinarily be required.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 503, 505, 506, 507, 701, 52 Stat. 1050–53, 1055–1056, as amended, 55 Stat. 851, 59 Stat. 463, as amended; 21 U.S.C. 352, 353, 355, 356, 357, 371) and to the provisions of the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262), and under authority delegated to him (21 CFR 2.120), the Commissioner of Food and Drugs proposes that Parts 1 and 3 be amended as follows:

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

By amending § 1.105 by adding a new sentence to paragraph (e)(6)(ii) and (vii); as revised § 1.105 (e)(6)(ii) and (vii) reads as follows:

§ 1.105 Prescription drug advertisements.

* * * * * * *

(e) * * *

(6) * * *

(ii) Contains a drug comparison that represents or suggests that a drug is safer or more effective than another drug in some particular when it has not been demonstrated to be safer or more effective in such particular by substantial evidence or substantial clinical experience. Advertising for a prescription drug may not either directly or by implication, e.g., by use of comparative test data or reference to published reports, represent that the drug is safer or more effective than another drug or contain a quantitative statement of safety or effectiveness (a) unless the representation has been approved as part of the labeling in a new drug or antibiotic application or biologic license, or (b) if the drug is not a new drug or certified or released antibiotic, or biologic, unless the representation of safety or effectiveness is proved by substantial evidence derived from adequate and well-controlled studies as defined in § 314.111(a)(5)(ii) of this chapter, unless this requirement is waived on the basis of a showing that it is not reasonably applicable to the drug or essential to the validity of the investigation and that an alternative method of investigation constitutes adequate scientific substantiation.

* * * * * *

(vii) Contains favorable data or conclusions from nonclinical studies of a drug, such as in laboratory animals or in vitro, in a way that suggests they have clinical significance when in fact no such clinical significance has been demonstrated. Data which demonstrate activity or effectiveness for a prescription drug in animal or in vitro tests and which have not been shown by adequate and well-controlled clinical studies to be pertinent to clinical use may be used in advertising only under the following circumstances: In vitro data for antiinfective drugs may be included in the brief summary or full disclosure portion of the advertisement, but not in the promotional portion of the advertisement, if such data are immediately preceded by the statement "The following in vitro data are available but their clinical significance is unknown." For other classes of drugs, in vitro and animal data which have not been shown by adequate and well-controlled clinical studies as defined

V 40 67 APR 7 75 XUM

in § 314.111(a) (5) (ii) of this chapter to be pertinent to clinical use may be used in the brief summary or full disclosure portion of the advertisement, but not in the promotional portion of the advertisement, only on the basis of a waiver after a showing that such requirements are not reasonably applicable to the drug or essential to the validity of the investigation and that an alternative method of investigation constitutes adequate scientific substantiation.

2. By amending § 1.106 by adding a new paragraph (b) (4) (iii), by revising paragraph (b) (5), and by adding a new paragraph (b) (7) as follows:

§ 1.106 Drugs and devices, directions for use.

* * * * * *

(b) * * *

(4) * * *

(iii) The information required, and in the format specified by § 1.112 or, where applicable, § 328.10 of this chapter.

(5) All labeling, except labels and cartons (unless such labeling contains information required by paragraph (b) (3) (i) of this section in lieu of a package insert) bearing adequate information for use of the drug also bears the date of the issuance or date of the latest revision of such labeling prominently placed in the top right hand corner of the first page of the text of such labeling.

(6) [Reserved]

(7) All labeling described in paragraph (b) (4) of this section bears conspicuously the name and place of business of the manufacturer, packer, or distributor.

3. By adding a new § 1.112 to read as follows:

§ 1.112 Labeling for prescription drugs used in man.

(a) Prescription drug labeling furnishing adequate information for the safe and effective use of a drug as required under § 1.106(b) (4), except for products subject to Part 328 of this chapter, shall contain the information required, shall be in the format specified, and shall meet the following general criteria:

(1) Labeling shall contain the essential scientific information needed for safe and effective use of the drug.

(2) Labeling shall be informative and accurate and not be promotional in tone or false or misleading in any particular.

(3) Labeling shall be based whenever possible on data derived from human experience. There may be no implied claims or suggestions of drug use where there is inadequate evidence of safety and effectiveness. Conclusions based on animal data but necessary for safe and effective use of the drug in humans shall be identified as such and included with human data in the appropriate section of the labeling, headings for which are listed in paragraph (b) of this section.

(b) Labeling shall ordinarily contain information in the format and order and with the section headings as follows:

Description
Clinical Pharmacology
Indications and Usage
Contraindications
Warnings
Precautions
Adverse Reactions
Overdosage
Dosage and Administration
How Supplied

The following section heading may be used where appropriate:

Animal Pharmacology and/or Animal Toxicology

Any section or subsection of the labeling may be omitted if clearly nonapplicable.

(c) The specific information appearing under each section heading listed in paragraph (b) of this section shall be as follows:

(1) *Description.* (i) Under this section heading, the labeling shall contain:

(*a*) The proprietary name and the established name, if any, as defined in section 502(e) (2) of the act, of the drug product;

(*b*) The type of dosage form and the route of administration to which the labeling applies;

(*c*) The same qualitative and/or quantitative ingredient information as required for labels;

(*d*) If the product is sterile, a statement of that fact;

(*e*) The pharmacological or therapeutic class of the drug product;

(*f*) The chemical name and structural formula.

(ii) When appropriate, other important chemical or physical information, such as physical constants, pH, etc., should also be included.

(2) *Clinical pharmacology.* (i) Under this section heading, the labeling shall contain a concise factual summary of the clinical pharmacology and actions of the drug in man. The summary may include information based on in vitro and/or animal data when such information is essential in describing the biochemical and/or physiological mode of action of the drug or is otherwise pertinent to human therapeutics. Pharmacokinetic information which is important to safe and effective use of the drug shall be included, if known, e.g., degree and rate of absorption, pathways of biotransformation, rate or half-time of elimination, concentration in body fluids associated with therapeutic and/or toxic effects, degree of binding to plasma proteins, and degree of uptake by a particular organ. Inclusion of pharmacokinetic information shall be restricted to that which relates to clinical use of the drug. If the pharmacological mode of action of the drug is unknown or if important metabolic or pharmacokinetic data in man are unavailable, this shall be stated.

(ii) Data which demonstrate activity or effectiveness in in vitro or animal tests and which have not been shown by adequate and well-controlled clinical studies to be pertinent to clinical use may be included under this section of the labeling only under the following circumstances. In vitro data for anti-infective drugs may be included if such data are immediately preceded by the statement "The following in vitro data are available but their clinical significance is unknown." For other classes of drugs, in vitro and animal data which have not been shown by adequate and well-controlled clinical studies, as defined in § 314.111(a) (5) (ii) of this chapter, to be pertinent to clinical use may be used only on the basis of a waiver after a showing that such requirements are not reasonably applicable to the drug or essential to the validity of the investigation and that an alternative method of investigation constitutes adequate scientific substantiation.

(3) *Indications and usage.* (i) Under this section heading, the labeling shall state explicitly:

(*a*) That the drug is indicated in the treatment, prevention, or diagnosis of a recognized disease or condition, e.g., penicillin is indicated for the treatment of pneumococcal pneumonia; or

(*b*) That the drug is indicated for the treatment, prevention, or diagnosis of an important manifestation of a disease or condition, e.g., chlorothiazide is indicated for the treatment of edema in patients with congestive heart failure; or

(*c*) That the drug is indicated for the relief of symptoms associated with a disease or syndrome, e.g., chlorpheniramine is indicated for the symptomatic relief of nasal congestion in patients with vasomotor rhinitis. If the drug is used for a particular indication only in conjunction with a primary mode of therapy, e.g., diet, surgery, or some other drug, the drug shall be labeled as an adjunct to such mode of therapy. All such indications shall be supported by substantial evidence based on adequate and well-controlled studies as defined in § 314.111(a) (5) (ii) of this chapter.

(ii) The following additional information shall also be included under this section of the labeling:

(*a*) The limitations of usefulness of the drug. Where evidence is available to support the safety and effectiveness of the drug only in selected subgroups of the larger population with a disease, syndrome, or symptom under consideration, e.g., patients with mild disease or patients in a special age group, this shall be stated. Any specific tests needed for selection or monitoring of the patients who need the drug shall be stated, e.g., microbe susceptibility tests. Information on the approximate kind, degree, and duration of improvement to be anticipated shall be given when available and shall be based on adequate and well-controlled studies as defined in § 314.111(a) (5) (ii) of this chapter unless this requirement is waived on the basis of a showing that it is not reasonably applicable to the drug or essential to the validity of the investigation and that an alternative method of investigation constitutes adequate scientific substantiation.

(*b*) If safety considerations are such that the drug should be reserved for certain situations, this information shall be included, e.g., cases refractory to other drugs.

(*c*) If there are specific conditions which should be met before the drug is used on a long term basis, e.g., demonstration of responsiveness to the drug in a short term trial, these conditions shall

be stated; or if the indications for long term use are different from those of short term use, the specific indications for each use shall be stated.

(*d*) If there is a common belief that the drug may be effective for a certain use or if there is a common use of the drug for that condition, but the preponderance of evidence related to such use indicates that the drug is ineffective, the package insert shall state that there is a lack of evidence that the drug is effective for that use.

(*e*) Any statements comparing the safety or effectiveness, either greater or lesser, of the drug with other agents for the same indication shall be supported by substantial evidence derived from adequate and well-controlled studies as defined in § 314.111(a) (5) (ii) of this chapter unless this requirement is waived on the basis of a showing that it is not reasonably applicable to the drug or essential to the validity of the investigation and that an alternative method of investigation constitutes adequate scientific substantiation.

(4) *Contraindications.* Under this section heading, the labeling shall state those situations in which the drug should not be used because the risk of use clearly outweighs any possible benefit. Such situations include: Administration of the drug to patients known to have a hypersensitivity to it; use of the drug in patients who, because of their particular age, sex, concomitant therapy, disease state, or other condition, have a substantial risk of being harmed by it; or continued use of the drug in the face of an unacceptably hazardous adverse reaction. Known hazards and not theoretical possibilities shall be listed, e.g., if hypersensitivity to the drug has not been demonstrated, it should not be listed as a contraindication. If no contraindications are known, this section of the labeling shall state: "None."

(5) *Warnings.* Under this section heading, the labeling shall state serious adverse reactions and potential safety hazards, limitations in use imposed by them, and steps which should be taken if they occur. A warning shall be included in labeling as soon as there is reasonable evidence of an association of a serious hazard with a drug; a causal relationship need not have been proved. A specific warning relating to a use not provided for under the "Indications and Usage" section of the labeling may be required if the drug is commonly prescribed for a disease or condition, and there is lack of substantial evidence of effectiveness for that disease or condition, and such usage is associated with serious risk or hazard. Special problems, particularly those which may lead to death or serious injury, may be required to be placed in a prominently displayed box. Such box warnings shall ordinarily be based on clinical data and not animal experiments. When box warnings are required, their location will be specified by the Food and Drug Administration. The frequency of these serious adverse reactions and, if pertinent, the approximate mortality and morbidity rates for patients sustaining the reaction shall be expressed as provided under the "Adverse Reactions" section of the labeling.

(6) *Precautions.* Under this section heading, the labeling shall contain the following subsections as appropriate for the drug product:

(i) General: Under this subsection of the labeling shall be listed any special care to be exercised by the practitioner for safe and effective use of the drug, e.g., precautions concerning drug abuse or use of other drugs that may be harmfully additive.

(ii) Information for the patient: Under this subsection of the labeling, information to be given to patients for safe and effective use of the drug shall be included, e.g., precautions concerning driving or use of drugs that may be harmfully additive. Any printed patient information shall be referenced under the "Precautions" section of the labeling and, when appropriate, reprinted at the end of the package insert.

(iii) Essential laboratory tests: Under this subsection of the labeling shall be listed laboratory tests which are needed to follow the patient's response or to identify possible adverse reactions.

(iv) Clinically significant drug interactions: This subsection of the labeling shall provide specific practical guidance to the physician on avoiding and/or handling clinically significant drug interactions which may occur in vivo in patients taking the drug. Specific other drugs or classes of drugs with which the drug under consideration may interact in vivo shall be listed, and the mechanism(s) of the interaction briefly described. Information in this subsection of the labeling shall be limited to that pertinent to clinical use of the drug in patients. Drug interactions supported only by animal or in vitro experiments should not be included. Drug incompatibilities, i.e., drug interactions which may occur when drugs are mixed in vitro, as in a solution for intravenous administration, shall be discussed under "Dosage and Administration" rather than under this subsection of the labeling.

(v) Carcinogenesis, mutagenesis, impairment of fertility: The labeling shall state whether long term studies in animals have been performed to evaluate carcinogenic potential and, if so, state the species and results. When reproduction studies or other data in animals reveal a problem or potential problem concerning mutagenesis or impairment of fertility, in either males or females, this information shall be included. Any precautionary statement on these topics should include practical, relevant advice to the physician on the significance of these animal findings, which usually will be to the effect that use of the drug should be limited to patients in whom the benefits clearly exceed the potential hazards. If there is evidence from human data that the drug may be carcinogenic or mutagenic or that it impairs fertility, this information shall be included under the "Warnings" section of the labeling. Also, under "Precautions," the labeling shall state: "See 'Warnings' section for information on carcinogenesis, mutagenesis and impairment of fertility."

(vi) Pregnancy: For drugs not absorbed systemically, this subsection of the labeling shall be omitted. For all other drugs, this subsection of the labeling shall state whether the drug is in category A, B, C, D, E, or X, followed by the required statement delineating the types of studies done or not done and the data derived from such studies as follows:

(*a*) Pregnancy category A. When adequate reproduction studies in animals have been performed and well-controlled trials relating to fetal risk in the human are available, and both animal and human data are negative for fetal abnormalities, the labeling shall state: "Pregnancy category A. Reproduction studies have been performed in (*kind of animals*) and have revealed no evidence of impaired fertility or harm to the fetus due to (*name of drug*). In addition, studies in pregnant women (describe the studies briefly if desired) have shown that (*name of drug*) does not increase the risk of fetal abnormalities when administered during the (*first, second, and/or third (or all) trimester(s)*) of pregnancy. (*Name of drug*) is without established risk to the fetus in the (*first, second, and/or third (or all) trimester(s)*) of pregnancy when used in the recommended dosage."

(*b*) Pregnancy category B. When adequate reproduction studies in animals are negative for fetal abnormalities and well-controlled trials relating to fetal risk in the human are not available, but investigational or marketing experience has not produced any positive evidence of adverse effects on the fetus (a common situation for post-1962 prescription drugs), the labeling shall state: "Pregnancy category B. Reproduction studies have been performed in (*kind of animals*) and have revealed no evidence of impaired fertility or harm to the fetus due to (*name of drug*). There are no well-controlled studies in pregnant women, but (*investigational or marketing*) experience does not include any positive evidence of adverse effects on the fetus. Although there is no clearly defined risk, such experience cannot exclude the possibility of infrequent or subtle damage to the fetus. (*Name of drug*) should be used in pregnant women only when clearly needed."

(*c*) Pregnancy category C. When neither adequate reproduction studies in animals nor well-controlled trials relating to fetal risk in humans are available, but investigational or marketing experience has not produced any positive evidence of adverse effects on the fetus (a common situation for pre-1962 prescription drugs), the labeling shall state: "Pregnancy category C. Adequate reproduction studies have not been performed in animals to determine whether this drug affects fertility in males or females, has teratogenic potential, or has other adverse effects on the fetus. There are no well-controlled studies in pregnant women, but (*investigational or marketing*) experience does not include any positive evidence of adverse effects on the fetus. Although there is no clearly

V 40 67
APR 7 75
XUM

defined risk, such experience cannot exclude the possibility of infrequent or subtle damage to the human fetus. (*Name of drug*) should be used in pregnant women only when clearly needed."

(d) Pregnancy category D. When adequate reproduction studies in animals have demonstrated fetal abnormalities but there is no positive evidence of fetal risk based on adverse reaction reports from investigational or marketing experience, and the benefit-risk considerations are such that use of the drug may be necessary in pregnant women, the labeling shall state: "Pregnancy category D. (*Name of drug*) has been shown to be teratogenic in (*name(s) of species*) when given in doses (*number*) times the highest dose recommended for human use. (Describe the animal data as appropriate). There are no well-controlled studies in pregnant women, but (*investigational or marketing*) experience does not include any positive evidence of adverse effects on the fetus. Since such experience cannot exclude possibility of fetal damage, (*name of drug*) should be used during pregnancy only if the benefit clearly justifies the potential risk to the fetus."

(e) Pregnancy category E. When there is positive evidence of fetal risk based on adverse reaction data from investigational or marketing experience or well-controlled studies in humans, but the benefit-risk considerations are such that use of the drug may be necessary in pregnant women, i.e., when the drug is needed in a life-threatening situation or serious disease where safer drugs cannot be utilized or are ineffective, under "Precautions", the labeling shall state: "Pregnancy category E. See 'Warnings' section." Under "Warnings", the labeling shall state: "(*Name of drug*) can cause fetal damage when administered to pregnant women. (Describe the human data and pertinent animal data.) If this drug must be used during pregnancy, or if the patient becomes pregnant while taking this drug, the patient should be apprised of the potential risks to the fetus, and the possibility of termination of the pregnancy should be discussed in light of those risks."

(f) Pregnancy category X. When animals or well-controlled studies in humans have demonstrated fetal abnormalities and/or there is positive evidence of fetal risk based on adverse reaction reports from investigational or marketing experience, and the benefit-risk considerations are such that use of the drugs will never be necessary in pregnant women, i.e., when safer drugs or other forms of therapy are available, under "Precautions", the labeling shall state: "Pregnancy category X. See 'Contraindications' section." Under "Contraindications", the labeling shall state: "(*Name of drug*) can cause fetal damage when administered to pregnant women. (Describe the human data and pertinent animal data). (*Name of drug*) is contraindicated in women who are or may become pregnant. If this drug is used during pregnancy, or if the patient becomes pregnant while taking this drug, the patient should be apprised of the potential risks to the fetus, and the possibility of termination of the pregnancy should be discussed in light of those risks."

(g) Any situation concerned with use of the drug in pregnancy which is not covered by one of the previous pregnancy categories shall be considered on an ad hoc basis by the sponsor and the Food and Drug Administration.

(vii) Labor and delivery: If the drug has a recognized use during labor or delivery, this subsection of the labeling shall contain information on the effect of this drug on the fetus, on the duration of labor, and on the possibility that forceps delivery or other intervention will be necessary. If no such data are available, this subsection of the labeling shall state, as appropriate: "It is not known whether use of this drug during labor or delivery has immediate or delayed adverse effects on the fetus, or whether it prolongs the duration of labor or increases the possibility of forceps delivery or other obstetrical intervention."

(viii) Nursing mothers: For drugs absorbed systemically, information with respect to excretion of the drug in human milk and effects on the nursing infant shall be described, when known. If there are no data, this shall be indicated with the following statement: "It is not known whether this drug is excreted in human milk. As a general rule, nursing should not be undertaken while a patient is on a drug since many drugs are excreted in human milk." If an adverse effect has been noted in animal offspring, this shall be described.

(ix) Pediatric use: Specific pediatric indications, if any, shall be described under the "Indications and Usage" section of the labeling, and appropriate pediatric dosage shall be stated under the "Dosage and Administration" section of the labeling. Pediatric usage for indications approved for adults shall be based on adequate and well-controlled studies as defined in § 314.111(a)(5)(ii) of this chapter unless this requirement is waived on the basis of a showing that it is not reasonably applicable to the drug or essential to the validity of the investigation and that an alternative method of investigation constitutes adequate scientific substantiation. If this requirement cannot be met, the following statement shall be included under this subsection of the labeling: "Safety and effectiveness in children below the age of (...) have not been established." If use of the drug in premature or neonatal infants, or in older children, is associated with a specific hazard, this shall be described in this subsection of the labeling; or, if appropriate, the hazard shall be included in the "Contraindications" or "Warnings" section of the labeling and reference to it made in this subsection of the labeling.

(*7*) *Adverse reactions.* An adverse reaction is an undesirable effect reasonably associated with the use of the drug, which may occur as part of the pharmacological action of the drug or may be unpredictable in its occurrence.

(i) This section of the labeling shall include a listing of the adverse reactions which occur with the subject drug and with drugs of the same chemical or pharmacologic class, if applicable. Specific information on the severity and mechanism of the important adverse reactions associated with the drug, as well as information on the clinical management of such reactions, shall be included.

(ii) In this listing, adverse reactions may be categorized by organ system, by severity of the reaction, by frequency, or by toxicological mechanism, as appropriate. The approximate frequency of each adverse reaction shall be expressed in rough estimates or orders of magnitude essentially as follows: "The most frequent adverse reaction(s) to (*name of drug*) is (are) (*list reactions*). This (These) occur(s) in about (e.g., one-third of patients; one in 30 patients; less than one-tenth of patients). Less frequent adverse reactions are (*list reactions*) which occur in approximately (e.g., one in 100 patients). Other adverse reactions, which occur rarely, in approximately (e.g., one in 1,000 patients), are (*list reactions*)." Percent figures will not ordinarily be permissible; exception to this may be made when percent figures are documented by adequate and well-controlled studies as defined in § 314.111(a)(5)(ii) of this chapter and upon a showing that such figures appropriately reflect general experience and do not falsely imply a greater degree of accuracy than actually exists.

(iii) Any potentially fatal adverse reaction shall be placed under the "Warnings" section of the labeling or, if appropriate, the "Contraindications" section of the labeling.

(iv) Any claim comparing the subject drug with other drugs in terms of frequency, severity, or character of adverse reactions shall be based on substantial evidence derived from adequate and well-controlled studies as defined in § 314.111(a)(5)(ii) of this chapter unless this requirement is waived on the basis of a showing that it is not reasonably applicable to the drug or essential to the validity of the investigation and that an alternative method of investigation constitutes adequate scientific substantiation.

(*8*) *Overdosage.* This section of the labeling shall describe the signs, symptoms, and laboratory findings of overdosage and the general principles of treatment. It shall include specific information, if available, on emergency treatment, antidotes, and the value of therapeutic measures such as forced emesis or diuresis or dialysis.

(*9*) *Dosage and administration.* This section of the labeling shall state the recommended usual dose, the usual dosage range, and, where appropriate, an upper limit beyond which the drug should not be prescribed; dosages shall be stated for each indication when appropriate. It shall include the intervals recommended between doses, the optimal method of titrating dosage, the usual duration of treatment, and any modification of dosage needed in special patient populations, e.g., in children, in geriatric age groups, or in patients with renal or hepatic disease. Specific tables or nomographs may be included to clarify dosage schedules. This section shall also contain specific direction on dilution, preparation, and administration of the dosage form, if needed; storage conditions for stability of the drug or reconstituted drug, where important; and essential information on drug incompatibilities if the drug is mixed in vitro with other drugs.

(*10*) *How supplied.* This section of the labeling shall include information on the available dosage forms to which the labeling applies and for which the manufacturer or distributor is responsible. Such information shall ordinarily include:

(i) The potency of the dosage form, e.g., 10 mg. tablets, in metric system and, if the apothecary system is used, it shall be placed in parentheses after the metric designation;

(ii) The units of issue of the dosage form, e.g., bottles of 100;

(iii) Appropriate information to facilitate identification of the dosage forms, such as shape, color, coating, scoring, National Drug Code, etc.; and

(iv) Special handling and storage conditions.

(*11*) *Animal pharmacology and/or animal toxicology.* In most cases, the labeling will not include this section. Significant animal data necessary for safe and effective use of the drug in humans shall ordinarily be included in one or more of the sections of the labeling described above, as appropriate. If the pertinent animal data cannot be appropriately incorporated into other sections of the labeling, this one may be used.

(d) The date of issuance or the date of the latest revision as required by § 1.106(b)(5) shall be placed prominently in the top right hand corner of the first page of the text of such labeling.

(e) "Clinical Studies" and "References" sections shall not be used in the labeling unless by waiver or unless the citation is in lieu of a detailed description of a subject that is of limited interest but nonetheless important, as for example, a complex assay procedure. Reference to a specific important clinical study(s) may be made in the text of the package insert when this is essential to an understandable presentation of the available information. Such references shall be used in rare circumstances only. No clinical studies or references cited in labeling may refer to indications or uses not stated in the "Indications" section.

(f) A waiver of the requirements of § 314.111(a)(5)(ii) of this chapter pursuant to this section or § 1.105(e)(6)(ii) and (vii) shall be requested by submitting pertinent data, information and rationale in writing, in triplicate, to the Director, Bureau of Drugs, Food and Drug Administration or, where applicable, the Director, Bureau of Biologics, Food and Drug Administration. Such waiver shall be granted or denied in writing by such Director or his designee.

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

§ 3.74 [Revoked]

4. In Part 3 by revoking § 3.74.

Interested persons may, on or before June 6, 1975, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: March 18, 1975.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

[FR Doc.75-8754 Filed 4-4-75;8:45 am]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 75-GL-12]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the control zone and transition area at Marion, Indiana.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before May 7, 1975 will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become a part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois.

The controlled airspace at Marion, Indiana, has been reviewed and was found to need revision to protect the present approach procedures.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

§ 71.171 [Amended]

1. In § 71.171 (40 FR 354), the following control zone is amended to read:

MARION, INDIANA

Within a 5-mile radius of the Marion Municipal Airport, (Latitude 40°29'27" N., Longitude 85°40'43" W.); and within 2.5 miles each side of the Marion VOR 042°, 211° and 320° radials; extending from the 5-mile radius to 6 miles northeast and northwest and 5.5 miles southwest of the VOR. This control zone is effective during the specific dates and times established in advance by a Notice to Airman. The effective date and time will thereafter be continuously published in the Airmen's Information Manual.

§ 71.181 [Amended]

2. In § 71.181 (40 FR 441), the following transition area is amended to read:

MARION, INDIANA

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Marion Municipal Airport, Marion, Indiana (Latitude 40°29'27" N., Longitude 85°40'43" W.); and within 3 miles each side of the Marion VOR 042°, 211° and 320° radials, extending from the 5-mile radius to 8 miles northeast, southwest and northwest of the VOR.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of sec. 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)])

Issued in Des Plaines, Illinois, on March 10, 1975.

JOHN M. CYROCKI,
Director, Great Lakes Region.

[Airspace Docket No. 75-EA-17]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Martinsburg, W. Va., Transition Area (40 FR 536).

A review of the airspace requirements for the Martinsburg, W. Va., terminal area indicates that alteration of the transition area is required to reflect the current transition area requirements for IFR arrivals and departures at Martinsburg Municipal Airport.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before May 7, 1975 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

V 40 67
APR 7 75
XUM

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Martinsburg, West Virginia, proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71, Federal Aviation Regulations so as to alter the description of the Martinsburg, W. Va. Transition Area by adding, "and within a 15-mile radius of the center of the airport, extending clockwise from a 223° bearing to a 336° bearing from the airport."

(Sec. 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and sec. 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].)

Issued in Jamaica, N.Y., on March 20, 1975.

DUANE W. FREER,
Director, Eastern Region.

[14 CFR Part 71]

[Airspace Docket No. 75-GL-11]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Terre Haute, Indiana.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before May 7, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conference must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A standard instrument approach procedure has been developed for the Arthur Airport, Brazil, Indiana. Accordingly, it is necessary to alter the Terre Haute, Indiana transition area to adequately protect the aircraft executing this approach.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

§ 71.181 [Amended]

In § 71.181 (40 FR 441), the following transition area is amended to read:

TERRE HAUTE, INDIANA

That airspace extending upward from 700 feet above the surface within an 8-mile radius of Hulman Field (Latitude 39°27'07" N., Longitude 87°18'29" W.); within 5 miles southeast and 9 miles northwest of the Terre Haute VORTAC 051° radial, extending from the VORTAC to 13 miles northeast and within 7 miles southeast and 8 miles northwest of the Terre Haute VORTAC 230° radial, extending from the VORTAC to 23 miles southwest; within a 5-mile radius of the Sky King Airport (Latitude 39°28'06" N., Longitude 87° 22'38" W.); within a 5-mile radius of the Arthur Airport (Latitude 39°26'36" N., Longitude 87°06'09" W.).

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of sec. 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].)

Issued in Des Plaines, Illinois on March 14, 1975.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

[Airspace Docket No. 75-GL-14]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Delaware, Ohio.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before May 7, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

An instrument approach procedure has been developed for the Delaware Municipal Airport. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this approach procedure by designating a transition area at Delaware, Ohio.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

§ 71.181 [Amended]

In § 71.181 (40 FR 441), the following transition area is added:

DELAWARE, OHIO

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the Delaware Municipal Airport (Latitude 40°16'46" N., Longitude 83°06'22" W.); and within 2 miles either side of the 090° bearing from the airport extending from the 6-mile radius to 8 miles east of the airport.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of sec. 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].)

Issued in Des Plaines, Illinois, on March 17, 1975.

R. O. ZIEGLER,
Acting Director,

FEDERAL ENERGY ADMINISTRATION

[10 CFR Part 212]

GASOLINE

Proposed Review of Markup on Retail Sales To Reflect Increased Non-Product Costs; Public Hearing

On February 20, 1975, the Federal Energy Administration issued a notice of a proposal to review the amount which may be added to the retail selling price of gasoline to reflect increased non-product costs of retail dealers. The notice appeared at 40 FR 8109, February 25, 1975. In that notice, the FEA requested written comment, and particularly financial and economic data, which would support either maintenance of the 3 cent increment presently allowed or an upward or downward adjustment in that amount. The FEA stated that if, after review of written comment a modification of the regulation authorizing a 3 cent price increase to cover non-product cost increases appeared appropriate, a public hearing would be held.

The FEA has now decided to hold a public hearing in this matter prior to making any tentative decision based on written comment submitted. This decision is based, in part, upon the large number of written comments received (over 200) and the wide range of suggestions for modification of the 3 cent rule, running from total elimination of the 3 cents now authorized for increased non-product costs to further increases of 1 cent, 2 cents, or 3 cents. In addition, most comments provided cost-increase and other financial data with respect to individual service stations without relating such data to the overall or net change in non-product costs per gallon of gasoline sold. The information provided is useful, but the FEA also seeks available data which would show net overall changes in non-product costs, on a per gallon basis, either for individual stations or for groups of stations on the state, regional or national level.

The FEA has therefore concluded that it is necessary and appropriate to seek further comment on this matter at this time through public hearing procedures. In particular, the FEA seeks comment which will assist the FEA in evaluating the question at issue through cost data that is quantified, insofar as possible, on a local, regional or, especially, on a national basis.

The public hearing in this matter will be held at 9:30 a.m., e.d.t., on Thursday, April 24, 1975, and will be continued, if necessary, on Friday, April 25, 1975, at Room 3000, 12th and Pennsylvania Ave., NW., Washington, D.C., in order to receive comments from interested persons.

Any person who has an interest in this matter, or who is a representative of a group or class of persons that has an interest in this matter, may make a written request for an opportunity to make oral presentation. Such a request should be directed to Executive Communications, FEA, and must be received before 4:30 p.m., e.d.t., on Wednesday, April 16, 1975. Such a request may be hand delivered to Room 3309, Federal Building, 12th and Pennsylvania Ave. NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he is a proper representative of a group or class of persons that has such a interest; and to give a concise summary of the proposed oral presentation and a phone number where he may be contacted through Wednesday, April 23, 1975. Each person selected to be heard will be so notified by the FEA before 4:30 p.m., e.d.t., Friday, April 18, 1975 and must submit 100 copies of his statement to Executive Communications, FEA, Room 3309, 12th and Pennsylvania Ave. NW., Washington, D.C. 20461, before 4:30 p.m., e.d.t., on Wednesday, April 23, 1975.

The FEA reserves the right to select the persons to be heard at these hearings, to schedule their respective presentations and to establish the procedures governing the conduct of the hearings. The length of each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearings. These will not be judicial or evidentiary-type hearings. Questions may be asked only by those conducting the hearings, and there will be no cross-examination of any person presenting statements. Any decision made by the FEA with respect to the subject matter of the hearings will be based on all information available to the FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions, to be asked of any person making a statement at the hearings, to Executive Communications, FEA, before 4:30 p.m., e.d.t., Monday, April 21, 1975. Any person who wishes to ask a question at the hearings may submit the question, in writing, to the presiding officer. The FEA or the presiding officer, if the question is submitted at the hearings, will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearings will be announced by the presiding officer.

A transcript of the hearings will be made and the entire record of the hearings, including the transcript, will be retained by the FEA and made available for inspection at the Administrator's Reception Area, Room 3400, Federal Building, 12th and Pennsylvania Ave., NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

Issued in Washington, D.C., April 2, 1975.

DAVID G. WILSON,
Acting General Counsel,
Federal Energy Administration.

FEDERAL MARITIME COMMISSION

[46 CFR Part 550]

[Docket No. 75-9]

TERMINAL BARGE OPERATORS IN PACIFIC SLOPE STATES IN FOREIGN AND DOMESTIC COMMERCE OF UNITED STATES

Proposed Filing of Tariffs

Notice is hereby given that the Federal Maritime Commission is considering the addition of a new Part 550 of Title 46 which will establish regulations covering the filing of tariffs by terminal barge operators in Pacific Slope States in the foreign and domestic commerce of the United States.

On January 2, 1975, Congress enacted Pub. L. 93-606 which adds a new section 3 to the Shipping Act, 1916. This legislation requires the filing of rates and charges for the barging and affreighting of containers and containerized cargoes by barge between points in the United States solely with the Federal Maritime Commission under certain specific circumstances and in accordance with rules and regulations to be promulgated by the Commission within 120 days of its enactment.

Therefore, it is ordered, That pursuant to the provisions of section 4 of the

V 40 67 APR 7 75 XUM

Administrative Procedure Act (5 U.S.C. 553) sections 3, 16(a), 18(b) and 43 of the Shipping Act, 1916 (46 U.S.C. 1160, 817 and 841(a)), and section 2 of the Intercoastal Shipping Act, 1933 (46 U.S.C. 844), notice is hereby given that the Federal Maritime Commission is considering adding a new Part 550 to 46 CFR to read as follows

§ 550.1 Scope.

(a) The rules and regulations set forth in this part cover the filing of tariffs by terminal barge operators in Pacific Slope States in the foreign and domestic commerce of the United States.

(b) Terminal barge operators moving containers or containerized cargo by barge between points in the continental United States shall file a schedule of their rates, charges and services solely with the Federal Maritime Commission where:

(1) The cargo is moving between a point in a foreign country or a noncontiguous State, territory, or possession and a point in the United States,

(2) The transportation by barge between points in the United States is furnished by a terminal operator as a service substitute in lieu of a direct vessel call by the common carrier by water transporting the containers or containerized cargo under a through bill of lading,

(3) Such terminal operator is a Pacific Slope State, municipality, or other public body or agency subject to the jurisdiction of the Federal Maritime Commission, and the only one furnishing the particular circumscribed barge service on January 2, 1975,

(4) Such terminal operator is in compliance with the rules and regulations of the Federal Maritime Commission for the operation of such barge service.

(c) The terminal operator providing such services shall be subject to the provisions of the Shipping Act, 1916.

§ 550.2 Tariff filing requirements.

(a) Terminal barge operators, subject to this part shall comply with the tariff filing requirements of (1) General Order 13 (46 CFR Part 536) with respect to publication of rates, charges and services for cargo moving in the foreign commerce of the United States, and; (2) Tariff Circular 3 (46 CFR Part 531) with respect to the publication of rates, charges and services for cargo moving in the domestic offshore commerce of the United States.

(b) Tariff(s) filed pursuant to Section 550.2(a), shall specifically provide that the rates charged are based upon factors normally considered by a regular commercial operator in the same service.

§ 550.3 Effective date.

This part shall become effective on _____. Any completely new tariff or completely reissued tariff made on or after said date must comply in all respects with this part.

It is further ordered, That notice of this Order be published in the FEDERAL REGISTER; and

It is further ordered, That all interested persons may participate in this rulemaking proceeding by filing with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before April 14, 1975, an original and 15 copies of their views or arguments pertaining to the proposed rule. All suggestions for changes in the text as set out above should be accompanied by drafts of the language thought necessary to accomplish the desired change and by statements and arguments in support thereof.

And it is further ordered, That all future notice issued by or on behalf of the Commission in this proceeding be published in the FEDERAL REGISTER, and in addition be mailed directly to all persons who notify the Secretary, Federal Maritime Commission, of their desire to receive such notice.

By the Commission.

[No. 36141]

ANNUAL REPORTS FOR CERTAIN CARRIERS

Proposed Corporate Disclosure Requirements

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 21st day of March 1975.

This proceeding is being instituted on our own motion to consider adding or expanding certain disclosure requirements in the annual reports for certain carriers in all transportation modes under our jurdisdiction. (Appendix A.) These revisions shall also apply to holding companies considered to be carriers pursuant to provisions of section 5(3) of the Interstate Commerce Act.

The proposed revisions will affect disclosure in four areas, all of which pertain to the ownership of and control over corporations: Corporate structure, stock ownership, interlocking corporate relationships and debtholdings.

Corporate structure. Basic to the ability to regulate a company is a clear understanding of its corporate structure: Who really owns or "controls" the carrier and whom the carrier owns or "controls." The proposed revisions set forth requirements which will give us the required information of the corporate structure. In this area we also propose to adopt the four-digit industry Standard Industrial Classification (SIC) codes and short titles to identify principal business activities. The use of these codes should provide uniformity in determining the category in which the company's principal business activity falls.

Stock ownership. As a regulatory agency, we must also know who holds significant blocks of outstanding voting stock of carriers under our jurisdiction. It was demonstrated in a recent study [1] on corporate disclosure that the use of multiple nominees obscures the true identity of stockholders. The study showed that of the top 30 security holders of a large class I railroad, as reported to this Commission, 11 were nominees representing four banks not even mentioned in the ownership report. The holdings of these four banks totaled almost 25 percent of all shares voted at that company's annual meeting. The proposed revisions will clarify the requirements of this Commission and yield the needed information.

Interlocking corporate relationships. Another lever of control which can be exercised is through interlocking corporate relationships. A study done by the Securities and Exchange Commission, "Institutional Investor Study," concluded that some institutions have

[1] "Study on Disclosure of Corporate Ownership," prepared by the Subcommittees on Intergovernmental Relations, and Budgeting, Management, and Expenditures, of the Committee on Government Operations, United States Senate, December 27, 1973, p. 5.

personnel and business relationships which may tend to reinforce any power already conferred through stock holdings. It was found these interlocks provide institutions, such as major banks, with levers of control throughout the industries in which they hold major blocks of stocks. We believe information concerning interlocking corporate relationships is necessary to help assess the total effect of all areas of control.

Also in the area of interlocking corporate relationships, we propose to require disclosure of contracts (exceeding $50,000) between the respondent and any business or financial organization affiliated with its (the respondent's) officers and directors. This information will help the Commission enforce section 10 of the Clayton Antitrust Act which requires such contracts to be made with "the bidder whose bid is the most favorable to such common carrier, to be ascertained by competitive bidding under regulations to be prescribed by rule or otherwise by the Interstate Commerce Commission."

Debtholdings. The last area of possible control has been identified recently as debtholdings. Senator Lee Metcalf, whose staff has been actively studying corporate control, testified on September 18, 1974, before the Subcommittee on Foreign Commerce and Tourism of the Senate Commerce Committee regarding a proposed Foreign Investment Review Act, that his staff's hearings and studies have brought to light the importance of debtholdings as levers of control. Major corporate creditors are not only able to influence the policies and operations of a corporation through representation on the board of directors like equity holders, but are also able to limit normal corporate activities through contractual restrictions in loan indentures. The proposed revisions will give us needed information concerning major creditors.

The attached proposed disclosures (Appendix B) contain the data we believe is needed in the four areas of corporate control. Some of the information in this rulemaking is already received by this Commission. However, in order to consolidate all data relevant to corporate control, we have listed the requirements in this rulemaking. No duplicate information will be reported elsewhere in the annual reports.

Upon consideration of the above described matters and good cause appearing therefor:

It is ordered, That a proceeding be, and it is hereby, instituted under the authority of sections 20, 204, 313 and 412 of the Interstate Commerce Act and pursuant to sections 553 and 559 of the Administrative Procedure Act with a view to adopting the proposed regulations set forth in Appendix B of this notice, and for the purpose of taking such other and further action as the facts and circumstances may justify and require.

It is further ordered, That all carriers listed in Appendix A be, and they are hereby, made respondents in this proceeding.

It is further ordered, That no oral hearing be scheduled for the receiving of testimony in this proceeding unless a need therefor should later appear, but that respondents or any other interested parties may participate in this proceeding by submitting for consideration written statements of fact, views, and arguments on the subjects mentioned above, or any other subjects pertaining to this proceeding.

It is further ordered, That any interested persons wishing to submit written statements of fact, views, or arguments shall file an original (and, if possible, 15 copies) of such representations with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, by May 5, 1975, and that all such statements will be considered as evidence and as a part of the record in this proceeding.

It is further ordered, That written material or suggestions submitted shall be made available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution Avenue, NW., Washington, D.C., during regular business hours.

And it is further ordered, That service of this Notice shall be made on all affected carriers; and to the Governor of every State and to the Public Utilities Commissions or Boards of each State having jurisdiction over transportation; and that notice of this proceeding shall be given to the general public by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and by delivering a copy thereof to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested persons.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

NOTE: This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

IV. Reports of Class A Freight Forwarders (49 CFR Part 1251).

[No. 36141]

APPENDIX B—CORPORATE DISCLOSURE REGULATIONS

DEFINITIONS

Annual Reporting. The term "annual reporting" means as of December 31 of each calendar year, or accounting year of thirteen four-week periods (as defined in §§ 1240.4, 1240.5, and 1249.3 of Title 49 CFR).

Control. The term "control" (including the terms "controlling," "controlled by" and "under common control with") means the possession, direct or indirect, of the power to direct or cause the direction of the management or policies of a person, natural or artificial. Sources of power may include, but are not limited to: equity security ownership; debt holdings; sole or partial voting arrangements; common directors, officers, or stockholders; or lease, purchase, lines of credit, supply, distribution, or operating agreements.

Financing Lease. The term "financing lease" shall refer to any lease which during the noncancellable lease period, either (1) covers 75 percent or more of the economic life of the property or (2) has terms which assure the lessor of a full recovery of the fair market value (which would normally be represented by his investment) of the property at the inception of the lease plus a reasonable return on the use of the assets invested subject only to limited risk in the realization of the residual interest in the property and the credit risks generally associated with secured loans.

Parent of Respondent. "Parent of respondent" shall refer to every firm, holding company or other person or combination of persons who ultimately control the respondent, as well as any intermediary controlling entity.

ANNUAL REPORTING REQUIREMENTS

I. *Corporate structure.* A. For each respondent, parent of respondent, subsidiaries (and/or organizations controlled) of the respondent, joint ventures involved in by the respondent, and subsidiaries (and/or organizations controlled) of joint ventures involved in by the respondent, the following information shall be submitted:

1. Name and address.
2. Basis of control.
3. Principal business activities.

a. List and describe by four-digit SIC code and short title each industry in which the respondent's activities generated 10 percent of gross revenues or $5 million dollars (during the reporting year). Four-digit industry SIC codes and short titles are listed in the most recent Standard Industrial Classification Manual as published by the Executive Office of the President, Office of Management and Budget.

b. Four-digit SIC codes and short titles should be listed in order of significance relative to the total activities of respondent, based upon the percentage of gross revenues generated within each four-digit industry.

4. Copy of the latest balance sheet and income statement and consolidated balance sheet and income statement, if available.

5. A copy of any chart or other graphic material showing the relationship of the respondent to such parents, subsidiaries, and other organizations listed.

B. In addition to subparagraph (A) above, list every corporation, partnership, or other business organization in which the respondent owns more than five percent of the outstanding voting securities or other ownership interests and indicate the percentage so owned.

II. *Voting Stock Ownership.* A. In descending order, the 30 largest holders of voting shares (not to include any holder with less than one-tenth of one percent of the outstanding shares) in the respondent, identified as to

1. Name.
2. Address.
3. Type (bank, broker, holding company, individual or other specified category).

V 40 67 APR 7 75 XUM

4. The number of voting shares held (as of the end of the reporting period) and its percentage relationship to total outstanding shares. (If some shares—such as preferred issues—carry limited voting rights describe the limitation and the number of shares affected.)

(In determining the number of shares held, all nominee and other accounts of each shareholder, including accounts held by depository trust companies, such as (CEDE & CO., SICOVAN, Pacific Coast Stock Exchange Clearing Corp., Midwest Stock Exchange Clearing Corp.) shall be aggregated and reported as one account in the name of the bank, broker, holding company, individual or other identified shareholder.)

B. With respect to each of the 30 largest holders, the number of shares (and percentage relationship to total outstanding voting shares) over which the holder has

1. Sole voting power.

2. Shared voting power (if voting power is shared with any of the thirty largest shareholders, identify the shareholder and the number of shares held).

3. No voting power under any circumstances.

C. With respect to shares over which the stockholder has no voting power, the name and address of the person(s) empowered to vote the ten largest blocks of stock, the number of shares and the percentage of stock in relation to the total outstanding voting shares.

D. With respect to the 30 largest holders of voting shares in any parent, holding company or other organization or person controlling the respondent, provide the information required in subparagraphs (A), (B), and (C) above.

III. *Affiliations of Officers and Directors.* A. The name, address and social security number of each of the principal officers and each director, trustee, partner or person exercising similar functions, of the respondent and parent together with his title and position with the respondent and with any parent, holding company, person, or combination of persons, controlling the respondent, and with any subsidiary of the respondent and any other company, firm or organization which the respondent controls.

B. For each of the officials named under subparagraph (A) above, list the principal occupation or business affiliation if other than listed in subparagraph (A), and all affiliations with any other business or financial organizations, firm or partnership.

C. A list of each contract, agreement or other business arrangement exceeding an aggregate value of fifty thousand dollars entered into between the respondent and any business or financial organizations, firm or partnership named in subparagraph (B) above, identifying the parties, amounts, dates and product or service involved.

D. A list of each contract, agreement or other business arrangement in excess of $600 entered into during the reporting period (other than compensation related to position with respondent) between the respondent and each officer and director listed in subparagraph (A) identifying the parties, amounts, dates and product or service involved. In addition, provide the same information with respect to professional services for each firm, partnership or organization with which the officer or director is affiliated.

IV. *Debt holdings.* A. A description of each long-term debt (debt due after one year) of the respondent, including the name and address of the creditor, the character of the debt, nature of the security, if any, the date of origin, the date of maturity, the total amount of the debt, the rate of interest, the total amount of interest to be paid, and a copy of any and all restrictive covenants attached to the indebtedness (where such indebtedness is widely held, such as bonds and debentures, provide the name of the trustee in place of the creditor).

I. With respect to each holder of more than five percent of each issue reported provide the name, address and type of holder—bank, broker, holding company, individual or other specified category and amount of debt held.

B. A description of each short-term debt (under one year) excluding accounts payable of the respondent, including the name and address of the creditor, nature and character of the liability, period of the debt, rate of interest, total amount of such short-term debt, nature of the security, and date when debt was paid, or date when such debt must be paid, and a copy of any and all restrictive covenants attached to the indebtedness.

C. A description of each financing lease arrangement, equipment trust, conditional sales contract, or major liability with respect to the capital assets of the respondent and involving aggregate payments in excess of one million dollars and a copy of any and all restrictive covenants attached to the indebtedness.

NATIONAL CREDIT UNION ADMINISTRATION

[12 CFR Parts 701, 721, 745]

EMPLOYEE RETIREMENT BENEFIT PLANS

Proposed Rulemaking

Notice is hereby given that the Administrator of the National Credit Union Administration, pursuant to the authority conferred by section 120, 73 Stat. 635, 12 U.S.C. 1766, and section 209, 84 Stat. 1014, 12 U.S.C. 1789, is proposing to amend Part 701 by revising § 701.19, Part 721 by adding a new § 721.4, and Part 745 by amending § 745.2(d)(1), by redesignating § 745.9 as § 745.9–1 and adding a new § 745.9–2, as set forth below.

The following outline relating to the amendments proposed herein is provided for the reader's convenience and is subject to the specific provisions in the regulations.

I. *Present regulations.* Section 701.19 permits Federal credit unions to make provision for reasonable retirement benefits for employees but prohibits the self-administration of retirement plans. Part 721 makes no provisions for Federal credit unions to act as trustees or custodians of qualified pension plans or individual retirement accounts (IRA's). Section 745.2(d)(1) makes reference to § 20.2031–7 of the Federal Estate Tax Regulations which is applicable to the estates of decedents dying on or before December 31, 1970. In addition, Part 745 does not provide express provisions for insurance coverage of qualified trusts and IRA's. Nonvested or contingent interests in such accounts would be insured up to $40,000 in the aggregate.

II. *Proposed regulations.* Section 701.19 would be amended to permit Federal credit unions to individually provide trustee or custodial services for qualified trusts or IRA's for their employees or to collectively, with other credit unions, provide additional types of benefit plans. Section 721.4 authorizes Federal credit unions to provide trustee or custodial services for qualified trusts or IRA's for their members or groups or organizations of their members provided the funds are invested solely in, (1) share accounts of, or (2) share accounts of and obligations issued by, the particular Federal credit union. The amendment to § 745.2(d)(1) is technical only and is for the purpose of referencing the IRS regulation applicable to estates of decedents dying after December 31, 1970. The new § 745.9–2 will provide separate insurance coverage for interests in qualified trusts or IRA's.

III. *Purpose of proposed changes.* Through the enactment of the Employee Retirement Income Security Act of 1974 (hereinafter Act), federally-insured credit unions are now recognized as trustees or custodians of certain qualified pension plans, and IRA's. The possibility of significant credit union involvement in providing trustee or custodial services warrants regulatory recognition of authority to perform such services both for Federal credit union members and employees. Parts 701 and 721 are amended to reflect these changes. In addition, Part 745 is amended to extend insurance coverage to facilitate the investment of employee retirement benefit funds and to provide insurance protection to persons with interests in trusteed or custodial funds maintained in a qualified trust or IRA.

The Administrator does not intend to issue comprehensive regulations relating to the operation and requirements of pension plans under the Act. Such matters are properly within the jurisdiction of other agencies specifically named in that Act. Generally speaking, Title I of the Act, which covers such areas as participation, vesting, funding and fiduciary responsibility, is within the jurisdiction of the Secretary of Labor. The Secretary of the Treasury is responsible for implementing the provisions of Title II, amendments to the Internal Revenue Code. The jurisdiction, administration and enforcement provisions contained in Title III are within the responsibility of both the Secretary of Labor and the Secretary of the Treasury. Finally, the plan termination insurance provisions of Title IV are administered by the Pension Benefit Guaranty Corporation, a corporation established within the Department of Labor. Therefore, the tenor of the Administrator's regulations is to require compliance with applicable regulations issued by the above named authorities. Questions relating to specific provisions of the law should be submitted to the respective agency authorized or empowered to implement such provisions. Questions concerning interpretations and effect of pension regulations should also be directed to the responsible agency. For those plans which must be covered by plan termination insurance and contingent liability insurance, inquiries should be directed to the Pension Benefit Guaranty Corporation.

It was originally intended that the regulations would be issued effective immediately since they were generally limited to authorizing the performance of certain activities and did not encompass procedures, conditions or requirements which would be subject to the

jurisdiction of other Federal, and in some cases, state agencies. However, the Act, and the regulations of the other agencies, many of which have not been finalized, will cover areas totally unfamiliar to Federal credit unions and will present additional issues which have not been resolved. Therefore, the Administrator has deemed it advisable to issue proposed regulations in order to permit public comment. It is anticipated that such a course of action will enable the Administrator to provide additional guidance in a finalized regulation.

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed amendments to the Administrator, National Credit Union Administration, 2025 M Street, NW., Washington, D.C. 20456. Comments received prior to May 9, 1975, will be considered before final action is taken on this proposal. Copies of all written comments received will be available for public inspection during normal business hours at the foregoing address.

HERMAN NICKERSON, Jr.,
Administrator.

APRIL 2, 1975.

1. Section 701.19 of the regulations relating to retirement benefits is amended to read as follows:

§ 701.19 Retirement benefits for employees of Federal Credit Unions.

(a) Federal credit unions may make provision for reasonable retirement benefits for employees and for officers who are compensated in conformance with the Act and the bylaws, either individually or collectively with other credit unions. In those cases where a Federal credit union is to be a plan trustee or custodian, the plan must be maintained in accordance with the provisions of § 721.4 of this chapter. When the trustee is to be a party other than a Federal credit union, the employee benefit plan must be maintained in accordance with the requirements of this section.

(b) Employee benefit plans pursuant to which retirement benefits are maintained shall comply with the laws governing retirement plans and such rules and regulations as may be promulgated by the Secretary of the Treasury, relating to qualified plans, the Secretary of Labor, or any other Federal or state authority exercising jurisdiction over such plans.

(c) Defined benefit plans shall be covered by plan termination insurance provided by the Pension Benefit Guaranty Corporation in accordance with Title IV of the Employee Retirement Income Security Act of 1974.

(d) In addition to the plan termination insurance required by paragraph (c) of this section, provision shall be made for providing defined benefit plans with insurance protection against the liability imposed by subtitle D of Title IV of the Employee Retirement Income Security Act of 1974, from any source approved for such purposes by the Pension Benefit Guaranty Corporation.

(e) For purposes of this section, the term "defined benefit plan" has the same meaning as that stated in section 3(35) of the Employee Retirement Income Security Act of 1974.

(f) No Federal credit union shall occupy the position of a fiduciary, as defined in the Employee Retirement Security Act of 1974 and rules and regulations promulgated thereunder by the Secretary of Labor, unless provision has been made for appropriate liability insurance as provided under section 410(b) of the Employee Retirement Income Security Act of 1974.

2. Part 721 of the regulations relating to incidental powers is amended by adding a new § 721.4 to read as follows:

§ 721.4 Trustees and custodians of employee Retirement Benefit Plans.

(a) A Federal credit union is authorized to act as trustee or custodian under any written trust instrument or custodial agreement created or organized in the United States and forming part of a pension plan which qualifies or qualified for specific tax treatment under section 401(d), (f) or 408 of the Internal Revenue Code, for its members or groups or organizations of its members, provided the funds of such plans are invested solely in (1) share accounts of, or (2) share accounts of and obligations issued by, the Federal credit union. All funds held in such fiduciary capacity must be maintained in accordance with applicable laws and rules and regulations promulgated by the Secretary of Labor, the Secretary of the Treasury or any other authority exercising jurisdiction over such trusts or custodial accounts. The Federal credit union shall maintain individual records for each participant and shall show in detail all transactions relating to the funds of each participant.

(b) Any plan pursuant to which a Federal credit union provides trustee or custodial services shall expressly authorize the investment of funds as provided in paragraph (a) of this section. The investment of funds shall be made in accordance with the written instructions of a person, committee, corporation or organization other than the Federal credit union or any person acting in his capacity as a director, employee or agent of the Federal credit union.

(c) The plan shall provide for the appointment of a successor trustee or custodian by a person, committee, corporation or organization other than the Federal credit union or any person acting in his capacity as a director, employee or agent of the Federal credit union, upon notice from the Federal credit union or the Administrator that the Federal credit union is unable to continue to act as trustee or custodian.

§ 745.2 [Amended]

3. Section 745.2(d)(1) of the regulations relating to valuation of trust interests is amended by deleting "20.2031–7" as it appears after both the "§" and "26 CFR" and inserting in lieu thereof "20.2031–10".

§ 745.9 [Redesignated]

4. Section 745.9 of the regulations relating to trust accounts is redesignated § 745.9–1.

5. Part 745 of the regulations relating to clarification and definition of account insurance coverage is amended by adding a new § 745.9–2 to read as follows:

§ 745.9–2 Qualified trusts and individual retirement accounts.

The interest of a participant or designated beneficiary in a trust or custodial share account maintained pursuant to a pension plan which qualifies or qualified for specific tax treatment under sections 401 (d), (f), or 408 of the Internal Revenue Code shall be insured up to $40,000 separately from other deposit or share accounts of the participant or designated beneficiary. The interest of a participant or designated beneficiary, with respect to amounts contributed by an employer under a 401 (d) or (f) plan, shall be evaluated and insured as if the interest had fully vested as of the date of liquidation of the credit union.

(Sec. 120, 73 Stat. 635 (12 U.S.C. 1766); sec. 209, 84 Stat. 1014 (12 U.S.C. 1789))

BUSINESS AND INDUSTRIAL LOANS

Ineligible Loan Purposes

Notice is hereby given that the Farmers Home Administration has under consideration the proposed amendment to § 1842.14(b) of Part 1842, Chapter XVIII, Title 7, Code of Federal Regulations (39 FR 34264). It is proposed that § 1842.14(b) be amended to prohibit guaranteed loan funds from being paid or distributed to one who owns or has an interest in a business if such person retains his equity in the business.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed amendments to the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6315, South Building, Washington, D.C. 20250, on or before May 7, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Chief, Directives Management Branch during regular business hours (8:15 a.m. to 4:45 p.m.).

As amended, § 1842.14(b) will read as as follows:

§ 1842.14 Ineligible loan purposes.

* * * * * *

(b) For distribution or payment to the owner, partners, shareholders or beneficiaries of the applicant or members of their families when such persons shall retain any portion of their equity in the business.

Internal Revenue Service

[Order No. 77 (Rev. 7)]

ASSISTANT REGIONAL COMMISSIONERS ET AL.

Authority to Issue Statutory Notices of Deficiency

1. The authority granted to the Commissioner of Internal Revenue, Assistant Regional Commissioners (Appellate) and District Directors by 26 CFR 301.7701-9, 26 CFR 301.6212-1 and 26 CFR 301.6861-1 to sign, and send to the taxpayer by registered or certified mail any statutory notice of deficiency is hereby delegated to the following officials:

a. Assistant Regional Commissioners and Executive Assistants (Employee Plans and Exempt Organizations); b. Chiefs and Assistant Chiefs of Appellate Branch Offices; c. Director of International Operations; d. Service Center Directors; e. Assistant District Directors; f. Assistant Service Center Directors; g. Chiefs of Audit Divisions; h. Chiefs of Correspondence Audit Branch; and i. Chiefs of Employee Plans and Exempt Organizations Divisions.

2. This authority may be redelegated only by District Directors, and the Director of International Operations, but not lower than to Reviewers or Conferees, Grade GS-9, in district Audit Divisions, and Reviewers, Grade GS-12, in Employee Plans and Exempt Organizations Divisions.

3. This Order supersedes Delegation Order No. 77 (Rev. 6), issued June 22, 1972.

Date of issue: March 31, 1975.

Effective date: April 30, 1975.

DONALD C. ALEXANDER,
Commissioner.

Office of the Secretary

LOCK-IN AMPLIFIERS AND PARTS THEREOF FROM THE UNITED KINGDOM

Determination of Sales at Less than Fair Value

Information was received on April 17, 1974, that lock-in amplifiers from the United Kingdom were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). The "Antidumping Proceeding Notice" was amended to include "parts thereof" on August 13, 1974 (39 FR 29009). For the purposes of this notice, the term "lock-in amplifiers and parts thereof" means an entire lock-in amplifier or the constituent components of a lock-in amplifier imported for the assembly of lock-in amplifiers in the United States.

A "Withholding of Appraisement Notice" was published in the FEDERAL REGISTER of January 6, 1975 (40 FR 1084).

I hereby determine that for the reasons stated below, lock-in amplifiers and parts thereof from the United Kingdom are being, or are likely to be, sold at less than fair value within the meaning of section 201(a) of the Act (19 U.S.C. 160(a)).

Statement of reasons on which this determination is based. Analysis of information from all sources reveals that the basis of comparison for fair value purposes is between the exporter's sales price and adjusted home market price of similar merchandise.

Exporter's sales price was calculated on the basis of the resale price in the United States, with deductions for air freight, insurance, U.S. duty, customs brokerage and clearance charges, inland freight, selling expenses in the United States, and commissions. Assembly costs in the United States were also deducted from the sales price of the model which was imported in kit form.

Home market price was calculated on the basis of an ex-factory price to unrelated purchasers, with a deduction for selling expenses. For comparisons involving the model imported in kit form, assembly costs in the home market were deducted.

Using the above criteria, the exporter's sales price was found to be lower than the adjusted home market price of such or similar merchandise.

The United States International Trade Commission is being advised of this determination.

This determination is being published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)).

Dated: April 1, 1975.

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

COLORADO

Pipeline Application

MARCH 28, 1975

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Occidental Oil Shale, Inc., P.O. Box 2999, 2372 G Road, Grand Junction, Colorado 81501, has applied for a right-of-way for a pipeline across the following lands:

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 7 S., R. 97 W., Sec. 25: NE¼SW¼, S½SW¼, NW¼SE¼, Garfield County, Colorado.

The pipeline is temporary with an estimated life of about five years. The purpose is to connect the Occidental Oil Shale Mine with a tank site.

The purposes of this notice are: To inform the public that the Bureau of Land Management will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application; and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed pipeline right-of-way to file their objections in this office. Any persons asserting a claim to the lands or having bona fide objections must include evidence that a copy thereof has been served on the applicant.

Any comment, claim, or objection must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, within thirty days from the date of this notice.

EVERETT K. WEEDIN,

J. A. Bergeron

3-200
10/74

Attachment to application for permit. Information required under 50 CFR 17.23.

1) The animals involved are Mouse Lemurs (*Microcebus murinus*) and *Lemur fulvus collaris* or Collared Lemur. The number of mouse lemurs is 12 or 13 and I do not know the sexes or ages. The *L.f. collaris* is a male and is a young adult.

2) Attached to this application is a copy of a letter sent to the Director of the Department of Waters and Forests in Madagascar and a telegram; this is the only available documentation. There is no seller; the animals will be shipped or brought back by Mr. Robert Jay Russell.

3) The justification is rather straightforward; if the animals are not brought back here they will be turned loose in the forest in Madagascar and undoubtedly will die. Attached to this application is a statement about the Duke University Primate Facility which covers the types of research, the animals housed, an indication of the breeding success, and a bibliography. The list of animals is not updated, but there are now 225 animals in the colony all born within the last year (that is all additional animals).

4) Attached is a paper which is a galley proof of the final paper published in *Prosimian Biology*, 1974. This paper describes the DUPF and the management policies.

5) The animals are currently in captivity in Madagascar and have been for some time. They were not actively trapped, but were rescued and treated by Mr. Russell; many have physical abnormalities which would prevent their surviving in the wild.

6) This is adequately covered above.

7) (i) This is covered in the paper mentioned in "4" above.

(ii) This is covered in the papers mentioned in "3 & 4" above.

(iii) Our willingness to cooperate in any breeding or conservation program is well known throughout the scientific community.

(iv) I cannot provide a description of the containers used for shipping, but I am sure that they will be more than adequate. Hopefully the animals will be brought directly to the DUPF where they can be properly cared for.

Submitted by:
J. A. BERGERON,
V.M.D., Managing Director, Duke University Primate Facility.

Washington, D.C. 20240
Attention: Mr. Marshall Stinnett, Division of Law Enforcement.

DEAR SIR: Enclosed is an urgent application for the importation of several lemurs from Madagascar. The lemurs are being imported by a student of mine, Mr. Robert Jay Russell. He has collected the animals over an 18 month period while doing field work in Madagascar. Mr. Russell has had the permission of the Malagasy government to conduct his field studies. The animals he has in captivity are not animals that have been actively captured, but are animals which he has rescued; animals that were in some way injured or unable to survive in the wild. Mr. Russell has apparently obtained permission from the Malagasy government to bring these animals home with him (see attached telegram).

I have attached to this letter an application for a permit to import these animals in my name. Also attached is a brief outline of the information requested in section 17.23 of 50 CFR. In some cases it is impossible to

V 40 67
APR 7 75
XUM

be very specific; if you need any clarification please call me.

Thank you for your consideration.

Sincerely yours,

J. A. Bumgardner,
V.M.D., Managing Director, Primate Facility, Assistant Professor, Anatomy and Zoology.

Enclosure:

Date: March 24, 1975.

To: Chief, Division of Law Enforcement.
From: Assistant Chief, Office of Endangered Species and International Activities.
Subject: Endangered Species Importation Permit Application—Lemurs-Dr. J. A. Bergeron.

Our review of the information submitted by Dr. Bergeron under the cover of his January 21, 1974 Form 3-200 left some questions still unresolved. This subject was discussed with Mr. Hester of your staff on Friday, March 14, 1975. We felt it unwise to publish the application in the FEDERAL REGISTER until this information had been obtained and, in order to prevent additional delay in processing of the application, elected to solicit the information by telephone.

The following questions and answers thereto were received from Dr. David Anderson, Animal Supervisor of Duke University's Primate Facility. Dr. Anderson was acting in Mr. Bergeron's stead who was not available. This memo should be incorporated into and considered a part of the subject application. The questions and Dr. Anderson's response are paraphrased below:

1. Q. How will the primates in question be shipped?

A. It is intended that the Lemurs will be shipped in wooden boxes similar to those used for other shipments of these animals. The dimensions would be approximately 16x24x12 inches.

2. Q. Where will the animals be housed?

A. The floor plan shown on the article entitled "A Prosimian Research Colony" which accompanied the application depicts a floor plan on page 202. It's planned that the animals will be housed in Room 010 of that facility.

3. Q. What type research is planned—will it be lethal?

A. The plans for these animals do not involve lethal research. The research involved will be behavioral—probably centering around Circadian Rhythm questions. The animals will be incorporated into the colony presently in existence.

EARL B. BAYSINGER.

1. A description of the duties of the managing director of the Primate Facility as described by Dr. F. M. Cleaveland, University Provost, in January, 1973.

"The managing director is responsible for carrying out the long-range scientific policies of the Duke University Primate Facility (DUPF). Responsibility for policy formulation rests with a policy committee chaired by the director and composed of the senior investigators conducting major research involving the DUPF. These senior investigators also hold positions as associate directors of the DUPF. The long-range scientific policies of the DUPF have been carefully spelled out in the various documents accompanying requests for financial support of the DUPF from agencies such as the National Science Foundation, Wenner-Gren Foundation, and others. These policies will be presented once more in a document to accompany another application for funds to support operation of the DUPF.

The managing director shall be responsible for administering the affairs of DUPF, including the hiring and firing of support personnel, and the formulation, defense, and management of the budget. He shall also be responsible for all matters associated with the maintenance of the Facility including attending to the health and care of the animals. In consultation with the policy committee, he shall be responsible for coordinating the research programs of senior investigators and junior investigators (including his own), as well as the research of undergraduate, graduate, and post-graduate students. Decisions about the precise manner in which research at the DUPF is carried out, about which research programs are feasible, and about which proposals are in accord with the long-range scientific policies of the DUPF shall be made by the managing director in consultation with the policy committee.

The managing director will represent the DUPF in all relationships with department chairmen, members of the University central administration, and with granting agencies. He will be responsible for coordinating efforts to obtain financial support to operate the facility. Administratively he is appointed by and reports to the provost of the University."

3. List of Animals.

	Number in colony			Number born in colony			Number in colony, 6 years or longer
	Total	Male	Female	Total	Male	Female	
Galago crassicaudatus crassicaudatus	25	14	11	20	12	8	10
Galago crassicaudatus argentatus	34	11	23	25	10	15	8
Lemur fulvus fulvus	10	7	3	6	5	1	6
Lemur fulvus rufus	18	9	9	14	7	7	6
Lemur fulvus albifrons	10	5	5	6	3	3	0
Lemur fulvus collaris	3	2	1	1	1	0	2
Lemur fulvus hybrids	22	11	21	22	11	21	3
Lemur macaco	7	4	3	3	2	1	4
Lemur catta	14	7	7	11	5	6	4
Lemur variegatus	8	4	4	1	1	0	2
Hapalemur griseus	2	1	1	0	0	0	0
Propithecus verreauxi coquereli	5	2	3	2	1	1	2
Microcebus murinus	0	5	4	3	3	0	0
Cheirogaleus medius	7	4	3	4	3	1	0
Total	194	86	93	127	64	63	49

Seventy percent of the animals presently housed have been born in the colony. Twenty-seven percent of the animals have been maintained for six years or longer.

4. Current users
Faculty

J. A. Bergeron:

My broad research interests include comparative aspects of anatomy and pathology. My specific research interests are the development of the hematopoietic, reticulo-endothelial, and urinary systems.

For the last five years I have been involved in the collection of baseline hematological, clinical chemistry, and pathological data on prosimians. I am also interested in the conservation of non-human primates and their management in captivity.

Much of my time is devoted to the administrative and management details of the Primate Facility, thus leaving little time for active research. Fortunately the routine health care of the animals affords me some contact with the laboratory.

Matt Cartmill:

Dr. Cartmill is engaged in research into the origin and adaptive significance of some of the anatomical features that distinguish primates from other mammals. At present, he is working on three related projects that involve the resources at the Primate Facility.

The first of these projects attempts to quantify the relationship between body size and frictional characteristics of volar pads among primates. Cartmill (1972) and others have suggested that claws should be adaptively superior to flattened nails of the primate type in locomotion on sloping or vertical supports of large size. But data recently collected at the Duke Primate Facility show that small lemurs must be able to climb on larger vertical supports than Cartmill and others had predicted; the superiority of claws to flattened nails in this situation may not be significant. Cartmill is measuring coefficients of friction by placing animals on sloping boards and tilting them until the animals slide. Torpid cheirogaleines and juveniles of larger prosimian species must be used in these experiments; active adults will leap off the surface before the sliding point is reached. This project therefore requires access to cheirogaleines and to breeding groups of larger species.

The second of Cartmill's current projects is a behavioral study, comparing the ways in which clawless primates and clawed marsupials (*Didelphis*) orient their grasping hands and feet in moving on branches of varying diameter and angulaton. The primates used in this comparison are *Microcebus* and *Cheirogaleus;* since their hands and feet are similar in shape and proportions to those of *Didelphis*, the comparison controls for most of the relevant variables other than the presence of claws.

Cartmill's third project is purely anatomical investigation of the basicranial and pharyngeal arteries of strepsirhine prosimians, attempting to establish the presently uncertain homologies of the major extravertebral artery that supplies the brain in cheirogaleines and lorises. The point is of considerable importance in assessing the evolutionary relationships of the extant primates. Since injected specimens must be used, and since it is impossible to inject fixed material properly, fresh cadavers are necessary. Although this research is not sufficiently urgent to warrant killing rare prosimians for this purpose, Dr. Cartmill's association with the Primate Facility allows him to inject animals that have died of other causes when they become available.

William Hylander:

Until recently, my research has centered largely on the functional and adaptive significance of the cranio-facial region in various human populations. However, one of the major reasons for my coming to Duke University was the opportunity to extend my studies of the cranio-facial region to non-human primates; in particular, the prosimians that are housed in the Duke Primate Facility.

My principal interests at this time relate primarily to feeding mechanisms in mammals, with particular emphasis on members of the order *Primates*. My research plans for the future will follow along basically two lines. One relates to refining current theories regarding mammalian jaw mechanics, and the other relates to elucidating the functional and adaptive significance of the masticatory apparatus in certain extant primates. It is primarily the later line of research which involves usage of the Duke Primate Facility.

The diet of certain primates, e.g. *Propithecus, Colobus,* and *Alouatta,* includes a large portion of mature leaves; and these animals are characterized by rather distinctive features of the masticatory apparatus (teeth, jaws, and muscles of mastication). Initially, my plans are to analyze the chewing mechanisms of the above leaf eaters and of other closely related forms that are more generalized in regards to dietary preferences, e.g. *Lemur, Cercopithecus,* and *Cebus.* This analysis will consist of detailed dissections of the masticatory apparatus, a gross and radiographic examination of the skull (including the dentition), and a histological examination of the temporomandibular joint among members of the above genera. In addition, observations of the feeding behavior of these primates under captive conditions will be made. This analysis will assist in determining whether rather distantly related primates with similar dietary preferences exhibit morphological and/or functional convergence of the masticatory apparatus.

The second phase of my research will deal exclusively with the dynamics of chewing. This portion of the study will involve the use of living specimens and will require the utilization of specialized techniques, such as an electromyographic analysis of the muscles of mastication, and a cinefluorographic analysis of jaw movements during mastication.

The Duke University Primate Facility is critical for the implementation of the above research plan for primarily two reasons, the first being that it affords the opportunity to develop the above techniques in the Duke area, thus allowing me to fulfill my teaching obligations simultaneously. Secondly, two important prosimian genera that are considered critical for this study are housed in the Duke Primate Facility (i.e. *Propithecus* and *Lemur*). Although *Lemur* could conceivably be studied at other institutions, the Duke Primate Facility has the only living specimens of *Propithecus* in this country. Some of the above mentioned genera that are essential for this study are not housed in the Primate Facility; therefore, these animals will be studied at various regional primate facilities and zoos.

Richard Kay:

Animals at the Primate Facility will be used for x-ray cine studies of jaw movement during chewing and its relationship to molar structure and wear. The prosimians may provide evidence for understanding the evolution of the primate masticatory apparatus since living prosimians bear a general morphological resemblance to Eocene fossil primates currently under study.

Peter Klopfer:

The purposes of our studies are first, to uncover the factors that determine whether a mother will care for her young, whether that care is restricted exclusively to her own or extends to alien youngsters, and whether differences in the character and quality of her care have long-term effects. From the standpoint of the infant, we are interested in knowing how a separation from the mother affects its development under circumstances where a surrogate mother may or may not be available. Secondly, we intend to examine the long-term results of different rearing conditions. All of this is to be studied against the different social background provided by three particular species of *Lemur: catta, fulvus,* and *variegatus.* These three, while similar in their morphology, and, we assume, their physiology, are neither truly sympatric nor similar in their patterns of maternal care. In *catta,* animals other than the mother may contact the infant before it is a week old and independent exploration begins before it has aged three weeks. In *fulvus,* however, except for the male, other animals are generally prevented by the mother from taking over the infant until four weeks after its birth, simultaneously with the commencement of independent explorations by the infant. The *variegatus* infant, finally, is denied early contact of any kind, except with the mother, until it is fully mobile, at about seven-eight weeks. Before this, it received only intermittent attention even from its mother.

What is the significance of these different patterns of care? Are the more commonly reared *catta* infants better buffered from the trauma of parental separation? Are the "independent" *variegatus* better able to invade and colonize new areas? These queries represent the direction in which these studies will lead.

I. The first set of specific questions with which our earlier studies dealt (and continue to deal) are:

1. What are the proximate factors determining whether a mother will recognize neonatal young?

2. What determines whether she will accept them?

3. What determines whether she will discriminate between her own and alien young?

4. How do specific differences in maternal responses influence the infant's response to separation from its mother?

5. How do individual differences in maternal behavior influence the infant's development?

6. What determines the success of surrogate mothers?

The particular ultimate variables we expect (for reasons discussed below) to be of primary importance include:

1. the usual size of the social unit of the species

2. age structure and peer-superior relations

3. degree of motor precocity at birth

4. post-natal rate of development

II. The specific questions to which we expect to devote ourselves for the period covered by this proposal are:

1. How do lemurs of the three species (*catta, fulvus, variegatus*) differ in their responses to

a. novel habitats

b. novel foods

c. novel objects

2. Do the differences noted in (1) correspond to the differences displayed by the three species in their usual environment?

3. Are the differences in (1) resistant to alterations in the mode of rearing, i.e. are they attributable to the unique rearing patterns displayed by each of the three species?

Graduate Students:

Lori Alterman (Anthropology): Primary structure of the alpha, beta, and delta chains of primate hemoglobins. Presently completing research at New York University.

Norman Budnitz (Zoology): Social organization among lemurs. Recently returned from field studies in Madagascar. Thesis in preparation.

Anne Clark (Biology—University of Chicago) Olfactory communication in galagos.

John Conley (Anthropology): Activity cycles in lemurs. Presently working with Donald Sade at Punta Santiago, Puerto Rico.

Dorian Coppenhaver (Zoology): Primary structure of hemoglobins of lemurs. Presently completing research at New York University.

Andrew Hamilton (Anthropology): Cytogenetic studies of lemurs.

George Mason (Anatomy): Erythrocyte enzymes and polymorphic serum proteins. Thesis in preparation.

Lee McGeorge (Zoology): Vocalization and communication in lemurs. Presently conducting field work in Madagascar.

Jay Rumsey (Anatomy): Physiological and behavioral activity cycles of cheirogaleing lemurs. Presently conducting field studies in Madagascar.

Laura Vick (Anthropology—University of North Carolina): Interpersonal bonds and pair-bonding among lemurs.

Undergraduate Students:

Thomas Howard (Zoology): Vaginal cytology of galagos.

Lee Simpson (Zoology): Sex-related behavior of neonates.

Robert Walters (Zoology): Bone marrow cell distribution of galagos.

Richard Weber (Zoology): Screening for naturally occurring blood-group antibodies in prosimians.

Post-doctoral Students:

Ann Rosenkoetter (Oregon Regional Primate Center): Olfactory communications in lemurs. Beginning summer, 1974.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before May 7, 1975, will be considered.

Dated: March 28, 1975.

LOREN K. PARCHER,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

[FR Doc.75-8780 Filed 4-4-75;8:45 am]

ENDANGERED SPECIES PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant. Lion Country Safari, Inc., Post Office Box 400, Kings Mills, Ohio 45034. Milton Tennant, Zoological Manager.

FEBRUARY 17, 1975.

BUREAU OF SPORT FISHERIES AND WILDLIFE
Department of the Interior,
Washington, D.C.

In compliance with Pub. L. 93-205, section 10(a) and the Code of Federal Regulations, Title 50, Subpart c, §§ 17.23 and 13.12a, it is requested that permission be granted Lion Country Safari Inc., to transfer four (4) South African cheetah from its park in California to its park in Ohio.

1. Applicant's name: Lion Country Safari Inc., P.O. Box 400, Kings Mills, Ohio 45034. Attention: Milton Tennant (513)-398-9010.

2. Applicant is a public corporation: Mr. Harry Shuster President, Lion Country Safari Inc., 8800 Moulton Parkway, Laguna Hills, California 92653, (714)-837-1200.

3. Location where permitted activity is to be conducted: Lion Country Safari Inc., P.O. Box 400, Kings Mills, Ohio 45034, (513)-398-9010.

4. Name of species: South African cheetah, *Acinonyx jubatus;* Number-four (4); Sex-2.2; Age-6.5 years; have been in the country for six years.

5. Statement of justification: The California park has a viable group of cheetah and by transferring four presently non-breeders would attempt establishing a breeding group in Ohio.

6. Description of facility: An area adjoining the park's entertainment area has been set aside for quarters. See attached diagram. This area is approximately 10,000 sq. ft. with suitable heated winter shelter.

7. Technical available expertise: Lion Country Safari Inc. has three breeding groups at three of their parks with each group having at least one successful litter. Information concerning these successes is freely circulated amongst all our parks. In addition, the Zoological Manager and assistant have both been active in the care and management of the cheetah at the California park which led to successful births.

8. Lion Country Safari Inc. is willing to contribute data to cheetah studbook and cooperate in breeding programs.

9. Cheetah will be transported by air carrier in crates of appropriate size. Flight time is approximately six hours and will be scheduled so as to eliminate any waiting time at either end.

10. I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

MILTON TENNANT,
Zoological Manager.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before May 7, 1975, will be considered.

Dated: April 1, 1975.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

MARINE MAMMAL PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit has been received under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407).

Applicant. Thomas R. Loughlin, M.A., Doctoral graduate student, Department of Biology, University of California, Los Angeles, California 90024.

FEBRUARY 25, 1975.

DIRECTOR, FISH AND WILDLIFE SERVICE,
Department of the Interior,
Washington, D.C. 20235.

1. Application for Scientific Research Permit under the Marine Mammal Protection Act of 1972.

2. 25 February, 1975.

3. The applicant is *not* a partnership or a corporate entity, nor are any marine mammals to be taken or imported, utilized or displayed, by a party other than the applicant.

4. (a) The proposed research program entails a behavioral and ecological study of the sea otter, *Enhydra lutris lutris*, as it occurs along the central California coast. Adult and juvenile animals of both sexes are to be captured (see Section 5(e) for capture details) and tagged. The tags will include permanent anodized aluminum cattle ear tags (Wild and Ames, Mar. Res. Tech. Rep. No. 20, Ca. Fish and Game, 1974) which will be attached to the webb of the rear flipper. The animals will also be tagged with telemetric devices attached to a collar which will fit around the animal's neck. Care has been taken in the design of the collar to make the unit as small as possible to facilitate the requirement for grooming by the sea otter. The animals will also be weighed and measured upon capture. After tagging procedures the animals will be released as near to the capture site as possible.

The telemetric device includes an electromagnetic and a sonic transmitter. The electronic utilizes a variable frequency oscillator (VFO) which will be monitored while the animal is on or near the surface. Subsurface movements will be monitored by the sonic transmitter. The collar unit will be designed to disintegrate after a maximum of five months in sea water.

Information gained from this study will include home range, 24 hour activity cycles, diurnal versus nocturnal foraging strategies, depth of dives and intraspecies dispersal parameters.

The study will be restricted primarily to animals which occur in the northern sector of the existing range, specifically the area including Hopkin's Marine Station (present study center) Pacific Grove, California, to Point Sur, 40 miles to the south. This area represents approximately one-fourth of the area of the existing sea otter range in Central California.

A minimum of 15 animals are to be radio tagged during the study period.

The study will be conducted from June, 1972, through June, 1977.

(a) A list of sponsors and cooperating institutions follows:

Dr. J. Lee Kavanau, Professor of Biology, University of California, Los Angeles. Applicant's major graduate advisor and project leader.

Dr. George Bartholomew, Professor of Biology, University of California, Los Angeles. Member of applicant's doctorate graduate committee and technical advisor.

Dr. Donald Abbott, Assistant Director, Hopkin's Marine Station, Pacific Grove, California. Cooperating institution.

(c) No formal research proposal has been prepared. Refer to Section 4(a) for project description.

(d) The proposed research responds directly with recomendations by the California Fish and Game (Bissel and Hubbard 1968, Ca. Fish and Game) and the goals of the Marine Mammal Commission (Mar. Mamm. Comm. Mimeo, August 1974). The study will add to the knowledge concerning potential or actual sea otter-abalone conflicts in California, investigate the use of sonic tags for behavioral and ecological investigations, and provide carcasses found during the study to scientific institutions for additional studies. The project will also help to determine the life history and survival mechanisms of the sea otter which will facilitate decisions relevant to management.

(e) Any dead specimens, skeletons, or other remains will be deposited in the Vertebrate Museum, University of California, Los Angeles.

5. (a) The species to be captured is the sea otter, *Enhydra lutris lutris*. A minimum of 15 and a maximum of 40 animals are requested for capture and tagging. This represents at most 2.5 percent of the estimated present population of 1,600 animals in the California population (Miller, 1974, Mar. Resources Leaflet No. 7, State of California).

(b) Male and female adult and juvenile animals will be taken. Mature males attain a maximum size of 86 pounds and 65 inches. Males average larger than females. Juvenile animals are defined here as those weighing at least 30 pounds and more than one year old.

(c) The capture dates are planned for June through September, 1975, January through March, 1976, June through September, 1976, and January through March, 1977, in the area of and adjacent to Hopkin's Marine Station, Pacific Grove, California.

(d) A total of 1,600 animals was estimated for the entire California population by the California Department of Fish and Game in June, 1974. Wild and Ames (1974) report a maximum of 110 sea otters within the immediate area of the proposed study.

(e) The method of capture will be the same as that described by Wild and Ames (1974, Mar. Res. Tech. Report No. 20, Ca. Fish and Game). The following description is taken from their report. A diver-held sea otter trap (Figure 1) is maneuvered beneath a sea otter rafting in the kelp. Upon encountering the otter from below, the drawstring is pulled thereby closing the net and trapping the otter. Carbon dioxide inflatable floats help to support the device at the surface the assisting boat arrives. The otter is then removed from the device, tagged, and released.

(f) Qualifications of individuals performing the capture follows:

Thomas R. Loughlin, M.A., Doctoral graduate student, University of California, Los Angeles. Previous (1973) capture of harbor seals (*Phoca vitulina*) in Humboldt Bay, California.

Daniel Costa, Doctoral graduate student University of California, Santa Cruz.

Technical assistance from the staff of the California Department of Fish and Game, Marine Resources Region, Monterey, California.

(g) The capture is *not* to be done by a contractor.

(h) The animals to be captured will *not* be imported.

(i) There will be no marine mammal products imported under this permit.

6. None of the animals captured will be transported to any other location under this permit. All animals will be released on the capture site.

7. None of the animals captured under this permit will be retained after capture; therefore, plans for care or maintenance of the animals after capture are not applicable.

8. None of the animals captured in this permit will be used for public display.

9. The sea otter, *Enhydra lutris*, is listed as an endangered species pursuant to the Endangered Species Act of 1969. The need for this animal is justified because of the type and amount of information that will be gained by the study. The present status of the sea otter in California is perilous due to the stress the animal may be placing on the abalone and clam fisheries in the state. Adequate management can not occur unless sufficient behavioral and ecological information is available. The present study is designed to furnish in part some of the data required to facilitate appropriate management practices as well as to improve on our general knowledge of the biology of the sea otter. Due to these reasons an alternate species would not be appropriate for this study.

10. For the year preceding the date of the application, no sea otters were captured, transported, maintained, or displayed, or utilized for scientific research by the applicant.

11. I hereby certify that the foregoing information is complete, true, and correct to the best of my knowledge and belief. I understand that this information is submitted for the purpose of obtaining a permit under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407) and regulations promulgated thereunder, and that any false statement may subject me to the criminal penalties of 18 U.S.C. 1001, or to penalties provided under the Marine Mammal Protection Act of 1972.

THOMAS R. LOUGHLIN,
Department of Biology, University of California, Los Angeles, California 90024.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW, Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before May 7, 1975, will be considered.

Dated: April 1, 1975.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

[FR Doc.75-8939 Filed 4-4-75;8:45 am]

Geological Survey

[OCS Order No. 11]

OIL AND GAS PRODUCTION RATES

Prevention of Waste, and Protection of Correlative Rights

Notice is hereby given that pursuant to 30 CFR 250.11 the Chief, Conservation Division, Geological Survey, has approved OCS Order No. 11 for the Pacific Area as set forth below, effective May 1, 1974.

Copies of OCS Order No. 11 may be obtained from the Oil and Gas Supervisor, Pacific Area, 7744 Federal Building, 300 N. Los Angeles Street, Los Angeles, California 90012.

By FEDERAL REGISTER notice, dated September 5, 1974, comments were solicited concerning the content of the proposed Order. As a result of this solicitation, four comments were received, two of which recommended changes in specific provisions of the Order, another did not believe the Order was necessary, and the third party found nothing objectionable in the Order.

All comments were considered during preparation of the final version published below. Modification in the Order from the earlier version is as follows:

Subparagraph 3.A.(1) Modification was made to allow operators six months in which to submit an initial Maximum Efficient Rate (MER) for reservoirs producing prior to the date of the Order.

Subparagraph 3.B.(1) This was also changed to permit the operators a six-month period in which to submit a request for Maximum Production Rate (MPR) for wells producing prior to the date of the Order.

Subparagraph 12.B A clarification was made in this part to indicate a well completion may be in a single or in commingled reservoirs.

Subparagraph 14.B This provision was simplified, but the requirements concerning producing a well within 200 feet from a property line remain the same.

Appendix A. This part of the Order was also modified to reflect the possibility of having commingled reservoirs within a well completion.

W. A. RADLINSKI,
Acting Director.

CONSERVATION DIVISION, PACIFIC AREA

[OCS Order No. 11]

Effective May 1, 1975

OIL AND GAS PRODUCTION RATES, PREVENTION OF WASTE, AND PROTECTION OF CORRELATIVE RIGHTS

This Order is established pursuant to the authority prescribed in 30 CFR 250.1, 30 CFR 250.11, and in accordance with all other applicable provisions of 30 CFR Part 250, and the notice appearing in the FEDERAL REGISTER, dated December 5, 1970 (35 FR 18558), to provide for the prevention of waste and conservation of the natural resources of the Outer Continental Shelf, and the protection of correlative rights therein. This Order shall be applicable to all oil and gas wells on Federal leases in the Outer Continental Shelf

V 40 67
APR 7 75
XUM

of the Pacific Area. All departures from the requirements specified in this Order shall be subject to approval pursuant to 30 CFR 250.12(b). References in this Order to approvals, determinations, and requirements for submitting of information or applications for approval are to those granted, made, or required by the Oil and Gas Supervisor or his delegated representative.

1. *Definition of Terms.* As used in this Order, the following terms shall have the meanings indicated:

A. *Waste of Oil and Gas.* The definition of waste appearing in 30 CFR 250.2(h) shall apply, and includes the failure to timely initiate enhanced recovery operations where such methods would result in an increased ultimate recovery of oil or gas under sound engineering and economic principles. Enhanced recovery operations refers to pressure maintenance operations, secondary and tertiary recovery, cycling, and similar recovery operations which alter the natural forces in a reservoir to increase the ultimate recovery of oil or gas.

B. *Correlative Rights.* The opportunity afforded each lessee or operator to produce without waste his just and equitable share of oil and gas from a common source of supply.

C. *Maximum Efficient Rate (MER).* The maximum sustainable daily oil or gas withdrawal rate from a reservoir which will permit economic development and depletion of that reservoir without detriment to ultimate recovery.

D. *Maximum Production Rate (MPR).* The approved maximum daily rate at which oil may be produced from a specified oil well completion or the maximum approved daily rate at which gas may be produced from a specified gas well completion.

E. *Interested Party.* The Operators and lessees, as defined in 30 CFR 250.2 (f) and (g), of the lease or leases involved in any proceeding initiated under this Order.

F. *Reservoir.* An oil or gas accumulation which is separated from and not in oil or gas communication with any other such accumulation.

G. *Competitive Reservoir.* A reservoir as defined herein containing one or more producible or producing well completions on each of two or more leases, or portions thereof, in which the lease or operating interests are not the same.

H. *Property Line.* A boundary dividing leases, or portions thereof, in which the lease or operating interest is not the same. The boundaries of federally approved unit areas shall be considered property lines. The boundaries dividing leased and unleased acreage shall be considered property lines for the purpose of this Order.

I. *Oil Reservoir.* A reservoir that contains hydrocarbons predominantly in a liquid (single-phase) state.

J. *Oil Well Completion.* A well completed in an oil reservoir or in the oil accumulation of an oil reservoir with an associated gas cap.

K. *Gas Reservoir.* A reservoir that contains hydrocarbons predominantly in a gaseous (single-phase) state.

L. *Gas Well Completion.* A well completed in a gas reservoir or in the gas cap of an oil reservoir with an associated gas cap.

M. *Oil Reservoir with an Associated Gas Cap.* A reservoir that contains hydrocarbons in both a liquid and a gaseous state (two-phase).

N. *Producible Well Completion.* A well which is physically capable of production and which is shut-in at the wellhead or at the surface, but not necessarily connected to production facilities, and from which the operator plans future production.

2. *Classification of Reservoirs.*—A. *Initial Classification.* Each producing reservoir shall be classified by the operator, subject to approval by the Supervisor, as an oil reservoir, an oil reservoir with an associated gas cap, or a gas reservoir.

(1) The initial classification of each reservoir from which production is commenced subsequent to the date of this Order shall be submitted for approval with the initial submittal of MER data for the reservoir.

(2) Each reservoir from which production commenced on or prior to the date of this Order shall be classified by the operator, based on existing reservoir conditions. Such classification shall be determined and submitted to the Supervisor within six (6) months of the date of this Order.

B. *Reclassification.* A reservoir may be reclassified by the Supervisor, on his own initiative or upon application of an operator, during its productive life when information becomes available showing that such reclassification is warranted.

3. *Oil and Gas Production Rates.*—A. *Maximum Efficient Rate (MER).* The operator shall propose a maximum efficient rate (MER) for each producing reservoir based on sound engineering and economic principles. When approved at the proposed or other rate, such rate shall not be exceeded, except as provided in paragraph 4 of this Order.

(1) *Submittal of Initial MER.* Within 45 days after the date of first production or such longer period as may be approved, the operator shall submit a Request for Reservoir MER (Form 9–1866) with appropriate supporting information. Within six months after the date of this Order, the operator shall submit a Request for Reservoir MER (Form 9–1866) with appropriate supporting information for each reservoir from which production commenced prior to the date of this Order.

(2) *Revision of MER.* The operator may request a revision of an MER by submitting the proposed revision to the Supervisor on a Request for Reservoir MER (Form 9–1866) with appropriate supporting information. The operator shall obtain approval to produce at test rates which exceed an approved MER when such testing is necessary to substantiate an increase in the MER.

(3) *Review of MER.* The MER for each reservoir will be reviewed by the operator annually, or at such other required or approved interval of time. The results of the review, with all current supporting information shall be submitted on a Request for Reservoir MER (Form 9–1866).

(4) *Effective Date of MER.* The effective date of an MER, or revision thereof, will be determined by the Supervisor and shown on a Request for Reservoir MER (Form 9–1866) when the MER is approved. The effective date for an initial MER shall be the first day following the completion of an approved testing period. The effective date for a revised MER shall be the first day following the completion of an approved testing period, or if testing is not conducted, the date the revision is approved.

B. *Maximum Production Rate (MPR).* The operator shall propose a maximum production rate (MPR) for each producing well completion in a reservoir together with full information on the method used in its determination. When an MPR has been approved for a well completion, that rate shall not be exceeded, except as provided in paragraph 4 of this Order. The MPR shall be based on well tests and any limitations imposed by (1) well tubing, safety equipment, artificial lift equipment, surface back pressure, and equipment capacity; (2) sand producing problems: (3) producing gas-oil and water-oil ratios; (4) relative structural position of the well with respect to gas-oil or water-oil contacts; (5) position of perforated interval within total production zone; and (6) prudent operating practices. The MPR established for each well completion shall not exceed 110 percent of the rate demonstrated by a well test unless justified by supporting information.

(1) *Submittal of Initial MPR.* Within six months after the date of this Order, the operator shall submit a Request for Well Maximum Production Rate (MPR) (Form 9–1867), with the results of the potential test on a Well Potential Test Report (Form 9–1868). Thereafter, the operator shall have 30 days from the date of first continuous production within which to conduct a potential test, as specified under subparagraphs 5.B and 6.B of this Order, on all new and reworked well completions. Within 15 days after the date of the potential test, the operator shall submit a proposed MPR for the individual well completion on a Request for Well Maximum Production Rate (MPR) (Form 9–1867), with the results of the potential test on a Well Potential Test Report (Form 9–1868). Extension of the 30-day test period may be granted. The effective date for any approved initial MPR shall be the first day following the test period. During the 30-day period allowed for testing, or any approved extensions thereof, the operator may produce a new or reworked well completion at rates necessary to establish the MPR. The operator shall report the total production obtained during the test period and approved extensions thereof, on the Well Potential Test Report (Form 9–1868).

(2) *Revision of MPR Increase.* If necessary to test a well completion at rates above the approved MPR to determine whether the MPR should be increased, notification of intent to test the well at such higher rates, not to exceed a stated maximum rate during a specified test period, shall be filed with the Supervisor. Such tests may commence on the day following the date of filing notification, unless otherwise ordered by the Supervisor. If an operator determines that the MPR should be increased he shall submit, within 15 days after the specified test period, a proposed increased MPR on a Request for Well Maximum Production Rate (MPR) (Form 9–1867), and any other available data to support the requested revision, including the results of the potential test and the total production obtained during the test period on a Well Potential Test Report (Form 9–1868). Prior to approval of the proposed increased MPR, the operator may produce the well completion at a rate not to exceed the proposed increased MPR of the well. The effective date for any approved increased MPR shall be the first day following the test period. If testing rates or increased MPR rates result in production from the reservoir in excess of the approved MER, this excess production shall be balanced by underproduction from the reservoir under the provisions of subparagraph 4.B of this Order.

(3) *Revision of MPR Decrease.* When the quarterly test rate for an oil well completion or the semi-annual test rate for a gas well completion required under subparagraphs 5.C and 6.C of this Order is less than 90 percent of the existing approved MPR for the well, a new reduced MPR will be established automatically for that well completion equal to 110 percent of the test rate submitted. The effective date for the new MPR for such well completion shall be the first day of the quarter following the required date of submittal of periodic well-test results under subparagraphs 5.C and 6.C of this Order. Also, the operator may notify the Supervisor on a Request for Well Maximum Production Rate (MPR) (Form 9–1867) of, or the Supervisor may require, a downward revision of a well MPR at any time when the well is no longer

capable of producing its approved MPR on a sustained basis. The effective date for such reduced MPR for a well completion shall be the first day of the month following the date of notification.

(4) *Continuation of MPR.* If submittal of the results of a quarterly well test for an oil completion or a semi-annual well test for a gas well completion, as provided for in subparagraphs 5.C and 6.C of this Order, cannot be timely, continuation of production under the last approved MPR for the well may be authorized, provided an extension of time in which to submit the test results is requested and approved in advance.

(5) *Cancellation of MPR.* When a well completion ceases to produce, is shut-in pending workover, or any other condition exists which causes the assigned MPR to be no longer appropriate, the operator shall notify the Supervisor accordingly on a Request for Well Maximum Production Rate (MPR) (Form 9–1867), indicating the date of last production from the well, and the MPR will be canceled. Reporting of temporary shutins by the operator for well maintenance, safety conditions, or other normal operating conditions is not required, except as is necessary for completion of the Monthly Report of Operations (Form 9–152).

C. *MER and MPR Relationship.* The withdrawal rate from a reservoir shall not exceed the approved MER and may be produced from any combination of well completions subject to any limitations imposed by the MPR established for each well completion. The rate of production from the reservoir shall not exceed the MER although the summation of individual well MPR's may be greater than the MER.

4. *Balancing of Production.*—A. *Production Variances.* Temporary well production rates, resulting from normal variations and fluctuations exceeding a well MPR or reservoir MER shall not be considered a violation of this Order, and such production may be sold or transfered pursuant to paragraph 8 of this Order. However, when normal variations and fluctuations result in production in excess of a reservoir MER, any operator who is overproduced shall balance such production in accordance with subparagraph 4.B below. Such operator shall advise the Supervisor of the amount of such excess production from the reservoir for the month at the same time as Form 9–152 is filed for that month.

B. *Balancing Periods.* As of the first day of the month following the month in which this Order becomes effective, all reservoirs shall be considered in balance. Balancing periods for overproduction of a reservoir MER shall end on January 1, April 1, July 1, and October 1 of each year. If a reservoir is produced at a rate in excess of the MER for any month, the operator who is overproduced shall take steps to balance production during the next succeeding month. In any event, all overproduction shall be balanced by the end of the next succeeding quarter following the quarter in which the overproduction occurred. The operator shall notify the Supervisor at the end of the month in which he has balanced the production from an overproduced reservoir.

C. *Shut-in for Overproduction.* Any operator in an overproduction status in any reservoir for two successive quarters which has not been brought into balance within the balancing period shall be shut-in from that reservoir until the actual production equals that which would have occurred under the approved MER.

D. *Temporary Shut-in.* If, as the result of storm, hurricanes, emergencies, or other conditions peculiar to offshore operations, an operator is forced to curtail or shut-in production from a reservoir, the Supervisor may, on request, approve makeup of all or part of this production loss.

5. *Oil Well Testing Procedures.*—A. *General.* Tests shall be conducted for not less than four consecutive hours. Immediately prior to the 4-hour test period, the well completion shall have produced under stabilized conditions for a period of not less than six consecutive hours. The 6-hour pretest period shall not begin until after recovery of a volume of fluid equivalent to the amount of fluids introduced into the formation for any purpose. Measured gas volumes shall be adjusted to the standard conditions of the 15.25 psia and 60° F for all tests. When orifice meters are used, a specific gravity shall be obtained or estimated for the gas and a specific gravity correction factor applied to the orifice coefficient. The Supervisor may require a prolonged test or retest of a well completion if such test is determined to be necessary for the establishment of a well MPR or a reservoir MER. The Supervisor may approve test periods of less than four hours and pretest stabilization periods of less than six hours for well completions, provided that test reliability can be demonstrated under such procedures.

B. *Potential Test.* Test data to establish or to increase an oil well MPR shall be submitted on a Well Potential Test Report (Form 9–1868). The total production obtained from all tests during the test period shall be reported on such form.

C. *Quarterly Test.* Tests shall be conducted on each producing oil well completion quarterly, and test results shall be submitted on a Quarterly Oil Well Test Report (Form 9–1869). Testing periods and submittal dates shall be as follows:

Testing period	Latest date for submittal of test results	For quarter beginning
Sept. 11 to Dec. 10	Dec. 10	Jan. 1
Dec. 11 to Mar. 10	Mar. 10	Apr. 1
Mar. 11 to June 10	June 10	July 1
June 11 to Sept. 10	Sept. 10	Oct. 1

There shall be a minimum of 45 days between quarterly tests for an oil well completion.

6. *Gas Well Testing Procedures.*—A. *General.* Testing Procedures for gas well completions shall be the same as those specified for oil well completions in subparagraph 5.A except for the initial test which shall be a multi-point back-pressure test as described in paragraph 6.D.

B. *Potential Test.* Test data to establish or to increase a gas well MPR shall be submitted on a Well Potential Test Report (Form 9–1868).

C. *Semi-annual Test.* Tests shall be conducted on each producing gas well completion semi-annually, and test results shall be submitted on a Semi-annual Gas Well Test Report (Form 9–1870). Testing periods and submittal dates shall be as follows:

Testing period	For submittal of test results	For semi-annual period beginning
June 11 to Dec. 10	Dec. 10	Jan. 1
Dec. 11 to June 10	June 10	July 1

There shall be a minimum of 90 days between semi-annual tests for a gas well completion.

D. *Back-Pressure Tests.* A multi-point back-pressure test to determine the theoretical open-flow potential of gas wells shall be conducted within thirty days after connection to a pipeline. If bottom-hole pressures are not measured, such pressures shall be calculated from surface pressures using the method, or other similar method, found in the Interstate Oil Compact Commission (IOCC) Manual of Back-Pressure Testing of gas wells. The results of all back-pressure tests conducted by the operator shall be filed with the Supervisor, including all basic data used in determining the test results. The Supervisor may waive this requirement if multi-point back-pressure test information has previously been obtained on a representative number of wells in a reservoir.

7. *Witnessing Well Tests.* The Supervisor may have a representative witness any potential or periodic well tests on oil and gas well completions. Upon request, an operator shall notify the appropriate District office of the time and date of well tests.

8. *Sale or Transfer of Production.* Oil and gas produced pursuant to the provisions of this Order, including test production, may be sold to purchasers or transferred as production authorized for disposal hereunder.

9. *Bottom-Hole Pressure Tests.* Static bottom-hole pressure test shall be conducted annually on sufficient key wells to establish an average reservoir pressure in each producing reservoir unless a different frequency is approved. The operator may be required to test specific wells. Results of bottom-hole pressure tests shall be submitted within 60 days after the date of the test.

10. *Flaring and Venting of Gas.* Oil- and gas-well gas shall not be flared or vented, except as provided herein.—A. *Small-Volume or Short-Term Flaring or Venting.* Oil- and gas-well gas may be flared or vented in small volumes or temporarily without the approval of the Supervisor in the following situations:

(1) *Gas Vapors.* When gas vapors are released from storage and other low pressure production vessels if such gas vapors cannot be economically recovered or retained.

(2) *Emergencies.* During temporary emergency situations, such as compressor or other equipment failure, or the relief of abnormal system pressures.

(3) *Well Purging and Evaluation Tests.* During the unloading or cleaning up of a well and during drillstem, producing, or other well evaluation tests not exceeding a period of 24 hours.

B. *Approval for Routine or Special Well Tests.* Oil- and gas-well gas may be flared or vented during routine and special well tests, other than those described in paragraph A above, only after approval of the Supervisor.

C. *Gas-Well Gas.* Except as provided in A and B above, gas-well gas shall not be flared or vented.

D. *Oil-Well Gas.* Except as provided in A and B above, oil-well gas shall not be flared or vented unless approved by the Supervisor. The Supervisor may approve an application for flaring or venting of oil-well gas for periods not exceeding one year if (1) the operator has initiated positive action which will eliminate flaring or venting, or (2) the operator has submitted an evaluation supported by engineering, geologic, and economic data indicating that rejection of an application to flare or vent the gas will result in an ultimate greater loss of equivalent total energy than could be recovered for beneficial use from the lease if flaring or venting were allowed.

E. *Content of Application.* Applications under paragraph D above for existing operations, as of the date of this Notice, shall be filed within three months from the effective date of this Order. Applications under paragraph D(2) above shall include all appropriate engineering, geologic, and economic

V 40 67
APR 7 75
XUM

date in an evaluation showing that absence of approval to flare or vent the gas will result in premature abandonment of oil and gas production or curtailment of lease development. Applications shall include an estimate of the amount and value of the oil and gas reserve that would not be recovered if the application to flare or vent were rejected and an estimate of the total amount of oil to be recovered and associated gas that would be flared or vented if the application were approved.

11. *Disposition of Gas.* The disposition of all gas produced from each lease shall be reported monthly on, or attached to, Form 9–152. The report shall be submitted in the following manner:

	Oil-well gas (thousand cubic feet)	Gas-well gas (thousand cubic feet)
Sales		
Fuel		
Injected [1]		
Flared		
Vented		
Other (specify)		
Total		

[1] Gas produced from the lease and injected on or off the lease.

12. *Multiple and Selective Completions.*—A. *Number of Completions.* A well bore may contain any number of producible completions when justified and approved.

B. *Numbering Well Completions.* Well completions made after the date of this Order shall be designated using numerical and alphabetical nomenclature. Once designated as a reservoir, or commingled reservoirs completion, the well completion number shall not change. Appendix A contains a detailed explanation of procedures for naming well completions.

C. *Packer Tests.* Multiple and selective completions shall be equipped to isolate the respective producing reservoirs. A packer test or other appropriate reservoir isolation test shall be conducted prior to or immediately after initiating production and annually thereafter on all multiply completed wells. Should the reservoirs in any multiply completed well become intercommunicative the operator shall make repairs and again conduct reservoir isolation tests unless some other operational procedure is approved. The results of all tests shall be submitted on a Packer Test (Form 9–1871) within 30 days after the date of the test.

D. *Selective Completions.* Completion equipment may be installed to permit selective reservoir isolation or exposure in a well bore through wireline or other operations. All selective completions shall be designated in accordance with subparagraph 12.B when the application for approval of such completions is filed.

E. *Commingling.* Commingling of production from two or more separate reservoirs within a common well bore may be permitted if it is determined that, collectively, the ultimate recovery will not be decreased. An application to commingle hydrocarbons from multiple reservoirs within a common well bore shall be submitted for approval and shall include all pertinent well information, geologic and reservoir engineering data, and a schematic diagram of well equipment. For all competitive reservoirs, notice of the application shall be sent by the applicant to all other operators of interest in the reservoirs prior to submitting the application to the Supervisor. The application shall specify the well completion number to be used for subsequent reporting purposes.

13. *Gas-Cap Well Completions.* All existing and future wells completed in the gas cap of a reservoir which has been classified and approved as an associated oil reservoir shall be shut-in until such time as the oil is depleted or the reservoir is reclassified as a gas reservoir; provided, however, that production from such wells may be approved when (1) it can be shown that such gas-cap production would not lead to waste of oil and gas, or (2) when necessary to protect correlative rights unless it can be shown that this production will lead to waste of oil and gas.

14. *Location of Wells.*—A. *General.* The location and spacing of all exploratory and development wells shall be in accordance with approved programs and plans required in 30 CFR 250.17 and 250.34. Such location and spacing shall be determined independently for each lease or reservoir in a manner which will locate wells in the optimum structural position for the most effective production of reservoir fluids and to avoid the drilling of unnecessary wells.

B. *Distance from Property Line.* An operator may drill exploratory or development wells at any location on a lease in accordance with approved plans; provided that no well drilled and completed after the date of this Order in which the completed interval is less than 200 feet from a property line shall be produced unless approved by the Supervisor. An operator requesting approval to produce a well in which the completed interval is located closer than 200 feet from a property line shall furnish the Supervisor with letters expressing acceptance or objection from operators of offset properties.

15. *Enhanced Oil and Gas Recovery Operations.* Operators shall timely initiate enhanced oil and gas recovery operations for all competitive and noncompetitive reservoirs where such operations would result in an increased ultimate recovery of oil or gas under sound engineering and economic principles. A plan for such operations shall be submitted with the results of the annual MER review as required in paragraph 3A(3) of this Order.

16. *Competitive Reservoir Operations.* Development and production operations in a competitive reservoir may be required to be conducted under either pooling and drilling agreements or unitization agreements when the Conservation Manager determines, pursuant to 30 CFR 250.50 and delegated authority, that such agreements are practicable and necessary or advisable and in the interest of conservation.

A. *Competitive Reservoir Determination.* The Supervisor shall notify the operators when he has made a preliminary determination that a reservoir is competitive as defined in this Order. An operator may request at any time that the Supervisor make a preliminary determination as to whether a reservoir is competitive. The operators, within thirty (30) days of such preliminary notification or such extension of time as approved by the Supervisor, shall advise of their concurrence with such determination, or submit objections with supporting evidence. The Supervisor will make a final determination and notify the operators.

B. *Development and Production Plans.* When drilling and/or producing operations are conducted in a competitive reservoir, the operators shall submit for approval a plan governing the applicable operations. The plan shall be submitted within ninety (90) days after a determination by the Supervisor that a reservoir is competitive or within such extended period of time as approved by the Supervisor. The plan shall provide for the development and/or production of the reservoir, and may provide for the submittal of supplemental plans for approval by the Supervisor.

(1) *Development Plan.* When a competitive reservoir is still being developed or future development is contemplated, a development plan may be required in addition to a production plan. This plan shall include the information required in 30 CFR 250.34. If agreement to a joint development plan cannot be reached by the operators, each shall submit a separate plan and any differences may be resolved in accordance with paragraph 17 of this Order.

(2) *Production Plan.* A joint production plan is required for each competitive reservoir. This plan shall include (a) the proposed MER for the reservoir; (b) the proposed MPR for each completion in the reservoir; (c) the percentage allocation of reservoir MER for each lease involved; and (d) plans for secondary recovery or pressure maintenance operations. If agreement to a joint production plan cannot be reached by the operators, each shall submit a separate plan, and any differences may be resolved in accordance with paragraph 17 of this Order.

C. *Unitization.* The Conservation Manager shall determine when conservation will be best served by unitization of a competitive reservoir, or any reservoir reasonably delineated and determined to be productive, in lieu of a development and/or production plan or when the operators and lessees involved have been unable to voluntarily effect unitization. In such cases, the Conservation Manager may require that development and/or production operations be conducted under an approved unitization plan. Within six (6) months after notification by the Conservation Manager that such a unit plan is required, or within such extended period of time as approved by the Conservation Manager, the lessees and operators shall submit a proposed unit plan for designation of the unit area and approval of the form of agreement pursuant to 30 CFR 250.51.

17. *Conferences, Decisions and Appeals.* Conferences with interested parties may be held to discuss matters relating to applications and statements of position filed by the parties relating to operations conducted pursuant to this Order. The Supervisor or Conservation Manager may call a conference with one or more, or all, interested parties on his own initiative or at the request of any interested party. All interested parties shall be served with copies of the Supervisor's or Conservation Manager's decisions. Any interested party may appeal decisions of the Supervisor or Conservation Manager pursuant to 30 CFR 250.81. Decisions of the Supervisor or Conservation Manager shall remain in effect and shall not be suspended by reason of any appeal, except as provided in that regulation.

APPENDIX A

Subparagraph 12.B *"Numbering Well Completions.* Well completions made after the date of this Order shall be designated using numerical and alphabetical nomenclature. Once designated as a reservoir or commingled reservoirs completion, the well completion number shall not change.° ° ° "

The intent of this Subparagraph is not necessarily to change the existing well completion names but to change the method of naming well completions after the effective date of this Order in order to insure that a completion in a given reservoir(s) and a specific well bore will be assigned a unique name and will retain the name permanently. For further clarification, the following guidelines and examples are offered:

1. Each well bore will have a distinct, permanent number.

2. Each reservoir or commingled reservoirs completion in a well bore will have a unique permanent designation which includes the well bore number in its nomenclature.

3. For the purpose of this Subparagraph, a "completion" is defined as all perforations in a given reservoir(s) in a specific well bore and is not necessarily associated with a tubing string or strings.

4. If more than one completion is made in a well bore, an alphabetical suffix must be used in the nomenclature to differentiate between completions.

5. An alphabetical prefix may be utilized to designate the platform from which the well will be produced.

Example No. 1. The first well drilled from the A Platform is a single completion.

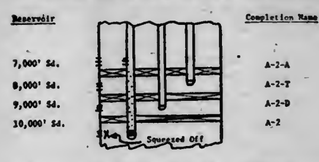
WELL No. A–1

(Should an operator wish to use an alphabetical suffix with a single completion, he may do so.)

Example No. 2: A well drilled by a mobile rig need not carry an alphabetical prefix.

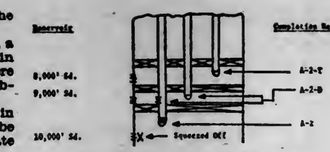
WELL No. 1

(If the well is later connected to and produced from a production platform, the well shall be redesignated to reflect an alphabetical prefix.)



Example No. 3: The second well drilled from the A Platform is a triple completion.

1st completion	2d completion	3d completion
A–2	A–2–D	A–2–T



(In the above example, the letters "D" and "T" were used in naming the second and third completions utilizing current industry practice, although the intent is not to restrict operators to the use of these particular alphabetical suffixes. Any alphabetical suffix may be used as long as it is unique to the completion in that reservoir or commingled reservoirs.

Example No. 4: The drawing is shown to illustrate the fact that once a completion in a specific well bore is designated in a given reservoir(s), it will retain that name permanently. Let us consider the A–2 completion shown in Example No. 3. Should a recompletion be made in a different reservoir(s) at a later date, it shall be renamed; however, the production from the reservoir(s) associated with the original A–2 completion will always be identified with the A–2 completion. Once the A–2 completion in the 10,000' sand is squeezed and plugged off and the recompletion made to the 7,000' sand, the completion in the 7,000' sand would be designated A–2–A (or some other alphabetical suffix other than the "D" or "T" presently associated with other completions in the 9,000' and 8,000' sands).

The Sundry notice (Form 9–331) submitted to obtain approval for the workover shall be the vehicle for naming the new completion.

Example No. 5: If the A–2 completion in Example No. 4 had been recompleted from the 10,000' sand to the 9,000' sand (where the A–2–D is currently completed), the completion would still be named A–2–D as both tubing strings would be considered one completion for purposes of this Order.

BONNEVILLE POWER ADMINISTRATION PARTICIPATION IN REGIONAL INTERUTILITY COOPERATION

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Bonneville Power Administration has prepared a Draft Environmental Statement covering BPA Participation in Regional Interutility Cooperation.

This statement covers the continued participation by BPA in regional programs of interutility cooperation, including the performance of functions such as providing bulk power transmission, providing peaking resources from hydro, providing load growth and forced outage reserves, coordinating power operations, and marketing power.

Copies of the draft statement are available for inspection in the library of the Headquarters Office of BPA, 1002 NE. Holladay Street, Portland, Oregon 97232; the Washington, D.C. Office in the Interior Building, Room 5600; and the following Area Offices: Idaho Falls Area Office, 531 Lomax Street, Idaho Falls, Idaho 83401; Portland Area Office, 919 NE. 19th, Room 201, Portland, Oregon 97232; Seattle Area Office, 415–1st Avenue North, Room 250, Seattle, Washington 98109; Spokane Area Office, Room 561, U.S. Court House, W. 920 Riverside Avenue, Spokane, Washington 99201; and the Walla Walla Area Office, West 101 Poplar, Walla Walla, Washington 99362.

A limited number of copies are also available and may be obtained by writing to the Environmental Office, Bonneville Power Administration, P.O. Box 3621, Portland, Oregon 97208 or to any of the Area Offices at the above addresses. Comments on the draft statement should be sent to the Environmental Office by May 19, 1975.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

APRIL 1, 1975.

PECOS NATIONAL MONUMENT, NEW MEXICO

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for a proposed master plan and development concept plan for Pecos National Monument, New Mexico, and invites written comment on or before May 22, 1975.

The draft environmental statement considers development patterns and management goals for administration of the monument. Development and use proposals include land classification, land acquisitions, construction of a visitor center with attendant parking area and access road, a visitor lunch-ground, tour trails, modification to and obliteration of existing structures and a support base area including living, storage and maintenance facilities.

Copies are available from or for inspection at the following locations:

Southwest Regional Office
National Park Service
Old Santa Fe Trail
Post Office Box 728
Santa Fe, New Mexico 87501

Pecos National Monument
Post Office Drawer 11
Pecos, New Mexico 37552

Chaco Center
Anthropology Building, Room 240
University of New Mexico
Post Office Box 26176
Albuquerque, New Mexico 87125

Dated: March 25, 1975.

STANLEY D. DOREMUS,
Deputy Assistant Secretary to the Interior.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Designation No. A181]

ARKANSAS

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in 14 counties in Arkansas as a result of various natural disasters. The following chart lists the counties, natural disasters, and the dates on which the disasters occurred.

Arkansas—14 counties

County	Drought	Excessive rainfall	Freeze	Cool weather	Hail	Tornado
Chicot	May 1 to June 15, 1974.	Oct. 15 to Dec. 1, 1974.				
Clay	June 1 to July 31, 1974.	Apr. 1 to May 31 and July 24 to 31, 1974.	Sept. 15 to 31, 1974.	Aug. 1 to 31, 1974.		
Craighead	July 1 to Sept. 1, 1974.	Apr. 1 to May 31, 1974.	Oct. 15, 1974	Aug. 5 to Sept. 15, 1974.		
Crittenden	June 1 to July 15, 1974.	Jan. 1 to Apr. 30, 1974.			May 15 and June 15, 1974.	
Cross		May 1 to June 18, 1974.				
Greene		Aug. 15 to Sept. 30, 1974.		Aug. 5 to Sept. 28, 1974.		
Lafayette	Apr. 20 to July 24, 1974.	Apr. 21 and 22, 1974 and Aug. 27, 1974 to Feb. 25, 1975.				
Lee	July 1 to Aug. 30 1974.	May 19 to July 15, 1974 and Nov. 15, 1974 to Jan. 24, 1975.				
Lincoln		Aug. 26 to Sept. 3 and Oct. 15 to Nov. 30, 1974.				
Mississippi		May 5 to June 12, 1974.		Aug. 5 to 26, 1974.		
Phillips	July 15 to Aug. 31, 1974.	May 14 to June 15, 1974, flooding—May 14 and 15, 1974.				
Poinsett		May 10 to June 12, 1974.		Aug. 5 to 26, 1974.		
St. Francis	July 1 to Aug. 2, 1974.	June 6 to 18 and Aug. 2 to Dec. 30, 1974.		Aug. 2 to Sept. 10, 1974.		Feb. 22, 1975
Woodruff	July 1 to Aug. 31, 1974.	Apr. 1 to June 15 and Sept. 1 to Dec. 31, 1974.				

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor David Pryor that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 22, 1975, for physical losses and December 24, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 28th day of March, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-8826 Filed 4-4-75;8:45 am]

[Designation No. A185]

GEORGIA

Designation of Emergency Area

The Secretary of Agriculture has found that a general need for agricultural credit exists in Union County, Georgia, as a result of a natural disaster consisting of drought from September 1 through October 30 and an early freeze October 3, 1974.

Therefore, the Secretary has designate dthis area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor George Busbee that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 27, 1975, for physical losses and December 26, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule make and invite public participation.

Done at Washington, D.C., this 1st day of April 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[Amendments to Designation Nos. A057, A071, A078, A098, A114, and A127]

MISSISSIPPI

Designation of Emergency Areas

The Secretary of Agriculture has found that an additional general need for agricultural credit exists in seven counties in Mississippi as a result of various natural disasters. The following chart shows the counties, the natural disasters, and dates on which the natural disasters occurred.

Mississippi—7 counties, 1974 (amendments)

County	Excessive rainfall	Cloudy, cool weather with intermittent frost	Drought
Bolivar	Sept. 5 to Nov. 15	Sept. 5 to Nov. 15	
Coahoma	Nov. 1 to Dec. 31	Sept. 1 to 30	July 1 to Aug. 31.
Lee	do	Oct. 4 to 30	
Sunflower	Oct. 1 to Dec. 31		
Tallahatchie	Oct. 1 to Dec. 31 (with flooding).		
Tunica	Oct. 1 to Dec. 31		
Yasoo			July 9 to Aug. 31.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Bill Waller that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 27, 1975, for physical losses and December 26, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, D.C., this 1st day of April 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-8996 Filed 4-4-75;8:45 am]

[Designation No. A163]

MISSOURI

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Missouri as a result of natural disasters consisting of:

Dent—Excessive rainfall March 1 through June 10, 1974. Freeze March 23 and 24, 1974. Drought June 11 through August 15, 1974.

Pike—Severe storms and flooding May 17 through June 9, 1974. Drought June 25 through July 20, 1974. Killing frost October 1 through 4, 1974. Excessive rainfall November 1 through 15, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Christopher S. Bond that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 27, 1975, for physical losses and December 26, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 1st day of April 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[Designation No. A066, Amdt. 1]

NEBRASKA

Designation of Emergency Areas

The Secretary of Agriculture has found that an additional general need for agricultural credit exists in Greeley County, Nebraska, as a result of a natural disaster consisting of frosts September 3 and 13, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor J. James Exon that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 27, 1975, for physical losses and December 26, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 1st day of April 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-8992 Filed 4-4-75;8:45 am]

[Designation No. A128, Amdt. 1, and A073, Amdt. 1]

TEXAS

Designation of Emergency Areas

The Secretary of Agriculture has found that an additional general need for agricultural credit exists in the following counties in Texas as a result of a natural disaster consisting of:

Limestone—Excessive rainfall with flooding and intermittent windstorms and lightning from October 1 through December 31, 1974.

Oldham—Cold weather August 28 through October 31, 1974. Excessive rainfall September 1 through October 31, 1974. Early freeze October 8 and 9, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Dolph Briscoe that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 27, 1975, for physical losses and October 14, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 1st day of April 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.75-8993 Filed 4-4-75;8:45 am]

[Designation Number A162]

WISCONSIN

Designation of Emergency Area

The Secretary of Agriculture has found that a general need for agricultural credit exists in Waupaca County, Wisconsin, as a result of a natural disaster consisting of excessive rainfall May 1 to May 31, drought July 1 to September 1, and an early frost September 21 and 22, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Patrick J. Lucey that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 27, 1975, for physical losses and December 26, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Forest Service

VEGETATION MANAGEMENT USING SELECTIVE HERBICIDES ON THE COLVILLE, OKANOGAN, AND WENATCHEE NATIONAL FORESTS, WASHINGTON

Availability of Draft Addendum

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft addendum to the final environmental statement for vegetation management using selective herbicides on the Colville, Okanogan, and Wenatchee National Forests, Washington, for the period July 1, 1975 through June 30, 1976. USDA-FS-R6-DES(Adm) 75-14.

The draft addendum concerns a proposed use of herbicides 2,4-D, 2,4,5-T, Dalapon, and Monosodium acid methanearsenate (MSMA) to reduce the competition from native vegetation where it hampers forest management activities in eastern Washington. The proposed uses of the herbicides are for reforestation site preparation, plantation release, noxious weed control, and thinning and weeding of conifer plantations.

This draft addendum was transmitted to CEQ on March 31, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3231
12th & Independence Ave., SW.
Washington, D.C. 20250

USDA, Forest Service
Pacific Northwest Region
319 S.W. Pine Street
Portland, Oregon 97208

Colville National Forest
Federal Building
Colville, Washington 99114

Okanogan National Forest
Federal Building
P.O. Box 950
Okanogan, Washington 98840

Wenatchee National Forest
Federal Building
P.O. Box 811
Wenatchee, Washington 98801

A limited number of single copies are available upon request to Regional Forester T. A. Schlapfer, Pacific Northwest Region, P.O. Box 3623, Portland, Oregon 97208.

Copies of the draft addendum have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

Written comments are invited from the public, and from state and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Written comments concerning the proposed action and requests for additional information should be addressed to Mr. T. A. Schlapfer, Pacific Northwest Region, P.O. Box 3623, Portland, Oregon 97208. Comments must be received by May 31, 1975 in order to be considered in the preparation of the final addendum.

CURTIS L. SWANSON,
Regional Environmental Coordinator.

Office of Equal Opportunity

CITIZENS ADVISORY COMMITTEE ON CIVIL RIGHTS

Public Meeting

Pursuant to the provisions of the Federal Advisory Committee Act of October 6, 1972. (Pub. L. 92-463, 86 Stat. 770-776), notice is hereby given that a public meeting of the USDA Citizens Advisory Committee on Civil Rights will be held on June 3, 4, 5, 1975, at Atlanta, Georgia. The meeting will convene at 9 a.m. on each day and adjourn at 12 noon on June 5, 1975. The meeting is open to the public.

The purpose of the meeting is to discuss certain Equal Employment Opportunity matters with USDA officials and begin preparation of a final report to the Secretary of Agriculture.

Further information concerning this meeting may be obtained by contacting the Acting Director, Office of Equal Opportunity, Washington, D.C. 20250. Interested persons may file written statements with the Committee before or after the meeting.

Done at Washington, D.C. this 25th day of March 1975.

Rural Electrification Administration

EAST ASCENSION TELEPHONE COMPANY, INC.

Proposed Loan Guarantee

Under the authority of Pub. L. 93-32 (87 Stat. 65) and in conformance with applicable agency policies and procedures set forth in REA Bulletin 320-22, "Guarantee of Loans for Telephone Facilities," dated February 4, 1975, published in proposed form in the FEDERAL REGISTER, September 16, 1974, (Vol. 39 No. 180, pages 33228-33229) notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of $7,700,000 to East Ascension Telephone Company, Inc., Gonzales, Louisiana. The loan funds will be used to finance the construction of facilities to extend telephone service to new subscribers, and improve telephone service for existing subscribers.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information and details of the proposed project from Mr. Fred N. Banker, Jr., President, East Ascension Telephone Company, Inc., 913 South Burnside Avenue, Gonzales, Louisiana 70737.

To assure consideration, proposals must be submitted (within 30 days of the date of this notice) to Mr. Fred N. Banker, Jr. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as the East Ascension Telephone Company, Inc., and REA deem appropriate. Prospective lenders are advised that financing for this project is available from the Federal Financing Bank under a standing loan commitment agreement with the Rural Electrification Administration.

Copies of REA Bulletin 320-22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 1st day of April 1975.

DAVID A. HAMIL,
Administrator, Rural Electrification Administration.

Office of Education

ADVISORY COUNCIL ON VOCATIONAL EDUCATION

Meeting

Notice is hereby given, pursuant to Public Law 92-463, that the Advisory Council on Vocational Education will hold a meeting on April 21-22, 1975, in Room 3000, Donohoe Building, 400 Maryland Avenue, SW., Washington, D.C. 20202.

The purpose of the Council is to advise the President, the Congress, and the Secretary of Health, Education, and Welfare on the administration of vocational education and on the preparation of general regulations and policy matters relating to vocational education.

The meeting will begin at 9:00 a.m. on April 21 and will adjourn at 5:00 p.m. on April 22. The meeting will be open to the public.

The agenda will include discussion of the Council's annual report to the President and the Congress, and the Council's evaluation of the Vocational Education Amendments of 1968.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Council Office, Suite 1100, 425 13th Street, NW., Washington, D.C. 20004.

Dated: April 2, 1975.

ROBERT E. TAYLOR,
Executive Director,
Advisory Council on Vocational Education.

SEC. 2. In accordance with approved procedures, the following vessels listed in this section which called at Cuba after January 1, 1963, have reaquired eligibility to carry United States Government-financed cargoes from the United States by virtue of the persons who control the vessels having given satisfactory certification and assurance;

(a) That such vessels will not, thenceforth, be employed in the Cuban trade so long as it remains the policy of the United States Government to discourage such trade; and

(b) That no other vessels under their control will thenceforth be employed in the Cuban trade, except as provided in paragraph (c) and

(c) That vessels under their control which are covered by contractual obligations, including charters, entered into prior to December 16, 1963, requiring their employment in the Cuban trade shall be withdrawn from such trade at the earliest opportunity consistent with such contractual obligations.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[FDA-225-75-4029]

ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the California Department of Health

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the California Department of Health on February 26, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE CALIFORNIA DEPARTMENT OF HEALTH AND THE FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance and protection of FDA rented ARTX Telecommunication Equipment located in Room 400, Food and Drug Section, 714 P Street, Sacramento, California.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of Agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out of service.

10. That the system will be used only for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* California Department of Health, 714-744 P Street, Sacramento, California 95814.

V. *Liaison Officers.* For California Dept. of Health: C. P. Bryson, Chief, Food & Drug Section. Address: 714-744 P Street, Sacramento, California 95814. Telephone No.: (916) 445-2264.

For FDA: D. R. Kleber, Jr., Assistant Regional Director for Compliance. Address: Federal Office Bldg., 50 Fulton St., San Francisco, CA 94102. Telephone No.: (415) 556-4353.

VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the California Department of Health:

LOYD H. FORREST,
Chief, Financial Management Services.

Date: February 18, 1975.

Approved and accepted for the Food and Drug Administration:

IRWIN B. BEACH,
Regional Food and Drug Director, FDA, Region IX.

Date: February 26, 1975.

Effective date. This Memorandum of Understanding became effective February 26, 1975.

Dated: March 31, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Indiana State Board of Health

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697) stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Indiana State Board of Health on January 28, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE INDIANA STATE BOARD OF HEALTH AND THE FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance and protection of FDA-rented ARTX Telecommunication Equipment located in the Bureau of Food and Drugs, Division of Retail and Manufactured Foods, 1330 West Michigan St., Indianapolis, Indiana.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of Agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverages for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used only for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* Indiana State Board of Health, Division of Retail and Manufactured Foods, Bureau of Food and Drugs, 1330 West Michigan Street, Indianapolis, Indiana 46206.

V. *Liaison Officers.* For Indiana State Board of Health: Mr. Dale Hardy, Director, Division of Retail and Manufactured Foods. Address: 1330 West Michigan Street, Indianapolis, Indiana 46206. Telephone No.: (317) 633-6510. For FDA: William L. Schwemer, Consumer Safety Officer.

Address: DHEW/PHS/Food and Drug Administration, 1560 E. Jefferson Ave., Detroit, MI 48207. Telephone No.: (313) 226-6260. VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Indiana State Board of Health:

DALE HARDY,
Director,
Division of Retail and Manufactured Foods.

Date: January 28, 1975.

Approved and accepted for the Food and Drug Administration:

ANTHONY C. CELESTE,
Acting Regional Food and Drug Director, Region V.

Date: January 21, 1975.

Effective date. This Memorandum of Understanding became effective January 28, 1975.

Dated: March 31, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Louisiana Health and Human Resources Administration, Division of Health

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Louisiana Health and Human Resources Administration, Division of Health on February 4, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE LOUISIANA HEALTH & HUMAN RESOURCES ADMINISTRATION, DIVISION OF HEALTH AND THE FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance and protection of FDA-rented ARTX Telecommunication Equipment located in the State Office Building, 325 Loyola Avenue, P.O. Box 60630, New Orleans, Louisiana 70160.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Subsequent Agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used only for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* Louisiana Health and Human Resources Administration, Division of Health, State Office Building, 325 Loyola Avenue, P.O. Box 60630, New Orleans, Louisiana 70160.

V. *Liaison Officers.* For Louisiana Health and Human Resources Administration Division of Health: Leo W. Spath, Admin., Food & Drug Control Unit, (504) 527-8311, Raleigh J. Richard, Admin., Milk & Dairy Prod. Unit, (504) 527-5211, and Charles E. Bishop, (Acting) Admin., Occupational Health Unit, (504) 527-5113.

Address: 325 Loyola Avenue, P.O. Box 60630, New Orleans, Louisiana 70160.

For FDA: J. L. Perrin, Prog. Mgr. for Intergovt. Relations.

Address: 3032 Bryan St., Dallas, TX, Telephone No.: (214) 749-3951.

VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Louisiana Health and Human Resources Administration, Division of Health:

J. M. BRUCE, M.D.,
Director.

Date: February 4, 1975.

Approved and accepted for the Food and Drug Administration:

JAMES E. ANDERSON,
Acting Regional Food and Drug Director.

Date: January 31, 1975.

Effective date. This Memorandum of Understanding became effective February 4, 1975.

Dated: March 26, 1975.

ARTX TELECOMMUNICATION EQUIPMENT

Memorandum of Understanding With the Minnesota Department of Agriculture

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

V 4067 APR 75 XUM

The Food and Drug Administration executed a Memorandum of Understanding with the Minnesota Department of Agriculture on January 29, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE MINNESOTA DEPARTMENT OF AGRICULTURE AND THE FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance and protection of FDA-rented ARTX telecommunication Equipment located in Room 420, State Office Bldg.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of Agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used *only* for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* Minnesota Department of Agriculture, State Office Building, Saint Paul, Minnesota 55155.

V. *Liaison Officers.* For Minnesota Department of Agriculture: Rollin M. Denniston, Ph.D., Dept. Administrator.

Address: State Office Building, Saint Paul, Minnesota 55155, Telephone No.: (612) 296-2896.

For FDA: Martin V. Bergerson, Consumer Safety Officer, DHEW/PHS/Food and Drug Administration.

Address: 240 Hennepin Ave., Minn., MN 55401, Telephone No.: (612) 725-2121.

VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Minnesota Department of Agriculture:

JOHN WEPALD,
Commissioner,
Minnesota Department of Agriculture.

Date: January 29, 1975.

Approved and accepted for the Food and Drug Administration:

ANTHONY C. CELESTE,
Acting Regional Food and Drug Director, Region V.

Date: January 21, 1975.

Effective date. This Memorandum of Understanding became effective January 29, 1975.

Dated: March 26, 1975.

Memorandum of Understanding With the New Hampshire Department of Health and Welfare

Pursuant to a notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the New Hampshire Department of Health and Welfare, Division of Health, on February 19, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE NEW HAMPSHIRE DEPARTMENT OF HEALTH & WELFARE DIVISION OF HEALTH AND THE FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance and protection of FDA-rented ARTX Telecommunication Equipment located in the Division of Health, State Laboratory Building, Hazen Drive, Concord, New Hampshire.

II. *Background.* The FDA, Assistant Secretary of Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of agreement:* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverages for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment of other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used only for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* New Hampshire Department of Health & Welfare, Division of Public Health, 61 South Spring Street, Concord, New Hampshire 03301.

V. *Liaison officers.* For New Hampshire Department of Health and Welfare: Gilman K. Crowell, Chief, Consumer Protection—Public Health. Address: New Hampshire Department of Health & Welfare, Division of Public Health, 61 South Spring Street, Concord, New Hampshire 03301. Telephone No. (603) 271-2747.

For FDA: Richard J. Davis, Deputy Regional Food & Drug Director/HFR-1100. Address: 585 Commercial St., Boston, MA 02109. Telephone No.: (617) 223-5066.

VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the New Hampshire Dept. of Health and Welfare:

protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE NEW MEXICO ENVIRONMENTAL IMPROVEMENT AGENCY AND THE FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance and protection of FDA-rented ARTX Telecommunication Equipment located in Food Quality Division, Plaza de Desira, 621 Old Santa Fe Trail, Santa Fe, New Mexico.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of Agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To support financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used *only* for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* New Mexico Environmental Improvement Agency, P.O. Box 2348—Room 506, Santa Fe, New Mexico 87503.

V. *Liaison Officers.* For New Mexico Environmental Improvement Agency: Mr. Gerald L. Martino, Chief, Food Quality Div.

Address: P.O. Box 2348, Room 506, Santa Fe, New Mexico 87503, Telephone No.: (505) 827-5271.

For FDA: J. L. Perrin, Prog. Mgr. for Intergovt. Relations.

Address: 3032 Bryan St., Dallas, TX 75204, Telephone No.: (214) 749-3951.

VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the New Mexico Environmental Improvement Agency:

Stephen M. Borland,

Memorandum of Understanding With the Wyoming Department of Agriculture

Pursuant to a notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697), stating that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drug issues the following notice:

The Food and Drug Administration executed a Memorandum of Understanding with the Wyoming Department of Agriculture on January 27, 1975. The purpose of the memorandum is to establish the procedures and guidelines for the operation, maintenance, and protection of FDA-rented ARTX Telecommunication Equipment. It reads as follows:

MEMORANDUM OF UNDERSTANDING BETWEEN THE WYOMING DEPARTMENT OF AGRICULTURE AND THE FOOD AND DRUG ADMINISTRATION

I. *Purpose.* To establish the procedures and guidelines for the operation, maintenance and protection of FDA-rented ARTX Telecommunication Equipment located in the assigned office area of the Wyoming Department of Agriculture.

II. *Background.* The FDA, Assistant Secretary for Health, Department of HEW, and the General Services Administration have approved a program to install full telecommunication transmit and receive terminals in a number of prime state food and drug agencies. Although terminals will be placed in a number of prime food and drug regulatory agencies, there are a number of other agencies with food and drug responsibilities in each state, where no terminal will be installed. Therefore, your agency, being one that received a terminal, must agree to share the terminal with other food and drug agencies in your state to assure that the communication system is accessible to all agencies with food and drug related responsibilities.

In addition to terminal-sharing, it is necessary for our two agencies to assure that proper operation and necessary supporting requirements for the equipment is maintained and proper security is provided for the equipment.

III. *Substance of Agreement.* A. The Food and Drug Administration agrees:

1. To arrange for the installation of the equipment in the location designated by your agency.

2. To suport financially the cost of initial installation of the equipment and pay directly to GSA and Western Union the monthly rental cost. After the initial installation, the state will be responsible for relocation installation cost, unless relocation is in conjunction with a major move of the terminal agency to a new location address.

3. To identify for you those units in your state on which terminal-sharing must be accomplished.

4. To require that the terminal location agency (your agency) submit to FDA a terminal-sharing plan to be developed by you and other sharing units in your state.

5. To arrange through Western Union for training of terminal operators.

6. To provide operation instruction manual.

7. To withdraw financial support for the terminal if gross misuse of the terminal is practiced after due notice.

B. The State Terminal Agency agrees:

1. To provide suitable physical location for equipment with adequate security protection.

2. To provide and pay for electric power source to operate the terminal. (110 volts)

3. To provide for paper, tape and other material necessary for the operation of the equipment.

4. To share the terminal with other food and drug agencies in the state according to a terminal-sharing plan agreed to by each potential user.

5. To submit to the FDA Regional Office monthly traffic log. (Form to be furnished by FDA)

6. To submit promptly all messages received for addressees other than your agencies. Transmit promptly messages to FDA received from other appropriate agencies.

7. Maintain operator coverage for the terminal between normal working hours of your agency.

8. Notify vendor (Western Union) of any breakdown of the equipment or other needs for maintenance.

9. Notify FDA (Regional or Headquarters) of periods that the equipment is out-of-service.

10. That the system will be used only for communication between your state and FDA (Regional, District, or Headquarters Office). It is understood that the equipment is not to be used for communication between state agencies.

IV. *Name and Address of Terminal Agency.* Wyoming Department of Agriculture, 2219 Carey Avenue, Cheyenne, Wyoming 82002.

V. *Liaison Officers.* For Wyoming Dept. of Agriculture: Ralph Shauger, Admin. Officer. Address: 2219 Carey Avenue, Cheyenne, Wyoming 82002. Telephone No.: (307) 777-7321.

For FDA: John R. Vodneck, Program Analyst, Food and Drug Administration, Address: 500 U.S. Customhouse, Denver, Colorado 80202. Telephone No.: (303) 837-4917.

VI. *Period of Agreement.* This agreement, when accepted by both parties, will have an effective period of performance three (3) years from date of signature and may be modified by mutual consent by both parties or may be terminated by either party upon a thirty (30) day advance written notice to the other.

Approved and accepted for the Wyoming Department of Agriculture:

JACK HERTZLER,
Commissioner.

Date: January 27, 1975.

Approved and accepted for the Food and Drug Administration:

E. PITT SMITH,
Deputy Regional Food and Drug Director.

Date: January 23, 1975.

Effective date. This Memorandum of Understanding became effective January 27, 1975.

Dated: March 31, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

PRINCIPAL INVESTIGATORS OR PROJECT COORDINATORS

Meeting

Notice is hereby given of the meeting of the Principal Investigators or Project Coordinators involved in the State/Territorial Health Department Cervical Cancer Screening Projects, sponsored by the Detection, Diagnosis & Pretreatment Evaluation Branch, Division of Cancer Control and Rehabilitation, National Cancer Institute. The meeting will be held on May 16, 1975, NIH, Bldg. 31, B Wing, Room 5.

This meeting will be open to the public from 9 a.m. to 5 p.m. on Friday, May 16, 1975 to discuss program progress. Attendance by the public will be limited to space available.

For additional information, please contact: James L. McQueen, D.V.M., Dr. P.H., Blair Building, Room 626A, Division of Cancer Control and Rehabilitation, National Cancer Institute, National Institutes of Health, Bethesda, Maryland 20014, (301) 427-7990.

Dated: March 24, 1975.

R. W. LAMONT-HAVERS,
Acting Director, National Institutes of Health.

Office of the Secretary

OFFICE OF THE ASSISTANT SECRETARY FOR HUMAN DEVELOPMENT; ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

Statement of Mission and Organization

Part 1 of the Statement of Organization, Functions, and Delegation of Authority of the Department of Health, Education, and Welfare, Office of the Secretary is amended to add a new Subchapter to Chapter 1R, Office of the Assistant Secretary for Human Development. This new Subchapter 1R01002, describes the mission and organization of the Architectural and Transportation Barriers Compliance Board. While the Board is not technically a component of the Department of Health, Education, and Welfare, this statement is published in the FEDERAL REGISTER to explain the nature of the participation of the Assistant Secretary for Human Development as Chairman of the Board. The new Subchapter 1R01002 reads as follows:

1R01002.00 *Mission.* The Architectural and Transportation Barriers Compliance Board is established under section 502 of the Rehabilitation Act of 1973, as amended by Pub. L. 93-516. It is responsible for ensuring compliance with standards governing accessibility by the physically handicapped to buildings and facilities receiving Federal funds in accordance with the Architectural Barriers Act of 1968. The Board also investigates and examines methods of eliminating the architectural, transportation, and attitudinal barriers confronting the handicapped; determines what measures are being taken by Federal, State, and local governments and by other public or non-profit agencies to eliminate such barriers; and reports to the President and Congress on ways of eliminating these barriers, present efforts toward elimination, and further legislative and administrative steps needed to ensure elimination.

1R01002.10 *Organization.* The Architectural and Transportation Barriers Compliance Board is composed of the heads of each of the following departments or agencies (or their designees whose positions are executive level IV or higher): Department of Health, Education, and Welfare; Department of Transportation; Department of Housing and Urban Development; Department of Labor; Department of the Interior; Department of Defense; General Services Administration; United States Postal Service; and Veterans' Administration. The Rehabilitation Act Amendments of 1974 (P.L. 93-516) designate the Secretary, Department of Health, Education, and Welfare, as the permanent Chairman of the Board.

There is also established an administrative organization in support of the Board which shall provide the following functions: research and planning; dissemination of information; and compliance functions. In addition, there shall be a Consumer Advisory Panel appointed by the Board to provide it with guidance, advice and recommendations in carrying out its functions.

The Assistant Secretary for Human Development serves as the Chairman of the Architectural and Transportation Barriers Compliance Board and coordinates the activities of the Board.

Dated: March 31, 1975.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

Federal Disaster Assistance Administration

[FDAA-460-DR; Docket No. NFD 255]

GEORGIA

Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11795 of July 11, 1974, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on March 29, 1975, the President declared a major disaster as follows:

I have determined that the damage in certain areas of the State of Georgia resulting from tornadoes, high winds, and heavy rains which occurred on March 24, 1975, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 93-288. I therefore declare that such a major disaster exists in the State of Georgia.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11795, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285, I hereby appoint Mr. Thomas P. Credle, HUD Region IV, to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following area of the State of Georgia to have been adversely affected by this declared major disaster:

The County of:
Fulton

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

Dated: March 29, 1975.

Office of Interstate Land Sales Registration

[Docket No. N-75-273]

EAST BAY POINT

Hearing

In the matter of East Bay Point, OILSR No. 0-2644-09-786, Docket No. Y-1060, pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d).

Notice is hereby given that: 1. East Bay Point, Inc., Adam J. Whitley, III, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701 et seq.), received a notice of proceedings and opportunity for hearing issued February 26, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for East Bay Point, located in Bay County, Florida, contain untrue statements of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received March 10, 1975, in response to the notice of proceedings and opportunity for hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the notice of proceedings and opportunity for hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), *It is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street SW., Washington, D.C., on April 14, 1975 at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before April 7, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order suspending the statement of record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This notice shall be served upon the respondent forthwith pursuant to 24 CFR 1720.440.

Dated: March 28, 1975.

By the Secretary.

JAMES W. MAST,
Administrative Law Judge.

[Docket No. N-75-274]

PARK SHORE UNIT #4

Hearing

In the matter of Park Shore Unit No. 4, OILSR No. 0-2860-09-839, Docket No. Y-990, pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d).

Notice is hereby given that: 1. Park Shore on the Gulf, Raymona L. Lutgert, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. L. 90-448) (15 U.S.C. 1701 et seq.), received a notice of proceedings and opportunity for hearing issued February 26, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b)(1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Park Shore Unit No. 4, located in Collier County, Florida, contain untrue statements of material fact or omit to state material facts required to be stated therein as necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received March 11, 1975, in response to the notice of proceedings and opportunity for hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the notice of proceedings and opportunity for hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), *It is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street SW., Washington, D.C., on April 16, 1975 at 10 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before April 9, 1975.

6. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order suspending the statement of record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: March 28, 1975.

By the Secretary.

JAMES W. MAST,
Administrative Law Judge.

[FR Doc.75-8928 Filed 4-4-75;8:45 am]

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. EX 75-1; Notice 2]

AUTOMOBILI LAMBORGHINI

Petition for Temporary Exemption From Federal Motor Vehicle Safety Standards

The National Highway Traffic Safety Administration has decided to grant Automobili Ferruccio Lamborghini S.p.A., an exemption until May 1, 1975, from compliance with two Federal motor vehicle safety standards, on grounds of substantial economic hardship.

Notice of the petition was published on February 5, 1975 (40 FR 5387) and an opportunity offered for comment. The exemptions requested are for the Espada model only.

Lamborghini manufactured 412 vehicles in the 12-month period before it filed its petition. It requested an exemption until May 1, 1975 from Standard No. 212 and the minimum headlamp mounting height requirement of Standard No. 108. Standard No. 108 requires that headlamps be mounted not less than 24 inches above the ground. Recent front suspension modifications intended to improve roadholding have lowered the vehicle 55 millimeters and created a compliance problem. Lamborghini intends to bring its vehicles into compliance by installation of a device that raises the heights of the headlamps when they are switched on. An immediate changeover, however, would create a loss of $225,977 in parts inventory and downtime. Standard No. 212 requires that a windshield retain not less than 75 percent of its periphery in a 30 mph frontal barrier crash. The Espada windshield retains only 50 percent to 55 percent of its periphery. Denial of the exemption petition for Standard No. 212 would create a loss similar to that resulting from a denial of Standard No. 108. Company financial data for the last three years indicate a net profit after taxes of $125,500 (1971), $128,900 (1972) and $226,000 (1973). It believes an exemption would be in the public interest because of the effect that a denial would have upon individuals selling and servicing Lamborghinis in the United States.

One comment was received on the petition, supporting it. The NHTSA notes that the period for which the exemptions are sought is short, and that they are sought for only one of several of the company's vehicle lines. It appears that a loss in parts inventory and downtime would cause Lamborghini substantial economic hardship. Because of the small number of vehicles involved, the Administrator does not believe they will present a hazard to the motoring public.

For the reasons discussed above, the NHTSA finds that the exemptions requested are in the public interest and consistent with the objectives of the National Traffic and Motor Vehicle Safety Act of 1966. Automobili Ferruccio Lamborghini S.p.A is hereby granted for its Espada model NHTSA Temporary Exemption No. 75-1 expiring May 1, 1975 for Motor Vehicle Safety Standards No. 108, 49 CFR 571.108 (minimum headlamp mounting height requirements only), and No. 212, 49 CFR 571.212.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegation of authority at 49 CFR 1.51)

Issued on April 2, 1975.

JAMES B. GREGORY,
Administrator.

[FR Doc.75-9107 Filed 4-3-75;3:22 pm]

TACHOGRAPHS ON SCHOOL BUSES

Response to Petition

This notice denies a petition from the Sangamo Electric Company to initiate a rule making proceeding to establish a new Federal motor vehicle safety standard to require that tachographs be installed in all new school buses.

In its petition of December 6, 1974, Sangamo stated that such a standard would be consistent with the Motor Vehicle and Schoolbus Safety Amendments of 1974, Pub. L. 93-492, and would come within section 103(i)(1)(A)(vi) of the National Traffic and Motor Vehicle Safety Act, (15 U.S.C. 1392(i)(1)(A)(vi)). The tachograph, or recording speedometer, records the school bus' speed, distance travelled, and engine and vehicle starts and stops against a time scale showing hours and minutes. By comparing a given chart against a model or against previous charts it can be determined whether a bus driver has followed the proper route, made all appropriate stops, stopped at stop signs and grade crossings and stayed within speed limits. Sangamo emphasizes the psychological advantages of the instrument, claiming that the knowledge that his actions are being recorded makes a driver more careful.

Sangamo submitted with its petition accident data tending to show that tachographs in school buses have a favorable impact on school bus accident rates. This evidence consists largely of a comparison of New York school bus accident data and that of other States. New York law requires tachographs on most buses and about three quarters of N.Y. school buses are so equipped, whereas no other State requires them. New York State's school bus accident record does appear better than that of most other States. However, the procedures for school bus accident data collection and processing vary widely. More important, operating conditions also vary and there are a great number of factors which might account for whatever differences exist. The NHTSA intends to study the N.Y. experience in order to enumerate and weight these factors and to determine whether broader research by the agency would be worthwhile.

Tachographs are commonly used by trucking companies for primarily economic reasons. The charts provide a method of insuring that drivers take proper routes, do not make unauthorized side trips, and do not abuse their vehicles. Tachographs can also be used as evidence in defense of a trucking company or driver sued over an accident, cited for speeding, or accused of violating ICC regulations. While there is some data suggesting that trucking companies that use tachographs have better records than those that do not, the data is not controlled to eliminate factors such as type of operation, average length of haul, and type of trucks. It appears likely to the NHTSA that tachographs are used by those companies which are better run, economically stronger, and more safety-conscious, and that the data reveals correlation, not causation.

Based on information available to date, the NHTSA regards the safety benefits of tachographs as still speculative. Although the New York data are encouraging, a broader cross-section of experience is needed to justify the imposition of such a costly requirement on every school bus manufactured or sold in this country. Many in-vehicle school bus fatalities occur in catastrophic collisions, often with other large vehicles or trains, in situations where it is questionable whether the type of drive behavior recorded by a tachograph is a causative factor.

Economic considerations also justify declining to initiate rulemaking now on this petition. The Motor Vehicle and Schoolbus Safety Amendments of 1974 direct the NHTSA to issue Federal motor vehicle safety standards in eight areas of school bus performance. These mandated standards will substantially increase the cost of new buses to school districts and school bus operators. Especially difficult burdens would therefore be imposed if additional expenses of $200 per vehicle plus $15 to 30 per year in maintenance and chart costs were required.

V 40 67 APR 75 XUM

Of course, if tachographs provide economic benefits to school bus operators comparable to those provided to truckers, the net cost would be lower. The NHTSA expects that some school districts and school bus operators will adopt the use of tachographs, and then may develop data that proves tachographs have a positive influence on school bus safety. In that event the NHTSA will certainly consider requiring tachographs on school buses.

The Bureau of Motor Carrier Safety of the Federal Highway Administration is considering requiring tachographs on intercity buses and on trucks carrying hazardous cargoes. If adopted, such a rule would probably produce additional data which might justify future rule making by the NHTSA. The agency will examine the BMCS docket periodically for such material.

For these reasons the petition of the Sangamo Electric Company is denied.

CIVIL AERONAUTICS BOARD

[Docket 21114, et al.; Order 75-4-4]

PAN AMERICAN WORLD AIRWAYS, INC. AND TRANS WORLD AIRLINES, INC.

Reconsideration and Labor Issues

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 1st day of April, 1975.

By Order 75–1–133, January 30, 1975, the Board granted various suspension and exemption requests and approved an agreement between Pan American World Airways and Trans World Airlines under which the carriers would eliminate duplicative services and make other adjustments to their Pacific and Transatlantic route systems in order to alleviate the severe and continuing financial problems in their international operations. The Board also held that on the basis of the record then before it that there was insufficient evidence to support (1) disapproval of the agreement and related applications on the basis of adverse labor impact, or (2) the imposition of labor protective provisions. Consequently, the Board provided an opportunity for interested parties to file further pleadings with respect to the question of the impact on the employees of Pan American and TWA resulting from the implementation of the agreement, and of the financial impact on Pan American and TWA which may result from the imposition of labor protective provisions. We will address the petitions for reconsideration and the responses relating to labor impact separately below.[2]

I. PETITIONS FOR RECONSIDERATION

Petitions requesting reconsideration in whole or in part of Order 75–1–133 were filed by Northwest Airlines,[3] National Airlines, the City and Chamber of Commerce of Philadelphia, and The Flying Tiger Line. In addition, the Master Executive Counsel of Pan American (PAA–MEC) pilots filed a pleading styled "Motion to correct order 75–1–133" which requests that the Board eliminate the PAA–MEC from the list of objectors to the agreement and make it clear that PAA–MEC urges expeditious approval of the Pan American-TWA proposal.[4] Finally, the International Brotherhood of Teamsters, Chauffeurs, Warehousemen, and Helpers of America (IBT) filed a statement pursuant to Order 75–1–133 which contains arguments in the nature of requests for reconsideration and will be dealt with in this section.[5]

Answers in opposition to the petitions were filed by Pan American and TWA.

Upon consideration of the requests for reconsideration, the answers thereto, and all the relevant facts we have decided to deny the petitions. For the reasons stated below, we believe that the petitions fail to establish error in the Board's decision in Order 75–1–133 and fail to present any matters that otherwise would require us to modify the findings and conclusions made in that order.

National. National reasserts the claims made in its initial pleadings that approval of the agreement will place Pan American in a worse position on the Atlantic than it is today, which result is not in the public interest; and that the Board's action in Order 75–1–133 "raises the specter" for prejudice to applicants in the Transatlantic Route Proceeding, Docket 25908. Both of these matters were addressed by the Board in Order 75–1–133 and no new matters or arguments are presented by National to warrant a different conclusion from that earlier taken by the Board. Specifically, while we recognize that Pan American will not be benefited to the same extent as TWA over the Atlantic, when the agreement is viewed as a whole Pan American will receive substantial and needed financial improvements which are approximately equal to those which will inure to TWA.[6] In addition, we have provided for termination of our approval upon final decision in the Transatlantic Route Proceeding to minimize conflict with that case. In any event, as we noted in Order 75–1–133, no applicants in that proceeding have prosecuted applications involving the four European points which were the subject of our exemption award (Vienna, Barcelona, Nice and Casablanca); the Board will not rely upon interim exemption operations in considering grant of certificate authority; and the Board's ability to place the exemption points on the routes of other carriers is in no way compromised by our action in Order 75–1–133.

Finally, we reject National's claim that the factual bases for our decision have been altered in light of recent developments relating to the joint applicants and the Government of Iran for the same reasons stated in Order 75–2–108 rejecting a similar contention made by Northwest. Any claim that the factual bases for our decision has been altered by the negotiations between Pan American and Iran is entirely premature. No agreement has as yet been reached, let alone filed with the Board for approval. With respect to the TWA-Iran aircraft sale, while the transaction may temporarily improve the carrier's cash-flow position it by no means ameliorates the financial problems facing the carrier.[7]

Philadelphia. Philadelphia raises essentially the same arguments made in its original pleadings with regard to the impact of the agreement on Philadelphia service to Frankfurt and London. These claims have already been addressed by the Board at pp. 10–11 of Order 75–1–133. Philadelphia also requests a shorter term of approval with regard to that part of the agreement involving Philadelphia-London. While providing for a maximum term of two years, the Board's approval was keyed to a final decision in the Transatlantic case. That case is in its last stages and will shortly be ripe for Board decision.[8] Hence, it is likely that

[1] The Indianapolis Airport Authority filed an answer to the applications of Pan American and TWA together with a motion for leave to file an unauthorized document. The pleading was filed eleven days after the date answers were to be filed and in our view good cause has not been shown why Indianapolis or its counsel could not have met the filing date. Consequently, we will deny the motion. In any event, the matters raised regarding the need for hearings were dealt with adequately in Order 75–1–133. Indianapolis has not petitioned for reconsideration of those findings.

[2] Northwest's petition for reconsideration was disposed of by the Board by Order 75–2–108.

[3] Since PAA–MEC's position is now noted for the record we do not believe that further Board action in this regard is required.

[4] The matters raised by IBT relating to impact on labor and the appropriateness of labor protective provisions will be dealt with *infra*, in the labor section of this order.

[5] When we objected in Order 74–11–24 to the "all-or-nothing" aspect of the original agreement, we were then faced with a request for expeditious processing of an agreement which by virtue of the controversial Los Angeles-Honolulu turnaround request, could not be processed expeditiously. However, the amended agreement approved by Order 75–1–133 eliminated this controversial aspect and in our view was proper for nonhearing expeditious consideration.

[6] Moreover, TWA alleges that the transaction actually resulted in a book loss to the carrier.

[7] Briefs to the Board were filed March 5, 1975, and the case is awaiting oral argument before the Board.

the Board's approval of the instant agreement will terminate within two years. We find no sound basis for reducing the term of our approval, which is already of short duration, as to the whole or any part of the agreement.[9]

The Flying Tiger Line (FTL). FTL requests reconsideration of Order 75–1–133 to the extent that the Board rejected FTL's proposed condition on Pan American's operations to Taiwan and Okinawa.[10] The condition imposed by the Board was designed to limit Pan American's Taiwan/Okinawa-U.S. service to that provided by TWA in markets affecting Northwest. This condition was imposed for the principal purpose of avoiding significant impact on Northwest and FTL, and it remains our view that the condition will accomplish this purpose.

FTL's proposed condition fails to address, as FTL readily admits, the impact on Northwest and consequently is not appropriate to meet that objective. Further, FTL has not established a factual basis to conclude that it will experience any diversion from Pan American's Taiwan/Okinawa service as conditioned by Order 75–1–133.[11]

[8] Philadelphia requests the Board to correct the statement of its position. As set forth in its pleadings Philadelphia opposes approval of the agreement without a hearing unless conditions are imposed (1) requiring Pan American to provide daily nonstop or one-stop single-plane service in the Philadelphia-London market, and (2) requiring a U.S.-flag carrier to provide daily nonstop or one-stop service in the Philadelphia-Frankfurt market.

[9] FTL's proposed condition would read as follows: "No flight serving both a point or points in the United States and a point or points in Okinawa or Taiwan shall operate via any point in Japan and/or Alaska."

[10] In view of FTL's failure to show potential injury it is unnecessary to comment on the validity of FTL's interpretation as to Pan American's right to operate single-plane service between U.S. points permitted by the Board's condition, on the one hand, and Taiwan and Okinawa, on the other hand, via nontraffic stops at nonpermissible points. We note, however, that the case cited by FTL as being dispositive of the issue (Order 72–5–82), is distinguishable from the hypothetical itineraries given by FTL in its petition. FTL states that Pan American might be able to evade the condition by operating a Taiwan/Okinawa-destined flight from a permissible U.S. point via a nontraffic stop at a nonpermissible point (Tokyo, for example) and transloading to that flight passengers arriving at Tokyo from New York (also a nonpermissible point). Order 72–5–82 is limited to its unique facts and to the carriage of mail. It involved two FTL flights to the Orient, one from San Francisco and one from New York, which had a nontraffic stop at Anchorage, at which point mail from one flight was "transloaded" to the other flight to continue its journey. The Board there held that "the traffic involved plainly could be transported by Flying Tiger on any flight which began at the point of origin of the traffic and continued to the point of destination" and that the nontraffic stop at Anchorage did not involve "a break in the through journey." Unlike FTL's Anchorage operation, in FTL's hypothetical Pan American operation the traffic could not be transported on a flight which began from the point of origin (New York) and continued to Taiwan and Okinawa, the point of destination, under the terms of the Board's condition.

International Brotherhood of Teamsters. IBT asserts, inter alia, that the Board's public interest findings were legally deficient because they failed to properly address the impact on labor; and that the Board did not make satisfactory findings of unusual circumstances and undue burden to support its exemption awards.

In our view, the Board's findings as to the public interest and in support of the exemption awards are fully consistent with legal and statutory requirements. As we stated in Order 75–1–133 and again in Order 75–2–108, Pan American and TWA have been faced with severe financial difficulties which threaten the stability of these carriers and place in jeopardy the continued existence of Pan American and impair the viability of TWA's international operations. These are unusual circumstances which affect the operations of both carriers and present a serious transportation need justifying expeditious approval of the agreement and the grant of the exemption and suspension applications. Any significant delay, such as would occur if an evidentiary hearing was held, would be an undue burden on the carriers and would have been tantamount to disapproval of the entire proposal. It is difficult to imagine more compelling circumstances justifying the use of the Board's exemption powers.

With respect to the impact on labor the Board held that in light of the basis of the record then before it no showing had been made to justify disapproval of the agreement or imposition of labor protective provisions.

Further pleadings on this issue have been filed, and, while we do not believe that the impact on labor warrants disapproval of the agreement, as we discuss in section II below, it is our view that the potential impact on labor of the full implementation of the agreement warrants imposition of conditions for the protection of employees.

Finally, a few housekeeping matters remain. Order 75–1–133 amended Pan American's Approved Service Plans for route 132 by adding Hong Kong and Bangkok and for routes 130 and 132 by adding Colombo, Sri Lanka pursuant to the carrier's request in its application in Docket 27255. Pan American, however, does not presently hold certificate authority to serve those points on those particular routes and the carrier did not request exemption authority to serve those points in its various applications. Accordingly, we will amend Order 75–1–133 to delete from Pan American's amended Approved Service Plans for route 132 the points Hong Kong; Bangkok, Thailand; and Colombo, Sri Lanka and for route 130 the point Colombo, Sri Lanka. In addition, the schedules filed by Pan American pursuant to the approvals set forth in Order 75–1–133 do not contemplate service to Bombay, India. Consequently, we will include Bombay in the list of points on the Approved Service Plan for route 130 to which service may be suspended.

II. LABOR ISSUES

Responses to the labor issues pursuant to Order 75–1–133 were filed by the IBT; the Air Line Pilots Association (ALPA);[12] the Flight Engineers' International Association, AFL–CIO (FEIA); the International Association of Machinists and Aerospace Workers (IAM); the PAA–MEC; the Master Executive Council of TWA pilots (TWA–MEC); Pan American; TWA; and the Transport Workers Union–AFL–CIO (TWU). Answers and replies to the above pleadings were filed by FEIA, TWU, TWA–MEC, PAA–MEC, ALPA, IBT, IAM, Pan American, and TWA.[13]

In general, the labor parties argue that implementation of the approved agreement will impact substantially on all classes of employees of both carriers; that the number of employees affected by either dismissals, displacements, or transfers could exceed 1,000; that the Board should either set for hearing the issue of labor impact to resolve the conflicting contentions of labor and the carriers or impose standard labor protective provisions; and that the cost of imposing labor protective conditions will offset only about 20 percent of the total benefits to be derived from the agreement. In this latter regard, ALPA claims that the total cost to TWA of imposing the labor protective provisions of the type imposed in the Allegheny-Mohawk Merger case (Order 72–4–31) would amount to about $4.7 million annually or a total of $14.1 million for three years, which compares with expected two-year benefits in excess of $50 million.[14]

Pan American and TWA assert that the impact of the agreement on their

[11] ALPA filed an amendment to its comments on March 11, 1975 together with a motion for leave to file. We will grant ALPA's motion.

[12] On February 13, 1975 the IBT filed a motion for extension of time to file responses to the labor pleadings and a request that the Board direct Pan American and TWA to file certain information. By Order 75–2–82 the Board provided for the filing of answers, and in light of our determination herein to impose labor protective provisions no additional information is needed for the record. We will dismiss IBT's motion. In addition, the IAM moved on February 14, 1975 for an opportunity to respond to the labor pleadings which request was also mooted by Order 75–2–82, and for an order requiring the applicants to maintain the status quo as to employee status. (The latter request was renewed by motion filed February 27, 1975.) In view of our action herein, which is to be applied retroactively, IAM's motion will be dismissed as moot.

[13] ALPA and PAA–MEC request that full Allegheny-Mohawk labor protective provisions be imposed as to TWA but that only the dismissal provisions be applied to Pan American. Other Pan American union representatives, however, request that all of the standard labor protective provisions also be applied to Pan American. IBT requests more comprehensive labor provisions based upon the Railpax provisions. Similar requests were made and rejected by the Board in the Allegheny-Mohawk and Delta-Northeast merger cases. Nothing raised by IBT in its pleadings justifies a reversal of the Board's conclusions as set forth at pp. 22–24 of Order 72–4–31, 32 which apply with equal force to the instant case.

V 40 67
APR 7 75
XUM

respective labor forces will be minimal. Pan American claims that only 12 job opportunities will be affected. While TWA states that "233 fewer pilots and 334 few flight attendants would be needed by TWA in its operations," it contends that no flight personnel will be "discharged." Pan American estimates that the direct cost impact of labor protective provisions will amount to about $242,000 annually; while the indirect costs may reach into the millions. TWA estimates costs related to labor protective provisions at around $12 million for 36 months.

Upon consideration of the foregoing pleadings and all of the relevant facts the Board has decided that the special and unusual circumstances of this case warrant the imposition of the labor protective provisions set forth in the appendix retroactive to the date the agreement was filed (December 17, 1974), as a condition to approval of the agreement.[24]

As the courts have held, the impact on employees is a legitimate public-interest factor to be weighed along with other public interest factors in determining the course of regulatory action. However, the showing required to warrant the extraordinary exercise of the Board's discretionary power to invoke labor protective conditions is "not broadly one of general employee welfare" [25] but rather a showing that such conditions are needed to "obtain the degree of stability in air transportation that freedom from industrial strife will provide." [26] Thus, it is the Board's view that general considerations of equity and employee welfare are not sufficient justifications for the imposition of employee protective conditions but that the extent of employee impact must be so great as to jeopardize the continued stability and efficiency of the operations of the affected carriers in terms of the on-going relationship between a carrier and its labor force such that there is a realistic threat of service disruption.

The Board has with only one exception declined to impose labor protective conditions in suspension and deletion cases because these cases usually do not result in adverse labor impact, or if such impact does result it is localized rather than systemwide, and thus does not threaten to impair the stability or efficiency of the affected carrier.

It is our view that the labor parties have met their burden of demonstrating that implementation of the agreement approved by Order 75–1–133 will have a widespread and systemwide adverse effect on the employees of both carriers such that the extraordinary exercise of the Board's discretion to impose labor protective provisions is necessary to prevent labor strife and disruption which could impair the continued stability and efficiency of Pan American and TWA. Any such labor disruptions at this time could negate the financial improvements which the carriers will derive from the proposal in this case as well as from other austerity measures the carriers are undertaking.

Although the suspensions of service and other service cutbacks involving Pan American and TWA are limited in time and do not affect either carrier's basic certificate authority, the total impact on employees of both carriers from dismissals, displacements, and furloughs could well exceed 1000 persons. ALPA estimates that 312 TWA pilots and 78 Pan American pilots will be affected by the agreement either by dismissal or displacement. Other classes of employees, including flight engineers, mechanics, cabin crews, and stock clerks will also be affected. Even TWA recognizes that as many as 233 pilot jobs, 334 flight attendant jobs, and 40 mechanic jobs will be affected by the agreement, although the carrier claims that no persons will be discharged. Existence of dismissals is not the sole prerequisite for labor protective conditions, for adverse employee impact can arise by several other means. In this connection, the language of the Board in the Seven States Area Investigation [27] regarding the effect of large-scale suspension authorizations, such as we have in this case, is worthy of note:

> The record clearly indicates that the suspensions and deletions will lead to the abolishment of a substantial number of station positions and that the employees thereby displaced, even if retained in the carriers' domestic systems, must transfer to other stations by exercise of their seniority rights to dislocate or "bump" employees at such other points, such employees relocating by bumping still other employees by exercise of seniority rights, with the attendant dislocation. When each "bump" along the chain is seen to entail the risk of moving expenses not covered by contract, of loss upon emergency sale of homes, and of possible diminution of income resulting from transfer to lower paying jobs within the same seniority category, it cannot be doubted that, even if no employee terminations occur, the deletions and suspensions present a strong likelihood of employee loss.

While we recognize that the impact on Pan American employees is not as extensive as that which affects TWA's labor force, we find, nonetheless, that there is a widespread and systemwide impact which requires labor protective conditions.

One of the factors which the Board has historically considered as militating against the imposition of labor conditions is the extent to which the costs of such conditions to the carriers will vitiate the benefits to be derived from the Board's action. We have closely examined the contentions of the carriers that imposition of labor protective provisions could have a serious financial impact on them and find these allegations to be without merit. ALPA estimates that the cost to TWA of labor protective provisions could amount to about $4.7 million annually. TWA estimates that the cost over a 36-month perod will exceed $12 million. Pan American claims that the annual direct cost of labor conditions will reach about $242,000, while indirect costs may rim into millions of dollars. When these figures are contrasted against the approximate annual net benefits estimated by the applicants of about $25 million per carrier which will result from the agreement, the cost of mitigating the substantial adverse impact on the carriers' labor forces is a small price to pay. And if, as the carriers claim, there will be no adverse impact on employees then the provisions "will simply be inoperative and will not result in hardship to anyone." [28]

The cases cited by the carriers for the proposition that the Board "traditionally refused to impose labor conditions in suspension cases" are distinguishable from the instant case. Most of the cited cases involved suspensions of only one or a few points. Thus, the Frontier suspension (Order 72–1–100) involved only one point, Chicago; and the Southern Airways suspension involved only the point Mobile, Alabama. In the Braniff-North Central Suspension/Replacement case, Order E–26342, only two points were involved, Sioux Falls, South Dakota and Sioux City, Iowa, and the Board noted that Braniff had voluntarily executed an agreement with labor. In the Southwest-UAL suspension, 15 CAB 61 (1952), only two points were involved and no factual showing of labor impact was made. The Caribair suspension, Order 69–10–157, involved suspension at four Caribbean points for only six months. The Slick suspension, 26 CAB 779 (1958), involved a carrier in virtual financial extremis. In addition, Slick was not receiving revenue improvement from the suspension to offset the cost of labor conditions. Unlike the foregoing cases and unlike ordinary suspension cases, we find the facts in this case to present special and unique circumstances warranting the extraordinary exercise of our discretionary power to impose labor protective conditions.

We have considered conditions less comprehensive than the Board's standard labor protective provisions, such as conditions providing only for dismissal protection or for priority in hiring, and have concluded that such conditions fall short of the protective coverage needed to mitigate the impact of agreement. In this connection, it is noted that all parties have uniformly rejected so-called labor protective guidelines similar to those set forth in Order 71–12–45, since the priority-in-hiring protection afforded by those guidelines is illusory at a time when carrier hiring is reduced. We are mindful of the suggestion of the TWA-MEC in its reply, that as an alternative to labor provisions the Board should consider allowing the parties a 60-day period in which to negotiate provisions suitable to all parties. In light of the positions taken by both carriers in opposition to Board-imposed labor provisions, we are doubtful that such an approach would have any practical effect other than delaying resolution of this issue. However, we would be amenable to modifying this order if the parties are able to get together and agree upon a different form of condition satisfactory to all concerned.

Finally, we find that a hearing on the matters raised is not necessary. Although there are conflicting factual assertions by the opposing factions, even if each presentation is held in a light most favorable to it, we find that the public interest requires the action we are taking herein.

Accordingly, *It is ordered*, That: 1. The motion of the Indianapolis Airport Authority for leave to file an unauthorized document be and it hereby is denied;

2. The motion of the Air Line Pilots Association for leave to file an amended answer be and it hereby is granted;

3. The motions of the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers and the International Association of Machinists and Aerospace Workers be and they hereby are dismissed;

4. The petitions for reconsideration of National Airlines; The Flying Tiger Line; the City and Chamber of Commerce of Philadelphia; and the International Brotherhood of Teamsters be and they hereby are denied;

5. Amended Approved Service Plans-Foreign Air Transportation for routes 130 and 132 shall be issued to Pan American in the form attached hereto; and

6. It is just and reasonable, and in the public interest, to attach to the Board's approval in Order 75–1–133 of the agreement between Pan American and TWA and the grant of exemption and suspension authority the following conditions:

Pan American and TWA shall be subject to the labor protective provisions set forth in the Appendix: *Provided*, That jurisdiction is hereby retained to make such amendments, modifications, and additions to the labor protective provisions herein imposed as circumstances and the public interest may from time to time require: *Provided, further*, That jurisdiction is hereby retained for purposes of imposing if necessary, by subsequent order, such reporting requirements as may be appropriate in order to obtain data concerning, on the one hand, the extent to which affected employees are benefited by our imposition of labor protective provisions, and, on the other, the costs incurred by the carriers as a result of the labor protective provisions: and *Provided further*, Application of the labor protective provisions shall be retroactive to the date on which the agreement approved by Order 75–1–133 was signed.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

APPENDIX—LABOR PROTECTIVE PROVISIONS

Section 1. The fundamental scope and purpose of the conditions hereinafter specified are to provide for compensatory allowances to employees who may be affected by the implementation of agreement between Pan American World Airways and Trans World Airlines in Docket 27114 approved by Order 75–1–133, and it is the intent that such conditions are to be restricted to those changes in employment due to and resulting from such agreement. Fluctuations, rises and falls, and changes in volume or character of employment brought about by other causes are not covered by or intended to be covered by these provisions.

Section 2(a). The term "carrier" as used herein refers to either Pan American or TWA.

(b). The term "employee" as used herein shall mean an employee of the carriers other than a temporary or part-time employee.

(c). The term "agreement" as used herein shall mean except as otherwise indicated, the agreement between Pan American and TWA signed on December 17, 1974, and approved by the Board by Order 75–1–133, January 30, 1975.

Section 3(a). Subject to the applicable conditions set forth herein, no employee of either of the carriers involved in the agreement who is continued in service shall as a result of the agreement be placed in a worse position with respect to compensation than he occupied immediately prior to his displacement so long as he is unable in the normal exercise of his seniority rights under existing agreements, rules, and practices to obtain a position producing compensation equal to or exceeding the compensation of the position held by him immediately prior to such date, except, however, that if he fails to exercise his seniority rights to secure another available position, which does not require a change in residence, to which he is entitled under the working agreement and which carries a rate of pay and compensation exceeding those of the position which he elects to retain, he shall thereafter be treated for the purposes of this section as occupying the position which he elects to decline.

(b). The protection afforded by the foregoing paragraph is hereby designated as a "displacement allowance" which shall be determined in each instance in the manner hereinafter described. Any employee entitled to such an allowance is hereinafter referred to as a "displaced" employee.

(c). Each displacement allowance shall be a monthly allowance determined by computing the total compensation received by the employee and his total time paid for during the last 12 months in which he performed service immediately preceding the date of his displacement (such 12 months being hereinafter referred to as the "test period") and by dividing separately the total compensation and the total time paid for by 12, thereby producing the average monthly compensation and average monthly time paid for, which shall be the minimum amounts used to guarantee the displaced employee; and if his compensation in his current position is less in any month in which he performs work than the aforesaid average compensation, he shall be paid the difference, less compensation for any time lost on account of voluntary absences to the extent that he is not available for service equivalent to his average monthly time during the test period, but he shall be compensated in addition thereto at the rate of the position filled for any time worked in excess of the average monthly time paid for during the test period.

(d). The protection afforded herein shall only apply to displacements occurring during the effective term of approval as set forth in Order 75–1–133, as may be amended by Board order, and occurring within a period of 3 years from the date on which the agreement was approved (referred to herein as the claim period); and the period during which this protection is to be given (referred to herein as the protective period) shall extend for a period of 4 years from the date on which the employee is displaced.

Section 4(a). Any employee of either of the carriers participating in the agreement who is deprived of employment as a result of said agreement shall be accorded an allowance (hereinafter termed a "dismissal allowance"), based on length of service, which shall be a monthly allowance equivalent in each instance to 60 percent of the average monthly compensation of the employee in question during the last 12 months of his employment in which he earned compensation prior to the date he is first deprived of employment as a result of the agreement. This dismissal allowance will be made to each eligible employee, while unemployed, during a period beginning at the date he is first deprived of employment as a result of the agreement and extending in each instance for a length of time determined and limited by the following schedule:

Length of service, years:	*Period of payment, months*
1 and less than 2	6
2 and less than 3	12
3 and less than 5	18
5 and less than 10	36
10 and less than 15	48
15 and over	60

In the case of an employee with less than 1 year of service such employee shall not be covered by the benefits provided in this section, but shall receive such benefits, and only such benefits, as are provided by section 6.

(b). For the purpose of these provisions, the length of service of the employee shall be determined from the date he last acquired an employment status with the employing carrier and he shall be given credit for 1 month's service for each month in which he performed any service (in any capacity whatsoever) and 12 such months shall be credited as 1 year's service. The employment status of an employee shall not be interrupted by furlough in instances where the employee has a right to and does return to service when called. In determining length of service of an employee acting as an officer or other official representative of an employee organization he will be given credit for performing service while so engaged on leave of absence from the service of the carrier: *Provided*, That in calculating the dismissal allowance for such an employee, such allow-

[24] These labor provisions are patterned after the Allegheny-Mohawk labor conditions as set forth in Appendix B of Order 72–4–91, 32. Section 3 of the Allegheny-Mohawk conditions relating to integration of seniority lists is not applicable to the present circumstances. Section 13 of the conditions herein imposed excludes from the applicability of the labor conditions employees stationed outside of the United States who are not citizens of the United States. This is consistent with Board policy regarding the applicability of labor protective provisions to foreign nationals. See, Panagra Acquisition Case, 45 CAB 426 (1966); North Atlantic Route Transfer Case, 12 CAB 124 (1950).

V 40167
APR 7 75

ance shall be based upon the compensation paid such employee by the carrier during his last 12 months of service on the company payroll and not on the compensation he may have been paid by the employee representative organization.

(c). An employee shall not be regarded as deprived of employment in case of his resignation, death, or retirement on account of age or disability in accordance with the current rules and practices applicable to employees generally, dismissal for justifiable cause in accordance with the rules, or furlough because of reduction in forces due to seasonal requirements of the service; nor shall any employee be regarded as deprived of employment as the result of the agreement who is not deprived of his employment within 3 years from the effective date of said agreement.

(d). Each employee receiving a dismissal allowance shall keep his employer informed of his address and the name and address of any other person by whom he may be regularly employed.

(e). The dismissal allowance shall be paid to the regularly assigned incumbent of the position abolished. If the position of an employee is abolished while he is absent from service, he will be entitled to the dismissal allowance when he is available for service. The employee temporarily filling said position at the time it was abolished will be given a dismissal allowance on the basis of said position until the regular employee is available for service and thereafter shall revert to his previous status and will be given a dismissal allowance accordingly if any is due.

(f). An employee receiving a dismissal allowance shall be subject to call to return to service after being notified in accordance with the working agreement, and such employee may be required to return to the service of the employing carrier for other reasonably comparable employment for which he is physically and mentally qualified and which does not require a change in his place of residence, if his return does not infringe upon the employment rights of other employees under the working agreement.

(g). If an employee who is receiving a dismissal allowance returns to service the dismissal allowance shall cease while he is so reemployed and the period of time during which he is so reemployed shall be deducted from the total period for which he is entitled to receive a dismissal allowance. During the time of such reemployment, however, he shall be entitled to protection in accordance with the provisions of section 3.

(h). If an employee who is receiving a dismissal allowance obtains other employment, his dismissal allowance shall be reduced to the extent that the sum total of his earnings in such employment plus his allowance and any unemployment insurance benefit (or similar benefit) exceed the amount upon which his dismissal allowance is based: *Provided*, That this shall not apply to employees with less than 1 year's service.

(i). A dismissal allowance shall cease prior to the expiration of its prescribed period in the event of—

1. Failure without good cause to return to service after being notified of a position for which he is eligible and as provided in paragraphs (f) and (g).
2. Resignation.
3. Death.
4. Retirement or on account of age or disability in accordance with the current rules and practices applicable to employees generally.
5. Dismissal for justifiable cause.

Section 5. An employee affected by the agreement shall not during the applicable protective period be deprived of benefits attaching to his previous employment, such as hospitalization, relief, and the like.

Section 6. Any employee eligible to receive a dismissal allowance under section 4 hereof may, at his option, resign and (in lieu of all other benefits and protections provided in these provisions) accept in a lump sum a separation allowance determined in accordance with the following schedule:

Length of service (year):

	allowance months' Separation pay
1 and less than 2	3
2 and less than 3	6
3 and less than 5	9
5 and over	12

In the case of employees with less than 1 year's service, 5 days' pay, at the straight time rate per working day of the position last occupied, for each full month in which they performed service will be paid as the lump sum.

(a) Length of service shall be computed as provided in section 4.

(b) One month's pay shall be computed by multiplying by 30 the calendar daily rate of pay received by the employee in the position last occupied prior to the time the agreement was approved.

Section 7(a). Any employee who is retained in the service of Pan American or TWA (or who is later restored to service from the group of employees entitled to receive a dismissal allowance) who is required to change the point of his employment as a result of the agreement, and is therefore required to move his place of residence, shall be reimbursed for all expenses of moving his household and other personal effects and for the traveling expenses of himself and members of his family, including living expenses for himself and his family and his own actual wage loss during the time necessary for such transfer, and for a reasonable time thereafter (not to exceed 2 working days), used in securing a place of residence in his new location. The exact extent of the responsibility of the carrier under this provision and the ways and means of transportation shall be agreed upon in advance between the carrier and the affected employee or his representative. No claims for expenses under this section shall be allowed unless they are incurred during the period in which Board approval of the agreement is effective and within 3 years from the date of the approval by the Board of the agreement, and the claim must be submitted within 90 days after the expenses are incurred.

(b) Changes in place of residence subsequent to the initial change caused by the agreement which grow out of the normal exercise of seniority in accordance with working agreements are not comprehended within the provisions of this section.

Section 8(a). The following provisions shall apply, to the extent they are applicable in each instance, to any employee who is retained in the service of the carriers involved in this agreement (or who is later restored to such service from the group of employees entitled to receive a dismissal allowance) who is required to change the point of his employment as a result of such agreement and is therefore required to move his place of residence.

1. If the employee owns his own home in the locality from which he is required to move, he shall at his option be reimbursed by the carrier for any loss suffered in the sale of his home for less than its fair value. In each case the fair value of the home in question shall be determined as of a date sufficiently prior to the approval date of the agreement to be unaffected thereby; *Provided, however*, That if the home is not sold within a substantial period after approval of the agreement, then the fair value of the home shall be determined as of a date as closely related to the date of a sale as possible, with an agreed-upon adjustment being made to exclude any effect of the agreement on such fair value. The carrier shall in each instance be afforded an opportunity to purchase the home at such fair value before it is sold by the employee to any other party.

2. If the employee is under a contract to purchase his home, the carrier shall protect him against loss to the extent of the fair value of any equity he may have in the home and in addition shall relieve him from any further obligations under his contract.

3. If the employee holds an unexpired lease of a dwelling occupied by him as his home, the carrier shall protect him from all loss and cost in securing the cancellation of his said lease.

(b). Changes in place of residence subsequent to the initial change caused by the agreement which grow out of the normal exercise of seniority in accordance with working agreements are not comprehended within the provisions of this section.

(c). No claim for loss shall be paid under the provisions of this section which is not presented within 3 years after the date on which the agreement is approved.

(d). Should a controversy arise in respect to the value of the home, the loss sustained in its sale, the loss under contract for purchase, loss and cost in securing termination of lease, or any other question in connection with these matters, it shall be decided through joint conference between the employee or his representative and the carrier, and, in the event they are unable to agree, the dispute may be referred by either party to a board of three competent real estate appraisers, selected in the following manner: One to be selected by the employee or his representative and one by the carrier, respectively; these two shall endeavor by agreement within 10 days after their appointment to select the third appraiser, or to select some person authorized to name the third appraiser, or to select some person authorized to name the third appraiser; and in the event of failure to agree, then the Chairman of the National Mediation Board shall be requested to appoint the third appraiser. A decision of a majority of the appraisers shall be required and said decision shall be final and conclusive. The salary and expenses of the third or neutral appraiser, including the expenses of the appraisal board, shall be borne equally by the parties to the proceedings. All other expenses shall be paid by the party incurring them, including the salary of the appraiser selected by such party.

Section 9. If either carrier, on or after December 17, 1974, shall rearrange or adjust its forces in anticipation of the agreement, with the purpose or effect of depriving an employee of benefits to which he should be entitled under these provisions as an employee immediately affected by the agreement, these provisions shall apply to such an employee as of the date when he is so affected.

Section 10. If requested in writing by any employee or employees of either carrier or the authorized representative of such employee or employees, the date and place of a meeting between said employees or their representatives and the representatives of the carriers to settle problems of the rearrangement of such employees arising out of and because of the agreement shall be agreed upon within 10 days after such request is received by the carrier. The meeting shall commence within 30 days from the date the request is received by the carrier.

In the event of a failure to agree upon a settlement of a problem or of problems presented at the meeting, the unsettled problems may be submitted by either party for adjustment in accordance with section 12.

Section 11. No employee of either carrier shall, as a condition of eligibility for the protection afforded by the terms of this order be required to accept employment that is not within the class, craft, or field of endeavor in which he was employed by either carrier on the date the agreement was approved by the Board.

Section 12(a). In the event that any dispute or controversy (except as to matters arising under section 9) arises with respect to the protections provided herein, which cannot be settled by the parties within 20 days after the controversy arises, it may be referred by any party to an arbitrator selected from a panel of seven names furnished by the National Mediation Board for consideration and determination. The parties shall select the arbitrator from such panel by alternatively striking names until only one remains, and he shall serve as arbitrator. Expedited hearings and decisions will be expected, and a decision shall be rendered within 90 days after the controversy arises, unless an extension of time is mutually agreeable to all parties. The salary and expenses of the arbitrator shall be borne equally by the carrier and (i) the organization or organizations representing the employee or employees, or (ii) if unrepresented, the employee or employees or group or groups of employees. The decision of the arbitrator shall be final and binding on the parties.

(b). The above condition shall not apply if the parties by mutual agreement determine that an alternative method for dispute settlement or an alternative procedure for selection of an arbitrator is appropriate in their particular dispute. No party shall be excused from complying with the above condition by reason of having suggested an alternative method or procedure, unless and until that alternative method or procedure shall have been agreed to by all the parties.

Section 13. The benefits of the foregoing sections shall not apply to employees stationed outside the United States who are not citizens of the United States.

[Route 130; issued pursuant to Order 75-4-4]

APPROVED SERVICE PLAN-FOREIGN AIR TRANSPORTATION (AS AMENDED)

PACIFIC

Pan American World Airways, Inc.

Segment 1—Between the coterminal points Bangor, Maine, New York, N.Y.-Newark, N.J., and San Francisco and Los Angeles, Calif.; the intermediate points Hilo and Honolulu, Hawaii; Midway Island; Wake Island; and Guam; and (a) beyond the intermediate point Guam, the intermediate points Manila, Philippines; Hong Kong; Saigon, Vietnam; Singapore; Denpasar and Djakarta, Indonesia; Kuala Lumpur, Malaysia; Bangkok, Thailand; Rangoon, Burma; Calcutta and Delhi, India; and the terminal point Karachi, Pakistan; and (b) beyond the intermediate point Guam, the intermediate points Tokyo and Osaka, Japan; Hong Kong; Saigon, Vietnam; Singapore; Denpasar and Djakarta, Indonesia; Kuala Lumpur, Malaysia; and the intermediate point Bangkok, Thailand.

Segment 2—Between the coterminal points Bangor, Maine, New York, N.Y.-Newark, N.J., and San Francisco and Los Angeles, Calif., the intermediate points Hilo and Honolulu, Hawaii; Pago Pago, American Samoa, Suva, Fiji; Noumea, New Caledonia; Auckland, New Zealand; and Sydney, Melbourne, and Darwin, Australia; Denpasar and Djakarta, Indonesia; and beyond to the intermediate and terminal points in segment 1.

Segment 3—Between the coterminal points Bangor, Maine, New York, N.Y.-Newark, N.J., and San Francisco and Los Angeles, Calif., and the intermediate points Society Islands; Noumea, New Caledonia; Auckland, New Zealand; and Sydney, Australia.

Segment 4—Between the coterminal points Bangor, Maine and New York, N.Y.-Newark, N.J., the intermediate points Fairbanks, Alaska, and Tokyo, Japan, and the terminal point Osaka, Japan.

Segment 5—Between the terminal point Los Angeles-Ontario-Long Beach, California; the intermediate points Hilo and Honolulu, Hawaii; Agana, Guam; Naha, Okinawa; Taipei, Taiwan; Hong Kong; Bangkok, Thailand; and beyond Bangkok, Thailand; the terminal point Bombay, India.

1. The holder may, on flights serving New York, N.Y.-Newark, N.J., Los Angeles or San Francisco, Calif., on the one hand, and Japan, on the other hand, without compliance with the Board's regulations governing nonstop service or suspensions of service, omit service to one or more of the following points on any or all flights: Midway Island, Wake Island, or Guam;

2. The holder may grant stopover privileges at any of the points in the United States named herein to passengers traveling between any of these points, on the one hand, and the various overseas and foreign points named herein, on the other hand: *Provided*, That the holder shall not carry stopover traffic between Hilo and Honolulu, Hawaii;

3. The holder shall not, on flights operated over segment 4, engage in air transportation between Portland, Ore., and Seattle-Tacoma, Wash., on the one hand, and points in or beyond Japan, on the other hand;

4. In conformance with the operations sought to be conducted by it, Pan American is authorized, subject to applicable regulations and to further order of the Board, to suspend service to Calcutta, India, until July 21, 1975, to Wake Island and Rangoon, Burma, until October 22, 1975, and to Bombay, India;

5. The authority granted herein to serve Kuala Lumpur, Malaysia, shall be restricted to all-cargo service only;

6. The authority to serve Bangor, Maine, is limited to the carriage of property on a permissive basis and shall terminate on January 21, 1977;

7. The authority to serve Naha, Okinawa, and Taipei, Taiwan, on segment 5 shall be subject to the condition that Pan American shall not perform single-plane service (including single-flight number) in any Taiwan/Okinawa city-pair market currently authorized in the certificates of Northwest which did not receive single-plane service by TWA as reflected in TWA's general schedule No. 5i on file with the Board effective November 1, 1974;

8. The authority over segment 5 shall be effective for two years or until 90 days after final Board decision in Docket 25908, whichever first occurs;

9. The authority granted herein shall become effective on April 2, 1975.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

APPROVED SERVICE PLAN—FOREIGN AIR TRANSPORTATION (AS AMENDED)

NORTH ATLANTIC

[Route 132, Part II; Issued pursuant to Order 75-4-4]

Pan American World Airways, Inc.

Segment 1—Between the coterminal points Los Angeles and San Francisco, California; Portland, Oregon; Seattle, Washington; Chicago, Illinois; Detroit, Michigan; Washington, D.C.-Baltimore, Maryland; Philadelphia, Pennsylvania; New York, New York; Boston, Massachusetts; Bangor, Maine; McGuire Air Force Base, New Jersey; and Dover Air Force Base, Delaware.

The following intermediate points: Keflavik, Iceland; Shannon, Ireland; Glasgow, Scotland; London and Mildenhall, England; Brussels, Belgium; Amsterdam, Holland; Copenhagen, Denmark; Cologne/Dusseldorf, Frankfurt, Nuremburg, Stuttgart, and Munich, Germany; Rome, Italy; Prague, Czechoslavakia; Vienna, Austria; and

(a) beyond Vienna; the intermediate points Budapest, Hungary; Belgrade, Yugoslavia; Bucharest, Rumania; Istanbul and Ankara, Turkey; Tehran, Iran; Karachi, Pakistan; Delhi, India; and the terminal point Calcutta, India; and (b) beyond Vienna, the intermediate points Belgrade, Yugoslavia; Istanbul and Ankara, Turkey; and Bierut, Lebanon; and (i) beyond Beirut, the intermediate points Damascus, Syria; Tehran, Iran; Karachi, Pakistan; Delhi, India; and the terminal point Calcutta, India; and (ii) beyond Beirut, the intermediate points Baghdad, Iraq.; Karachi, Pakistan; Delhi, India; and the terminal point Calcutta.

Segment 2—Between the coterminal points Los Angeles and San Francisco, California; Portland, Oregon; Seattle, Washington; Chicago, Illinois; Detroit, Michigan; Washington, D.C.-Baltimore, Maryland; Philadelphia, Pennsylvania; New York, New York; Boston, Massachusetts; Bangor, Maine; McGuire Air Force Base, New Jersey; and Dover Air Force Base, Delaware.

The following intermediate points: Keflavik, Iceland; Shannon, Ireland; Glasgow, Scotland; London and Mildenhall, England; Brussels, Belgium; Amsterdam, Holland; Copenhagen, Denmark; Oslo and Bergen, Norway; Stockholm, Sweden; Hamburg, Frankfurt, Hanover and Berlin, Germany; Warsaw, Poland; Helsinki, Finland; Leningrad, U.S.S.R., and the terminal point Moscow, U.S.S.R.

Segment 3—Between the coterminal points Los Angeles and San Francisco, California; Portland, Oregon; Seattle, Washington; Chicago, Illinois; Detroit, Michigan; Washington, D.C.-Baltimore, Maryland; Philadelphia, Pennsylvania; New York, New York; Boston, Massachusetts; Bangor, Maine; McGuire Air Force Base, New Jersey; and Dover Air Force Base, Delaware.

The following intermediate points: Shannon, Ireland; Glasgow, Scotland; London and Mildenhall, England; Paris, France; Frankfurt, Germany; Rome, Italy; Istanbul and Ankara, Turkey; and Beirut, Lebanon; and (a) beyond Beirut, the intermediate points Damascus, Syria; Tehran, Iran; Karachi, Pakistan; Delhi, India; and the terminal point Calcutta, India; and (b) beyond Beirut, the intermediate points Baghdad, Iraq; Karachi, Pakistan; Delhi, India; and the terminal point Calcutta, India.

1. Notwithstanding the above provisions, Pan American is authorized, to engage in air transportation directly between all points included in this service plan located within Germany; *Provided*, That Pan American shall serve Hanover only on flights originating at Hanover and terminating at Berlin, or originating at Berlin and terminating at Hanover;

2. In conformance with the operations sought to be conducted by it, Pan American is authorized, subject to applicable regulations and to further order of the Board, to suspend service to the following foreign points designated in the above service plan:

(a) On Segment (1): (1) Budapest, Hungary; (2) Baghdad, Iraq, until December 20, 1976; (3) Calcutta, India, until July 21, 1975; (4) Belgrade, Yugoslavia, until Jan-

uary 8, 1976; (5) Bucharest, Romania, until January 8, 1976; (6) Keflavik, Iceland, until January 8, 1976; (7) Glasgow, Scotland, until January 8, 1976; and (8) Vienna, Austria, for a two year period or until 90 days after final Board decision in Docket 25908, whichever first occurs, unless sooner terminated by the Board;

(b) On Segment (2): (1) Leningrad, U.S.S.R.; (2) Bergen, Norway, until October 31, 1974 and on a seasonal basis from approximately November 1 to May 15 of each year; (3) Stockholm, Sweden, until January 8, 1976; (4) Oslo, Norway, until January 8, 1976; (5) Glasgow, Scotland, until January 8, 1976; and (6) Keflavik, Iceland, until January 8, 1976; and (7) Helsinki, Finland, until January 8, 1976; and

(c) On Segment (3): (1) Baghdad, Iraq, until December 20, 1976; (2) Calcutta, India, until July 21, 1975; (3) Glasgow, Scotland, until January 8, 1976; and (4) Paris, France, for a two year period or until 90 days after final Board decision in Docket 25908, whichever first occurs, unless sooner terminated by the Board;

3. The operation of all services authorized by this order shall be subject to the receipt of necessary authorizations from the appropriate authorities of the foreign governments concerned;

4. The authority granted herein to serve Hanover, Germany, shall be restricted to the carriage of persons and property only on shuttle flights between Hanover and Berlin, Germany, and shall not constitute approval of such flights for mail purposes;

5. The authority granted herein to serve Nuremburg, Germany, shall be restricted to flights within Germany;

6. McGuire AFB, Dover AFB, and Mildenhall AB, shall be served only on a flagstop basis for the carriage of property moving on government bills of lading in common carriage transatlantic services; and the three bases may also be served for the carriage of all classes of mail other than air mail and air parcel post as specified in Order E-20139;

7. The authority granted herein to serve Glasgow, Scotland and London, England, on segment (3) shall be restricted as follows:

(a) Glasgow may not be served on flights to or from the U.S. coterminal points Los Angeles, San Francisco, Seattle or Portland;

(b) Service to Glasgow and London on flights to and from the U.S. coterminal points Chicago, Detroit, Washington, Baltimore, Philadelphia, New York, and Boston shall be restricted to the carriage of cargo and mail only, and shall be without traffic rights between Glasgow and London, and between Glasgow and London, on the one hand, and Paris and Rome, on the other hand;

8. Service to Frankfurt, Germany, on segment 3 shall be restricted to flights for the carriage of cargo and mail only and shall be without traffic rights between Frankfurt and Paris;

9. Service between Los Angeles, San Francisco, Portland, and Seattle via a Polar Route to Paris via London shall be without traffic rights between Paris and London;

10. The authority to serve Bangor, Maine is limited to the carriage of property on a permissive basis and shall terminate on January 21, 1977;

11. Pan American is authorized to suspend service at Shannon, Ireland, until April 25, 1976, or 90 days after final Board decision in Docket 25908, whichever occurs first, unless sooner terminated by the Board; and

12. The authority to serve Rome, Italy, on segment 1 shall be effective for two years or until 90 days after final Board decision in Docket 25908, whichever first occurs, unless sooner terminated by the Board;

The authority granted herein shall become effective on April 2, 1975.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF CHINA

Entry or withdrawal from Warehouse for Consumption

APRIL 4, 1975.

On October 4, 1974, there was published in the FEDERAL REGISTER (39 FR 35838) a letter of September 26, 1974 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, implementing those provisions of the Bilateral Wool and Man-Made Fiber Textile Agreement of December 30, 1971, as amended, between the Governments of the United States and the Republic of China, which establish export limitations for wool and man-made fiber textile products in certain categories, produced or manufactured in the Republic of China, for the agreement year which began on October 1, 1974.

Pursuant to paragraph 12(a) of the bilateral agreement, the United States Government agreed, effective on March 26, 1975 (40 FR 13333), to increase the sublimit established in the current agreement year for men's and boys' knit suits (TSUSA 380.0420 and 380.8143) within Category 224 from 200,000 pounds to 330,000 pounds. Inasmuch as that amount has now been fully utilized, the Government of the Republic of China has further requested, and the United States Government has acceded to the request, that the sublimit be increased an additional 70,000 pounds for the twelve-month period which began on October 1, 1974.

Accordingly, there is published below a letter of April 4, 1975, from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, directing that the level of restraint established within Category 224 for men's and boys' knit suits (TSUSA 380.0420 and 380.8143) be increased 70,000 pounds for the twelve-month period which began on October 1, 1974.

Goods exported to the United States from the Republic of China on or before January 31, 1975 will be permitted entry, effective on April 8, 1975. Goods licensed by the Government of the Republic of China on or before January 31, 1975, but exported to the United States subsequent to that date, will be permitted entry upon receipt of a letter of authorization from the Commercial Attache, Embassy of the Republic of China, Van Ness Center, 4301 Connecticut Avenue, NW., Washington, D.C. 20008. All such entries will be subject to the limit of the 70,000 pound increase.

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance U.S. Department of Commerce.

COMMISSIONER OF CUSTOMS
Department of the Treasury,
Washington, D.C. 20229.

DEAR MR. COMMISSIONER: This directive further amends, but does not cancel, the directive issued to you on September 26, 1974 by the Chairman, Committee for the Implementation of Textile Agreements, regarding imports into the United States of wool and man-made fiber textile products in certain categories, produced or manufactured in the Republic of China, and exported to the United States during the twelve-month period which began on October 1, 1974. The directive of September 26, 1974 was previously amended on March 25, 1975.

Under the provisions of the Bilateral Wool and Man-Made Fiber Textile Agreement of December 30, 1971, as amended, between the Governments of the United States and the Republic of China, and in accordance with Executive Order 11651 of March 3, 1972, you are directed further to increase the level of restraint established within Category 224 for TSUSA Numbers 380.0420 and 380.8143 in the directive of September 26, 1974, as amended, by 70,000 pounds.

To the extent of this increase, man-made fiber textile products classified in TSUSA Numbers 380.0420 and 380.8143 which have been exported to the United States from the Republic of China on or before January 31, 1975 shall be permitted entry, effective on April 8, 1975. Shipments which have been licensed by the Government of the Republic of China on or before January 31, 1975, but exported to the United States subsequent to that date, will be released upon authorization of the Government of the Republic of China. You will be notified of these by separate letter.

The actions taken with respect to the Government of the Republic of China and with respect to imports of man-made fiber textile products from the Republic of China have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc.75-9153 Filed 4-4-75;9:12 am]

CERTAIN MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF KOREA

Entry or withdrawal from Warehouse for Consumption

APRIL 3, 1975.

On March 5, 1974, there was published in the FEDERAL REGISTER (39 FR 8375) a letter of February 27, 1974, from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, which directed that visas issued by the Government of the Republic of Korea on and after January 1, 1974, for man-made fiber textile products in Category 224, exported to the United States from the Republic of Korea, should specify a designated subcategory classification within Category 224. The purpose of this notice is to announce that the subclassifications are being amended as follows: (1) Category 224—Suits (TSUSA 380.8143 and 380.0420); (2) Category 224—Coats (TSUSA 380.8103 and 380.0402); and (3) Category 224—Other (all remaining TSUSA numbers included in Category 224 and TSUSA 380.0428 and 380.8165). The amended subclassifications will become effective on May 1, 1975, for man-made fiber textile products in Category 224, exported from the Republic of Korea on and after May 1, 1975. Man-made fiber textile products in Category 224, exported from the Republic of Korea prior to May 1, 1975, will be permitted entry without the amended subclassifications, provided the subclassifications indicated are those specified in the letter of February 27, 1974.

There is published below a letter of April 3, 1975, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs amending the directive of February 27, 1974.

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

APRIL 3, 1975.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229.

DEAR MR. COMMISSIONER: This letter amends, but does not cancel, the directive issued to you by the Chairman of the Committee for the Implementation of Textile Agreements which directed you to prohibit entry of man-made fiber textile products in Category 224, produced or manufactured in the Republic of Korea, for which accompanying visas, did not carry a designated subcategory classification.

Under the provisions of the Wool and Man-Made Fiber Textile Agreement of January 4, 1972, as amended, between the Governments of the United States and the Republic of Korea, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, the directive of February 27, 1974 is hereby amended to require that, effective on May 1, 1975, visas accompanying man-made fiber textile products in Category 224, exported to the United States from the Republic of Korea on and after May 1, 1975, should specify one of the following amended subcategory classifications: 1) Category 224—Suits (TSUSA 380.8143 and 380.0420); 2) Category 224—Coats (TSUSA 380.8103 and 380.0402); and 3) Category 224—Other (all remaining TSUSA numbers included in Category 224 and TSUSA 380.0428 and 380.8165). Visas for man-made fiber textile products in Category 224 exported to the United States from the Republic of Korea prior to May 1, 1975, will not be required to carry the amended subcategory classifications, provided the subclassifications shown are those specified in the directive of February 27, 1974.

The actions taken with respect to the Governments of the Republic of Korea and with respect to imports of cotton, wool and man-made fiber textile products from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc.75-9036 Filed 4-4-75;8:45 am]

CERTAIN MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF KOREA

Entry or withdrawal from Warehouse for Consumption

APRIL 3, 1975.

On October 4, 1974, there was published in the FEDERAL REGISTER (39 FR 35840) a letter of September 26, 1974 from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs establishing levels of restraint applicable to certain specified categories of wool and man-made fiber textile products produced or manufactured in the Republic of Korea and exported to the United States during the twelve-month period which began on October 1, 1974.

The level of restraint established for Category 224 (other wearing apparel, knit, whether or not ornamented) includes a sublimit of 1,282,051 pounds for suits classified in TSUSA 380.8143. This sublimit should also have included suits classified in TSUSA 380.0420, which is part of Category 224, but which was inadvertently omitted from the letter of September 26, 1974.

Further, in the Category 224 sublimit, established for suit-type coats (TSUSA 380.8103 and 380.8107), TSUSA 380.0402 should be substituted for TSUSA 380.8107. TSUSA 380.8107 now covers "other coats, including jackets, of man-made fiber," and will no longer be subject to the suit-coat sublimit under Category 224.

Accordingly, there is published below a letter of April 8, 1975, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directing that suits classified in TSUSA 380.0420, produced or manufactured in the Republic of Korea and exported to the United States during the twelve-month period which began on October 1, 1974, should also be subject to the sublimit established for suits within Category 224. The level published below has not been adjusted to reflect any charges made to TSUSA 380.0420. These have amounted to 114,172 pounds during the period October 1, 1974 through January 31, 1975. An adjustment to account for entries made during the period extending from February 1, 1975 through April 7, 1975, will be transmitted to the Commissioner of Customs when that amount is determined.

The Commissioner is further directed, effective on April 8, 1975, to charge entries in TSUSA 380.0402, in addition to TSUSA 380.8103, to the sublimit established for Category 224 for the twelve-month period which began on October 1, 1974. An adjustment to account for entries in TSUSA 380.0402 during the period October 1, 1974 through April 7, 1975, will be furnished to the Commissioner of Customs when the amount is determined. Entries in TSUSA 380.8107 will not be charged to the sublimit for Category 224 during the twelve-month period which began on October 1, 1974.

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance U.S. Department of Commerce.

APRIL 3, 1975.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229.

DEAR MR. COMMISSIONER: This directive amends, but does not cancel, the directive issued to you on September 26, 1974 by the Chairman, Committee for the Implementation of Textile Agreements, regarding imports into the United States of wool and man-made fiber textile products in certain categories, produced or manufactured in the Republic of Korea.

Under the provisions of the Bilateral Wool and Man-Made Fiber Textile Agreement of January 4, 1972, as amended, between the Governments of the United States and the Republic of Korea, and in accordance with Executive Order 11651 of March 3, 1972, you are directed, effective on April 8, 1975, to amend the TSUSA designations set forth within the sublimit for Category 224/part 222 in the directive of September 26, 1974 as follows:

Category	*12-month level of restraint*
224/part 222 (only T.S.U.S.A. Nos. 380.0428 and 380.8165.	5,580,692 pounds (of which not more than 1,282,051 pounds may be in T.S.U.S.A. Nos. 380.8143 and 380.0420 and not more than 769,231 pounds may be in T.S.U.S.A. Nos. 380.8103 and 380.0402).

Charges to TSUSA 380.0420 have amounted to 114,172 pounds during the period beginning on October 1, 1974 and extending through January 31, 1975. Adjustments to account for the period between February 1, 1975 and April 7, 1975, will be made to you by letter.

Charges in TSUSA 380.0402 during the period, October 1, 1974 through April 7, 1975, will also be made to you by letter.

Entries in TSUSA 380.8107 will not be charged to the sublimit for Category 224 for the twelve-month period which began on October 1, 1974.

The actions taken with respect to the Government of the Republic of Korea and with

V 40 67 APR 7 75 XUM

respect to imports of man-made fiber textile products from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

FLAMMABILITY OF UPHOLSTERED FURNITURE

Meeting

The Consumer Product Safety Commission gives notice that the Commissioners and members of the staff of the Commission will meet with representatives of the Upholstered Furniture Industry on Monday, April 14, 1975, at 10 a.m., in the CPSC Hearing Room, 6th Floor, 1750 K Street, Washington, D.C.

The purpose of the meeting is to discuss, in general, industry approaches to the issue of the flammability of upholstered furniture. The meeting was requested by letter dated March 12, 1975, from Mr. Hampton Powell, President of the Lane Company, Inc., on behalf of several members of the upholstered furniture industry.

A notice of finding that a flammability standard or other regulation under the Flammable Fabrics Act may be needed for upholstered furniture was published in the FEDERAL REGISTER of November 29, 1972 (39 FR 25239). The Commission staff, in conjunction with the National Bureau of Standards, is proceeding with the development of a flammability standard, but has not yet presented a draft to the Commission for approval. The specific provisions of the draft of the standard under development, therefore, will not be discussed at this meeting.

The meeting is open to the public, but space is limited. Persons wishing to attend the meeting should notify the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, telephone (202) 634-7700. A copy of the March 12, 1975, request for the meeting can be obtained from the Office of the Secretary.

Dated: April 2, 1975.

SADYE E. DUNN,
Secretary.
Consumer Product Safety Commission.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

INTERNATIONAL NUCLEAR POWER EXPORT ACTIVITIES

Preparation of Environmental Statement

On August 3, 1974, the United States District Court for the District of Columbia in the case of "Sierra Club et al. v. Atomic Energy Commission et al" ordered the Atomic Energy Commission (AEC) to be the lead agency in preparing an Environmental Statement on the international nuclear power export process. The Statement was to be prepared in implementation of AEC's responsibilities under the National Environmental Policy Act (NEPA).

No injunction was issued by the Court in the above proceeding. Accordingly, there is no legal bar to proceeding with international nuclear power export activities during the period of preparation of the Environmental Statement. Nevertheless, in order to provide as full and complete an analysis as possible, AEC determined that an examination should be made as to whether proceeding with international nuclear power export activities during the period of Statement preparation would be consistent with its NEPA responsibilities, or would prejudice its ability to make an objective review in the Environmental Statement and take whatever action might be appropriate in light thereof.

Subsequent to the Court order and the commencement of the preparation of this interim analysis, the Energy Reorganization Act of 1974 (Pub. L. 93-438) was enacted. This Act, as effectuated by Executive Order No. 11834 (40 FR 2971) abolished the AEC and transferred its functions to two newly created agencies, the Energy Research and Development Administration (ERDA) and the Nuclear Regulatory Commission. As a result of this reorganization, ERDA has assumed AEC's operational functions and responsibilities, including the responsibility to be the lead agency for preparation of the Environmental Statement. In addition, ERDA has assumed responsibility for implementing AEC's decision to review international nuclear power export activities during the period of preparation of the Environmental Statement. Consequently, this interim environmental analysis has been undertaken by ERDA.

The review encompassed in the present document relates to significant international nuclear power export activities conducted between July 1, 1974 and August 30, 1975. These activities include the entering into of Agreements for Cooperation, the execution of uranium enrichment services contracts, the delivery of special nuclear material power reactor fuel under previously executed uranium enrichment services contracts, and the issuance of export licenses for power reactors and special nuclear material fuel for foreign power reactors.

As applied to continuation of the international nuclear power export activities during the interim period, ERDA, in proposing to make the determination at hand, has considered and balanced the following factors:

1. Whether it is likely that the continuation of international nuclear power export activities during the prospective review period will give rise to a significant adverse impact on the environment; the nature and extent of this impact, if any, and whether redress of any adverse environmental effect can reasonably be effected should modification, suspension, or termination of these activities result from the Environmental Statement.

2. Whether continuation of international nuclear power export activities during the review period would foreclose subsequent adoption of alternatives.

3. The effect upon the public interest of a moratorium on international nuclear power export activities.

4. Whether the additional irretrievable commitment of resources involved with international nuclear power export activities conducted during the interim review period might affect the eventual decision reached on the NEPA review.

The results of the examination are set forth in a document entitled "Proposed Findings Supporting Determination in Regard to International Nuclear Power Export Activities Pending Preparation of an Environmental Statement." Based on these ERDA proposes to determine that:

1. Continuation of international nuclear power export activities during the period of preparation of the Environmental Statement will not give rise to a significant adverse environmental impact in the United States or on the high seas during the limited period of the NEPA review. The environmental impacts anticipated to occur in the future due to a continuation of such activities during the interim period will be redressable should the full NEPA review of international nuclear power export activities indicate that a different course of action is advisable.

2. The ability of the United States to adopt modifications to the international nuclear power export process will not be foreclosed significantly by continuing international nuclear power export activities during the limited period of NEPA review.

3. Should continuation of international nuclear power export activities be consistent with the outcome of the full NEPA program review, the termination of such activities until such review is completed would adversely affect the public interest since it would (a) detrimentally impact on U.S. political interests abroad by (1) calling into question U.S. international commitments, (2) disrupting the scheduled production of electric power abroad, (3) being inconsistent with U.S. policy to promote cooperation in the overall energy area and (4) significantly injuring the credibility of the U.S. as an energy supplier abroad; and (b) further aggravate the current deficit in the U.S. balance of payments and cause a loss of millions of dollars of revenue to American industry.

4. The expenditure of resources by ERDA during the limited period of NEPA review ($210.56 million) while not insubstantial is, except for $0.43 million, fully recovered in the charges to foreign customers when product deliveries are made. The expenditure of such resources will not be of such magnitude as to constitute an irrevocable commitment to the continuation of the international nuclear power export process; nor will it affect the eventual outcome of the full NEPA review.

Upon consideration and balancing of the above factors, ERDA proposes to determine that international nuclear power export activities should be continued during the limited period of the NEPA review.

A copy of the Proposed Findings document is available for public inspection at ERDA's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545. Copies may be obtained upon request addressed to W. H. Pennington, Office of the Assistant Administrator for Environment and Safety, U.S. Energy Research and Development Administration, Washington, D.C. 20545.

Interested persons who desire to submit written comments or suggestions for the Administrator's consideration in connection with this examination and the Administrator's final determination and findings thereon should send them to Mr. Pennington on or before May 5, 1975. Copies of comments received by ERDA may be examined at ERDA's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545.

Dated at Washington, D.C., this 4th day of April 1975.

NELSON F. SIEVERING, Jr.
Assistant Administrator for International Affairs.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 356-6]

MARINE SANITATION DEVICE STANDARD FOR MINNESOTA

Receipt of Petition

Notice is hereby given that a petition has been received from the State of Minnesota that the waters of the Great Lakes within Minnesota be designated a no-discharge zone and that the Administrator, Environmental Protection Agency, by regulation completely prohibit the discharge from a vessel of any sewage (whether treated or not) into such waters. Such action is requested pursuant to section 312(f)(4) of Pub. L. 92-500.

Comments and views regarding this requested action may be filed within 45 days from the date of this notice. Such communications, or requests for a copy of the applicant's petition, should be addressed to the Director, Criteria and Standards Division (WH-451), Office of Water Planning and Standards, OWHM, Room 737 East Tower, Waterside Mall, Washington, D.C. 20460.

Dated: April 1, 1975.

RUSSELL E. TRAIN,
Administrator.

[FR Doc.75-9000 Filed 4-4-75;8:45 am]

[FRL 356-5]

MARINE SANITATION DEVICE STANDARD FOR THE STATE OF TEXAS

Receipt of Petition

Notice is hereby given that the State of Texas has petitioned the Administrator, Environmental Protection Agency, to determine that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels within the State of Texas are reasonably available for the State's fresh waters or will be available in the State within a time frame sufficient to adequately administer the intent of the Federal Water Pollution Control Act Amendments of 1972. This action is requested pursuant to section 312(f)(3) of Pub. L. 92-500.

On behalf of the petition, the Executive Director of the Texas Water Quality Board certifies that legislation has been introduced which, if passed by the Texas legislature, will provide the establishment of an adequate number of pump-out facilities to service all vessels that may be reasonably anticipated to require such services; that vessel sewage from each designated pump-out facility is required, or will be required by State statute, to receive adequate treatment in accordance with existing rules and regulations of the Environmental Protection Agency; and that hearings have been held by the Texas Water Quality Board to consider regulations governing the collection and discharge of sewage on and from boats on the inland fresh waters of Texas.

Comments and views regarding this requested action may be filed within 45 days of the date of publication of this notice. Such communications, or requests for a copy of the applicant's petition, should be addressed to the Director, Criteria and Standards Division (WH-451), Office of Water Planning and Standards, OWHM, Room 737, East Tower, Waterside Mall, Washington, D.C. 20460.

Dated: April 1, 1975.

RUSSELL E. TRAIN,
Administrator.

[FRL 355-1; OPP-32000/221]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW., Washington D.C. 20460.

On or before June 6, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after June 6, 1975.

Dated: March 27, 1975.

JOHN B. RITCH, Jr.,
Director,
Registration Division.

APPLICATIONS RECEIVED (OPP-32000/221)

EPA File Symbol 14651-RT. Agricultural Enterprises, Inc., PO Box O, Fremont NB 68025. SUPER AGRI-TEAM LIVESTOCK & DAIRY SPRAY WITH VAPONA AND CIODRIN. FEDERAL POWER COMMISSION

[Docket No. E–8923]

ALLEGHENY POWER SERVICE CORP.

Tendered Tariff Sheets

MARCH 28, 1975.

Take notice that on March 21, 1975, Allegheny Power Service Corporation (Allegheny) tendered for filing copies of First Revised Original Sheets 11, 12, 14 and 15 to Monongahela Power Company's FPC Electric Tariff Original Volume No. 1. Allegheny states that the purpose of its filing is to conform the fuel clause in Monongahela's tariff to the requirements of the Commission set forth in the Commission's Order at Docket No. R–479 dated November 13, 1974. Allegheny proposes to make Revised Sheets 11 and 12 effective March 1, 1975 and Sheets 14 and 15 effective on January 1, 1976, as provided for in a settlement agreement at this docket.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 11, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–8886 Filed 4–4–75;8:45 am]

[Docket No. ID–1734]

JOHN R. BURTON

Supplemental Application

MARCH 28, 1975.

Take notice that on March 21, 1975, John R. Burton (Applicant) filed a supplemental application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following position:

Secretary, Indiana & Michigan Power Company, Public Utility.

Indiana & Michigan Power Company, whose principal office is located in Bridgman, Michigan is a wholly-owned subsidiary of Indiana & Michigan Electric Company which owns and operates the Donald C. Cook Nuclear Plant in Bridgman, Michigan which, when completed, will have two 1100 megawatt generating units. All of Indiana & Michigan Power Company's available electrical energy will be sold to Indiana & Michigan Electric Company.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 15, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI75–112]

CERTAIN PRODUCER AND PIPELINE RESPONDENTS[1]

Requiring Identification of Reservoirs by Pipeline Respondents and Setting Date for Prehearing Conference

MARCH 28, 1975.

By order dated February 20, 1975, we instituted an Investigation Of Status Of Nonproducing Dedicated Reserves in the Federal Domain in the Gulf of Mexico. The respondents were ordered to present testimony and evidence on the issues enumerated therein at a public hearing set on April 22, 1975. On March 10, 1975, Shell Oil Company (Shell) a producer respondent, filed a motion requesting a prehearing conference to assist in determining the order of witnesses to appear for cross-examination and thus save travel expense and time. We consider Shell's point to be well taken and one which will facilitate an orderly presentation of witnesses.

On March 11, 1975, C&K Petroleum Company (C&K) filed a request for clarification of the evidentiary requirements imposed by the order on a respondent who owns an interest in the subject reservoir but is not the operator. C&K states that it is common practice for offshore blocks to be owned by several parties with only one of them doing the actual development work. C&K further alleges that where it is not the operator it usually has no first-hand knowledge relating to why the reservoir is nonproducing and that any evidence it could supply relating to reservoirs where it is a nonoperator interest owner would be repetitive of the operators' testimony. Accordingly, C&K requests that nonoperator interest owners be relieved of the burden of submitting evidence as to reservoirs where it is not the operator. No answer in response to C&K's motion has been filed with the Commission.

On March 20, 1975, Kewanee Oil Company (Kewanee) filed a motion requesting relief from the burden of submitting evidence stating that since it is not the operator of any block or reservoir any evidence it could file would be repetitive of the operator's evidence.

As stated in the order of February 20, 1975, we seek evidence to verify (1) the identification, location and volumes of reserves in nonproducing status claimed by interstate pipeline companies and (2) to determine the economic and engineering feasibility of placing such nonproducing reserves on producing status as soon as practicable.

Consistent with our need to obtain complete and comprehensive information on the issues enumerated above, inter alia, we believe that the burden on nonoperator interest owners alluded to by C&K and Kewanee in their motions can be substantially relieved under the following guidelines. The operator of each reservoir shall be required to submit testimony and evidence on the total gas reserve volumes in the reservoir setting forth the names and interests of the nonoperator interest-owners. This information should be readily available to the operator without imposing a substantial administrative burden.

Similarly the operator of each reservoir shall be required to submit testimony and evidence as to the economic and engineering feasibility of placing such nonproducing reserves on producing status as soon as practicable.

Thus the operator of each reservoir has the primary responsibility for submitting the required evidence pertaining to that reservoir. The nonoperator interest owner must only then state under oath his agreement with and concurrence in the testimony and evidence submitted by the operator for that reservoir.

However, to insure complete and accurate information on each reservoir, the nonoperator interest owner if he disagrees with the gas reserves estimate or economic and engineering analysis submitted by the operator must then submit testimony and evidence setting forth his estimate of dedicated gas reserves and/or economic and engineering analysis of the reservoir.

On March 12, 1975, Kerr-McGee Corporation (Kerr-McGee) a producer respondent, filed a motion to require further identification of reservoirs by pipeline respondents, for an extension of time for compliance, for postponement of the hearing and for a prehearing conference. Kerr-McGee requests that the reservoirs in question be identified with greater particularity by the pipelines in their testimony prior to the time Kerr-McGee is to file its direct testimony and evidence.

[1] See Appendices A and B for names of the respondents hereto.

V 40 67
APR 7 75
XUM

On March 13, 1975, Burmah Oil Development Corporation, Inc. (Burmah), a producer respondent, also filed a motion which requested that the pipeline purchasers include in their testimony and evidence a more definitive identification of the reservoirs and sands involved prior to the submission of a response by Burmah. No answers in response to Kerr-McGee's or Burmah's motions have been filed with the Commission.

Although we are of the opinion that much of the clarifying information necessary to provide a more definitive identification of each reservoir included in the investigation can be gained by direct communication between the producer respondent and its pipeline purchaser, in the interest of clarity and certainty of identity we will require the pipeline respondents in their testimony and evidence to identify the reservoirs in addition to the designations in Appendix C of the February 20, 1975, order by (1) lease number; (2) well name; (3) the measured depth interval on a specified well log where each such asserted reservoir occurs in each well; and (4) fault block identification if necessary. To allow for the additional administrative burden this requirement might impose on the respondent pipelines the date set for them to file direct testimony and evidence has been extended until April 11, 1975, as provided in the Secretary's notice issued March 17, 1975.

To further aid in ascertaining all dedicated nonproducing reservoirs in the Gulf of Mexico Federal Domain the producer respondents are required to report reservoirs and reserves dedicated by them to the pipeline respondents which were not listed in Appendix C, of the February 20, 1975 order, and which were either unknown to the pipeline or for which the pipeline lacked the information necessary to determine whether or not a particular reservoir was on production.

Gulf Oil Corporation (Gulf) in its motion of March 19, 1975, points out that some of the reserves listed as proved reserves by the pipeline respondents on Form No. 15 may be considered by it and other producer respondents to be probable or potential reserves and carried as such on its company's records. If so, such reserves should be specifically identified and designated as such in the producer respondents' testimony and evidence submitted on the reservoirs which are the subject of this investigation.

In addition to Kerr-McGee's request for an extension of time for filing testimony, Continental Oil Company (Continental) by motion dated March 12, 1975, Shell by motion dated March 13, 1975, Gulf by motion dated March 19, 1975 and Getty Oil (Getty) by motion dated March 20, 1975 also requested an extension of time for filing testimony. The extensions requested by these motions run from two weeks to over 60 days. We have by Notice of the Secretary issued March 17, 1975 granted the producer respondents an extension of time for filing direct testimony until May 2, 1975. That date represents a five week extension from the original filing date and three weeks after the pipeline respondents' testimony is due. It will in our opinion provide sufficient additional time for the submission of complete and comprehensive evidence by the producer respondents. As set forth in the notice of the Secretary issued March 17, 1975, the hearing is postponed until May 20, 1975.

The Commission finds. (1) The motions of Shell and Kerr-McGee filed on March 9, 1975, and March 12, 1975, respectively, insofar as they seek a prehearing conference should be granted.

(2) The motions of Kerr-McGee and Burmah filed on March 12, 1975, and March 13, 1975, respectively, insofar as they request a more definitive identification of reservoirs by pipeline respondents should be granted.

The Commission orders. (A) On May 8, 1975, a prehearing conference shall be held in accordance with § 1.18 of the Commission's rules of practice and procedure to resolve the issues herein in a hearing room of the Federal Power Commission, Washington, D.C. 20426, at 10 a.m. (e.d.t.).

(B) The pipeline respondents designated in Appendix A of the order issued February 20, 1975, are required in their testimony and evidence to identify the reservoirs by (1) lease number, (2) well name, (3) the measured depth interval on a specified well log where each such asserted reservoir occurs in each well, and (4) fault block identification if necessary.

(C) The motion filed by C&K on March 11, 1975, insofar as it seeks clarification of the order of February 20, 1975 is granted, and the responses hereinabove set forth constitute our clarification thereof, and in all other respects said order remains in full force and effect.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

HERBERT B. COHN

Supplemental Application

MARCH 28, 1975.

Take notice that on March 21, 1975, Herbert B. Cohn (Applicant) filed a supplemental application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following position:

Vice President & Director, Indiana & Michigan Power Company, Public Utility.

Indiana & Michigan Power Company, whose principal office is located in Bridgman, Michigan is a wholly-owned subsidiary of Indiana & Michigan Electric Company which owns and operates the Donald C. Cook Nuclear Plant in Bridgman, Michigan which, when completed, will have two 1100 megawatt generating units. All of Indiana & Michigan Power Company's available electrical energy will be sold to Indiana & Michigan Electric Company.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 15, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-8895 Filed 4-4-75;8:45 am]

[Dockets Nos. RP74-82, RP74-81]

COLUMBIA GAS TRANSMISSION CORP. AND COLUMBIA GAS TRANSMISSION CO.

Extension of Procedural Dates

MARCH 28, 1975.

On March 18, 1975, UGI Corporation filed a motion to extend the procedural dates fixed by order issued May 31, 1974, as most recently modified by notice issued March 4, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Intervenor's testimony, May 1, 1975.
Service of Intervenor's rebuttal, May 15, 1975.
Hearing, June 3, 1975 (10 a.m., e.d.t.).

MARY B. KIDD, *Acting Secretary.*

[FR Doc.75-8887 Filed 4-4-75;8:45 am]

[Docket No. E-9639]

CONNECTICUT LIGHT AND POWER CO.

Purchase Agreement

MARCH 28, 1975.

Take notice that on March 24, 1975, The Connecticut Light and Power Company (CL&P) tendered for filing a proposed Purchase Agreement with respect to Cos Cob Gas Turbine Units, dated February 19, 1975 between (1) CL&P and (2) Public Service Company of New Hampshire (PSNH).

CL&P states that the Purchase Agreement provides for a sale to PSNH of a specified percentage of capacity and energy from three gas turbine generating units (Cos Cob Unit Nos. No 10, 11 and 12) during the period from March 1, 1975 to April 30, 1975, together with related transmission service.

CL&P states that questions as to PSNH's Capability Responsibility obligation, under the terms of the New England Power Pool (NEPOOL) Agreement, during the term of this Purchase Agreement affected the amounts of gas turbine capacity that could be purchased by PSNH and thus delayed execution of the agreement until a date which prevented the filing of such rate schedule more than thirty days prior to the proposed effective date.

CL&P therefore requests that, in order to permit PSNH to receive urgently needed capacity, the Commission, pursuant to § 35.11 of its regulations, waive the thirty-day notice period and permit the rate schedule filed to become effective on March 1, 1975.

CL&P states that the capacity charge rate for the proposed service is the same rate as that used for other gas turbine capacity sold during this capability period; the monthly transmission charge is equal to one-twelfth of the estimated annual average unit cost of transmission service on the systems of the Northeast Utilities Companies multiplied by the number of kilowatts of winter capability which PSNH is entitled to receive. The variable maintenance charge was arrived at through negotiations.

CL&P states that copies of this rate schedule have been mailed or delivered to CL&P, Hartford, Connecticut, and PSNH, Manchester, New Hampshire.

CL&P further states that the filing is in accordance with Part 35 of the Commission's regulations.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedures (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ID-1335]

DONALD C. COOK

Supplemental Application

MARCH 28, 1975.

Take notice that on March 21, 1975, Donald C. Cook (Applicant) filed a supplemental application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following position:

President & Director, Indiana & Michigan Power Company, Public Utility.

Indiana & Michigan Power Company, whose principal office is located in Bridgman, Michigan, is a wholly owned subsidiary of Indiana & Michigan Electric Company. Indiana & Michigan Power Company owns and operates the Donald C. Cook Nuclear Plant in Bridgman, Michigan, which, when completed, will have two 1100 megawatt generating units. All of Indiana & Michigan Power Company's available electrical energy will be sold to Indiana & Michigan Electric Company.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 15, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. RP72-6]

EL PASO NATURAL GAS CO.

Postponement of Hearing

MARCH 27, 1975.

On March 25, 1975, Pioneer Natural Gas Company, Southern Union Gas Company, Southwest Gas Corporation, and Southwest Natural Gas Consumers jointly filed a motion to postpone the hearing date fixed by order issued March 21, 1975, in the above-designated matter. The motion states that all parties have been notified and that El Paso Natural Gas Company and the Staff Counsel have stated that they are not opposed.

Notice is hereby given that the hearing date in the above matter is postponed until April 8, 1975, at 10 a.m. (e.d.t.). Any written testimony may be submitted at the hearing.

By direction of the Commission.

[Docket No. E-9267]

ELECTRIC ENERGY, INC.

Motion To Waive Notice Requirements

MARCH 28, 1975.

Take notice that on March 24, 1975, Electric Energy, Inc. (Electric) filed a motion at this docket requesting waiver of the thirty day notice requirement of § 35.3(a) of the Commission's regulations in connection with changes in Electric's Rate Schedules FPC No. 3 and FPC No. 4. The company seeks leave to implement those rate schedules on April 1, 1975, or on the date upon which the Commission considers the subject motion. Electric states that the rate schedules involved were filed with the Commission by letter dated February 14, 1975, but on March 10, the Commission found certain deficiencies in that filing and directed submission of corrective materials, which were filed on March 24, 1975.

Any persons desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 14, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Dockets Nos. G-2730; G-2760]

HILDA B. WEINERT AND JANE W. BLUMBERG, ET AL.

Petitions To Amend

MARCH 31, 1975.

Take notice that on March 17, 1975, the Estate of Hilda B. Weinert, Deceased, by Jane W. Blumberg, Independent Executrix, Jane W. Blumberg, Leila A. Bauchman Goddard, John A. Bauchman and James B. Bauchman (Petitioners), c/o H. H. Weinert Estate, 208 N. Austin Street Building, Seguin, Texas 78155, filed in Dockets Nos. G-2730 and G-2760 petitions to amend the certificates of public convenience and necessity issued in said dockets pursuant to section 7(c) of the Natural Gas Act to sell natural gas in interstate commerce for resale to Natural Gas Pipeline Company of America (Natural) and Transcontinental Gas Pipe Line Corporation (Transco), respectively, from the La Gloria Field, Brooks and Jim Wells Counties, Texas, all as more fully set forth in the petitions to amend, which are on file with the Commission and open to public inspection.

Petitioners state that by virtue of the settlement proposal in the proceedings in Docket No. G-2730, et al., concerning the La Gloria Field gas supply, they have amended their gas sales contract with Natural as of August 31, 1974, and have entered into a new contract with Transco dated November 7, 1974. Petitioners, accordingly, request that the Commission amend the order issuing the certificate in Docket No. G-2730 in order that the sale of gas to Natural continue in accordance with the amended contract and the settlement agreement, and that the Commission amend the order issuing the certificate in Docket No. G-2760 in order that Petitioners be authorized to sell gas to Transco in accordance with the gas purchase contract of November 7, 1974.

The petition in Docket No. G-2760 states that Petitioners request a change in rate level for the sale to Transco to the nationwide rate prescribed by § 2.56a of the Commission's general policy and interpretations (18 CFR 2.56a).

Any person desiring to be heard or to make any protest with reference to said petitions to amend should on or before April 18, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. ID-1528]

JOHN TILLINGHAST

Notice of Supplemental Application

MARCH 28, 1975.

Take notice that on March 21, 1975, John Tillinghast (Applicant) filed a supplemental application with the Federal Power Commission. Pursuant to section 305(b) of the Federal Power Act, Applicant seeks authority to hold the following position:

Vice President & Director, Indiana & Michigan Power Company, Public Utility.

Indiana & Michigan Power Company, whose principal office is located in Bridgman, Michigan is a wholly-owned subsidiary of Indiana & Michigan Electric Company which owns and operates the Donald C. Cook Nuclear Plant in Bridgman, Michigan which, when completed, will have two 1100 megawatt generating units. All of Indiana & Michigan Power Company's available electrical energy will be sold to Indiana & Michigan Electric Company.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 15, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8898 Filed 4-4-75;8:45 am]

[Docket No. E-9331]

KANSAS POWER AND LIGHT CO.

Filing of Proposed Changes

MARCH 31, 1975.

Take notice that on March 19, 1975, The Kansas Power and Light Company (Kansas) tendered for filing a newly executed Participation Power Service Schedule dated February 28, 1975, with Central Kansas Power Company, Inc. (Central Kansas) for electric service to Central Kansas. Kansas states that this is a renewal of a similar schedule dated April 2, 1974, and designated KPL Rate Schedule FPC No. 123 Supplement No. 6. The proposed effective date is June 1, 1975.

Kansas further states that copies of this filing have been served upon Central Kansas and the Kansas State Corporation Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 15, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8899 Filed 4-4-75;8:45 am]

[Docket No. CP75-191]

LONE STAR GAS CO.

Petition To Amend

MARCH 28, 1975.

Take notice that on March 5, 1975, Lone Star Gas Company (Petitioner), 301 South Harwood Street, Dallas, Texas 75201, filed in Docket No. CP75-191 a petition to amend the order of the Commission issued in the subject docket on March 25, 1975 (53 FPC), pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(c) of the regulations thereunder (18 CFR 157.7(c)), by requesting a waiver of subparagraph (2) (i) of § 157.7(c) to permit an increase in the total and single project budget-type expenditure limitations, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the order issued in the instant docket on March 25, 1975, Petitioner was granted budget-type authorization to construct and rearrange, from the date of the order through December 31, 1975, and to operate the proposed facilities for sales and deliveries of natural gas. The total expenditures for the facilities authorized are limited to a maximum of $300,000.

Because of alleged increases in the costs of labor and materials in recent years, Petitioner requests that the Commission waive the $300,000 limitation and approve a $500,000 limitation on the total estimated costs of facilities constructed through the end of 1975 pursuant to the budget-type authority granted by the aforesaid order.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before April 16, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8901 Filed 4-4-75;8:45 am]

[Docket No. RP75-78]

McCULLOCH INTERSTATE GAS CORP.

Filing of Tariff Sheets

MARCH 31, 1975.

Take notice that on March 19, 1975, McCulloch Interstate Gas Corporation (McCulloch) tendered for filing the following sheets to its FPC Gas Tariff, First Revised Volume No. 1.

Original Sheet No. 7
Fifth Revised Sheet No. 11
Cancel Original Sheet No. 12
First Revised Sheet No. 29
First Revised Sheet No. 30
First Revised Sheet No. 32

In its filing McCulloch Interstate states that the purpose of these amendments is to provide the basis for an increase in the heat content of the natural gas delivered by McCulloch Interstate to Colorado Interstate Gas Company (McCulloch Interstate's only FPC jurisdictional customer) from the present upper 1030 Btu limit to a new upper limit of 1200 Btu and to convert the FPC Gas Tariff into decatherms, or millions of Btus (MMBtu) in order to convert the higher heating value of the gas to be delivered.

McCulloch Interstate says this change is not, in any way, expected to increase the rate applicable to the number of decatherms or millions of Btus, delivered to Colorado Interstate. Instead, McCulloch Interstate asserts it is expected to

V 40167 APR 75

pave the way for certain economies in McCulloch Interstate's operations and to provide the basis for possible future reductions in the cost of McCulloch Interstate's natural gas deliveries subject to FPC jurisdiction.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8, 1.10. All such petitions or protests should be filed on or before April 11, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8903 Filed 4-4-75;8:45 am]

[Docket No. CP75-227]

MONTANA-DAKOTA UTILITIES CO.

Formal Hearing and Establishing Procedures

MARCH 28, 1975.

On February 10, 1975, Montana-Dakota Utilities Company (Applicant) filed an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of natural gas to Northern Gas Company (Northern Gas), an intrastate company, all as more fully set forth in the filed application.

Specifically, Applicant seeks authorization to sell gas commencing April 1, 1975, to Northern Gas for resale at a rate of 38.88 cents per Mcf, an annual quantity of natural gas equal to 6,000 Mcf per day to be delivered at Riverton Dome, Fremont County, Wyoming. The purpose of this sale, according to Applicant, is to provide gas to Applicant's customers on Applicant's intrastate natural gas system (Sheridan system) serving the communities of Kaycee, Buffalo and Sheridan in Johnson and Sheridan Counties, Wyoming. Applicant states that Northern Utilities, Inc. (Northern Utilities), an affiliate of Northern Gas, will sell an equivalent amount of gas to Applicant to supply the Sheridan system. Applicant further states that Northern Utilities is the current supplier of gas to Applicant for use in its Sheridan system, but that Northern Utilities can no longer supply said gas due to depletion of its own gas reserves.

Applicant declared that there are no facilities required to implement the subject sale. Applicant points out that a condition for the implementation of the subject proposal is that none of the gas purchased by the parties involved shall be transported in interstate commerce and that all gas purchased will be resold, transported, used and consumed wholly within Wyoming. Applicant states that without this condition, Northern Gas and Northern Utilities, both intrastate companies, would not have agreed to the proposals contained herein.

Applicant states that the proposed jurisdictional sale to Northern Gas at Riverton Dome Field will have minimal effect on its gas supply. It acknowledges, however, that the proposed sale will reduce its presently adjusted reserve life index of 14.3 years to 13.8 years. Applicant presently is curtailing deliveries to its interstate customers and it is anticipated that there will be increased curtailment in the future on Applicant's system. Accordingly, we believe that an evidentiary hearing should be held to determine whether the public convenience and necessity requires the certificate of Applicant's proposal in light of its present and future gas supply as well as all other public interest issues that may be involved in determining whether or not to issue the requested certificate.

The Commission finds. Good cause exists to set for formal hearing Applicant's request for a certificate of public convenience and necessity and to establish procedures for that hearing, all as hereafter ordered.

The Commission orders. (A) Pursuant to the authority of the Natural Gas Act, particularly section 7 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I), a public hearing shall be held in this proceeding on April 8, 1975, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, for the purpose of hearing and determining the issues in Applicant's request for a certificate of public convenience and necessity.

(B) On or before April 4, 1975, Applicant and any other parties in support of Applicant's request for a certificate of public convenience and necessity shall file testimony and exhibits comprising their cases-in-chief in support of their position and shall serve such proposed evidence on all parties, including Commission staff, in this proceeding.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge—See, Delegation of Authority, 18 CFR 3.5(d)—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission rules of practice and procedure.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8918 Filed 4-4-75;8:45 am]

[Docket No. RP74-96]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Further Extension of Procedural Dates

MARCH 27, 1975.

On March 21, 1975, Staff Counsel filed a motion to extend the procedural dates fixed by order issued June 28, 1974, as most recently modified by notice issued January 16, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objections.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of intervenor's testimony, April 28, 1975.
Service of company rebuttal, May 12, 1975.
Hearing, May 28, 1975 (10 a.m., e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8908 Filed 4-4-75;8:45 am]

[Dockets Nos. E-8641, E-8251, E-8169, and E-8476]

NEW ENGLAND POWER CO.

Order Granting Late Intervention

MARCH 28, 1975.

On February 26, 1974, the New England Power Company (NEPCO) tendered for filing a proposed rate increase to its primary service for resale customers (Rate R-8) and a petition for emergency relief by way of waiver of the Commission's rules and regulations to permit its new Rate R-8 to become effective, subject to refund on April 1, 1974. NEPCO's filing was noticed by the Commission on March 4, 1974, with protests and petitions to intervene due on or before March 15, 1974.

On March 6, 1975, Green Mountain Power Corporation (Green Mountain) tendered a late petition to intervene in this proceeding. Green Mountain asserts, inter alia, that its interests are not adequately represented by existing parties, and that granting its petition will in no way delay this proceeding.

Having reviewed the subject petition, we believe that Green Mountain's participation in this proceeding will be in the public interest.

The Commission finds. It is desirable and in the public interest to permit Green Mountain to intervene in this proceeding.

The Commission orders. (A) Green Mountain is hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The intervention granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8904 Filed 4-4-75;8:45 am]

[Dockets Nos. RP72-154, RP74-72, PGA75-4, and 75-4A]

NORTHWEST PIPELINE CORP.

Proposed PGA Rate Increase and Granting Intervention

MARCH 31, 1975.

On February 14, 1975, Northwest Pipeline Corporation (NPC) tendered for filing a proposed change in rates[1] pursuant to the Purchased Gas Cost Adjustment provision of its FPC Gas Tariff, Original Volume No. 1 and to reflect a Demand Charge Credit adjustment. On February 28, 1975, Northwest Pipeline Corporation (NPC) filed a revision[2] to its February 14th filing to reflect the elimination of certain producer increases included in the February 14 filing and to reflect a change in the method of determining changes in its purchased gas costs. On March 5, 1975, Northwest tendered for filing additional tariff sheets[3] to reflect changes in Northwest's purchase patterns and corresponding changes in the method of determining the annual cost of purchased gas and excluding certain purchases from the operation of its PGA clause.

Notice of these three filings was issued on February 20, March 11, and March 12, 1975. The People of the State of California and the California Public Utilities Commission filed a timely notice of intervention. By notice issued March 21, 1975, we extended the period for comment or petition to intervene until March 27, 1975.

The February 28 and March 5 filings replace the original filing of February 14, 1975. We shall accordingly act only on those two filings and grant Northwest's request to substitute Sixth Revised Sheet No. 10 for Seventh Revised Sheet No. 10.

The increase proposed by Northwest reflects an annualized decrease in the cost of purchased gas and a surcharge adjustment to recover the balance in Northwest's unrecovered purchased gas cost account (including an amount attributable to and being collected on behalf of El Paso Natural Gas Company which Northwest agreed to collect at divestiture and had not finished collecting at the time of Northwest's last semi-annual PGA filing). The surcharge also is to recover producer increases pursuant to Opinion No. 699–H and interest costs of $239,000. This interest is on amounts included in Northwest's unrecovered purchased gas cost account for the period from November 1 through November 17, 1974. The proposed increase also represents recovery of certain demand charge credits pursuant to Northwest's tariff.

We believe that in all respects except for the attempt to recover interest attributable to unrecovered purchased gas costs for the period from November 1 through November 17, 1974, the proposed increase is just and reasonable. We shall accept the filing and permit it to become effective as conditioned herein. We do not believe, however, that Northwest should be permitted to collect interest attributable to its unrecovered purchased gas costs for the period from November 1 through November 17, 1974.

This approval is also subject to any rate adjustments and/or refunds which may be required as a result of further orders in Docket No. R–389–B or of any appeals of such orders to the Courts. Such rate adjustments and/or refunds shall, of course, be governed by the provisions of Northwest's PGA clause and § 154.38(d)(4) of the regulations.

Northwest requests special permission to include the interest expense attributable to the unrecovered cost for that period, stating that it should not be required to absorb this cash flow burden because of events beyond its control. Northwest relies on alleged similar circumstances to the circumstances underlying our grant of permission to Northern Natural Gas Company by order issued October 21, 1974 to collect interest on amounts in its deferred purchased gas cost account. We do not believe that the circumstances are similar.

Northwest's PGA clause provides for semi-annual adjustments for changes in its purchased gas costs on April 1 and October 1 of each year. Northwest filed, on October 4, 1974, a revised tariff sheet which it requested to become effective November 1, 1974. We granted an exception to the semi-annual requirement in Northwest's tariff because of the magnitude of the increase Northwest would otherwise have to bear until its next semi-annual change provided by its tariff.[4] However, because of problems its distributor customers alleged with regard to passing through Northwest's increase, we did not grant waiver of the notice requirement of the regulations. Instead of requiring Northwest to bear the entire cost from November 1, 1974 until April 1, 1975, we permitted Northwest to increase its rates effective November 18, 1974 and to include the amounts it could not recover between November 1 and November 17 in its unrecovered purchased gas cost account. This special permission to permit the increase to become effective on other than the dates provided by Northwest's tariff was in recognition of the magnitude of the amounts involved and the cost to Northwest if it were to be required to absorb the cost until its next semi-annual adjustment date. We believe that under these circumstances, Northwest is whole and that the surcharge to recover the interest costs should be eliminated from Northwest's proposed increase.

The filing of March 5, 1975, proposes to modify its tariff so that Northwest may reflect certain changes in its purchase patterns, determine the annualized cost of purchased gas based on this change in purchase patterns, and to exclude from the operation of its PGA clause certain gas to be sold under an incremental pricing arrangement. We believe that these changes are reasonable and we shall accept the tariff sheets and permit them to become effective April 1, 1975.

The Commission finds. (1) Good cause exists to accept for filing the tariff sheets filed by Northwest on February 28 and March 5, 1975, and permit them to become effective April 1, 1975, as hereinafter conditioned.

(2) Good cause exists to permit the intervention of the California Public Utilities Commission.

The Commission orders. (A) The tariff sheets filed by Northwest on February 28 and March 5, 1975 are hereby accepted for filing and permitted to become effective April 1, 1975; *Provided, however,* That Northwest shall, within 15 days of the issuance of this order, file a revised tariff sheet which eliminates the surcharge to recover interest for the period from November 1 through November 17, 1974.

(B) The California Public Utilities Commission is permitted to intervene subject to the rules and regulations of the Commission; *Provided, however,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved by any order or orders entered in this proceeding.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8917 Filed 4-4-75;8:45 am]

[Project No. 2751]

OHIO POWER CO.

Application for Preliminary Permit Unconstructed Project

MARCH 31, 1975.

Public notice is hereby given that application for preliminary permit has been filed under the Federal Power Act (16 U.S.C. 791a–825r) by the Ohio Power Company (correspondence to: Frank N. Bien, Executive Vice President, Ohio Power Company, 301 Cleveland Avenue, SW., Canton, Ohio 44702 and A. Joseph Dowd, Esq., Vice President and General Counsel, American Electric Power Service Corporation, Two Broadway, New York, New York 10004) for proposed Project No. 2751, to be known as Gallipolis Hydroelectric Project, located in Gallia County, Ohio, on the

[1] Seventh Revised Sheet No. 10.
[2] Sixth Revised Sheet No. 10.
[3] Second Revised Sheet Nos. 56 and 57 and First Revised Sheet No. 56.
[4] *Northwest Pipeline Corporation,* Docket Nos. RP72-154 and CP72-332, issued October 30, 1974, mimeo at 3.

V 40 67 APR 7 75 XUM

Ohio River. The project affects navigable waters of the United States and lands of the U.S. and would utilize water from a government dam.

The Gallipolis Project would consist of a powerhouse constructed at the west end (Ohio side) of the U.S. Corps of Engineers' Gallipolis Locks and Dam. The proposed powerhouse would have an installation of low head generating units totaling approximately 40,000 kW. Normal pool elevation of the Gallipolis reservoir is 538 feet. Applicant states that the installation would be similar to Applicant's proposed Racine Hydroelectric Project No. 2570 located immediately upstream (Mile 237). The installation would be coordinated with the proposed replacement and modernization of the Corps' existing Gallipolis Locks and Dam recommended by the Board of Rivers and Harbors. A four mile-long 69 kV transmission line would connect this generating facility with the American Electric Power System. No construction is authorized under the preliminary permit.

Applicant proposes to market the electric power developed by the project to meet the loads and expected load growth of its customers in the State of Ohio.

Any person desiring to be heard or to make protest with reference to said application should on or before June 9, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8906 Filed 4-4-75;8:45 am]

[Project No. 178]

PACIFIC GAS AND ELECTRIC CO.

Issuance of Annual License

MARCH 28, 1975.

On May 1, 1972, Pacific Gas and Electric Company, Licensee for Kern Canyon Project No. 178, located in Kern County, California, on the Kern River, filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1–16.6).

The license for Project No. 178 was issued effective April 30, 1925 for a period ending April 29, 1975. In order to authorize the continued operation and maintenance of the Project pursuant to section 15 of the Act, pending Commission action on Licensee's application, it is appropriate and in the public interest to issue an annual license to Pacific Gas and Electric Company for continued operation and maintenance of Project No. 178.

Take notice that an annual license is issued to Pacific Gas an Electric Company (Licensee) under section 15 of the Federal Power Act for the period April 30, 1975 to April 29, 1976 or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of Kern Canyon Project No. 178 subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8907 Filed 4-4-75;8:45 am]

[Docket No. E-9338]

PACIFIC POWER & LIGHT CO.

Initial Rate Filing

MARCH 31, 1975.

Take notice that Pacific Power & Light Company (Pacific) on March 20, 1975, tendered for filing a new rate schedule for hourly coordination of projects in the Mid-Columbia River. Participants in the agreement include all of the Federal agencies and public and private utilities that have rights in the seven Mid-Columbia hydroelectric projects.

Pacific states that this agreement provides for moment-by-moment coordination of the seven hydroelectric projects on the Mid-Columbia stretch of the Columbia River; namely, Grand Coulee, Chief Joseph, Wells, Rocky Reach, Rock Island, Wanapum and Priest Rapids. The Company explains that this coordination is designed to obtain increased amounts of electric power and energy from the total system of projects, enhance non-power uses by reducing the extent and rate of fluctuations of river levels, and to provide scheduling flexibility. Pacific states that no estimate of quantities of energy to be delivered or revenues derived therefrom can be made until experience has been obtained from operation under this agreement.

Pacific requests waiver of the Commission's notice requirements to permit the rate schedule to become effective January 30, 1973, which it claims to be the date of commencement of service.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 14, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-77]

PANHANDLE EASTERN PIPE LINE CO.

Change in Tariff

MARCH 28, 1975.

Take notice that Panhandle Eastern Pipe Line Company (Panhandle), on March 14, 1975 tendered for filing proposed changes to its F.P.C. Gas Tariff, Original Volume No. 2. Panhandle states that such changes are due to an amendment to the Gas Exchange Agreement with Kansas-Nebraska Natural Gas Company, Inc., this agreement being authorized by the Commission Order of June 19, 1970 in the above referenced docket. Panhandle proposes an effective date of April 11, 1975.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C., in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 7, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. E-9334]

PUBLIC SERVICE COMPANY OF OKLAHOMA

Termination of Rate Schedule

MARCH 28, 1975.

Take notice that on March 21, 1975 Public Service Company of Oklahoma (PSCO) tendered for filing a notice on cancellation of Supplement No. 24 to Rate Schedule FPC No. 116. PSCO states that the rate schedule is an agreement between PSCO and Southwestern Electric Power Company (SEPCO). The termination date is May 31, 1975.

A copy of the filing has been sent to SEPCO, and to the Corporation Commission of Oklahoma.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 15, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

TEXAS EASTERN TRANSMISSION CORP.

Petition To Amend Certificate of Public Convenience and Necessity

MARCH 28, 1975.

Take notice that on March 14, 1975, Texas Eastern Transmission Corporation (Petitioner) filed in Docket No. CP75-145 a petition to amend the order issued in said docket on January 20, 1975, pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(b) of the regulations thereunder (18 CFR 157.7(b)), so as to increase the total annual cost limitations for budget-type gas purchase facilities authorized in said order to $10,000,000 and the single project cost limitations to $1,500,000 and $2,500,000 for onshore and offshore projects, respectively, and so as to expand the definition of authorized budget-type

V 40 67 APR 75 XUM

gas purchase facilities to include those facilities which connect producers' facilities with the facilities of another natural gas company authorized to transport for the account of or exchange with Petitioner gas purchased by Petitioner, all as more fully set forth in the petition to amend, which is on file with the Commission and open to public inspection.

The petition states by the January 20, 1975, order in the instant docket Petitioner is presently authorized to construct, during the calendar year 1975, and operate gas purchase facilities necessary to transport and receive into its main pipeline system supplies of natural gas available from producing areas located adjacent to said system, at a total cost limitation of $2,000,000 and single project cost limitations of $500,000 for both onshore and offshore projects. Petitioner requests the above described increase in total annual cost limitation and single project cost limitations and an expanded definition of budget-type gas purchase facilities stating that such a request is within the contemplation of the Commission's Order No. 522, issued January 16, 1975, in Docket No. RM75-2, Budget-type Applications—Gas Purchase Facilities (18 CFR 2.58, 157.7(b)).

Petitioner alleges that the increased cost limitations and expanded definition of gas purchase facilities will afford it additional flexibility in securing new gas supplies and in moving such gas supplies to market under transportation and exchange arrangements with other companies.

Any person desiring to be heard or to make any protest with reference to said petition should on or before April 15, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this petition if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Petitioner to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-64]

TEXAS GAS TRANSMISSION CORP.

Suspending Proposed Tariff Provisions, Waiving Notice Requirements, Establishing Hearing and Conference Procedures

MARCH 28, 1975.

On September 30, 1974, Texas Gas Transmission Corporation (Texas Gas) submitted for filing, pursuant to section 4 of the Natural Gas Act, Third Revised Sheet No. 91, Fifth Revised Sheet No. 92, Third Revised Sheet No. 92-B, and Second Revised Sheet No. 92-C to Texas Gas' FPC Gas Tariff, Third Revised Volume No. 1. The revised tariff sheets reflect the priorities-of-service during periods of curtailed deliveries prescribed by Commission Order No. 467-B issued March 2, 1973, that are now in effect on the Texas Gas system as well as a continuation of the provision for the recovery of demand charge adjustments.

On March 18, 1975, Texas Gas filed a motion requesting the Commission to (1) place the above-numbered revised tariff sheets in effect on April 1, 1975, and (2) convene a conference in this proceeding on April 3, 1975, with a deferral of any scheduling of the service of testimony and a hearing until a later date. Texas Gas, in its motion, avers that at a meeting between it and its customers on February 25, 1975, it was generally agreed that the possibility of settlement should be explored.

Texas Gas proposes that its tariff filing become effective on April 1, 1975, because the currently effective tariff provisions relating to priority-of-service and demand charge adjustments, as contained in the Third Stipulation and Interim Agreement approved by the Commission's order issued March 29, 1974, expire on March 31, 1975. In the event that the Commission suspends any or all of the proposed tariff sheets, Texas Gas requests the assignment of such earlier effective date as necessary in order that they may be made effective, after suspension, on April 1, 1975. It also requests a waiver of the notice requirements of § 154.22 of the Commission's regulations under the Natural Gas Act.

Texas Gas states that its filing was made at this time pursuant to the provisions of Article VI of its aforementioned settlement agreement in order that the various parties could enter settlement negotiations well in advance of the proposed effective date of April 1, 1975.

Pursuant to our Notice published in the FEDERAL REGISTER petitions for and notices of intervention were due on or before October 16, 1974. A timely joint protest was filed by General Motors Corporation and The Brick Institute of America (General Motors and BIA). Columbia Gas Transmission Corporation (Columbia) filed a timely petition for leave to intervene,[1] request for hearing and suspension. Union Hospital, Inc., of Terre Haute, Indiana, also filed a timely petition for leave to intervene. On March 20, 1975, the Mississippi Public Service Commission filed a notice of intervention out of time; and petitions for leave to intervene out of time were filed by the following: Aluminum Company of America, on February 11, 1975; W. R. Grace and Company, on February 24, 1975, as supplemented March 14, 1975; and The Babcock & Wilcox Company, on March 18, 1975. Additionally, Mississippi Power & Light Company filed a protest out of time on November 8, 1974, requesting hearing if a satisfactory settlement is not reached.

General Motors and BIA oppose several aspects of Texas Gas' proposed Order No. 467-B curtailment priorities, especially the assumption herein that interruptible natural gas customers can convert more easily to alternate fuels than firm customers, and request that this filing be suspended for five months. Columbia asserts that the 467-B curtailment sequence and its implementation by Texas Gas has not been shown to be justified. It requests suspension of the filing and formal hearing for the purpose of determining a permanent curtailment plan for Texas Gas.

Although a portion of Texas Gas' tariff filing contains priorities-of-service for curtailment that are consistent with our Statement of Policy in Order No. 467-B issued March 2, 1973, objections have been raised and formal hearing requested in regard to these proposed tariff provisions as well as those relating to the recovery of demand charge adjustments. Therefore, we are of the view that we should suspend the effectiveness of Texas Gas' entire tariff filing until April 1, 1975.

We are mindful that Texas Gas and certain interveners previously have filed evidentiary support for their respective positions in regard to these proposed tariff provisions among others, that was submitted on December 5, 1973, for transcription into the hearing record on December 18, 1973. Such precedes the Commission's order approving the interim settlement between Texas Gas and its customers issued March 29, 1974. However, Texas Gas, additionally, should submit evidence in the form of testimony and exhibits showing the current impact on its customers of implementing the proposed Order No. 467-B priorities-of-service, together with a filing of end-use data reflecting any changes therein since prior filings that have been found to be appropriate as a result of the review of such data by the data verification committee. In order to avoid a repetition of evidence already submitted, all parties may designate which part or parts, if any, of previously filed testimony that they wish to retain in support of their positions regarding the instant filing.

[1] Since Columbia already had been admitted as a party to this proceeding, the additional request for leave to intervene was not necessary.

As indicated, Texas Gas has requested a waiver of the 60-day notice requirement of § 154.22 of our regulations under the Natural Gas Act with regard to tariff filings because the Commission's approval of its currently effective priorities-of-service during curtailment and provision for recovery, demand charge adjustments expires on March 31, 1975, and Article VI of its interim settlement agreement requires the filing of a permanent curtailment plan six months prior to April 1, 1975, in order to facilitate settlement negotiations among the various parties herein.

Based upon the pleadings before us, we conclude that good cause has been shown to warrant waiver of our aforesaid notice requirements for Texas Gas' tariff filing and to schedule an informal conference. In order to insure an expedited trial of the issues in this proceeding, however, we shall set dates for the filing of testimony and the commencement of cross-examination.[2]

The Commission finds. (1) Third Revised Sheet No. 91, Fifth Revised Sheet No. 92, Third Revised Sheet No. 92-B, and Second Revised Sheet No. 92-C to Texas Gas' FPC Gas Tariff, Third Revised Volume No. 1, have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the revised tariff sheets set forth in paragraph (1) above be accepted for filing as of the date of issuance of this order, be suspended, and the use thereof deferred as herein provided.

(3) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearing concerning the lawfulness of the proposed provisions in Texas Gas' FPC Gas Tariff and that the issues in this proceeding be scheduled for hearing in accordance with the procedures hereinafter set forth.

(4) The participation of the above-named petitioners in this proceeding may be in the public interest.

The Commission orders. (A) Third Revised Sheet No. 91, Fifth Revised Sheet No, 92, Third Revised Sheet No. 92-B, and Second Revised Sheet No. 92-C to Texas Gas' FPC Gas Tariff, Third Revised Volume No. 1, are hereby accepted for filing as of the date of issuance of this order.

(B) The tariff sheets set forth in paragraph (A) above are hereby suspended and the use thereof deferred until April 1, 1975, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) An informal conference among Texas Gas, and all parties to the proceeding shall be held on April 3, 1975, at 10 a.m., (e.d.t.); at the offices of the Federal Power Commission, Washington, D.C., to be presided over by the Commission Staff.

(D) The notice requirements of § 154.22 of the Commission's regulations under the Natural Gas Act are hereby waived.

(E) On or before April 25, 1975, Texas Gas shall file and serve its case-in-chief with respect to the proposed changes in its FPC Gas Tariff, which shall include evidence in the form of testimony and exhibits showing the current impact on its customers of implementing the proposed Order No. 467-B priorities-of-service, along with a filing of end-use data reflecting any changes therein since prior filings found to be appropriate as a result of the review of such data by the data verification committee.

(F) On or before May 9, 1975, interveners shall file testimony and exhibits comprising their cases-in-chief providing evidentiary support of their respective positions in regard to the issues arising from the proposed tariff provisions in Texas Gas' FPC Gas Tariff.

(G) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, and 15 thereof the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter D, a public hearing shall be held in this proceeding on May 20, 1975, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, Washington, D.C., for the purpose of incorporating into the record the testimony and exhibits previously distributed and the commencement of cross-examination.

(H) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge—see Delegation of Authority, 18 CFR 3.5(d)—shall preside at, and control these proceedings, in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

(I) The above-named petitioners are hereby permitted to become interveners in this proceeding subject to the Rules and Regulations of the Commission: *Provided, however,* That the participation of such interveners shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *Provided, further,* That the admission of such interveners shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8916 Filed 4-4-75;8:45 am]

[2] On March 26, 1975, an answer to Texas Gas' motion was filed by General Motors Corporation. Our determination of the issues involved in Texas Gas' tariff filing and motion in this order, in essence, grants the relief requested in General Motors' answer.

[Dockets Nos. RP75-3, RP74-48]

TRANSCONTINENTAL GAS PIPE LINE CORPORATION

Extension of Procedural Dates

MARCH 27, 1975.

On March 18, 1975, Transcontinental Gas Pipe Line Corporation filed a motion to extend the procedural dates fixed by order issued August 30, 1974, as most recently modified by notice issued February 27, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of intervenor's testimony, April 24, 1975.
Service of company rebuttal, May 14, 1975.
Hearing, May 28, 1975 (10 a.m., e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-8914 Filed 4-4-75;8:45 am]

[Docket No. RP74-52; PGA75-2]

TRANSWESTERN PIPELINE CO.

Filing and Suspending Higher Alternate PGA Rate Increase and Accepting Without Suspension Lower Alternate PGA Rate Increase

MARCH 31, 1975.

On February 14, 1975, Transwestern Pipeline Company (Transwestern) tendered for filing a proposed increase in rates and charges[1] of (1) $14 million to reflect increased purchased gas costs and (2) a revised surcharge to recover the balance in the deferred purchased gas account. The proposed effective date is April 1, 1975. Transwestern also filed an alternate rate increase[2] which eliminates the impact of costs related to that portion of small producer purchases in excess of the rate levels prescribed in Opinion No. 699-H. Transwestern requests an April 1, 1975, effective date for this rate increase in the event the Commission suspends the higher alternate increase for one day.

The filing was noticed with comments due on or before March 19, 1975. No comments have been received.

Our review of the higher alternate rate increase filing, as set forth in the tariff sheets listed in Footnote 1, indicates that it contains small producer purchases at rates in excess of the rate levels established in Opinion No. 699-H.[3] Therefore, the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly, we shall accept the higher rate alternate

[1] Revised Second Revised Sheet Nos. 3-A and 3-B to FPC Gas Tariff, First Revised Volume No. 1.

[2] Second Revised Sheet Nos. 3-A and 3-B to FPC Gas Tariff, First Revised Volume No. 1.

[3] Issued December 4, 1974, in Docket No. R-389-B.

V 40 67 APR 7 75 XUM

rate increase for filing, suspend it for one day until April 2, 1975, when it shall be permitted to become effective, subject to refund.

With regard to the issue of small producer purchases, we note that the Supreme Court has recently remanded the small producer rulemaking in order for the Commission to enunciate the standards in determining the justness and reasonableness of the prices for small producer purchases.[4] Accordingly, we believe it would be premature to establish a hearing schedule at this time.

Our review of Transwestern's lower alternate filing indicates that it contains claimed increased purchased gas costs other than those purchased gas costs associated with that portion of small producer purchases in excess of the rate levels prescribed in Opinion No. 699–H and that such costs are justified and comply with the standards set forth in Docket No. R–406. Accordingly, we shall accept for filing Transwestern's lower alternate rate increase, set forth in the tariff sheets listed in Footnote of this order, to become effective April 1, 1975.

This effectuation of the aforementioned rate increases is also subject to any rate adjustments and/or refunds which may be required as a result of further orders in Docket No. R–389–B or of any appeals of such orders to the Courts. Such rate adjustments and/or refunds shall, of course, be governed by the provisions of Transwestern's PGA clause and § 154.38(d) (4) of the regulations.

The Commission finds. It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that;

(1) Transwestern's higher alternate rate increase set forth in footnote 1 above be suspended for one day until April 2, 1975, when it shall become effective, subject to refund.

(2) The lower alternate rate increase reflected in the tariff sheets listed in footnote 2 of this order containing claimed increased purchased gas costs other than those increased purchased gas costs associated with that portion of small producer purchases in excess of the rate levels prescribed in Opinion No. 699–H be approved as being in compliance with the standards set forth in Docket No. R–406.

The Commission orders. (A) Transwestern's higher alternate rate increase reflected in the tariff sheets listed in footnote 1 of this order is accepted for filing, and suspended for one day until April 2, 1975, when it shall become effective, subject to refund, pending further Commission action.

(B) Transwestern's lower alternate rate increase reflected in the tariff sheets listed in footnote 2 of this order is accepted for filing to become effective April 1, 1975.

(C) The effectuation of the aforementioned rate increases is also subject to any rate adjustments and/or refunds which may be required as a result of further orders in Docket No. R–389–B or of any appeals of such orders to the Courts. Such rate adjustments and/or refunds shall, of course, be governed by the provisions of Transwestern's PGA clause and § 154.38(d) (4) of the regulations.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–8915 Filed 4–4–75;8:45 am]

[4] "Federal Power Commission v. Texaco, Inc., et al.," Dockets Nos. 72–1490 and 73–1491, Opinion issued June 10, 1974.

FEDERAL RESERVE SYSTEM

AMERICAN CORP.

Approving Formation of Bank Holding Company, Retention of an Industrial Bank, and Engaging in Insurance Agency Activities

American Corporation, North Platte, Nebraska, has applied for the Board's approval under section 3(a) (1) of the Bank Holding Company Act (12 U.S.C. 1842(a) (1)) of formation of a bank holding company through the acquisition of an additional 57.6 percent of the voting shares of American Security Bank, North Platte, Nebraska ("Bank"). At the same time, Applicant has applied, pursuant to section 4(c) (8) of the Act (12 U.S.C. 1843 (c) (8)) and § 225.4(b) of the Board's Regulation Y, for approval to retain 95.6 percent of the shares of American State Savings Company, North Platte, Nebraska ("Company"), a company operating as an industrial bank, and also to continue to act as insurance agent for the sale of credit related insurance. These activities have previously been determined by the Board to be closely related to banking (12 CFR 225.4(a) (2) and (9) (ii)).

Notice of receipt of the applications, affording an opportunity for interested persons to submit comments and views, has been given in accordance with sections 3 and 4 of the Act (39 FR 34116). The time for filing comments and views has expired, and the Board has considered the applications and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and the considerations specified in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

As a result of the proposed transaction, Applicant, which presently owns 22.5 percent of the shares of Bank, would increase its ownership to about 80 percent of the outstanding shares of Bank. With approximately 1.5 percent of the market's commercial bank deposits, Bank (deposits of $1.2 million) [1] ranks eighth among nine commercial banks located in the relevant banking market.[2] The shares of Bank which Applicant would acquire are currently held by individuals who are also shareholders of Applicant. The proposal to acquire Bank, therefore, represents merely a restructuring of the existing ownership of Bank from individuals to a corporation. Since the Applicant has no commercial banking subsidiaries the acquisition of Bank by Applicant would have no adverse effects on competition, and the Board concludes that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant and Bank are satisfactory and consistent with approval of the application. Similarly, considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Boards judgment that consummation of the proposal to acquire Bank by Applicant would be consistent with the public interest and that the application should be approved.

To gether with its application to acquire Bank, Applicant is seeking approval under section 4(c) (8) of the Act to continue to hold shares of Company, an industrial bank, and to act as insurance agent for the sale of credit related insurance. Company (savings deposits of $4.1 million) is one of the nine industrial loan and investment companies authorized under Nebraska law to issue certificates of indebtedness and to make consumer and real estate loans. To a limited extent Company competes with the commercial banks operating in the relevant market for savings type deposits and certain loans. However, the amount of such competition does not appear to be meaningful in view of the uninsured status of Company's deposits and small amount of loans in the market accounted for by Company. In addition, in connection with this proposal, it is noted that Applicant currently owns Company and the principal shareholders of Applicant are also the principal shareholders of Bank. Accordingly, on the basis of the facts of record, the Board concludes that no significant existing or future competition would be eliminated as a result of this transaction.

Furthermore, Applicant's continuing to act as insurance agent for the sale of insurance related to extensions of credit by Bank and Company would enable Applicant to continue to offer the customers of Bank and Company a convenient source of insurance services, which factor the Board regards as being in the public interest. It does not appear that the offering of such services by Applicant would have any significant adverse effect on existing or future competition. Moreover, with regard to both activities, there is no evidence in the record indicating that consummation of the proposal would result in any undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices, or other adverse effects on the public interest.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the considerations affecting the competitive factors under section 3(c) of the Act and the balance of public interest factors under section 4(c) (8) of the Act both favor approval of the applications.

Accordingly, the applications are approved for the reasons summarized above. The acquisition of Bank shall not be made before the thirtieth calendar day following the effective date of this Order or later than three months after the effective date of this Order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Kansas City pursuant to delegated authority. The determination as to Applicant's insurance agency and industrial loan activities is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of the holding company or any of its subsidiaries as the Board finds necessary to insure compliance with the provisions and purposes of the Act and to the Board's regulations and orders issued thereunder or to prevent evasion thereof.

By order of the Board of Governors,[3] effective March 31, 1975.

[SEAL] THEODORE E. ALLISON, *Secretary of the Board.*

[FR Doc. 75–8954 Filed 4–4–75; 8:45 am]

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

Establishment of Branch

The Board of Governors has approved a proposal by the Federal Reserve Bank of Atlanta to establish a branch office at Miami, Florida. Below is the text of a press release regarding the branch:

The Board of Governors of the Federal Reserve System announced today its approval of a proposal by the Federal Reserve Bank of Atlanta to establish a branch office at Miami, Florida.

A Federal Reserve facility for check collection and for distribution of currency and coin has been in operation in Miami since mid-1971. This facility—to be designated a branch—will expand its operations in phases to include the maintenance of member bank reserve accounts and a fiscal agency function for the sale of Treasury securities.

The additional functions will begin later this year at a date to be announced by the Federal Reserve Bank of Atlanta.

The new branch will be the first established by the Federal Reserve since 1927 when offices were opened at San Antonio (July 5) and Charlotte (December 1). The branch will provide service in the same area now served by the Miami facility—the 13 southern Florida counties of Broward, Charlotte, Collier, Dade, Glades, Hendry, Indian River, Lee, Martin, Monroe, Okeechobee, Palm Beach and St. Lucie.

In authorizing the establishment of the branch, the Board noted the rapid growth that has occurred in recent years in southern Florida. The estimated population of the Miami metropolitan area is about 1.45 million persons compared with approximately 1.12 million in 1968. There are currently more than 260 commercial banks in the area to be served by the branch compared with about 150 banks when the Miami facility was authorized in 1970.

The new branch will be the 25th to be operated by the 12 Federal Reserve Banks. In addition, the Federal Reserve operates separate check processing centers at Lewiston, Maine; Windsor Locks, Connecticut; Cranford, New Jersey; Jericho, New York; Columbia, South Carolina; Columbus, Ohio; Indianapolis, Des Moines and Milwaukee (beginning April 1).

Board of Governors of the Federal Reserve System, March 31, 1975.

[SEAL] GRIFFITH L. GARWOOD, *Assistant Secretary of the Board.*

[FR Doc.75–8960 Filed 4–4–75;8:45 am]

CULLEN BANKERS, INC.

Approving Formation of Bank Holding Company

Cullen Bankers, Inc., Houston, Texas, has applied for the Board's approval under section 3(a) (1) of the Bank Holding Company Act (12 U.S.C. 1842(a) (1)) of formation of a bank holding company through acquisition of 100 percent or more of the voting shares of Cullen Center Bank & Trust, Houston, Texas ("Cullen Bank") and of Citizens National Bank of Dallas, Dallas, Texas ("Citizens Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant was recently organized for the purpose of becoming a bank holding company through acquisition of Cullen Bank (about $214.3 million in deposits) and Citizens Bank (about $62.2 million in deposits).[1] Upon consummation of the proposed transaction, Applicant would become the 18th largest banking organization in Texas and would control approximately 0.7 percent of the total deposits in commercial banks in the State. Consummation of the instant proposal would produce no undesirable effect on Statewide concentration, and could result in more vigorous competition by introducing an additional banking organization to compete with the State's larger bank holding companies.

[1] All banking data are as of June 30, 1974.

Cullen Bank is the eighth largest of 143 banking organizations in the Houston banking market,[2] where it controls approximately 2.3 per cent of the total deposits in commercial banks in that market. Citizens Bank is the 12th largest of 99 banking organizations competing in the Dallas banking market,[3] where it controls approximately 0.8 per cent of market deposits. Dallas is approximately 245 miles distant from Houston, and it does not appear that either bank derives significant amounts of loans or of deposits from the other's banking market. Accordingly, it does not appear that consummation of the proposed transaction would eliminate any significant existing competition between the banks. Moreover, due to the distance involved and the restrictive State branching laws, as well as the fact that banks are now under common control, it does not appear that any significant competition would develop between banks in the future. Accordingly, the Board concludes that consummation of the proposed transaction would not have a significant adverse effect on existing or potential competition.

The financial, managerial resources, and future prospects of Applicant, which are dependent upon those of the two banks to be acquired, are considered generally satisfactory and consistent with approval of the application, particularly in view of Applicant's commitment to improve and maintain the capital adequacy of both Cullen Bank and Citizens Bank. Accordingly, banking factors are regarded as being consistent with approval of the application. Considerations relating to the convenience and needs of the community to be served are consistent with approval. It is the Board's judgment that consummation of the proposal would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[4] effective March 31, 1975.

[SEAL] THEODORE E. ALLISON, *Secretary of the Board.*

DARIEN BANCORPORATION, INC.

Approving Formation of Bank Holding Company

Darien Bancorporation, Inc., Darien, Wisconsin, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 93.67 percent of the voting shares of The Farmers State Bank, Darien, Wisconsin ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the application and all comments received have been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a non-operating company recently organized for the purpose of becoming a bank holding company through acquisition of Bank. Bank (deposits of $4.7 million) is the only bank in Darien (population of approximately 850 persons), an agriculturally oriented community located in the southeastern portion of Wisconsin. Upon acquisition of Bank, Applicant would control the 514th largest bank in Wisconsin, with less than one-half of 1 percent of total deposits in commercial banks in the State.[1]

Bank is the smallest of thirteen banks in the relevant banking market (approximated by Walworth County), holding 2.6 percent of the total commercial bank deposits therein. A principal of Applicant also owns slightly less than 5 percent of the voting shares of First Holding Company, Inc., Waukesha, Wisconsin ("First Holding"), a registered bank holding company. First Holding controls 6 banks with aggregate deposits of $235.8 million, representing 1.8 percent of the total deposits in commercial banks in Wisconsin, and ranks as the State's sixth largest banking organization. One of First Holding's subsidiary banks, First National Bank of Elkhorn, Elkhorn, Wisconsin (deposits of $23.8 million), is the largest banking organization in the relevant banking market with approximately 12 percent of total market deposits. However, from the facts of record, it appears that consummation of the proposal would not eliminate significant existing or potential competition, nor have an adverse effect on other area banks. Furthermore, inasmuch as the proposed transaction is essentially a reorganization of Bank's ownership from individuals to a corporation owned by the same individuals, it is concluded that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant, which will depend upon those of Bank, are considered to be satisfactory. Applicant proposes to service the debt incurred as a result of the consummation of this proposal over an 11-year period through dividends of Bank. In light of the past earnings of Bank and its anticipated growth, the projected earnings of Bank appear to provide Applicant with the necessary financial flexibility to meet its annual debt servicing requirements while maintaining an adequate capital position for Bank. Therefore, considerations relating to banking factors are consistent with approval of the application. Applicant proposes to increase Bank's agricultural and consumer loan services, extend banking hours, and expand Bank's present physical facilities. Therefore, considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It has been determined that consummation of the transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Secretary of the Board, acting pursuant to delegated authority from the Board of Governors, effective March 31, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

FIRST COMMERCIAL BANKS INC.

Approving Acquisition of FCB Life Insurance, Ltd.

First Commercial Banks, Inc., Albany, New York, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of FCB Life Insurance, Ltd., Phoenix, Arizona ("FCB"), a company that would engage de novo in the activity of underwriting, as reinsurer, credit life and credit accident and health insurance directly related to extensions of credit by Applicant's credit-granting subsidiaries. Such activity has been determined by the Board to be closely related to banking (12 CFR 225.4(a)(10)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (40 FR 2515). The time for filing comments and views has expired, and the Board has considered the application and all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant, the thirteenth largest banking organization in New York State, has five subsidiary banks with 118 banking offices and controls aggregate deposits of approximately $1.5 billion, representing approximately 1.1 percent of the total deposits in commercial banks in the State.[1] Applicant also engages in leasing activities and investment advisory services through nonbank subsidiaries.

FCB will engage de novo in the activity of underwriting, as reinsurer, credit life and credit accident and health insurance directly related to extensions of credit by Applicant's subsidiary banks. FCB will be qualified to underwrite insurance directly only in Arizona, and accordingly, the insurance sold by Applicant's subsidiaries in New York will be directly underwritten by an unaffiliated insurance company qualified to do business in New York and will thereafter be assigned or ceded to FCB under a reinsurance agreement. Since this proposal involves a de novo acquisition, consummation of the transaction would not have any adverse effects on existing or potential competition in any relevant market.

Credit life and credit accident and health insurance is generally made available by banks and other lenders and is designed to assure repayment of a loan in the event of death or disability of the borrower. In connection with the addition of the underwriting of such insurance to the list of permissible activities for bank holding companies, the Board has stated:

> To assure that engaging in the underwriting of credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which the applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally, such a showing would be made by projected reductions in rates or increase in policy benefits due to bank holding company performance of this service.

Applicant has stated that following consummation of the acquisition, FCB will offer reduced premiums and increased policy benefits for the credit insurance policies which it reinsures. The increased policy benefits will include more liberal provisions relating to age restrictions and elimination of automatic termination of coverage in the event of delinquency. With regard to the reductions in premiums, the Board has considered Applicant's proposed new rates in light of New York's existing statutory rate structure, which is one of the lowest in the nation and which bases maximum rates that may be charged for credit insurance upon average volume of insurance in force. Under Applicant's proposal, insurance sales by Applicant's subsidiary banks will be aggregated for purposes of determining the maximum prima facie rates permissible under New York law, with the result being a reduction in the maximum premium rates that may be charged by certain of Applicant's subsidiary banks. Applicant has committed to reduce further those rates below the new applicable maximum. Thus, Applicant's proposal involves rate reductions for credit life insurance ranging from 12.2 percent to 2.3 percent at three subsidiary banks, and the maintenance of the existing rates at the other two subsidiary banks, which rates are currently 13.5 percent and 11.4 percent, respectively, below the maximum rates permitted by New York State law. Further, under Applicant's proposal the premiums charged for credit accident and health insurance (14-day retroactive coverage) will be reduced 5.9 percent and 6.3 percent at two of Applicant's subsidiary banks, and maintained at existing levels at the remaining banks. In view of New York's rate structure being one of the lowest in the nation, and the fact that Applicant will charge rates at or below the State maximums, the Board finds that Applicant's proposal is procompetitive and in the public interest.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of New York, pursuant to authority hereby delegated.

By order of the Board of Governors,[2] effective March 31, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-8957 Filed 4-4-75;8:45 am]

[1] Banking data are as of June 30, 1974.

PANNATIONAL GROUP INC.

Approving Acquisition of Bank

PanNational Group Inc., El Paso, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of The First National Bank of Waco, Waco, Texas ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the fourteenth largest banking organization in Texas, controls five banks with aggregate deposits of $386.5 million, representing about 1 percent of the total deposits in commercial banks in Texas.[1] Acquisition of Bank ($131 million in deposits) would increase Applicant's share of commercial bank deposits in the State by approximately .3 of 1 percentage point and Applicant would become the State's twelfth largest banking organization.

Bank is the largest bank in the Waco banking market (approximated by McLennan County) and controls about 33 percent of total market deposits. Applicant's closest banking subsidiary is located in another banking market approximately 100 miles north of Bank. No competition exists between Bank and Applicant's closest subsidiary bank, and it is unlikely that any will develop in the future due, in part, to the distances involved. Additionally, the Waco banking market does not appear to be attractive for de novo entry since the population of the relevant banking market has declined 1.7 percent between 1960 and 1970. Accordingly, on the basis of the foregoing and other facts of record, it appears that consummation of the proposed acquisition would have no significant adverse effects upon existing or potential competition within the market.

The financial and managerial resources and future prospects of Applicant, its subsidiary banks, and Bank are regarded as generally satisfactory and consistent with approval. Affiliation with Applicant should enable Bank to expand and improve banking services presently being offered. Accordingly, the Board regards considerations relating to the convenience and needs of the community to be served as being consistent with approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application to acquire Bank should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[2] effective March 31, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-8958 Filed 4-4-75;8:45 am]

[1] All banking data are as of June 30, 1974, and reflect holding company formations and acquisitions approved through February 28, 1975.

[2] Voting for this action: Governors Bucher, Holland, Wallich, and Coldwell. Absent and not voting: Chairman Burns and Governors Mitchell and Sheehan.

REPUBLIC OF TEXAS CORP.

Acquisition of Bank

Republic of Texas Corporation, Dallas, Texas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 829 voting shares through a rights offering of the First National Bank of Plano, Plano, Texas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than April 28, 1975.

Board of Governors of the Federal Reserve System, March 31, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

INTERIM COMPLIANCE PANEL (COAL MINE HEALTH AND SAFETY)

LOIS COAL CO.

Applications for Renewal Permits Electric Face Equipment Standard; Opportunity for Public Hearing

Applications for Renewal Permits for Noncompliance with the Electric Face Equipment Standard prescribed by the Federal Coal Mine Health and Safety Act of 1969 have been received for items of equipment in underground coal mines as follows:

ICP DOCKET NO. 4176-000, LOIS COAL COMPANY, Mine No. 1, Mine ID No. 44 03462 0, Grundy, Virginia 24614, ICP Permit No. 4176-001—R-3 (Stacy's Spinner Loading Machine, Ser. No. 206), ICP Permit No. 4176-004—R-3 (Royal Cutting Machine, Ser. No. 63), ICP Permit No. 4176-005—R-3 (Bailey's Battery Powered Tractor, Ser. No. 78).

In accordance with the provisions of § 504.7(b) of Title 30, Code of Federal Regulations, notice is hereby given that requests for public hearing as to an application for a renewal permit may be filed within 15 days after publication of this notice. Requests for public hearing must be filed in accordance with 30 CFR Part 505 (35 FR 11296, July 15, 1970), as amended, copies of which may be obtained from the Panel upon request.

A copy of each application is available for inspection and requests for public hearing may be filed in the office of the Correspondence Control Officer, Interim Compliance Panel, Room 800, 1730 K Street NW., Washington, D.C. 20006.

GEORGE A. HORNBECK,
Chairman
Interim Compliance Panel.

INTERNATIONAL TRADE COMMISSION

BROOM CORN BROOMS

Report to the President

APRIL 1, 1975.

In accordance with Executive Order 11377 of October 23, 1967 (copy attached), to assist the President in the exercise of his authority under headnote 3 to schedule 7, part 8, subpart A, of the Tariff Schedules of the United States (79 Stat. 948; 19 U.S.C. 1202), the U.S. International Trade Commission herein reports its judgment as to the estimated domestic consumption of broom corn brooms for the year 1974, the basis for that estimate, and information on U.S. consumption, production, imports, and exports of other types of brooms considered to be competitive with broom corn brooms. For convenience, the Commission also reports corresponding data for broom corn brooms for the years 1965 and 1973; and data for competitive brooms for 1968 and 1974.

Estimated consumption of Broom Corn Brooms. In the judgment of the Commission, consumption in the calendar years 1965, 1973, and 1974 of brooms wholly or in part of broom corn was as shown in the table below:

BROOMS WHOLLY OR IN PART OF BROOM CORN: U.S. CONSUMPTION, 1965, 1973, AND 1974

[In dozens]

Type of broom	1965 [1]	1973 [2]	1974
Whiskbrooms of a kind provided for in TSUS items 750.26 to 750.28, inclusive, of the tariff schedules	470,612	436,514	410,246
Other brooms of a kind provided for in TSUS items 750.29 to 750.31, inclusive, of the tariff schedules	2,578,905	2,554,894	2,460,646

[1] As reported to the President on May 2, 1968.
[2] As reported to the President on Mar. 21, 1974.

Basis for the Commission's judgment with respect to broom corn brooms. The Commission estimated consumption of broom corn brooms in 1974 by the same methods it used to estimate consumption in its previous reports pursuant to Executive Order 11377. Apparent annual consumption was determined by adding the quantity of shipments by domestic producers to the quantity of imports and subtracting therefrom the quantity of exports. Data on imports were obtained from the U.S. Customs Service, Department of the Treasury; data on shipments and exports were estimated from responses to questionnaires sent to all known domestic producers of broom corn brooms.

The data for each of the components used in the computation of apparent annual consumption of broom corn brooms was as shown in the table below:

WHISKBROOMS PROVIDED FOR IN TSUS ITEMS 750.26 TO 750.28 AND OTHER BROOMS PROVIDED FOR IN TSUS ITEMS 750.29 TO 750.31: U.S. PRODUCERS' SHIPMENTS, IMPORTS, EXPORTS, AND APPARENT CONSUMPTION, 1965, 1970, AND 1974

[In dozens]

Item	1965 [1]	1973 [2]	1974
Whiskbrooms of a kind provided for in TSUS items 750.26 to 750.28, inclusive:			
U.S. producers' shipments	318,691	288,202	294,985
Imports	152,606	164,093	116,227
Exports	765	782	966
Apparent consumption	470,612	436,514	410,246
Other brooms of a kind provided for in TSUS items 750.29 to 750.31, inclusive:			
U.S. producers' shipments	2,596,457	2,351,674	2,255,941
Imports	296,527	205,799	229,281
Exports	14,259	2,573	4,576
Apparent consumption	2,578,905	2,554,894	2,460,646

[1] As reported to the President on May 2, 1968.
[2] As reported to the President on Mar. 21, 1974.

Brooms considered competitive with broom corn brooms. As reported to the President on May 23, 1969, the Commission concluded that whiskbrooms of all fibers other than broom corn are competitive with whiskbrooms made of broom corn, and that upright brooms of all fibers other than broom corn are competitive with upright broom corn brooms. The Commission further concluded that push brooms 16 inches or less in width generally are competitive with upright broom corn brooms. The "competitive" brooms identified above are generally used for the same purpose as, and are generally substitutable for, broom corn brooms.

The Commission estimates that domestic shipments, imports, exports, and apparent consumption in 1968 [1] and 1974 of the brooms considered to be competitive with broom corn brooms was as shown in the table below:

[1] As reported to the President on May 23, 1969.

BROOMS, COMPETITIVE WITH BROOM CORN BROOMS; ESTIMATED U.S. PRODUCERS' SHIPMENTS, IMPORTS, EXPORTS, AND APPARENT CONSUMPTION, 1968 AND 1974

[In thousands of dozens]

Type of broom	Domestic shipments		Imports		Exports		Apparent consumption	
	1968	1974	1968	1974	1968	1974	1968	1974
Whiskbrooms:								
Plastic fiber	36	75	8	62	(1)	2	44	135
Other fiber	59	[2] 1		2	(1)	(1)	59	[2] 3
Other (upright) brooms:								
Plastic fiber	198	470	131	79	6	25	315	523
Other fiber	95	41		2	2	(1)	93	43
Push brooms (16 in. or less in width)	269	159		25	1	2	269	182

[1] Less than 500 doz.
[2] The absence of any substantial production in 1974 of whiskbrooms of fibers other than plastics or broom corn is attributable in large measure to the substitution of plastics for these "other fibers" in the production of whiskbrooms since 1968.

Source: Compiled from data furnished by domestic producers and official statistics of the Bureau of the Census.

By order of the Commission.

KENNETH R. MASON,
Secretary.

[FR Doc.75-8814 Filed 4-4-75;8:45 am]

[TA-503(a)-1 and 332-74]

PRESIDENT'S LIST OF ARTICLES WHICH MAY BE DESIGNATED AS ELIGIBLE ARTICLES FOR PURPOSES OF A GENERALIZED SYSTEM OF PREFERENCES

Investigations and Hearings

On March 24, 1975, the President, pursuant to section 503(a) and 131(a) of the Trade Act of 1974 (hereinafter referred to as "the Act"), furnished the United States International Trade Commission (hereinafter referred to as "the Commission") a list of articles (hereinafter referred to as "the GSP list") which will be considered for designation as eligible articles for purposes of the Generalized System of Preferences set forth in Title V of the Act. The GSP list is published in paragraph I of his "Notice of Articles which will be Considered for Designation as Eligible Articles for Purposes of the Generalized System of Preferences" (40 FR 13455-13475). Countries designated by the President in Executive Order of March 24, 1975, as beneficiary developing countries are listed in paragraph II-A of the President's notice; countries identified in the Executive Order as under consideration for designation as beneficiary developing countries are listed in paragraph II-B.

In accordance with section 503(a) and 131 of the Act, the President requested that the Commission provide him with its advice, with respect to each article, as to the probable economic effect on industries producing like or directly competitive articles and on consumers of the elimination of U.S. import duties, pursuant to Title V of the Act, on imports of the articles listed (in paragraph I) from those countries designated as beneficiary developing countries (paragraph II-A). Pursuant to section 332(g) of the Tariff Act of 1930, as amended, the President further requested that the Commission provide him with advice such as is provided for under section 131 of the Act, with respect to each article, as to the probable economic effect on industries producing like or directly competitive articles and on consumers of the elimination of U.S. import duties on imports of the listed articles both from those countries designated as beneficiary developing countries (paragraph II-A) and from those countries being considered for designation as beneficiary developing countries (paragraph II-B).

I. *Investigation instituted.*—In accordance with the President's request and the provisions of sections 503(a) and 131(b) of the Act and section 332(g) of the Tariff Act of 1930, as amended, the Commission has instituted investigations for the purposes of obtaining, to the extent practicable, information of the kind described in section 131(d) of the Act for use in connection with the preparation of advice requested by the President.

II. *Procedure for conduct of hearings and submission of written views.*—A. *Public hearings.* In connection with a list of articles on which concessions may be granted by the United States in international trade negotiations that was furnished to the Commission by the President on January 14, 1975, the Commission gave notice of an investigation (No. TA-131(b)-1) and hearings on January 20 and March 3, 1975 (40 FR 3517 and 10717). In the notices the Commission announced that public hearings would be held in the following places (among others) commencing at 10 a.m. on the dates indicated:

Places	*Dates—1975*
Rooms 206 and 208 McGraw Hill Building 1221 Avenue of the Americas New York, New York	April 1
J. F. Kennedy Building Room 2003A Cambridge and Sudbury Boston, Massachusetts	April 3
Hearing Room U.S. International Trade Commission 8th and E Streets, NW. Washington, D.C.	April 8
U.S. Court of Claims Court Room 219 South Dearborn Chicago, Illinois	April 8
31st Floor Reception Room A. J. C. Federal Building 1240 East 9th Street Cleveland, Ohio	April 10
U.S. Tax Court Room 597, 5th Floor U.S. Federal Building and Court House 19th and Stout Streets Denver, Colorado	April 14
ICC Hearing Room, Suite 620 Union Pacific Building 1110 North 14th Street Omaha, Nebraska	April 16
Auditorium (Room 140) Federal Office Building 601 E. 12th Street Kansas City, Missouri	April 18

Public hearings will also be held at the specified places in the following cities commencing at 10 a.m. on the dates indicated.

Places	*Dates—1975*
World Trade Building Lecture Hall 1520 Texas Avenue Houston, Texas	April 22
World Trade Center International Room Suite 241—Upper Concourse 333 South Flower Los Angeles, California	April 24
U.S. Tax Court—Room 1112 Federal Building 1000 Liberty Avenue Pittsburgh, Pennsylvania	April 29
Court Room 859 Federal Building 231 West Lafayette Detroit, Michigan	May 1
City of Miami Commission Chambers Dinner Key 3500 Pan American Drive Miami, Florida	May 5
City Council Chambers Room 201 Camden City Hall 6th & Market Streets Camden, New Jersey	May 7
Augusta, Maine	May 8

Further notice will be published in the FEDERAL REGISTER as to the name and location of the hearing room in Augusta.

Parties wishing to testify with respect to the subject matter of any of the investigations relating to the probable economic effect of actions which may be taken under the Act (TA-131(b)-1, TA-503(a)-1 and 332-74) may appear at any of the hearings hereinabove announced. All of the hearings will continue until all interested parties have been heard.

I. To assure their being given proper consideration in arranging the hearing calendar, requests to appear at the public hearing should be filed in writing with the Secretary of the Commission at least one week prior to the commencing date of the hearing in the city at which the appearance is to be made.

N.B. Those who have already made requests to appear with respect to the international trade negotiations need not file a request to appear with respect to the generalized system of preferences unless they wish to appear at different times with respect to the two matters. Parties testifying with respect to all investigations at one appearance are requested to present their testimony separately to the extent feasible.

Such requests shall contain the following information: a. A description of the article or articles on which testimony will be presented, including, if possible, the item number or numbers in the Tariff Schedules of the United States [1] covering the article or articles.

b. An indication whether testimony will be presented with respect to the international trade negotiations (Inv. No. TA-131(b)-1) and/or the generalized system of preferences (Inv. Nos. TA 503(a)-1 and 332-74).

c. The name and organization of the witness or witnesses who will testify, and the name, address, telephone number, and organization of the person filing the request.

d. A statement indicating whether the testimony to be presented will be on behalf of importers, domestic producers, consumers, or other interests.

e. A statement of the aggregate time desired for presentation of oral testimony by all witnesses for whose appearances the request is filed.

2. *Allotment of time.*—Because of the extensive scope of the President's list and the GSP list, limitation of time for the presentation of oral testimony is in the public interest. Accordingly, in scheduling appearances at the hearing the time to be allotted to witnesses for the presentation or oral testimony will be limited as circumstances require. Supplemental written statements will be allowed in all cases, and should be submitted at the time of presentation of oral testimony.

3. *Notification of date of appearance.*—Persons who have properly filed requests to appear will be individually notified, in advance, of the date on which they will be scheduled to present oral testimony and of the time allotted for presentation of such testimony.

4. *Order of hearings.*—To the extent practicable the hearings at each city will follow the order of the Tariff Schedules of the United States, beginning with Schedule 1, Animal and Vegetable products.

5. *Questioning of witnesses will be limited to members of the Commission and its staff.*—B. *Written information and views in lieu of appearances at the public hearings may be submitted by interested persons.* A signed original and nineteen true copies of such statements should be submitted. Business data which it is desired shall be treated as confidential shall be submitted on separate sheets, each clearly marked at the top "Business Confidential". All written statements, except for confidential business data, will be made available for inspection by interested persons. To be assured of consideration by the Commission, written statements in lieu of appearances should be submitted at the earliest practicable

[1] The Tariff Schedules of the United States Annotated (1975) is for sale by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402; it is also available for inspection without charge at any field office of the U.S. Customs Service or the Department of Commerce and at depository libraries.

date, but not later than the date of the closing of the public hearings.

III. *Communications to be addressed to Secretary.*—All communications regarding the Commission's investigation should be addressed to the Secretary, United States International Trade Commission, Washington, D.C. 20436.

By direction of the United States International Trade Commission.

Issued: April 2, 1975.

KENNETH R. MASON,
Secretary.

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

AGENDA REVISION

Meeting

APRIL 2, 1975.

The following is a revised agenda for NACOA's April meeting, previously announced in the FEDERAL REGISTER of March 13, 1975, (40 FR 11819):

MONDAY, APRIL 14

Morning beginning at 9 a.m.
Climate, food, and contingency planning—Department of Agriculture and NOAA.
Work session on NACOA's Fourth Annual Report.
Afternoon
Continuation of work on NACOA report.

TUESDAY, APRIL 15

Morning beginning at 9:00 a.m.
Briefing on the Global Atmospheric Research Project—U.S. Committee on GARP.
Fisheries management under an extended resource jurisdiction—NOAA.
States report on the Sea Grant Program—NOAA.
Afternoon
Continuation of work on NACOA report.

Additional information concerning this meeting may be obtained through the Committee's Executive Director, Dr. Douglas L. Brooks whose mailing address is: National Advisory Committee on Oceans and Atmosphere, Department of Commerce Building, Room 5225, Washington, D.C. 20230. Telephone: (202) 967-3343.

DOUGLAS L. BROOKS,
Executive Director.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (75-27)]

AD HOC ADVISORY SUBCOMMITTEE TO EVALUATE PROPOSALS FOR PARTICIPATION IN THE SCIENTIFIC DEFINITION OF EXPLORER-CLASS PAYLOADS

Meeting

One section of the NASA Ad Hoc Advisory Subcommittee on the Space Science Steering Committee to evaluate proposals for participation in the scientific definition of Explorer-Class payloads will meet at the Goddard Space Flight Center in Greenbelt, Maryland during April. On April 28, 29, and 30, 1975, Subcommittee Section E (Infrared) will meet in Room 201 of Building 26 from 8:30 a.m. to 4:30 p.m. The meetings of other subcommittee sections will be advertised in the FEDERAL REGISTER and convened in the near future.

The Subcommittee sections will discuss, evaluate and categorize proposals for participation on Mission Definition Teams which will define Explorer-Class Infrared Payloads. Throughout the Subcommittee sessions, the professional qualifications of the proposers and their potential scientific contributions to the Mission Definition Teams will be candidly discussed and appraised. Discussion of these matters in a public session would invade the privacy of the proposers and the other individuals involved. The meeting will be closed to members of the public.

Since the Subcommittee session will be concerned throughout with matters listed in 5 U.S.C. 552(b)(6), it is hereby determined that the session will be closed to the public.

For further information please contact Dr. Nancy Boggess at 202/755-3688.

DUWARD L. CROW,
Assistant Administrator for DOD and Interagency Affairs.

APRIL 1, 1975.

[Notice 75-26]

RESEARCH AND TECHNOLOGY ADVISORY COUNCIL COMMITTEE ON AERONAUTICAL PROPULSION

Meeting

The NASA Research and Technology Advisory Council Committee on Aeronautical Propulsion will meet on April 24-25, 1975, at the Langley Research Center, Hampton, Virginia 23665. The meeting will be held in Conference Room 200 of Building 1212. Members of the public will be admitted on a first-come, first-served basis up to the seating capacity of the room, which is about 95 persons including Committee members and other participants.

The NASA Research and Technology Advisory Council Committee on Aeronautical Propulsion was established to advise NASA's senior management in the areas of aeronautical propulsion research and technology. The Committee studies issues, pinpoints critical problems, determines gaps in needed technology, points out desirable goals and objectives, summarizes the state of the art, assesses ongoing work, and makes recommendations to help NASA plan and carry out a program of greatest benefit to the nation. There are 12 members on the Aeronautical Propulsion Committee. The current Chairman is Mr. Hillard E. Barrett.

The following list sets forth the approved agenda and schedule for the meeting. For further information, please contact Mr. Harrry W. Johnson, Area Code 202, 755-3003.

APRIL 24, 1975

Time	*Topic*
8:15 a.m.	Introductory Remarks by Chairman (Purpose: To review agenda and transmit information of interest from latest meeting of Research and Technology Advisory Council.)
8:30 a.m.	Report by Executive Secretary (Purpose: To update Committee on NASA organization, policy, current budget status and allocations, FY 1977 program plans, and to review previous Committee recommendations and NASA response.)
9:30 a.m.	Special Group Reports (Purpose: To review the results from ad hoc panels and special inter-center groups studying hydrocarbon fuels, energy conservation, and the "Outlook for Aeronautics.")
10:45 a.m.	Discussion of Research Center Highlight Reports (Purpose: To discuss points of interest from Center Highlights Reports previously distributed to Committee members.)
12:30 p.m.	Propulsion/Airframe Integration Research Program (Purpose: To review the status of the NASA Propulsion/Airframe Integration Research Program.)
1:30 p.m.	Hypersonic Research Program (Purpose: To assess the state of the art of hypersonic air-breathing propulsion and to review plans for a hypersonic research aircraft.)
3:30 p.m.	Aircraft Emissions in the Atmosphere (Purpose: To review the status and plans of NASA research activities to measure and assess the interaction of aircraft emissions in the atmosphere.)

APRIL 25, 1975

8:15 a.m.	NASA's Role in Aeronautical Propulsion (Purpose: To review the issues relating to NASA's role in aeronautical propulsion, particularly with reference to advanced technology propulsion system demonstrator programs and cost sharing.)
10:45 a.m.	Committee Discussion and Recommendations (Purpose: To summarize comments and recommendations from this meeting to transmit to the NASA Research and Technology Advisory Council.)
1:00 p.m.	Aircraft Noise Research Laboratory Tour (Purpose: To familiarize the Committee with the capabilities of the Aircraft Noise Research Laboratory and to review briefly the overall plans and programs for this major research test facility.)
2:00 p.m.	Discussions and Recommendations—Continuation (Purpose: Complete discussion from morning session and establish tentative major topics, place and date for next Committee meeting.)
3:00 p.m.	Adjournment.

DUWARD L. CROW,
Assistant Administrator for DOD and Interagency Affairs Aeronautics and Space Administration.

APRIL 1, 1975.

NATIONAL TRANSPORTATION SAFETY BOARD

[Docket No. SA-448]

AIRCRAFT ACCIDENT; WASHINGTON, D.C.

Accident Investigation Hearing

Notice is hereby given that the National Transportation Safety Board will conduct an accident investigation hearing, beginning at 9:30 a.m. (local time) on April 15, 1975, in the South Cotillion Room of the Sheraton Park Hotel, Washington, D.C. The hearing will be held in connection with the Safety Board's investigation of an accident involving a Wolfe Industries, Inc., Beech HE-90 King Air, N57V, on the American University Campus, Washington, D.C., on January 25, 1975.

WILLIAM B. HENDRICKS,
Hearing Officer.

APRIL 3, 1975.

NUCLEAR REGULATORY COMMISSION

[Dockets Nos. 50-461; 50-462]

ILLINOIS POWER CO. (CLINTON POWER STATION UNITS 1 AND 2)

Order Setting Second Prehearing Conference

Please take notice that the Atomic Safety and Licensing Board will hold the Second Prehearing Conference in the above-captioned proceeding on Tuesday, April 29, 1975, at 10 a.m., local time, in the County Board Room, Champaign County Courthouse Annex, Courthouse Square, Urbana, Illinois 61801. This Prehearing Conference shall deal with the following matters:

1. Pending motions including Applicant's Motion for Hearing;
2. The status of the hearing before the Illinois Pollution Board on the Section 401 certification question;
3. The status of discovery;
4. Establishment of schedule for further action and the evidentiary hearing; and
5. Such other matters which may aid in the orderly disposition of the proceeding.

The attorneys for the respective parties are directed to confer in advance of the prehearing conference, in such manner as they deem appropriate, and to report to the Board at said conference on any stipulations regarding matters in controversy, and on any other mutually agreeable procedures to expedite this proceeding.

Members of the public are invited to attend the prehearing conference on April 29, 1975, as well as the evidentiary hearing which will be held at a later date to be fixed by the Board. Members of the public wishing to make a limited appearance pursuant to § 2.715(a) of the Commission's[1] rules of practice, 10 CFR Part 2, may identify themselves at this prehearing conference, but oral or written statements to be presented by persons making a limited appearance will not be received at this conference. The Board will receive such statements later at the evidentiary hearing.

Notice of the date of the commencement of the evidentiary hearing in this proceeding will be given both by publication in the local news media and in the FEDERAL REGISTER, and by Notice sent by mail directly to all members of the public who have requested to be notified.

It is so ordered.

Issued at Bethesda, Maryland this 1st day of April, 1975.

For the Atomic Safety and Licensing Board.

ROBERT M. LAZO,
Chairman.

[FR Doc.75-8861 Filed 4-4-75;8:45 am]

[Docket No. 50-263]

NORTHERN STATES POWER CO. (MONTICELLO NUCLEAR GENERATING PLANT, UNIT 1)

Resumption of Hearing

Please take notice that the public hearing being held before an Atomic Safety and Licensing Board to consider the conversion of Northern States Power Company's provisional operating license for the Monticello Nuclear Generating Plant to a full term operating license, will resume on Tuesday, May 6, 1975, at 10 a.m., local time, in Courtroom No. 2, United States Federal Courthouse, 316 North Roberts Street, Saint Paul, Minnesota 55101.

The evidentiary hearing on this matter has been in recess since November 15, 1974, awaiting completion of the preparation of certain written direct testimony. As stated in the original "Notice of Hearing on a Facility Operating License" published by the Commission in the FEDERAL REGISTER on December 27, 1972 (37 FR 28544), conversion of the provisional license which was issued by AEC in September 1970, would authorize the company to operate the Monticello facility at its presently licensed power level of 545 megawatts (electric) for a period of 40 years from June 19, 1967—the date the AEC construction permit was issued. The plant uses a boiling water reactor and is located on a 1385 acre site on the west bank of the Mississippi River about three miles west of Monticello.

The license conversion proceeding has been consolidated with a hearing on environmental matters related to operation of the plant which was ordered by the AEC in accordance with its regulations implementing the National Environmental Policy Act.

It is so ordered.

Issued this 1st day of April, 1975, at Bethesda, Maryland.

For the Atomic Safety and Licensing Board.

ROBERT M. LAZO,
Chairman.

[FR Doc.75-8860 Filed 4-4-75;8:45 am]

[Docket No. 50-29]

YANKEE ATOMIC ELECTRIC CO.

Proposed Issuance of Amendment To Facility Operating License

The Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-3 issued to Yankee Atomic Electric Company (the licensee) for operation of the Yankee Nuclear Power Station (Yankee-Rowe), located in Rowe, Massachusetts.

The amendment would add a new Section F "Control Rod Drop" to the Technical Specifications and delete the control rod surveillance program included as a license requirement by Changes Nos. 104 and 106, dated November 18, 1972, and March 30, 1973, respectively, in accordance with the licensee's application dated February 18, 1975.

The presently specified control rod surveillance was imposed on November 18, 1972, to provide a confirmatory program for verifying the reliability of a new set of control rods. This program involves unusually frequent shutdown of the reactor (every 12 weeks) to carry out control rod drop testing. On the basis that the results of this program have shown that the new control rods continued to function reliably, the licensee has proposed to replace the present control rod surveillance program with surveillance requirements that are similar to those that we now approve for presently licensed facilities. The proposed changes would also provide for an increase in the limiting rod drop time from 2.4 to 2.5 seconds, since the 2.5 second rod drop time is the value assumed in the licensee's reanalysis of accidents for operation with the present Core XI which we have previously reviewed and approved.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

By May 7, 1975, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice

[1] In accordance with the Energy Reorganization Act of 1974, Pub. L. 93-438, the Nuclear Regulatory Commission (NRC) was established on January 19, 1975. The NRC assumed the licensing and regulatory functions of the former Atomic Energy Commission.

V 4067 APR 75 XUM

and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to Frederic Greenmand, Esquire, New England Electric System, 20 Turnpike Road, Westboro, Massachusetts 01581, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendments dated March 7, 1975, which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. The license amendments and the Safety Evaluation, when issued, may be inspected at the above location and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 31st day of March 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch No. 1, Division of Reactor Licensing.

[FR Doc.75-8960 Filed 4-4-75;8:45 am]

SECURITIES AND EXCHANGE COMMISSION

[812-3762]

BERKSHIRE CAPITAL FUND, INC. AND, BERKSHIRE GROWTH FUND, INC.

Application for an Order of Exemption

Notice is hereby given that Berkshire Capital Fund, Inc. ("Capital") and Berkshire Growth Fund, Inc. ("Growth"), 700 South Street, Pittsfield, Massachusetts 01201, (collectively referred to as "Applicants"), open-end, diversified management investment companies registered under the Investment Company Act of 1940 ("Act"), filed and application on February 7, 1975, and amendments thereto on March 17, 1975 and March 25, 1975 pursuant to section 17(b) of the Act for an order exempting from the provisions of section 17(a) of the Act the proposed sale by Growth of substantially all of its assets to Capital in exchange for shares of common stock of Capital and pursuant to section 6(c) of the Act for an order exempting from the provisions of Rule 22c-1 under the Act the determination of net asset values, for purposes of the exchange, at the close of business on the business day immediately preceding the closing date of the proposed transaction. All interested persons are referred to the application on file with the Commission for a statement of the matters contained therein, which are summarized below.

The investment objective of Capital is capital appreciation, consistent with preservation of principal and reasonable income. The investment objective of Growth is to seek growth of capital. Berkshire Management & Research Corporation ("Adviser") serves as investment adviser to each Applicant. The Board of Directors and officers of Growth and Capital are identical. Accordingly, Applicants may be deemed to be under common control, and therefore, Applicants may be deemed to be affiliated persons of each other within the meaning of section 2(a) (3) of the Act.

Growth and Capital have entered into an Agreement and Plan of Reorganization (the "Agreement") providing for (1) the transfer by Growth of substantially all of its assets to Capital in exchange for shares of common stock of Capital and (2) the subsequent dissolution of Growth. The Agreement has been approved by the Boards of Directors of each Applicant and contains the condition that it must be further approved by a two-thirds majority of all outstanding shares of Growth and by a majority of the outstanding voting securities of Capital.

Prior to the closing date of the Agreement ("Closing Date") Growth and Capital will distribute to their respective shareholders substantially all net investment income and realized capital gains since the close of their last fiscal years in excess of any loss carryforwards. The number of shares of common stock of Capital to be transferred to Growth will be computed by dividing the net asset value of Growth by the net asset value per share of Capital, in each case as of the close of trading on the New York Stock Exchange on the last day such Exchange is open for unrestricted trading prior to the Closing Date.

As of December 31, 1974, Capital and Growth had, respectively, net assets of $2,247,428 and $1,202,939, tax loss carryforwards of $251,013 and $1,454,167 and unrealized depreciation of $1,232,574 and $555,347. No adjustments in the aggregate net asset values of Applicants will be made to compensate shareholders for any potential Federal income tax impact which may result from the differences between the Applicants in the percentage of each Applicant's realized or unrealized capital losses to its net asset value and in the amount of each Applicant's tax loss carryforward. Applicants assert that the terms of the Agreement without such adjustments are fair and reasonable in view of the substantial loss carryforward and unrealized depreciation of each Applicant.

Section 17(a). Section 17(a) of the Act, in pertinent part, provides that it shall be unlawful for any affiliated person of a registered investment company, or any affiliated person of such person, acting as principal, knowingly to sell to or purchase from such registered company any security or other property.

Section 17(b) of the Act provides that the Commission, upon application, may exempt a proposed transaction from the provision of section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned and that the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act.

Applicants contend that the terms of the proposed transaction are reasonable and fair and do not involve overreaching on the part of any person concerned. The aggregate expenses of the Applicants in effecting the reorganization are estimated at $22,000. Under the Agreement, such expenses are the obligation of Capital in the event that the reorganization is carried out and the obligation of both Applicants in proportion to their respective net asset value as of December 31, 1974 in the event that the reorganization is not carried out. The Adviser has informed the Applicants that it will bear all such expenses in either event. Applicants believe that the consummation of the transaction will result in the reduction of certain costs, including fees of attorneys, auditors and custodians, expenses of shareholder meetings, proxy statements, and preparation of shareholder reports and franchise taxes. In the opinion of management of Applicants, the investment portfolios of each is compatible and comparable and is subject to combination without requiring the sale of any securities in either portfolio.

Applicants state that the proposed transaction is consistent with the investment policies of each Applicant and with the general purposes and policies of the Act.

Rule 22c-1. Rule 22c-1 promulgated under section 22(c) of the Act provides, in pertinent part, that no registered investment company issuing any redeemable security, no person designated in such issuer's prospectus as authorized to consummate transactions in any such security, and no principle underwriter of, or dealer in, any such security shall sell, redeem, or repurchase any such security except at a price based on the current net asset value of such security which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Applicants state that the literal requirements of Rule 22c-1 may not be met by the proposed transaction if such rule is deemed to apply to transactions involving the exchange of stock for assets because the net asset values per share of Capital and Growth for purposes of the exchange are to be determined as of the close of trading on the New York Stock Exchange on the day immediately preceding the Closing Date on which such exchange is open for trading.

It is contended by Applicants that the prohibition of Rule 22c-1 is intended to apply primarily to daily sales and redemptions rather than the type of transaction contemplated by the Agreement.

Section 6(c) of the Act provides, in pertinent part, that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction from any provision of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than April 21, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following April 21, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[FR Doc.75-8943 Filed 4-4-75;8:45 am]

[811-1556]

DIAMOND GROWTH FUND, INC.

Proposal To Terminate Registration

Notice is hereby given that the Commission proposes, pursuant to section 8 (f) of the Investment Company Act of 1940 (the "Act"), to declare by order upon its own motion that Diamond Growth Fund, Inc. ("Diamond"), 3634 Balboa Street, San Francisco, California 94121, registered under the Act on November 2, 1967, as an open-end, diversified, management investment company, has ceased to be an investment company.

The Commission's records indicate that pursuant to a legal suit instituted by the Commission against Diamond and other defendants on October 13, 1972, for a preliminary injunction to enjoin the defendants from engaging in certain alleged acts and practices in violation of federal securities laws, the United States District Court for the Northern District of California on January 8, 1973, appointed a receiver for Diamond, and, on June 20, 1974, ordered the distribution of Diamond's assets. Marketable securities in Diamond's portfolio and other miscellaneous assets were sold and after providing for the expenses of administrating the receivership and claims of creditors, Diamond's net assets in the amount of $16,331, were distributed to Diamond's shareholders.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than April 22, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Diamond Growth Fund, Inc. at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter will be issued as of course following April 22, unless the Commission thereafter orders a hearing upon requests or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

[FR Doc.75-8944 Filed 4-4-75;8:45 am]

[Release No. 34-11317]

DISPLAYS ON INTERROGATION SYSTEMS

Interpretation of Requirements

Rule 17a-15 under the Securities Exchange Act of 1934 (the "Rule"), governing the reporting of market information on transactions in listed securities, was adopted by the Securities and Exchange Commission on November 8, 1972.[1] Pursuant to that rule a joint industry plan (the "Plan") designed to implement a consolidated transaction reporting system (the "consolidated system") was filed with and declared effective by the Commission as of May 17, 1974.[2] Since that time the Commission has received a number of requests for interpretations with respect to various provisions of the Rule, particularly as regards displays of last sale information on interrogation systems. In order to assist all persons in their understanding of, and compliance with, the Rule, the Commission has authorized the publication of this interpretative release setting forth its current views as to the requirements of the Rule with respect to interrogation systems.

Question 1: In light of the fact that full implementation of the consolidated system, originally scheduled for February 21, 1975, has been delayed, and that the Consolidated Tape Association ("CTA") now proposes to implement the consolidated system in stages,[3] are vendors of market transaction information ("vendors") required by the Rule and the Plan to display consolidated data on their interrogation systems prior to the availability of a high speed data transmission line?

Interpretative Response: No. Vendors become obligated under the rule to display consolidated last sale data on interrogation devices only after the commencement of Phase II of the consolidated system.[4] Phase II of the Plan, as described therein, contemplates the full implementation of the consolidated system, and includes three elements: namely, the reporting and dissemination of last sale data with respect to eligible securities to be included in Network A,[5] the reporting and dissemination of last sale data with respect to eligible securities to be included in Network B,[6] and the availability of last sale data with respect to transactions in all eligible securities to vendors by means of a high speed line permitting them to receive this information on a current basis, regardless of

[1] Securities Exchange Act Release No. 9850 (November 8, 1972).

[2] Securities Exchange Act Release No. 10787 (May 10, 1974).

[3] See Securities Exchange Act Release No. 11273 (March 3, 1975).

[4] Joint Industry Plan, Section VIII.

[5] Network A will report trades in New York Stock Exchange ("NYSE") listed securities which occur on any of the participating exchanges or in the third market.

[6] Network B will report trades in American Stock Exchange and certain regionally listed securities.

V 40 67 APR 7 75 XUM

any delay in the dissemination of this information over Network A and Network B, for the purpose of servicing interrogation devices? Thus, until the consolidated system is fully implemented, including an operational high speed data transmission line, vendors have no obligations under the Rule or the Plan to display consolidated data on interrogation devices? Vendors, of course, may wish, on a voluntary basis, to receive consolidated last sale data with respect to eligible securities prior to implementation of a high speed line, and every effort should be made to enable them to do so.

Question 3: What are the minimum display requirements under the rule for interrogation systems once the high speed line is operational and Phase II of the consolidated system is in effect?

Interpretative Response: Interrogation systems must be able to display the most recent last sale price as reported in the consolidated system, accompanied by, absent an exemption, a market identifier indicating the marketplace in which the most recent last sale occurred, and, in addition, simultaneously or upon separate inquiry, by some non-misleading display of volume. A display of volume which is either (i) the volume associated with the most recent last sale in the consolidated system, or (ii) cumulative volume on a consolidated basis will be deemed non-misleading and in compliance with the Rule.

Question 3: Certain types of market interrogation equipment are capable, using cathode ray tubes, of displaying multiple bits of information concerning a given security at any one time. In addition to last sale price and volume, these devices are capable of displaying simultaneously such items as opening price, previous day's close, high and low for the trading day, etc. Once the minimum requirements of the rule are met, are there any restrictions imposed by the Rule or the Plan on the other information displayed?

Interpretative Response: The Commission believes that a display which presents, for a given security, the most recent last sale and volume on a consolidated basis and other information (e.g., high, low, previous day's close, etc.) on some other basis, such as the primary market for that security, is potentially misleading. Such problems could be avoided by ensuring that, if a request for consolidated information is made on a device which provides multiple bits of information on a cathode ray tube display, all fields on the screen except for the most recent last sale price, volume, market identifier, and tick symbol remain blank unless presented on a consolidated basis.

If a vendor is not capable, as a technical matter, of eliminating all non-consolidated data from a comprehensive display, cannot eliminate such data without losing the individual market information, or is capable of displaying consolidated and non-consolidated data simultaneously under circumstances which prevent the display from being misleading, such a vendor may maintain a mixed display of consolidated and non-consolidated information. However, if such a mixed display is presented, vendors must make full and complete disclosure to all possible users of the system as to which of the information displayed is presented on a consolidated basis and which is based on last sale reports from a particular named market center.

Question 4: May vendors continue to display on interrogation devices market information for a particular security solely based on last sale reports from an individual market center?

Interpretative Response: Yes, provided that the interrogation device is capable, upon inquiry, of displaying the minimum consolidated information required by the Rule, including the most recent last sales prices as reported in the consolidated system.

Question 5: May vendors continue to provide monitoring displays based solely on last sale reports from an individual market center, including those which display (i) last prices and ticks for a selected list of securities, (ii) the most recent five trades in a selected list of securities, and (iii) those securities which have exceeded or fallen beneath a preselected price?

Interpretative Response: Yes, provided the display is not misleading and that the interrogation device is capable, upon inquiry, of displaying the minimum consolidated information required by the Rule for each security in the monitoring display. Vendors are not required, but are encouraged, to make available monitoring displays based on last sale data as reported in the consolidated system.

Question 6: May vendors employ market interrogation equipment which is not capable of displaying a market identifier for the last sale as reported in the consolidated system?

Interpretative Response: No, unless the Commission has exempted the vendor from the operation of the Rule or unless the equipment is capable of reporting:

1. The last sale in any given security, regardless of market center in which it takes place and whether or not that market center is identified, and

2. The last sale price in each market center in which such security is traded, upon specific inquiry for each such market center's last sale information as to that security?

Requests for exemptions from the market identifier requirements of the Rule will be treated by the Commission on a case-by-case basis. Among the factors which the Commission will consider in determining whether compliance with the Rule with respect to a particular device is not necessary in the public interest or for the protection of investors are the number of non-complying devices in service, whether the vendor can offer to its subscribers equipment which does comply with the Rule's market identification requirements, and the degree to which non-complying equipment is being or will be phased out according to a reasonable timetable established by the vendor.

Question 7: If a vendor chooses to display multiple bits of information concerning a given security (e.g., open high, low) on a consolidated basis on market interrogation equipment, must each such bit of information be accompanied by a market identifier?

Interpretative Response: No. A market identifier is required to identify only the market of origin of the most recent last sale as reported in the consolidated system. However, vendors should take steps to ensure full disclosure to brokers, dealers and investors that all information in the display is presented on a consolidated basis and that the market identifier shown relates only to the most recent last sale as reported in the system.

Question 8: Must vendors, in complying with the market identification requirements of the Rule with respect to interrogation systems, employ as market identifiers the alphabetic symbols used to identify the market of origin of trades on a moving, real-time last sale reporting system (i.e., moving ticker)?

Interpretative Response: No. Any type of symbol, whether alphabetical, numerical or otherwise, may be used by vendors to identify the market of origin of consolidated last sale reports so long as such symbols are not misleading and the market place associated with each symbol is clearly identified.

Question 9: Are there any restrictions on the symbols used to interrogate for last sale in the consolidated system?

Interpretative Response: No. Vendors may use the consolidated tape ticker symbol (the old NYSE symbol in the case of an NYSE listed security) to interrogate for last sale information from the NYSE and some other symbol to interrogate for consolidated data. However, any symbol which differs from the consolidated tape symbol which is used to interrogate for consolidated data must be simple and easy for brokers and investors to use. Thus, use of the tape symbol followed by a large number of numeric or alphabetic symbols to interrogate for consolidated data, when a substantially more convenient method of inquiry is available on the same device for interrogating non-consolidated information, would not comply with rule 17a-15.

Moreover, all vendors are not required to use an identical symbol to interrogate for consolidated data. Each vendor must provide full disclosure of the method by which last sale information on a consolidated basis may be obtained from his particular equipment.

Question 10: Must interrogation systems which display market averages such as the Dow Jones Industrial Average or the Standard & Poor's 500, together with consolidated data, compute such averages for display purposes based on all last sale reports contained in the consolidated system?

Interpretative Response: No. Vendors may continue to display market averages in the same manner they do currently.

Question 11: Are vendors required under the Rule to display on interrogation devices last sale reports for all securities reported on Networks A and B, and would the exclusion of a security (or all securities) listed solely on one particular exchange constitute a violation of the Rule's prohibition against discrimination on the basis of marketplace?

Interpretative Response: If a particular security trades in only one market center, reports of sales of such security are not required by the rule to be displayed on interrogation devices, since no exclusion would be made "based on the market in which a transaction was executed." On the other hand, if information as to any multiply-traded security is displayed with respect to any market, then regardless of volume or investor interest, information as to that security from all markets must be carried by vendors, since failure to do so would constitute a prohibited exclusion based on market of execution.[10] Thus, in order for vendors to comply with the Rule, all dually traded securities for which information from any market place is carried must be displayed on a consolidated basis on interrogation systems. Any security which is traded in only one market place need not be displayed, or may be displayed solely with respect to that market place.

Question 12: May vendors display on interrogation devices a moving last sale reporting display ("moving ticker") which presents last sale reports from only one market center?

Interpretative Response: No. Individual market center oriented moving tickers are not permissible, even when displayed on interrogation devices which are capable of presenting, for an individual security, the minimum consolidated information required by the Rule. The Rule requires that a moving ticker must include last sale reports from all markets. Since a moving ticker does not lose its character as such when presented on a cathode ray tube rather than on a wall display, any moving ticker displayed on an interrogation device must include last sale reports from all markets.

By the Commission.

GEORGIA POWER CO.

Proposal To Sell Entire Interest in Certain Transmission Facilities

Notice is hereby given that Georgia Power Company ("Georgia"), 270 Peachtree Street, NW., Atlanta, Georgia 30303, an electric utility subsidiary of The Southern Company, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 12(d) of the Act and Rule 44 thereunder as applicable to the following proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

The instant transaction is proposed as part of an ongoing effort to implement the January 6, 1975, Integrated Transmission System Agreement ("transmission agreement") between Georgia and the Oglethorpe Electric Membership Corporation ("Oglethorpe"), an electric membership corporation organized under Georgia law (HCAR No. 18750 dated December 31, 1974). The transmission agreement provides for the establishment of an integrated transmission system to be operated by Georgia and Oglethorpe, wherein each party is required to make an aggregate investment in transmission facilities proportionate to its load on the system.

Pursuant to the transmission agreement Georgia proposes to sell to Oglethorpe, on a scheduled closing date of April 30, 1975, certain transmission facilities for an aggregate sales price of approximately $21 million. The original cost, net of depreciation, of these transmission facilities is approximately $17.4 million. Georgia expects to obtain from its first mortgage bond trustee a release of such transmission facilities from the lien of Georgia's first mortgage indenture. It is stated that the proceeds of the sale will be applied to the payment of Georgia's short-term indebtedness incurred to finance its construction program. A request by Georgia to increase its short-term debt authorization to $350 million through March 31, 1976, has been filed with the Commission (File No. 70-5629).

A statement of the fees, expenses and commissions incurred or to be incurred in connection with the proposed transaction will be supplied by amendment. It is stated that no State commission, and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than April 25, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

I.T.S. INDUSTRIES, LTD.

Suspension of Trading

MARCH 31, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of I.T.S. Industries, Ltd. being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from 3 p.m. (e.d.t.) on March 31, 1975 through midnight (e.d.t.) on April 9, 1975.

By the Commission.

[FR Doc.75-8946 Filed 4-4-75;8:45 am]

[70-5640]

OHIO EDISON CO.

Proposed Acquisition of a City Electric System

Notice is hereby given that Ohio Edison Company ("Ohio Edison"), 47 North Main Street, Akron, Ohio, 44308, an electric utility company and a registered holding company, has filed an application and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 9(a)(1) and 10 of the Act as applicable to the proposed transactions. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transactions.

Ohio Edison proposes to acquire the electrical system ("system") of the City of East Palestine, Ohio ("City"). It is stated that on January 27, 1975, Ohio Edison and the City entered into an agreement, subject to receipt of required regulatory approvals, providing for the conveyance by the City and purchase by Ohio Edison of certain property constituting the electric system of the City and providing for the right to use certain other property essential to the operation of the system by Ohio Edison. The system to be acquired is presently being used to serve approximately 2,900 customers and includes, among other facilities, four steam generating units, a diesel generator, 750 transformers, a substation, 658 street lights, 45.5 miles of primary wire and 30.7 miles of secondary wire.

It is stated that the city advertised the sale of the system to the highest and best bidder and that Ohio Edison submitted a bid of $3,080,000 plus the cost to the city of net additions to the system since March 31, 1973. It is further stated that Ohio Edison's bid was accepted on November 25, 1974, and that there were no other bids. Ohio Edison states that it predicated the amount of its bid on its estimate of the present value to Ohio Edison of the property to be purchased.

Upon acquisition by Ohio Edison, it is proposed that the system be operated for a time by Ohio Edison to serve the city's customers. Ohio Edison also proposes to make the changes necessary to permit service to be furnished to the City and its customers from Ohio Edison's own distribution system. It is estimated that the work required to make the initial connection between the city distribution system and Ohio Edison's system will take approximately two years, after which operation of the city generating

V 40 67
APR 7 75

plant will be eventually discontinued. It is stated that the city is surrounded by an area presently being served by Ohio Edison.

Ohio Edison estimates that for the first full year of operation by it beginning April 1, 1975, the operating revenue from the system would be approximately $1,400,000 based upon an estimated sale of 36,400,000 KWH. This compares with approximately $841,307 in revenue in 1974 based on 30,680,000 KWH sales, excluding certain service to municipal accounts. Ohio Edison states it has not made any detailed estimate of net operating income to be derived from the system as the investment involved would not warrant the work and expense involved in making such an estimate. Ohio Edison anticipates, however, that the system will soon be operated as a part of its integrated system and that the costs of and income from the property should be comparable to its other similar operations.

Ohio Edison states that the rates to be charged by it will be the rates specified in the bid for the property, this being formerly the rates for retail service in comparable communities. Ohio Edison states that the substitution of its service will result in no substantial change in the bills of the customers to be served, as the City has recently adopted substantially the same rates as the rates Ohio Edison will charge.

The property to be acquired will be recorded on Ohio Edison's books on the basis of the properties' cost, to the extent the original cost can be determined. The difference, if any, between the purchase price of such property and such original cost will be treated in accordance with the accounting regulations of the Federal Power Commission and the Public Utilities Commission of Ohio.

It is stated that the Public Utilities Commission of Ohio and the Federal Power Commission have jurisdiction over certain accounting matters in connection with the proposed transaction and that no other state or federal commission, other than this Commission, has jurisdiction over the proposed transaction. Fees and expenses to be incurred in connection with the proposed transaction are estimated at $3,400, including legal fees of $1,000.

Notice is further given that any interested person may, not later than April 23, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[70-5654]

OHIO EDISON CO. AND PENNSYLVANIA POWER CO.

Construction of Sludge Disposal Facilities Financed by Sale of Revenue Bonds and Issuance of Pollution Control Notes and Guaranty in Connection Therewith

Notice is hereby given that Ohio Edison Company ("Ohio Edison" 47 North Main Street, Akron, Ohio 44308), an electric utility company and a registered holding company, and its electric utility subsidiary, Pennsylvania Power Company ("Pennsylvania") 1 East Washington Street, New Castle, Pennsylvania 16103, have filed an application-declaration with this Commission designating sections 6, 7 and 12(d) of the Public Utility Holding Company Act of 1935 ("Act") and Rule 44(b)(3) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Ohio Edison, Pennsylvania Power Company ("Pennsylvania"), The Cleveland Electric Illuminating Company, Duquesne Light Company and The Toledo Edison Company (collectively referred to as the "CAPCO companies") are joining in the construction of two coal-fired generating units, Bruce Mansfield Plant Units Nos. 1 and 2, ("units") to be located on the Ohio River near Shippingport, Pennsylvania, which will be owned by them as tenants in common, except that The Toledo Edison Company will not share in the ownership of Unit No. 1. Under present allocations, Ohio Edison will own 60 percent of Unit No. 1 and 39.3 percent of Unit No. 2 and Pennsylvania will own 4.2 percent of Unit No. 1 and 6.8 percent of Unit No. 2.

Under the Pennsylvania Industrial and Commercial Development Law, the Beaver County Industrial Development Authority ("Authority") is authorized to enter into agreements providing for the construction and financing by it of industrial development projects and the sale thereof to industrial occupants. The CAPCO companies have entered into such an agreement (the "agreement") with the Authority with respect to the construction and financing of pollution control and waste disposal equipment and facilities for the units.

The Authority has heretofore issued and sold two series of the Authority's Pollution Control Revenue Bonds with respect to Ohio Edison and Pennsylvania. Now the Authority is expected to issue a third and fourth series of bonds (the "Series C Bonds" and "Series D Bonds," respectively) (collectively, the "bonds"). The bonds are to be issued and sold to finance the cost of sludge disposal equipment and land ("facilities") for the units. The facilities are estimated to cost a total of $79,400,000, Ohio Edison's share of this amount being approximately $39,420,000 and Pennsylvania's share being approximately $4,370,000.

Under the agreement the CAPCO companies will transfer to the Authority their respective interests in the facilities, subject to the liens of their respective first mortgage indentures, and will be reimbursed for their cost of acquiring and constructing the property so transferred. During the course of construction of the facilities, title thereto will be in the Authority. Upon the completion of each such portion, title to that portion will vest in the CAPCO companies.

The bonds will be issued pursuant to indentures supplemental to separate trust indentures between the Authority and The Cleveland Trust Company, as Trustee ("Trustee") dated as of June 1, 1973. The bonds will be sold at such time, in such amounts, at such interest rates and for such prices as Ohio Edison and Pennsylvania, respectively, may approve. Although the Authority will be the issuer of the bonds, as required to exempt the interest thereon from federal income taxation, the credit of the Authority will not be pledged to the payment on the bonds.

It is expected that the principal amount of Series C Bonds to be issued will be $24,825,000 and $2,750,000 for Ohio Edison and Pennsylvania, respectively. The Series C Bonds will be issued to The Chase Manhattan Bank, N.A. ("Chase"), acting as agent for itself and other commercial banks and will have a maturity of 18 months. Interest on the Series C Bonds will be at a rate equal to 80% of the Chase's prime rate in effect from time to time, provided, however, that if a favorable Internal Revenue Service ruling ("ruling") as to exemption of interest on the bonds from federal income tax is not received, the interest rate will be retroactively adjusted equal to 130 percent of such prime rate, plus any interest or penalties that may be due from the banks because of having treated the interest on the Series C Bonds as tax exempt.

The Authority will pay a one-time fee to the banks equal to ¼ of 1 percent of the principal amount of the Series C Bonds and the portion of this cost related to the Series C Bonds being issued with respect to Ohio Edison and Pennsylvania will be allocated to and borne separately by them. The Authority will also pay a commitment fee of ½ of 1 percent per annum with respect to amounts committed by the banks to purchase the Series C Bonds. The cost of this commitment fee will be allocated and borne separately by Ohio Edison and Pennsylvania in proportion to the Series C Bonds to be issued with respect to each of them.

It is planned that the Series C Bonds will be issued pending the receipt of the ruling referred to above. After receipt of the ruling, the Series D Bonds will be issued as refunding bonds to retire the Series C Bonds. It is expected that the Series D Bonds will be sold through investment bankers acting as underwriters in a public offering.

Concurrently, with the issuance and delivery by the Authority of the Series C Bonds and similarly upon the issuance and delivery of the Series D Bonds, Ohio Edison and Pennsylvania will each execute and deliver its pollution control note ("note") payable directly to the Trustee. Interest on such notes will be at the rates and will be payable at times corresponding to the rates of interest and times of payment on the bonds. The notes provide, among other things, that the amounts due thereunder must be paid whether or not the facilities are completed or perform satisfactorily and whether or not they are damaged or destroyed. The notes will be secured by a second lien on each company's interest in the facilities. It is stated that since the Series D Bonds will only be issued after receipt of the ruling, authority to issue concomitant notes will be requested by further amendment in this proceeding.

In conjunction with the issuance of the Series C Bonds and in addition to issuing the notes, Ohio Edison and Pennsylvania propose to each execute and deliver a Guaranty and Purchase Agreement to the banks. It is stated that the major purpose of this document is to place the banks in the position they would have been had they made direct loans to the companies in the event a favorable ruling is not received.

The proceeds from the Series C Bonds with respect to Ohio Edison and Pennsylvania will be placed in a separate escrow account for use in connection with construction and financing of the facilities. Ohio Edison and Pennsylvania intend to account for transactions related to the notes in conformity with the Uniform System of Accounts.

It is stated that the Public Utilities Commission of Ohio and the Pennsylvania Public Utility Commission have jurisdiction over the proposed transactions and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions. Fees and expenses to be incurred in connection with the proposed transactions are estimated at $13,000, including legal fees of $8,000.

Notice is further given that any interested person may, not later than April 21, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS, *Assistant Secretary.*

[FR Doc.75-8947 Filed 4-4-75;8:45 am]

OPTIONS CLEARING CORPORATION

Proposed Amendments to Option Plans

Notice is hereby given that the Chicago Board Options Exchange, Inc. ("CBOE") and the American Stock Exchange, Inc. ("AMEX"), have filed proposed changes in their respective option plans pursuant to rule 9b-1 under the Securities Exchange Act of 1934 (17 CFR 240.9b-1). The changes concern amendments to the by-laws and rules of the Options Clearing Corporation ("OCC"). The OCC proposes to amend the following provisions of its by-laws and rules:

By-Laws: Article I, Section 1(z); Article VI, Sections 3(a) and 3(f);[1] Article VI, Sections 12(f), 13(e) and 13(f).

Rules: Rules 601, 902, 1104, 1105(a) and (c), 1106(a), (b) and (c).

In addition OCC proposes new paragraphs (iii) and (jjj) of Article I, section 1 of the By-Laws and proposed new rule 611. In accordance with the authorization contained in section 22 of the Participant Exchange Agreement dated January 3, 1975, a copy of which has previously been filed with the Commission and is available in the Commission's Public Reference Room.

[1] Formerly Section 3(e)—proposed to be redesignated as 3(f) in connection with proposed amendments transmitted for filing on February 19, 1975 to the Commission.

1. *Technical Changes.* The proposed amendments to Article VI, sections 12(f), 13(e) and 13(f) of the by-laws accommodate those provisions to the possibility that positions may be moved from one account to another pursuant to the by-laws and rules, without special authorization from the Clearing Members for which the accounts are maintained. For example, rule 1106(a) provides that upon the suspension of a Clearing Member, the Corporation will use its best efforts to transfer long positions (segregated long positions, under the proposed amendments discussed below) in the suspended Clearing Member's customers' account to another Clearing Member. The Corporation interprets rule 1106(a) as permitting such transfers without special authorization from the suspended Clearing Member. However, Article VI, section 12(f) might possibly be interpreted as requiring such authorization. OCC believes the purpose of the proposed amendments discussed under this subheading is to prevent such inconsistencies by expressly recognizing that the by-laws and rules themselves may furnish sufficient authority for certain position transfers.

2. *Change in Exercise Settlement Date.* The proposed amendment to Rule 902 was adopted at the request of the Dividend Division of the Securities Industry Association. Its effect is to move the exercise settlement date up one business day, from the fifth business day following the assignment date to the fifth business day following the exercise date. OCC is of the opinion that in its present form rule 902 has created operational problems for dividend processors, because a Clearing Member which files an exercise notice on the day prior to an ex-date, and therefore has the right to receive a dividend, will not be entitled to delivery of the underlying securities until the day after the record date. Automatic dividend processing systems are programmed on the presumption that persons receiving delivery of securities after the record date are not entitled to the dividend; and for that reason, dividends on securities delivered pursuant to the exercise of exchange-traded options must be processed manually. The proposed amendment to rule 902 would eliminate the necessity of manual processing by causing exercises made on the day before an ex-date to settle on the record date since record date is usually 5 days after ex-date.

3. *New Margin Provisions.* The remainder of the proposed by-laws and rule changes filed herewith, according to OCC, established a new method for margining short options positions at the Clearing Corporation level.

Under the existing margin provisions of rule 601, Clearing Members are not permitted to offset any portion of the value of the long positions in a customers' account against the margin required for short positions in that account. Thus, even though a customer may not yet have paid his Clearing Member in full for a long option or may have used a long option "spread" margin treatment, the Clearing Member is unable to use them to

V 40 67
APR 7 75

reduce its clearing margin requirements.

This, according to OCC, has created a problem for Clearing Members since the new customer margin rules which were recently adopted by CBOE, Amex and the New York Stock Exchange went into effect. These new customer margin rules of the exchanges provide, in effect, that where a listed option is carried in a short position in a customer's account and the account is also long, the listed option that expires at the same time as or after the expiration date for the short option, the customer's margin requirement need not exceed the amount, if any, by which the exercise price of the long option exceeds the exercise price of the short option. Accordingly, under the customer margin rules, if the exercise price of the long option is the same as or longer than the exercise price of the short option, no customer margin is required, and if the exercise price of the long option exceeds the exercise price of the short, the maximum amount of margin will be the difference in their exercise prices. Moreover, as the market price of the short option increases additional margin or "mark-to-the-market" payments are not required from the customer.

In contrast, the clearing margin required to be deposited with the Clearing Corporation by Clearing Members under present rule 601 is never less than the current market value of the short option included within the spread. If the market value of the short increases (as has been the case for many options in the past few months), the amount of margin required to be deposited with the Clearing Corporation increases pro tanto.

Consequently, in a bull market a Clearing Member that maintains a significant number of spread margin positions for its customers may find itself hardpressed by the increased clearing margin requirements, since it would have no practical ability to obtain additional margin deposits from customers. (Under the typical margin agreements between brokers and their customers, the Clearing Member would have the right to call for additional margin. However, it would be contrary to the expectations of both the broker and the customer at the time the customer effects a spread transaction that additional margin might be called for as the spread becomes more profitable and less risky from the customer's point of view.) If the problem were to become acute, as it might in a very steadily rising market, Clearing Members might be forced to liquidate customers' short positions or to take other action which might affect customers' interests. Accordingly, OCC urges the Commission to take action on the new margin proposals filed herewith as promptly as practical.

The filed proposals would, in essence, permit every Clearing Member to instruct the Clearing Corporation as to the long positions carried in customers' and firm accounts which are to be deemed to be "segregated." Any long position as to which the Clearing Corporation receives a segregation instruction will remain in the control of the Clearing Corporation "free of any charge, lien or claim of any kind" in favor of the Clearing Corporation or any person claiming through it and, OCC submits, should satisfy the "control location" provisions of rule 15c3-3 in the manner contemplated by subparagraph (c) (2) of that rule.

If the Clearing Corporation does not receive segregation instructions as to an option contract held in a long position in a customers' or firm account—all long positions in market makers and specialists accounts will be deemed to be unsegregated—that contract will be treated as unsegregated and will be subject to a lien of the Clearing Corporation. It is expected that such unsegregated options in the customers' account will be those for which the Clearing Member does not receive full payment from his customer and those which have been identified as the long "leg" of a spread receiving spread margin treatment under the exchanges' customer margin rules to the extent such options are not "excess margin securities" within the meaning of rule 15c3-3. Thus, the Clearing Corporation would have a lien on long options used as part of a spread for margin purposes—that is, such options would not be deemed to be "fully paid"—so long as the Clearing Member is not required to reduce such options to its control as an excess margin security.

In addition to allowing Clearing Members to hypothecate with the Clearing Corporation options that have not yet been paid for or which are part of spreads, the proposed new margin rules filed herewith would serve, OCC believes, three other purposes. First, they would subject all of the Clearing Members' accounts at the Clearing Corporation to the same margin computation. Second, the new segregated positions would enable the Clearing Corporation to eliminate "firm non-lien accounts" and thus simplify reporting programming. Third, the adoption of the proposed rules would enable the Clearing Corporation to increase the clearing margin required on uncovered short positions without hardship to Clearing Members.

OCC submitted copies of a memorandum transmitted to Clearing Members explaining the operation of the proposed new rules. (Copies of this memorandum may be obtained by contacting the Commission's Public Reference Room.) As noted in the memorandum, it is the Clearing Corporation's intention to increase the margin requirements on short positions to 130% of the aggregate market value of such positions reduced by 70% of the market value of the unsegregated long options of the same class (or 35% of excess long value from other classes). However, for those Clearing Members who will not immediately be able to utilize the "unsegregated long position" aspect of the proposed rules, the Clearing Corporation's intention is to impose initially a margin requirement of 110 percent of the market value of short option contracts and to increase this requirement in one or more stages until it reaches the 130% level.

In order to accomplish the foregoing, the following changes have been proposed. New subparagraphs (iii) and (jjj) of Article I, Section 1 of the By-Laws would define the terms "segregated long position" and "unsegregated long position." The amendment to subparagraph (z) of Article I, Section 1 of the By-Laws would eliminate the existing distinction between a "firm lien account" and a "firm non-lien account." The proposed amendment to Article VI, Section 3(a) of the By-Laws would give the Clearing Corporation a lien on unsegregated long positions in firm accounts and would eliminate the lien on segregated long positions in those accounts. The proposed amendment to Article VI, section 3(a)—which would be renumbered 3(f) upon the adoption of other pending proposals—would give the Clearing Corporation a lien on unsegregated long positions maintained in customers' accounts. The proposed amendments to rule 601 would change that rule almost in its entirety and would provide for the new margin computation that will be applicable to all accounts. (The last paragraph of rule 601 has not been amended except for the addition of the last sentence thereof.) Rule 611 is entirely new and would provide the manner and time of filing segregation instructions with the Clearing Corporation. In addition, the rule would provide that segregated long positions which have been fully paid will be maintained by the Clearing Corporation free of lien. The rule would also provide the manner in which the Clearing Corporation will reduce long positions in an account—as between segregated and unsegregated—upon the closing out or exercise of such positions. The proposed amendment to rule 1104 would add clauses (iii) and (iv) thereof so as to make it clear that the proceeds from the closing out of unsegregated long positions and exercised contracts in the customers' account would be applied only to the payment of the Clearing Member's obligations arising out of that account. (These changes are in addition to the proposed OCC amendment to rule 1104 that was filed with Mr. Navin's letter of February 19, 1975, and noticed on 40 FR 12719, March 20, 1975.) Rules 1105 and 1106 would provide for the different treatment of segregated and unsegregated positions upon the suspension of a Clearing Member.

In addition, the amendment to rule 1106 would make it clear that segregated long positions of a suspended Clearing Member can be exercised by a person having authority to act on behalf of that Member, and that (unless the Clearing Corporation stipulates otherwise) the resulting exercised contracts are to be closed out as provided in rule 1107.

The proposed amendment will become effective upon the 30th day after this notice appears in the FEDERAL REGISTER, or upon such earlier date as the Commission may allow unless the Commission shall disapprove the change in whole or in part as being inconsistent with the public interest or the protection of investors.

All interested persons are invited to submit their views and comments on the amendment to CBOE's plan either before or after it has become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to file number 10-54. The amendment is, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW., Washington, D.C.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

APRIL 1, 1975.

STANDARD & POOR'S/INTERCAPITAL INCOME SECURITIES, INC. AND DR. IRWIN FRIEND

Application for Exemption

Notice is hereby given that Standard & Poor's InterCapital Income Securities, Inc. ("S&P"), 1775 Broadway, New York, New York 10019, registered under the Investment Company Act of 1940 ("Act") as a diversified closed-end company, and Dr. Irwin Friend, Rodney L. White Center for Financial Research, 343 Vance Hall, University of Pennsylvania, Philadelphia, Pennsylvania 19104, a director of S&P (hereinafter collectively referred to as "Applicants") have filed an application on January 17, 1975, and an amendment on March 6, 1975, for an order of the Commission pursuant to section 6(c) of the Act declaring that Dr. Friend shall not be deemed an interested person of S&P within the meaning of section 2(a)(19) of the Act solely by reason of his status as director of PMI Investment Corporation ("PMI"), a registered broker-dealer under the Securities Exchange Act of 1934 ("Exchange Act"). All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

PMI was originally organized in December, 1972 to be a holding company of two mortgage insurance companies, PMI Mortgage Insurance Co. and PMI Mortgage Insurance Co. of California (hereinafter collectively referred to as the "Mortgage Insurance Companies"). In September, 1973, PMI and the Mortgage Insurance Companies were acquired by Allstate Insurance Company ("Allstate"). After the acquisition, PMI and PMI Mortgage Insurance Company became direct subsidiaries of Allstate, PMI Mortgage Insurance Company of California became a direct subsidiary of PMI Mortgage Insurance Co., and PMI commenced doing business as a "matchmaker", that is, as a person who brings together buyers and sellers of whole mortgages on residential properties.

PMI anticipates that at some time in the future it may commence acting as a matchmaker in connection with the placement of "participations" in whole mortgages. Because it considered that such mortgage participations may be deemed to be securities within the meaning of the Exchange Act and that its matchmaking activities may subject it to the registration provisions of that Act, PMI registered as a broker-dealer under the Exchange Act.

Section 2(a)(19) of the Act, in pertinent part, defines an "interested person" of an investment company to include any broker or dealer registered under the Exchange Act or any affiliated person of such broker or dealer. Dr. Friend is a director of PMI. He is, therefore, an affiliated person of PMI under section 2(a)(3) of the Act, and, hence, an interested person of S&P under section 2(a)(19) of the Act.

Section 6(c) of the Act provides that the Commission may conditionally or unconditionally exempt any person from any provision of the Act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Dr. Friend is Richard K. Mellon, Professor of Finance and Professor of Economics and Finance at The Wharton School of the University of Pennsylvania, and is also Director of the Rodney L. White Center for Financial Research at the University of Pennsylvania.

Applicants state that, aside from his Directorships in PMI and the Mortgage Insurance Companies, Dr. Friend is not affiliated and has never had any business connections with Allstate, PMI or any other affiliated person of any of said companies. As director of PMI and the Mortgage Insurance Companies, Dr. Friend receives approximately $7,000 per annum in directors fees plus actual travel expenses, an insubstantial portion of his gross income.

S&P's investment policy dictates that S&P is to invest all of its assets in fixed income securities and is precluded from purchasing interests in real estate, except that it may invest in marketable securities secured by real estate or interests therein. Applicants state that since the mortgage participations proposed to be the subject of PMI's matchmaking business are not expected to be marketable, S&P will have no occasion to do business with PMI. Furthermore, S&P undertakes that it will not, under any circumstances, do any business with PMI so long as Dr. Friend is a director of S&P and a director of PMI.

S&P believes that it would be inherently misleading to stockholders and unfair to Dr. Friend to identify him as an interested director of S&P since it implies the existence of a question of actual or potential conflict of interest which, Applicants claim, does not in fact exist. Applicants further state that it would be appropriate to treat Dr. Friend as a disinterested director in those instances when the S&P directors vote on a matter which requires majority approval by disinterested directors.

Notice is further given that any interested person may, not later than April 22, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided, by rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following April 22, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commissions own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

BOISE DISTRICT ADVISORY COUNCIL

Public Meeting

The Small Business Administration Boise District Advisory Council will meet at 10:15 a.m. (m.d.t.), Monday, April 14, 1975, at the Royal Restaurant "Executive Room," 1112 Main Street, in Boise, to discuss such business as may be presented by members, the staff of the Small Business Administration, and others attending. For further information, call or write Oliver T. Davis, Small Business Administration, 216 North Eighth Street, Boise, Idaho 83701, (208) 342-2516.

Dated: March 27, 1975.

ANTHONY S. STASIO,
Chief Counsel for Advocacy,
Small Business Administration.

[FR Doc.75-8966 Filed 4-4-75;8:45 am]

SUN CAPITAL CORP.

Filing of Application for Transfer of Control of a Licensed Small Business Investment Company

Notice is hereby given that an application has been filed with the Small Business Administration (SBA), pursuant to § 107.701 of the Regulations governing

V 40167
APR 7 75

small business investment companies (13 CFR 107.701 (1975)), for the transfer of control of Sun Capital Corporation (SUN), P.O. Box 10309, Pittsburgh, Pennsylvania 15236, a Federal licensee under the Small Business Investment Act of 1958, as amended (the Act), License No. 03/03-0054.

SUN was licensed on March 9, 1964. Its present combined paid-in capital and surplus is $861,925 with 93,547 shares, issued and outstanding, held by 65 stockholders, of whom Peter L. Snyder owns and/or controls in excess of 50 percent. This proposed transfer of control is subject to and contingent upon, the approval of SBA.

The applicant, Puritan Investors Corporation (Puritan), with offices at 99 Soundview Drive, Port Washington, New York, is exchanging a number of its shares of stock with Peter L. Snyder to receive a sufficient number of Sun's stock to give Puritan 55.07 percent of the issued and outstanding stock of the licensee. The principal office of the licensee will continue to be located in Pittsburgh, Pennsylvania.

The proposed new officers and directors of the applicant are as follows:

Peter L. Snyder, President & Director.
Albert Raisin, Vice President & Director.
Allan Salovin, Secretary.
Francis S. McMichael, Director.

The single largest stockholder in Puritan is Albert Raisin.

Matters involved in SBA's consideration of the application include the general business reputation and character of the new owner and management, and the probability of successful operations of Sun under their management and control, including adequate profitability and financial soundness, in accordance with the Act and regulations.

Notice is hereby given that any interested person may, on or before April 22, 1975, submit to SBA, in writing, relevant comments on the transfer of control. Any such communication should be addressed to:

Deputy Associate Administrator
for Investment
1441 L Street, NW.
Washington, D.C. 20416

A copy of this notice shall be published by the transferee in newspapers of general circulation in Pittsburgh, Pennsylvania.

Dated: March 25, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[FR Doc.75-8965 Filed 4-4-75;8:45 am]

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

STANDARDS ADVISORY COMMITTEE ON HAZARDOUS MATERIALS LABELING

Meetings

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Standards Advisory Committee on Hazardous Materials Labeling, established under section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656) will hold its seventh meeting on April 22 and 23, 1975. The location of the meeting is Conference Room B, Departmental Auditorium, Constitution Avenue and 14th Street, NW., Washington, D.C. The meeting will begin at 10 a.m. on the 22nd and 9 a.m. on the 23rd and will be open to the public.

The proposed agenda for this meeting calls for the full Committee to consider Subgroup working papers on labeling and placarding systems and worker training. Agenda items are subject to change as priorities dictate.

Future meeting dates for the Standards Advisory Committee on Hazardous Materials Labeling are May 8–9 and May 29–30, 1975. The meeting on May 8–9 will be held in the Dupont Room of the Dupont Plaza Hotel, 1500 New Hampshire Avenue, NW., Washington, D.C. The meeting on May 29–30 will be held in Conference Room B of the Departmental Auditorium Constitution Avenue and 14th Street, NW., Washington, D.C. Times for these meetings will be the same as indicated for the April 22–23, 1975, meeting. The Committee will finalize its recommendations and approve the final report during these meetings.

Any member of the public wishing to submit written presentations or recommendations to the Committee may do so by filing such a statement, together with 20 duplicate copies, with the Committee Management Officer at least seven days prior to the meeting date. These statements will be submitted to the Committee members and will be included in the record of the meeting.

The Committee Chairman may permit oral statements before the Committee by interested persons if time permits. Anyone desiring to make an oral presentation should submit a written request to the Committee Management Officer at least seven days before the meeting. The request must have the name and address of the person wishing to appear, the capacity in which he will appear, a short summary of the intended presentation, and the approximate amount of time required for his presentation. These requests will be submitted to the Chairman for his consideration.

All materials which have been submitted to or developed by the Committee, as well as the official record of all Committee proceedings, are available for public inspection and copying at the Committee Management Office. Any copying will be done at the cost of 10¢ per page. However, no arrangement will be made to supply Committee materials to the public at any meeting site.

Any questions concerning Committee activities or requests for copies of Committee materials should be addressed to: Ms. Nancy L. Hucke, Committee Management Officer, Occupational Safety and Health Administration, 1726 M Street NW., Room 200, Washington, D.C. 20210, Phone: 202/961-2248, 2487.

Signed at Washington, D.C. this 4th day of April, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-9154 Filed 4-4-75;9:21 am]

STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Withdrawal of Georgia, New Hampshire and Pennsylvania Plans

Notice is hereby given that the States of Georgia, New Hampshire and Pennsylvania have elected to withdraw their requests for the approval of their occupational safety and health plans by the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary).

The submission of the Georgia plan to the Assistant Secretary for his approval was published in the FEDERAL REGISTER on February 7, 1973 (38 FR 3556). By letter dated April 27, 1973, Governor Jimmy Carter officially notified John H. Stender, Assistant Secretary of Labor for Occupational Safety and Health, of Georgia's intent to withdraw its plan from further consideration by the Assistant Secretary.

The submission of the New Hampshire plan to the Assistant Secretary for his approval was published in the FEDERAL REGISTER on June 8, 1973 (38 FR 15107). By letter dated October 16, 1973, Governor Meldrin Thompson notified Assistant Secretary John H. Stender of New Hampshire's decision to withdraw its plan from further consideration by the Assistant Secretary.

The submission of the Pennsylvania plan to the Assistant Secretary for his approval was published in the FEDERAL REGISTER on February 1, 1973 (38 FR 3123). By letter dated March 21, 1973, Governor Milton Shapp notified Peter Brennan, Secretary of Labor, of Pennsylvania's intent to withdraw its plan from further consideration for approval by the Assistant Secretary.

These actions do not preclude the States of Georgia, New Hampshire and Pennsylvania from resubmitting occupational safety and health plans under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) at any future date.

(Sec. 18 Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Washington, D.C. this 24th day of March 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-8934 Filed 4-4-75;8:45 am]

STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Approval of Iowa Plan

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Assistant Regional Directors for Occupational Safety and Health (hereinafter called the Assistant Regional Director) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary), (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On July 20, 1973, notice was published in the FEDERAL REGISTER, 38 FR 19368, of the approval of the Iowa plan and the adoption of Subpart J to Part 1952 containing the decision.

The Iowa plan provides for the adoption of Federal standards as State standards (by reference after comments and public hearing). Section 1952.163 of Subpart J sets forth the State's schedule for the adoption of Federal standards. By letter dated December 31, 1974, from Jerry L. Addy, Commissioner of Labor to Joseph A. Reidinger, Assistant Regional Director for Occupational Safety & Health Administration, and incorporated as part of the plan, the State submitted State standards comparable to 29 CFR 1926.451(d)(8), 1926.500(d)(1), 1926.914(e) (39 FR 19470, June 3, 1974); 1926.750(b)(2) (39 FR 24361, July 2, 1974); 1910.21(f)(31), 1910.21(g)(16), 1910.25(c)(1)(iii)(c), 1910.25(c)(2)(iv)(c)(1), 1910.28(b)(12), 1910.31, 1910.37(q)(6), 1910.66, 1910.66(c)(22)(i), 1910.66(c)(22)(vii), 1910.68(b)(4), 1910.68(c)(5)(iv)(c), 1910.94(a)(2)(iii), 1910.94(b)(5)(i)(a), 1910.94(d)(9)(iv), 1910.95, 1910.96(b)(2)(iii), 1910.103(b)(3)(iii)(e), 1910.103(c)(3)(ii)(d), 1910.107(a)(5), 1910.109(i)(2)(iii)(c), 1910.109(d)(6)(i)(a), 1910.110(b)(14)(xvi), 1910.115, 1910.147, 1910.157(c)(4)(iii), 1910.157(d)(4)(iii), 1910.168(a)(15), 1910.178(c)(2), 1910.179(g)(3)(vii), 1910.180(f)(1), 1910.213(p)(4), 1910.215, 1910.217(b)(7)(vii), 1910.221, 1910.246, 1910.252(a)(6)(vi)(a)(6), 1910.252(b)(2)(iii)(b)(2), 1910.254, 1910.261(e)(11), 1910.262(b)(22), 1910.262(m), 1910.263(l)(9)(ix), 1910.265(a)(2), 1910.266(a)(2), 1910.266(c)(2)(vii), 1910.268, 1910.308(a), 1910.308(d), 1910.309(a), 1910.309(b), (39 FR 19468, June 3, 1974); 1910.93q (39 FR 5896, October 4, 1974). These standards, which are contained in Chapter 88 of the Code of Iowa (1973), were promulgated after public comment requested on November 1, 1974, hearings held on December 2, 1974, and resolution adopted by the Iowa Bureau of Labor on December 3, 1974, pursuant to Chapter 17a of the Code. The standards were effective on December 3, 1974, and notice of their adoption was published by the State on January 4, 1975.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards it has been determined that the State standards are identical to the Federal standards, and are hereby approved.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Assistant Regional Director, Room 3000 Federal Office Building, 911 Walnut, Kansas City, Missouri; the Iowa Bureau of Labor, East 7th and Court Avenue, 4th Floor, Des Moines, Iowa; and Office of the Associate Assistant Secretary for Regional Programs, Room 850, 1726 M Street NW., Washington, D.C. 20210.

4. *Public participation.* Under § 1953.2(c) of this chapter, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Iowa State plan as a proposed change and making the Assistant Regional Director's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards and are therefore deemed to be at least as effective.

2. The standards were adopted in accordance with the procedural requirements of State law and further public participation would be unnecessary.

This decision is effective April 7, 1975.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Kansas City, Missouri this 17th of March 1975.

J. A. REIDINGER,
Assistant Regional Director.

[FR Doc.75-8936 Filed 4-4-75;8:45 a.m.]

STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Withdrawal of Mississippi Plan

Notice is hereby given that the State of Mississippi has elected to withdraw its request for the approval of its occupational safety and health plan by the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary). The original submission of the plan to the Assistant Secretary for his approval was published in the FEDERAL REGISTER on February 20, 1973 (38 FR 4696). Following preliminary review of the plan, the State resubmitted its plan to the Assistant Secretary, which resubmission was published in the FEDERAL REGISTER on September 10, 1974 (39 FR 32670).

By letter dated January 23, 1975, Governor Bill Waller formally notified John H. Stender, Assistant Secretary of Labor for Occupational Safety and Health, of his withdrawal of support for the proposed plan and requested that approval of the plan be given no further consideration.

This action does not preclude the State of Mississippi from resubmitting an occupational safety and health plan under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) at any future date.

(Sec. 18 Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Washington, D.C. this 24th day of March 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.75-8935 Filed 4-4-75;8:45 am]

INTERSTATE COMMERCE COMMISSION

[Notice No. 736]

ASSIGNMENT OF HEARINGS

APRIL 2, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 32882 Sub 71, Mitchell Bros. Truck Lines, MC 106497 Sub 86, Parkhill Truck Company and MC 125433 Sub 44, F-B Truck Line Company, now being continued to May 19, 1975, at the Offices Of the Interstate Commerce Commission, Washington, D.C.

MC 71459 Sub 49, O.N.C. Freight Systems, now being assigned April 21, 1975, at Albuquerque, N. Mex., at The Holiday Inn East, 12901 Central, N.E.

I & S 9031, Increased Fares, Baltimore and Ohio Railroad Company, now being assigned May 13, 1975 at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 2860 Sub 144, National Freight, Inc., now assigned April 15, 1975 at Washington, D.C., is postponed to May 20, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 129480 Sub 14, Tri-Line Expressways Ltd., now being assigned June 23, 1975 (1 week) at Denver, Colorado; in a hearing room to be designated later.

MC 123407 Sub 218, Sawyer Transport, Inc., now being assigned April 28, 1975 (3 days) at St. Paul, Minnesota, in Court Room No. 2 Federal Building & Courthouse, Kellogg and Robert Street.

[Notice No. 260]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

APRIL 7, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27,

V 40 67
APR 7 75

1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before April 28, 1975.

Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75490. By order entered March 17, 1975, the Motor Carrier Board approved the transfer to Murty Van, Inc., Hialeah, Fla., of the operating rights set forth in Certificate No. MC-107947, issued August 6, 1964, to O'Dare's Horse Transport, Inc., Hialeah, Fla., authorizing the transportation of show horses and race horses, and equipment and supplies used in their care and display, between points in Massachusetts, New Hampshire, Vermont, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, and the District of Columbia; and livestock, other than ordinary livestock, and in the same vehicle with such livestock, mascots, personal effects of attendants, trainers, and exhibitors, and supplies and equipment used in the care and exhibition of such animals, between points in the above-specified states, on the one hand, and, on the other, points in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Michigan, Mississippi, Ohio, and Tennessee; and between points in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Michigan, Mississippi, Ohio, and Tennessee. Stuart P. Pierson, Suite 1100, 1660 L Street NW., Washington, D.C. 20036, attorney for applicants.

No. MC-FC-75574. By order of March 14, 1975 the Motor Carrier Board approved the transfer to ATA, Inc., doing business as America Interstate Travel, Worthington, Ohio, of License No. MC 130112 issued November 11, 1970, to George A. Hauch, doing business as Hauch Tours, Columbus, Ohio, authorizing it to engage in operations as a broker of passengers and their baggage, in special or charter operations, beginning and ending at points in Franklin County, Ohio, and extending to points in the United States, including Alaska and Hawaii. Thomas E. Palmer, 140 East Town St., Columbus, Ohio, 43215, attorney for applicants.

No. MC-FC-75707. By order entered March 17, 1975 the Motor Carrier Board approved the transfer to LeClair Livestock Trucking, Inc., Billings, Mont., of the operating rights set forth in Certificate No. MC 140067, issued March 14, 1975, to R. L. Bertolins Refrigerated Trucks, Inc., Billings, Mont., authorizing the transportation of meats, from Billings, Mont., to Salt Lake City and Murray, Utah, Reno, Nev., and points in California; fresh meats, from Billings, Mont., to the storage facilities of Best Meats, Inc., at or near Tampa, Fla., restricted to traffic originating at the plant site and storage facilities of Midland Packing Co., Inc. at Billings, Mont.; and livestock, other than ordinary, between points in Montana, on the one hand, and, on the other, points in Idaho, Washington, Oregon, California, Nevada, Utah, Arizona, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, and Nebraska. James P. Murphy, 2512 3rd Ave., N., P.O. Box 1914, Billings, Mont. 59103, attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 35]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 2, 1975.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a (a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 11722 (Sub-No. 41TA), filed March 25, 1975. Applicant: BRADER HAULING SERVICE, INC., P.O. Box 635, Zillah, Wash. 98953. Applicant's representative: Douglas A. PIPELINE ADVISORY COMMITTEE ON VALUATION

Certification and Establishment

The Interstate Commerce Commission in compliance with the Federal Advisory Committee Act (Pub. L. 92-463) has been granted approval by appropriate authority to renew its advisory committee known as the Pipeline Advisory Committee on Valuation. Continuation of this advisory committee is in the public interest since it will afford all interested parties with the opportunity to submit data and information appropriate to the determination of annual price/cost indices for pipeline facilities and equipment. Furthermore, it will provide all interested parties with an opportunity to attend, appear before, or file statements at any future scheduled meetings of this committee.

NATURE AND PURPOSE OF COMMITTEE

The committee will provide the Bureau of Accounts with data and information needed by the Commission to determine annual price/cost indices for pipeline facilities and equipment. These indices are vital to the Commission in determining:

(1) Original (basic) valuations of all oil pipelines as required by section 19a of the Interstate Commerce Act.

(2) Annual valuations for each pipeline which the Commission must do to comply with the requirement of section 19a that on completion of such original valuations it shall keep itself informed of all new construction, extensions, and improvements in each such pipeline and all changes in the investment and the valuation.

In certain cases valuations have been the basis upon which the Commission has determined the reasonableness of pipeline rates, and those valuations are certified by the Commission to the Department of Justice for its use in determining compliance by the pipelines with the oil pipeline Consent Decree.

These valuations are also used by state and local authorities in the regulation of pipeline rates and in the taxation of pipeline properties.

The committee will serve in an advisory capacity only; completely independent and final calculation of data and information submitted by the committee will be made by the Commission's Bureau of Accounts.

[SEAL] ROBERT L. OSWALD, *Secretary.*

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY—ELIMINATION OF GATEWAY LETTER NOTICES

MARCH 31, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before April 17, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 95540 (Sub-No. E721), filed May 20, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's repre-

V 40 67
APR 7 75

sentative: Clyde W. Carver, Suite 212, 5299 Roswell Rd., N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from those points in North Carolina east of U.S. Highway 301 to those points in Nevada on and south of a line beginning at the Nevada-Utah State line and extending along U.S. Highway 60/50 to junction Nevada Highway 51, then Nevada Highway 51 to junction Interstate Highway 40, then Interstate Highway 40 to junction Nevada Highway 49, then Nevada Highway 49 to junction Nevada Highway 34, then Nevada Highway 34 to the Nevada-California State line. The purpose of this filing is to eliminate the gateways of Jacksonville, Fla., and Gulfport, Miss.

No. MC 95540 (Sub-No. E724), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd., N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, in vehicles equipped with mechanical refrigeration (except in bulk and except meats, meat products, meat by-products, and articles distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766), from points in Maine, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateway of Doraville, Ga.

No. MC 95540 (Sub-No. E727), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd., N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, not frozen, in vehicles equipped with mechanical refrigeration (except in bulk and except meats, meat products, meat by-products, and articles distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766), from points in Texas, to those points in Kentucky on and east of a line beginning at the Kentucky-Ohio State line and extending along Kentucky Highway 11 to junction Interstate Highway 64, thence along Interstate Highway 64 to junction Kentucky Highway 15, thence along Kentucky Highway 15 to junction Kentucky Highway 11, thence along Kentucky Highway 11 to junction U.S. Highway 421, thence along U.S. Highway 421 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction Kentucky Highway 229, thence along Kentucky Highway 229 to junction U.S. Highway 25E, thence along U.S. Highway 25E to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of Doraville, Ga.

No. MC 95540 (Sub-No. E731), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd., N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruit drinks* and *frozen juices*, from points in Florida (except those in Jacksonville County), to points in Maine. The purpose of this filing is to eliminate the gateway of Bridgeton, N.J.

No. MC 95540 (Sub-No. E735), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd., N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from points in South Carolina, to points in California. The purpose of this filing is to eliminate the gateways of Jacksonville, Fla., and Gulfport, Miss.

No. MC 95540 (Sub-No. E738), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd., N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from those points in New Jersey on and south of New Jersey Highway 33, to those points in Texas on and south of a line beginning at the Texas-Louisiana State line and extending along Texas Highway 21 to junction Texas Highway 294, thence along Texas Highway 293 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Texas Highway 158, thence along Texas Highway 158 to junction Texas Highway 59, thence along Texas Highway 59 to junction County Road 181, thence along County Road 181 to junction Texas Highway 115, thence along Texas Highway 115 to junction Texas Highway 128, thence along Texas Highway 128 to the Texas-New Mexico State line. The purpose of this filing is to eliminate the gateways of Jacksonville, Fla., and Gulfport, Miss.

No. MC 95540 (Sub-No. E739), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from those points in Virginia on and south of a line beginning at the Virginia-North Carolina State line and extending along U.S. Highway 58, thence along U.S. Highway 58 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Interstate Highway 64, thence along Interstate Highway 64 to the Chesapeake Bay, to those points in Nevada on and south of a line beginning at the Nevada-California State line and extending along U.S. Highway 40 to junction U.S. Highway alternate 95, thence along U.S. Highway Alternate 95 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Nevada-Utah State line. The purpose of this filing is to eliminate the gateways of Jacksonville, Fla., and Gulfport, Miss.

No. MC 95540 (Sub-No. E740), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd., N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, not frozen, in vehicles equipped with mechanical refrigeration (except in bulk and except meats, meat products, meat by-products, and articles distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766), from Brownsville, Tex., to Mackinaw City, Mich. The purpose of this filing is to eliminate the gateway of Doraville, Ga.

No. MC 95540 (Sub-No. E741), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd., N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, *coconuts*, and *pineapples*, when moving in the same vehicle and at the same time with bananas, from those points in Pennsylvania east of U.S. Highway 15 to those points in Mississippi on and south of a line beginning at the Mississippi-Alabama State line and extending along U.S. Highway 98 to junction Mississippi Highway 26, thence along Mississippi Highway 26 to the Mississippi-Georgia State line. The purpose of this filing is to eliminate the gateway of Jacksonville, Fla.

No. MC 95540 (Sub-No. E742), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd., N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from those points in North Carolina east of U.S. Highway 301 to points in Oklahoma on and west of U.S. Highway 283. The purpose of this filing is to eliminate the gateways of Jacksonville, Fla., and Gulfport, Miss.

No. MC 95540 (Sub-No. E743), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd., N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from those points in North Carolina on and east of a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 301 to junction U.S. Highway 3, then U.S. Highway 3 to junction U.S. Highway 258, then U.S. Highway 258 to the North Carolina-Virginia State line, to those points in Texas on and west of a line beginning at the Louisiana-Texas State line and extending along Texas Highway 21 to junction Texas Highway 103, then Texas Highway 103 to junction U.S. Highway 287, then U.S. Highway 287 to the Texas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of Jacksonville, Fla., and Gulfport, Miss.

No. MC 95540 (Sub-No. E744), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd., N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from those points in New Jersey on and south of a line beginning at the Delaware-New Jersey State line and extending along Interstate Highway 295 to junction New Jersey Highway 49, excluding Deepwater, then New Jersey Highway 49 to junction New Jersey Highway 50, then New Jersey Highway 50 to junction County Road 585, then County Road 585 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateways of Jacksonville, Fla., and Gulfport, Miss.

No. MC 95540 (Sub-No. E745), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd., N.E., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from those points in New Jersey on and south of a line beginning at the New York-New Jersey State line and extending along U.S. Highway 19 to junction New Jersey Highway 27, then New Jersey Highway 27 to junction U.S. Highway 1, then U.S. Highway 1 to the New Jersey-Pennsylvania State line, to those points in Arizona on and west of a line beginning at the New Mexico-Arizona State line and extending along U.S. Highway 80 to junction Interstate Highway 10, then Interstate Highway 10 to junction Interstate Highway 8, then Interstate Highway 8 to the California-Arizona State line. The purpose of this filing is to eliminate the gateways of Jacksonville, Fla., and Gulfport, Miss.

No. MC 95540 (Sub-No. E746), filed May 17, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, 5299 Roswell Rd., N.E., Suite 212, Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned citrus products*, not frozen, in mixed loads with citrus products, not canned, and not frozen, in vehicles equipped with mechanical refrigeration, from those points in Florida on and east of a line beginning at the Florida-Georgia State line and extending along U.S. Highway 221 to junction Florida Highway 361, then Florida Highway 361 to the Gulf of Mexico, to those points in Texas north of a line beginning at the Texas-Arkansas State line and extending along U.S. Highway 59 to junction Texas Highway 155, then Texas Highway 155 to junction U.S. Highway 271, then U.S. Highway 271 to junction Texas Highway 31, then Texas Highway 31 to junction U.S. Highway 84, then U.S. Highway 84 to junction Texas Highway 16, then Texas Highway 16 to junction U.S. Highway 190, then U.S. Highway 190 to junction U.S. Highway 87, then U.S. Highway 87. The purpose of this filing is to eliminate the gateway of Doraville, Ga.

No. MC 96719 (Sub-No. E1), filed February 6, 1975. Applicant: THRASHER TRUCKING COMPANY, P.O. Box 116, Monahans, Texas 79765. Applicant's representative: Mike Cotten, P.O. Box 1148, Austin, Texas 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery*, *equipment* and *supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and byproducts, but excluding pipe stringing, or picking up in connection with the construction or dismantling of pipe lines; *machinery*, *materials*, *supplies*, and *equipment* incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; *machinery* and *equipment* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, and *materials* and *supplies* (not including sulphur) used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, restricted to the transportation of shipments of materials and supplies moving to or from exploration, drilling, production, job, construction, plant (including refining, manufacturing, and processing plant) sites or storage sites; *machinery*, *equipment*, *materials*, and *supplies* used in, or in connection with, the drilling of water wells; *machinery*, *equipment*, *materials*, and *supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way; *earth drilling machinery and equipment*, and *machinery equipment*, *materials*, and *supplies* and *pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resuting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, between points in New Mexico on the one hand, and, on the other, Jasper, Lone Star, Bond, Teneha, and Orange, Tex. The purpose of this filing is to eliminate the gateway of points in that part of Texas on, west and south of a line extending in a southerly direction from the Oklahoma-Texas State line along U.S. Highway 81 to San Antonio, Tex., thence in an easterly direction along U.S. Highway 90 to Houston.

No. MC 96719 (Sub-No. E2), filed February 8, 1975. Applicant: THRASHER TRUCKING COMPANY, P.O. Box 116, Monahans, Texas 79765. Applicant's representative: Mike Cotten, P.O. Box 1148, Austin, Texas 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery*, *equipment* and *supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and byproducts, but excluding pipe stringing, or picking up in connection with the construction or dismantling of pipe lines; *machinery*, *materials*, *supplies*, and *equipment* incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; *machinery* and *equipment* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, and *materials* and *supplies* (not including sulphur) used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, restricted to the transportation of shipments of materials and supplies moving to or from exploration, drilling, production, job, construction, plant (including refining, manufacturing, and processing plant) sites or storage sites;

Machinery, *equipment*, *materials*, and *supplies* used in, or in connection, with the drilling of water wells; *machinery*, *equipment*, *materials*, and *supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way; *earth drilling machinery* and

XUM

equipment, and *machinery equipment, materials, supplies*, and *pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, (1) between Lone Star and Bond, Texas, on the one hand, and, on the other, points in Oklahoma located on and west of U.S. Highway 81, (2) between Tenaha, Tex., and points in Oklahoma on, west and north of a line beginning at the Kansas-Oklahoma State line, thence along U.S. Highway 177 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 77 along U.S. Highway 77 to the Oklahoma-Texas State line, (3) between Jasper, Tex., and points in Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line thence along Oklahoma Highway 99 to junction U.S. Highway 377, thence along U.S. Highway 377 to the Oklahoma-Texas State line; (4) between Orange, Tex., and points in Oklahoma on and west of U.S. Highway 75. The purpose of this filing is to eliminate the gateways of points in Texas on, west and south of a line extending in a southerly direction from the Oklahoma-Texas State line along U.S. Highway 81 to San Antonio, Tex., thence in an easterly direction along U.S. Highway to Heuston.

No. MC 96719 (Sub-No. E3), filed February 6, 1975. Applicant: THRASHER TRUCKING COMPANY, P.O. Box 116, Monahans, Tex. 79765. Applicant's representative: Mike Cotten, P.O. Box 1148, Austin, Tex. 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials* and *supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment* and *supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipe lines, including the stringing and picking up thereof; *machinery* and *equipment* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, and *materials* and *supplies* (not including sulphur) used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of sulphur and its products, restricted to the transportation of shipments of materials and supplies moving to or from exploration, drilling, production, job, construction, plant (including refining, manufacturing, and processing plant) sites or storage sites;

Machinery, equipment, materials, and *supplies* used in, or in connection with, the drilling of water wells; *machinery, equipment, materials*, and *supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way; *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells between points in Lea and Eddy Counties, N. Mex., on the one hand, and, on the other, Jasper, Lone Star, Bond, Tenaha, and Orange, Tex. The purpose of this filing is to eliminate the gateways of points in that part of Texas on and west of U.S. Highway 81, not including those in Bexar and Tarrant Counties, Tex.

No. MC 96719 (Sub-No. E4), filed February 6, 1975. Applicant: THRASHER TRUCKING COMPANY, P.O. Box 116, Monahans, Tex. 79765. Applicant's representative: Mike Cotten, P.O. Box 1148, Austin, Tex. 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, materials, supplies*, and *equipment* incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, between points in New Mexico and that part of Texas on, west and south of a line beginning at the Oklahoma-Texas State line, thence along U.S. Highway 81 to junction U.S. Highway 90, thence along U.S. Highway 90 to Houston, Tex. on the one hand, and, on the other, points in Kansas. The purpose of this filing is to eliminate the gateways of points in Oklahoma.

No. MC 96719 (Sub-No. E5), filed February 6, 1975. Applicant: THRASHER TRUCKING COMPANY, P.O. Box 116, Monahans, Tex. 79765. Applicant's representative: Mike Cotten, P.O. Box 1148, Austin, Tex. 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, materials, supplies, and equipment* incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, (1) between Orange and Jasper, Tex., on the one hand, and, on the other, points in Kansas; (2) between Tenaha, Tex., on the one hand, and, on the other points in Kansas on and west of a line beginning at the Missouri-Kansas State line, thence along U.S. Highway 59 to junction Kansas Highway 4, thence along Kansas Highway 4 to junction Kansas Highway 99.

Thence along Kansas Highway 99 to the Kansas-Oklahoma State line; (3) between Lone Star and Bond, Tex., on the one hand, and, on the other, points in Kansas on and west of a line beginning at the Nebraska-Kansas State line thence along U.S. Highway 77 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateways of points in that part of Texas on, west and south of a line extending in a southerly direction from the Oklahoma-Texas State line along U.S. Highway 81 to San Antonio, Tex., thence in an easterly direction along U.S. Highway 90 to Houston and points in Oklahoma.

No. MC 96719 (Sub-No. E6), filed February 6, 1975. Applicant: THRASHER TRUCKING COMPANY, P.O. Box 116, Monahans, Tex. 79765. Applicant's representative: Mike Cotten, P.O. Box 1148, Austin, Tex. 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Earth drilling machinery and equipment, and machinery*, equipment, materials, supplies and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, between points in Arizona on and north of U.S. Highway 66, on the one hand, and, on

the other, points in Oklahoma and that points in that part of Texas on, west and south of a line beginning at the Oklahoma-Texas State line thence along U.S. Highway 81 to junction U.S. Highway 90, thence along U.S. Highway 90 to Houston, Tex. The purpose of this filing is to eliminate the gateways of points in New Mexico on and north of U.S. Highway 66.

No. MC 96719 (Sub-No. E7), filed February 6, 1975. Applicant: THRASHER TRUCKING COMPANY, P.O. Box 116, Monahans, Tex. 79765. Applicant's representative: Mike Cotten, P.O. Box 1148, Austin, Tex. 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, between points in Arizona on and north of U.S. Highway 66, on the one hand, and, on the other, points in Kansas. The purpose of this filing is to eliminate the gateways of points in New Mexico on and north of U.S. Highway 66 and Oklahoma.

No. MC 97619 (Sub-No. E8), filed February 6, 1975. Applicant: THRASHER TRUCKING COMPANY, P.O. Box 116, Monahans, Tex. 79765. Applicant's representative: Mike Cotten, P.O. Box 1148, Austin, Tex. 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, between points in Arizona on and north of U.S. Highway 66 on the one hand, and, on the other, Jasper, Lone Star, Bond, Tenaha, and Orange, Texas. The purpose of this filing is to eliminate the gateways between points in Texas on, west and south of a line extending in a southerly direction from the Oklahoma-Texas State line along U.S. Highway 81 to San Antonio, Tex., thence in an easterly direction along U.S. Highway 90 to Houston and points in New Mexico on and north of U.S. Highway 66.

No. MC 96719 (Sub-No. E9), filed February 6, 1975. Applicant: THRASHER TRUCKING COMPANY, P.O. Box 116, Monahans, Tex. 79765. Applicant's representative: Mike Cotten, P.O. Box 1148, Austin, Tex. 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, materials, supplies, and equipment* incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells. From Kansas City, Mo. to points in Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line thence along Oklahoma Highway 18 to junction Oklahoma Highway 33, thence along Oklahoma Highway 33 to junction Oklahoma Highway 99, thence along Oklahoma Highway 99 to junction Oklahoma Highway 7, thence along Oklahoma Highway 7 to junction Oklahoma Highway 7 to junction Oklahoma Highway 48, thence along Oklahoma Highway 48 to junction Oklahoma Highway 78, thence along Oklahoma Highway 78, to the Oklahoma-Texas State line. The purpose of this filing is to eliminate the gateways points in Kansas on and east of Kansas Highway 23 and on and west of U.S. Highway 77.

No. MC 96719 (Sub-No. E10), filed February 6, 1975. Applicant: THRASHER TRUCKING COMPANY, P.O. Box 116, Monahans, Tex. 79765. Applicant's representative: Mike Cotten, P.O. Box 1148, Austin, Tex. 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, materials, supplies, and equipment* incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells, From Kansas City, Mo., to points in Arizona on and north of U.S. Highway 66. The purpose of this filing is to eliminate the gateways of points in Kansas on and east of Kansas Highway 23 and, on and west of U.S. Highway 77, points in Oklahoma and points in New Mexico on and north of U.S. Highway 66.

No. MC 103926 (Sub-No. E1), filed May 31, 1974. Applicant: W. T. MAYFIELD SONS TRUCKING CO., P.O. Box 947, Mableton, Ga. 30059. Applicant's representative: Paul M. Daniell, Suite 1600 1st Federal Bldg., Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Prestressed* and *precast concrete* and *prestressed and precast concrete products*, from Charlotte, N.C., to points in Alabama, points in that part of Tennessee on and west of U.S. Highway 41, points in that part of Florida west of the Suwanee River, and points in that part of Florida in and south of Pinellas, Hillsborough, Polk, Osceola, and Indian River Counties, Fla. (Fulton County, Ga.)*; and (B) *Contractors' metal tanks*, setup, requiring special equipment and handling, not limited to such tanks as are intended solely for use by contractors; (1) from points in that part of Florida east of the Apalachicola River, to points in Kentucky; (2) from points in that part of North Carolina in and east of Yancey, McDowell, and Rutherford Counties, to points in Mississippi, (3) between points in Alabama, on the one hand, and, on the other, points in that part of North Carolina north and east of a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 52 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 321, thence along U.S. Highway 321 to the North Carolina-Tennessee State line.

(4) Between points in that part of North Carolina west and south of U.S.

Highway 52, on the one hand, and, on the other, points in that part of Alabama west and south of a line beginning at the Alabama-Tennessee State line and extending along Interstate Highway 65 to junction Interstate Highway 20, thence along Interstate Highway 20 to the Alabama-Georgia State line, (5) from points in that part of South Carolina on, east, and south of a line beginning at the South Carolina-Georgia State line and extending along Interstate Highway 95 to junction Interstate Highway 26, thence along Interstate Highway 26 to Charleston, to points in that part of Kentucky on and west of Interstate Highway 65, (6) from points in that part of South Carolina north and east of a line beginning at the South Carolina-North Carolina State line and extending along Interstate Highway 95 to junction U.S. Highway 521, thence along U.S. Highway 521 to Georgetown, to points in that part of Kentucky on and west of U.S. Highway 231, (7) from points in Richland, Calhoun, and Lexington Counties, S.C., to points in that part of Kentucky on and west of U.S. Highway 231, (8) from points in that part of North Carolina on, east, and north of a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 701 to junction U.S. Highway 74, thence along U.S. Highway 74 to Wilmington, to points in that part of Kentucky on and west of U.S. Highway 231.

(9) from points in that part of North Carolina on and east of U.S. Highway 1 to points in that part of Kentucky on and west of U.S. Highway 45, (10) between points in that part of South Carolina on and bounded by a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 1 to the North Carolina-Georgia State line, thence along the North Carolina-Georgia State line to Interstate Highway 95, thence along Interstate Highway 95 to the North Carolina-South Carolina State line, thence along the North Carolina-South Carolina State line to U.S. Highway 1, on the one hand, and, on the other, points in that part of Tennessee on and west of a line beginning at the Alabama-Tennessee State line and extending along Tennessee Highway 13 to junction U.S. Highway 79, thence along U.S. Highway 79 to the Tennessee-Kentucky State line, (11) between points in Mecklenburg County, N.C., on the one hand, and, on the other, points in that part of Tennessee on and west of the Tennessee River, (12) between points in that part of North Carolina on and east of U.S. Highway 1, on the one hand, and, on the other, points in that part of Tennessee on and west of U.S. Highway 41, (13) between points in that part of South Carolina on, south, and east of a line beginning at the South Carolina-Georgia State line and extending along Interstate Highway 95 to junction Interstate Highway 26, thence along Interstate Highway 26 to Charleston, on the one hand, and, on the other, points in that part of Alabama on and north of U.S. Highway 78.

(14) Between points in that part of South Carolina bounded by a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 301 to the South Carolina-Georgia State line, thence along the South Carolina-Georgia State line to junction U.S. Highway 1, thence along U.S. Highway 1 to the South Carolina-North Carolina State line, thence along the South Carolina-North Carolina State line to U.S. Highway 301, on the one hand, and, on the other, points in that part of Alabama on and north of U.S. Highway 80, (15) between points in that part of South Carolina on and west of South Carolina Highway 72, on the one hand, and, on the other, points in that part of Alabama on and south of U.S. Highway 78, (16) from points in South Carolina to points in Mississippi, (17) from points in Florida west of the Suwanee River, to points in North Carolina (except those in Columbus, Brunswick, Bladen, Pender, Hanover, and Onslow Counties, N.C.), (18) from points in Florida east of the Suwanee River, to points in Mississippi on and north of Interstate Highway 20, (19) from points in Florida east of the Apalachicola River, to points in Alabama on and north of a line formed by U.S. Highway 280 extending from the Georgia-Alabama State line to Birmingham, Ala., thence along U.S. Highway 11 to Tuscaloosa, Ala., thence along U.S. Highway 82 to the Alabama-Mississippi State line, (20) from points in Florida west of the Suwanee River and east of the Apalachicola River to points in that part of Mississippi on and north of a line formed by U.S. Highway 82 extending from the Arkansas-Mississippi State line at Greenville, Miss., extending eastward to the Trace National Parkway, thence along the Trace National Parkway to junction U.S. Highway 78 and thence along U.S. Highway 78 to the Mississippi-Alabama State line, (21) from points in South Carolina on and east of Interstate Highway 95 to those points in Tennessee on and east of a line formed by the Georgia-Tennessee State line to Murfreesboro, Tenn., and thence along U.S. Highway 231 to the Kentucky-Tennessee State line (Newman, Ga.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 106398 (Sub-No. E29) (Correction), filed May 31, 1974, published in the FEDERAL REGISTER, October 29, 1974. Applicant: NATIONAL TRAILER CONVOY, INC., P.O. Box 3329, Tulsa, Okla. 74101. Applicant's representative: Irvin Tull (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Buildings*, in sections, when transported on wheeled undercarriages equipped with hitch-ball connector, from points in Arizona, California, Nevada, New Mexico, and Utah, to points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, and the District of Columbia, restricted against the transportation of trailers or mobile homes designed to be drawn by passenger automobiles and oil field and industrial buildings. The purpose of this filing is to eliminate the gateway of any point in California, Nevada, Utah, Arizona or New Mexico. The purpose of this correction is to omit the commodity restriction.

No. MC 106398 (Sub-No. E58) (Correction), filed May 31, 1974, published in the FEDERAL REGISTER November 4, 1974. Applicant: NATIONAL TRAILER CONVOY, INC., P.O. Box 3329, Tulsa, Okla. 74101. Applicant's representative: Irvin Tull (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings*, in sections, when transported on wheeled undercarriages equipped with hitch-ball connector, from points in New York and Massachusetts to points in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, and the District of Columbia. The purpose of this filing is to eliminate the gateway of any points in New York or Massachusetts. The purpose of this correction is to omit the restriction.

No. MC 106398 (Sub-No. E72) (Correction), filed May 31, 1974, published in the FEDERAL REGISTER November 4, 1974. Applicant: NATIONAL TRAILER CONVOY, INC., P.O. Box 3329, Tulsa, Okla. 74101. Applicant's representative: Irvin Tull (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings*, in sections, when transported on wheeled undercarriages equipped with hitch-ball connector, from points in Alabama, Arkansas, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Mississippi, Missouri, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, and Wisconsin, to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Florida, Washington, Oregon, California, Nevada, Idaho, Montana, Wyoming, Colorado, New Mexico, Utah, Arizona, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas. The purpose of this filing is to eliminate the gateway of any point in Louisiana, Mississippi,

Alabama, Georgia, South Carolina, North Carolina, Tennessee, Arkansas, Missouri, Illinois, Kentucky, West Virginia, Virginia, Pennsylvania, Ohio, Indiana, Michigan, Wisconsin, or Iowa. The purpose of this correction is to omit the restriction.

No. MC 106398 (Sub-No. E143) (Correction), filed May 31, 1974, published in the FEDERAL REGISTER October 31, 1974. Applicant: NATIONAL TRAILER CONVOY, INC., P.O. Box 3329, Tulsa, Okla. 74101. Applicant's representative: Irvin Tull (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board* (except in bulk), from the plant site of U.S. Plywood-Champion Papers, Inc., near Oxford, Miss., to points in Minnesota, Wisconsin, and Michigan. The purpose of this filing is to eliminate the gateway of the facilities of the Celotex Corporation at Charleston, Ill. The purpose of this correction is to correct the "E" number, previously published as E144.

No. MC 106401 (Sub-No. E3) (Correction), filed May 13, 1974, published in the FEDERAL REGISTER October 24, 1974. Applicant: JOHNSON MOTOR LINES, INC., P.O. Box 10877, Charlotte, N.C. 28234. Applicant's representative: Thomas G. Sloan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading), (1) from points in Buncombe, McDowell, Burke, Caldwell, Catawba, and Mecklenburg Counties, N.C. (except points on U.S. Highway 29 between the Gaston-Mecklenburg County line and Charlotte, N.C., points on North Carolina Highway 49 between Charlotte and the Mecklenburg-Cabarrus County line, points on U.S. Highway 70 between the Iredell-Catawba County line and Hickory, points on U.S. Highway 321 between Hickory and the junction of Alternate U.S. Highway 321 and points on Alternate U.S. Highway 321 between the junction of U.S. Highway 321 and Valmead), to Corning and New York, N.Y., Hagerstown, Md., Danville, Lynchburg, and Winchester, Va., points in Bergen, Burlington, Cumberland, Essex, Gloucester, Hudson, Mercer, Middlesex, and Passaic Counties, N.J., and points in Pennsylvania east of a line beginning at the Maryland-Pennsylvania State line and extending along U.S. Highway 522 to Selinsgrove, Pa., and thence along U.S. Highway 11 to the Pennsylvania-New York State line, including points on the indicated portions of the highway specified:

(2) from points in Iredell, Rowan, Cabarrus, and Stanly Counties, N.C. (except points on North Carolina Highway 49 between the Mecklenburg-Cabarrus County line and the junction of unnumbered highway just south of Concord, points on unnumbered highway between the junction of North Carolina Highway 49 and Concord, points on Alternate U.S. Highway 29 between Concord and the junction of U.S. Highway 29, points on U.S. Highway 29 between the junction of Alternate U.S. Highway 29 and the Rowan-Davidson County line, and points on U.S. Highway 70 between Salisbury and the Iredell-Catawba County line), to New York, N.Y., Hagerstown, Md., Winchester, Va., and points in Bergen, Burlington, Cumberland, Essex, Gloucester, Hudson, Mercer, Middlesex, and Passaic Counties, N.J., and points in Pennsylvania east of a line beginning at the Maryland-Pennsylvania State line and extending along U.S. Highway 522 to Selinsgrove, Pa., and thence along U.S. Highway 11 to the Pennsylvania-New York State line, including points on the indicated portions of the highway specified. Restriction: The authority described above is restricted against the transportation of uncrated store fixtures, uncrated hotel equipment, and uncrated kitchen equipment, to New York, N.Y. The purpose of this filing is to eliminate the gateways of Charlotte, N.C., points in Essex County, N.J., and Nicholson, Pa. The purpose of this correction is to include the restriction.
